NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars and share amounts in thousands except per share data)

(Unaudited)

January 27, 2007

NOTE 1 GENERAL

Basis of Presentation

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments necessary to present fairly the financial position of the Company as of January 27, 2007 and the results of operations and the cash flows for the periods ended January 27, 2007 and January 28, 2006. Such adjustments are of a normal recurring nature. The results of operations for the periods ended January 27, 2007 and January 28, 2006, are not necessarily indicative of the results to be expected for the full year. These financial statements should be read in conjunction with the financial statements included in the 2006 Annual Report on Form 10-K filed on July 13, 2006.

The condensed consolidated financial statements of Patterson Companies, Inc. include the assets and liabilities of PDC Funding Company, LLC (PDC Funding), a wholly owned subsidiary and a separate legal entity under Minnesota law. PDC Funding is a fully consolidated special purpose entity of the Company established to sell customer installment sale contracts to outside financial institutions in the normal course of business. The assets of PDC Funding would be available first and foremost to satisfy the claims of its creditors. There are no known creditors of PDC Funding.

Fiscal Year End

The fiscal year end of the Company is the last Saturday in April. The third quarter and first nine months of fiscal 2007 and 2006 represent the 13 and 39 weeks ended January 27, 2007 and January 28, 2006, respectively.

Comprehensive Income

Total comprehensive income was \$55,013 and \$145,956 for the three and nine months ended January 27, 2007, respectively, and \$55,848 and \$144,608 for the three and nine months ended January 28, 2006, respectively. Other than net income, comprehensive income also includes foreign currency translation effects and unrealized gains and losses on cash flow hedging instruments.

Distribution Agreement

In the first quarter of fiscal 2006, the Company extended its exclusive North American distribution agreement with Sirona Dental Systems GmbH (Sirona) for Sirona s CEREC 3D dental restorative system. The Company paid a \$100 million distribution fee to extend the agreement for a 10-year period that begins in October 2007. The distribution fee is reflected as a non-current asset in the condensed consolidated balance sheet. The amortization of this fee will occur over the 10-year period and will reflect the pattern in which the economic benefits of the fee are realized.

Table of Contents*Earnings Per Share*

The following table sets forth the computation of basic and diluted earnings per share (shares in thousands):

	Three Months Ended		Nine Months Ended	
	January 27, 2007	January 28, 2006	January 27, 2007	January 28, 2006
Denominator:				
Denominator for basic earnings per share - weighted-average shares	135,601	137,804	137,189	137,552
Effect of dilutive securities:				
Stock options	750	1,159	760	1,374
Restricted stock	21		12	
Employee Stock Purchase Plan	37	45	38	40
Capital Accumulation Plan	158	252	155	204
Convertible debentures		15		44
Dilutive potential common shares	966	1,471	965	1,662
Denominator for diluted earnings per share - adjusted weighted-average shares and assumed conversions	136,567	139,275	138,154	139,214

Options to purchase 707 and 774 shares of common stock during the three and nine months ended January 27, 2007, respectively, and 479 and 180 shares of common stock during the three and nine months ended January 28, 2006, respectively, are excluded from the calculation of diluted earnings per share because the effect would have been anti-dilutive. Unvested restricted stock awards outstanding, including performance unit awards, excluded from the calculation of diluted earnings per share were 75 and 77 shares during the three and nine months ended January 27, 2007, respectively, and 13 and 43 shares during the three and nine months ended January 28, 2006, respectively, because the effect would have been anti-dilutive.

Recently Issued Accounting Pronouncements

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109* (FIN 48). FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken, or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. FIN 48 is effective at the beginning of our fiscal year 2008. We are currently evaluating the impact of FIN 48 on our results of operations and financial position.

In September 2006, the SEC staff published Staff Accounting Bulletin (SAB) No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements*. SAB No. 108 requires analysis of misstatements using both an income statement

Table of Contents

(rollover) approach and a balance sheet (iron curtain) approach in assessing materiality and provides for a one-time cumulative effect transition adjustment. SAB No. 108 is effective for our current fiscal year ending April 28, 2007. We are currently evaluating the impact of SAB No. 108 on our results of operations and financial position.

In September 2006, FASB issued Statement of Accounting Standards (SFAS) No. 157 *Fair Value Measurement*. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS No. 157 is effective at the beginning of our fiscal year 2009. We are currently evaluating the impact of SFAS No. 157 on our results of operations and financial position.

In February 2007, FASB issued SFAS No. 159 *The Fair Value Option for Financial Assets and Liabilities*. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. SFAS No. 159 is effective at the beginning our fiscal year 2009. We are currently evaluating the impact of SFAS No. 159 on our results of operations and financial position.

NOTE 2 GOODWILL AND OTHER INTANGIBLE ASSETS

The goodwill balances and related activity by business segment as of April 29, 2006 and January 27, 2007 is as follows:

	Balance at	Acquisition	Translation And Other	Balance at
	April 29, 2006	Activity	Activity	January 27, 2007
Dental Supply	\$ 90,063	\$ 2,457	\$ (268)	\$ 92,252
Rehabilitation Supply	482,535	6,424	(9,062)	479,897
Veterinary Supply	83,608	4,601		88,209
Total	\$ 656,206	\$ 13,482	\$ (9,330)	\$ 660,358

The acquisition activity column represents the finalization of the purchase price allocation of a fiscal year 2006 acquisition, the preliminary purchase price allocation of fiscal year 2007 acquisition and a contingent earn-out payment related to an acquisition made in a prior year. The reduction in goodwill within the rehabilitation supply segment's translation and other activity column relates to the settlement of an income tax matter that resulted from the AbilityOne acquisition in September 2003. The settlement was finalized in the current fiscal year for an amount lower than the estimated liability that was included in purchase accounting. Accordingly, the liability was reduced with the offset to goodwill. Preliminary purchase price allocations are subject to adjustment for changes in the preliminary assumptions pending additional information, including final asset valuations.

Balances of acquired intangible assets excluding goodwill are as follows:

	January 27, 2007	April 29, 2006
Copyrights, trade names and trademarks - unamortized	\$ 76,402	\$ 76,402
Customer lists and other amortizable intangible assets	60,629	60,629
Less: Accumulated amortization	(33,345)	(29,023)
Net amortizable intangible assets	27,284	31,606
Total identifiable intangible assets, net	\$ 103,686	\$ 108,008

Table of Contents**NOTE 3 SHARE-BASED COMPENSATION**

Effective April 30, 2006 (the first day of current fiscal year), the Company adopted SFAS 123R. SFAS 123R is a revision of Statement No. 123, *Accounting for Stock-Based Compensation* (SFAS 123), and supersedes Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees*, and its related implementation guidance. SFAS 123R eliminates the ability to account for share-based compensation transactions using the intrinsic value method under APB Opinion No. 25 and requires the Company to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award.

Prior to the adoption of SFAS 123R, the Company utilized the intrinsic value method under APB Opinion No. 25. In addition, the Company followed the pro forma disclosure requirements of SFAS 123, as amended by Statement No. 148, *Accounting for Stock-Based Compensation-Transition and Disclosure-an amendment of FASB Statement No. 123* (SFAS 148).

As permitted by SFAS 123R, the Company has adopted the requirements of the standard using the modified prospective method in which compensation cost is recognized beginning with the effective date (a) based on the requirements of SFAS 123R for all share-based awards granted after the effective date and (b) based on the requirements of SFAS 123 for all awards granted to employees prior to the effective date of SFAS 123R that remain unvested on the effective date. With respect to (b) above, the related compensation cost is based on the grant-date fair value estimated in accordance with the pro forma provisions of SFAS 123 and SFAS 148. Share-based compensation expense is recognized over the requisite service period using the straight-line method. In accordance with the modified prospective method of adoption, the financial statement amounts for periods prior to April 30, 2006 have not been restated to reflect the fair value method of recognizing compensation cost.

The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value recognition provisions of SFAS 123 to share-based employee compensation for the three and nine months ended January 28, 2006:

	Three Months	Nine Months
Net income, as reported	\$ 54,004	\$141,606
Add: Stock-based employee compensation expense included in reported net income, net of related tax effects	180	570
Deduct: Stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects	(1,090)	(3,245)
Pro forma net earnings	\$ 53,094	\$ 138,931
Earnings per share basic:		
As reported	\$ 0.39	\$ 1.03
Pro forma	\$ 0.39	\$ 1.01
Earnings per share diluted:		
As reported	\$ 0.39	\$ 1.02
Pro forma	\$ 0.38	\$ 1.00

Table of Contents

The unaudited consolidated statements of income for the three and nine months ended January 27, 2007 include pre-tax share-based compensation expense of \$1.8 million (\$1.5 after-tax) and \$5.9 million (\$4.8 after-tax), respectively, all of which is included in operating expenses within the condensed consolidated statements of income. This expense reduced diluted earnings per share by \$0.01 and \$0.04 for the three and nine months ended January 27, 2007, respectively. The Company expects a similar quarterly amount of expense in the fourth quarter of fiscal 2007. The unaudited consolidated statement of cash flows for the nine months ended January 27, 2007 presents the pre-tax share-based compensation expense as an adjustment to reconcile net income to net cash provided by operating activities. In addition, prior to the adoption of SFAS 123R, benefits associated with tax deductions in excess of recognized compensation expense were presented as part of operating cash flows in the Company's consolidated statements of cash flows. SFAS 123R requires that such excess tax benefits be presented as a cash inflow from financing activities and the Company has classified these cash flows, totaling \$0.6 million, in accordance with SFAS 123R for the nine months ended January 27, 2007.

As of January 27, 2007 the total compensation cost, before income taxes, related to non-vested awards yet to be recognized was \$14.2 million, and it is expected to be recognized over a weighted average period of approximately 5.7 years.

Description of General Methods and Assumptions Used to Estimate Fair Value

Described below are certain methods and assumptions used to estimate the fair value of share-based compensation awards. Further information is presented below within this Note 3 that may be unique to a particular award or group of awards.

Expected dividend yield the Company has not and does not expect to pay dividends. Accordingly, the expected dividend yield used is 0%.

Expected stock price volatility the Company considers historical volatility trends, implied future volatility based on certain traded options of the Company, and other factors.

Risk-free interest rate the Company bases the risk-free interest rate on the U.S. Treasury yield curve in effect at the grant date with similar terms to the expected term of the award.

Table of Contents

Expected term of stock options and restricted stock the Company uses the simplified method for plain vanilla options as described in SEC Staff Accounting Bulletin No. 107. For all other options, the Company estimates the expected term, or life, of awards based on several factors, including grantee types, vesting schedules, contractual terms and various factors surrounding exercise behavior of different groups.

Director and Employee Stock Option Plans

In June 1992, the Company adopted a Director Stock Option Plan. Options were granted at the fair market value of the underlying stock on the date of grant, vest over one year, and are exercisable for a period of four years commencing one year after the date of grant. This plan terminated during fiscal 2002.

In September 2001, the Company adopted a new Director Stock Option Plan. A total of 800,000 shares of common stock have been reserved for issuance under this plan. Options are granted at fair market value of the underlying stock on the option grant date, vest over one year, and are exercisable for a period of nine years commencing one year after the grant date. In addition, each eligible director will have the right to elect to receive additional options in lieu of the amount of the director's annual fee for service on the board of directors.

In June 1992, the Company adopted the Patterson Dental Company 1992 Stock Option Plan, a plan for employees. Due to the expiration of this plan in fiscal 2003, no options remain available for future issuance under this plan. In September 2002, the Company adopted a new employee equity award plan. A total of 6,000,000 shares of common stock were reserved for issuance under the plan. In September 2004, the Company's shareholders voted to approve the Amended and Restated 2002 Stock Option Plan, a restatement of the 2002 plan. Upon approval, the Plan was renamed the Patterson Companies, Inc. Equity Incentive Plan (Equity Incentive Plan).

The Equity Incentive Plan amendments did not change the number of shares reserved for awards under the plan. The Equity Incentive Plan authorizes various award types to be issued under the plan, including stock options, restricted stock and restricted stock units, stock bonuses, cash bonuses, stock appreciation rights, performance awards and dividend equivalents. Awards may have a term no longer than ten years and vesting terms are determined by the compensation committee of the board of directors. The minimum restriction period for restricted stock and restricted stock units is three years, or one year in the case of performance-based awards. Additionally, the maximum number of shares that may be issued pursuant to awards of restricted stock, restricted stock awards and stock bonuses is 2,000,000 shares. Prior to fiscal 2006, only stock option awards had been granted under the Equity Incentive Plan.

The fair value of stock options granted was estimated as of the grant date using a Black-Scholes option-pricing model with the following weighted average assumptions during the nine months ended:

	(pro forma)	
	January 27, 2007	January 28, 2006
Expected dividend yield		
Expected stock price volatility	28.0%	30.0%
Risk-free interest rate	4.9%	4.1%
Expected life of options (years)	7.1	6.0

Table of Contents

Following is a summary of stock option activity for all plans during the nine months ending January 27, 2007:

	Options	Weighted Average Exercise Price	Weighted Average Contractual Term	Aggregate Intrinsic Value
Outstanding at April 29, 2006	2,906	\$ 21.99		
Granted	77	32.98		
Exercised	(210)	16.67		
Forfeited	(140)	22.69		
Outstanding at January 27, 2007	2,633	\$ 22.70	5.5	\$ 36,362
Exercisable at January 27, 2007	618	\$ 22.17	4.3	\$ 8,862

The weighted average fair value of options granted during the nine months ended January 27, 2007 was \$13.44. Related to stock options exercised during the nine months ended January 27, 2007, total intrinsic value was \$3.5 million, cash received was \$3.6 million and tax benefits realized were \$1.3 million. The Company settles stock option exercises with newly issued common shares.

Restricted Stock and Performance Unit Awards

Beginning in fiscal 2006, the Company issued restricted stock and performance unit awards under the Equity Incentive Plan. The grant date fair value is based on the closing stock price on the day of the grant. Restricted stock awards vest over a seven or nine-year period and are subject to forfeiture provisions. Certain restricted stock awards, which are held by line management, are subject to accelerated vesting provisions beginning three years after the grant date, based on certain operating goals. The performance unit awards, issued primarily to executive management, are earned at the end of a three-year period if certain operating goals are met, and are settled in an equivalent number of common shares or in cash as determined by the compensation committee of the board of directors. The satisfaction of operating goals will not be finally determined until the end of a three-year period. Accordingly, the Company recognizes expense related to performance unit awards over the requisite service period using the straight-line method based on the outcome that is probable.

Table of Contents

Through January 27, 2007, no restricted stock or performance unit awards have vested. The following tables summarize information concerning non-vested restricted stock awards and performance unit awards for the nine months ended January 27, 2007:

Restricted Stock Awards

	Shares	Weighted Average Grant-Date Fair Value
Outstanding at April 29, 2006	79	\$ 50.47
Granted	160	32.14
Forfeitures	(3)	49.12
Outstanding at January 27, 2007	236	\$ 38.04

Performance Unit Awards

	Shares	Weighted Average Grant-Date Fair Value
Outstanding at April 29, 2006	13	\$ 51.12
Granted	20	32.15

Employee Stock Purchase Plan

In June 1992, Company adopted an Employee Stock Purchase Plan (the "Stock Purchase Plan"). A total of 2,750,000 shares of common stock are reserved for issuance under the Stock Purchase Plan. The Stock Purchase Plan, which is intended to qualify under Section 423 of the Internal Revenue Code, is administered by the Board of Directors of the Company or by a committee appointed by the Board of Directors and follows a calendar plan year. Employees are eligible to participate after nine months of employment with the Company if they are employed for at least 20 hours per week and more than five months per year. The Stock Purchase Plan permits eligible employees to purchase common stock through payroll deductions, which may not exceed 10 percent of an employee's compensation, at 85 percent of the lower of the fair market value of the common stock on the offering date or at the end of each three-month period following the offering date during the applicable offering period. Employees may end their participation in the offering at any time during the offering period, and participation ends automatically on termination of employment with the Company. At January 27, 2007, there were 1,948,002 shares available for purchase under the Stock Purchase Plan.

Based on the provisions of the Stock Purchase Plan and guidance provided in FASB Technical Bulletin No. 97-1, *Accounting Under Statement 123 for Certain Employee Stock Purchase Plans with a Look-back Option* (FTB 97-1), there are several option elements which are estimated on the grant date using the Black-Scholes option-pricing model. The following table summarizes the weighted-average assumptions relating to the Stock Purchase Plan for the nine months ended January 27, 2007 and January 28, 2006:

January 27,	(pro forma)
2007	January 28,

		2006
Expected dividend yield		
Expected stock price volatility	28.0%	30.0%
Risk-free interest rate	4.3%	3.2%
Expected life of options (years)	0.5	0.5

Table of Contents*Capital Accumulation Plan*

In 1996, the Company adopted an employee Capital Accumulation Plan (the "CAP Plan"). A total of 6,000,000 shares of common stock are reserved for issuance under the CAP Plan. Key employees of the Company or its subsidiaries are eligible to participate by purchasing common stock through payroll deductions, which must be between 5% and 25% of an employee's compensation, at 75% of the price of the common stock at the beginning of or the end of the calendar year, whichever is lower. The shares issued are restricted stock and are held in the custody of the Company until the restrictions lapse. The restriction period is three years from the beginning of the plan year, but restricted shares are subject to forfeiture provisions. At January 27, 2007, 2,968,448 shares were available for purchase under the CAP Plan. In the third quarter of fiscal 2007, 252,417 shares of restricted stock were purchased related to the calendar 2006 plan year.

Based on the provisions of the CAP Plan and guidance provided in FASB Technical Bulletin No. 97-1, *Accounting Under Statement 123 for Certain Employee Stock Purchase Plans with a Look-back Option* ("FTB 97-1"), there are option elements which are estimated on the grant date using the Black-Scholes option-pricing model. The following table summarizes the weighted-average assumptions relating to the CAP Plan for the nine months ended January 27, 2007 and January 28, 2006:

	January 27, 2007	January 28, 2006
Expected dividend yield		
Expected stock price volatility	28.0%	31.4%
Risk-free interest rate	4.2%	3.2%
Expected life of options (years)	1.0	1.0

NOTE 4 DERIVATIVE FINANCIAL INSTRUMENTS

In fiscal 2004, the Company entered into a swap agreement in the notional amount of \$100 million that exchanged a floating interest rate payment obligation for a fixed rate payment obligation. The swap was designated as a cash flow hedging instrument. The contract was recorded at fair value on the balance sheet and all changes in fair value were deferred in accumulated other comprehensive income because the agreement was determined to be perfectly effective. This interest rate swap agreement terminated in November 2005.

Table of Contents

In the first quarter of fiscal 2006, the Company entered into certain offsetting and identical interest rate cap agreements. These cap agreements are not designated for hedge accounting treatment and were entered into to fulfill certain covenants of a sale agreement between a commercial paper conduit managed by JPMorgan Chase Bank, N.A. and PDC Funding. The cap agreements provide a credit enhancement feature for the installment contracts sold by PDC Funding to the commercial paper conduit, and replace a minimum interest rate margin previously required under the sale agreement.

PDC Funding purchased two interest rate caps from banks with combined amortizing notional amounts of \$400 million. At the same time, Patterson Companies, Inc. sold two identical interest rate caps to the same banks. In the fourth quarter of fiscal 2006, these caps were amended to adjust the notional amounts to a combined amortizing total of \$440 million. The estimated unrealized gain of the two purchased interest rate caps at both January 27, 2007 and January 28, 2006 were \$0.3 million. At each date, these amounts were completely offset by the estimated unrealized loss of the two sold interest rate caps of (\$0.3) million. Accordingly, the impact to consolidated earnings of the Company is zero.

In fiscal 2006, the Company entered into an interest rate swap agreement with a bank under which the Company pays a fixed rate and receives a floating rate based on an amortizing notional amount. This agreement does not qualify for hedge accounting treatment and, accordingly, the Company records the fair value (estimated unrealized gain or loss) of the agreement as an asset or liability and the change in any period as income or expense of the period in which the change occurs. As of January 27, 2007 this agreement had a notional amount of approximately \$22.5 million and an estimated unrealized gain of approximately \$0.1 million. The notional amount at January 28, 2006 was approximately \$45.0 million and there was a nominal estimated fair value. In the second quarter of fiscal 2007, the Company entered into a similar interest rate swap agreement that, as of January 27, 2007, had a notional amount of approximately \$75.0 million and an estimated unrealized loss of (\$0.4) million.

The total net unrealized gain (loss) recognized in the statement of income under these interest rate swaps during the three and nine months ended January 27, 2007 was \$0.6 million and (\$0.4) million, respectively. The impact to the statement of income for the three and nine months ended January 28, 2006 was nominal.

The Company does not use financial instruments or derivatives for any trading or other speculative purposes.

NOTE 5 ACQUISITIONS

During the first nine months of fiscal 2007, the Company completed three acquisitions of dealers/distributors of rehabilitation equipment and supplies. Dale Professional Surgical Supply Co., Inc. was acquired in June 2006 and both Theraquip, Inc. and Metro Medical, Inc. were acquired in December 2006.

In December 2005, the Company acquired Intra Corp (IntraVet), a developer of veterinary practice management software that is marketed under the IntraVet brand name. In September 2005, the Company acquired Accu-Bite, Inc., (Accu-Bite) a Michigan-based dental distributor.

Table of Contents

Each of the above acquisitions was an all-cash transaction. The operating results of these acquisitions are included in the Company's condensed consolidated statements of income from the date of acquisition. Pro forma results of operations have not been presented for these acquisitions since the effects of the acquisitions were not material to the Company either individually or in the aggregate.

NOTE 6 ESOP LOAN

On September 11, 2006, the Company entered into a loan agreement with the Patterson Companies, Inc. Employee Stock Ownership Plan Trust (the Trust) and loaned the Trust \$105 million for the sole purpose of enabling the Trust to purchase shares of the Company's common stock (the Securities) in the open market and pay any corresponding broker commissions.

The loan is payable in full on September 10, 2026. Interest on the unpaid principal balance accrues at a rate equal to six-month LIBOR, with the rate resetting semi-annually. Interest payments are not required during the period from and including September 11, 2006 through April 30, 2010. On April 30, 2010, any accrued and unpaid interest will be added to the outstanding principal balance under the note, with interest thereafter accruing on the increased principal amount. Unpaid interest accruing after April 30, 2010 is due and payable on April 30, 2011 and each successive April 30 occurring through September 10, 2026.

The Company also directed the trustee of the Trust to purchase the Securities in the open market through a broker/agent. The Company entered into an agreement (the Purchase Plan) with Banc of America Securities LLC (the Broker) whereby the Broker was engaged as the exclusive agent to purchase Securities on behalf of the Trust. The Purchase Plan is a trading plan that qualifies for the safe harbor provided by Rule 10b5-1 and Rule 10b-18 under the Securities Exchange Act of 1934, as amended (the Exchange Act). The Purchase Plan authorizes purchases of Securities on each trading day, as defined, equal to the lesser of (a) the Exchange Act Rule 10b-18(b)(4) limit and (b) certain guidelines based on the purchase price of the Securities as set forth in the Purchase Plan.

As of January 27, 2007, purchases under the Purchase Plan are complete and totaled approximately 3.1 million shares. This loan and related shares are being accounted for under SOP 93-6, *Employers Accounting for Stock Ownership Plans* and accordingly, unallocated shares held by the Trust are not considered outstanding in the computation of earnings per share. The Company anticipates the allocation of these shares to begin in fiscal 2012 over a period of approximately 10 to 15 years.

NOTE 7 SEGMENT REPORTING

Patterson Companies, Inc. is comprised of three reportable segments: dental, veterinary, and rehabilitation supply. The Company's reportable business segments are strategic business units that offer similar products and services to different customer bases. The dental supply segment provides a virtually complete range of consumable dental products, clinical and laboratory equipment and value-added services to dentists, dental laboratories, institutions and other dental healthcare providers throughout North America. The veterinary supply segment provides consumable supplies, equipment, diagnostic products, biologicals (vaccines) and pharmaceuticals to companion-pet veterinary clinics in the majority of regions throughout the United States. The rehabilitation supply segment provides a comprehensive range of distributed and self-manufactured rehabilitation medical supplies and non-wheelchair assistive products to acute care hospitals, long-term care facilities, rehabilitation clinics, dealers and schools.

Table of Contents

The accounting policies of the segments are the same as those described in the summary of significant accounting policies set forth in Note 1 to the consolidated financial statements included in the Company's 2006 Annual Report on Form 10-K filed July 13, 2006. The Company evaluates segment performance based on operating income. The corporate office general and administrative expenses are included in the dental supply segment and consist of home office support costs in areas such as informational technology, marketing, purchasing, finance, human resources and facilities. The operating income amounts in the table below for the three and nine months ended January 27, 2007, respectively, include the following stock-based compensation expense under SFAS No. 123(R) for each segment: dental supply: \$1,411 and \$4,583; rehabilitation supply: \$229 and \$721; veterinary supply: \$176 and \$577. There was no corresponding expense recorded in the three and nine months ended January 28, 2006, since SFAS No. 123(R) was adopted at the beginning of the current fiscal year and prior year amounts were not restated.

The following table presents information about the Company's reportable segments:

	Three Months Ended		Nine Months Ended	
	January 27, 2007	January 28, 2006	January 27, 2007	January 28, 2006
Net sales				
Dental supply	\$ 537,148	\$ 531,884	\$ 1,522,058	\$ 1,444,020
Rehabilitation supply	78,083	69,755	247,458	227,105
Veterinary supply	94,263	80,763	289,739	248,821
Consolidated net sales	\$ 709,494	\$ 682,402	\$ 2,059,255	\$ 1,919,946
Operating income

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

OVERVIEW

This Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) should be read in conjunction with the MD&A included in our 2006 Annual Report on Form 10-K filed July 13, 2006, for important background information regarding, among other things, an overview of the markets in which we operate and our business strategies.

RESULTS OF OPERATIONS

The following table sets forth, for the periods indicated, the percentage of net sales represented by certain operational data.

	Three Months Ended Nine		Months Ended	
	January 27, 2007	January 28, 2006	January 27, 2007	January 28, 2006
Net sales	100.0%	100.0%	100.0%	100.0%
Cost of sales	64.7%	64.7%	65.6%	65.2%
Gross margin	35.3%	35.3%	34.4%	34.8%
Operating expenses	22.2%	22.3%	22.8%	22.7%
Operating income	13.1%	13.0%	11.6%	12.1%
Other (expense) income, net	(0.3)%	(0.3)%	(0.3)%	(0.3)%
Income before income taxes	12.8%	12.7%	11.3%	11.8%
Net income	8.3%	7.9%	7.2%	7.4%

QUARTER ENDED JANUARY 27, 2007 COMPARED TO QUARTER ENDED JANUARY 28, 2006.

Net Sales. Net sales for the three months ended January 27, 2007 (Current Quarter) totaled \$709.5 million, a 4.0% increase from \$682.4 million reported for the three months ended January 28, 2006 (Prior Quarter).

The May 2006 closing of Accu-Bite's telemarketing operations reduced Current Quarter sales growth by approximately two percentage points. A similar impact is expected in the fourth quarter of fiscal 2007. Acquisitions and foreign currency translation contributed approximately 1% to Current Quarter sales growth.

Dental segment sales increased 1.0% to \$537.1 million in the Current Quarter from \$531.9 million in the Prior Quarter. Sales of consumable dental supplies and printed office products grew 3.5%. The closing of the Accu-Bite telemarketing operations reduced this growth by approximately 3.7 percentage points (7.2% on a comparable basis).

Dental equipment and software sales declined 4.6%, including lower sales of basic equipment and CEREC 3D® dental restorative systems. Digital radiography equipment

Table of Contents

sales growth partially offset the decline in basic equipment and CEREC. Sales of other services and products, including technical service parts and labor, software support services and artificial teeth, rose 12.7%.

Late in the Current Quarter, the manufacturer of the CEREC product announced two enhancements; an improved software and a faster, more robust milling chamber. These changes to the CEREC may cause sales levels in the fourth quarter of the current fiscal year to be less than those achieved in the fourth quarter of the prior year. The transitional disruptions from introducing the market to these improvements in the product are expected to be most pronounced in the early portion of the quarter, but then should dissipate by the latter part of the quarter.

Veterinary sales increased 16.7% from \$80.8 million in the Prior Quarter to \$94.3 million in the Current Quarter. This growth includes a contribution of 1.6% from the Intra Corp acquisition in December 2005. During the Current Quarter, the veterinary unit changed manufacturers for certain lines of products it carries under agency agreements. This change did not have a significant impact on the unit's Current Quarter revenues as most of the affected product lines generate agency commissions as opposed to distributed product sales and the change occurred late in the quarter. The impact of this change is not expected to have a material impact on the fourth quarter performance of the segment but some adverse result could occur relative to the rates of growth the segment has experienced in the current fiscal year.

The rehabilitation unit reported sales of \$78.1 million in the Current Quarter, reflecting sales growth of 11.9% from \$69.8 million of Prior Quarter sales. Excluding three acquisitions in fiscal 2007, foreign currency translation and the divestiture of a small division in February 2006, sales growth was approximately 8%.

Gross Margins. Consolidated gross margin was 35.3% in both the Current Quarter and the Prior Quarter.

The dental unit's gross margin improved 60 basis points from the Prior Quarter. Factors leading to the improvement included improved point of sale margins, better freight management, and the elimination of the impact of Accu-Bite's low-margin telemarketing operation.

Gross margin of the veterinary supply business declined 40 basis points due principally to lower vendor rebates and to lower agency commissions resulting from the manufacturer change discussed above.

Patterson Medical's gross margin declined approximately 250 basis points from the Prior Quarter. A factor in this decline is that the business has hired a number of new sales representatives who have been given some short-term latitude to establish their book of business through discretionary discounting. This latitude will be phased out as these new representatives reach their sales targets. In addition, this segment has fixed price contracts with certain large group customers and price increases from vendors have created some margin compression in this customer group. These contracts are renewed periodically, at which time pricing is expected to be renegotiated to address changes in vendor pricing.

Table of Contents

Operating Expenses. In the Current Quarter, consolidated operating expenses, as a percent of sales, were 22.2%, which includes \$1.8 million or a 25 basis point negative impact from share-based compensation expense under SFAS No. 123(R). Prior Quarter operating expenses were 22.3% of sales.

Excluding share-based compensation expense under SFAS No. 123(R), each segment improved their operating expense ratio in the Current Quarter. Improved management of controllable spending, most notably at the dental unit, was largely responsible for the reduced operating expense ratios. In addition, the Company is realizing leverage from various shared services initiatives implemented throughout the organization in areas such as distribution, information systems and other back-room functions.

The improvement in the operating expense ratio occurred despite numerous investments in people and infrastructure in the past twelve to eighteen months, including several large capital projects in fiscal 2006, an expansion of the sales force at the rehabilitation unit and the greenfield expansion into California by the veterinary unit.

Operating Income. Consolidated operating income was \$92.7 million, or 13.1% of net sales in the Current Quarter, which includes \$1.8 million of expense under SFAS No. 123(R). The operating income ratio in the Prior Quarter was 13.0%. Share-based compensation expense under SFAS No. 123(R) negatively impacted the operating income ratio by 25 basis points.

Other Expense, Net. Net other expense was \$1.7 million for the Current Quarter, down from \$2.3 million in the Prior Quarter. Interest income was \$0.8 million higher in the Current Quarter due to higher interest rates and an increase in the level of financing contracts held.

Income Taxes. The effective income tax rate for the Current Quarter was 35.6%, down from 37.4% in the Prior Quarter. Several years of Canadian income tax returns were favorably settled during the quarter and resulted in the need to reverse tax reserves that had been provided in prior years related to these returns that were not needed.

Earnings Per Share. Earnings increased 8.5% to \$58.6 million and were reduced in the Current Quarter by \$1.5 million of after-tax expense related to SFAS No. 123(R), when compared to the Prior Quarter. Current Quarter diluted earnings per share was \$0.43 compared to \$0.39 in the Prior Quarter.

NINE MONTHS ENDED JANUARY 27, 2007 COMPARED TO NINE MONTHS ENDED JANUARY 28, 2006.

Net Sales. Net sales for the nine months ended January 27, 2007 (Current Period) were \$2,059.3 million, an increase of 7.3% from \$1,919.9 million reported for the nine months ended January 28, 2006 (Prior Period). Favorable foreign currency translation contributed 0.5% to sales growth. The favorable impact of acquisitions on sales growth was negated by the impact of the closing of the Accu-Bite telesales business and divestiture of a small manufacturing division of Patterson Medical.

Table of Contents

Dental segment sales of \$1,522.1 million in the Current Period represent an increase of 5.4% from \$1,444.0 million the Prior Period. Sales of consumables and printed office products (Consumables) were \$852.5 million, or 7.0% higher than \$797.0 million in the Prior Period. Sales of equipment and software grew 0.9%, as sales of basic equipment and software, including digital radiography installations, offset lower sales of CEREC dental restorative systems. Other sales, including technical service parts and labor, software support services and artificial teeth, increased 14.2% in the Current Period.

Veterinary segment sales were \$289.7 million in the Current Period, which is an increase of 16.4% from \$248.8 million in the Prior Period. Growth occurred throughout core consumable product lines, but was led by a 73.8% increase in equipment and software.

The rehabilitation business unit reported Current Period sales of \$247.5 million, which is 9.0% higher than Prior Period sales of \$227.1 million.

Gross Margins. Current Period consolidated gross margin was 34.4% as compared to the Prior Period margin of 34.8%.

Gross margin at the dental unit increased 10 basis points in the Current Period, due to improved point of sale margins, better freight management, and the closing of the low-margin Accu-Bite telesales business. These improvements were partially offset by decreased sales of the higher-margin CEREC systems as well as a 2.9% financing promotion on the CEREC product offered during the Current Period.

The Veterinary supply business experienced an increase in its gross margin of 20 basis points resulting from the contribution of its equipment and software product sales. Although the veterinary unit's gross margin improved, this business produces a lower gross margin than the dental and rehabilitation segments. Due to the veterinary unit's sales growth, which has been higher than that of the dental and rehabilitation units, the consolidated gross margin has been somewhat diluted in the Current Period.

Patterson Medical's gross margin declined approximately 270 basis points in the Current Period due to several factors including product mix, the impact of the growth initiatives of this business unit, such as the hiring of new sales representatives who have the short-term latitude to discount pricing and the impact of fixed-priced contracts as discussed above.

Operating Expenses. In the Current Period, the consolidated operating expense ratio was 22.8%, which is an increase of 10 basis points from 22.7% in the Prior Period. Excluding the impact of share-based compensation expense under SFAS No. 123(R), the Current Period ratio would have improved by approximately 20 basis points compared to the Prior Period.

Operating expense improvement occurred due to management of controllable spending and leverage from various shared services initiatives implemented throughout the organization in areas such as distribution, information systems and other back-room functions.

Table of Contents

Partially offsetting this improvement were numerous investments in people and infrastructure, including the expansion of the sales force at the rehabilitation unit and the greenfield expansion into California by the veterinary unit. In addition, during fiscal 2006 there were several large capital projects that were completed that have been operational throughout the Current Period, resulting in higher depreciation expense. As these investments are absorbed into the infrastructure, the Company is expecting improving efficiencies.

Operating Income. Operating income was \$239.2 million, or 11.6% of net sales in the Current Period, compared to \$230.9 million, or 12.1% of net sales in the Prior Period. The decrease in the operating profit rate is due to the degradation in gross margin and a 10 basis point increase in the operating expense ratio as discussed above. Current Period operating income includes a negative 30 basis point impact from share-based compensation expense under SFAS No. 123(R).

Other Expense, Net. Net other expense increased from \$4.7 million in the Prior Period to \$5.0 million in the Current Period. This increase results from the combination of two factors. First, interest expense was \$11.0 million in the Current Period, up from \$9.7 million in the Prior Period, despite lower levels of debt carried in the Current Period. The Company had effectively been paying a fixed rate of interest on \$100 million of variable rate debt under an interest rate swap agreement in the Prior Period, however that agreement expired in November 2005 and the Company has been paying a substantially higher variable rate on the \$100 million, which remains outstanding. The increase in interest expense was largely offset by an increase of \$1.9 million in interest income related to higher interest rates earned on invested cash balances and a higher balance of financing contracts held by the Company.

Income Taxes. The effective income tax rate for the Current Period was 36.6%, down slightly from 37.4% in the Prior Period due principally to several years of Canadian income tax returns which were favorably settled during the quarter and resulted in the need to reverse tax reserves that had been provided in prior years related to these returns that were not needed.

Earnings Per Share. Net income increased 4.8% to \$148.4 million from \$141.6 million in the Prior Period. Earnings per diluted share was \$1.07 in the Current Period and was reduce by approximately \$0.04 due to after-tax expense under SFAS No. 123(R). Prior Period earnings per diluted share was \$1.02.

LIQUIDITY AND CAPITAL RESOURCES

For the nine months ended January 27, 2007 (Current Period), the Company generated \$116.9 million of cash from operations on earnings of \$148.4 million, compared to \$115.8 million on earnings of \$141.6 million in the nine months ended January 28, 2006 (Prior Period). Impacting cash flows in the Current Period was an increase in long-term receivables, which is due primarily to a low-interest financing promotion on the CEREC product line. The Company generally sells financing contracts to a bank under one of two

Table of Contents

funding agreements; however, none of these low-interest contracts have been sold to-date. The Company is exploring the possibility of liquidating these contracts with one of its financing sources, which may occur during the fourth quarter of fiscal 2007. As of January 27, 2007, the Company held approximately \$55 million of these contracts.

Net cash used in investing activities in the Current Period was \$18.2 million compared to \$164.6 million in the Prior Period. The Prior Period included the payment of a \$100 million distribution fee for a 10-year extension of the Company's exclusive North American distribution agreement of Sirona's CEREC equipment, the Accu-Bite acquisition and various capital projects.

Net cash used in financing activities was \$169.1 million in the Current Period compared to \$1.4 million of net cash provided by financing activities in the Prior Period. Current Period uses of cash include a \$105 million loan from the Company to its Employee Stock Ownership Program in September 2006, and \$85 million of principal payments on debt, including \$70 million of fixed-rate debt in November 2006.

A \$200 million revolving credit facility is available until November 2008. No amounts are currently outstanding under the revolving credit facility.

The Company expects funds generated by operations, existing cash balances and availability under existing debt facilities will be sufficient to meet the Company's working capital needs and finance anticipated expansion plans and strategic initiatives over the next twelve months.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Effective April 30, 2006 (the first day of current fiscal year), the Company adopted SFAS 123R. SFAS 123R is a revision of Statement No. 123, *Accounting for Stock-Based Compensation* (SFAS 123), and supersedes Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees*, and its related implementation guidance. SFAS 123R eliminates the ability to account for share-based compensation transactions using the intrinsic value method under APB Opinion No. 25 and requires the Company to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award.

Except for the adoption of SFAS 123R, there has been no material change in the Company's Critical Accounting Policies and Estimates, as disclosed in its 2006 Annual Report on Form 10-K filed July 13, 2006.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109* (FIN 48). FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also

Table of Contents

provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. FIN 48 is effective at the beginning of our fiscal year 2008. We are currently evaluating the impact of FIN 48 on our results of operations and financial position.

In September 2006, the SEC staff published Staff Accounting Bulletin (SAB) No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements*. SAB No. 108 requires analysis of misstatements using both an income statement (rollover) approach and a balance sheet (iron curtain) approach in assessing materiality and provides for a one-time cumulative effect transition adjustment. SAB No. 108 is effective for our current fiscal year ending April 28, 2007. We are currently evaluating the impact of SAB No. 108 on our results of operations and financial position.

In September 2006, FASB issued Statement of Accounting Standards (SFAS) No. 157 *Fair Value Measurement*. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS No. 157 is effective at the beginning of our fiscal year 2009. We are currently evaluating the impact of SFAS No. 157 on our results of operations and financial position.

In February 2007, FASB issued SFAS No. 159 *The Fair Value Option for Financial Assets and Liabilities*. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. SFAS No. 159 is effective at the beginning our fiscal year 2009. We are currently evaluating the impact of SFAS No. 159 on our results of operations and financial position.

FACTORS THAT MAY AFFECT FUTURE OPERATING RESULTS

Certain information of a non-historical nature contains forward-looking statements. Words such as believes, expects, plans, estimates, intends and variations of such words are intended to identify such forward-looking statements. The statements are not guaranties of future performance and are subject to certain risks, uncertainties or assumptions that are difficult to predict; therefore, the Company cautions shareholders and prospective investors that the following important factors, among others, could cause the Company s actual operating results to differ materially from those expressed in any forward-looking statements. The statements under this caption are intended to serve as cautionary statements within the meaning of the Private Securities Litigation Reform Act of 1995. The following information is not intended to limit in any way the characterization of other statements or information under other captions as cautionary statements for such purpose. The order in which such factors appear below should not be construed to indicate their relative importance or priority. The Company assumes no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.

The Company s ability to meet increased competition from national, regional and local full-service distributors and mail-order distributors of dental, veterinary and rehabilitation and assistive living products, while maintaining current or improved profit margins.

The ability of the Company to retain its base of customers and to increase its market share.

Table of Contents

The ability of the Company to maintain satisfactory relationships with qualified and motivated sales personnel.

The continued ability of the Company to maintain satisfactory relationships with key vendors and the ability of the Company to create relationships with additional manufacturers of quality, innovative products.

Changes in the economics of dentistry affecting dental practice growth and the demand for dental products, including the ability and willingness of dentists to invest in high-technology diagnostic and therapeutic products.

Reduced growth in expenditures for dental services by private dental insurance plans.

The accuracy of the Company's assumptions concerning future per capita expenditures for dental services, including assumptions as to population growth and the demand for preventive dental services such as periodontic, endodontic and orthodontic procedures.

The rate of growth in demand for infection control products currently used for prevention of the spread of communicable diseases such as AIDS, hepatitis and herpes.

Changes in the economics of the veterinary supply market, including reduced growth in per capita expenditures for veterinary services and reduced growth in the number of households owning pets.

The effects of healthcare related legislation and regulation, which may affect expenditures or reimbursements for rehabilitation and assistive products.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes since April 29, 2006 in the Company's market risk. The weighted-average interest rate on the Company's debt for the Current Period was approximately 5.5%. In late November 2006, the Company paid \$70 million of maturing debt, which had a fixed rate of 3.14%. The Company expects the average interest rate on debt to be approximately 5.7% in the fourth quarter of fiscal 2007. For further information on market risk, refer to Item 7A in the Company's 2006 Annual Report on Form 10-K filed July 13, 2006.

ITEM 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of the Company's management, including the Company's President and Chief Executive Officer (CEO) and its Chief Financial Officer (CFO), management evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) as of January 27, 2007. Based upon their evaluation of these disclosure controls and procedures, the CEO and CFO concluded that the disclosure controls and procedures were effective as of January 27, 2007.

Table of Contents

There were no changes in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) or 15d-15(f) under the Exchange Act) that occurred during the quarter ended January 27, 2007 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

There have been no material changes in legal proceedings as compared to the information disclosed in the 2006 Annual Report on Form 10-K filed July 13, 2006 within Part I, Item 3 and within Note 13 to the consolidated financial statements.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

- (c) In September 2004, the Company's Board of Directors approved a stock repurchase program under which the Company may repurchase up to six million shares of common stock in open market transactions. The Company did not repurchase any shares under the program during the quarter ended January 27, 2007 and has not made any repurchases since the program's approval in September 2004. As of January 27, 2007, the Company had authority to repurchase six million shares under that program. The repurchase authorization expires on September 30, 2009.

ITEM 4. EXHIBITS

The exhibits listed in the accompanying exhibit index are filed as part of this Quarterly Report on Form 10-Q.

All other items under Part II have been omitted because they are inapplicable or the answers are negative, or were previously reported in the 2006 Annual Report on Form 10-K filed July 13, 2006.
