On June 27, 2007, Ashutosh Misra, the Senior Vice President of Operations and Corporate Affairs of Ascent Solar Technologies, Inc. (the Company), tendered his resignation as a member of the Company's Board of Directors (the Board) in order to dedicate more time to his role as a full-time executive officer of the Company. On the same day, the Board appointed Joel S. Porter to replace Mr. Misra on the Board. Mr. Porter will serve as a Board representative of ITN Energy Systems, Inc., a shareholder of the Company. Mr. Porter is the President of Centennial Consulting Services, Inc., a consulting firm created after Mr. Porter's retirement from Lockheed Martin in the spring of 2004 as Vice President for International Program Development and Systems Analysis. Mr. Porter had served for approximately 28 years at Lockheed Martin in a variety of management roles, and holds a Bachelor of Aerospace Engineering degree and a M.S. degree in Industrial Management from the Georgia Institute of Technology. In connection with his appointment, Mr. Porter has been granted an option to purchase up to 5,000 shares of the Company's common stock. **Item 8.01 Other Events.**

Matthew Foster, the Company's President and Chief Executive Officer, Janet Casteel, the Company's Chief Accounting Officer and Treasurer, Joseph Armstrong, Ph.D., the Company's Vice President and Chief Technology Officer, Ashutosh Misra, the Company's Senior Vice President of Operations and Corporate Affairs, and ITN Energy Systems, Inc., a shareholder and affiliate of Dr. Mohan Misra, the Company's Chairman, each recently adopted a stock trading plan in accordance with Rule 10b5-1 of the Securities Exchange Act of 1934, as amended. Under Rule 10b5-1, directors, officers and other employees who are not in possession of material non-public information may adopt a pre-arranged plan or contract for the sale of the registrant's securities under specified conditions and at specified times. Using these plans, these persons can gradually diversify their investment portfolios, spread stock trades out over an extended period of time to reduce market impact and avoid concerns about transactions occurring at a time when they might possess material non-public information.

In total, the shares subject to these plans represent approximately 21% of the combined holdings of the plans' participants and are expected to occur at predetermined times between July 2007 and April 2009 at prevailing market prices, subject to minimum price thresholds that may be specified in each plan. Transactions under these plans will be reported to the Securities and Exchange Commission in accordance with applicable securities laws, rules and regulations.
