## Item 5. Other Events

On October 18, 2001, the Company issued the following press release:

## SECOND BANCORP S IMPROVED EARNINGS TREND CONTINUES

Warren, Ohio, October 18, 2001 SECOND BANCORP INCORPORATED (Nasdaq SECD ) reported consolidated third quarter 2001 net income of $\$ 4,401,000$ compared to $\$ 4,258,000$ for the prior quarter and a loss of $(\$ 5,545,000)$ for third quarter 2000. Year-to-date earnings were $\$ 12.75$ million, an increase of $\$ 10.64$ million over reported results for last year s first nine months. Diluted earnings per share for the quarter were $\$ .43$ compared to the second quarter s $\$ .42$ and a (\$.55) loss for the year-ago quarter. Per share earnings for the first three quarters of the year were $\$ 1.26$ per share versus $\$ .20$ for the same period last year. Third quarter 2000 results were adversely effected by non-recurring restructuring and other charges totaling $\$ 9.02$ million on an after-tax basis.

## Edgar Filing: SECOND BANCORP INC - Form 8-K

## Table of Contents

The Company s key ratios for the third quarter and first nine months of 2001 were similarly improved over the same periods last year. Returns on average assets for the quarter and year-to-date were $1.11 \%$ and $1.09 \%$ respectively (compared to a negative $1.34 \%$ and $.18 \%$ a year ago) and returns on average equity were $13.87 \%$ for the quarter and $13.97 \%$ year-to-date (compared to a negative $19.01 \%$ and $2.43 \%$ respectively last year). Though somewhat weaker than second quarter 2001 performance, the Company s efficiency ratio also improved dramatically over a year ago finishing at $57.89 \%$ for the quarter and $58.20 \%$ for the first nine months of the year. Second Bancorp s net interest margin for the quarter was $3.49 \%$, significantly stronger than the $3.14 \%$ reported a year ago, and incrementally improved over the first two quarters of the year.

Non-interest income (excluding security and trading activity) for the reporting period was $\$ 4.42$ million, $4.5 \%$ lower than for the second quarter but, for the first three quarters of the year, was well ahead of last year s pace at more than $\$ 13$ million. The marginal drop in non-interest income quarter-to-quarter was due largely to a reduction in the market value of the Company s mortgage loan servicing portfolio. Income categories particularly strong during the third quarter and year-to-date were deposit service charges which were $16 \%$ and $18 \%$ ahead of results for the same periods last year and gains on sale of loans which were $\$ 1.4$ million for the quarter and $\$ 3.3$ million for the year.

Second Bancorp President and Chief Executive Officer R. L. (Rick) Blossom indicated We have been able to take advantage of the lowering interest rate environment this year by ramping up efforts in our core mortgage lending business. Wholesale and retail mortgage originations for the year, equally divided between purchase money loans and refinancings, have reached $\$ 356$ million and based upon the number of mortgage loan applications in the pipeline, we expect the heightened activity to continue at least through the end of the year. We have, however, meticulously avoided increasing the volume of long term, fixed rate loans on our books through secondary market activity while generally retaining servicing rights on loans that are sold. Though an expected spike in mortgage loan prepayments put a dent in the servicing portfolio, we completed the quarter with more than $\$ 650$ million in serviced loans which will continue to make a significant contribution to non-interest income.

Cost controls continued to play an important role in the Company s improving performance. Third quarter non-interest expenses were $\$ 10.08$ million, slightly higher than for the prior quarter but $23 \%$ lower than third quarter 2000. Year-to-date, non-interest expenses have been held to less than $\$ 30$ million, an $11.6 \%$ reduction from year-ago levels. Compared to third quarter 2000 results, virtually every non-interest expense category contributed to the drop in operating costs with professional services, amortization of goodwill and other intangibles, and other operating expenses leading the way. The Company s net overhead ratio which measures its ability to efficiently manage its revenue generating businesses, though a bit weaker on a quarter-to-quarter basis, was a strong $1.52 \%$ for the first nine months of the year compared to $2.37 \%$ for the same period last year.

With the general economic uncertainty facing the country and regional markets, credit quality remains a key consideration for financial institutions. Second Bancorp s quarter-end non-accrual and 90 -days past due but accruing loans were improved by $8.4 \%$ and $13.3 \%$ respectively compared to last quarter but were somewhat weaker than year-ago levels. Net charge-offs for the quarter were substantially unchanged from a year ago at $\$ 1.17$ million and were $\$ 2.88$ million or $.36 \%$ of average loans for the year compared to $.28 \%$ for the same period last year. The Company s loan loss reserve at the end of the quarter was $1.45 \%$ of period-end loans, unchanged from the prior quarter and 3 basis points stronger than a year ago.

## Table of Contents

Second Bancorp s pending acquisition of Commerce Exchange Corporation announced on July 23, 2001 is scheduled to close later this month. When completed, the transaction will contribute in excess of $\$ 100$ million in assets and two retail banking centers enhancing the Company s growing presence in the attractive suburban Cleveland market. Excluding transaction costs, the acquisition is expected to be immediately accretive to Second Bancorp s earnings per share.

The Company also reported that its Board of Directors declared a seventeen cent (\$.17) per share common dividend payable October 31, 2001 to shareholders of record on October 15. That dividend is unchanged from the second quarter of the year and is $6.25 \%$ higher than the dividend paid for the third quarter last year.

This announcement contains forward-looking statements that involve risk and uncertainties, including changes in general economic and financial market conditions and the Company s ability to execute its business plans. Although management believes the expectations reflected in such forward-looking statements are reasonable, actual results may differ materially.

Second Bancorp is a $\$ 1.6$ billion financial holding company providing a full range of commercial and consumer banking, trust, insurance and investment products and services to communities in a nine county area of Northeastern and East-Central Ohio through subsidiary Second National Bank s network of 35 retail banking centers.

Additional information about Second Bancorp and information about products and services offered by Second National Bank can be found on the World Wide Web at www.secondnationalbank.com.
