August 08, 2007

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

Form 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 or 15(d)  
OF THE SECURITIES EXCHANGE ACT OF 1934

**For the quarterly period ended June 30, 2007**

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d)  
OF THE EXCHANGE ACT

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission file number 0-22904

PARKERVISION, INC.  
(Exact name of registrant as specified in its charter)

Florida  
(State or other jurisdiction of  
incorporation or organization)

59-2971472  
I.R.S. Employer ID No.

7915 Baymeadows Way, Suite 400  
Jacksonville, Florida 32256  
(904) 737-1367  
(Address of principal executive offices)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No .

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer  Accelerated filer  Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No .

APPLICABLE ONLY TO CORPORATE ISSUERS:

As of August 3, 2007, 24,904,034 shares of the Issuer's Common Stock, \$.01 par value, were outstanding.

PARKERVISION, INC. AND SUBSIDIARY  
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(UNAUDITED)

**1. Description of Business**

ParkerVision, Inc. and its subsidiary (the “Company”, “ParkerVision”, or “we”) design, develop and market semiconductor technologies for wireless applications. We are marketing our proprietary radio-frequency (RF) technology solutions to original equipment manufacturers (OEMs) who manufacture third generation (3G) mobile handsets and their semiconductor suppliers.

On May 2, 2007, we entered into an Engineering Services Agreement and a Licensing Agreement with ITT Corporation (ITT) for the design and use of our d2p™ technology. Under the agreements, we will provide engineering consulting and design services to ITT on a time and materials basis for the development of products using our technology and will be paid royalties on a per unit basis for products sold by ITT that incorporate our d2p technology. Under the terms of the agreements, ITT has rights to use our d2p technology in applications worldwide.

**2. Basis of Presentation**

The accompanying unaudited consolidated financial statements of ParkerVision have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Operating results for the three and six months ended June 30, 2007 are not necessarily indicative of the results that may be expected for the year ending December 31, 2007. All normal and recurring adjustments which, in the opinion of management, are necessary for a fair statement of the financial condition and results of operations have been included.

The condensed balance sheet data for the year ended December 31, 2006 was derived from audited financial statements, but does not include all disclosures required by generally accepted accounting principles. These interim consolidated financial statements should be read in conjunction with our latest Annual Report on Form 10-K for the year ended December 31, 2006.

Certain reclassifications have been made to the 2006 consolidated interim financial statements in order to conform to the 2007 presentation.

**3. Accounting Policies**

*Revenue Recognition.* We account for our service revenue under the provisions of Staff Accounting Bulletin No. 104 (SAB 104), “Revenue Recognition in Financial Statements” and AICPA Statement of Position No. 81-1 (SOP 81-1), “Accounting for Performance of Construction-Type and Certain Production-Type Contracts.” Under the provisions of SAB 104 and SOP 81-1, we recognize revenue when there is persuasive evidence of an arrangement, services have been rendered, the fee is fixed or determinable, and collectibility of the resulting receivable is reasonably assured. We use the percentage-of-completion method of accounting for cost reimbursement-type contracts which specify a certain billable fee amount. Revenues are recognized as costs are incurred assuming that collection is reasonably assured. Our cost of sales includes the direct labor costs of engineering staff providing services under these contracts, as well as indirect costs including depreciation and amortization and allocated facilities costs.

*Income Taxes.* We adopted FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes - an Interpretation of FASB Statement No. 109", (FIN 48) on January 1, 2007 as more fully discussed in Note 9.

There have been no other changes in accounting policies from those stated in the Annual Report on Form 10-K for the year ended December 31, 2006.

#### 4. Consolidated Statements of Cash Flows

On May 31, 2006, we issued an option to purchase 10,000 shares of our common stock at an exercise price of \$10.20 per share, with a fair value of approximately \$63,000, to a third party as consideration for professional services. On January 3, 2006, we issued 6,035 shares of our common stock valued at approximately \$53,000 to a consultant as consideration for engineering consulting services. In connection with the private placement of 2,373,355 shares of our common stock on February 3, 2006, we issued warrants to purchase 593,335 shares of common stock. These warrants were recorded at their relative fair value of approximately \$2.6 million (see Note 8).

#### 5. Loss per Share

Basic loss per share is determined based on the weighted-average number of common shares outstanding during each period. Diluted loss per share is the same as basic loss per share as all common share equivalents are excluded from the calculation, as their effect is anti-dilutive. The weighted average number of common shares outstanding for the three-month periods ended June 30, 2007 and 2006 are 24,568,839 and 23,366,304, respectively. The weighted average number of common shares outstanding for the six-month periods ended June 30, 2007 and 2006 are 24,194,157 and 22,880,780, respectively. Options and warrants to purchase 6,849,271 and 7,337,371 shares of common stock were outstanding at June 30, 2007 and 2006, respectively, and were excluded from the computation of diluted earnings per share as the effect of these options and warrants would have been anti-dilutive.

#### 6. Other Assets

Other assets consist of the following:

	June 30, 2007		
	Gross Carrying Amount	Accumulated Amortization	Net Value
Patents and copyrights	\$ 13,883,782	\$ 4,065,987	\$ 9,817,795
Prepaid licensing fees	705,000	683,036	21,964
Deposits and other	414,808	-	414,808
	\$ 15,003,590	\$ 4,749,023	\$ 10,254,567
	December 31, 2006		
	Gross Carrying Amount	Accumulated Amortization	Net Value
Patents and copyrights	\$ 13,426,154	\$ 3,706,477	\$ 9,719,677
Prepaid licensing fees	705,000	606,250	98,750
Deposits and other	390,057	-	390,057
	\$ 14,521,211	\$ 4,312,727	\$ 10,208,484

## 7. Accounting for Stock-Based Compensation

The following table presents share-based compensation expense included in our consolidated statements of operations for the three and six months ended June 30, 2007 and 2006, respectively:

	Three months ended June 30,		Six months ended June 30,	
	2007	2006	2007	2006
Cost of sales	\$ 4,959	\$ 0	\$ 4,959	\$ 0
Research and development expense	160,338	237,317	323,096	496,514
Sales and marketing expense	94,624	70,464	197,093	188,556
General and administrative expense	255,249	523,108	485,447	801,203
<b>Total share-based expense</b>	<b>\$ 515,170</b>	<b>\$ 830,889</b>	<b>\$ 1,010,595</b>	<b>\$ 1,486,273</b>

We did not capitalize any expense related to share-based payments. We estimate the fair value of each option award on the date of the grant using the Black-Scholes option valuation model. Estimates of fair value are not intended to predict actual future events or the value ultimately realized by persons who receive equity awards. Key input assumptions used to estimate the fair value of stock options include the exercise price of the award, the expected option term, expected volatility of our common stock over the option's expected term, the risk-free interest rate over the option's expected term, and the expected dividend yield.

The fair value of option grants issued during the six month periods ended June 30, 2007 and 2006 was estimated on the grant date using the Black-Scholes option pricing model with the following assumptions:

	Six months ended June 30, 2007	Six months ended June 30, 2006
Expected volatility	68.7% to 73.8%	69.4% to 74.0%
Expected life	4 to 7 years	4.25 to 7 years
Risk free interest rate	4.63% to 4.71%	4.85% to 5.21%
Dividend yield	-	-

### Stock Incentive Plans

Options to purchase 809,240 shares of common stock were available for future grants under our stock incentive plans at June 30, 2007. A summary of option activity under our stock incentive plans during the six month period ended June 30, 2007 is presented below:

	Shares (#)	Weighted-Average Exercise Price (\$)	Weighted-Average	
			Remaining Contractual Term	Aggregate Intrinsic Value (\$)
Outstanding at January 1, 2007	5,109,590	\$ 20.38		
Granted	140,003	10.38		
Exercised	(70,350)	8.03		\$ 282,978
Expired	(444,750)	18.12		
Outstanding at June 30, 2007	4,734,493	\$ 20.43	4.24 years	\$ 9,156,143
Exercisable at June 30, 2007	3,750,014	\$ 23.65	3.78 years	\$ 5,423,264

A summary of the status of nonvested shares as of June 30, 2007, and changes during the six months ended June 30, 2007 is presented below:

	Shares (#)	Weighted-Average Grant-Date Fair Value (\$)
Nonvested at January 1, 2007	928,053	\$ 4.82
Granted	140,003	6.99
Vested	(83,577)	4.71
Nonvested at June 30, 2007	984,479	\$ 5.13

The total grant date fair value of shares vested during the six months ended June 30, 2007 was \$393,535. As of June 30, 2007, there was approximately \$3,480,000 of total unrecognized compensation cost related to nonvested share-based compensation arrangements granted under our stock incentive plans. That cost is expected to be recognized over a weighted-average period of 2.24 years.

#### *Non-Plan Options/Warrants*

We have granted options and warrants outside our stock incentive plans for employment inducements, non-employee consulting services, and for underwriting and other services in connection with securities offerings. Non-plan options and warrants are generally granted with exercise prices equal to fair market value of the underlying shares at the date of grant. No non-plan options or warrants were granted in the six months ended June 30, 2007.

A summary of non-plan option and warrant activity during the six month period ended June 30, 2007 is presented below:

	Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term	Aggregate Intrinsic Value (\$)
Outstanding at January 1, 2007	2,570,736	\$ 25.26		
Exercised	(455,958)	8.59		\$ 1,614,629
Outstanding at June 30, 2007	2,114,778	\$ 28.86	3.76	\$ 2,637,367
Exercisable at June 30, 2007	2,114,778	\$ 28.86	3.76	\$ 2,637,367

Cash received from option and warrant exercises under all share-based payment arrangements for the six months ended June 30, 2007 was \$4,449,832. No tax benefit was realized for the tax deductions from option or warrant exercises for the six months ended June 30, 2007 as the benefits were fully offset by a valuation allowance.

## **8. Stock Authorization and Issuance**

On February 23, 2007, we completed the sale of an aggregate of 992,441 shares of our common stock to a limited number of domestic institutional and other investors in a private placement transaction pursuant to offering exemptions under the Securities Act of 1933. The shares were sold at a price of \$8.50 per share, for net proceeds of approximately \$8.4 million. The net proceeds from this transaction will be used for general working capital purposes.

We have a registration payment arrangement with regard to the common stock issued in the private offering. We were required to file a registration statement within 45 days of closing and cause the registration statement to become effective on or prior to the earlier of (i) the fifth trading day following the date we were notified by the SEC that the registration statement will not be reviewed or is no longer subject to review and (ii) 120 days after the closing date. Our registration statement became effective on March 30, 2007 thus fulfilling these obligations. In addition, we are required to use reasonable commercial efforts to maintain the registration statement's effectiveness until the earlier of (i) two years after the closing or (ii) such time as all common stock purchased in the private placement has been sold pursuant to a registration statement. In the event the registration statement ceases to be effective for any continuous period that exceeds 30 days or for one or more periods that exceed an aggregate of 60 days in any 12-month period (a "Registration Default"), we shall pay the investors an amount in cash equal to 1% of the aggregate purchase price paid for each 30-day period of a Registration Default. The maximum penalty that we may incur under this registration payment arrangement is 10% of the aggregate purchase price, or \$843,575, subject to reduction for shares sold or transferred and not held at the penalty determination date. Any payments made are to be prorated for any portion of a 30-day period of a Registration Default and allocated to the investor based on the number of shares owned by the investor at the time of the Registration Default. We do not believe that payment under the registration payment arrangement is probable and therefore no related liability has been recorded in the accompanying financial statements.

On February 3, 2006, we completed the sale of an aggregate of 2,373,335 shares of common stock in a private placement transaction. The shares were sold at a price of \$7.50 per share, for net proceeds of approximately \$16.2 million. Warrants to purchase an additional 593,335 shares of common stock were issued in connection with the transaction for no additional consideration. The warrants are immediately exercisable at an exercise price of \$8.50 per share and expire on February 3, 2011. We may redeem the warrants after February 3, 2008, at \$.01 per warrant, provided that the shares underlying the warrants are registered for resale and the common stock traded at a volume weighted-average price equal to or greater than 200% of the then exercise price for a prescribed period of time. The estimated fair value of the warrants of \$2,597,396 was classified as equity on the issuance date.

We have a registration payment arrangement with regard to the common stock issued in the private offering. Specifically, we are required to use reasonable commercial efforts to maintain the registration statement's effectiveness until the earlier of (i) two years after the closing, (ii) such time as all common stock purchased in the private placement have been sold pursuant to a registration statement, or (iii) the date on which the investors may sell all shares and warrant shares without restriction by the volume limitations of Rule 144(e) of the Securities Act. In the event the registration statement ceases to be effective for any continuous period that exceeds 30 days or for one or more periods that exceed an aggregate of 60 days in any 12-month period (a "Registration Default"), we shall pay the investors an amount in cash equal to 1% of the aggregate purchase price paid for each 30-day period of a Registration Default. The maximum penalty that we may incur under this arrangement is 10% of the aggregate purchase price, or \$1,780,001, subject to reduction for shares sold or transferred and not held at the penalty determination date. Any payments, if made, will be prorated for any portion of a 30-day period of a Registration Default and allocated to the investor based on the number of shares owned by the investor at the time of the Registration Default. We are not required to pay any penalties related to warrants or shares underlying the warrants. We do not believe that payment under the registration payment arrangement is probable and therefore no related liability has been recorded in the accompanying financial statements.

**9.**

**Accounting for Income Taxes**

Effective January 1, 2007, we adopted the provisions of FIN 48. FIN 48 prescribes a more-likely-than-not threshold for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This interpretation also provides guidance on recognition and classification of income tax assets and liabilities, accounting for interest and penalties associated with tax positions, accounting for income taxes in interim periods and income tax disclosures. We file income tax returns in the U.S. federal jurisdiction and various state jurisdictions. We have identified our federal and Florida tax returns as our only major jurisdictions, as defined. The periods subject to examination for those returns are the 1993 through 2006 tax years.

At January 1, 2007, we had an unrecognized tax benefit of approximately \$1.8 million which did not change significantly during the six months ended June 30, 2007. Future changes in the unrecognized tax benefit will have no impact on the effective tax rate due to the existence of a valuation allowance. The application of FIN 48 would have resulted in a decrease to retained earnings of \$1.4 million, except that the decrease was fully offset by the application of a valuation allowance. Additionally, as a result of the implementation of FIN 48, we decreased a deferred tax asset and its associated valuation allowance by approximately \$1.8 million.

At December 31, 2006, the Company had NOL and research and development tax credit carry-forwards for income tax purposes of \$146,213,571 and \$10,077,457, respectively, which expire in varying amounts from 2008 through 2025. Utilization of the NOL and R&D credit carryforwards may be subject to a substantial annual limitation due to the ownership change limitations that have occurred previously or that could occur in the future provided by Section 382 of the Internal Revenue Code of 1986. These ownership changes may limit the amount of NOL and R&D credit carryforwards that can be utilized annually to offset future taxable income and tax, respectively. In general, an ownership change, as defined by Section 382, results from transactions increasing the ownership of certain shareholders or public groups in the stock of a corporation by more than 50 percentage points over a three-year period. We have raised capital through the issuance of capital stock on several occasions which, combined with the purchasing shareholders' subsequent disposition of those shares, may have resulted in a change of control as defined by Section 382, or could result in a change of control in the future upon subsequent disposition. We have not currently completed a study to assess whether a change of control has occurred or whether there have been multiple changes of control since the Company's formation due to the significant complexity and cost associated with such study and that there could be additional changes in control in the future. If we have experienced a change of control at any time since the Company's formation, utilization of our NOL and R&D credit carryforwards would be subject to an annual limitation under Section 382 which is determined first by multiplying the value of our stock at the time of the ownership change by the applicable long-term tax-exempt rate, and then could be subject to additional adjustments, as required. Any limitation may result in the expiration of a portion of the NOL or R&D credit carryforwards before utilization. Further, until a study is completed and any limitation known, no amounts are being presented as an uncertain tax position under FIN 48.

Our policy is that we recognize interest and penalties accrued on any unrecognized tax benefits as a component of our income tax expense. As of the date of adoption of FIN 48, we did not have any accrued interest or penalties associated with any unrecognized tax benefits. For the three and six month periods ended June 30, 2007 and 2006, we did not incur any income tax related interest income, expense or penalties.

**10. Commitments and Contingencies**

We are subject to legal proceedings and claims which arise in the ordinary course of our business. Although occasional adverse decisions or settlements may occur, we believe that the final disposition of such matters will not have a material adverse effect on our financial position, results of operations or liquidity.

**11. Liquidity and Capital Resources**

We operate in a highly competitive industry with rapidly changing and evolving technologies and an increasing number of market entrants. Our potential competitors have substantially greater financial, technical and other resources than we do. We have made significant investments in developing our technologies and products, the returns on which are dependent upon the generation of future revenues for realization. We have not yet generated sufficient revenues to offset our expenses. We have incurred losses from operations and negative cash flows in every year since inception and have utilized the proceeds from the sale of our equity securities to fund our operations.

On February 23, 2007, we completed the sale of an aggregate of 992,441 shares of common stock to a limited number of institutional and other investors in a private placement for net proceeds of approximately \$8.4 million (see Note 8). In addition, during the six months ended June 30, 2007, we received proceeds from the exercise of outstanding options and warrants of approximately \$4.4 million.

At June 30, 2007, we had an accumulated deficit of approximately \$158.3 million and working capital of approximately \$18.2 million. Management does not expect that revenues in 2007 will be sufficient to offset the expenses from continued investment in product development and marketing activities. Therefore, we expect operating losses and negative cash flows to continue in 2007 and possibly beyond.

The long-term continuation of our business plans is dependent upon generation of sufficient revenues from our technologies and products to offset expenses. In the event that we do not generate sufficient revenues, we will be required to obtain additional funding through public or private financing and/or reduce certain discretionary spending. Failure to generate sufficient revenues, raise additional capital and/or reduce certain discretionary spending could have a material adverse effect on our ability to achieve our intended long-term business objectives.

**12. Recent Accounting Pronouncements**

In September 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standard No. 157, "Fair Value Measurements" (SFAS 157). This statement defines fair value as used in numerous accounting pronouncements, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP) and expands disclosure related to the use of fair value measures in financial statements. SFAS 157 does not expand the use of fair value measures in financial statements, but standardizes its definition and guidance in GAAP. SFAS 157 is effective for fiscal years beginning after November 15, 2007. We will adopt the provisions of SFAS 157 on January 1, 2008. We have evaluated SFAS 157 and do not anticipate that it will have an impact on our financial statements when adopted.

In February 2007, the Financial Accounting Standards Board issued Statement of Financial Accounting Standard No. 159, "Fair Value Option for Financial Assets and Financial Liabilities" (SFAS 159). This statement permits entities to elect to measure many financial instruments and certain other items at fair value and also amends SFAS 115, "Accounting for Certain Investments in Debt and Equity Securities". SFAS 159 is effective for fiscal years beginning after November 15, 2007. We are currently evaluating the impact of SFAS 159; however we do not anticipate that it will have a significant impact on the financial statements when adopted.

## **ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

### Forward-Looking Statements

When used in this Form 10-Q and in future filings by the Company with the Securities and Exchange Commission, the words or phrases "will likely result", "management expects" or "Company expects", "will continue", "is anticipated", "estimated" or similar expressions are intended to identify "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Readers are cautioned not to place undue reliance on such forward-looking statements, each of which speaks only as of the date made. Such statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical earnings and those presently anticipated or projected, including the timely development and acceptance of new products, sources of supply and concentration of customers. We have no obligation to publicly release the results of any revisions, which may be made to any forward-looking statements to reflect, anticipated events or circumstances occurring after the date of such statements.

### Results of Operations for Each of the Three and Six Month Periods Ended June 30, 2007 and 2006

#### General

We have made significant investments in developing our technologies and products, the returns on which are dependent upon the generation of future revenues for realization. We have not yet generated revenues sufficient to offset our operating expenses and have used the proceeds from the sale of our equity securities to fund our operations.

#### ITT Agreements

On May 2, 2007, we entered into an Engineering Services Agreement and a Licensing Agreement (collectively, the "Agreements") with ITT Corporation (ITT) for the design and use of our d2p technology. Under the Agreements, we will provide engineering consulting and design services to ITT on a time and materials basis for the development of products using our technology and will be paid royalties on a per unit basis for products sold by ITT that incorporate our d2p technology. Under the terms of the Agreements, ITT has rights to use our d2p technology in applications worldwide.

Future revenues from engineering services and royalties under the ITT agreements are expected to offset a portion of our annual operating expenses, and cumulative royalties for the license of our d2p technology to ITT are estimated to be approximately \$25 million.

#### Critical Accounting Policies

*Revenue Recognition.* We account for our service revenue under the provisions of Staff Accounting Bulletin No. 104 (SAB 104), "Revenue Recognition in Financial Statements" and AICPA Statement of Position No. 81-1 (SOP 81-1), "Accounting for Performance of Construction-Type and Certain Production-Type Contracts." Under the provisions of SAB 104 and SOP 81-1, we recognize revenue when there is persuasive evidence of an arrangement, services have been rendered, the fee is fixed or determinable, and collectibility of the resulting receivable is reasonably assured. We use the percentage-of-completion method of accounting for cost reimbursement-type contracts which specify a certain billable fee amount. Revenues are recognized as costs are incurred assuming that collection is reasonably assured.

*Income Taxes.* We adopted FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes - an Interpretation of FASB Statement No. 109", (FIN 48) on January 1, 2007 as more fully discussed in Note 9.

There have been no other changes in accounting policies from those stated in the Annual Report on Form 10-K for the year ended December 31, 2006.

#### Revenues and Gross Margin

We had service revenue of \$89,546 for the three month period ended June 30, 2007, representing initial revenue from the engineering services agreement with ITT entered into in May 2007. We had a gross margin of \$12,861, or 14% for the period. Our cost of sales included the direct labor costs of engineering staff providing services to ITT, as well as depreciation and amortization and allocated facilities costs. We had no revenue in 2006 or the first quarter of 2007.

We expect our services revenue will fluctuate from period to period depending on the status of ongoing projects and the complexity of services requested by ITT. Also, we anticipate that we will secure new customers in future periods who will also engage us for consulting and design services. We anticipate that royalty revenues from license agreements will not be recognized for a minimum of twelve to eighteen months following execution of a license agreement.

#### Research and Development Expenses

Our research and development expenses for the three months ended June 30, 2007 were \$2,557,621, as compared to \$2,530,159 for the same period in 2006, an increase of \$27,462 or 1%. This increase was due to increased outside design consulting fees of approximately \$110,000, offset by decreased stock-based compensation of approximately \$70,000. In addition, approximately \$77,000 of engineering costs were classified as cost of sales as they represented direct and indirect costs related to service revenue.

For the six months ended June 30, 2007, our research and development expenses were \$5,290,072 as compared to \$5,087,927 for the same period in 2006, representing an increase of \$202,145 or 4%. The increase was a result of increased prototype fabrication costs of approximately \$240,000, increased outside design consulting fees of approximately \$98,000 and increased direct personnel costs of approximately \$110,000, offset by decreased stock-based compensation of approximately \$170,000. In addition, approximately \$77,000 of engineering costs were classified as cost of sales as they represented direct and indirect costs related to service revenue.

Prototype fabrication costs vary based on the number of foundry runs, the materials specified and the number of variants requested on each run. Outside design consulting fees are generally project-based and will vary based on timing of certain development projects. The increases in personnel costs were a result of increases in engineering personnel and related recruitment costs. The decreases in stock-based compensation were due to the expiration of a stock-based contract with a third-party in late 2006 as well as decreases in employee stock-based compensation primarily as a result of forfeitures of unvested options.

We expect to continue to invest a significant amount of our working capital in research and development activities, although we do not anticipate that the total amount spent on research and development will increase substantially from current levels without an offsetting increase in revenues.

#### Marketing and Selling Expenses

Marketing and selling expenses for the three months ended June 30, 2007 were \$680,732, representing an increase of \$158,365, or 30%, from marketing and selling expenses of \$522,367 for the same period in 2006. For the six months ended June 30, 2007, marketing and selling expenses were \$1,347,555, representing an increase of \$270,796, or 25%, from the same period in 2006.

The increase in sales and marketing expenses for both the three and six month periods was due to increased personnel and consulting costs for technical sales support and expansion of network carrier relationships, as well as increased legal fees related to the ITT agreements.

#### General and Administrative Expenses

General and administrative expenses for the three months ended June 30, 2007 were \$1,426,722, as compared to \$1,551,039 for the same period in 2006, representing a decrease of \$124,317, or 8%. The decrease in general and administrative expenses was due to decreased stock compensation expense of approximately \$270,000, offset by increased outside professional fees of approximately \$120,000.

For the six months ended June 30, 2007, general and administrative expenses were \$2,700,375, as compared to \$2,940,279 for the same period in 2006, representing a decrease of \$239,904 or 8%. This decrease was due to decreased stock compensation expense of approximately \$320,000, offset by increased outside professional fees of approximately \$78,000.

The decrease in stock-based compensation expense was due to expiration of a stock-based compensation arrangement with a third party in 2006 and a decrease in stock-based compensation expense related to directors' stock options. The increase in outside professional fees is primarily due to consulting fees related to implementation of a new financial accounting system.

#### Interest and Other Income

Interest and other income consist of interest earned on our investments and other miscellaneous income. Interest and other income for the three months ended June 30, 2007 was \$236,245, compared to \$284,342 for the same period in 2006. The decrease of \$48,097 was due to lower average interest-bearing cash balances during the second quarter of 2007 compared to the same period in 2006. For the six months ended June 30, 2007, interest and other income was \$441,065, compared \$442,168 for the same period in 2006.

#### Loss and Loss per Share

We had a net loss of \$(4,415,969) or \$(0.18) per common share for the three months ended June 30, 2007, as compared to net loss of \$(4,319,223) or \$(0.18) per common share for the same period in 2006, representing an increase in net loss of \$96,746. This increase was primarily due to a 1.3% increase in operating expenses from the same period in 2006.

We had a net loss of \$(8,884,076) or \$(0.37) per common share for the six months ended June 30, 2007, as compared to net loss of \$(8,662,797) or \$(0.38) per common share for the same period in 2006. This represents an increase in net loss of \$221,279 which was primarily a result of a 2.6% increase in operating expenses.

On a per share basis, the net loss for the six months ended June 30, 2007 decreased when compared to the same period in 2006. This decrease was due to an increase in the weighted average number of shares outstanding as a result of the sale of approximately 992,000 shares of common stock in a private placement transaction in February 2007 and the issuance of approximately 526,000 shares of common stock upon the exercise of options and warrants during the six months ended June 30, 2007.

#### Liquidity and Capital Resources

At June 30, 2007, we had working capital of approximately \$18.2 million which represented an increase of approximately \$4.9 million from working capital of \$13.3 million at December 31, 2006. The increase was primarily due to a \$6.2 million increase in cash and cash equivalents. The increase in cash and cash equivalents was a result of the proceeds from the private placement in February 2007 of approximately \$8.4 million and proceeds from the exercise of warrants and employee stock options of approximately \$4.4 million during the six month period ended June 30, 2007. These increases were somewhat offset by approximately \$5.8 million in cash used for operating

activities and approximately \$0.8 million of cash invested in equipment and intellectual property protection for the six month period ended June 30, 2007.

Our future business plans call for continued investment in sales, marketing and product development for our wireless technologies and products. Our ability to generate revenues will largely depend upon the rate at which we are able to secure OEM adoption of our technology and products. The expected revenues for 2007 will not be sufficient to cover our operational expenses for 2007. The expected continued losses and negative cash flow will continue to be funded by the use of our available working capital.

We believe that our current capital resources will be sufficient to support our liquidity requirements at least through the first half of 2008. The long-term continuation of our business plans is dependent upon generation of sufficient revenues from our products to offset expenses. In the event that we do not generate sufficient revenues, we will be required to obtain additional funding through public or private financing and/or reduce certain discretionary spending. Failure to generate sufficient revenues, raise additional capital and/or reduce certain discretionary spending could have a material adverse effect on our ability to achieve our intended long-term business objectives.

#### Off-Balance Sheet Transactions, Arrangements and Other Relationships

As of June 30, 2007, we had outstanding warrants to purchase 1,999,778 shares of common stock that were issued in connection with the sale of equity securities in various private placement transactions in 2000, 2001, 2005 and 2006. These warrants have exercise prices ranging from \$8.50 to \$56.66 per share with a weighted average exercise price of \$29.19 and a weighted average remaining contractual life of approximately 3.9 years. The estimated fair value of these warrants of \$18,298,383 is included in shareholders' equity in our consolidated balance sheets.

### **ITEM 3. Quantitative and Qualitative Disclosures About Market Risk.**

Not Applicable

### **ITEM 4. Controls and Procedures.**

#### Evaluation of Disclosure Controls and Procedures

An evaluation of the effectiveness of our disclosure controls and procedures as of June 30, 2007 was made under the supervision and with the participation of our management, including the chief executive officer and chief financial officer. Based on that evaluation, they concluded that our disclosure controls and procedures are effective as of the end of the period covered by this report to ensure that information required to be disclosed by us in our Exchange Act reports is accumulated and communicated to our management, including our principal executive and financial officers, as appropriate to allow timely decisions regarding required disclosures, and is recorded, processed, summarized and reported within the time periods specified by the Securities and Exchange Commission's rules and regulations.

#### Changes in Internal Control over Financial Reporting

For the three month period covered by this report, there has been no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## PART II - OTHER INFORMATION

**ITEM 1. Legal Proceedings.**

We are subject to legal proceedings and claims which arise in the ordinary course of its business. Although occasional adverse decisions or settlements may occur, we believe that the final disposition of such matters will not have a material adverse effect on our financial position, results of operations or liquidity.

**ITEM 1A. Risk Factors**

In addition to other information in this Quarterly Report on Form 10-Q, the risk factors discussed in Part I, Item 1A, "Risk Factors" in our Form 10-K for the year ended December 31, 2006 should be carefully considered in evaluating our business because such factors may have a significant impact on our business, operating results, liquidity and financial condition. The risks described in our 2006 Form 10-K are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also materially adversely affect our business, financial condition or operating results.

**ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds.**Sales of Unregistered Securities

Date of sale	Title of security	Number sold	Consideration received and description of underwriting or other discounts to market price afforded to purchasers	Exemption from registration claimed	If option, warrant or convertible security, terms of exercise or conversion
5/15/07	Options to purchase common stock granted to officers and other employees pursuant to the 2000 Plan	72,750	Option granted - no consideration received by Company until exercised	4(2)	Options vest over three years and remain exercisable for seven years from the grant date at an exercise price of \$10.82 per share.
5/15/07	Options to purchase common stock granted to employee pursuant to the 2000 Plan	736	Option granted - no consideration received by Company until exercised	4(2)	Options vest immediately and remain exercisable for seven years from the grant date at an exercise price of \$10.82 per share.
4/13/07 - 5/17/07	- Common Stock	28,833	Received proceeds of \$259,497	4(2)	Exercise of warrants issued in connection with private placement transaction in March 2005.
5/1/07 - 6/15/07	- Common Stock	377,125	Received proceeds of \$3,205,563	4(2)	Exercise of warrants issued in connection with private

placement  
transaction in  
February 2006.
