Notes to Condensed Financial Statements
September 30, 2009
(Unaudited)

Note 1: Basis of Presentation

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Regulation S-K. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of the Company, the accompanying unaudited condensed financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position as of September 30, 2009, the results of operations for the nine months and three months ended September 30, 2009 and 2008, and cash flows for the nine months ended September 30, 2009 and 2008. These financial statements should be read in conjunction with the audited financial statements and notes thereto contained in the Company's annual report on Form 10-K for the year ended December 31, 2008. There have been no updates or changes to our audited financial statements for the year ended December 31, 2008. There is no provision for dividends for the quarter to which this quarterly report relates.

The results of operations for the nine months ended September 30, 2009 are not necessarily indicative of the results to be expected for the full year.

Going Concern

The Company's financial statements for the nine months ended September 30, 2009 have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. The Company reported an accumulated deficit of \$1,137,287 as of September 30, 2009. The Company recognized revenues of \$792 from its operational

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form 10-Q

activities during the nine months ended September 30, 2009. These factors raise substantial doubt about the Company's ability to continue as a going concern.

Recent Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Codification ("ASC") 105, "Generally Accepted Accounting Principals" (formerly Statement of Financial Accounting Standards ("SFAS") No. 168, "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles"). ASC 105 establishes the FASB ASC as the single source of authoritative nongovernmental U.S. GAAP. The standard is effective for interim and annual periods ending after September 15, 2009. We adopted the provisions of the standard on September 30, 2009, which did not have a material impact on our financial statements.

There were various other accounting standards and interpretations issued in 2009, none of which are expected to have a material impact on the Company's financial position, operations or cash flows.

Note 2: Related Parties

During the third quarter of 2009, the Company issued a former officer a total of 6,830 shares of common stock in lieu of \$1,366 in salaries (\$0.20 per share).

During the second quarter of 2009, the Company issued to two officers a total of 360,000 shares of common stock in lieu of \$36,000 accrued salaries (\$0.10 per share).

TOMBSTONE TECHNOLOGIES, INC.
Notes to Condensed Financial Statements
September 30, 2009
(Unaudited)

During the second quarter of 2009, the Company issued to one officer a total of 116,170 shares of common stock in lieu of \$11,617 salaries (\$0.10 per share).

Note 3: Intangible Assets

On May 15, 2008, Tombstone entered into an Intellectual Property Transfer Agreement with InDis Baltic, a Lithuania company, to purchase all of the rights, title and interest in and to the technology, intellectual property and the proprietary technology contained in the computer software known as OIEPrint. OIEPrint was developed as part of a development agreement between Tombstone and InDis Baltic. As part of the Intellectual Property Transfer Agreement, Tombstone agreed to pay the following:

1. \$7,500 immediately upon mutual acceptance of Transfer Agreement,
2. \$7,500 upon final acceptance of the Technology,
3. 140,000 shares of restricted common stock of Tombstone upon final acceptance of the Technology, and
4. \$10,000 in 90 days from the final acceptance of the Technology.

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form 10-Q

On March 3, 2009, Tombstone issued 140,000 shares of restricted common stock of Tombstone to InDis Baltic as indicated in the above agreement and recorded it as a deferred charge. On June 30, 2009, Tombstone recorded half of the final payment \$5,000 for OIEPrint, which is a deferred charge in the accompanying financial statements. On July 6, 2009, Tombstone issued 25,000 shares of common stocks to InDis Baltic as the other half of the final payment in an agreement signed on July 6, 2009.

As a result of the final payment being made the intellectual property has been transferred to Tombstone. At that time, the Company capitalized the deferred charges in connection with OIEPrint as intangible assets and began to amortize them accordingly. At September 30, 2009, intangible assets had a net value of \$101,912.

Note 4: Convertible Promissory Notes

During the nine months ended September 30, 2009, Tombstone issued Convertible Promissory Notes payable to unrelated third parties totaling \$100,000 with interest accruing at 8% per annum (paid quarterly) maturing twelve months from date of issuance. The notes are immediately convertible to restricted shares of common stock at \$0.10 per share.

A beneficial conversion feature (difference between conversion price and the quoted stock price on the date of commitment) embedded in the convertible promissory notes was measured and recorded as \$32,500 discount on convertible promissory notes and \$67,500 interest expense in the accompanying financial statements for the nine-month period ended September 30, 2009.

The following is a summary of convertible promissory notes at September 30, 2009 and December 31, 2008:

	September 30, 2009	December 31, 2008
Notes issued in March 2009	\$ 7,500	\$ -

Note 5: Shareholders' Equity

Stock Options

Pursuant to our Employee/Consultant Stock Option Plan, stock options generally are granted with an exercise price equal to the market price of our common stock at the date of grant. Substantially all of the options granted to employees and consultants are exercisable pursuant to an immediate vesting schedule with a maximum contractual term of 5 years. The fair value of these options is estimated using the Black-Scholes option pricing model which incorporates the

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form 10-Q

assumptions noted in the table below. The risk-free interest rate for periods within the expected life of the option is based on the U.S. Treasury bond rate in effect at the time of grant. We do not pay dividends and do not expect to do so in the future. Expected volatilities are based on the historical volatilities of appropriate industry sector index. The expected term of the options granted during 2009 is approximately 3 years calculated using the simplified method.

We use historical volatility of appropriate industry sector index as we believe it is more reflective of market conditions and a better indicator of volatility. We use the simplified calculation of expected life. If we determined that another method used to estimate expected volatility was more reasonable than our current methods, or if another method for calculating these input assumptions was prescribed by authoritative guidance, the fair value calculated for share-based awards could change significantly. Higher volatility and longer expected lives result in an increase to share-based compensation determined at the date of grant.

A summary of changes in the number of stock options outstanding for the nine months ended September 30, 2009 is as follows:

	Number of Shares	Exercise Price Per Share	Weighted Average Exercise Price Per Share	Weight Avera Remain Contract Life
Outstanding at December 31, 2008	5,020,000	\$0.65 - \$1.50	\$2.56	0.75 ye

New Stock Options Granted

During the second quarter of 2009, we granted to two consultants and one officer, options to purchase 129,999 shares of our common stock at an exercise price of \$0.10 to \$0.20 per share, in exchange for services. The option to purchase 129,999 shares of our common stock vested immediately on grant date in April and expired in May, 2009. Our Board of Directors valued our common stock at \$0.20 and \$0.26 per share on the grant date. We, utilizing appropriate option pricing software, estimated the fair value of the options at \$0.05 to \$0.26 per share for an aggregate grant-date fair value of \$8,009. We recorded \$8,009 in stock-based compensation in the accompanying financial statements for the nine-month period ended September 30, 2009.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with our unaudited financial statements and notes thereto included herein. In connection with, and because we desire to take advantage of, the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, we caution readers regarding certain forward looking statements in the following discussion and elsewhere in

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form 10-Q

this report and in any other statement made by, or on our behalf, whether or not in future filings with the Securities and Exchange Commission. Forward-looking statements are statements not based on historical information and which relate to future operations, strategies, financial results or other developments. Forward looking statements are necessarily based upon estimates and assumptions that are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond our control and many of which, with respect to future business decisions, are subject to change. These uncertainties and contingencies can affect actual results and could cause actual results to differ materially from those expressed in any forward looking statements made by, or on our behalf. We disclaim any obligation to update forward-looking statements.

The independent registered public accounting firm's report on the Company's financial statements as of December 31, 2008, and for each of the years in the two-year period then ended, includes a "going concern" explanatory paragraph, that describes substantial doubt about the Company's ability to continue as a going concern.

PLAN OF OPERATIONS

At September 30, 2009, we had cash on hand of \$26,997. We intend to use our cash funds to continue operations. We intend to continue to develop the business opportunities presented by our OIEPrint(TM) software. The development of the business opportunities includes continued marketing efforts and product testing over the next twelve months.

As of September 30, 2009, we raised \$100,000 in Convertible Notes that will mature after one year. Payments of interest at the rate of 8.0% per annum will be accrued and paid each quarter to each investor beginning June 30, 2009. We have paid investors interest expense of \$2,720 as of September 30, 2009. The final principle payment to the investors will be payable to the investor one year from their investment date. The investor also has the option, based on their conversion terms, to convert to restricted shares of common stock at \$0.10 per share with immediate convertibility (i.e. \$2,500 = 25,000 shares.)

In the continuance of our business operations we do not intend to purchase or sell any significant assets and we do not expect a significant change in the number of employees of the Company.

On September 1, 2009, as a result of the resignation of Mr. Willis as the Company's Chief Executive Officer, Mr. John Harris was appointed as the Chief Executive Officer of the Company. Mr. Harris has served as a Director and the President of the Company since its inception. Prior to Mr. Willis's appointment as Chief Executive Officer, Mr. Harris served as the Chief Executive Officer of the Company from its inception through April 6, 2009.

of its customized playing card activities and a focus on the development of our OIE Print software, as a result sales of our customized playing cards are recognized in discontinued operations.

During the three months ended September 30, 2009, we incurred \$29,198 in selling and general administrative expenses compared to \$54,739 during the nine months ended September 30, 2008. The Company's employees agreed that no wages or payroll taxes would be accrued or paid during the nine month ended September 30, 2009. The resolution also included issuance of 123,000 shares of restricted common stock to Michael Willis, a former officer of the Company, in lieu of accrued salary from April 6, 2009 through July 6, 2009 and is posted as additional paid in capital and stock based compensation.

We have paid investors interest expense of \$2,720 as of September 30, 2009. The final principle payment to the investors will be payable to the investor one year from their investment date. Our management is responsible for establishing and maintaining adequate internal control over financial reporting for the company in accordance with as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Our internal control over financial reporting includes those policies and procedures that:

- (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets;

Management's assessment of the effectiveness of the small business issuer's internal control over financial reporting is as of the quarter ended September 30, 2009. We believe that internal control over financial reporting is effective. We have not identified any, current material weaknesses considering the nature and extent of our current operations and any risks or errors in financial reporting under current operations.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

This quarterly report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities
