**COGENT COMMUNICATIONS GROUP, INC., AND SUBSIDIARIES**

**NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**1. Description of the business and recent developments:**

**Description of business**

Cogent Communications Group, Inc. (the Company) is a Delaware corporation and is headquartered in Washington, DC. The Company is a facilities-based provider of low-cost, high-speed Internet access and Internet Protocol (IP) communications services. The Company's network is specifically designed and optimized to transmit data using IP. The Company delivers its services to small and medium-sized businesses, communications service providers and other bandwidth-intensive organizations in North America and Europe and recently began expansion into Japan.

The Company offers on-net Internet access services exclusively through its own facilities, which run from its network to its customers' premises. Because of its integrated network architecture, the Company is not dependent on local telephone companies to serve its on-net customers. The Company's on-net service consists of high-speed Internet access and IP connectivity ranging from 100 Megabits per second to 10 Gigabits per second of bandwidth. The Company offers its on-net services to customers located in buildings that are physically connected to its network. The Company provides on-net Internet access services to net-centric and corporate customers. The Company's net-centric customers include bandwidth-intensive users such as universities, other Internet service providers, telephone companies, cable television companies, web hosting companies, content delivery networks and commercial content and application providers. These net-centric customers generally receive the Company's services in colocation facilities and in the Company's data centers. The Company operates data centers throughout North America and Europe that allow customers to collocate their equipment and access the Company's network. The Company's corporate customers are located in multi-tenant office buildings and typically include law firms, financial services firms, advertising and marketing firms and other professional services businesses.

In addition to providing its on-net services, the Company provides Internet connectivity to customers that are not located in buildings directly connected to its network. The Company provides this off-net service primarily to corporate customers using other carriers' facilities to provide the last mile portion of the link from its customers' premises to the Company's network. The Company also provides non-core services that resulted from acquisitions. The Company continues to support but does not actively sell these non-core services.

**Basis of presentation**

The accompanying unaudited condensed consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of management, the unaudited condensed consolidated financial statements reflect all normal recurring adjustments that the Company considers necessary for the fair presentation of its results of operations and cash flows for the interim periods covered, and of the financial position of the Company at the date of the interim condensed consolidated balance sheet. Certain information and footnote disclosures normally included in the annual consolidated financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations. The

## Edgar Filing: COGENT COMMUNICATIONS GROUP INC - Form 10-Q

operating results for interim periods are not necessarily indicative of the operating results for the entire year. While the Company believes that the disclosures are adequate to not make the information misleading, these interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes included in its 2012 annual report on Form 10-K.

The accompanying unaudited consolidated financial statements include all wholly-owned subsidiaries. All inter-company accounts and activity have been eliminated.

### *Use of estimates*

The preparation of consolidated financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from these estimates.

### *Financial instruments*

At June 30, 2013 the carrying amount of cash and cash equivalents, accounts receivable, prepaid and other current assets, accounts payable and accrued expenses approximated fair value because of the short-term nature of these instruments. The Company measures its cash equivalents at amortized cost, which approximates fair value based upon quoted market prices (Level 1). Based upon recent trading prices (Level 2 – market approach) at June 30, 2013 the fair value of the Company’s \$92.0 million convertible senior notes was \$90.1 million. Based upon recent trading prices (Level 2 – market approach) at June 30, 2013 the fair value of the Company’s \$175.0 million senior secured notes was \$190.4 million.

The Company was party to letters of credit totaling \$0.4 million as of June 30, 2013. These letters of credit are secured by investments that are restricted and included in other assets.

Table of Contents*Basic and diluted net (loss) income per common share*

Basic earnings per share ( EPS ) excludes dilution for common stock equivalents and is computed by dividing net income or (loss) available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted EPS is based on the weighted-average number of shares of common stock outstanding during each period, adjusted for the effect of common stock equivalents, if dilutive.

Shares of restricted stock are included in the computation of basic EPS as they vest and are included in diluted EPS, to the extent they are dilutive, determined using the treasury stock method. As of June 30, 2013 and 2012, 1.2 million and 1.9 million unvested shares of restricted common stock, respectively, are not included in the computation of basic and diluted income (loss) per share, as the shares were not vested.

Using the if-converted method, the shares issuable upon conversion of the Company's 1.00% Convertible Senior Notes (the Convertible Notes ) were anti-dilutive for the three and six months ended June 30, 2013 and 2012. Accordingly, the impact has been excluded from the computation of diluted loss per share. The Convertible Notes are convertible into shares of the Company's common stock at an initial conversion price of \$49.18 per share, yielding 1.9 million shares at June 30, 2013 and 2012.

The Company computes the dilutive effect of outstanding options using the treasury stock method. For the three and six months ended June 30, 2012, options to purchase 0.2 million shares of common stock at weighted-average exercise prices of \$13.78 per share are not included in the computation of diluted loss per share as the effect would be anti-dilutive. For the three and six months ended June 30, 2013, and the three and six months ended June 30, 2012, the Company's employees exercised options for 42,693, 56,963, 6,815 and 18,502 common shares, respectively.

The following details the determination of diluted weighted average shares for the three and six months ended June 30, 2013:

	<b>Three Months Ended</b>	<b>Six Months Ended</b>
	<b>June 30, 2013</b>	<b>June 30, 2013</b>
Weighted average common shares - basic	46,040,692	46,028,855
Dilutive effect of stock options	77,868	79,669
Dilutive effect of restricted stock	650,624	733,612
Weighted average common shares - diluted	46,769,184	46,842,136

## 2. **Property and equipment:**

Depreciation and amortization expense related to property and equipment and capital leases was \$15.8 million \$31.8 million, \$15.5 million and \$30.7 million for the three and six months ended June 30, 2013 and 2012, respectively. The Company capitalized salaries and related benefits of employees working directly on the construction and build-out of its network of \$1.8 million, \$3.8 million, \$1.7 million and \$3.4 million for the three and six months ended June 30, 2013 and 2012, respectively.

**3. Long-term debt:**

*Senior secured notes*

On January 26, 2011, the Company issued its 8.375% Senior Secured Notes (the "Senior Notes") due February 15, 2018, for an aggregate principal amount of \$175.0 million in a private offering for resale to qualified institutional buyers pursuant to SEC Rule 144A. The Senior Notes are secured and bear interest at 8.375% per annum. Interest is payable in cash semiannually in arrears on February 15 and August 15, of each year, beginning on August 15, 2011. The Company received net proceeds of approximately \$170.5 million after deducting \$4.5 million of issuance costs that are included in deposits and other assets. The Company intends to use the net proceeds from the Senior Notes for general corporate purposes and/or repurchases of its common stock or its Convertible Notes, or special or recurring dividends to its stockholders. In the three and six months ended June 30, 2013 and the three and six months ended June 30, 2012, the Company incurred approximately \$3.8 million, \$7.6 million, \$3.8 million and \$7.6 million, respectively, of interest expense related to its Senior Notes.

*Convertible senior notes*

In June 2007, the Company issued its Convertible Notes for an aggregate principal amount of \$200.0 million in a private offering for resale to qualified institutional buyers pursuant to SEC Rule 144A. The Convertible Notes mature on June 15, 2027, are unsecured, and bear interest at 1.00% per annum. The Convertible Notes will rank equally with any future senior debt and senior to any future subordinated debt and will be effectively subordinated to all existing and future liabilities of the Company's subsidiaries and to any secured debt the Company may issue, to the extent of the value of the collateral. Interest is payable in cash semiannually in arrears on June 15 and December 15, of each year, beginning on December 15, 2007. The Company received net proceeds from the issuance of the Convertible Notes of approximately \$195.1 million, after deducting the original issue discount of 2.25% and issuance costs. The discount and other issuance costs are being amortized to interest expense using the effective interest method through June 15, 2014, which is the earliest put date. In 2008, the Company purchased an aggregate of \$108.0 million of face value of the Convertible Notes for \$48.6 million in cash in a series of transactions. As of June 30, 2013, the Convertible Notes are classified as a current liability since the earliest put date in June 2014 is within one year.

The debt and equity components for the Convertible Notes were as follows (in thousands):

Table of Contents

	June 30, 2013	December 31, 2012
Principal amount	\$ 91,978	\$ 91,978
Unamortized discount	(6,365)	(9,494)
Net carrying amount	85,613	82,484
Additional paid-in capital	74,933	74,933

At June 30, 2013, the unamortized discount had a remaining recognition period of approximately one year. The amount of interest expense recognized and effective interest rate were as follows (in thousands):

	Three Months Ended June 30, 2013	Three Months Ended June 30, 2012	Six Months Ended June 30, 2013	Six Months Ended June 30, 2012
Contractual coupon interest	\$ 230	\$ 230	\$ 460	\$ 460
Amortization of discount and costs on Notes	1,585	1,456	3,136	2,880
Interest expense	\$ 1,815	\$ 1,686	\$ 3,596	\$ 3,340
Effective interest rate	8.7%	8.7%	8.7%	8.7%

#### 4. Commitments and contingencies:

##### *Current and potential litigation*

In accordance with the accounting guidance for contingencies, the Company accrues its estimate of a contingent liability when it is both probable that a liability has been incurred and the amount of the loss can be reasonably estimated. Where it is probable that a liability has been incurred and there is a range of expected loss for which no amount in the range is more likely than any other amount, the Company accrues at the low end of the range. The Company reviews its accruals at least quarterly and adjusts them to reflect the impact of negotiations, settlements, rulings, advice of legal counsel, and other information and events pertaining to a particular matter. The Company has taken certain positions related to its obligations for leased circuit and dark fiber costs which could result in a loss of up to \$1.7 million in excess of the amount accrued at June 30, 2013.

Certain former sales employees of the Company filed a collective action against the Company in December 2011 in the United States District Court, Southern District of Texas, Houston Division alleging misclassification of the Company's sales employees throughout the U.S. in violation of the Fair Labor Standards Act. The lawsuit seeks to recover pay for allegedly unpaid overtime and other damages, including attorney's fees. In January 2013, a former sales employee filed in the Superior Court of Santa Clara County, California a lawsuit alleging misclassification of sales employees under California wage and hour laws. The lawsuit seeks certification as a class action and seeks to recover pay for allegedly unpaid overtime and other damages, including attorney's fees. The Company denies both claims and believes that the claims for unpaid overtime in each case are without merit. The Company believes its classification of sales employees is in compliance with applicable law.

## Edgar Filing: COGENT COMMUNICATIONS GROUP INC - Form 10-Q

In the normal course of business the Company is involved in other legal activities and claims. Because such matters are subject to many uncertainties and the outcomes are not predictable with assurance, the liability related to these legal actions and claims cannot be determined with certainty. Management does not believe that such claims and actions will have a material impact on the Company's financial condition or results of operations. Judgment is required in estimating the ultimate outcome of any dispute resolution process, as well as any other amounts that may be incurred to conclude the negotiations or settle any litigation. Actual results may differ from these estimates under different assumptions or conditions and such differences could be material.

### *Income taxes*

In the normal course of business the Company takes positions on its tax returns that may be challenged by taxing authorities. The Company evaluates all uncertain tax positions to assess whether the position will more likely than not be sustained upon examination. If the Company determines that the tax position is more likely than not to be sustained, the Company records the amount of the benefit that is more likely than not to be realized when the tax position is settled. This liability, including accrued interest and penalties, is included in other long-term liabilities in the accompanying balance sheets and was approximately \$1.7 million as of June 30, 2013 and \$1.7 million as of December 31, 2012. During the three and six months ended June 30, 2013 and 2012 the Company recognized approximately \$17,000, \$34,000, \$84,000 and \$160,000 in interest and penalties, respectively, related to its uncertain tax positions. The Company expects its liability for uncertain tax positions will decrease by approximately \$0.4 million during the six months ended December 31, 2013 due to the expiration of certain statutes of limitation. Actual changes in the liability for uncertain tax positions could be different than currently expected. If recognized, the total unrecognized tax benefits would lower the Company's effective income tax rate.

### *Common stock buyback program*

The Company's board of directors has approved \$50.0 million for purchases of the Company's common stock under a buyback program (the Buyback Program). There is approximately \$45.8 million remaining for purchases under the Buyback Program. The Company purchased approximately 0.1 million shares for approximately \$1.3 million during the three and six months ended June 30, 2012. There were no purchases of common stock during 2013.

Table of Contents

*Dividends on common stock*

Dividends are recorded as a reduction to accumulated deficit. Dividends on unvested restricted shares of common stock are paid as the awards vest. On February 20, 2013, the Company's board of directors approved the payment of a dividend of \$0.12 per common share to holders of record on March 4, 2013. The \$5.5 million dividend payment was made on March 15, 2013. On April 18, 2013, the Company's board of directors approved the payment of a dividend of \$0.13 per common share to holders of record on May 31, 2013. The \$6.1 million dividend payment was made on June 18, 2013. On August 7, 2013, the Company's board of directors approved the payment of a dividend of \$0.14 per common share to holders of record on September 5, 2013. The estimated \$6.4 million dividend payment is expected to be made on September 25, 2013.

The Company's board of directors has approved an additional return of capital program for the Company's shareholders. Beginning in the third quarter of 2013, the Company plans on returning an additional \$10.0 million to its shareholders through either stock buybacks or a special dividend or a combination of stock buybacks and a special dividend. The aggregate payment under this program will total \$10.0 million each quarter and this amount is in addition to the Company's regular quarterly dividend payments. The program is to continue until the Company's net debt to trailing twelve months EBITDA as adjusted ratio reaches 2.5 to 1.0.

The payment of any future dividends and any other returns of capital will be at the discretion of the Company's board of directors and may be reduced, eliminated or increased and will be dependent upon the Company's financial position, results of operations, available cash, cash flow, capital requirements and other factors deemed relevant by the Company's board of directors.

**5. Related party transactions:**

*Office lease*

The Company's headquarters is located in an office building owned by Niobium LLC (a successor to 6715 Kenilworth Avenue Partnership). The two owners of the company are the Company's Chief Executive Officer, David Schaeffer, who has a 51% interest in the partnership and his wife who has a 49% interest. The Company paid \$0.1 million and \$0.3 million in the three and six months ended June 30, 2013 and paid \$0.2 million and \$0.3 million in the three and six months ended June 30, 2012, for rent and related costs (including taxes and utilities) to this company, respectively. The lease ends on August 31, 2015.

**6. Segment information:**

The Company operates as one operating segment. The Company's service revenue and long lived assets by geographic region are as follows (in thousands):

Edgar Filing: COGENT COMMUNICATIONS GROUP INC - Form 10-Q

	Three Months Ended June 30, 2013		Three Months Ended June 30, 2012		Six Months Ended June 30, 2013		Six Months Ended June 30, 2012

The majority of North American revenue consists of services delivered within the United States.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

*You should read the following discussion and analysis together with our condensed consolidated financial statements and related notes included in this report. The discussion in this report contains forward-looking statements that involve risks and uncertainties, such as statements of our plans, objectives, expectations and intentions. The cautionary statements made in this report should be read as applying to all related forward-looking statements wherever they appear in this report. Our actual results could differ materially from those discussed here. Factors that could cause or contribute to these differences include, but are not limited to:*

*Future economic instability in the global economy, which could affect spending on Internet services; the impact of changing foreign exchange rates (in particular the Euro to USD and Canadian dollar to USD exchange rates) on the translation of our non-USD denominated revenues, expenses, assets and liabilities; legal and operational difficulties in new markets; the imposition of a requirement that we contribute to*

Table of Contents

*the U. S. Universal Service Fund; changes in government policy and/or regulation, including rules regarding data protection and cyber security; increasing competition leading to lower prices for our services; our ability to attract new customers and to increase and maintain the volume of traffic on our network; the ability to maintain our Internet peering arrangements on favorable terms; our reliance on an equipment vendor, Cisco Systems Inc., and the potential for hardware or software problems associated with such equipment; the dependence of our network on the quality and dependability of third-party fiber providers; our ability to retain certain customers that comprise a significant portion of our revenue base; the management of network failures and/or disruptions; and outcomes in litigation as well as other risks discussed from time to time in our filings with the Securities and Exchange Commission, including, without limitation, our annual report on Form 10-K for the fiscal year ended December 31, 2012.*

**General Overview**

We are a leading facilities-based provider of low-cost, high-speed Internet access and IP communications services. Our network is specifically designed and optimized to transmit data using IP. We deliver our services to small and medium-sized businesses, communications service providers and other bandwidth-intensive organizations in North America and Europe and more recently in Japan.

Our on-net service consists of high-speed Internet access and IP connectivity ranging from 100 Megabits per second to 10 Gigabits per second of bandwidth. We offer our on-net services to customers located in buildings that are physically connected to our network. We provide on-net Internet access to net-centric and corporate customers. Our net-centric customers include bandwidth-intensive users such as universities, other Internet service providers, telephone companies, cable television companies, web hosting companies, content delivery networks and commercial content and application providers. These customers generally receive our service in colocation facilities and in our data centers. Our corporate customers are located in multi-tenant office buildings and typically include law firms, financial services firms, advertising and marketing firms and other professional services businesses.

Our off-net services are sold to businesses that are connected to our network primarily by means of last mile access service lines obtained from other carriers, primarily in the form of point-to-point, Carrier Ethernet, TDM, POS, and/or SDH circuits. Our non-core services, which consist primarily of legacy services of companies whose assets or businesses we have acquired, primarily include voice services (only provided in Toronto, Canada). We do not actively market these non-core services and expect the service revenue associated with them to continue to decline.

Our network is comprised of in-building riser facilities, metropolitan optical fiber networks, metropolitan traffic aggregation points and inter-city transport facilities. Our network is physically connected entirely through our facilities to 1,921 buildings in which we provide our on-net services, including over 1,330 multi-tenant office buildings. We also provide on-net services in carrier-neutral colocation facilities, Cogent controlled data centers and single-tenant office buildings. Because of our integrated network architecture, we are not dependent on local telephone companies to serve our on-net customers. We emphasize the sale of our on-net services because we believe we have a competitive advantage in providing these services and these services generate gross profit margins that are greater than the gross profit margins on our off-net services.

We believe our key growth opportunity is provided by our high-capacity network, which provides us with the ability to add a significant number of customers to our network with minimal direct incremental costs. Our focus is to add customers to our network in a way that maximizes its use and at the same time provides us with a profitable customer mix. We are responding to this opportunity by increasing our sales and marketing efforts including increasing our number of sales representatives and expanding our network to locations that we believe can be economically integrated and represent significant concentrations of Internet traffic. One of our keys to developing a profitable business will be to carefully match the cost of extending our network to reach new customers with the revenue expected to be generated by those customers. In addition, we

may add customers to our network through strategic acquisitions.

We believe some of the most important trends in our industry are the continued long-term growth in Internet traffic and a decline in Internet access prices on a per megabit basis. The effective price per megabit for our corporate customers is declining as the bandwidth utilization and connection size of our corporate customer connections increases. As Internet traffic continues to grow and prices per unit of traffic continue to decline, we believe we can continue to load our network and gain market share from less efficient network operators. However, continued erosion in Internet access prices will likely have a negative impact on the rate at which we can increase our revenues and our profitability. Our revenue may also be negatively affected if we are unable to grow our Internet traffic or if the rate of growth of Internet traffic does not offset the expected decline in per unit pricing. We do not know if Internet traffic will increase or decrease, or the rate at which it will grow or decrease. Changes in Internet traffic will be a function of the number of users, the applications for which the Internet is used, the bandwidth intensity of these applications and the pricing of Internet services, and other factors.

The growth in Internet traffic has a more significant impact on our net-centric customers who represent the majority of the traffic on our network and who tend to consume the majority of their allocated bandwidth on their connections. Net-centric customers tend to purchase their service on a price per megabit basis. Our corporate customers tend to utilize a small portion of their allocated bandwidth on their connections and tend to purchase their service on a per connection basis.

We are a facilities-based provider of Internet access and communications services. Facilities-based providers require significant physical assets, or network facilities, to provide their services. Typically when a facilities-based network services provider begins providing its services in a new jurisdiction losses are incurred for several years until economies of scale have been achieved. Our foreign operations are in Europe, Canada, Mexico and Japan. Europe accounts for roughly 75% of our foreign operations. Our European operations have incurred losses and will continue to do so until the European customer base and revenues have grown sufficiently to achieve economies of scale.

Table of Contents

Due to our strategic acquisitions of network assets and equipment, we believe we are well positioned to grow our revenue base. We continue to purchase and deploy network equipment to parts of our network to maximize the utilization of our assets and to expand and increase the capacity of our network. Our future capital expenditures will be based primarily on the expansion of our network, the addition of on-net buildings and the concentration and growth of our customer base. We plan to continue to expand our network and to increase the number of on-net buildings we serve including multi-tenant office buildings and carrier neutral data centers. Many factors can affect our ability to add buildings to our network. These factors include the willingness of building owners to grant us access rights, the availability of optical fiber networks to serve those buildings, and equipment availability.

*Three Months Ended June 30, 2013 Compared to the Three Months Ended June 30, 2012*

The following summary table presents a comparison of our results of operations for the three months ended June 30, 2013 and 2012 with respect to certain key financial measures. The comparisons illustrated in the table are discussed in greater detail below.

	2013	Three months ended June 30, (in thousands)	2012	Percent Change
Service revenue	\$	85,803	\$ 77,817	10.3%
On-net revenue		62,693	57,321	9.4%
Off-net revenue		22,604	19,868	13.8%
Non-core revenue		506	628	(19.4)%
Network operations expenses (1)		37,076	35,112	5.6%
Selling, general, and administrative expenses (2)		21,226	19,401	9.4%
Depreciation and amortization expenses		15,900	15,503	2.6%
Interest expense		10,216	8,988	13.7%
Income tax provision		367	752	(51.2)%

(1) Includes equity-based compensation expenses of \$126 and \$118 in the three months ended June 30, 2013 and 2012, respectively, which, if excluded would have resulted in a period-to-period change of 5.6%.

(2) Includes equity-based compensation expenses of \$2,011 and \$1,905 in the three months ended June 30, 2013 and 2012, respectively, which, if excluded would have resulted in a period-to-period change of 9.8%.

*Service Revenue.* Our service revenue increased 10.3% to \$85.8 million for the three months ended June 30, 2013 from \$77.8 million for the three months ended June 30, 2012. The impact of exchange rates resulted in an increase of revenues for the three months ended June 30, 2013 of approximately \$0.2 million. All foreign currency comparisons herein reflect our second quarter 2013 results translated at the average foreign currency exchange rates for the second quarter of 2012. For the three months ended June 30, 2013 and 2012, on-net, off-net and non-core revenues represented 73.1%, 26.3% and 0.6% and 73.7%, 25.5% and 0.8% of our service revenue, respectively.

Revenues from our corporate and net centric customers represented 51.7% and 48.3% of total service revenue, respectively, for the three months ended June 30, 2013 and represented 51.5% and 48.5% of total service revenue, respectively, for the three months ended June 30, 2012. Revenues from corporate customers increased 10.7% to \$44.4 million for the three months ended June 30, 2013 from \$40.1 million for the three months ended June 30, 2012. Revenues from our net-centric customers increased 9.8% to \$41.4 million for the three months ended June 30,

## Edgar Filing: COGENT COMMUNICATIONS GROUP INC - Form 10-Q

2013 from \$37.7 million for the three months ended June 30, 2012.

Our on-net revenues increased 9.4% to \$62.7 million for the three months ended June 30, 2013 from \$57.3 million for the three months ended June 30, 2012. We increased the number of our on-net customer connections by 16.0% to approximately 31,900 at June 30, 2013 from approximately 27,500 at June 30, 2012. On-net customer connections increased at a greater rate than on-net revenues due to a decline in the average revenue per on-net customer connection, primarily from our net centric customers. This decline is partly attributed to volume and term based pricing discounts. On-net customers who cancel their service from our installed base of customers, in general, have greater average revenue per connection than new customers. These trends resulted in a reduction to our average revenue per on-net connection.

Our off-net revenues increased 13.8% to \$22.6 million for the three months ended June 30, 2013 from \$19.9 million for the three months ended June 30, 2012. Our off-net revenues increased as we increased the number of our off-net customer connections by 15.3% to approximately 4,700 at June 30, 2013 from approximately 4,100 at June 30, 2012.

Our non-core revenues decreased 19.4% to \$0.5 million for the three months ended June 30, 2013 from \$0.6 million for the three months ended June 30, 2012. The number of our non-core customer connections decreased 8.5% to approximately 450 at June 30, 2013 from approximately 500 at June 30, 2012. We do not actively market these acquired non-core services and expect that the service revenue associated with them will continue to decline.

*Network Operations Expenses.* Network operations expenses include the costs of personnel associated with service delivery, network management, customer support, network facilities costs, fiber and equipment maintenance fees, leased circuit costs, and access and facilities fees paid to building owners. Non-cash equity-based compensation expense is included in network operations expenses consistent with the classification of the employee's salary and other compensation. Our network operations expenses, including non-cash equity-based compensation

Table of Contents

expense, increased 5.6% to \$37.1 million for the three months ended June 30, 2013 from \$35.1 million for the three months ended June 30, 2012. The increase is primarily attributable to an increase in costs related to our network and facilities expansion activities and the increase in our off-net revenues. When we provide off-net services we also assume the cost of the associated tail-circuits. The impact of exchange rates resulted in an increase of network operations expenses for the three months ended June 30, 2013 of approximately \$0.1 million.

*Selling, General, and Administrative ( SG&A ) Expenses.* Our SG&A expenses, including non-cash equity-based compensation expense, increased 9.4% to \$21.2 million for the three months ended June 30, 2013 from \$19.4 million for the three months ended June 30, 2012. Non-cash equity-based compensation expense is included in SG&A expenses consistent with the classification of the employee s salary and other compensation and was \$2.0 million for the three months ended June 30, 2013 and \$1.9 million for the three months ended June 30, 2012. SG&A expenses increased primarily from an increase in salaries and related costs required to support our expansion and increase in our sales efforts. The impact of exchange rates did not have a material impact on our SG&A expenses for the three months ended June 30, 2013.

*Depreciation and Amortization Expenses.* Our depreciation and amortization expense increased 2.6% to \$15.9 million for the three months ended June 30, 2013 from \$15.5 million for the three months ended June 30, 2012. The increase is primarily due to the depreciation expense associated with the increase in deployed fixed assets. The impact of exchange rates did not have a material impact on our depreciation and amortization expenses for the three months ended June 30, 2013.

*Interest Expense.* Interest expense results from interest incurred on our \$175.0 million of 8.375% Senior Secured Notes (the Senior Notes ) issued on January 26, 2011, our \$92.0 million of 1.00% convertible senior notes (the Convertible Notes ) issued in June 2007, and interest on our capital lease obligations. Our interest expense increased 13.7% to \$10.2 million for the three months ended June 30, 2013 from \$9.0 million for the three months ended June 30, 2012. The increase is attributed to interest expense related to an increase in our capital lease obligations and from an increase in interest expense from the amortization of the debt discount on our Convertible Notes. The impact of exchange rates did not have a material impact on our interest expense for the three months ended June 30, 2013.

*Income Tax Provision.* Our income tax provision was \$0.4 million for the three months ended June 30, 2013 and \$0.8 million for the three months ended June 30, 2012. The income tax provision for the three months ended June 30, 2013 and three months ended June 30, 2012 includes foreign and U. S. state income taxes.

*Buildings On-net.* As of June 30, 2013 and 2012, we had a total of 1,921 and 1,799 on-net buildings connected to our network, respectively.

*Six Months Ended June 30, 2013 Compared to the Six Months Ended June 30, 2012*

The following summary table presents a comparison of our results of operations for the six months ended June 30, 2013 and 2012 with respect to certain key financial measures. The comparisons illustrated in the table are discussed in greater detail below.

Six months ended June 30,	Percent
------------------------------	---------

Edgar Filing: COGENT COMMUNICATIONS GROUP INC - Form 10-Q

	2013	(in thousands)		2012	Change
Service revenue	\$	170,357	\$	154,704	10.1%
On-net revenue		124,372		114,070	9.0%
Off-net revenue		44,913		39,368	14.1%
Non-core revenue		1,072		1,266	(15.3)%
Network operations expenses (1)		74,385		69,366	7.2%
Selling, general, and administrative expenses (2)		42,691		40,826	4.6%
Depreciation and amortization expenses		31,774		30,743	3.4%
Interest expense		20,084		17,982	11.7%
Income tax provision		700		192	264.6%

(1) Includes equity-based compensation expenses of \$281 and \$201 in the six months ended June 30, 2013 and 2012, respectively, which, if excluded would have resulted in a period-to-period change of 7.1%.

(2) Includes equity-based compensation expenses of \$4,370 and \$3,061 in the six months ended June 30, 2013 and 2012, respectively, which, if excluded would have resulted in a period-to-period change of 1.5%.

*Service Revenue.* Our service revenue increased 10.1% to \$170.4 million for the six months ended June 30, 2013 from \$154.7 million for the six months ended June 30, 2012. The impact of exchange rates resulted in an increase of revenues for the six months ended June 30, 2013 of approximately \$0.3 million. All foreign currency comparisons herein reflect our results for the six months ended June 30, 2013 translated at the average foreign currency exchange rates for the six months ended June 30, 2012. For the six months ended June 30, 2013 and 2012, on-net, off-net and non-core revenues represented 73.0%, 26.4% and 0.6% and 73.7%, 25.5% and 0.8% of our service revenue, respectively.

Revenues from our corporate and net centric customers represented 51.3% and 48.7% of total service revenue, respectively, for the six months ended June 30, 2013 and represented 51.2% and 48.8% of total service revenue, respectively, for the six months ended June 30, 2012. Revenues from corporate customers increased 10.3% to \$87.4 million for the six months ended June 30, 2013 from \$79.2 million for the

## Edgar Filing: COGENT COMMUNICATIONS GROUP INC - Form 10-Q

### Table of Contents

six months ended June 30, 2012. Revenues from our net-centric customers increased 9.9% to \$83.0 million for the six months ended June 30, 2013 from \$75.5 million for the six months ended June 30, 2012.

Our on-net revenues increased 9.0% to \$124.4 million for the six months ended June 30, 2013 from \$114.1 million for the six months ended June 30, 2012. We increased the number of our on-net customer connections by 16.0% to approximately 31,900 at June 30, 2013 from approximately 27,500 at June 30, 2012. On-net customer connections increased at a greater rate than on-net revenues due to a decline in the average revenue per on-net customer connection, primarily from our net centric customers. This decline is partly attributed to volume and term based pricing discounts. On-net customers who cancel their service from our installed base of customers, in general, have greater average revenue per connection than new customers. These trends resulted in a reduction to our average revenue per on-net connection.

Our off-net revenues increased 14.1% to \$44.9 million for the six months ended June 30, 2013 from \$39.4 million for the six months ended June 30, 2012. Our off-net revenues increased as we increased the number of our off-net customer connections by 15.3% to approximately 4,700 at June 30, 2013 from approximately 4,100 at June 30, 2012.

Our non-core revenues decreased 15.3% to \$1.1 million for the six months ended June 30, 2013 from \$1.3 million for the six months ended June 30, 2012. The number of our non-core customer connections decreased 8.5% to approximately 450 at June 30, 2013 from approximately 500 at June 30, 2012. We do not actively market these acquired non-core services and expect that the service revenue associated with them will continue to decline.

*Network Operations Expenses.* Network operations expenses include the costs of personnel associated with service delivery, network management, customer support, network facilities costs, fiber and equipment maintenance fees, leased circuit costs, and access and facilities fees paid to building owners. Non-cash equity-based compensation expense is included in network operations expenses consistent with the classification of the employee's salary and other compensation. Our network operations expenses, including non-cash equity-based compensation expense, increased 7.2% to \$74.4 million for the six months ended June 30, 2013 from \$69.4 million for the six months ended June 30, 2012. The increase is primarily attributable to an increase in costs related to our network and facilities expansion activities and the increase in our off-net revenues. When we provide off-net services we also assume the cost of the associated tail-circuits. The impact of exchange rates resulted in an increase of network operations expenses for the six months ended June 30, 2013 of approximately \$0.2 million.

*Selling, General, and Administrative ( SG&A ) Expenses.* Our SG&A expenses, including non-cash equity-based compensation expense, increased 4.6% to \$42.7 million for the six months ended June 30, 2013 from \$40.8 million for the six months ended June 30, 2012. Non-cash equity-based compensation expense is included in SG&A expenses consistent with the classification of the employee's salary and other compensation and was \$4.4 million for the six months ended June 30, 2013 and \$3.1 million for the six months ended June 30, 2012. SG&A expenses increased primarily from an increase in non-cash equity-based compensation expense and salaries and related costs required to support our expansion and increase in our sales efforts partly offset by a decrease in our bad debt expense of approximately \$1.5 million. Bad debt expense for the six months ended June 30, 2012 included amounts related to the loss of our largest customer in January 2012. The impact of exchange rates did not have a material impact on our SG&A expenses for the six months ended June 30, 2013.

*Depreciation and Amortization Expenses.* Our depreciation and amortization expense increased 3.4% to \$31.8 million for the six months ended June 30, 2013 from \$30.7 million for the six months ended June 30, 2012. The increase is primarily due to the depreciation expense associated with the increase in deployed fixed assets. The impact of exchange rates did not have a material impact on our depreciation and amortization expenses for the six months ended June 30, 2013.

*Interest Expense.* Interest expense results from interest incurred on our \$175.0 million of 8.375% Senior Secured Notes (the Senior Notes ) issued on January 26, 2011, our \$92.0 million of 1.00% convertible senior notes (the Convertible Notes ) issued in June 2007, and interest on our capital lease obligations. Our interest expense increased 11.7% to \$20.1 million for the six months ended June 30, 2013 from \$18.0 million for the six months ended June 30, 2012. The increase is attributed to interest expense related to an increase in our capital lease obligations and from an increase in interest expense from the amortization of the debt discount on our Convertible Notes. The impact of exchange rates did not have a material impact on our interest expense for the six months ended June 30, 2013.

*Income Tax Provision.* Our income tax provision was \$0.7 million for the six months ended June 30, 2013 and \$0.2 million for the six months ended June 30, 2012. The income tax provision for the six months ended June 30, 2013 and six months ended June 30, 2012 includes foreign and U. S. state income taxes. Additionally, during the six months ended June 30, 2012 we reversed approximately \$0.7 million of a liability for an uncertain tax position due to the resolution of certain state income tax issues pursuant to the completion of an audit.

*Buildings On-net.* As of June 30, 2013 and 2012, we had a total of 1,921 and 1,799 on-net buildings connected to our network, respectively.

### ***Liquidity and Capital Resources***

In assessing our liquidity, management reviews and analyzes our current cash balances, accounts receivable, accounts payable, accrued liabilities, capital expenditure commitments, and required capital lease and debt payments and other obligations.

### **Cash Flows**

The following table sets forth our consolidated cash flows for the six months ended June 30, 2013 and six months ended June 30, 2012.

Table of Contents

(in thousands)	Six months ended June 30,	
	2013	2012
Net cash provided by operating activities	\$ 37,665	\$ 32,157
Net cash used in investing activities	(28,769)	(22,743)
Net cash used in financing activities	(17,942)	(9,870)
Effect of exchange rates on cash	(904)	(524)
Net decrease in cash and cash equivalents during period	\$ (9,950)	\$ (980)

*Net Cash Provided by Operating Activities.* Our primary sources of operating cash are receipts from our customers who are billed on a monthly basis for our services. Our primary uses of operating cash are payments made to our vendors, employees and interest payments made to our capital lease vendors and our note holders. Net cash provided by operating activities was \$37.7 million for the six months ended June 30, 2013 compared to net cash provided by operating activities of \$32.2 million for the six months ended June 30, 2012. The change in cash provided by operating activities is primarily due to an increase in our operating income.

*Net Cash Used In Investing Activities.* Net cash used in investing activities was \$28.8 million for the six months ended June 30, 2013 and \$22.7 million for the six months ended June 30, 2012. Our primary use of investing cash is for purchases of property and equipment. Purchases of property and equipment were \$28.8 million and \$22.9 million for the six months ended June 30, 2013 and 2012, respectively. The changes in purchases of property and equipment are primarily due to the timing and scope of our network expansion activities including geographic expansion and adding buildings to our network.

*Net Cash Used In Financing Activities.* Net cash used in financing activities was \$17.9 million for the six months ended June 30, 2013 and \$9.9 million for the six months ended June 30, 2012. Our primary use of financing cash is for principal payments under our capital lease obligations and dividend payments made to our shareholders. Additionally, financing activities include amounts paid under our stock buyback program. During the six months ended June 30, 2012 we paid approximately \$1.3 million for purchases of our common stock. There were no stock purchases in the six months ended June 30, 2013. Principal payments under our capital lease were \$7.0 million and \$8.8 million for the six months ended June 30, 2013 and 2012, respectively. We began paying a quarterly dividend on our common stock in the third quarter of 2012. During the six months ended June 30, 2013 we paid \$11.6 million for our first quarter 2013 and second quarter 2013 dividend payments.

**Cash Position and Indebtedness**

Our total indebtedness, net of discount, at June 30, 2013 was \$412.5 million and our total cash and cash equivalents were \$237.3 million. Our total indebtedness at June 30, 2013 includes \$151.9 million of capital lease obligations for dark fiber primarily under long term IRU agreements.

**Common Stock Buyback Program**

Our board of directors has approved \$50.0 million of purchases of the Company's common stock under a buyback program (the Buyback Program). There is approximately \$45.8 million remaining for purchases under the Buyback Program. We purchased approximately 0.1 million shares for approximately \$1.3 million during the three and six months ended June 30, 2012. There were no purchases of common stock during the other periods presented herein.

**Dividends on Common Stock**

Dividends are recorded as a reduction to accumulated deficit. Dividends on unvested restricted shares of common stock are paid as the awards vest. On February 20, 2013, our board of directors approved the payment of a dividend of \$0.12 per common share to holders of record on March 4, 2013. The \$5.5 million dividend payment was made on March 15, 2013. On April 18, 2013, our board of directors approved the payment of a dividend of \$0.13 per common share to holders of record on May 31, 2013. The \$6.1 million dividend payment was made on June 18, 2013. On August 7, 2013, our board of directors approved the payment of a dividend of \$0.14 per common share to holders of record on September 5, 2013. The estimated \$6.4 million dividend payment is expected to be made on September 25, 2013.

Our board of directors has approved an additional return of capital program for our shareholders. Beginning in the third quarter of 2013 we plan on returning an additional \$10.0 million to our shareholders through either stock buybacks or a special dividend or a combination of buybacks and a special dividend. The aggregate payment under this program will total \$10.0 million each quarter and this amount is in addition to our regular quarterly dividend payments. The program is to continue until our net debt to trailing twelve months EBITDA as adjusted ratio reaches 2.5 to 1.0.

The payment of any future dividends and any other returns of capital will be at the discretion of our board of directors and may be reduced, eliminated or increased and will be dependent upon our financial position, results of operations, available cash, cash flow, capital requirements and other factors deemed relevant by our board of directors.

Table of Contents

**Contractual Obligations and Commitments**

There have been no material changes to our contractual obligations and commitments included in Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations of our annual report on Form 10-K for the year ended December 31, 2012.

**Future Capital Requirements**

We believe that our cash on hand and cash generated from our operating activities will be adequate to meet our working capital, capital expenditure, debt service, dividend payments and other cash requirements if we execute our business plan.

Any future acquisitions or other significant unplanned costs or cash requirements in excess of amounts we currently hold may require that we raise additional funds through the issuance of debt or equity. We cannot assure you that such financing will be available on terms acceptable to us or our stockholders, or at all. Insufficient funds may require us to delay or scale back the number of buildings and markets that we add to our network, reduce our planned increase in our sales and marketing efforts, or require us to otherwise alter our business plan or take other actions that could have a material adverse effect on our business, results of operations and financial condition. If issuing equity securities raises additional funds, substantial dilution to existing stockholders may result.

*Off-Balance Sheet Arrangements*

We do not have relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. In addition, we do not engage in trading activities involving non-exchange traded contracts. As such, we are not materially exposed to any financing, liquidity, market or credit risk that could arise if we had engaged in these relationships.

**Critical Accounting Policies and Significant Estimates**

Management believes that as of June 30, 2013, there have been no material changes to our critical accounting policies and significant estimates from those listed in Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations of our annual report on Form 10-K for the year ended December 31, 2012.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.**

## Edgar Filing: COGENT COMMUNICATIONS GROUP INC - Form 10-Q

Management believes that as of June 30, 2013, there have been no material changes to our exposures to market risk from those disclosed in Item 7A Quantitative and Qualitative Disclosures About Market Risk, of our annual report on Form 10-K for the year ended December 31, 2012.

### **ITEM 4. CONTROLS AND PROCEDURES.**

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by SEC Rule 13a-15(b), an evaluation was performed under the supervision and with the participation of our management, including our principal executive officer and our principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based upon that evaluation, our management, including our principal executive officer and our principal financial officer, concluded that the design and operation of these disclosure controls and procedures were effective at the reasonable assurance level.

There has been no change in our internal control over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## **PART II OTHER INFORMATION**

### **ITEM 1. LEGAL PROCEEDINGS.**

We are involved in legal proceedings in the normal course of our business that we do not expect to have a material impact on our operations or results of operations. Note 4 of our interim condensed consolidated financial statements includes information on these proceedings.

### **ITEM 5. OTHER INFORMATION**

On August 7, 2013 the Board of Directors reduced the size of the board from 7 to 6 directors thereby eliminating the vacant position caused by the resignation of Erel Margalit on July 26, 2013. Mr. Margalit resigned as a result of his election to the Israeli parliament. His resignation was not due to any disagreement with management or company policies.

### **ITEM 6. EXHIBITS.**

(a) Exhibits

<b>Exhibit Number</b>	<b>Description</b>
10.1	Ernest Ortega Severance Agreement with Cogent Communications Group, Inc. (filed as Exhibit 10.1 to report on form 8-K dated August 1, 2013 and incorporated herein by reference).
