To Our Stockholders:

The year 2003 has been a significant turnaround year for all aspects of the company. We would like to begin this letter by thanking our dedicated employees, staunch NetSol stockholders and loyal customers.

Information technology outsourcing is a proven business model built on recurring revenue streams and costs leveraged across multiple customers. Over the last several months we have recognized considerable growth from our existing base of customers and have expanded this base with prestigious names such as DCD Group, CapitalStream, Inc., DaimlerChrysler, New Zealand, and three large financial institutions including United Kingdom-based Habib Allied International Bank PLC. Information technology (IT) outsourcing has proven to be one of the bright spots in the IT services industry, resulting in our achieving double digit increases in revenue over the past two quarters.

Economic pressures have driven more companies to outsource major elements of their IT operations, particularly application development and technology consulting. NetSol has capitalized on this market trend by providing an off-shore development model at costs well below those of companies located in India, Europe and the United States. Our customers have found that by working with NetSol they gain the financial and operational benefits of an organization that understands the complexities of their industry and produces high quality products on time, every time. This capability is possible through our achieving the Carnegie Mellon Software Engineering Institute Level 3 Capability Maturity Model ranking. This achievement entailed 18 months of intense work by our Lahore, Pakistan, development group and indicates that our organizational infrastructure will consistently produce enhanced product and software processes resulting in faster project turnaround and a shortened time-to-market. We expect to achieve a Level 4 ranking by June 2004.

To maintain our growth trend and to penetrate new markets, we have adapted a dynamic growth strategy by pulling from new and existing customers as well as growth through accretive acquisitions. Greater mass allows costs to be distributed across a larger customer base, which improves operating margins and further reduces our sales and general and administrative costs as a percentage of revenue.

Over the past several months we have acquired two companies, one in the United Kingdom, Pearl Treasury Systems Ltd., and one in the United States, Altvia Technologies. Pearl Treasury Systems, with its ability to seamlessly handle foreign exchange and money market trading, trading in derivative products, risk management and credit control, promises to be a tremendous success

Table of Contents

within financial institutions where individual deal values are in the range of \$10 million to over \$1 billion. Pearl Treasury Systems is moving into a controlled beta site in the beginning of June 2004. Our second acquisition, Altvia Technologies, providing custom application and database development, along with knowledge management and content management, to a variety of vertical markets, has added to our top and bottom line with customers such as INMED Child Health and Education, Center for International Private Enterprise, and the Telecommunications Industry Association.

In addition to the acquisition of Pearl Treasury Systems and Altvia Technologies, we have engaged United Kingdom-based Langham Capital Ltd., a company specializing in IT mergers and acquisitions of Indian companies, to work with Maxim Group, a New York-based investment banking firm, to seek acquisition opportunities both within India and the United States. We expect to announce an accretive acquisition in the near future as we believe that achieving critical mass through internal growth and acquisition is the key to our becoming a profitable company.

We feel strongly that the relationships and partnerships recently established with well-known companies such as Hyundai Information Technology and Intel Pakistan should provide significant revenue growth over the next twelve to eighteen months. These relationships have already presented NetSol with several long-term prospects. Through our relationship with Intel Pakistan we had the opportunity to attend the Asia Pacific Forum held in Shenzhen, China, where we were the sole representative in the Asset Based Solutions sector. We are carefully evaluating our potential market in China's rapidly growing economy.

Our initial partnership with Hyundai Information Technology has developed into a joint venture agreement under which Hyundai and NetSol will work as a team on all infrastructure development projects within Pakistan. The joint venture positions Hyundai and NetSol to win a major share of mission critical government funded projects. Pakistan is enjoying tremendous growth and its governing body has been charged with building a solid technology infrastructure to support education, public sector automation, railways and the country's armed forces.

We also expect growth through diversification and, in August, we entered into an agreement with The Akhter Group, a recognized provider of managed Internet services, local area networks and wide area networks, as well as metropolitan area networks within the United Kingdom. Akhter purchased a minority percentage ownership of NetSolConnect, our Internet Service Provider based in Pakistan. Akhter's initial step was the launch of a broadband infrastructure in Karachi, the largest business hub in Pakistan. This infrastructure, under development, will provide a 155MB backbone and a 5MB broadband to customer premises using a proprietary broadband technology and an infrastructure consisting of 20 hubs. We expect additional rollouts of the hubs to Karachi, Lahore, and Islamabad within the next 12 to 18 months. Pakistan presents an untapped market providing our new company, NetSol-Akhter, significant opportunities as the broadband communications project grows into a network providing data, voice, video and other multi-media services to major cities within Pakistan.

NetSol has worked diligently to improve its fundamentals. We have successfully reduced operating costs, our last three quarters have shown noteworthy revenue growth over comparable periods, our gross profit margins continue to show marked improvement, and our balance sheet has been significantly strengthened. Our hard work was recognized by our stockholders and the investment community when we received overwhelming support for a reverse split of our common stock initiated to maintain our Nasdaq listing. The reverse split was very successful with our stock

Table of Contents

maintaining an average appreciation of between of 30 to 35 percent when compared to the pre-split price of \$0.46. We fully expect our stock price to appreciate as we maintain our momentum and finish our fiscal year ending June 30, 2004, with a significant increase in revenue. Revenue obtained from our partnerships or through the acquisition of companies with complementary services and clients will only accelerate our revenue growth and assist in achieving our goal to become a profitable company.

We encourage you to vote your proxies or attend the annual meeting of stockholders on March 12, 2004. Together we will continue to build a company that increases in value while maintaining its stellar reputation as a leading software developer and provider of information technologies on a worldwide basis.

All of us here at NetSol thank you for your support.

Sincerely,

Naeem Ghauri

ELECTION OF DIRECTORS

GENERAL INFORMATION

The Bylaws of the Company provide that the Company is authorized to have up to nine directors, and that stockholders will elect the directors of the Company at each annual meeting. Directors are elected to serve a one-year term. Directors being elected at the Annual Meeting will serve until the Company's next annual meeting of stockholders, or until their successors have been duly elected and qualified. The Board of Directors does not contemplate that any of the persons it will nominate will be unable or unwilling to serve as a director. However, if that should occur, the Board of Directors reserves the right to name a substitute nominee at the Annual Meeting and persons named as proxies may exercise their discretion to vote for such nominee.

The board is currently comprised of nine members.

The eight nominees receiving the highest number of affirmative votes of the shares present in person or represented by proxy and entitled to vote for them, a quorum being present, shall be elected as directors. Only votes cast for a nominee will be counted, except that the accompanying proxy will be voted for all nominees in the absence of instruction to the contrary. Abstentions, broker nonvotes and instructions on the accompanying proxy to withhold authority to vote for one or more nominees will result in the respective nominees receiving fewer votes. However, the number of votes otherwise received by the nominee will not be reduced by such action.

THE BOARD RECOMMENDS A VOTE FOR THE ELECTION OF EACH OF THE DIRECTOR NOMINEES NAMED BELOW.

BOARD MEETINGS AND BOARD COMMITTEES

The Company has a compensation committee and an audit committee. The audit committee had one meeting and compensation committee had two meetings during fiscal year 2003. The Company's board of directors had four meetings during fiscal year 2003.

Our audit committee consists of three members of which one is independent as defined by NASDAQ's standards for audit committee independence. The compensation committee consists of three members of which one is independent as defined by NASDAQ's standards. NASDAQ's listing standards require all members of NetSol's audit committee to be independent by no later than July 31, 2005. It is the Company's intention to comply with these standards, as soon as practicable, but certainly no later than the compliance deadline.

In order to facilitate the various functions of the Board of Directors, the Board has created a standing Audit Committee and a standing Compensation Committee. The Board of Directors has no standing nominating committee or any committee performing the functions of a nominating committee. However, the Board has authorized the creation of a Corporate Governance and Nominating Committee which will be responsible for creating and implementing the Company's corporate governance policies, recommending appropriate Board and Board Committee structures and membership establishing procedures for the director nomination process and recommending nominees for election to the Board and Board Committees. Although no formal procedures for shareholder nominations to the Board currently exist, the Corporate Governance and Nominating Committee will also be responsible for recommending procedures which will permit shareholders to make recommendations of nominees to act as directors on the Board. The members of the Corporate Governance and Nominating Committee will qualify as independent directors as that term is defined by the listing standards of NASDAQ. It is anticipated that this Committee will become effective immediately after the Annual Meeting and that the charter for the Corporate Governance and Nominating Committee will be available to the Company's stockholders at the time the committee is established on the Company's web sites at www.netsoltek.com. Prior to the establishment of the Corporate Governance and Nominating Committee nominations for directorships were made by the following directors: Jim Moody, Javed Burki, Salim Ghauri, Naeem Ghauri and Najeeb Ghauri.

While the Company does not have a standing nominating committee and the Company does not rely on a fixed set of qualifications for director nominees, the primary mandate with respect to director nominees is to create a Board with a broad range of skills and attributes that is aligned with our strategic needs. The minimum qualifications for director nominees is that they (i) be able to dedicate the time and resources sufficient for the diligent performance of the duties required of a member of the Board of Directors, (ii) not hold positions that conflict with their responsibilities to NetSol, and (iii) comply with any other minimum qualifications for either individual directors or the Board as a whole mandated by applicable laws or regulations. The Company further evaluates nominees for director, including nominees recommended by

Edgar Filing: NETSOL TECHNOLOGIES INC - Form DEF 14A

stockholders, by considering an individual's skills, character and professional ethics, judgment, leadership experience, business experience and acumen, familiarity with relevant industry issues, national and international experience, and other relevant criteria as they may contribute to NetSol's success. This evaluation is performed in light of what skill set and other characteristics would most complement those of the current directors, including the diversity, age, skills and experience of the Board as a whole. With respect to identifying potential candidates, the Committee does not foreclose any sources.

While we do not have a formal policy regarding the consideration of director candidates recommended by shareholders, the bylaws of the Company provides a procedure for consideration of shareholder proposals at the annual meeting. As part of the institution of the Corporate Governance and Nominating Committee, the board plans to adopt procedures to provide a more accessible opportunity for shareholders to participate in the board candidate nominating process. The board believes that the adoption of such a policy is appropriate for providing meaningful participation by shareholders and that the absence of such a policy is not appropriate as it does not provide meaningful participations.

The bylaws of the Company currently permit shareholders to submit proposals for consideration at the annual shareholders meeting provided that such stockholders provide a timely notice in writing to the Corporate Secretary of the Company. (Proposal No. Two)

**RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS FOR FISCAL
2003-2004**

The Audit Committee along with the Board of Directors have appointed Kabani & Company, Inc. Inc. (Kabani) as independent auditors of the Company with respect to its operations for fiscal year 2003-2004, and has further directed that management submit such appointment for ratification by the holders of the Common Stock at the annual meeting of Stockholders. In taking this action, the members of the Audit Committee along with Board considered carefully Kabani 's reputation in providing accounting services to other public and private companies in the software and retail industries, its independence with respect to the services to be performed, its general reputation for adherence to professional auditing standards and the performance of Kabani during the audit of the Company 's consolidated financial statements for fiscal 2002.

Stockholder ratification of the selection of Kabani as the Company 's independent auditors is not required by the Company 's Bylaws or otherwise. The Board, however, is submitting the selection of Kabani to the stockholders for ratification as a matter of good corporate practice. Therefore, there will be present at the Annual Meeting a proposal for the ratification of this appointment, which the Board of Directors believes is advisable and in the best interests of the stockholders. If the appointment of Kabani is not ratified, the Board of Directors will consider the matter of the appointment of independent public accountants.

Audit Fees

Kabani & Co. audited the Company 's financial statements for the fiscal year ended June 30, 2003. The aggregate fees billed by Kabani & Co. for the 2003 annual audit was \$34,500. The Company 's previous auditor, Stonefield Josephson, conducted the audit of the financial statements for the fiscal year 2002. The aggregate fees billed by Stonefield Josephson was \$93,914.45.

Audit Related Fees

The aggregate fees billed by Kabani & Co. during fiscal 2003 including assurance and related audit services not covered in the preceding paragraph was \$29,750. These Audit Related Fees were primarily for services in connection with the review of quarterly financial statements and the Company 's filing of a Registration Statement on Form SB-2.

Tax Service Fees

The Company incurred no fees for taxes for fiscal years 2003 and 2002.

All Other Fees

There were no other fees billed by Kabani & Co. or Stonefield Josephson for services rendered to NetSol during the fiscal years ended June 30, 2003 and 2002, other than as described above.

Pre-Approval Procedures

The Audit Committee and the Board of Directors are responsible for the engagement of the independent auditors and for approving, in advance, all auditing services and permitted non-audit services to be provided by the independent auditors. The Audit Committee maintains a policy for the engagement of the independent auditors that is intended to maintain the independent auditor 's independence from NetSol. In adopting the policy, the Audit Committee considered the various services that the independent auditors have historically performed or may be needed to perform in the future. The policy, which is to be reviewed and re-adopted at least annually by the Audit Committee:

- (i) Approves the performance by the independent auditors of certain types of service (principally audit-related and tax), subject to restrictions in some cases, based on the Committee 's determination that this would not be likely to impair the independent auditors independence from NetSol;
- (ii) Requires that management obtain the specific prior approval of the Audit Committee for each engagement of the independent auditors to perform other types of permitted services; and

(iii) Prohibits the performance by the independent auditors of certain types of services due to the likelihood that their independence would be impaired.

Any approval required under the policy must be given by the Audit Committee, by the Chairman of the Committee in office at the time, or by any other Committee member to whom the Committee has delegated that authority. The Audit Committee does not delegate its responsibilities to approve services performed by the independent auditors to any member of management.

The standard applied by the Audit Committee in determining whether to grant approval of an engagement of the independent auditors is whether the services to be performed, the compensation to be paid therefore and other related factors are consistent with the independent auditors' independence under guidelines of the Securities and Exchange Commission and applicable professional standards. Relevant considerations include, but are not limited to, whether the work product is likely to be subject to, or implicated in, audit procedures during the audit of NetSol's financial statements; whether the independent auditors would be functioning in the role of management or in an advocacy role; whether performance of the service by the independent auditors would enhance NetSol's ability to manage or control risk or improve audit quality; whether performance of the service by the independent auditors would increase efficiency because of their familiarity with NetSol's business, personnel, culture, systems, risk profile and other factors; and whether the amount of fees involved, or the proportion of the total fees payable to the independent auditors in the period that is for tax and other non-audit services, would tend to reduce the independent auditors' ability to exercise independent judgment in performing the audit.

The affirmative vote of holders of a majority of the aggregate voting power of Common Stock issued, outstanding and entitled to vote, present or represented at the Annual Meeting, a quorum being present, is required for the adoption of this proposal. Broker nonvotes with respect to this matter will be treated as neither a vote for nor a vote against the matter, although they will be counted in determining if a quorum is present. However, abstentions will be considered in determining the number of votes required to attain a majority of the shares present or represented at the Annual Meeting and entitled to vote. Accordingly, an abstention from voting by a stockholder present in person or by proxy at the meeting has the same legal effect as a vote against the matter because it represents a share present or represented at the Annual Meeting and entitled to vote, thereby increasing the number of affirmative votes required to approve this proposal.

THE BOARD RECOMMENDS A VOTE FOR THE RATIFICATION OF THE APPOINTMENT OF KABANI & COMPANY, INC. AS THE COMPANY'S INDEPENDENT AUDITORS FOR FISCAL 2004.

(Proposal No. Three)

PROPOSED ADOPTION OF THE 2003 STOCK OPTION AND AWARD PLAN

At the Annual Meeting there will be submitted to stockholders a proposal to adopt the 2003 Stock Option and Award Plan (the 2003 Plan). The Board of Directors unanimously approved the adoption of the 2003 Plan on December 6, 2003. Adoption of the 2003 Plan is subject to the approval of a majority of the shares of the Company's common stock, which are present in person or by proxy and entitled to vote at the Annual Meeting. The following summary of the principal features of the amendments to the Plan is qualified in its entirety by the full text of the Plan, a copy

Table of Contents

of which may be obtained by contacting the Company directly or from the Internet at WWW.SEC.GOV from the SEC's Edgar database under the Company's DEF14A submission.

Purpose

The 2003 Plan is intended to increase incentive and to encourage stock ownership on the part of (1) employees of the Company and its affiliates, (2) consultants who provide significant services to the Company and its affiliates (consultants), and (3) directors of the Company who are employees of neither the Company nor any affiliate (nonemployee directors). The 2003 Plan also is intended to further the growth and profitability of the Company.

General

The 2003 Plan permits the granting of stock options, stock appreciation rights, restricted stock awards, performance units and performance shares (collectively, Awards) to eligible participants. The total number of shares of the Company's common stock available for Awards to be granted under the 2003 Plan will consist of the 2,000,000 shares. If an Award expires or is canceled without having been fully exercised or vested, the unvested or canceled shares generally will be available again for grants of Awards.

Administration of the 2003 Plan

The 2003 Plan is administered by the Compensation Committee of the Company's Board of Directors (the Committee) along with the management. Subject to the terms of the 2003 Plan, the Committee has the discretion to determine the key employees and consultants who shall be granted Awards, the terms and conditions of such Awards, and to construe and interpret the 2003 Plan. The Committee also is responsible for making adjustments in Awards, the shares available for Awards, and the numerical limitations for Awards (including as to nonemployee directors) to reflect any transactions such as stock splits or stock dividends. The Committee may delegate its authority to a separate committee appointed by the Committee, but only the Committee can make Awards to participants who are executive officers of the Company. The Board of Directors may amend or terminate the 2003 Plan at any time and for any reason, but as required under Rule 16b-3, certain material amendments to the 2003 Plan must be approved by stockholders.

Eligibility to Receive Awards

Employees and consultants of the Company and its affiliates (i.e., any corporation or other entity controlling, controlled by, or under common control with the Company) are eligible to be selected to receive one or more Awards. The Company and its affiliates currently have approximately 245 employees. The actual number of employees and consultants who will receive Awards under the 2003 Plan cannot be determined because eligibility for participation in the Plan is in the discretion of the Committee. The 2003 Plan also permits nonemployee directors to elect to receive all or part of their annual retainer in shares of the Company's common stock, and provides for the automatic grant of stock options to nonemployee directors. Nonemployee directors are not eligible for any of the other Awards available under the 2003 Plan.

Table of Contents

Options

The Committee may grant nonqualified stock options and/or incentive stock options (which are entitled to favorable tax treatment). The number of shares covered by each option will be determined by the Committee. The price of the shares of the Company's common stock subject to each option is set by the Committee. In addition, the exercise price of an incentive stock option must be at least 100% of fair market value on the grant date (110% of fair market value if the participant owns stock possessing more than 10% of the total combined voting power of all classes of stock of the Company or any of its subsidiaries).

The exercise price of each option must be paid in full at the time of exercise. The Committee also may permit payment through the tender of shares of the Company's common stock already owned by the participant, or by any other means, which the Committee determines to be consistent with the Plan's purpose. Any taxes required to be withheld must be paid by the participant at the time of exercise. If the exercise price of an option is paid in shares, the Committee may provide that the participant will receive a new option covering a number of shares equal to the number of shares tendered to exercise the previously granted option (including shares used for tax withholding). The terms and conditions of the new option generally will be similar to the terms and conditions applicable to the exercised option, except that the new option will have an exercise price determined on the date of its grant.

Options become exercisable and terminate at the times and on the terms established by the Committee, but options generally may not expire later than 10 years after the date of grant.

Restricted Stock Awards

Restricted stock awards are shares of the Company's common stock, which vest in accordance with terms established by the Committee in its discretion. For example, the Committee may provide that restricted stock will vest only if one or more performance goals are satisfied and/or only if the participant remains employed with the Company for a specified period of time. Any performance measures may be applied on a Company-wide or an individual business unit basis, as deemed appropriate in light of the participant's specific responsibilities.

Nonemployee Director Options and Stock

All options granted to nonemployee directors normally will expire ten years after the date of grant. If a director terminates service on the Board prior to an option's normal expiration date, an option may terminate sooner than its normal expiration date, depending upon the reason for the termination. An option will terminate thirty days after termination of service for any reason other than death, disability or retirement (but not later than the original maximum term of the option).

Nontransferability of Options

Awards granted under the 2003 Plan may not be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated, other than by will or by the applicable laws of descent and distribution.

Grant of Awards under 2003 Plan

At this time, NetSol does not have any current plans, proposals or arrangements to grant any awards of options written or otherwise under the 2003 Employee Stock Option Plan.

Required Vote

DEADLINE FOR SUBMISSION OF STOCKHOLDER PROPOSALS FOR 2004

The Rules of the Securities and Exchange Commission permit stockholders of the Company, after notice to the Company, to present proposals for stockholder action in the Company's proxy statement where such proposals are consistent with applicable law, pertain to matters appropriate for stockholder action and are not properly omitted by Company action in accordance with the proxy rules published by the Securities and Exchange Commission. The Company's 2004 annual meeting of stockholders is expected to be held on or about February 15, 2005 and proxy materials in connection with that meeting are expected to be mailed on or about January 2, 2004. The Company must receive stockholder proposals prepared in accordance with the proxy rules between December 12, 2004 and January 1, 2005.

FILINGS UNDER SECTION 16(A)

Officers, directors and greater than ten-percent beneficial owners are required by applicable regulations to furnish the Company with copies of any Section 16(a) forms they file.

Based solely upon a review of the copies of the forms furnished to the Company and written representations of the Company's directors and executive officers, the Company believes that the filings required and applicable to its officers, directors and ten-percent beneficial owners were complied with during fiscal 2003.
