Table of Contents**GNC CORPORATION AND SUBSIDIARIES****SUMMARIZED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)****NOTE 1. NATURE OF BUSINESS**

General Nature of Business. GNC Corporation (the Company), formerly known as General Nutrition Centers Holding Company, a Delaware corporation, is a leading specialty retailer of vitamin, mineral and herbal supplements, diet and sports nutrition products and specialty supplements. The Company is also a provider of personal care and other health related products. The Company operates primarily in three business segments: Retail, Franchising and Manufacturing/Wholesale. The Company manufactures the majority of its branded products, and also merchandises various third-party products. Additionally, the Company licenses the use of its trademarks and trade names. The processing, formulation, packaging, labeling and advertising of the Company's products are subject to regulation by one or more federal agencies, including the Food and Drug Administration, Federal Trade Commission, Consumer Product Safety Commission, United States Department of Agriculture and the Environmental Protection Agency. These activities are also regulated by various agencies of the states and localities in which the Company's products are sold.

Acquisition of the Company. On October 16, 2003, the Company entered into a purchase agreement (the Purchase Agreement) with Koninklijke (Royal) Numico N.V. (Numico) and Numico USA, Inc. to acquire 100% of the outstanding equity interest of General Nutrition Companies, Inc. (GNCI) from Numico USA, Inc. on December 5, 2003 (the Acquisition). The purchase equity contribution was made by GNC Investors, LLC (GNC LLC), an affiliate of Apollo Management L.P. (Apollo), together with additional institutional investors and certain management of the Company. The equity contribution from GNC LLC was recorded by the Company. The Company utilized this equity contribution to purchase the investment in General Nutrition Centers, Inc., (Centers). Centers is a wholly owned subsidiary of the Company.

NOTE 2. BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements have been prepared by the Company in accordance with accounting principles generally accepted in the United States of America for interim financial reporting and with the instructions to Form 10-Q and Article 210-10-01 of Regulation S-X. Accordingly, they do not include all of the information and related footnotes that would normally be required by accounting principles generally accepted in the United States of America for complete financial reporting. These unaudited consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements in the Company's Annual Report on Form 10-K filed for the year ended December 31, 2004 (the Form 10-K).

The accompanying unaudited consolidated financial statements include all adjustments (consisting of a normal and recurring nature) that management considers necessary for a fair statement of financial information for the interim periods. Interim results are not necessarily indicative of the results that may be expected for the remainder of the year ending December 31, 2005.

The Company's normal reporting period is based on a 52-week calendar year.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. Accordingly, these estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Some of the most significant estimates pertaining to the Company include the valuation of inventories, the allowance for doubtful accounts, income tax valuation allowances and the recoverability of long-lived assets. On a continual basis, management reviews its estimates utilizing currently available information, changes in facts and circumstances, historical experience and reasonable assumptions. After such reviews, and if deemed appropriate, those estimates are adjusted accordingly. Actual results could differ from those estimates. There have been no material changes to critical estimates since the audited financial statements at December 31, 2004.

Cash and Cash Equivalents. The Company considers cash and cash equivalents to include all cash and liquid deposits and investments with a maturity of three months or less. The majority of payments due from banks for third-party credit cards process within 24-48 hours, except for transactions occurring on a Friday, which are generally processed the following Monday. All credit card transactions are classified as cash and the amounts due from these

transactions totaled \$1.5 million at June 30, 2005 and \$1.4 million at December 31, 2004.

7

Table of Contents**GNC CORPORATION AND SUBSIDIARIES****SUMMARIZED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED CONTINUED)**

Stock Compensation. In accordance with Accounting Principles Board (APB) No. 25, Accounting for Stock issued to Employees , the Company accounts for stock-based employee compensation using the intrinsic value method of accounting. For the three and six months ended June 30, 2005 and 2004, stock compensation represents shares of the Company s stock issued pursuant to the General Nutrition Centers Holding Company (presently known as GNC Corporation) 2003 Omnibus Stock Incentive Plan. The common stock associated with this plan is not registered or traded on any exchange. Statement of Financial Accounting Standards (SFAS) No. 123, Accounting for Stock-based Compensation , prescribes that companies utilize the fair value method of valuing stock-based compensation and recognize compensation expense accordingly. SFAS No. 123 did not require that the fair value method be adopted and reflected in the financial statements. However, in December 2004, the Financial Accounting Standards Board (FASB) issued SFAS No. 123(R) which sets accounting requirements for share-based compensation. It requires companies to recognize in the income statement the grant-date fair value of stock options and other equity-based compensation and disallows the use of the intrinsic value method of accounting for stock compensation. This statement is not effective for the Company until the beginning of our fiscal year 2006. The Company has adopted the disclosure requirements of SFAS No. 148 Accounting for Stock Based Compensation-Transition and Disclosure-an amendment of SFAS No. 123 by illustrating compensation costs in the following table and will adopt SFAS No. 123 (R) beginning with our fiscal year 2006.

Had compensation costs for stock options been determined using the fair market value method of SFAS No. 123, the effect on net income for each of the periods presented would have been as follows:

	Three Months ended		Six Months ended	
	June 30,		June 30,	
	2004	2005	2004	2005
	(unaudited)			
	(in thousands)

Less: total stock-based employee compensation costs determined using fair value method, net of related tax effects	(211)	(182)	(427)	(360)
Adjusted net income	\$14,196	\$6,929	\$30,168	\$9,487

Recently Issued Accounting Pronouncements

In May 2005, the Financial Accounting Standards Board (FASB) issued Statements of Financial Accounting Standards (SFAS) No. 154, Accounting Changes and Error Correction a replacement of APB Opinion No. 20 and FASB Statement No. 3. This Statement replaces APB Opinion No. 20, Accounting Changes, and FASB Statement No. 3, Reporting Accounting Changes in Interim Financial Statements, and changes the requirements for the accounting for and reporting of a change in accounting principle. This Statement requires retrospective application to prior periods financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. This Statement defines retrospective application as the application of a different accounting principle to prior accounting periods as if that principle had always been used or as the adjustment of previously issued financial statements to reflect a change in the reporting entity. This Statement also redefines restatement as the revising of previously issued financial statements to reflect the correction of an error. This statement is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The Company will adopt this standard beginning the first quarter of fiscal year 2006.

In December 2004, the FASB issued SFAS No. 123 (Revised 2004) Share-Based Payment: an Amendment of FASB Statements No. 123 and 95 . SFAS No. 123(R) sets accounting requirements for share-based compensation to employees. It requires companies to recognize in the income statement the grant-date fair value of stock options and

other equity-based compensation issued to employees and disallows the use of the intrinsic value method of accounting for stock compensation. Originally SFAS No. 123(R) was applicable for all interim and fiscal periods beginning after June 15, 2005. In April 2005, the Securities and Exchange Commission (SEC) announced that it was extending the adoption of SFAS No. 123(R) for public companies to be applicable for all fiscal periods beginning after June 15, 2005. Although we are not a public entity as defined by SFAS No. 123(R), this statement is also not effective for the Company until the beginning of our fiscal year 2006. The adoption of this statement is not expected to have a significant impact on our consolidated financial statements or results of operations.

In December 2004, the FASB issued SFAS No. 153, Exchanges of Nonmonetary Assets, an amendment of APB Opinion No. 29, Accounting for Nonmonetary Transactions . The amendments made by SFAS No. 153 are based on the principle that exchanges of nonmonetary assets should be measured based on the fair value of the assets exchanged. Further, the amendments eliminate the narrow exception for nonmonetary exchanges of similar productive assets and replace it with a broader exception for exchanges of nonmonetary assets that do not have commercial substance. The statement is effective for nonmonetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. Earlier application is permitted for nonmonetary asset exchanges occurring in fiscal periods beginning after the date of issuance. The provisions of this statement shall be applied prospectively. The Company does not anticipate that the adoption of SFAS No. 153 will have a significant impact on the Company s consolidated financial statements or results of operations.

Table of Contents**GNC CORPORATION AND SUBSIDIARIES****SUMMARIZED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED CONTINUED)**

In November 2004, the FASB issued SFAS No. 151, Inventory Costs an amendment of Accounting Research Bulletin (ARB) No. 43, to clarify the accounting for abnormal amounts of idle facility expense, freight, handling costs, and wasted material (spoilage). This statement requires that those items be recognized as current-period charges regardless of whether they meet the criterion of so abnormal . In addition, this statement requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. Companies are required to adopt the provisions of this statement for fiscal years beginning after June 15, 2005. The Company will adopt this standard beginning the first quarter of fiscal year 2006 and currently is evaluating the effects of this statement on its consolidated financial statements.

NOTE 3. INVENTORIES, NET

Inventories at each respective period consisted of the following:

	December 31, 2004		
	Gross cost	Reserves (in thousands)	Net Carrying Value
Finished product ready for sale	\$242,578	\$ (11,542)	\$231,036
Unpackaged bulk product and raw materials	41,607	(3,019)	38,588
Packaging supplies	2,630		2,630
	\$286,815	\$ (14,561)	\$272,254
	June 30, 2005		
	Gross cost	Reserves (unaudited) (in thousands)	Net Carrying Value
Finished product ready for sale	\$257,304	\$ (9,310)	\$247,994
Unpackaged bulk product and raw materials	54,410	(2,940)	51,470
Packaging supplies	3,749		3,749
	\$315,463	\$ (12,250)	\$303,213

NOTE 4. GOODWILL AND INTANGIBLE ASSETS, NET

Goodwill represents the excess of purchase price over the fair value of identifiable net assets of acquired entities. In accordance with SFAS No. 142, goodwill and intangible assets with indefinite useful lives are not amortized, but instead are tested for impairment at least annually. Other intangible assets with finite lives are amortized on a straight-line basis over periods not exceeding 20 years. The Company records goodwill upon the acquisition of franchisee stores when the acquisition price exceeds the fair value of the identifiable assets acquired and liabilities assumed of the store. The Company's goodwill remained the same at June 30, 2005 compared to December 31, 2004, with Retail of \$17.6 million, Franchise of \$60.5 million and Manufacturing/Wholesale of \$0.5 million.

The following table summarizes the Company's intangible asset activity from December 31, 2004 to June 30, 2005.

Retail Brand	Franchise Brand	Operating Agreements	Total
-------------------------	----------------------------	---------------------------------	--------------

	Gold Card		(in thousands)		
Balance at December 31, 2004	\$ 1,413	\$49,000	\$ 163,000	\$27,239	\$240,652
Amortization expense	(449)			(1,472)	(1,921)
Balance at June 30, 2005 (unaudited)	\$ 964	\$49,000	\$ 163,000	\$25,767	\$238,731

Table of Contents**GNC CORPORATION AND SUBSIDIARIES****SUMMARIZED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED CONTINUED)**

The following table reflects the gross carrying amount and accumulated amortization for each major intangible asset:

	December 31, 2004			June 30, 2005		
	Cost	Accumulated Amortization	Carrying Amount	Cost	Accumulated Amortization (unaudited)	Carrying Amount
	(in thousands)					
Brands retail	\$ 49,000	\$	\$ 49,000	\$ 49,000	\$	\$ 49,000
Brands franchise	163,000		163,000	163,000		163,000

Franchise agreements	21,900	(1,894)	20,006	21,900	(2,775)	19,125
	\$244,970	\$ (4,318)	\$240,652	\$244,970	\$ (6,239)	\$238,731

The following table represents future estimated amortization expense of other intangible assets, net, with definite lives at June 30, 2005:

Years ending December 31,	Estimated amortization expense (unaudited) (in thousands)
2005	\$ 1,922
2006	3,457
2007	2,943
2008	2,895
2009	2,283
Thereafter	13,231
Total	\$ 26,731

NOTE 5. LONG-TERM DEBT / INTEREST

In December 2003, the Company's wholly owned subsidiary, Centers, entered into a senior credit facility with a syndicate of lenders. The senior credit facility consists of a \$285.0 million term loan facility and a \$75.0 million revolving credit facility. This indebtedness has been guaranteed by the Company and its domestic subsidiaries. All borrowings under the senior credit facility bear interest at a rate per annum equal to either (a) the greater of the prime rate as quoted on the British Banking Association Telerate, and the federal funds effective rate plus 0.5% per annum, plus in each case, additional margins of 2.0% per annum for both the term loan facility and the revolving credit facility, or (b) the Eurodollar rate plus additional margins of 3.0% per annum for both the term loan facility and the revolving credit facility. In addition to paying the above stated interest rates, Centers is also required to pay a commitment fee relating to the unused portion of the revolving credit facility at a rate of 0.5% per annum. The senior credit facility matures on December 5, 2009 and permits Centers to prepay a portion or all of the outstanding balance without incurring penalties. The revolving credit facility matures on December 5, 2008. The revolving credit facility

allows for \$50.0 million to be used as collateral for outstanding letters of credit, of which \$7.9 million and \$8.0 million was used at June 30, 2005 and December 31, 2004, respectively, leaving \$67.1 million and \$67.0 million, respectively, of this facility available for borrowing on such dates. The term loan facility at June 30, 2005 and December 31, 2004 carried a balance of \$96.7 million and \$282.2 million, respectively. Interest on the term loan facility is payable quarterly in arrears and at June 30, 2005 and December 31, 2004, carried an average interest rate of 6.4% and 5.4%, respectively. The Company has complied with its covenant reporting and compliance requirements in all material respects for the three and six months ended June 30, 2005.

In December 2003, Centers also issued \$215.0 million of its 8 1/2% Senior Subordinated Notes due 2010 (the Senior Subordinated Notes). The Senior Subordinated Notes mature on December 1, 2010, and bear interest at the rate of 8 1/2% per annum, which is payable semi-annually in arrears on June 1 and December 1 of each year, which began with the first payment due on June 1, 2004.

In January 2005, Centers issued \$150.0 million aggregate principal amount of its 8 5/8% Senior Notes due 2011 (the Senior Notes). Centers used the net proceeds of this offering of \$145.6 million, together with \$39.4 million of cash on hand, to repay a portion of the indebtedness under the \$285.0 million term loan facility. The Senior Notes bear an interest rate of 8 5/8% per annum, which is payable semi-annually in arrears on January 15 and July 15 of each year, beginning with the first payment due on July 15, 2005.

Total	\$1,863	\$7,721

NOTE 6. COMMITMENTS AND CONTINGENCIES**Litigation**

The Company is engaged in various legal actions, claims and proceedings arising out of the normal course of business, including claims related to breach of contracts, product liabilities, intellectual property matters and employment-related matters resulting from the Company's business activities. As is inherent with most actions such as these, an estimation of any possible and/or ultimate liability cannot always be determined. The Company continues to assess its requirement to account for additional contingencies in accordance with SFAS No. 5, "Accounting for Contingencies" and believes that it is in compliance with that standard at June 30, 2005. The Company is currently of the opinion that the amount of any potential liability resulting from these actions, when taking into consideration the Company's general and product liability coverage, and the indemnification provided by Numico under the Purchase Agreement, will not have a material adverse impact on its financial position, results of operations or liquidity. However, if the Company is required to make a payment in connection with an adverse outcome in these matters, it could have a material impact on our financial condition and operating results.

As a manufacturer and retailer of nutritional supplements and other consumer products that are ingested by consumers or applied to their bodies, we have been and are currently subjected to various product liability claims. Although the effects of these claims to date have not been material to us, it is possible that current and future product liability claims could have a material adverse impact on our financial condition and operating results. We currently maintain product liability insurance with a deductible/retention of \$1.0 million per claim with an aggregate cap on retained loss of \$10.0 million per claim. We typically seek and have obtained contractual indemnification from most parties that supply raw materials for our products or that manufacture or market products we sell. We also typically seek to be added, and have been added, as additional insured under most of such parties' insurance policies. We are also entitled to indemnification by Numico for certain losses arising from claims related to products containing ephedra or Kava Kava sold prior to December 5, 2003. However, any such indemnification or insurance is limited by its terms and any such indemnification, as a practical matter, is limited to the creditworthiness of the indemnifying party and its insurer, and the absence of significant defenses by the insurers. We may incur material products liability claims, which could increase our costs and adversely affect our reputation, revenues and operating income.

Ephedra (Ephedrine Alkaloids). As of June 30, 2005, we have been named as a defendant in 211 pending cases involving the sale of third-party products that contain ephedra. Of those cases, one involves a proprietary GNC product. Ephedra products have been the subject of adverse publicity and regulatory scrutiny in the United States and other countries relating to alleged harmful effects, including the deaths of several individuals. In early 2003, we instructed all of our locations to stop selling products containing ephedra that were manufactured by GNC or one of our affiliates. Subsequently, we instructed all of our locations to stop selling any products containing ephedra by June 30, 2003. In April 2004, the FDA banned the sale of products containing ephedra. All claims to date have been tendered to the third-party manufacturer or to our insurer and we have incurred no expense to date with respect to

litigation involving ephedra products. Furthermore, we are entitled to indemnification by Numico for certain losses arising from claims related to products containing ephedra sold prior to December 5, 2003. All of the pending cases relate to products sold prior to such time and, accordingly, we are entitled to indemnification from Numico for all of the pending cases.

Pro-Hormone/Androstenedione. On July 29, 2001, five substantially identical class action lawsuits were filed in the state courts of the States of Florida, New York, New Jersey, Pennsylvania and Illinois against us and various manufacturers of products containing pro-hormones, including androstenedione:

Brown v. General Nutrition Companies, Inc., Case No. 02-14221-AB, Florida Circuit Court for the 15th Judicial Circuit Court, Palm Beach County;

Rodriguez v. General Nutrition Companies, Inc., Index No. 02/126277, New York Supreme Court, County of New York, Commercial Division;

Abrams v. General Nutrition Companies, Inc., Docket No. L-3789-02, New Jersey Superior Court, Mercer County;

Toth v. Bodyonics, Ltd., Case No. 003886, Pennsylvania Court of Common Pleas, Philadelphia County; and

Pio v. General Nutrition Companies, Inc., Case No. 2-CH-14122, Illinois Circuit Court, Cook County.

Table of Contents**GNC CORPORATION AND SUBSIDIARIES****SUMMARIZED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED CONTINUED)**

On March 20, 2004, a similar lawsuit was filed in California (Guzman v. General Nutrition Companies, Inc., Case No. 04-00283). Plaintiffs allege that we have distributed or published periodicals that contain advertisements claiming that the various pro-hormone products promote muscle growth. The complaints allege that we knew the advertisements and label claims promoting muscle growth were false, but nonetheless continued to sell the products to consumers. Plaintiffs seek injunctive relief, disgorgement of profits, attorney's fees and the costs of suit. All of the products involved in the cases are third-party products. We have tendered these cases to the various manufacturers for defense and indemnification. Based upon the information available to us at the present time, we believe that these matters will not have a material adverse effect upon our liquidity, financial condition or results of operations.

NOTE 7. STOCK-BASED COMPENSATION PLANS**Stock Options**

On December 5, 2003, the board of directors of the Company (the Board) approved and adopted the General Nutrition Centers Holding Company (presently known as GNC Corporation) 2003 Omnibus Stock Incentive Plan (the Plan). The purpose of the Plan is to enable the Company to attract and retain highly qualified personnel who will contribute to the success of the Company. The Plan provides for the granting of stock options, stock appreciation rights, restricted stock, deferred stock and performance shares. The Plan is available to certain eligible employees as determined by the Board. The total number of shares of common stock reserved and available for the Plan is 4.0 million shares. The stock options carry a four year vesting schedule and expire after seven years from date of grant. As of June 30, 2005 the number of stock options outstanding was 2.8 million. No stock appreciation rights, restricted stock, deferred stock or performance shares were granted under the Plan as of June 30, 2005. The weighted average Black-Scholes value of cumulative options granted and outstanding under the Plan at June 30, 2005 is \$1.69 per share.

The following table outlines the total stock options granted:

	Total Options	Weighted Average Exercise Price	Weighted Average Black- Scholes Value
Outstanding at December 31, 2004	2,435,393	\$ 6.00	
Granted March 2005	294,573	6.00	\$ 0.28
Granted June 2005	450,000	6.00	0.27
Forfeited	(380,979)		
Outstanding at June 30, 2005 (unaudited)	2,798,987	6.00	1.69

The Company has adopted the disclosure requirements of SFAS No. 148, but has elected to continue to measure compensation expense using the intrinsic value method for accounting for stock-based compensation as outlined by APB No. 25. In accordance with SFAS No. 148, pro forma information regarding net income is required to be disclosed as if the Company had accounted for its employee stock options using the fair value method of SFAS No. 123. See the Basis of Presentation note for this disclosure. There were 812,409 options vested under the Plan at June 30, 2005.

Fair value information for the Plan was estimated using the Black-Scholes option-pricing model based on the following assumptions for the options granted:

December 31, 2004	June 30, 2005 (unaudited)
----------------------------------	--

Dividend yield	0.00%	0.00%
Expected option life	5 years	5 years
Volatility factor percentage of market price	40.00%	24.00%
Discount rate	3.63%	3.84%

Because the Black-Scholes option valuation model utilizes certain estimates and assumptions, the existing models do not necessarily represent the definitive fair value of options for future periods.

Table of Contents**GNC CORPORATION AND SUBSIDIARIES****SUMMARIZED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED CONTINUED)****NOTE 8. SEGMENTS**

The following operating segments represent identifiable components of the Company for which separate financial information is available. This information is utilized by management to assess performance and allocate assets accordingly. The Company's management evaluates segment operating results based on several indicators. The primary key performance indicators are sales and operating income or loss for each segment. Operating income or loss, as evaluated by management, excludes certain items that are managed at the consolidated level, such as warehousing and distribution costs and corporate costs. The following table represents key financial information for each of the Company's business segments, identifiable by the distinct operations and management of each: Retail, Franchising, and Manufacturing/Wholesale. The Retail segment includes the Company's corporate store operations in the United States and Canada. The Franchise segment represents the Company's franchise operations, both domestically and internationally. The Manufacturing/Wholesale segment represents the Company's manufacturing operations in South Carolina and Australia and the wholesale sales business. This segment supplies the Retail and Franchise segments, along with various third parties, with finished products for sale. The Warehousing and Distribution costs, Corporate costs, and Other Unallocated Costs represent the Company's administrative expenses. The accounting policies of the segments are the same as those described in Basis of Presentation and Summary of Significant Accounting Policies, which is included in the Form 10-K.

(2) Franchise operating income for the six months ended June 30, 2005 includes \$2.5 million of transaction fee income related to the transfer of our Australian franchise.

Table of Contents**GNC CORPORATION AND SUBSIDIARIES****SUMMARIZED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED CONTINUED)****NOTE 9. SUPPLEMENTAL GUARANTOR INFORMATION**

As of June 30, 2005, the Company's debt includes Centers' senior credit facility, its Senior Notes and its Senior Subordinated Notes. The senior credit facility has been guaranteed by the Company and its domestic subsidiaries. The Senior Notes are general unsecured obligations of Centers and rank secondary to Centers' senior credit facility and are senior in right of payment to all existing and future subordinated obligations of Centers, including Centers Senior Subordinated Notes. The Senior Notes are unconditionally guaranteed on an unsecured basis by all of Centers' existing and future material domestic subsidiaries. The Senior Subordinated Notes are general unsecured obligations and are guaranteed on a senior subordinated basis by certain of Centers' domestic subsidiaries and rank secondary to Centers' senior credit facility. Guarantor subsidiaries include the Company's direct and indirect domestic subsidiaries as of the respective balance sheet dates. Non-guarantor subsidiaries include the remaining direct and indirect foreign subsidiaries. The subsidiary guarantors are wholly owned by the Company. The guarantees are full and unconditional and joint and several.

Presented below are condensed consolidated financial statements of the Company, Centers as the issuer, and the combined guarantor and non-guarantor subsidiaries as of, and for the three and six months ended June 30, 2005 and 2004. The guarantor and non-guarantor subsidiaries are presented in a combined format as their individual operations are not material to the Company's consolidated financial statements. Investments in subsidiaries are either consolidated or accounted for under the equity method of accounting. Intercompany balances and transactions have been eliminated.

Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations

The following Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with our consolidated financial statements and related notes included elsewhere in this quarterly report on Form 10-Q (the Report).

Forward-Looking Statements

The discussion in this section contains forward-looking statements that involve risks and uncertainties. Forward-looking statements may relate to our plans, objectives, goals, strategies, future events, future revenues or performance, capital expenditures, financing needs, and other information that is not historical information. Forward-looking statements can be identified by the use of terminology such as subject to, believes, anticipates, plans, expects, intends, estimates, projects, may, will, should, can, the negatives thereof, variations thereon and other expressions, or by discussions of strategy. We believe there is a reasonable basis for our expectations and beliefs, but they are inherently uncertain, we may not realize our expectations and our beliefs may not prove correct. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise. Actual results could differ materially from those described or implied by the forward-looking statements contained herein due to significant competition, unfavorable publicity or consumer perception of our products, material products liability claims, compliance with governmental regulations, unprofitable franchisees, risks associated with our international operations, our failure to keep pace with the demands of our customers for new products and services, manufacturing disruptions, increases in insurance claims, loss of key management, increases in the cost or availability of capital, impact of our substantial debt on operating income and ability to grow, failure to adequately protect or enforce our intellectual property rights and other factors discussed herein and under the heading Risk Factors included in the annual report on Form 10-K.

Overview

We are the largest global specialty retailer of nutritional supplements, which include sports nutrition products, diet products, VMHS (vitamins, minerals and herbal supplements) and specialty supplements. We derive our revenues principally from product sales through our company-owned stores, franchise activities and sales of products manufactured in our facilities to third parties. We sell products through a worldwide network of more than 5,700 locations operating under the GNC brand name. Revenues are derived from our three business segments, Retail, Franchise and Manufacturing/ Wholesale.

Trends and Other Factors Affecting Our Business

Our performance is affected by trends that affect the nutritional supplements industry generally. Current trends affecting our business include the aging population, rising healthcare costs, increasing focus on fitness and increasing incidence of obesity. Changes in these trends and other factors may also impact our business. Our business allows us to respond to changing consumer preferences and drive revenues by emphasizing new product development, introducing targeted third-party products, and adjusting our product mix. There have been no new material developments in the matters disclosed in the Trends and Other Factors Affecting Our Business section included in the Form 10-K.

Results of Operations

The information presented below for the three and six months ended June 30, 2005 and 2004 was prepared by management and is unaudited. In the opinion of management, all adjustments necessary for a fair statement of our financial position and operating results for such periods and as of such dates have been included.

As discussed in the Segments note to our consolidated financial statements, we evaluate segment operating results based on several indicators. The primary key performance indicators are revenues and operating income or loss for each segment. Revenues and operating income or loss, as evaluated by management, exclude certain items that are managed at the consolidated level, such as warehousing and distribution costs and corporate costs. The following discussion compares the revenues and the operating income or loss by segment, as well as those items excluded from the segment totals.

We calculate our same store sales growth to exclude the net sales of a store for any period if the store was not open during the same period of the prior year. When a store's square footage has been changed as a result of reconfiguration

or relocation in the same mall, the store continues to be treated as a same store. Company-owned and domestic franchised same store sales have been calculated on a calendar basis for all periods presented.

All calculations related to the Results of Operations for the year-over-year comparisons below were calculated based on the numbers in the following table, which have been rounded to millions.

Table of Contents**GNC CORPORATION AND SUBSIDIARIES****Results of Operations and Comprehensive Income**

Table of Contents**GNC CORPORATION AND SUBSIDIARIES*****Comparison of the Three Months Ended June 30, 2005 and June 30, 2004******Revenues***

Consolidated. Our consolidated net revenues decreased \$14.4 million, or 4.1%, to \$333.3 million for the three months ended June 30, 2005, compared to \$347.7 million for the same period in 2004. The decrease was primarily the result of decreased same store sales in our Retail and Franchise segments and a reduced store base.

Retail. Revenues in our Retail segment decreased \$11.0 million, or 4.2%, to \$250.3 million for the three months ended June 30, 2005, compared to \$261.3 million for the same period in 2004. Revenue decreased \$19.5 million in our diet category, partially offset by an increase in sales in the sports nutrition category. We expect sales in the diet category to continue to decline for the remainder of the year. Same store sales for the three months ended June 30, 2005 decreased 5.2% in our corporate domestic stores and decreased 9.0% in our corporate Canadian stores. We operated 2,638 stores at June 30, 2005, compared to 2,649 stores at June 30, 2004.

Franchise. Revenues in our Franchise segment decreased \$1.2 million, or 2.0%, to \$57.7 million for the three months ended June 30, 2005, compared to \$58.9 million for the same period in 2004. This decrease was primarily the result of a reduction in franchise fee revenue of \$0.4 million, a decrease in franchise royalty revenue of \$0.3 million, and decreased wholesale product sales to franchisees of \$0.3 million. Other revenue items accounted for the remaining \$0.2 million decrease. The primary reasons for these declines were a smaller store base and a reduction in our franchise store retail sales, due to a drop in sales in the diet category. Comparable store sales for our domestic franchisees decreased 6.5% for the three months ended June 30, 2005. Our domestic franchise store base declined by 83 stores, to 1,241 stores at June 30, 2005, from 1,324 stores at June 30, 2004. Our international franchise store base increased by 101 stores, to 800 stores at June 30, 2005 compared to 699 stores at June 30, 2004.

Manufacturing/Wholesale. Revenues in our Manufacturing/Wholesale segment, which includes third-party sales from our manufacturing facilities in South Carolina and Australia, as well as wholesale sales to Rite Aid and drugstore.com, decreased \$2.2 million or 8.0%, to \$25.3 million for the three months ended June 30, 2005, compared to \$27.5 million for the same period in 2004. This decrease in sales occurred primarily in the Greenville, South Carolina plant, as negative publicity surrounding Vitamin E contributed to a decrease in demand for soft gelatin products.

Cost of Sales

Consolidated cost of sales, which includes product costs, costs of warehousing and distribution, and occupancy costs, decreased \$2.9 million, or 1.3%, to \$223.7 million for the three months ended June 30, 2005, compared to \$226.6 million for the same period in 2004. Consolidated cost of sales, as a percentage of net revenue, was 67.0% for the three months ended June 30, 2005, compared to 65.1% for the same period in 2004.

Consolidated product costs decreased \$3.4 million, or 2.0%, to \$163.3 million for the three months ended June 30, 2005, compared to \$166.7 million for the same period in 2004. The decrease in consolidated product costs was primarily a result of lower retail and franchise wholesale sales volumes, and correspondingly, lower product cost of sales. Additionally we had an increase in third-party promotional support and lower production costs at the manufacturing plants. The consolidated product costs, as a percentage of net revenue were 48.9% and 47.8% for the three months ended June 30, 2005 and 2004, respectively.

Consolidated warehousing and distribution costs increased \$0.2 million, or 1.6%, to \$12.6 million for the three months ended June 30, 2005, compared to \$12.4 million for the same period in 2004. This increase was primarily a result of increased fuel costs, offset by efficiency cost savings in wages and other warehousing costs. Consolidated warehousing and distribution costs, as a percentage of net revenue, were 3.8% for the three months ended June 30, 2005, compared to 3.6% for the same period in 2004.

Consolidated occupancy costs increased \$0.3 million, or 0.6%, to \$47.8 million for the three months ended June 30, 2005, compared to \$47.5 million for the same period in 2004. This increase occurred primarily in depreciation expense. Consolidated occupancy costs, as a percentage of net revenue, were 14.3% for the three months ended June 30, 2005, compared to 13.7% for the same period in 2004.

Selling, General and Administrative Expenses

Edgar Filing: GNC CORP - Form 10-Q

Our consolidated selling, general and administrative expenses, including compensation and related benefits, advertising and promotion expense, other selling, general and administrative expense, and amortization expense (SG&A) decreased \$0.7 million, or 0.8%, to \$88.6 million, for the three months ended June 30, 2005, compared to \$89.3 million for the same period in 2004. Our consolidated SG&A expense, as a percentage of net revenues, was 26.7% during the three months ended June 30, 2005 compared to 25.7% for the same period in 2004.

23

Table of Contents**GNC CORPORATION AND SUBSIDIARIES**

Consolidated compensation and related benefits decreased \$1.6 million, or 2.8%, to \$56.2 million for the three months ended June 30, 2005, compared to \$57.8 million for the same period in 2004. This decrease was the result of decreases in incentives and commission expenses of \$1.2 million and decreases in other costs of \$0.4 million.

Consolidated advertising and promotion expenses increased \$0.8 million, or 6.3%, to \$13.5 million for the three months ended June 30, 2005, compared to \$12.7 million for the same period in 2004. Advertising expense increased due to additional expenditures in 2005 for television advertising of \$2.4 million, offset by reductions in print advertising of \$0.9 million and other marketing costs of \$0.7 million.

Consolidated other selling, general and administrative expenses, including amortization expense, were \$18.9 million for the three months ended June 30, 2005 compared to \$18.8 million for the same period in 2004, an increase of \$0.1 million. Although these costs were relatively unchanged from the prior period, it consisted of an increase in bad debt expense of \$0.8 million and a decrease in franchise income related to interest charges of \$0.3 million, offset by savings in other selling, general and administrative costs.

Foreign Currency Loss

We recognized a consolidated foreign currency loss of \$0.6 million for the three months ended June 30, 2004. Foreign currency gain/loss in the three months ended June 30, 2005 was immaterial.

Operating Income

Consolidated. As a result of the foregoing, operating income decreased \$10.2 million, or 32.7%, to \$21.0 million for the three months ended June 30, 2005, compared to \$31.2 million for the same period in 2004. Operating income as a percentage of net revenues was 6.3% for the three months ended June 30, 2005, compared to 9.0% for the same period in 2004.

Retail. Operating income decreased \$9.4 million, or 30.7%, to \$21.2 million for the three months ended June 30, 2005 compared to \$30.6 million for the same period in 2004. The decrease was primarily a result of decreased revenue, increased occupancy and advertising expenses, offset by decreased wages and other selling, general and administrative costs.

Franchise. Operating income decreased \$4.4 million, or 26.7%, to \$12.1 million for the three months ended June 30, 2005, compared to \$16.5 million for the same period in 2004. The decrease was primarily a result of decreased revenue, the associated margin decrease, and increased bad debt expense.

Manufacturing/Wholesale. Operating income increased \$2.8 million, or 28.6%, to \$12.6 million for the three months ended June 30, 2005, compared to \$9.8 million for the same period in 2004. This increase was primarily a result of improved margins on third-party sales in our South Carolina facility.

Warehousing & Distribution Costs. Unallocated warehousing and distribution costs decreased \$0.1 million, or 0.8%, to \$12.2 million for the three months ended June 30, 2005 compared to \$12.3 million for the same period in 2004. We continued to incur increases in our fuel costs, which were offset by savings in wages and other overhead expense areas.

Corporate Costs. Operating expenses decreased \$0.7 million, or 5.2%, to \$12.7 million for the three months ended June 30, 2005 compared to \$13.4 million for the same period in 2004. Insurance costs and research and development costs were the primary reasons for the decrease.

Interest Expense

Interest expense increased \$1.3 million, or 15.3%, to \$9.8 million, for the three months ended June 30, 2005 compared to \$8.5 million for the same period in 2004. This increase was due to a 2.4 % increase in our average interest rate on our bank debt, primarily due to the higher fixed interest rate on our \$150.0 million of Senior Notes, which replaced a portion of our bank debt.

Income Tax Expense

We recognized \$4.1 million of consolidated income tax expense during the three months ended June 30, 2005, compared to \$8.3 million of expense for the same period in 2004. Our effective tax rate for the three months ended June 30, 2005 was 36.4% versus 36.5% for the same period in 2004.

Net Income

As a result of the foregoing, consolidated net income decreased \$7.3 million to \$7.1 million for the three months ended June 30, 2005, from \$14.4 million for the same period in 2004.

Table of Contents**GNC CORPORATION AND SUBSIDIARIES*****Other Comprehensive Loss***

We recognized \$0.3 million of foreign currency translation loss for the three months ended June 30, 2005. Foreign currency translation gain or loss for the three months ended June 30, 2004 was immaterial. The amounts recognized in 2005 resulted from foreign currency adjustments related to our Canadian and Australian subsidiaries.

Comparison of the Six Months Ended June 30, 2005 and June 30, 2004***Revenues***

Consolidated. Our consolidated net revenues decreased \$50.5 million, or 7.0%, to \$669.8 million for the six months ended June 30, 2005, compared to \$720.3 million for the same period in 2004. The decrease was primarily the result of decreased same store sales in our Retail and Franchise segments and a reduced store base.

Retail. Revenues in our Retail segment decreased \$35.5 million, or 6.6%, to \$505.5 million for the six months ended June 30, 2005, compared to \$541.0 million for the same period in 2004. Revenue decreased by \$41.8 million in our diet category. This decrease was partially offset by an increase in sales in our sports nutrition category. We expect that sales in the diet category will continue to fall below prior year levels for the remainder of the year. Same store sales for the six months ended June 30, 2005 decreased 6.5% in our corporate domestic stores and decreased 11.0% in our corporate Canadian stores. We operated 2,638 stores at June 30, 2005, compared to 2,649 stores at June 30, 2004.

Franchise. Revenues in our Franchise segment decreased \$12.6 million, or 10.2%, to \$110.4 million for the six months ended June 30, 2005, compared to \$123.0 million for the same period in 2004. Our domestic franchise stores recorded lower retail sales for the six months ended June 30, 2005, as evidenced by a decline in comparable store sales for these stores of 7.3% for the period. This decline in retail sales resulted in decreased wholesale product sales to the franchisees of \$10.8 million, a decrease in franchise royalty revenue of \$1.0 million, and a reduction in other franchise revenue of \$0.8 million. Our domestic franchise store base declined by 83 stores to 1,241 stores at June 30, 2005, from 1,324 stores at June 30, 2004. Our international franchise store base increased by 101 stores to 800 stores at June 30, 2005 compared to 699 stores at June 30, 2004.

Manufacturing/Wholesale. Revenues in our Manufacturing/Wholesale segment, which includes third-party sales from our manufacturing facilities in South Carolina and Australia, as well as wholesale sales to Rite Aid and drugstore.com, decreased \$2.4 million or 4.3%, to \$53.9 million for the six months ended June 30, 2005, compared to \$56.3 million for the same period in 2004. This decrease occurred primarily in the Greenville, SC plant, as a result of declining demand for soft gelatin products from third-party vendors, mainly due to the negative publicity surrounding Vitamin E.

Cost of Sales

Consolidated cost of sales, which includes product costs, costs of warehousing and distribution, and occupancy costs, decreased \$19.5 million, or 4.1%, to \$454.2 million for the six months ended June 30, 2005, compared to \$473.7 million for the same period in 2004. Consolidated cost of sales, as a percentage of net revenue, was 67.9% for the six months ended June 30, 2005, compared to 65.7% for the same period in 2004.

Consolidated product costs decreased \$21.0 million, or 5.9%, to \$333.1 million for the six months ended June 30, 2005, compared to \$354.1 million for the same period in 2004. The decrease in consolidated product costs was a result of: lower retail sales, which resulted in lower product cost of sales, a shift in the sales mix from lower margin, third party low-carb products in 2004 to higher margin, GNC brand products in 2005, increased vendor support for promotional pricing of third-party products, and improved management of inventory, which resulted in fewer product losses. Consolidated product costs as a percentage of net revenue were 49.8% and 49.1% for the six months ended June 30, 2005 and 2004, respectively. Product costs in 2004 included \$1.3 million of expense as a result of adjustments due to increased inventory valuation related to the Acquisition.

Consolidated warehousing and distribution costs increased \$0.4 million, or 1.6%, to \$25.6 million for the six months ended June 30, 2005, compared to \$25.2 million for the same period in 2004. This increase was primarily a result of increased fuel costs, offset by efficiency decreases in wages and other warehousing costs. Consolidated warehousing and distribution costs, as a percentage of net revenue, were 3.8% for the six months ended June 30, 2005, compared to 3.5% for the same period in 2004.

Consolidated occupancy costs increased \$1.1 million, or 1.2%, to \$95.5 million for the six months ended June 30, 2005, compared to \$94.4 million for the same period in 2004. This increase was primarily due to an increase in depreciation expense of \$1.1 million, and increased capital expenditures of shorter-lived store assets. Consolidated occupancy costs, as a percentage of net revenue, was 14.3% for the six months ended June 30, 2005, compared to 13.1% for the same period in 2004.

Table of Contents**GNC CORPORATION AND SUBSIDIARIES*****Selling, General and Administrative Expenses***

Our consolidated selling, general and administrative expenses, including compensation and related benefits, advertising and promotion expense, other selling, general and administrative expense, and amortization expense (SG&A) decreased \$1.6 million, or 0.9%, to \$179.3 million, for the six months ended June 30, 2005, compared to \$180.9 million for the same period in 2004. Our consolidated SG&A expense, as a percentage of net revenues, was 26.7% during the six months ended June 30, 2005, compared to 25.1% for the same period in 2004.

Consolidated compensation and related benefits decreased \$5.4 million, or 4.5%, to \$113.5 million for the six months ended June 30, 2005, compared to \$118.9 million for the same period in 2004. This decrease was the result of decreases in incentives and commission expenses of \$4.2 million, a decrease in full-time and part-time wage costs of \$0.6 million and decreases in other costs of \$0.6 million.

Consolidated advertising and promotion expenses increased \$2.9 million, or 11.5%, to \$28.1 million for the six months ended June 30, 2005, compared to \$25.2 million for the same period in 2004. Advertising expense increased due to additional expenditures in 2005 for television advertising of \$4.4 million, offset by reductions in print advertising of \$1.3 million and other marketing costs of \$0.2 million.

Consolidated other selling, general and administrative expenses, including amortization expense, increased \$0.9 million, or 2.4%, to \$37.7 million for the six months ended June 30, 2005 compared to \$36.8 million for the same period in 2004. The primary reason for the increase was an increase in bad debt expense of \$1.9 million and a decrease in franchise income related to interest charges of \$0.9 million, offset by a decrease in general insurance expense of \$1.0 million and savings in other selling, general and administrative costs.

Foreign Currency Gain / Loss

We recognized a consolidated foreign currency gain of \$0.1 million in the six months ended June 30, 2005, compared with a foreign currency loss of \$0.4 million for the six months ended June 30, 2004.

Other Income

Other income for the six months ended June 30, 2005 was \$2.5 million, which was the recognition of transaction fee income related to the transfer of our Australian franchise rights. There was no other income for the same period in 2004.

Operating Income

Consolidated. As a result of the foregoing, operating income decreased \$26.6 million, or 40.7%, to \$38.7 million for the six months ended June 30, 2005, compared to \$65.3 million for the same period in 2004. Operating income as a percentage of net revenues was 5.8% for the six months ended June 30, 2005, compared to 9.1% for the same period in 2004.

Retail. Operating income decreased \$26.9 million, or 40.8%, to \$39.1 million for the six months ended June 30, 2005, compared to \$66.0 million for the same period in 2004. The primary reason for the decrease is lower retail margin, due to lower sales volumes and more competitive pricing, along with increased advertising and occupancy related expenses, offset by decreases in wages and other selling, general and administrative expenses.

Franchise. Operating income decreased \$10.6 million, or 31.5%, to \$23.0 million for the six months ended June 30, 2005, compared to \$33.6 million for the same period in 2004. This decrease is primarily attributable to a decrease in wholesale sales and margin, a direct result of reduced domestic franchise retail sales, and an increase in bad debt expense, offset partially by decreased advertising and other selling, general and administrative expenses.

Manufacturing/Wholesale. Operating income increased \$6.6 million, or 36.7%, to \$24.6 million for the six months ended June 30, 2005, compared to \$18.0 million for the same period in 2004. This increase was primarily the result of improved margins on third-party sales and increased manufacturing efficiencies at our South Carolina manufacturing facility.

Warehousing & Distribution Costs. Unallocated warehousing and distribution costs decreased \$0.1 million, or 0.4%, to \$24.9 million for the six months ended June 30, 2005, compared to \$25.0 million for the same period in 2004. Increases in fuel costs were offset by decreases in wages and other administrative expenses due to efficiency savings in our distribution centers.

Corporate Costs. Operating expenses decreased \$1.7 million, or 6.2%, to \$25.6 million for the six months ended June 30, 2005, compared to \$27.3 million for the same period in 2004. Decreases in insurance costs, wage expenses and research and development costs were partially offset by increases in legal and other professional expenses.

Table of Contents

GNC CORPORATION AND SUBSIDIARIES

Interest Expense

Interest expense increased \$6.1 million, or 35.5%, to \$23.3 million, for the six months ended June 30, 2005 compared to \$17.2 million for the same period in 2004. This increase was due to the write-off of \$3.9 million of deferred financing fees, a result of the retirement of \$185.0 million of our bank debt, and a higher fixed interest rate on the \$150.0 million Senior Notes, which replaced a portion of our bank debt.

Income Tax Expense

We recognized \$5.6 million of consolidated income tax expense during the six months ended June 30, 2005, compared to \$17.5 million of expense for the same period in 2004. Our effective tax rate for the six months ended June 30, 2005 was 36.3% and 36.4% for the six months ended 2004.

Net Income

As a result of the foregoing, consolidated net income decreased \$20.8 million to \$9.8 million for the six months ended June 30, 2005, from \$30.6 million for the same period in 2004.

Other Comprehensive Loss

We recognized \$0.5 million of foreign currency translation loss in each of the six months ended June 30, 2005 and 2004. The amounts recognized in both years resulted from foreign currency adjustments related to our Canadian and Australian subsidiaries.

Table of Contents**GNC CORPORATION AND SUBSIDIARIES****Liquidity and Capital Resources**

As of June 30, 2005, we had \$54.9 million in cash and cash equivalents and \$278.1 million in working capital compared to \$47.6 million in cash and cash equivalents and \$244.0 million in working capital at June 30, 2004. The \$34.1 million increase in working capital was primarily driven by an accumulation of cash from operations and reductions in current liabilities.

Cash Provided by Operating Activities

Cash provided by operating activities was \$18.6 million and \$25.8 million for the six months ended June 30, 2005 and 2004, respectively. The primary reason for the change in each year was changes in working capital accounts. For the six months ended June 30, 2005 and 2004, inventory increased \$34.0 million and \$36.8 million, respectively, as a result of increasing our finished goods and bulk inventory and a decrease in our reserves. This inventory increase supports our strategy of ensuring our top selling products are in stock and available as needed. Franchise notes receivable decreased \$5.4 million and \$5.0 million for the six months ended June 30, 2005 and 2004, respectively, as a result of payments on existing notes and fewer company-financed franchise store openings than in prior years. Other assets decreased \$6.9 million for the six months ended June 30, 2005, primarily as a result of decreases in prepaid insurance of \$3.0 million, prepaid taxes of \$1.1 million and a refund of a workers compensation deposit of \$1.9 million. Other assets decreased \$7.6 million for the six months ended June 30, 2004, mainly as a result of a refund of deposits of \$4.4 million previously pledged as collateral for worker compensation letters of credit. Accrued interest for the six months ended June 30, 2005 increased \$5.9 million due to the issuance of the \$150.0 million Senior Notes, which has interest payable semi-annually beginning July 15, 2005. Accrued liabilities decreased \$20.2 million for the six months ended June 30, 2004, primarily a result of reductions of incentives of \$4.4 million, change of control payments of \$9.1 million, store closings accruals of \$3.8 million and other accruals of \$2.9 million.

Cash Used in Investing Activities

We used cash from investing activities of approximately \$10.0 million and \$8.2 million for the six months ended June 30, 2005 and 2004, respectively. Capital expenditures, which were primarily for improvements to our retail stores and our South Carolina manufacturing facility, were \$8.9 million and \$10.2 million during the six months ended June 30, 2005 and 2004, respectively. During the six months ended June 30, 2004, we received net cash from Numico of \$9.8 million related to Acquisition purchase price adjustments and paid \$7.7 million in transaction expenses related to the Acquisition.

Cash Used in Financing Activities

We used cash in financing activities of approximately \$38.7 million and \$3.7 million for the six months ended June 30, 2005 and 2004, respectively. In January 2005, Centers issued \$150.0 million aggregate principal amount of its Senior Notes and used the net proceeds from this issuance, along with additional cash on hand, to pay down \$185.0 million of Centers indebtedness under its term loan facility. For the six months ended June 30, 2005, we also paid \$4.1 million in fees related to the Senior Notes offering and paid down an additional \$1.0 million of debt. In 2004, we issued common stock of \$1.6 million and paid down \$1.9 million of debt.

We expect to fund our operations through internally generated cash and, if necessary, from borrowings under our \$75.0 million revolving credit facility. We expect our primary uses of cash in the near future will be debt service requirements, capital expenditures, and working capital requirements. We anticipate that cash generated from operations, together with amounts available under our revolving credit facility, will be sufficient to meet our future operating expenses, capital expenditures and debt service obligations as they become due. However, our ability to make scheduled payments of principal on, to pay interest on, or to refinance our indebtedness and to satisfy our other debt obligations will depend on our future operating performance, which will be affected by general economic, financial and other factors beyond our control.

Contractual Obligations

The only material change from December 31, 2004 was related to Centers January 2005 issuance of \$150.0 million aggregate principal amount of Senior Notes due 2011, with an interest rate of 8 5/8% (the Senior Notes). Centers used the net proceeds from this offering of \$145.6 million, together with \$39.4 million of cash on hand, to repay a portion of the term loan indebtedness under our senior credit facility. The interest on the Senior Notes is payable

semi-annually in arrears on January 15 and July 15 of each year, beginning with the first payment due on July 15, 2005.

Off Balance Sheet Arrangements

As of June 30, 2005 and 2004, we had no relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off balance sheet arrangements or other contractually narrow or limited purposes. We are, therefore, not materially exposed to any financing, liquidity, market or credit risk that could arise if we had engaged in such relationships.

Table of Contents**GNC CORPORATION AND SUBSIDIARIES**

We have a balance of unused advertising barter credits on account with a third-party advertising agency. We generated these barter credits by exchanging inventory with a third-party barter vendor. In exchange, the barter vendor supplied us with advertising credits. We did not record a sale on the transaction as the inventory sold was for expiring products that were previously fully reserved for on our balance sheet. In accordance with the Accounting Principles Board (APB) No. 29, a sale is recorded based on either the value given up or the value received, whichever is more easily determinable. The value of the inventory was determined to be zero, as the inventory was fully reserved. Therefore, these credits were not recognized on the balance sheet and are only realized when we advertise through the bartering company. The credits can be used to offset the cost of cable advertising. As of June 30, 2005 and December 31, 2004, the available credit balance was \$9.6 million, and \$11.3 million, respectively. The barter credits are effective through April 1, 2006.

Effect of Inflation

Inflation generally affects us by increasing costs of raw materials, labor and equipment. We do not believe that inflation had any material effect on our results of operations in the periods presented in our consolidated financial statements.

Recently Issued Accounting Pronouncements

In May 2005, the Financial Accounting Standards Board (FASB) issued Statements of Financial Accounting Standards (SFAS) No. 154, Accounting Changes and Error Correction , a replacement of APB Opinion No. 20 and FASB Statement No. 3. This Statement replaces APB Opinion No. 20, Accounting Changes, and FASB Statement No. 3, Reporting Accounting Changes in Interim Financial Statements, and changes the requirements for the accounting for and reporting of a change in accounting principle. This Statement requires retrospective application to prior periods financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. This Statement defines retrospective application as the application of a different accounting principle to prior accounting periods as if that principle had always been used or as the adjustment of previously issued financial statements to reflect a change in the reporting entity. This Statement also redefines restatement as the revising of previously issued financial statements to reflect the correction of an error. This statement is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The Company will adopt this standard beginning the first quarter of fiscal year 2006.

In December 2004, the FASB issued SFAS No. 123 (Revised 2004) Share-Based Payment: an Amendment of FASB Statements No. 123 and 95 . SFAS No. 123(R) sets accounting requirements for share-based compensation to employees. It requires companies to recognize in the income statement the grant-date fair value of stock options and other equity-based compensation issued to employees and disallows the use of the intrinsic value method of accounting for stock compensation. Originally SFAS No. 123(R) was applicable for all interim and fiscal periods beginning after June 15, 2005. In April 2005, the Securities and Exchange Commission (SEC) announced that it was extending the adoption of SFAS No. 123(R) for public companies to be applicable for all fiscal periods beginning after June 15, 2005. As we are not a public entity as defined by SFAS No. 123(R), this statement is not effective for the Company until the beginning of our fiscal year 2006. The adoption of this statement is not expected to have a significant impact on our consolidated financial statements or results of operations.

In December 2004, the FASB issued SFAS No. 153, Exchanges of Nonmonetary Assets, an amendment of APB Opinion No. 29, Accounting for Nonmonetary Transactions . The amendments made by SFAS No. 153 are based on the principle that exchanges of nonmonetary assets should be measured based on the fair value of the assets exchanged. Further, the amendments eliminate the narrow exception for nonmonetary exchanges of similar productive assets and replace it with a broader exception for exchanges of nonmonetary assets that do not have commercial substance. The statement is effective for nonmonetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. Earlier application is permitted for nonmonetary asset exchanges occurring in fiscal periods beginning after the date of issuance. The provisions of this statement shall be applied prospectively. The Company does not anticipate that the adoption of SFAS No. 153 will have a significant impact on the Company s consolidated financial statements or results of operations.

In November 2004, the FASB issued SFAS No. 151, *Inventory Costs*, an amendment of Accounting Research Bulletin (*ARB*) No. 43, to clarify the accounting for abnormal amounts of idle facility expense, freight, handling costs, and wasted material (spoilage). This statement requires that those items be recognized as current-period charges regardless of whether they meet the criterion of *so abnormal*. In addition, this statement requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. Companies are required to adopt the provisions of this statement for fiscal years beginning after June 15, 2005. The Company will adopt this standard beginning the first quarter of fiscal year 2006 and currently is evaluating the effects of this statement on its consolidated financial statements.

Table of Contents**GNC CORPORATION AND SUBSIDIARIES****Item 3 Quantitative and Qualitative Disclosures about Market Risk**

Market risk represents the risk of changes in the value of market risk sensitive instruments caused by fluctuations in interest rates, foreign exchange rates and commodity prices. Changes in these factors could cause fluctuations in the results of our operations and cash flows. In the ordinary course of business, we are primarily exposed to foreign currency and interest rate risks. We do not use derivative financial instruments in connection with these market risks.

Foreign Exchange Rate Market Risk. We are subject to the risk of foreign currency exchange rate changes in the conversion from local currencies to the U.S. dollar of the reported financial position and operating results of our non-U.S. based subsidiaries. We are also subject to foreign currency exchange rate changes for purchase and services that are denominated in currencies other than the U.S. dollar. The primary currencies to which we are exposed to fluctuations are the Canadian Dollar and the Australian Dollar. The fair value of our net foreign investments and our foreign denominated payables would not be materially affected by a 10% adverse change in foreign currency exchange rates for the periods presented.

Interest Rate Market Risk. A portion of our debt is subject to changing interest rates. Although changes in interest rates do not impact our operating income, the changes could affect the fair value of such debt and related interest payments. As of June 30, 2005, we had fixed rate debt of \$377.7 million and variable rate debt of \$96.7 million. Fluctuations in market rates have not had a significant impact on our results of operations in recent years because, in general, our contracts with vendors limit our exposure to increases in product prices. We are not exposed to price risks except with respect to product purchases. We do not enter into futures or swap contracts at this time. Based on our variable rate debt balance as of June 30, 2005, a 1% change in interest rates would increase or decrease our annual interest cost by \$1.0 million.

On January 18, 2005, Centers issued \$150.0 million aggregate principal amount of its Senior Notes, with an interest rate of 8 5/8%. Centers used the net proceeds of this offering of \$145.6 million, together with \$39.4 million of cash on hand, to repay a portion of the indebtedness under its term loan facility. This issuance increased our fixed rate debt by \$150.0 million and decreased our variable rate debt by \$185.0 million. With the exception of the issuance of the Senior Notes and the repayment of a portion of the indebtedness under its term loan facility, there have been no significant changes in market risk subsequent to the audited financial statements as of December 31, 2004.

Item 4 Controls and Procedures

Our management, with the participation of our CEO and CFO, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13-a-15(e) and 14d-15(e) under the Securities and Exchange Act of 1934, as amended, as of June 30, 2005. Disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed in this Report has been appropriately recorded, processed, summarized and reported. Based on such evaluation at the reasonable assurance level, our CEO and CFO have concluded that, as of the end of such period, our disclosure controls and procedures are effective. Although we are not yet subject to the disclosure and reporting requirements under Section 404 of the Sarbanes-Oxley Act of 2002, we have evaluated our internal control over financial reporting and there have been no changes during the most recent fiscal quarter that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.
