Prior to joining the Company, he was the Compliance Director at Resolution Performance Products, LLC and held positions as Chief Accounting Officer, Controller, and Director of Financial Reporting with various companies in the oil and gas industry. Mr. Oviedo is a Certified Public Accountant and holds a Bachelor's Degree in Business Administration with a concentration in accounting and tax from the University of Houston.

Brett S. Camp, founder of GeoMet, served as the Company's Vice President Operations from November 2000 through May 2012. Mr. Camp has served as the Company's Senior Vice President Operations from that date forward. Mr. Camp has 31 years experience as a professional geologist; four years at USX Corporation and 27 years at GeoMet. Mr. Camp holds a Bachelor's Degree in Geology from Eastern Illinois University. Mr. Camp has over 18 years experience managing coalbed methane development properties.

Michael Y. McGovern has over 30 years of experience in the oil and gas business and currently serves as the Chairman and Chief Executive Officer of Sherwood Energy, LLC (Sherwood) and Executive Advisor to Cadent Energy Partners, LLC. Mr. McGovern also currently serves on the boards of directors of Quicksilver Resources, Inc., Probe Holdings, Inc., Array Holdings, Inc., Sonneborn, Inc. and Cactus Wellhead, LLC. Mr. McGovern served as the Chief Executive Officer of Pioneer Companies from 2002 to 2007, two years of which he also served as the Chairman. Mr. McGovern holds a Bachelor of Science Degree in Business from Centenary College. The Compensation, Nominating, Corporate Governance and Ethics Committee, in reviewing and assessing Mr. McGovern's extensive background in the oil and natural gas industry, particularly as an industry executive, determined that he provides the Board with a valuable management background for the execution of the Company's strategy. Mr. McGovern was nominated to the Board pursuant to an agreement with Sherwood. The agreement was entered into in connection with Sherwood's acquisition of preferred stock and requires that we nominate Mr. McGovern if so instructed by Sherwood. Mr. McGovern was appointed as our Chairman of the Board as of April 30, 2012.

James C. Crain has been involved in the energy industry for over 36 years, both as an attorney and as an executive officer. Mr. Crain currently serves on the boards of directors of Enlink Midstream, LLC, Armstrong Energy, Inc. and Approach Resources, Inc. Prior to joining Marsh Operating Company in 1984, Mr. Crain was a partner in the law firm of Jenkens & Gilchrist. Mr. Crain holds a Bachelor's Degree in Accounting, a Masters of Professional Accounting in Taxation and a Juris Doctorate, each from the University of Texas at Austin. Since 2009, CapitalSouth has been in the process of liquidating. In 2012, certain of the former directors of CapitalSouth filed an involuntary petition in bankruptcy against CapitalSouth, which did not contest the filing, and a trustee was appointed for CapitalSouth in January 2013. The Compensation, Nominating, Corporate Governance and Ethics Committee determined that Mr. Graves' background in the coalbed methane industry, combined with his executive management experience with coalbed methane, mining and midstream companies, provides the Board with considerable knowledge and understanding of strategic and operational matters.

W. Howard Keenan, Jr. has over 35 years of experience in the financial and energy businesses. Since 1997, he has been a Member of Yorktown Partners LLC (Yorktown), a private equity investment manager focused on the energy industry. He is serving or has served as a director of multiple Yorktown Partners portfolio companies that are privately-held. Mr. Keenan has an A.B. degree cum laude from Harvard College and a Masters of Business Administration degree from Harvard University. The Compensation, Nominating, Corporate Governance and Ethics Committee, in reviewing and assessing Mr. Keenan's experience and prior contributions to the Board, determined that his experience in energy finance and as a director of other exploration and production companies, brings a considerable financial and strategic background to the Board.

the coalbed methane industry, determined that he provides the Board with a valuable technical and management perspective for the execution of the Company's strategy. CORPORATE GOVERNANCE AND OTHER BOARD MATTERS

Board Structure and Committee Composition

The Board currently has six directors and the following three committees: the Audit Committee, the Compensation, Nominating, Corporate Governance and Ethics Committee, and the Executive Committee. The Board combined the Compensation Committee and the Nominating, Corporate Governance and Ethics Committee into one committee and dissolved the Reserves Sub-Committee, both effective January 1, 2013. The membership and function of each committee is described below. Each of the committees operates under a written charter adopted by the Board. A copy of each committee charter (other than the Reserves Sub-Committee) is available under the Corporate Governance Governance Documentation section of the Company's website at <http://www.geometinc.com>. Printed copies of any of the committee charters may be obtained upon request addressed to our Corporate Secretary, GeoMet, Inc., 909 Fannin St., Suite 1850, Houston, Texas 77010.

Board Leadership

In order to better address the challenges brought on by historically low natural gas prices and the borrowing base deficiency under the Company's credit agreement, the Board determined to separate the positions of Chairman of the Board and Chief Executive Officer and appointed Mr. McGovern as Chairman of the Board and William C. Rankin as Chief Executive Officer on April 30, 2012. The Board believes that separating the functions of Chairman of the Board and Chief Executive Officer better serves the Company during this challenging period of uncertainty because Mr. McGovern has significant experience in dealing with oil and gas companies in distressed situations.

The Board recognizes that no single leadership model is right for all companies at all times and that, depending on the circumstances, other leadership models, such as combining the role of Chairman of the Board and Chief Executive Officer, might be appropriate.

Audit Committee

The members of the Audit Committee are James C. Crain (Chairman), Stanley L. Graves, and Gary S. Weber, each of who meets the independence requirements of NASDAQ and SEC rules.

The Audit Committee met five times during the fiscal year 2013, either in person or by telephone. The Compensation, Nominating, Corporate Governance and Ethics Committee met three times during the fiscal year 2013, either in person or by telephone.

The role of the Compensation, Nominating, Corporate Governance and Ethics Committee is to (1) approve, evaluate and oversee all compensation plans, policies and programs, (2) review and discuss with management the Company's compensation discussion and analysis and prepare a report for inclusion in this Amendment No. 1 on Form 10-K/A, (3) assist the Board by identifying individuals qualified to become members of the Board, (4) recommend nominees to the Board for each committee of the Board and to advise the Board about the appropriate composition of the Board and its committees, (5) lead the Board in its annual review of

The Executive Committee did not meet during the fiscal year 2013.

Report of the Audit Committee

To the Stockholders of GeoMet, Inc.:

The Audit Committee of the Board oversees the financial reporting process of the Company on behalf of the Board. Management has the primary responsibility for the financial reporting process, including the Company's system of internal controls and the preparation of the Company's consolidated audited financial statements in accordance with accounting principles generally accepted in the United States of America. The Company's independent registered public accounting firm is responsible for auditing those consolidated financial statements. The Audit Committee's responsibility is to monitor and review these processes.

It is not the Audit Committee's duty or responsibility to conduct auditing or accounting reviews or procedures. Members of the Audit Committee are not employees of the Company and do not represent themselves to be or to serve as accountants or auditors by profession or experts in the fields of accounting or auditing. As a result, the Audit Committee has relied, without independent verification, on management's representation that the consolidated audited financial statements have been prepared with integrity and objectivity and in conformity with accounting principles generally accepted in the United States of America and on the representations of the independent auditors included in their report on the Company's consolidated audited financial statements.

In fulfilling its oversight responsibilities, the Audit Committee reviewed with management the consolidated audited financial statements included in the Company's Annual Report referred to below, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the consolidated audited financial statements.

The Audit Committee reviewed with the independent registered public accounting firm, who is responsible for expressing an opinion on the conformity of those consolidated audited financial statements with accounting principles generally accepted in the United States of America, the firm's judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Audit Committee under auditing standards generally accepted in the United States of America. The Audit Committee has discussed with the independent registered public accounting firm the matters required to be discussed by the Public Company Accounting Oversight Board Auditing Standard No. 16, Communications with Audit Committees. The Audit Committee has also discussed with the independent registered public accounting firm the auditors' independence from management and the Company, including the matters in the written disclosures and letter received from the independent registered public accounting firm as required by the Public Company Accounting Oversight Board and has discussed the independent accountant's independence and considered the compatibility of non-audit services with the auditor's independence.

The Audit Committee's oversight does not provide it with an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or policies, or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the considerations and discussions with management and the independent registered public accounting firm do not assure that the Company's consolidated audited financial statements are presented in accordance with accounting principles generally accepted in the United States of America, that the audit of the Company's consolidated financial statements has been carried out in accordance with auditing standards generally accepted in the United States of America or that the Company's independent registered public accounting firm is in fact independent.

Edgar Filing: GeoMet, Inc. - Form 10-K/A

The Audit Committee discussed with the Company's independent registered public accounting firm the overall scope and plans for their audits. The Audit Committee has met with the independent registered public accounting firm, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls and the overall quality of the Company's financial reporting. The Audit Committee met five times during fiscal year 2013 and all members of the Audit Committee were in attendance either in person or telephonically. In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board (and the Board has approved) that the consolidated audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2013 for filing with the Securities and Exchange Commission. The Audit Committee appointed Hein & Associates LLP as the Company's independent registered public accounting firm.

The above report of the Audit Committee and the information disclosed above related to Audit Committee independence under the heading Board Independence shall not be deemed to be soliciting material or to be filed with the SEC or subject to the SEC's proxy rules or to the liabilities of Section 18 of the Securities Exchange Act of 1934 (the Exchange Act), and such information shall not be deemed to be incorporated by reference into any filing made by the Company under the Exchange Act or under the Securities Act of 1933 (the Securities Act).

Risk Oversight

Like all businesses, we face risks in our business activities. Many of these risks are discussed under the caption "Risk Factors" in our Annual Report on Form 10-K filed with the SEC on March 31, 2014. The Board has oversight of our risk management program and works directly with senior management. Our senior management, subject to Board oversight, is responsible for ensuring that our risk management program, comprised of strategic, operational, financial, and legal risk identification and prioritization, is reflected in the Company's policies and actions. Our senior management, subject to Board oversight, is also responsible for day to day risk management and implementation of Company risk management policies.

In addition, the Audit Committee considers our practices regarding risk assessment and risk management, reviews our contingent liabilities, reviews our natural gas reserve estimation practices, as well as major legislative and regulatory developments that could affect us. The Audit Committee also oversees our code of business conduct, and responds to any alleged violations of our policies made by whistleblowers. The Compensation, Nominating, Corporate Governance and Ethics Committee reviews and attempts to mitigate risks which may result from our compensation policies, including working directly with senior management to determine whether such programs improperly encourage management to take risks relating to the business and/or whether risks arising from our compensation programs are likely to have a material adverse effect on the Company.

Item 11. Executive Compensation

Compensation Discussion and Analysis

The following discussion of executive compensation contains descriptions of various employment-related agreements and employee benefit plans. These descriptions are qualified in their entirety by reference to the full text of the referenced agreements and plans, which have been filed by us as exhibits to our reports on Forms 10-K, 10-Q and 8-K filed with the SEC.

Introduction

The following discussion provides an overview of the Company's compensation philosophy and the background and objectives of our compensation programs for our named executive officers identified in the table below. The discussion also addresses the material elements of the compensation of these officers during the fiscal year 2013. For purposes of this Compensation Discussion and Analysis, the Committee refers to the Compensation, Nominating, Corporate Governance and Ethics Committee.

Compensation Considerations for 2013

In light of low natural gas prices, the Company's lack of liquidity, the current maturity under our credit agreement, the discontinuation of capital expenditures, and the pending sale of substantially all of our assets, our Committee believes that our current compensation program provides reasonable compensation to our named executive officers. We believe that the current compensation program allows us to employ individuals with the experience and knowledge necessary to deal with the issues currently facing the Company. The current compensation to each of our three named executive officers resulted from contracts executed on May 14, 2012 (the "Employment Contracts"). The Committee is mindful of risks that may be inherent in compensation programs and takes steps to manage those risks in the structure of each compensation opportunity. The Committee may adjust our executive compensation programs as changing conditions warrant.

The Committee

The Committee has overall responsibility for the approval, evaluation and oversight of all of our compensation plans, policies and programs. The Committee periodically meets with our Chairman and, on occasion, our named executive officers to discuss our compensation programs and practices for executives, other employees and independent directors. While our Chief Executive Officer ("CEO") makes recommendations to the Committee on compensation programs and practices for executives and other employees, the Committee is not bound by and does not always accept these recommendations. The Committee may also seek input from an independent compensation consultant prior to making any final determinations. Our CEO attends some of the Committee meetings, but the Committee also periodically holds executive sessions not attended by members of management or non-independent directors.

Table of Contents

The Committee works with our Chairman, CEO, outside counsel and compensation consultants to establish an agenda for each meeting of the Committee and to prepare meeting materials. Our CEO, outside corporate counsel, other members of the Board or management and outside advisors may be invited to attend all or a portion of a Committee meeting depending on the nature of the matters to be discussed. Only members of the Committee vote on items before the Committee.

Compensation Consultant

The Committee retains BDO USA, LLP (referred herein as the Compensation Consultant) to provide compensation consulting services from time to time as requested by the Committee. The Committee has determined that there are no conflicts of interest between the Company and the Compensation Consultant on the following basis:

- The Compensation Consultant provides no other services to the Company other than compensation advisory services.
- Fees paid by the Company to the Compensation Consultant represent less than 0.01% of the Compensation Consultant's U.S. revenues.
- All employees of the Compensation Consultant are subject to the Compensation Consultant's Code of Ethics and Business Conduct which addresses the employee's obligation to avoid conflicts of interest and to report potential conflicts if they arise.
- Employees of the Compensation Consultant who provide services to the Company have no business or personal relationship with any member of the Compensation Committee.
- All employees of the Compensation Consultant are prohibited by company policy from owning any equity interest in any client with whom the Compensation Consultant does business.
- There are no business or personal relationships between any executive officer of the Company and the Compensation Consultant.

The Committee meets with the Compensation Consultant as necessary, both in and outside the presence of our management, to review findings and recommendations regarding executive compensation and considers those findings and recommendations in determining and making adjustments to our executive compensation program. Under the direction of the Chair of the Committee, the Compensation Consultant provides information regarding compensation trends in the oil and gas exploration and production industry, relative compensation for similarly-situated executive officers in the industry, advisory services regarding the structure of our cash and equity incentive awards, advice regarding the content of this Compensation Discussion and Analysis, and information regarding compliance with certain provisions of the Dodd-Frank Financial Reform Act.

The Compensation Consultant reviewed and provided comments on this 2013 Compensation Discussion and Analysis.

Objectives of Compensation Program

Compensation Philosophy

Our executive compensation program for the fiscal year 2013 was designed with the philosophy of retaining our highly skilled and experienced executive officers and aligning the interests of these officers with our interests and those of our stockholders. The primary goal of our compensation program was to provide a reasonable total compensation opportunity along with an employment contract providing competitive severance benefits designed to motivate and incentivize our executive officers to remain with the Company and provide professional management services under distressed and uncertain conditions.

What Our Compensation Program is Designed to Reward

Our compensation program is designed to retain management to operate the Company's properties efficiently and effectively in this volatile natural gas price environment and maintain the Company's routine business activities in its current distressed state, resolve the borrowing base deficiency that existed under the Company's credit agreement, maintain an effective relationship with the Company's bank group, and facilitate a merger of the Company and/or sale of its assets.

Table of Contents

Elements of Compensation

The principal elements of compensation for our executive officers in 2013 included base salary, which remained unchanged from amounts established under the Employment Contracts, an annual cash bonus opportunity dependent upon the Company curing the borrowing base deficiency that existed under its credit agreement, and competitive severance package to each executive in the event of termination of employment by the Company without Cause or by the executive for Good Reason, as defined in the Employment Contracts. Stock based compensation was not provided in 2013.

The named executive officers are eligible to participate in certain employee benefit programs consisting of life and health insurance benefits and a qualified 401(k) savings plan on the same basis as other employees of the Company. In addition, certain prerequisites are available to executive officers as described below, but we do not believe these items comprise a material element of our compensation program.

Base Salary

Annual base salaries for 2013 for our named executive officers, which remained unchanged from amounts established under employment contracts executed in May 2012, were as follows:

Named Executive Officer	Base Salary
William C. Rankin	\$ 320,000
Tony Oviedo	\$ 240,000
Brett S. Camp	\$ 240,000

Annual Cash Bonus

In November 2012, the Committee approved the payment of a contingent bonus to be paid to each named executive officer within 60 days of the elimination of the borrowing base deficiency that existed under the Company's credit agreement at such time. The amount of the bonus was equal to the target bonus set out in each named executive officer's respective Employment Contract. In June 2013, upon the closing of the sale of the Company's Alabama properties and the simultaneous curing of the borrowing base deficiency that existed under the Company's credit agreement, cash bonus amounts paid to the named executive officers were as follows:

Named Executive Officer	Bonus Paid
William C. Rankin	\$ 192,000
Tony Oviedo	\$ 120,000
Brett S. Camp	\$ 120,000

Long-Term Incentives

Long-term incentives are consistent with our objective of providing a significant performance-contingent component of compensation. Our 2006 Long-Term Incentive Plan (the 2006 Plan), under which 4,000,000 shares of our common stock have been reserved for awards to be granted, was approved by the Board and stockholders in April 2006. The purposes of the 2006 Plan have been to attract employees and independent directors, align their interests with stockholder interests, and link compensation with performance.

No stock awards were made in 2013. In regard to prior-year awards of restricted stock, the third tranche of the 2010 awards of restricted stock made to our named executive officers vested on September 20, 2013. Additionally, the first tranche of the 2012 awards of restricted stock made to our named executive officers vested on May 14, 2013.

Retirement Benefits

We do not maintain a defined benefit pension plan or retiree medical program that covers members of senior management. Retirement benefits to employees are currently provided through a tax-qualified profit sharing and 401(k) plan (the Savings Plan), in which eligible salaried employees may participate, including our three named executive officers. Pursuant to the Savings Plan, employees may elect to reduce their current annual compensation by up to 50%, subject to the statutorily prescribed limit of \$16,500 (\$23,000 for employees age 50 and older), in calendar year 2013 and have the amount of any reduction contributed to the Savings Plan. We match 100% of each employee's contributions to the Savings Plan, up to a maximum of 3% of eligible annual compensation, and 50% of each employee's contributions to the Savings Plan above 3%, up to a maximum of 5% of the employee's eligible annual compensation (The statutory limit on eligible annual compensation in 2013 was \$255,000). Executive officers participate in the Savings Plan on the same basis as other employees.

Table of Contents

We believe that the Savings Plan supports the objectives of our compensation structure, including the ability to attract and retain employees for critical positions within our organization.

Perquisites

During 2013, Mr. Rankin and Mr. Oviedo received paid parking as well as membership fees and club dues for a downtown Houston luncheon club. Mr. Camp was provided with a Company-owned vehicle for which he recognizes income for any personal use. Our use of perquisites as an element of compensation is limited, and we do not view perquisites as a material element of our compensation structure. The Committee annually reviews perquisites to determine if they are appropriate and if any adjustments are warranted. In 2013, no named executive officer received perquisites with an individual value in excess of \$10,000.

Corporate Change Arrangements

Vesting of all awards granted under our 2006 Plan, unless specifically addressed otherwise in award agreements, automatically accelerates and all restrictions lapse following a Corporate Change in the Company if, within a one-year period following the corporate change: (i) a participant voluntarily terminates his employment for Good Reason as defined in the 2006 Plan, or (ii) a participant's employment is terminated by the Company for any reason other than death, cause, or inability to perform services. A Corporate Change includes the dissolution or liquidation of the Company, the reorganization, merger or consolidation of the Company with a non-affiliated corporation, the sale of substantially all of our assets, or if there is a change in control of the Company. A complete disclosure of all payments made to named executive officers upon termination of employment including termination following a change-in-control is provided in the section titled Potential Payments upon Termination of Employment or Change in Control.

Employment Contracts

Effective May 14, 2012, each of Mr. Rankin and Mr. Oviedo entered into an amended and restated employment agreement that replaced their previous employment agreements. Mr. Camp, the Company's Senior Vice President Operations, also entered into an employment agreement effective May 14, 2012.

William C. Rankin

Under the terms of his amended and restated employment agreement, Mr. Rankin will be paid an annual base salary of \$320,000 and has a targeted annual bonus of \$192,000. The actual amount of any annual bonus will be at the sole discretion of the Committee, which will consider both corporate performance and the achievement of individual performance objectives for each fiscal year. In addition, Mr. Rankin was awarded 50,000 shares of restricted stock that vest ratably over a three-year period from the date of grant, which was May 14, 2012. Mr. Rankin will continue to participate in the Company's standard employee benefit programs, including medical, dental, life and disability insurance and the Savings Plan. The employment agreement has a term of three years from its effective date and may be extended by written agreement of both the Company and Mr. Rankin.

If Mr. Rankin's employment is involuntarily terminated by the Company for reasons other than Cause, or by Mr. Rankin for Good Reason, as defined in his Employment Contract, he will be entitled to twice his annual base salary, twice his target bonus and 18 months of benefits under the provisions of the Consolidated Omnibus Budget Reconciliation Act (COBRA).

Tony Oviedo

Under the terms of his amended and restated employment agreement, Mr. Oviedo will be paid an annual base salary of \$240,000 and has a targeted annual bonus of \$120,000. The actual amount of any annual bonus will be at the sole discretion of the Committee, which will consider both corporate performance and the achievement of individual performance objectives for each fiscal year. In addition, Mr. Oviedo was awarded 50,000 shares of restricted stock that vest ratably over a three-year period from the date of grant, which was May 14, 2012. Mr. Oviedo will continue to participate in the Company's standard employee benefit programs, including medical, dental, life and disability insurance and the Savings Plan. The employment agreement has a term of three years from its effective date and may be extended by written agreement of both the Company and Mr. Oviedo.

If Mr. Oviedo's employment is involuntarily terminated by the Company for reasons other than Cause, or by Mr. Oviedo for Good Reason, as defined in his Employment Contract, he will be entitled to 175% of his annual base salary, 175% of his target bonus and 18 months of benefits under the provisions of COBRA.

Table of Contents

Brett S. Camp

Under the terms of his employment agreement, Mr. Camp will be paid an annual base salary of \$240,000 and has a targeted annual bonus of \$120,000. The actual amount of any annual bonus will be at the sole discretion of the Committee, which will consider both corporate performance and the achievement of individual performance objectives for each fiscal year. In addition, Mr. Camp was awarded 50,000 shares of restricted stock that vest ratably over a three-year period from the date of grant, which was May 14, 2012. Mr. Camp will continue to participate in the Company's standard employee benefit programs, including medical, dental, life and disability insurance and the Savings Plan. The employment agreement has a term of three years from its effective date and may be extended by written agreement of both the Company and Mr. Camp.

If Mr. Camp's employment is involuntarily terminated by the Company for reasons other than Cause, or by Mr. Camp for Good Reason, as defined in his Employment Contract, he will be entitled to 175% of his annual base salary, 175% of his target bonus and 18 months of benefits under the provisions of COBRA.

Employment Matters Relating To Pending Asset Sale

As previously disclosed, on February 13, 2014, the Company and its wholly-owned subsidiaries, GeoMet Operating Company, Inc. and GeoMet Gathering Company, LLC, entered into an asset purchase agreement (the "Asset Purchase Agreement") to sell substantially all of the Company's remaining assets, comprising coalbed methane interests and other assets located in the Appalachian Basin in McDowell, Harrison, Wyoming, Raleigh, Barbour and Taylor Counties, West Virginia and Buchanan County, Virginia (the "Asset Sale") to ARP Mountaineer Productions, LLC, a Delaware limited liability company (the "Buyer") and a wholly-owned subsidiary of Atlas Resource Partners, L.P., a Delaware limited partnership, for a purchase price of \$107 million, subject to various purchase price adjustments.

The Asset Purchase Agreement requires that all of our employees who will accept employment with the Buyer following the consummation of the Asset Sale must first resign their employment with us. While we are continuing to evaluate our next steps following the Asset Sale, we currently anticipate that promptly following the Asset Sale we would terminate the employment of all of our remaining employees other than those (including our named executive officers) whose continued employment we believe will be needed in order to ensure that we are able to meet our obligations under the Asset Purchase Agreement including the Transition Services Agreement we will enter into with the Buyer in connection with the consummation of the Asset Sale, and our reporting obligations as a public company for a period of time still to be determined following the Asset Sale in order to facilitate a possible business combination/merger or to commence a dissolution of the Company. With regards to both our terminated and continuing employees, we intend to terminate all employment agreements, change of control agreements and plans, and benefit plans including our long-term incentive plan, and, in exchange for releases, would pay the severance benefits and change of control payments provided for under all of such agreements and plans, including a cash amount in lieu of reimbursement of COBRA premiums, as if all of such employees had been terminated (currently estimated to total approximately \$4 million). Our continuing employees, including our named executive officers, would be employed on an at-will employment basis. We believe that these actions would be in the best interests of our stockholders as they would provide us the means to satisfy our ongoing obligations at a substantially reduced cost while we continue to evaluate our next steps. We currently anticipate that the Asset Sale would be followed by either a business combination/merger or a dissolution and distribution of our remaining assets in accordance with applicable law.

Indemnification Agreements

We have entered into indemnification agreements with each of our directors and our named executive officers. These agreements provide that we will, among other things, indemnify such persons against certain liabilities that may arise by reason of their status or service as directors or officers, to advance their expenses incurred as a result of a proceeding to which they may be indemnified and to cover such person under any directors and officers liability insurance policy we choose, in our discretion, to maintain. These indemnification agreements are intended to provide indemnification rights to the fullest extent permitted under applicable indemnification rights statutes in the State of Delaware and are in addition to any other rights such person may have under our Certificate of Incorporation, Bylaws and applicable law. We believe these indemnification agreements enhance our ability to employ knowledgeable and experienced executives and attract independent, non-management directors.

Tax and Accounting Considerations

Section 162(m) of the Internal Revenue Code (the Code) limits our ability to deduct, as an expense, compensation in excess of \$1 million paid to our Chief Executive Officer and our other named executive officers unless certain specific and detailed criteria are satisfied. Qualifying performance-based compensation is not subject to the deduction limit if the Code requirements are met. In this regard, we consider the anticipated tax treatment to our Company and our executive officers in the review and establishment of compensation programs and payments. We believe that it is desirable to structure the compensation of our three named executive officers to be tax deductible to the extent possible, and we believe that stock options and performance-based restricted stock awarded in the past meet the requirements for tax deductibility under the Code. However, we also believe that there are circumstances where our interests are best served by maintaining flexibility in the way compensation is provided, even if it might result in the non-deductibility of certain compensation under the Code.

Table of Contents

In structuring equity-based awards and in determining the size of such awards, the Committee takes the FASB ASC Topic 718 accounting expense of such awards into consideration and is aware that although equity awards may be deductible for tax purposes by the Company, the accounting rules pursuant to FASB ASC Topic 718 require that the portion of the tax benefit in excess of the financial compensation cost be recorded as paid-in-capital.

Under Section 409A of the Code, amounts deferred for an executive officer under a nonqualified deferred compensation plan may be included in gross income when vested and subject to a 20% or more additional federal tax, unless the plan complies with certain requirements related to the timing of deferral election and distribution decisions. During 2008, we engaged the Compensation Consultant to review all of our compensation plans and agreements to determine whether those plans met the requirements of Section 409A. The Compensation Consultant determined that some modifications to existing agreements were required, and the Committee approved certain amendments to our employment agreements and our long-term incentive award agreements to comply with Section 409A final regulations. As new award documents and employment agreements are drafted, we rely on our outside counsel to assure the requirements of Section 409A are met.

Stock Ownership

We periodically review stock ownership by our executive officers and directors and believe that they generally maintain share ownership sufficient to align their interests with those of our stockholders. We encourage, but do not require, stock ownership by our executive officers and directors, and we do not have a policy that requires our executive officers and directors to hold equity awards for defined periods of time. We intend to review our ownership policy from time to time and, if circumstances change, we will consider adoption of stock ownership guidelines or holding requirements as appropriate.

Clawback Policy. To date, we have not adopted a formal clawback policy to recoup incentive-based compensation upon the occurrence of a financial restatement, misconduct or other specified events, as incentive-based compensation has not been a material portion of total compensation in recent years.

Securities Trading Policy: It is the policy of the Company that no director, officer or other employee of the Company who is aware of material nonpublic information relating to the Company may, directly or through family members or other persons or entities, (a) buy or sell securities of the Company (other than pursuant to a pre-approved trading plan that complies with SEC Rule 10b5-1), or engage in any other action to take personal advantage of that information, or (b) pass that information on to others outside the Company, including family and friends. In addition, it is the policy of the Company that no director, officer or other employee of the Company who, in the course of working for the Company, learns of material nonpublic information about a company with which the Company does business, including a customer or supplier of the Company, may trade in that company's securities until the information becomes public or is no longer material. Transactions that may be necessary or justifiable for independent reasons (such as the need to raise money for an emergency expenditure) are not exempted from the policy. The securities laws do not recognize such mitigating circumstances, and, in any event, even the appearance of an improper transaction must be avoided to preserve the Company's reputation for adhering to the highest standards of conduct.

Compensation Risk

Edgar Filing: GeoMet, Inc. - Form 10-K/A

The preceding Compensation Discussion and Analysis section generally describes our compensation policies, plans and practices that are applicable for our named executive officers. The Committee reviews the relationship between our risk management policies and practices, corporate strategy and compensation practices. The Committee has determined that these plans and practices, as applied to all of our employees, including our executive officers, do not encourage excessive risk taking at any level of our Company. The Committee does not believe that risks arising from its compensation plans, policies or practices are reasonably likely to have a material adverse effect on our Company except that the Company may not be able to retain certain key employees because it cannot provide sufficiently competitive compensation packages.

Conclusion

We believe the compensation programs and policies that our Compensation, Nominating, Corporate Governance and Ethics Committee has designed sufficiently motivate our named executive officers to perform at a level necessary to achieve our operational objectives. The various elements of compensation combine to align the interests of our named executive officers with those of our stockholders.

(1) Due to the significant decline in natural gas prices and the need to preserve liquidity, the Committee decided not to pay any non-performance bonuses to the named executive officers pursuant to the 2013 and 2012 bonus plans.

(2) Represents the grant date fair value of awards granted during the indicated year, as determined in accordance with FASB ASC Topic 718. Pursuant to SEC rules, the amounts shown exclude the impact of estimated forfeitures related to service-based vesting conditions. Please see the discussion of the assumptions made in the valuation of these awards in Note 17 Share-Based Awards to the consolidated audited financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2013. Generally, the full grant date fair value is the amount that we would expense in our financial statements over the award's vesting schedule. These amounts reflect our accounting expense and do not correspond to the actual value that will be recognized by the named executive officers. Stock awards are subject to achievement of performance targets.

(3) In November 2012, the Committee approved the payment of a contingent bonus to each named executive officer within 60 days of the elimination of the borrowing base deficiency that existed under the Company's credit agreement at such time. The amount of the bonus was equal to the target bonus set out in each named executive officer's respective employment agreement. A bonus was paid in June 2013, upon the closing of the sale of the Company's Alabama properties and the simultaneous curing of the borrowing base deficiency that existed under the Company's credit agreement. There were no such bonuses awarded for 2012.

Potential Payments upon Termination of Employment or Change in Control

As described under Employment Agreements above, Messrs. Rankin, Oviedo and Camp are entitled to severance payments if their employment is terminated under certain circumstances. The amount of the compensation is contingent upon a number of factors, including the circumstances under which employment is terminated. The table below quantifies the amount that would become payable to each named executive officer as a result of his termination of employment. The amounts shown assume that such termination was effective on December 31, 2013 and are estimates of the amounts that would be paid. The actual amounts that would be paid can only be determined at the time of the officer's termination of employment.

Awards of stock options and restricted stock under the 2006 Long-Term Incentive Plan prescribe the treatment of those awards under certain events including termination for Cause and termination following or in connection with a Corporate Change. For purposes of those awards, Cause is defined as a finding by the Committee of acts or omissions constituting, (a) a breach of duty by the executive in the course of his employment or service involving fraud, acts of dishonesty (other than inadvertent acts or omissions), disloyalty to the Company, or moral turpitude constituting criminal felony; (b) conduct by the executive that is materially detrimental to the Company, monetarily or otherwise, or reflects unfavorably on the Company or the executive to such an extent that the Company's best interests reasonably require the termination of the executive's employment or service; (c) acts or omissions of the executive materially in violation of his obligations under any written employment or other agreement between the executive and the Company or at law; (d) the executive's failure to comply with or enforce Company policies concerning equal employment opportunity, including engaging in sexually or otherwise harassing conduct; (e) the executive's repeated insubordination; (f) the executive's failure to comply with or enforce, in any material respect, all other personnel policies of the Company; (g) the executive's failure to devote his full (or other required) working time and best efforts to the performance of his responsibilities to the Company; or (h) the executive's conviction of, or entry of a plea agreement or consent decree or similar arrangement with respect to a felony or any violation of federal or state securities laws.

The 2006 Long-Term Incentive Plan defines a Corporate Change as (a) the dissolution or liquidation of the Company; (b) a reorganization, merger or consolidation of the Company with one or more corporations (other than a merger or consolidation effecting a reincorporation of the Company in another state or any other merger or consolidation in which the stockholders of the surviving corporation and their proportionate interests therein immediately after the merger or consolidation are substantially identical to the stockholders of the Company and their proportionate interests therein immediately prior to the merger or consolidation) (collectively, a Corporate Change Merger); (c) the sale of all or substantially all of the assets of the Company; or (d) the occurrence of a Change in Control. Notwithstanding the foregoing, Corporate Change shall not include any public offering of equity of the Company pursuant to a registration statement that is effective under the Securities Act. A Change in Control shall be deemed to have occurred if (a) individuals who were directors of the Company immediately prior to a Control Transaction shall cease, within two years of such Control Transaction to constitute a majority of the Board (or of the Board of any successor to the Company or to a company which has acquired all or substantially all its assets) other than by reason of an increase in the size of the membership of the applicable Board that is approved by at least a majority of the individuals who were directors of the Company immediately prior to such Control Transaction or (b) any entity, person or Group acquires shares of the Company in a transaction or series of transactions that result in such entity, person or Group directly or indirectly owning beneficially 50% or more of the outstanding shares of common stock. As used herein, Control Transaction means (a) any tender offer for or acquisition of capital stock of the Company pursuant to which any person, entity, or Group directly or indirectly acquires beneficial ownership of 20% or more of the outstanding shares of common stock; (b) any Corporate Change Merger of the Company; (c) any contested election of directors of the Company; or (d) any combination of the foregoing, any one of which results in a change in voting power sufficient to elect a majority of the Board. As used herein, Group means persons who act in concert as described in Sections 13(d)(3) and/or 14(d)(2) of the Exchange Act.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The following table sets forth certain information, as of March 1, 2014, with respect to beneficial ownership of our Common Stock by: (i) each person who, to our knowledge, beneficially owned more than 5% of the shares of our Common Stock outstanding as of such date, (ii) each of our directors, (iii) our Chief Executive Officer, Chief Financial Officer and the three most highly compensated executive officers other than the Chief Executive Officer and the Chief Financial Officer and (iv) all directors and executive officers as a group.

Edgar Filing: GeoMet, Inc. - Form 10-K/A

For purposes of the following table, beneficial ownership is determined in accordance with the rules of the SEC. Except as otherwise noted in the footnotes below, we believe that each person or entity named in the table has sole voting and investment power with respect to all shares of its Common Stock and Preferred Stock shown as beneficially owned by them, subject to applicable community property laws. The percentage of shares of Common Stock outstanding is based on 40,652,317 shares of Common Stock outstanding as of March 1, 2014. The percentage of shares of Preferred Stock outstanding is based on 6,000,571 shares of Preferred Stock outstanding as of March 1, 2014. In computing the number of shares beneficially owned by a person named in the following table and the percentage ownership of that person, shares of Common Stock that are subject to options held by that person that are currently exercisable or exercisable within 60 days of March 1, 2014 are deemed outstanding. These shares are not, however, deemed outstanding for the purpose of computing the percentage ownership of any other person.

Item 13. *Certain Relationships and Related Transactions, and Director Independence*

Certain Relationships and Related Transactions

Review and Approval of Transactions with Related Persons

Edgar Filing: GeoMet, Inc. - Form 10-K/A

As set forth in our Audit Committee Charter, a current copy of which is available on our website at <http://www.geometinc.com>, any related party transaction that is required to be disclosed pursuant to SEC regulations must be reviewed and approved by our Audit Committee. Our Audit Committee has adopted a written checklist that governs its review of related party transactions. Our Audit Committee reviews information from our directors, executive officers and other related persons with respect to related person transactions and then determines, based on the facts and circumstances, whether the Company or a related person has a direct or indirect material interest in the transaction. In the course of its review and approval or ratification of a disclosable related person transaction, consideration is given to:

- the nature of the related person's interest in the transaction;
- the material terms of the transaction, including, without limitation, the amount and type of transaction;
- the importance of the transaction to the related person;
- the importance of the transaction to the Company;
- whether the transaction would impair the judgment of a director or executive officer to act in the best interest of the Company; and
- any other matters deemed appropriate.

Any director who is a related person with respect to a transaction under review may not participate in the deliberations or vote respecting approval or ratification of the transaction; provided, however, that such director may be counted in determining the presence of a quorum at the meeting where the transaction is considered.

All of our employees, including our executive officers and directors, are subject to our Code of Business Conduct and Ethics, which is also available on our website. Our Code of Business Conduct and Ethics sets forth policy guidelines aimed at preventing any conflicts of interest with our company. Our Code of Business Conduct and Ethics further imposes prohibitions and duties designed to prevent employees, officers and directors from taking personal advantage of corporate opportunities. Our code of conduct is subject to an agreement we have with James C. Crain, W. Howard Keenan, Jr. and Yorktown which states that we will have no interest in a business opportunity received by such persons, unless the business opportunity arose solely from such person's membership on the Board. In addition, we have entered into a similar agreement with Sherwood. Any exceptions to these policies require management and the Board to be fully informed and to determine that any undertaking is consistent with the Company's business objectives.

There were no other fees paid to Hein or Deloitte for the fiscal year ended December 31, 2012.

Pre-Approval Policies

Under the terms of its charter, our Audit Committee is required to pre-approve all the services provided by, and fees and compensation paid to, the independent registered public accounting firm for both audit and permitted non-audit services. When it is proposed that the independent registered public accounting firm provide additional services for which advance approval is required, the Audit Committee may delegate authority to one or more designated members of the Audit Committee, when appropriate, with the authority to grant pre-approvals of audit and permitted non-audit services, provided that decisions are presented to the full Audit Committee at its next scheduled meeting. The pre-approval process includes assessing whether the services being provided maintain compliance with the SEC's rules on auditor independence.

All services for the fiscal years 2013 and 2012 set forth above were pre-approved by the Audit Committee, which determined that such services would not impair the independence of our auditor and are consistent with the SEC's rules on auditor independence.
