PROXY STATEMENT
FOR
2008 ANNUAL MEETING OF STOCKHOLDERS
TO BE HELD ON JUNE 5, 2008

The board of directors of Thermage, Inc., a Delaware corporation, is soliciting the enclosed proxy from you. The proxy will be used at our 2008 Annual Meeting of Stockholders to be held on Thursday, June 5, 2008, beginning at 9:00 a.m., local time, at our principal executive offices located at 25881 Industrial Boulevard, Hayward, California 94545, and at any postponements or adjournments thereof. This proxy statement contains important information regarding the meeting. Specifically, it identifies the matters upon which you are being asked to vote, provides information that you may find useful in determining how to vote and describes the voting procedures.

In this proxy statement: the terms *we*, *our*, *Thermage* and our *Company* each refer to Thermage, Inc.; the term *proxy materials* means this proxy statement, the enclosed proxy card and our Annual Report, which you should read together with our Form 10-K for the year ended December 31, 2007, filed with the U.S. Securities and Exchange Commission on March 14, 2008; and the term *Annual Meeting* means our 2008 Annual Meeting of Stockholders.

We are sending these proxy materials on or about May 2, 2008, to all stockholders of record at the close of business on April 18, 2008 (the *Record Date*).

QUESTIONS AND ANSWERS REGARDING THIS SOLICITATION
AND VOTING AT THE ANNUAL MEETING

Why am I receiving these proxy materials?

You are receiving these proxy materials from us because you were a stockholder of record at the close of business on the Record Date which was April 18, 2008. As a stockholder of record, you are invited to attend the meeting and are entitled to and requested to vote on the items of business described in this proxy statement.

What is the purpose of the annual meeting?

At our meeting, stockholders of record will vote upon the items of business outlined in the notice of meeting (on the cover page of this proxy statement), each of which is described more fully in this proxy statement. In addition, management will report on our performance and respond to questions from stockholders.

Who is entitled to attend the meeting?

You are entitled to attend the meeting *only* if you were a Thermage stockholder (or joint holder) of record as of the close of business on April 18, 2008, or if you hold a valid proxy for the meeting. You should be prepared to present photo identification for admittance.

Please also note that if you are not a stockholder of record but hold shares in *street name* (that is, through a broker or nominee), you will need to provide proof of beneficial ownership as of the Record Date, such as your most recent brokerage account statement, a copy of the voting instruction card provided by your broker, trustee or nominee, or other similar evidence of ownership.

The meeting will begin promptly at 9:00 a.m., local time. Check-in will begin at 8:30 a.m., local time.

Table of Contents

Who is entitled to vote at the meeting?

Only stockholders who owned our common stock at the close of business on the Record Date are entitled to notice of the Annual Meeting and to vote at the meeting, and at any postponements or adjournments thereof.

How many shares must be present to conduct business?

The presence at the meeting, in person or by proxy, of the holders of a majority of the shares of our common stock at the close of business on the Record Date will constitute a quorum. A quorum is required to conduct business at the meeting. Both abstentions and broker non-votes are counted for the purpose of determining the presence of a quorum.

What will be voted on at the meeting?

The items of business scheduled to be voted on at the meeting are as follows:

1. the election of one nominee to serve as a Class II director on our board; and
2. the ratification of the appointment of our independent registered public accounting firm for the 2008 fiscal year.

These proposals are described more fully below in this proxy statement. As of the date of this proxy statement, the only business that our board intends to present or knows of that others will present at the meeting is set forth in this proxy statement. If any other matter or matters are properly brought before the meeting, it is the intention of the persons who hold proxies to vote the shares they represent in accordance with their best judgment.

How does the board recommend that I vote?

Our board recommends that you vote your shares **FOR** the director nominee and **FOR** the ratification of independent registered public accounting firm for the 2008 fiscal year.

What shares can I vote at the meeting?

You may vote all shares owned by you as of the Record Date, including (1) shares held directly in your name as the *stockholder of record*, and (2) shares held for you as the *beneficial owner* through a broker, trustee or other nominee such as a bank.

What is the difference between holding shares as a stockholder of record and as a beneficial owner?

Most of our stockholders hold their shares through a broker or other nominee rather than directly in their own name. As summarized below, there are some distinctions between shares held of record and those owned beneficially.

Stockholders of Record. If your shares are registered directly in your name with our transfer agent, American Stock Transfer & Trust Company, you are considered, with respect to those shares, the *stockholder of record*, and these proxy materials are being sent directly to you by us. As the *stockholder of record*, you have the right to grant your voting proxy directly to Thermage or to vote in person at the meeting. We have enclosed a proxy card for you to use.

Beneficial Owner. If your shares are held in a brokerage account or by another nominee, you are considered the *beneficial owner* of shares held in *street name*, and these proxy materials are being forwarded to you together with a voting instruction card. As the beneficial owner, you have the right to direct your broker, trustee or nominee how to vote and are also invited to attend the meeting. Please note that since a beneficial owner is not the *stockholder of record*, you may not vote these shares in person at the meeting unless you obtain a legal proxy from the broker, trustee or nominee that holds your shares, giving you the right to vote the shares at the meeting. Your broker, trustee or nominee has enclosed or provided voting instructions for you to use in directing the broker, trustee or nominee how to vote your shares.

Table of Contents

How can I vote my shares without attending the meeting?

Whether you hold shares directly as the stockholder of record or beneficially in street name, you may direct how your shares are voted without attending the meeting. Stockholders of record of our common stock may submit proxies by completing, signing and dating their proxy cards and mailing them in the accompanying pre-addressed envelope. Thermage stockholders who hold shares beneficially in street name may vote by mail by completing, signing and dating the voting instruction cards provided by the broker, trustee or nominee and mailing them in the accompanying pre-addressed envelope. In addition, if you are a stockholder of record, you may grant a proxy to vote your shares at the annual meeting by telephone, by calling 1 (800) PROXIES (1 (800) 776-9437) and following the simple recorded instructions, twenty-four hours a day, seven days a week, at any time prior to 11:59 p.m. on June 4, 2008, the day before the annual meeting. Alternatively, as a stockholder of record, you may vote via the Internet at any time prior to 11:59 p.m. on June 4, 2008, the day before the annual meeting, by going to <http://www.voteproxy.com> to create an electronic ballot. If you vote by telephone or the Internet, you will be required to provide the control number contained on your proxy card. If your shares are held in street name, your proxy card may contain instructions from your broker, bank or nominee that allow you to vote your shares using the Internet or by telephone. Please consult with your broker, bank or nominee if you have any questions regarding the electronic voting of shares held in street name. The granting of proxies electronically is allowed by Section 212(c)(2) of the Delaware General Corporation Law.

How can I vote my shares in person at the meeting?

Shares held in your name as the stockholder of record may be voted in person at the meeting. Shares held beneficially in street name may be voted in person only if you obtain a legal proxy from the broker, trustee or nominee that holds your shares giving you the right to vote the shares. ***Even if you plan to attend the meeting, we recommend that you also submit your proxy card or voting instructions as described above so that your vote will be counted if you later decide not to, or are unable to, attend the meeting.***

Can I change my vote?

You may change your vote at any time prior to the vote at the meeting. If you are the stockholder of record, you may change your vote by granting a new proxy bearing a later date (which automatically revokes the earlier proxy), by providing a written notice of revocation to our Secretary prior to your shares being voted, or by attending the meeting and voting in person. Attendance at the meeting will not cause your previously granted proxy to be revoked unless you specifically so request.

For shares you hold beneficially in street name, you may change your vote by submitting new voting instructions to your broker, trustee or nominee, or, if you have obtained a legal proxy from your broker, trustee or nominee giving you the right to vote your shares, by attending the meeting and voting in person.

Is my vote confidential?

Proxy instructions, ballots and voting tabulations that identify individual stockholders are handled in a manner that protects your voting privacy. Your vote will not be disclosed either within Thermage or to third parties, except: (1) as necessary to meet applicable legal requirements, (2) to allow for the tabulation of votes and certification of the vote, and (3) to facilitate a successful proxy solicitation. Occasionally, stockholders provide written comments on their proxy card, which are then forwarded to our management.

Table of Contents

How are votes counted?

The vote required to approve each item of business and the method for counting votes is set forth below:

Election of Directors. The director nominee receiving the highest number of affirmative **FOR** votes at the meeting (a plurality of votes cast) will be elected to serve as Class II director. You may vote either **FOR** or **WITHHOLD** your vote for the director nominee. A properly executed proxy marked **WITHHOLD** with respect to the election of a director will not be voted with respect to the director, although it will be counted for purposes of determining whether there is a quorum.

Ratification of Independent Registered Public Accounting Firm. For the ratification of the appointment of our independent registered public accounting firm, the affirmative **FOR** vote of a majority of the shares represented in person or by proxy and entitled to vote on the item will be required for approval. You may vote **FOR**, **AGAINST** or **ABSTAIN** for this item of business. If you choose to **ABSTAIN**, your abstention has the same effect as a vote **AGAINST**.

If you provide specific written instructions with regard to certain items, your shares will be voted as you instruct on such items. If you sign your proxy card or voting instruction card without giving specific instructions, your shares will be voted in accordance with the recommendations of the board (**FOR** our nominee to the board and **FOR** ratification of the independent registered public accounting firm, and in the discretion of the proxy holders on any other matters that properly come before the meeting).

What is a broker non-vote ?

Under the rules that govern brokers who have record ownership of shares that are held in street name for their clients, who are the beneficial owners of the shares, brokers have the discretion to vote such shares on routine matters. The election of directors and the ratification of the appointment of independent registered public accounting firm are considered routine matters. Therefore, if you do not otherwise instruct your broker, the broker may turn in a proxy card voting your shares **FOR** our nominees to the board and **FOR** ratification of the independent registered public accounting firm. A *broker non-vote* occurs when a broker expressly instructs on a proxy card that it is not voting on a matter, whether routine or non-routine.

How are broker non-votes counted?

Broker non-votes will be counted for the purpose of determining the presence or absence of a quorum for the transaction of business, but they will not be counted in tabulating the voting result for any particular proposal.

How are abstentions counted?

If you return a proxy card that indicates an abstention from voting on all matters, the shares represented will be counted for the purpose of determining both the presence of a quorum and the total number of votes cast with respect to a proposal (other than the election of the director), but they will not be voted on any matter at the meeting. In the absence of controlling precedent to the contrary, we intend to treat abstentions in this manner. Accordingly, abstentions will have the same effect as a vote **AGAINST** a proposal.

What happens if additional matters are presented at the meeting?

Other than the two proposals described in this proxy statement, we are not aware of any other business to be acted upon at the meeting. If you grant a proxy, the persons named as proxy holders, Stephen J. Fanning (a Director and our President and Chief Executive Officer) and John F. Glenn (our Chief Financial Officer), will have the discretion to vote your shares on any additional matters properly presented for a vote at the meeting. If, for any unforeseen reason, the nominee for director is not available as a candidate, the persons named as proxy holders will vote your proxy for such other candidate as may be nominated by our board.

Table of Contents

Who will serve as inspector of election?

We expect a representative of American Stock Transfer & Trust Company, our transfer agent, to tabulate the votes and act as inspector of election at the meeting.

What should I do if I receive more than one proxy?

You may receive more than one set of these proxy solicitation materials, including multiple copies of this proxy statement and multiple proxy cards or voting instruction cards. For example, if you hold your shares in more than one brokerage account, you may receive a separate voting instruction card for each brokerage account in which you hold shares. In addition, if you are a stockholder of record and your shares are registered in more than one name, you may receive more than one proxy card. Please complete, sign, date and return each Thermage proxy card and voting instruction card that you receive to ensure that all your shares are voted.

Who is soliciting my vote and who is paying the costs?

Your vote is being solicited on behalf of the board, and we will pay the costs associated with the solicitation of proxies, including preparation, assembly, printing and mailing of this proxy statement.

How can I find out the results of the voting?

We intend to announce preliminary voting results at the meeting and publish final results in our quarterly report on Form 10-Q for the second quarter of fiscal 2008.

What is the deadline for proposing action or director candidates?

As a stockholder, you may be entitled to present proposals for action at a future meeting of stockholders, including director nominations.

Stockholder Proposals: For a stockholder proposal to be considered for inclusion in the Thermage proxy statement for the annual meeting to be held in 2009, the written proposal must be received by our Corporate Secretary at our principal executive offices no later than January 28, 2009. STOCK OWNERSHIP

Security Ownership of Certain Beneficial Owners and Management

The following table provides information relating to the beneficial ownership of our common stock as of April 1, 2008, except where otherwise noted, by:

each stockholder known by us to own beneficially more than 5% of our common stock;

each of our executive officers named in the summary compensation table on page 23 (our Chief Executive Officer, our Chief Financial Officer and our three other most highly compensated executive officers);

each of our current directors and director nominee; and

all of our directors and executive officers as a group.

The number of shares beneficially owned by each entity, person, director or executive officer is determined in accordance with the rules of the SEC, and the information is not necessarily indicative of beneficial ownership for any other purpose. Under such rules, beneficial ownership includes any shares over which the individual has the sole voting power, shared voting power, or investment power and includes any shares that the individual has the right to acquire within 60 days of April 1, 2008 through the exercise of any stock option or other right. The number and percentage of shares beneficially owned is computed on the basis of 23,705,617 shares of our common stock outstanding as of April 1, 2008. The information in the following table regarding the beneficial owners of more than 5% of our common stock is based upon information supplied by our principal stockholders or Schedules 13D and 13G filed with the SEC.

Shares of our common stock that a person has the right to acquire within 60 days of April 1, 2008 are deemed outstanding for purposes of computing the percentage ownership of the person holding such rights, but are not deemed outstanding for purposes of computing the percentage ownership of any other person, except with respect to the percentage ownership of all directors and executive officers as a group. To our knowledge, except as set forth in the footnotes to this table and subject to applicable community property laws, each person or entity named in the table has sole voting and dispositive power with respect to the shares set forth opposite such person's or entity's name. The address for those persons for whom an address is not otherwise provided is c/o Thermage, Inc., 25881 Industrial Boulevard, Hayward, California 94545.

Consideration of Director Nominees

Stockholder Nominations and Recommendations. As described above in the Question and Answer section of this proxy statement under "What is the deadline to propose actions for consideration at next year's annual meeting of stockholders or to nominate individuals to serve as directors?", our Bylaws set forth the procedure for the proper submission of stockholder nominations for membership on our board. In addition, the Nominating and Governance Committee may consider properly submitted stockholder recommendations (as opposed to formal nominations) of director candidates. A stockholder may recommend a candidate for the board of directors by submitting the following information to our Secretary at 25881 Industrial Boulevard, Hayward, California 94545: the candidate's name, home and business contact information, detailed biographical data, relevant qualifications, professional and personal references and information regarding any relationships between the candidate and Thermage within the last three years. Director Qualifications. Members of the board should have the highest professional and personal ethics and values, and conduct themselves in a manner consistent with our Code of Business Conduct and Ethics. The

-12-

Table of Contents

Committee has not established specific minimum qualifications for director candidates, however, it believes that the board of directors should be comprised of directors who (i) are predominantly independent, (ii) are of high integrity, (iii) have qualifications that will increase overall board effectiveness, and (iv) meet other criteria as may be required by applicable rules, such as financial literacy or financial expertise with respect to audit committee members.

Identifying and Evaluating Director Nominees. Typically new candidates for nomination to our board are suggested by existing directors or by our executive officers. Candidates may also come to the attention of our board through professional search firms, stockholders or other persons. The Committee will carefully review the qualifications of any candidates who have been properly brought to its attention. Such review may, in the Committee's discretion, include a review solely of information provided to the Committee or may also include discussions with persons familiar with the candidate, an interview with the candidate or other actions that the Committee deems proper. The Committee will consider the suitability of each candidate, including the current members of the board, in light of the current size and composition of the board. In evaluating the qualifications of the candidates, the Committee considers many factors, including, issues of character, judgment, independence, age, expertise, diversity of experience, length of service, other commitments and the like. The Committee evaluates such factors, among others, and does not assign any particular weighting or priority to any of these factors. Candidates properly recommended by stockholders will be evaluated by the independent directors using the same criteria as other candidates.

Director Nominee at our 2008 Annual Meeting. Our Nominating and Governance Committee recommended Edward W. Knowlton, M.D. for nomination to our board.

The Code satisfies SEC rules for a code of ethics required by Section 406 of the Sarbanes-Oxley Act of 2002, as well as the Nasdaq listing standards requirement for a code of conduct. The Code is available on our website at <http://www.thermage.com> under Investor Relations Corporate Governance. We will post any amendment to the Code, as well as any waivers that are required to be disclosed by the rules of the SEC or the Nasdaq, on our website.

COMPENSATION DISCUSSION AND ANALYSIS

Overview

The primary objectives of our compensation programs are to:

- attract and retain the top echelon of performers;
- establish a direct link between sustained performance and individual rewards;
- create long-term value; and
- provide ownership opportunity to all employees.

We seek to foster a performance-oriented culture, where individual performance is aligned with organizational objectives. Company performance is the primary measure of success upon which we structure our compensation. We evaluate and reward our executive officers based on their contribution to the achievement of short and longer term goals. Individual and departmental performance is factored into salary increase decisions and stock option (long term incentive) awards.

Executive compensation is reviewed annually, and adjustments are made to reflect performance-based factors, as well as competitive conditions.

Role of Our Compensation Committee

The Compensation Committee, together with our board, establishes compensation for our Chief Executive Officer and our other executive officers and administers the 2006 Equity Incentive Plan, the 2006 Employee Stock Purchase Plan, and the 1997 Stock Plan. The Compensation Committee has a written charter, which was adopted by our board in August 2006. A copy of this charter is available on our website at <http://www.thermage.com>.

Our Compensation Committee is appointed by our board, and is comprised of Cathy L. McCarthy, Marti Morfitt, and Mark Sieczkarek. The purpose of our Compensation Committee is to:

- discharge the board's responsibilities relating to compensation of our executive officers;
 - administer our stock option plans, stock purchase plans, restricted stock plans and any other equity incentive plans we adopt; and
 - provide disinterested administration of any employee benefit plans in which our executive officers are eligible to participate.
- Our Compensation Committee assumes primary responsibility for the annual compensation review process. In 2007 and for 2008, our Compensation Committee engaged, Compensia, a third-party compensation consulting group to assist us in defining our compensation guiding principles and assess the competitiveness of our pay programs. Our Compensation Committee has actively worked with the consultant to produce a report for the Committee's consideration. In the future, we may decide not to hire a compensation consultant each year, if we believe that the prior report we obtained, along with publicly-available data from our industry peer group, is sufficient to allow us to make informed decisions with regard to executive compensation matters. Our compensation consultant performs a peer group analysis, reviewing executive compensation arrangements primarily of other publicly-traded medical device companies.

In developing its recommendations for annual compensation packages for executive employees, our Compensation Committee worked with Compensia to gather market data and identify an appropriate peer group of public companies. The members of the peer group include Biolase Technology, Candela, Cepheid, Conceptus, Cutera, Cyberonics, Cynosure, Iridex, Micrus Endovascular, Palomar Medical Technologies, STAAR Surgical,

VNUS Medical Technologies and Volcano. Our Compensation Committee used this data along with published survey data in developing its recommendations for annual compensation for our executive officers.

Because bonus targets are driven by financial goals, as to which management has greater insight than the board or the Compensation Committee, the Compensation Committee has directed management to recommend appropriate targets.

Compensation Components

Compensation for our executive officers is broken out into the following components:

Cash Compensation. Cash compensation consists of base salary and annual bonus potential. Our compensation consultant assists us in analyzing peer companies to guide our determination of appropriate cash compensation. Our cash compensation goals for our executive officers are based upon the following principles:

Ensuring that our short-term incentive program is consistent with our compensation philosophy;

Payouts should be based primarily on company financial performance, rather than individual performance;

With improved company performance, pay will move toward targeted positioning; and

Ensuring that individual target incentive opportunities align target total cash compensation levels with desired positioning (e.g., at the market 50th to 60th percentile).

Base Salary and Total Target Cash Compensation. In 2007, our goal was to set base salary at the 50th to 60th percentile of our peer group and total target cash compensation at or above the 60th percentile of our peer group. We found that our base salaries, on average, were 110% of the median of the total peer group, but varied on an individual basis. As a result, we determined that there was no need for across-the-board market-based adjustments, but that individual adjustments would be based on performance and contribution. For 2008, our Compensation Committee accepted management's recommended salary merit increases for executive employees other than the CEO, averaging 5%. The Committee determined to also increase the CEO's salary by 6%.

Discretionary Bonus Program. In addition to base salary compensation, we have a bonus plan covering all full-time regular employees, including the executive officers (except for certain of our employees in manufacturing who are under a monthly bonus plan and our sales representatives who are under a sales compensation plan) pursuant to which cash bonus payments and equity awards may be made. Bonuses are calculated based upon actual achievement of pre-established goals.

For 2007, our board of directors determined that the calculation would be based exclusively on achievement of corporate operating performance, rather than on a mix of both corporate and individual achievement. In our 2007 compensation survey, we found that our target bonus opportunities approximate the market 50th percentile for most executives, resulting in target total cash compensation at the market 60th percentile. To ensure that individual target incentive opportunities aligned target total cash compensation levels with desired positioning, we set our executive officer target incentives as follows: CEO: 75% of salary; all other executives: 40% of salary. Based upon actual achievement of targets, our Compensation Committee determined that 85% of the target payout would be paid in cash to each executive for 2007. In determining the payout level, our Compensation Committee considered three principal factors of corporate operating performance including revenue, gross margin and operating margin. Our Compensation Committee has discretion as to the relative weight of each of the factors. The committee determined that we had met or exceeded our targets for gross margin and operating margin, but did not meet our revenue target. Per its discretion, our Compensation Committee accorded increased weight to the achievement of the gross margin and operating margin targets in determining the 2007 bonus payout.

Table of Contents

For 2008, our Compensation Committee approved a bonus plan covering all full-time regular employees, including the executive officers (except for certain of our employees in manufacturing who are under a monthly bonus plan and our sales representatives who are under a sales compensation plan). Our Compensation Committee may modify, amend, revoke or suspend the 2008 bonus plan at any time in its sole discretion. The target bonus for our CEO is 80% of his base salary, and for each other executive officer, 40% of his or her respective base salary. The actual bonuses payable for fiscal year 2008, if any, will vary depending on the extent to which our actual financial performance meets, exceeds, or falls short of the financial goals approved by the Compensation Committee. If our actual performance exceeds the goals approved by the Committee, the actual bonus payable may be up to 150% of the target bonus.

Long-Term Incentive Program. We believe that long-term performance is achieved through an ownership culture that encourages long-term performance by our executive officers through the use of stock-based awards. All employees are eligible to participate in some form of equity program. Our equity compensation goals for our executive officers are based upon the following principals:

Stockholder and executive interests should be aligned;

The program should be structured to provide meaningful retention incentives to participants; and

Actual awards should be tailored to reflect individual performance and attraction/retention goals.

Under our 2006 Equity Incentive Plan, we are permitted to grant stock options, stock appreciation rights, restricted shares, restricted stock units, performance shares, and other stock-based awards. Under our 2006 Equity Incentive Plan, we issue options to our officers, directors and employees to purchase shares of our common stock at an exercise price equal to the fair market value of such stock on the date of grant. The date of grant for our executives is typically the date of a regularly scheduled board meeting, of which we have four per year. We have no program, plan or practice to select option grant dates (or set board meeting dates) to correspond with the release of material non-public information. We also have a 2006 Employee Stock Purchase Plan that provides employees with the opportunity to purchase shares of our common stock.

Our practice was to make annual equity grants to our executives. Our target goal was to set our long term incentive compensation at or above the median of our peer group. In determining 2007 equity grants for executives, we considered market competitive data, retention power of unvested equity, total potential ownership levels and individual performance. In 2008, the Compensation Committee generally awarded grants to our executive officers that approximated the 50th percentile of our peer group. We also took into consideration the use of equity awards as a means of rewarding achievement and as a means of retention, especially for our officers who were mostly vested in their prior awards.

Benefits. We provide the following benefits to our senior executives generally on the same basis as the benefits provided to all employees:

Health, vision and dental insurance;

Life insurance;

Short-and long-term disability;

401(k) plan;

Employee assistance plan; and

Flexible spending plan.

We believe that these benefits are consistent with those offered by other companies and specifically with those companies with which we compete for employees.

Employment Agreements

All of our current executive officers have entered into agreements with us which contain restrictions and covenants. These provisions include covenants relating to the protection of our confidential information and the assignment of inventions. None of our employees are employed for a specified term, and each employee's employment with us is subject to termination at any time by either party for any reason, with or without cause.

We have entered into an employment agreement with Stephen J. Fanning. The employment agreement provides for a lump sum cash payment in the amount of one year of base salary and bonus plus full acceleration of stock option vesting in the event that Mr. Fanning is terminated without cause or is constructively terminated within 12 months after a change in control. The employment agreement also provides for severance payments consisting of one year of base salary and reimbursement for one year of continued health benefits in the event Mr. Fanning is terminated without cause not in connection with a change in control.

We have entered into an employment agreement with John F. Glenn. The employment agreement provides for a lump sum cash payment in the amount of one year of base salary and bonus plus full acceleration of stock option vesting in the event that Mr. Glenn is terminated without cause or is constructively terminated within 12 months after a change in control. The employment agreement also provides for severance payments consisting of one year of base salary and reimbursement for one year of continued health benefits in the event Mr. Glenn is terminated without cause not in connection with a change in control.

For the purpose of the employment agreements with Messrs. Fanning and Glenn, "cause" is defined as such officer's:

- (i) willful failure to substantially perform his duties under the employment agreement, other than a failure resulting from complete or partial incapacity due to physical or mental illness or impairment,
- (ii) willful act which constitutes gross misconduct and which is injurious to the Company,
- (iii) willful breach of a material provision of the employment agreement, or
- (iv) knowing, material and willful violation of a federal or state law or regulation applicable to the business of the Company.

For the purpose of the employment agreements with Messrs. Fanning and Glenn, "constructive termination" means:

- (i) without the officer's express written consent, a substantial reduction in the officer's duties, position or responsibilities relative to the officer's duties, position or responsibilities in effect immediately prior to such

Table of Contents

reduction, provided, however, that a reduction in duties, position or responsibilities solely by virtue of the Company being acquired and made part of a larger entity shall not constitute a constructive termination ;

(ii) without the officer's express written consent, a reduction by the Company of the officer's base salary in effect immediately prior to such reduction; and

(iii) without the officer's express written consent, the relocation of the officer to a facility or location more than fifty (50) miles from the current facility.

For the purpose of the employment agreements with Messrs. Fanning and Glenn, change of control means the occurrence of any of the following events:

(i) Any person (as such term is used in the Securities Exchange Act of 1934) becomes the beneficial owner (as defined in the Exchange Act), directly or indirectly, of securities of the Company representing fifty percent (50%) or more of the total voting power represented by the Company's then outstanding voting securities; or

(ii) The consummation of the sale or disposition by the Company of all or substantially all of the Company's assets;

(iii) A change in the composition of the board of directors occurring within a two-year period, as a result of which fewer than a majority of the directors are incumbent directors; or

(iv) The consummation of a merger or consolidation of the Company with any other corporation, other than a merger or consolidation which would result in the voting securities of the Company outstanding immediately prior thereto continuing to represent (either by remaining outstanding or by being converted into voting securities of the surviving entity or its parent) at least fifty percent (50%) of the total voting power represented by the voting securities of the Company or such surviving entity or its parent outstanding immediately after such merger or consolidation.

We have adopted a formal severance benefit plan for our full-time employees. The exact payment to any eligible employee is dependent on rank. The maximum possible payment to the highest ranking employees covered by the plan is equal to 12 weeks of severance pay and 3 months of COBRA coverage and outplacement services. Stephen J. Fanning, our President and Chief Executive Officer, and John F. Glenn, our Chief Financial Officer, whose employment agreements provide for separate and superior severance benefits, and our employees based outside the United States, are not eligible to participate in the plan. Each of our other full-time employees who is involuntarily terminated as a result of the following circumstances is eligible to participate in the plan:

a corporate reorganization;

a reduction in staff and selection for participation in the plan by the Chief Executive Officer; or

a closure or reorganization of a facility or operation.

Repricing of Stock Options in 2006

During March 2006, we repriced stock option awards held by 116 of our employees and directors. Under the terms of this repricing, we repriced certain employee and director stock options having an exercise price of \$2.00 or above to an exercise price of \$1.90. Other than the exercise price, all other terms of the repriced options, such as vesting and contractual life, remained the same. In consideration for the repricing of eligible stock option awards, employees and directors who were previously granted stock option awards on February 2, 2005 were also required to return these awards for cancellation. As a result of this repricing, we repriced options to purchase 447,565 shares and options to purchase 1,523,035 unvested shares having a weighted average original exercise price of \$4.18 and \$4.10, respectively. Such options were repriced at a new exercise price of \$1.90 per share. As a result of this repricing, we also cancelled 35,216 outstanding employee options with an original exercise price of \$4.00 that were granted on February 2, 2005.

Our compensation committee may elect to provide our officers and other employees with non-qualified defined contribution or deferred compensation benefits if the compensation committee determines that doing so is in our best interests.

Potential Payments Upon Termination or Change in Control

The following summaries set forth potential payments payable to our executive officers upon termination of employment following a change in control under their current change of control agreements with us. The compensation committee of our board of directors may, at their discretion, amend or add benefits to these arrangements as they deem advisable.

We have entered into an employment agreement with Stephen J. Fanning. The employment agreement provides for a lump sum cash payment in the amount of one year of base salary and target bonus plus full acceleration of stock option vesting in the event that Mr. Fanning is constructively terminated within 12 months after a change in control. For illustrative purposes, if Mr. Fanning had his employment with us terminated on December 31, 2007 under such circumstances, he would have become entitled to \$743,925. The employment agreement also provides for severance payments consisting of one year of base salary and reimbursement for one year of continued health benefits in the event of termination without cause not in connection with a change in control. For illustrative purposes, if Mr. Fanning had his employment with us terminated on December 31, 2007 under such circumstances, he would have become entitled to approximately \$439,000. The receipt of any such benefits on termination is contingent on the execution of a mutually agreed upon severance and release agreement with Mr. Fanning.

We have adopted a formal severance benefit plan for our full-time employees. The exact payment to any eligible employee is dependent on rank. The maximum possible payment to the highest ranking employees covered by the plan is equal to 12 weeks of severance pay and 3 months of COBRA coverage and outplacement services. Stephen J. Fanning, our President and Chief Executive Officer, and John F. Glenn, our Chief Financial Officer, whose employment agreements provide for separate and superior severance benefits, and our employees based outside the United States, are not eligible to participate in the plan. Each of our other full-time employees who is involuntarily terminated as a result of the following circumstances is eligible to participate in the plan:

a corporate reorganization;

a reduction in staff and selection for participation in the plan by the Chief Executive Officer; or

a closure or reorganization of a facility or operation.

Our option agreements with our directors and certain key employees also provide for the accelerated vesting of all shares subject to these options in the event such director or key employee is terminated without cause or constructively terminated within 12 months of a change of control.

The following table lists the named executive officers and the estimated amounts they would have become entitled to had their employment with us terminated on December 31, 2007 under circumstances described above.
