HMG/COURTLAND PROPERTIES, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

In the opinion of the Company, the accompanying unaudited condensed consolidated financial statements prepared in accordance with instructions for Form 10-Q, include all adjustments (consisting only of normal recurring accruals) which are necessary for a fair presentation of the results for the periods presented. Certain information and footnote disclosures normally included in the financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed consolidated financial statements be read in conjunction with the Company's Annual Report for the year ended December 31, 2008. The balance sheet as of December 31, 2008 was derived from audited financial statements as of that date. The results of operations for the three and nine months ended September 30, 2009 are not necessarily indicative of the results to be expected for the full year.

The condensed consolidated financial statements include the accounts of HMG/Courtland Properties, Inc. (the "Company") and entities in which the Company owns a majority voting interest or controlling financial interest. All material transactions and balances with consolidated and unconsolidated entities have been eliminated in consolidation or as required under the equity method.

2. RECENT ACCOUNTING PRONOUNCEMENT

In September 2009, Accounting Standards Codification ("ASC") became the source of authoritative U.S. GAAP recognized by the Financial Accounting Standards Board ("FASB") for nongovernmental entities, except for certain FASB Statements not yet incorporated into ASC. Rules and interpretive releases of the SEC under federal securities laws are also sources of authoritative U.S. GAAP for registrants. The discussion below includes the applicable ASC reference.

The Company adopted ASC Topic 810-10 Consolidation (formerly SFAS No. 160, Non controlling Interests in Consolidated Financial Statements – an amendment of ARB No. 51) effective January 2, 2009. Topic 810-10 changes the manner of presentation and related disclosures for the non controlling interest in a subsidiary (formerly referred to as a minority interest) and for the deconsolidation of a subsidiary. The presentation changes are reflected retrospectively in the Company's unaudited condensed consolidated financial statements.

ASC Topic 815-10 Derivatives and Hedging (formerly SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities) was adopted by the Company effective January 2, 2009. The guidance under Topic 815-10 changes the manner of presentation and related disclosures of the fair values of derivative instruments and their gains and losses.

The Company adopted ASC Topic 825-10 Financial Instruments (formerly, FASB Staff Position No. SFAS 107-1 and APB No. 28-1, Disclosures about the Fair Value of Financial Instruments), which requires quarterly disclosure of information about the fair value of financial instruments within the scope of Topic 825-10. The Company adopted this pronouncement effective April 1, 2009. This disclosure is included in Note 7 to the condensed consolidated financial statements.

In April 2009, the Company adopted ASC Topic 820-10-65 Fair Value Measurements and Disclosures (formerly, FASB Staff Position No. SFAS 157-4, Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly). The standard provides additional guidance for estimating fair value in accordance with Topic 820-10-65 when the volume and level of activity for the asset or liability have significantly decreased and includes guidance on identifying circumstances that

indicate if a transaction is not orderly. The Company adopted this pronouncement effective April 1, 2009 with no impact on its consolidated financial statements.

The Company adopted, ASC Topic 855-10 Subsequent Events (formerly SFAS 165, Subsequent Events) effective April 1, 2009. This pronouncement changes the general standards of accounting and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued.

(Unaudited)

In June 2009, the FASB finalized SFAS No. 167, Amending FASB interpretation No. 46(R), which was included in ASC Topic 810. The provisions of ASC 810 amend the definition of the primary beneficiary of a variable interest entity and will require the Company to make an assessment each reporting period of its variable interests. The provisions of this pronouncement are effective January 1, 2010. The Company is evaluating the impact of the statement on its consolidated financial statements.

In July 2009, the FASB issued SFAS No. 168, The Hierarchy of Generally Accepted Accounting Principles. SFAS 168 codified all previously issued accounting pronouncements, eliminating the prior hierarchy of accounting literature, in a single source for authoritative U.S. GAAP recognized by the FASB to be applied by nongovernmental entities. SFAS 168, now ASC Topic 105-10 Generally Accepted Accounting Principles, is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The adoption of this pronouncement did not have an effect on the consolidated financial statements.

In August 2009, the FASB issued Accounting Standards Update (“ASU”) No. 2009-05, Measuring Liabilities at Fair Value, which clarifies, among other things, that when a quoted price in an active market for the identical liability is not available, an entity must measure fair value using one or more specified techniques. The Company adopted the pronouncement effective July 1, 2009 with no impact on its consolidated financial statements.

In October 2009, the FASB issued ASU No. 2009-13, Multiple-Deliverable Revenue Arrangements, which revises the existing multiple-element revenue arrangements guidance and changes the determination of when the individual deliverables included in a multiple-element revenue arrangement may be treated as separate units of accounting, modifies the manner in which the transaction consideration is allocated across the separately identified deliverables and expands the disclosures required for multiple-element revenue arrangements. The pronouncement is effective for financial statements issued after December 31, 2010. The Company does not expect the pronouncement to have a material effect on its consolidated financial statements.

The Company evaluated subsequent events through November 10, 2009, the date the financial statements were issued, and there was no subsequent event which impacted the Company’s financial position or results of operations as of September 30, 2009 or which required disclosure.

4. INVESTMENTS IN MARKETABLE SECURITIES

Investments in marketable securities consist primarily of large capital corporate equity and debt securities in varying industries or issued by government agencies with readily determinable fair values. These securities are stated at market value, as determined by the most recent traded price of each security at the balance sheet date. Consistent with the Company's overall current investment objectives and activities its entire marketable securities portfolio is classified as trading.

Net realized and unrealized gain (loss) from investments in marketable securities for the three and nine months ended September 30, 2009 and 2008 is summarized below:

Description	Three months ended September 30,		Nine months ended September 30,	
	2009	2008	2009	2008
Net realized (loss) gain from sales of securities	\$ (56,000)	\$ 48,000	\$ (59,000)	\$ (46,000)
Unrealized net gain (loss) in trading securities	596,000	(737,000)	1,018,000	(858,000)
Total net (loss) gain from investments in marketable securities	\$ 540,000	\$ (689,000)	\$ 959,000	\$ (904,000)

For the three and nine months ended September 30, 2009 net unrealized gain from in trading securities was \$596,000 and \$1,018,000, respectively. This is compared to a net unrealized loss of \$737,000 and \$858,000 for the three and nine months ended September 30, 2009, respectively. The large increase in unrealized gains in 2009 is in line with the overall recovery in the US stock markets since lows were reached in March 2009, and also a result of the Company's increased investments in corporate bonds which have performed well during the second and third quarters of 2009.

For the three months ended September 30, 2009 net realized loss from sales of marketable securities of approximately \$56,000 consisted of approximately \$153,000 of gross losses net of \$97,000 of gross gains. For the nine months ended September 30, 2009 net realized loss from sales of marketable securities of approximately \$59,000 consisted of approximately \$257,000 of gross losses net of \$198,000 of gross gains.

For the three and nine months ended September 30, 2008 net realized gain (loss) from sales of marketable securities of approximately \$48,000 and (\$46,000), respectively, consisted of approximately \$126,000 of gross gains net of \$78,000 of gross losses for the three month period and \$340,000 of gross losses net of \$294,000 of gross gains for the nine month period.

Investment gains and losses on marketable securities may fluctuate significantly from period to period in the future and could have a significant impact on the Company's net earnings. However, the amount of investment gains or losses on marketable securities for any given period has no predictive value and variations in amount from period to period have no practical analytical value.

As of September 30, 2009 the Company's other investments consists of 25 individual investments primarily in limited partnerships with varying investment objectives and focus. Management has categorized these investments by investment focus (technology & communications, diversified businesses/distressed debt, real estate and related and other).

Unrealized losses on the Company's other investments generally occur as a result of valuation adjustments recorded by the managing partners of these partnerships and are based on estimated changes to the value of the underlying portfolio companies. Weaker financial performance, coupled with the impact of new fair value accounting rules have resulted in declines in the carry values of many portfolio companies. These new accounting rules established a framework for measuring the fair value of illiquid investments, such as private equity investments. In order to determine the fair value of their portfolio investments, private equity managers review a number of factors, including a portfolio company's most recent financial results, relevant valuation metrics and financial performance of comparable public and private companies; and other company and market specific characteristics. As a result, certain portfolio company valuations, which are based in large part on the valuation metrics of comparable public companies, have been negatively impacted. Nevertheless, fair value markdowns for unrealized portfolio companies do not necessarily represent a permanent loss of value, just as mark ups do not always lead to realized gains.

When evaluating the investments for other-than-temporary impairment, the Company reviews factors such as the length of time and extent to which fair value has been below cost basis, the financial condition of the issuer and any changes thereto, and the Company's intent to sell, or whether it is more likely than not it will be required to sell, the investment before recovery of the investment's amortized cost basis.

During the three and nine months ended September 30, 2009, the Company recognized \$280,000 for material impairment charges on its other investments. As of September 30, 2009, the Company does not consider any of its investments to be other-than-temporarily impaired.

6. INTEREST RATE SWAP CONTRACT

The Company is exposed to interest rate risk through its borrowing activities. In order to minimize the effect of changes in interest rates, the Company has entered into an interest rate swap contract under which the Company agrees to pay an amount equal to a specified rate of 7.57% times a notional principal approximating the outstanding loan balance, and to receive in return an amount equal to 2.45% plus the one-month LIBOR Rate times the same notional amount. The Company designated this interest rate swap contract as a cash flow hedge. As of September 30, 2009 and December 31, 2008 the fair value (net of 50% minority interest) of the cash flow hedge was a loss of approximately \$726,000 and \$1,078,000, respectively, which has been recorded as other comprehensive income (loss) and will be reclassified into earnings in the same period or periods during which the hedged transaction affects earnings.

The following tables present the required disclosures in accordance with ASC Topic 815-10 (formerly, SFAS 161): Fair Values of Derivative Instruments:

9. INCOME TAXES

We adopted the provisions of ASC Topic 740-10 (formerly FASB Interpretation No. 48), "Accounting for Uncertainty in Income Taxes-an interpretation of ASC Topic 740-10, on January 1, 2007. This clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement 109, "Accounting for Income Taxes", and prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. It also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

Based on our evaluation, we have concluded that there are no significant uncertain tax positions requiring recognition in our consolidated financial statements. Our evaluation was performed for the tax years ended December 31, 2005, 2006, 2007 and 2008, the tax years which remain subject to examination by major tax jurisdictions as of September 30, 2009.

We may from time to time be assessed interest or penalties by major tax jurisdictions, although any such assessments historically have been minimal and immaterial to our financial results. In the event we have received an assessment for interest and/or penalties, it has been classified in the consolidated financial statements as selling, general and administrative expense.
