Audit Committee Report

The Audit Committee of the Board of Directors is responsible for the review and oversight of CanArgo's performance with respect to its financial responsibilities and the integrity of CanArgo's accounting and reporting practices. The Audit Committee also recommends to the Board of Directors the selection of CanArgo's independent auditors. The Board of Directors determined that the members of the Audit Committee were independent in accordance with NASDAQ listing standards. The Audit Committee is composed of two non-employee directors and operates under a written charter.

CanArgo, not the Audit Committee or the independent auditor, is responsible for the preparation of its financial statements and its operating results and for the appropriate safekeeping of CanArgo's assets. The independent auditor's responsibility is to attest to the fair presentation of the financial statements. The role

Table of Contents

of the Audit Committee is to be satisfied that both CanArgo and the independent auditor discharge their respective responsibilities effectively. However, no member of the Audit Committee is professionally engaged in the practice of accounting or auditing, including with respect to auditor independence. The Audit Committee relies, without independent verification, on the information provided to it and on the representations made by management and the independent auditors.

The Audit Committee held four meetings during fiscal 2002. The meetings were designed, among other things, to facilitate and encourage communication among the Audit Committee, CanArgo, and CanArgo's independent auditors, PricewaterhouseCoopers. The Audit Committee discussed with PricewaterhouseCoopers the overall scope and plan for their audit, and met with PricewaterhouseCoopers, with and without management present. The Audit Committee has reviewed and discussed the audited financial statements with management.

The Audit Committee also discussed with the independent auditors matters required to be discussed with audit committees under generally accepted auditing standards, including, among other things, matters related to the conduct of the audit of CanArgo's consolidated financial statements and the matters required to be discussed by Statement on Auditing Standards No. 61, as amended, Communication with Audit Committees.

CanArgo's independent auditors also provided to the Audit Committee the written disclosures and the letter required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committee, and discussed their independence from CanArgo. The Audit Committee also reviewed, among other things, the amount of fees paid to PricewaterhouseCoopers for audit and non-audit services. See Principal Accounting Firm Fees chart located in the section of the Proxy marked "General".

Based on its review and these meetings, discussions and reports, and subject to the limitations on its role and responsibilities referred to above and in the Audit Committee Charter, the Audit Committee recommended to the Board of Directors that CanArgo's audited consolidated financial statements for the fiscal year ended 31st December 2002 be included in CanArgo's Annual Report on Form 10-K.

Compensation Committee Report on Executive Compensation

The Committee's Responsibilities

The Compensation Committee of the Board of Directors is composed entirely of non-employee directors. The Compensation Committee is responsible for setting and administering policies which govern CanArgo's executive compensation programmes. The purpose of this report is to summarize the compensation philosophy and policies that the Compensation Committee applied in making executive compensation decisions in 2002.

Compensation Philosophy

The Compensation Committee has approved compensation programs intended to:

Attract and retain talented executive officers and key employees by providing total compensation competitive with that of other executives employed by companies of similar size, complexity and lines of business;

Motivate executives and key employees to achieve strong financial and operational performance;

Emphasize performance-based compensation, which balances rewards for short-term and long-term results;

Reward individual performance;

Link the interests of executives with shareholders by providing a significant portion of total pay in the form of stock incentives; and

Encourage long-term commitment to CanArgo.

Table of Contents

The Compensation Committee held four meetings during fiscal 2002.

Stock Based Compensation Plans

At 31st December 2002, stock options and warrants had been issued under the following stock based compensation plans:

1995 Long-Term Incentive Plan. Adopted by CanArgo in February 1996, this plan allows for 7,500,000 shares of CanArgo's Common Stock to be issued to officers, directors, employees, consultants and advisors. As of 31st December 2002, 3,887,834 options issued under this Plan were outstanding.

CAOG Plan. Adopted by CanArgo following the acquisition by CanArgo of CanArgo Oil & Gas Inc. in 1998, this plan allowed for 988,000 shares of CanArgo's Common Stock to be issued to employees, consultants and advisors. As of 31st December 2002, 626,667 options issued under this plan were outstanding.

Special Stock Options and Warrants. Adopted by CanArgo in September 2000, this plan was created to allow CanArgo to retain and provide incentives to existing executive officers and directors and to allow recruitment of new officers and directors following the Company's decision to relocate finance and administrative functions from Calgary, Canada to London, England. As of 31st December 2002, 2,220,000 special stock options and warrants issued under this plan were outstanding.

Compensation Methodology

Each year the Compensation Committee reviews data from market surveys, proxy statements issued by competitors and independent consultants to assess CanArgo's competitive position with respect to the following three components of executive compensation:

base salary;

annual incentives; and

long-term incentives.

The Compensation Committee also considers individual performance, level of responsibility, and skills and experience in making compensation decisions for each executive.

Components of Compensation

Base Salary: Base salaries for executives are determined based upon job responsibilities, level of experience, individual performance, comparisons to the salaries of executives in similar positions obtained from market surveys, and competitive data obtained from consultants and staff research. The goal for the base pay component is to compensate executives at a level which approximates the median salaries of individuals in comparable positions with comparable companies in the oil and gas industry. The Compensation Committee approves all salary increases for executive officers.

Annual Incentives: An annual cash incentive has been developed and approved for the Chief Executive Officer.

Long-Term Incentive Compensation: The Compensation Committee has structured long-term incentive compensation to provide for an appropriate balance between rewarding performance and encouraging employee retention. Long-term incentives are granted primarily in the form of stock options. The purpose of stock options is to align compensation directly with increases in shareholder value. The number of options granted is determined by reviewing survey data to determine the compensation made to other executives and management employees in comparable positions with comparable companies in the oil and gas sector. In determining the number of options to be awarded, the Compensation Committee also considers the grant recipient's qualitative and quantitative performance, the size of stock option awards in the past, and expectations of the grant recipient's future performance.

Table of Contents

In 2002, the Compensation Committee approved new stock options to one officer and one employee, and in 2001, approved a series of new stock options to a broad range of employees. The stock option awards were granted under the various plans available in the company.

Compliance with Section 162(m) of the Internal Revenue Code

Under Section 162(m) of the Internal Revenue Code, CanArgo Energy Corporation may not deduct annual compensation in excess of \$1 million paid to certain employees, generally its Chief Executive Officer and its four other most highly compensated executive officers, unless that compensation qualifies as performance-based compensation. While the Compensation Committee intends to structure performance-related awards in a way that will preserve the maximum deductibility of compensation awards, the Compensation Committee may from time to time approve awards which would vest upon the passage of time or other compensation which would not result in qualification of those awards as performance-based compensation. It is not anticipated that compensation realized by any executive officer under CanArgo Energy Corporation plans and programmes now in effect will result in a material loss of tax deductions.

Compensation of the Chief Executive Officer

The Compensation Committee reviews annually the compensation of the Chief Executive Officer and recommends any adjustments to the Board of Directors for approval. The Chief Executive Officer participates in the same programmes and receives compensation under the same programs as other executives. However, the Chief Executive Officer's compensation reflects the greater policy and decision-making authority that the Chief Executive Officer holds and the higher level of responsibility he has with respect to the strategic direction of CanArgo Energy Corporation and its financial and operating results. For 2002, the components of Dr. Robson's compensation were:

Base Salary: After considering CanArgo's overall performance and competitive practices, and the signing of a 3 year contract, the Compensation Committee recommended, and the Board of Directors approved, a base salary of £150,000 (approx \$217,500) for Dr. Robson, effective 1st July 2000.

Short-Term Incentives: In 2002, incentive compensation for Dr. Robson was based solely upon increase in cash flow per quarter. Based on 2002 cash flow performance each quarter, Dr. Robson qualified for a quarterly bonus in 2002 of \$29,000. The bonus is capped at one times salary for a given quarter.

In August 2000, the Compensation Committee elected to schedule its annual review of Chief Executive Officer performance and compensation for April of each year, to assure thorough consideration of year-end results. Actions taken by the Board of Directors in April 2003 with respect to Dr. Robson's 2003 compensation will be reflected in the proxy statement for the 2004 meeting of shareholders.

It is the Compensation Committee's intention that, when taken together, the components of Dr. Robson's pay, including base salary, annual incentives, short-term incentive opportunity and long-term incentives, will result in compensation which approximates compensation paid by companies of similar size and industry.

This report has been provided by the Compensation Committee.

Nils Trulsvik, Chairman.
Russell Hammond

Compensation Committee Interlocks and Insider Participation

During 2002, CanArgo's Compensation Committee consisted of Messrs. Trulsvik and Hammond, and to November 12, 2002 Mr. Brittain, all of whom are or were non-employee directors. See the section in the proxy marked "Certain Relationships and Related Transactions".

- (1) The options were granted at an exercise price in excess of the fair market value of CanArgo's Common Stock on the date of grant. The options vest 1/3 on 19/09/2003, 1/3 on 19/09/2004 and 1/3 on 19/09/2005.
- (2) These values were derived using the Black-Scholes option pricing model applying the following assumptions:

Pursuant to the terms of CanArgo's various stock option plans, the Compensation Committee may, subject to each plan's limits, modify the terms of outstanding options, including the exercise price and vesting schedule thereof. These values are not intended to forecast future appreciation of CanArgo's stock price. The actual value, if any, that an executive officer may realize from his options (assuming that they are exercised) will depend solely on the increase in the market price of the shares acquired through option exercises over the exercise price, measured when the shares are sold.
