**the actual call premium applicable to each call date will be determined on the pricing date.

- If the securities are not automatically called prior to the final calculation day, the payment at stated maturity will be based upon the closing level of the Index on the final calculation day as compared to the starting level and could be greater than, equal to or less than the principal amount per security as follows:

If the level of the Index increases:

The securities will be automatically called for the principal amount plus the call premium applicable to the final calculation day described above

If the level of the Index decreases, but the decrease is not more than 10%:

You will be repaid the principal amount

If the level of the Index decreases by more than 10%:

You will receive less than the principal amount and will have 1-to-1 downside exposure to the decrease in the level of the Index in excess of 10%

- Investors may lose up to 90% of the principal amount

- All payments on the securities are subject to the credit risk of Canadian Imperial Bank of Commerce, and you will have no ability to pursue the securities included in the Index for payment; if Canadian Imperial Bank of Commerce defaults on its obligations, you could lose some or all of your investment

- No periodic interest payments or dividends

- No exchange listing; designed to be held to stated maturity

*To the extent that the issuer makes any change to the expected pricing date or expected issue date, the call dates and stated maturity date may also be changed in the issuer's discretion to ensure that the term of the securities remains the same

The Issuer's estimated value of the securities on the date of the accompanying preliminary pricing supplement, based on the Issuer's internal pricing models, is expected to be between \$946.70 and \$960.50 per security. While the estimated value of the securities on the pricing date may differ from the estimated value set forth above, the Issuer does not expect it to differ significantly absent a material change in market conditions or other relevant factors. The final pricing supplement relating to the securities will set forth the Issuer's estimated value of the securities on the pricing date, which will not be less than \$946.70 per security.

Edgar Filing: CANADIAN IMPERIAL BANK OF COMMERCE /CAN/ - Form FWP

The estimated value of the securities is not an indication of actual profit to the Issuer or to any of the Issuer's affiliates, nor is it an indication of the price, if any, at which Wells Fargo Securities, LLC or any other person may be willing to buy the securities from you at any time after issuance. See "The Estimated Value of the Securities" in the accompanying preliminary pricing supplement.

Investing in the securities involves significant risks. See "Selected Risk Considerations" in this term sheet and "Risk Factors" in the accompanying preliminary pricing supplement, the accompanying prospectus supplement and prospectus.

This introductory term sheet does not provide all of the information that an investor should consider prior to making an investment decision.

Investors should carefully review the preliminary pricing supplement, prospectus supplement and prospectus before making a decision to invest in the securities.

Hypothetical payout profile

The profile to the right illustrates the potential payment on the securities for a range of hypothetical percentage changes in the closing level of the Index from the pricing date to the applicable call date (including the final calculation day), assuming a threshold level equal to 90% of the starting level. The call premiums shown in the profile are hypothetical and are based on the midpoint of the ranges specified for the call premiums.

This graph has been prepared for purposes of illustration only. Your actual return will depend on (i) whether the securities are automatically called; (ii) if the securities are automatically called, the actual call premium and the actual call date on which the securities are called; (iii) if the securities are not automatically called, the actual ending level; and (iv) whether you hold your securities to the call settlement date or stated maturity.

Hypothetical returns

If the securities are automatically called:

| Hypothetical Call Date on which Securities are Automatically Called | Hypothetical Payment Per Security on Related Call Settlement Date | Hypothetical Pre-Tax Total Rate of Return | Hypothetical Pre-Tax Annualized Rate of Return(1) |
|---|---|---|---|
| 1st call date | \$1,077.50 | 7.75% | 7.46% |
| 2nd call date | \$1,155.00 | 15.50% | 7.27% |
| 3rd call date | \$1,232.50 | 23.25% | 7.07% |

Edgar Filing: CANADIAN IMPERIAL BANK OF COMMERCE /CAN/ - Form FWP

Assumes the call premiums are equal to the midpoints of their specified ranges.

(1)The annualized rates of return are calculated on a semi-annual bond equivalent basis with compounding.

If the securities are not automatically called:

| Hypothetical Ending Level | Hypothetical Percentage Change From the Hypothetical Starting Level to the Hypothetical Ending Level | Hypothetical Payment at Stated Maturity Per Security | Hypothetical Pre-Tax Total Rate of Return | Hypothetical Pre-Tax Annualized Rate of Return(1) |
|---------------------------------|--|---|--|--|
| 3458.97 | -0.01% | \$1,000.00 | 0.00% | 0.00% |
| 3286.35 | -5.00% | \$1,000.00 | 0.00% | 0.00% |
| 3113.39 | -10.00% | \$1,000.00 | 0.00% | 0.00% |
| 3078.80 | -11.00% | \$990.00 | -1.00% | -0.33% |
| 2767.46 | -20.00% | \$900.00 | -10.00% | -3.47% |
| 2594.49 | -25.00% | \$850.00 | -15.00% | -5.33% |
| 1729.66 | -50.00% | \$600.00 | -40.00% | -16.28% |
| 864.83 | -75.00% | \$350.00 | -65.00% | -32.02% |
| 0.00 | -100.00% | \$100.00 | -90.00% | -63.60% |

Assumes a hypothetical starting level of 3459.32. The actual starting level will be determined on the pricing date.

(1)The annualized rates of return are calculated on a semi-annual bond equivalent basis with compounding.

The above figures are for purposes of illustration only and may have been rounded for ease of analysis. The actual amount you receive upon automatic call or at stated maturity and the resulting pre-tax rate of return will depend on (i) whether the securities are automatically called; (ii) if the securities are automatically called, the actual call premium and the actual call date on which the securities are called; and (iii) if the securities are not automatically called, the actual ending level.

Call Dates and Call Premiums

| <u>Call Date</u> | <u>Call Premium</u> | <u>Payment per Security upon an Automatic Call</u> |
|--------------------|---------------------|--|
| September 6, 2018* | [7.25 8.25%] | [\$1,072.50 - \$1,082.50] |
| September 6, 2019* | [14.50 16.50%] | [\$1,145.00 - \$1,165.00] |
| August 31, 2020* | [21.75 24.75%] | [\$1,217.50 - \$1,247.50] |

The actual call premium and payment per security upon an automatic call that is applicable to each call date will be determined on the pricing date and will be within the range specified in the foregoing table. The last call date is the final calculation day, and payment upon an automatic call on the final calculation day, if applicable, will be made on the stated maturity date.

How the payment at stated maturity is calculated

If the closing level of the Index is less than the starting level on each of the three call dates, the securities will not be automatically called, and on the stated maturity date you will receive a payment at stated maturity per security determined as follows:

- If the ending level is less than the starting level, but greater than or equal to the threshold level, the payment at stated maturity will be equal to \$1,000
- If the ending level is less than the threshold level, the payment at stated maturity will be equal to \$1,000 *minus*

$$\$1,000 \times \frac{\text{Threshold Level} - \text{Ending Level}}{\text{Starting Level}}$$

Any positive return on the securities will be limited to the applicable call premium, even if the closing level of the Index significantly exceeds the starting level on the applicable call date. You will not participate in any appreciation of the Index beyond the applicable call premium. If the securities are not automatically called prior to the final calculation day and the ending level is less than the threshold level, you will receive less, and possibly 90% less, than the principal amount of your securities at stated maturity.

* The graph above sets forth daily closing levels of the Index for the period from January 1, 2007 to August 2, 2017. The closing level on August 2, 2017 was 3459.32. The historical performance of the Index is not an indication of the future performance of the Index during the term of the securities.

Selected risk considerations

The risks set forth below are discussed in detail in the Risk Factors section in the accompanying preliminary pricing supplement, the prospectus supplement and prospectus. Please review those risk disclosures carefully.

- If The Securities Are Not Automatically Called And The Ending Level Is Less Than The Threshold Level, You Will Receive At Stated Maturity Less, And Up To 90% Less, Than The Principal Amount Of Your Securities.
- The Potential Return On The Securities Is Limited To The Call Premium
- You Will Be Subject To Reinvestment Risk
- Your Return On The Securities Could Be Less Than If You Owned Securities Included In The Index.
- No Periodic Interest Will Be Paid On The Securities.
- The Securities Are Subject To The Credit Risk Of Canadian Imperial Bank of Commerce.
- The Value Of The Securities Prior To Stated Maturity Will Be Affected By Numerous Factors, Some Of Which Are Related In Complex Ways.
- The Estimated Value Of The Securities Will Not Be An Indication Of The Price, If Any, At Which Wells Fargo Securities Or Any Other Person May Be Willing To Buy The Securities From You In The Secondary Market.
- Our Estimated Value Of The Securities Is Lower Than The Principal Amount Of The Securities.
- Our Estimated Value Does Not Represent Future Values Of The Securities And May Differ From Others Estimates.
- Our Estimated Value Is Not Determined By Reference To Credit Spreads For Our Conventional Fixed-Rate Debt.
- The Securities Will Not Be Listed On Any Securities Exchange And We Do Not Expect A Trading Market For The Securities To Develop.
- Historical Prices Of The Index Should Not Be Taken As An Indication Of The Future Performance Of The Index During The Term Of The Securities.
- Changes That Affect The Index May Adversely Affect The Value Of The Securities And The Amount You Will Receive At Stated Maturity.
- We Cannot Control Actions By Any Of The Unaffiliated Companies Whose Securities Are Included In The Index.

- We, Wells Fargo Securities, And Our Respective Affiliates Have No Affiliation With The Index Sponsor And Have Not Independently Verified Its Public Disclosure Of Information.
- An Investment In The Securities Is Subject To Risks Associated With Investing In International Securities Markets.
- A Call Settlement Date And The Stated Maturity Date May Be Postponed If A Calculation Day Is Postponed.
- We Or One Of Our Affiliates Will Be The Calculation Agent And, As A Result, Potential Conflicts Of Interest Could Arise.
- Our Economic Interests And Those Of Any Dealer Participating In The Offering Of Securities Will Potentially Be Adverse To Your Interests.
- The U.S. Federal Tax Consequences Of An Investment In The Securities Are Unclear.
- There Can Be No Assurance That The Canadian Federal Income Tax Consequences Of An Investment In The Securities Will Not Change In The Future.
- The Amount You Receive On The Securities Will Depend Upon The Performance Of The Index And Therefore The Securities Are Subject To The Following Risks, As Discussed In More Detail In The Prospectus Supplement:
 - *The Issuer of a Security or Currency That Comprises an Index Could Take Actions That May Adversely Affect an Indexed Note.*
 - *Investors in Indexed Notes Will Have No Ownership of the Underlying Securities.*
 - *An Index to Which a Note Is Linked Could Be Changed or Become Unavailable.*

Not suitable for all investors

Investment suitability must be determined individually for each investor. The securities described herein are not a suitable investment for all investors. In particular, no investor should purchase the securities unless they understand and are able to bear the associated market, liquidity and yield risks. Unless market conditions and other relevant factors change significantly in your favor, a sale of the securities prior to maturity is likely to result in sale proceeds that are substantially less than the principal amount of the securities. Canadian Imperial Bank of Commerce, Wells Fargo Securities, LLC and their respective affiliates are not obligated to purchase the securities from you at any time prior to maturity.

The Issuer has filed a registration statement (including a prospectus) with the SEC for the offering to which this communication relates. Before you invest, you should read the prospectus in that registration statement and other documents the Issuer has filed with the Securities and Exchange Commission (the "SEC") for more complete information about the Issuer and this offering. You may get these documents for free by visiting EDGAR on the SEC website at www.sec.gov. Alternatively, any agent or any dealer participating in the offering will arrange to send you the prospectus if you request it by calling your financial advisor or by calling Wells Fargo Securities, LLC at 866-346-7732.

Consult your tax advisor
