ANNUAL MEETING INFORMATION

Date and Location. We will hold the annual meeting on June 16, 2010 at 8:00 AM, local time, at the offices of the Company, 545 Washington Boulevard, Jersey City, New Jersey 07310.

Admission. Only record or beneficial owners of our common stock as of the Record Date, as defined below, or their proxies, and eligible ESOP participants, may attend the annual meeting in person. When you arrive at the annual meeting, you must present photo identification, such as a driver's license. Beneficial owners must also provide evidence of stock holdings, such as a recent brokerage account or bank statement.

Notice of Electronic Availability of Proxy Materials. Pursuant to the rules adopted by the SEC, we are making this Proxy Statement and our Annual Report on Form 10-K available to some of our shareholders electronically via the Internet. Accordingly, in compliance with this e-proxy process, on or about April 28, 2010, we are mailing to our beneficial owners the Notice of Internet Availability of Proxy Materials (Notice) containing instructions on how to access this Proxy Statement and our Annual Report on Form 10-K via the Internet and how to vote online. As a result, unless otherwise required, beneficial owners will not receive a printed copy of the proxy materials in the mail unless they request a copy. The Notice is not a proxy card and cannot be used to vote your shares. If you would like to receive a printed or electronic copy of our proxy materials, you should follow the instructions for requesting such materials included in the Notice. Your participation in the e-proxy process enables us to save money on the cost of printing and mailing the documents to you. Beneficial owners may request to receive a printed set of the proxy materials by mail or electronically, in either case, free of charge.

Printed copies of the proxy materials are being sent to record holders of our stock and to eligible participants of the ISO 401(k) Savings and Employee Stock Ownership Plan, or ESOP. All shareholders and eligible ESOP participants will be able to access the proxy materials at www.proxyvote.com.

Record and Beneficial Owners. If your shares are registered directly in your name with our transfer agent, American Stock Transfer & Trust Company, you are considered, with respect to those shares, to be a stockholder of record, and our annual meeting materials are being sent to you directly by us. As the stockholder of record, you have the right to grant your voting proxy or to attend the meeting and vote in person. If your shares are held in a brokerage account, including an Individual Retirement Account, or by a bank or other nominee, you are considered a beneficial owner of those shares held in street name and your broker or nominee is considered, with respect to those shares, to be the stockholder of record. As the beneficial owner, you have the right to direct your broker or nominee on how to vote your shares.

VOTING INFORMATION

Record Date. The Record Date for the annual meeting is April 19, 2010. Record and beneficial owners may vote all shares of Verisk's common stock they owned as of the close of business on that date. ESOP participants may direct the ESOP Trustee to vote all shares of Verisk's common stock allocated to their ESOP accounts as of the close of business on that date. Each share of Class A common stock entitles you to one vote on the election of each of the Class A Directors nominated for election. Each share of Class B common stock entitles you to one vote on the election of the Class B Director nominated for election. Each share of Class A or Class B common stock entitles you to one vote on each other matter voted on at the annual meeting. On the Record Date 126,267,537 shares of Class A common stock and 54,237,950 shares of Class B common stock were outstanding. We need a majority of the shares of Class A common stock and a majority of the shares of Class B common stock outstanding on the Record Date present, in person or by proxy, to hold the annual meeting.

Submitting Voting Instructions for Shares Held Through a Broker. If you hold shares through a broker, follow the voting instructions you receive from your broker. If you want to vote in person at the annual meeting, you must obtain a legal proxy from your broker and present it at the annual meeting. If you do not submit voting instructions to your broker, your broker may still be permitted to vote your shares. New York Stock Exchange (NYSE) member brokers may vote your shares as described below:

Discretionary Items. The ratification of the appointment of Verisk's independent auditor is a discretionary item. NYSE member brokers that do not receive instructions from beneficial owners may vote on this proposal in their discretion, subject to any voting policies adopted by the broker holding your shares.

Nondiscretionary Items. Due to recent rule changes, the election of directors is now considered a non-discretionary item. NYSE members that do not receive instructions from beneficial owners may not vote on this proposal on their behalf.

If you do not submit voting instructions and your broker does not have discretion to vote your shares on a matter, your broker will return the proxy card without voting on that matter (referred to as broker non-votes). Your shares will not be counted in determining the outcome of the vote on that matter. Therefore, if you hold your shares through a broker, it is critically important that you submit your voting instructions if you want your shares to count in the election of directors.

Submitting Voting Instructions for Shares Held in Your Name. If you hold shares as a record holder, you may vote by submitting a proxy for your shares by mail, telephone or Internet as described on the proxy card. If you submit your proxy via the Internet, you may incur costs such as cable, telephone and Internet access charges. Submitting your proxy will not limit your right to vote in person at the annual meeting. A properly completed and submitted proxy will be voted in accordance with your instructions, unless you subsequently revoke your instructions. If you submit a signed proxy card without indicating your vote, the person voting the proxy will vote your shares according to the Board's recommendations.

Submitting Voting Instructions for shares held in the ESOP. Participants who hold shares indirectly through the ISO 401(k) Savings and Employee Stock Ownership Plan may instruct the Plan Trustee, Greatbanc Trust Company, how to vote all shares of Verisk Class A common stock allocated to their accounts. The Trustee will vote the Plan shares for which it has not received instruction in its discretion, in the best interests of ESOP participants. All votes will be kept confidential and individual votes will not be disclosed to management.

Revoking Your Proxy. You can revoke your proxy at any time before your shares are voted by (1) delivering a written revocation notice prior to the annual meeting to the Corporate Secretary, Kenneth E. Thompson, Verisk Analytics, Inc., 545 Washington Boulevard, Jersey City, New Jersey 07310; (2) submitting a later proxy that we receive no later than the conclusion of voting at the annual meeting; or (3) voting in person at the annual meeting. Attending the annual meeting does not revoke your proxy unless you vote in person at the meeting.

Votes Required to Elect Directors. Each director will be elected by a majority of the votes cast with respect to such director. A majority of the votes cast means the number of votes cast FOR a director exceeds the number of votes cast as AGAINST with respect to that director. Under Delaware law, if the director is not elected at the annual meeting, the director will continue to serve on the Board as a holdover director.

Votes Required to Adopt Other Proposals. The ratification of the appointment of Deloitte & Touche requires the affirmative vote of a majority of the voting power of the shares of common stock represented at the annual meeting and entitled to vote thereon.

Abstaining and Broker Non-Votes. You may vote abstain for any nominee in the election of directors and on the other proposals. Shares voting abstain on and broker non-votes with respect to any nominee for director will be excluded entirely from the vote and will have no effect on the election of directors. Shares voting abstain on the other proposals will be counted as present at the annual meeting for purposes of that proposal and your abstention will have the effect of a vote against the proposal.

ITEM 1 ELECTION OF DIRECTORS

Our Board of Directors is divided into three classes serving staggered terms. The number of directors is fixed by our Board of Directors, subject to the terms of our amended and restated certificate of incorporation. Until the earlier of (a) October 6, 2011, or (b) the date on which there are no shares of Class B common stock issued and outstanding, our Board of Directors will consist of between eleven and thirteen directors and will be composed of (a) between eight and ten Class A directors and (b) three Class B directors. From and after the earlier of these events, there will no longer be Class B directors, and each director will be elected for a three-year term by the holders of a plurality of the votes cast by the holders of shares of common stock present in person or represented by proxy at the meeting and entitled to vote on the election of the directors. Each director holds office until his or her successor has been duly elected and qualified or the director's earlier resignation, death or removal. All of the nominees are current directors of Verisk as of April 19, 2010, and each nominee has indicated that he will serve if elected. We do not anticipate that any nominee will be unable or unwilling to stand for election, but if that happens, your proxy will be voted for another person nominated by the Board.

Communications with Directors. Shareholders and other interested parties may contact any member (or all members) of the Board by mail. To communicate with the Board, any individual director or any group or committee of directors, correspondence should be addressed to the Board or any such individual director or group or committee of directors by either name or title. All such correspondence should be sent to Kenneth E. Thompson, Senior Vice President, General Counsel and Corporate Secretary, Verisk Analytics, Inc., 545 Washington Blvd., Jersey City, NJ 07310. Any communication to report potential issues regarding accounting, internal controls and other auditing matters should be marked Personal and Confidential and sent to Verisk Analytics, Inc., 545 Washington Blvd., Jersey City, NJ 07310, Attention: Chair of the Audit Committee of Verisk Analytics, Inc., in care of Kenneth E. Thompson, Senior Vice President, General Counsel and Corporate Secretary. Our Policy for Reporting Concerns Related to Accounting and Ethical Violations is available at our corporate governance website at the Corporate Governance link under the Investors link at www.verisk.com. Information contained on our website is not incorporated by reference into this Proxy Statement or any other report filed with the SEC.

Mandatory Retirement. If reelected as a Class A director to a three year term ending in 2013 as proposed, Arthur Rothkopf will reach the Company's mandatory retirement age for directors of 75 prior to the end of his term. The Board and the Nominating and Corporate Governance Committee believe that, having recently transitioned to public company status, the Company will benefit from Mr. Rothkopf's continued service for an additional term. Accordingly, the applicability of the mandatory retirement age has been waived in this circumstance in order to permit Mr. Rothkopf to serve an additional term as director.

Compensation Governance. The Compensation Committee consists of at least three members, and is composed solely of independent directors meeting the independence requirements of the NASDAQ. The Compensation Committee, which consists solely of directors who are outside directors within the meaning of Section 162(m) of the Internal Revenue Code of 1986, as amended, has the responsibility and authority to approve performance-based compensation for named executive officers. The Nominating and Corporate Governance Committee recommends nominees for appointment to the Compensation Committee from time-to-time and as vacancies or newly-created positions occur. Compensation Committee members are appointed by the Board and may be removed by the Board at any time.

The Compensation Committee operates under a written charter adopted by the Board. As noted above, the Committee is responsible for reviewing and approving annually all compensation awarded to the Company's executive officers, including the CEO and the other executive officers named in the Summary Compensation Table herein (named executive officers or NEOs). In addition, the Compensation Committee administers the Company's equity incentive plans, including reviewing and approving equity grants to executive officers. Information on the Compensation Committee's processes, procedures and analysis of NEO compensation for fiscal 2009 is addressed in the Compensation Discussion and Analysis herein.

The Compensation Committee actively engages in its duties and follows procedures intended to ensure excellence in compensation governance, including those described below:

Identifying corporate goals and objectives relevant to executive officer compensation.

Evaluating each executive officer's performance in light of such goals and objectives and setting each executive officer's compensation based on such evaluation and such other factors as the Compensation Committee deems appropriate and in the best interests of the Company (including the cost to the Company of such compensation).

Determining any long-term incentive component of each executive officer's compensation based on individual performance of such executive officer, the Company's performance, shareholder return and the value of similar incentive awards at comparable companies and such other factors as the Compensation Committee deems appropriate and in the best interests of the Company (including the cost to the Company of such compensation).

periodically reviewing and making recommendations to the Board with respect to the compensation of nonemployee directors, including any incentive plan compensation.

Additional information about our executive compensation plans and arrangements and their administration is described in the Compensation Discussion and Analysis herein and the accompanying executive compensation tables. The Compensation Committee may delegate the administration of these plans as appropriate, including to one or more officers of the Company, to subcommittees of the Board or to the Chairperson of the Compensation Committee when it deems it appropriate and in the best interests of the Company.

The Compensation Committee has the authority to retain and terminate any compensation consultant assisting the Compensation Committee in the evaluation of CEO or executive officer compensation, including authority to approve all such compensation consultant's fees and other retention terms. As further described in the Compensation Discussion and Analysis herein, during 2009, the Compensation Committee retained its own compensation consultant. In developing its views on compensation matters and determining the compensation awarded to our NEOs, the Compensation Committee also obtains input from the Human Resources department, which collects information and prepares materials for the Compensation Committee's use in compensation decisions.

Compensation Committee Interlocks and Insider Participation. No member of the Compensation Committee is a current or former officer of the Company or any of our subsidiaries. In addition, there are no compensation committee interlocks with the Board of Directors or compensation committee of any other company.

Board Diversity. The Nominating and Corporate Governance Committee and the Board include diversity of viewpoints, background, experience and other demographics among the criteria they consider in connection with selecting candidates for the Board. While neither the Board nor the Nominating and Corporate Governance Committee has a formal diversity policy, one of many factors the Board and the Nominating and Corporate Governance Committee carefully considers in the selection of new directors is the importance to the Company of racial and gender diversity in board composition. Moreover, when considering director candidates, the Nominating and Governance Committee and the Board seek individuals with backgrounds and qualities that, when combined with those of our incumbent directors, enhance the Board's effectiveness and result in the Board having a broad range of skills, expertise, industry knowledge, diversity of opinion and contacts relevant to the Company's business.

Board Role in Risk Oversight. The Board of Directors oversees the Company's enterprise wide approach to the major risks facing the Company and, with the assistance of the Audit Committee, oversees the Company's policies for assessing and managing its exposure to risk. The Board also considers risk in evaluating the Company's strategy. The Audit Committee reviews with management and the auditors the Company's enterprise risk assessment process and risk categories. As part of its process to identify and prioritize risks, the Company's Internal Audit department uses the framework set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) and segregates risks based on their nature and/or potential significance—strategic risk, financial risk, operational risk and compliance risk. The Chief Internal Auditor reports both to the Chairman of the Audit Committee and to the General Counsel. Management reviews with the Audit Committee the risk assessment process, the various enterprise risks, the prioritization of the identified risks and its mitigation plans. The Audit Committee reviews and discusses with the Chief Internal Auditor and Risk Manager the Company's internal system of audit and financial controls, enterprise risk information, internal audit plans, and the periodic report of audit activities. Finally, on a quarterly basis, management reviews its progress on the testing and mitigation of any identified risks with the Audit Committee.

Stock Option Grants. Effective as of the 2007 Annual Meeting of Shareholders, each non-employee director receives an annual option grant having a Black-Scholes value of \$125,000. Such options are exercisable for a period of ten years from the date of grant (subject to earlier termination if the individual ceases to be a director of the Company), vest on the first anniversary of the date of grant, and have an exercise price equal to the fair market value of the Class A common stock on the date of grant. In 2009, in connection with our initial public offering of common stock, each nonemployee director received an additional one-time option grant having a Black-Scholes value of \$125,000, which vests ratably over four years.

Employee-directors receive no additional compensation for service on the Board of Directors. Mr. Frank J. Coyne is the only employee-director.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Our business requires a highly skilled work force. While the capital intensity of our business is low, our human capital requirements are great. Our business depends on our senior leadership team, who possess business and technical capabilities that would be difficult, and costly, to replace. We have designed our compensation program to address these needs.

This section discusses the principles underlying our policies and decisions relating to the compensation of our principal executive officer, our principal financial officer, and our three other most highly compensated executive officers for 2009 (our *Named Executive Officers* or *NEOs*). The information in this section describes the manner and context in which compensation is earned by and awarded to our NEOs, and provides perspective on the tables and narrative that follow.

Compensation Program Objectives

The compensation program for our NEOs must attract, reward, motivate and retain the highly qualified individuals we need to plan and execute our business strategy. We believe our compensation program motivates managers by directly linking a portion of compensation both to the Company's performance and the individual's performance. To foster this direct link, we have designed our compensation program so that a significant percentage of an NEO's compensation is variable rather than fixed. This percentage increases with seniority, because the decisions of more senior managers have a greater impact on our performance.

Executives will earn variable compensation (cash awards and stock options) only if warranted by Company and individual performance. Variable compensation for our NEOs consists of an annual cash payment pursuant to our Short Term Incentive, or STI, program and a long-term equity incentive award (typically in the form of stock options) pursuant to our Long Term Incentive, or LTI, program. We believe the design of our compensation program effectively encourages our senior managers, including our NEOs, to act in a manner that benefits the Company by creating long-term value for our stockholders.

Elements of the Company's Compensation Program

We currently provide the following elements of compensation to our NEOs:

base salary;

annual cash incentive awards;

long-term equity incentive awards; and

health, welfare and retirement plans.

Each compensation element fulfills one or more of our compensation program objectives.

Base Salary

We pay base salaries to attract, reward and retain managers, and so that in recruiting and retaining senior executives we are not disadvantaged by being seen as offering a lower level of fixed compensation for a given position level. We adjust salaries annually to maintain competitive market levels, which are based on the experience and scope of responsibilities of each NEO. We perform our own internal analysis of prevailing market levels of salary for comparable positions. This analysis utilizes our general knowledge of the industry, information gained by our human resources professionals in the hiring and termination process and, when available, commercially prepared market surveys obtained by our human resources professionals. In addition, we

Table of Contents

periodically retain outside compensation consultants to assess the competitiveness of compensation for certain members of senior management. In 2009 the Compensation Committee retained Fredric W. Cook & Co. (Cook) to provide the consulting services described below. In the fall of 2008, Cook was retained to perform an analysis of senior management compensation. The compensation of all NEOs other than Mr. Coyne was included in the 2008 Cook assessment. The 2008 Cook assessment compared the then current compensation of certain members of our senior management to data from two proprietary third-party surveys and to information obtained by reviewing the proxy statements of fourteen publicly traded companies. The public companies whose compensation information was reviewed by Cook in its 2008 analysis were Acxiom, DST Systems, Dun & Bradstreet, Equifax, FactSet Research Systems, Fair Isaac, Fidelity National Information Services, IHS, IMS Health, Moody s, Morningstar, MSCI, RiskMetrics and Solera Holdings.

Our internal analysis, and the 2008 assessment performed by Cook, provide a framework within which our compensation decisions are made. This information is provided to our Chief Executive Officer, or CEO, and the Compensation Committee to assist them in evaluating the competitiveness of our compensation practices. This evaluation, and the evaluations of individual and Company performance described below in *Analysis of 2009 Variable Compensation*, are utilized in the determination of compensation of our NEOs. We believe the base salaries of our NEOs are approximately at the midpoint of salaries for comparable positions.

The base salary of our Chief Executive Officer is determined by the Compensation Committee. The base salary of each of our other NEOs is determined by the CEO, subject to approval by the Compensation Committee. All NEOs other than Mr. Kenneth Thompson, our General Counsel, are long-term employees. Their base salaries were initially determined by the Compensation Committee (in the case of Mr. Coyne) or by Mr. Coyne, with the approval of the Compensation Committee (in the case of other NEOs) based on the assessment described above. Mr. Kenneth Thompson joined the Company in October 2006. His base salary was determined at the time he was hired based on our assessment of prevailing market compensation practices for comparable positions developed during the recruiting process. Base salary as a percentage of total compensation differs based on an executive s position and function. Generally, executives with the highest position and level of responsibility, and thus the greatest ability to influence our performance through their decision making, have the smallest percentage of their total compensation fixed as salary. Annual adjustments to base salary are determined by the Compensation Committee, in the case of Mr. Coyne, and by Mr. Coyne with the approval of the Compensation Committee, in the case of other NEOs, based on the assessment of prevailing market compensation practices described above, and based on the subjective evaluation of individual performance factors discussed below in *Analysis of 2009 Variable Compensation*. We have historically placed greater emphasis on the potential of variable compensation to incent employees to create long-term value for our stockholders.

Annual Cash Incentive Awards

Annual cash incentive awards are paid to all eligible employees, including NEOs, pursuant to our STI program. Prior to the beginning of each year, the Compensation Committee establishes financial performance goals for the coming year under our STI program. The specified financial performance goals relate to growth in revenue and EBITDA margin, and are derived from our strategic and business growth plan. We selected revenue growth and EBITDA margin growth as the criteria for STI because we believe our business s ability to generate recurring revenue and positive cash flow is the key indicator of the successful execution of our business strategy. In addition, the Compensation Committee evaluates the accomplishment during the year of other financial and nonfinancial performance measures that we believe position the Company to achieve long-term future growth. These include enhancements to productivity, achievement of new sales, accomplishment of strategic and operational initiatives, completion of acquisitions and development of strategic relationships. At the conclusion of the performance year, funding of the aggregate STI pool for all eligible employees is determined by the Compensation Committee, taking into account the recommendation of the CEO, based on the degree to which goals are achieved during the year. Cash STI awards are paid in March, in respect of performance for the prior year.

Table of Contents

See *Analysis of 2009 Variable Compensation* for a discussion of how we determined 2009 STI awards for NEOs.

Long-Term Equity Incentive Awards

Long-term equity incentive awards are made annually to eligible employees, including NEOs, pursuant to our LTI program. In October 2009, we adopted a new omnibus equity compensation plan, the Verisk Analytics, Inc., 2009 Equity Incentive Plan, or Incentive Plan. Awards under the Incentive Plan and its predecessor plan are generally in the form of option grants. In general, option awards under the LTI program are made in April, in respect of prior year performance. In October 2009, we made an additional special one-time award of options to eligible employees, including NEOs, in connection with our initial public offering of common stock. Option awards have an exercise price equal to the fair market value of our Class A common stock on the date of grant.

Our practice has been to award our CEO, Mr. Coyne, option grants under the LTI program at irregular intervals. Certain of Mr. Coyne's options were historically granted at an exercise price above the then-current fair market value of our Class A common stock. Other than the one-time grant in connection with our IPO, Mr. Coyne's last option award was in 2005. Beginning in 2010, Mr. Coyne will be considered for option awards annually, with an exercise price at the then-current fair market value of our shares, in the same manner as other NEOs.

At the conclusion of a plan year, the Compensation Committee determines the aggregate number of options issuable to all eligible participants under the LTI program by evaluating the same performance goals used to determine the aggregate funding amount under the STI program.

See *Analysis of 2009 Variable Compensation* for a discussion of how we determined 2009 LTI awards for NEOs.

2009 Variable Compensation Performance Goals

The Compensation Committee established the following revenue growth and EBITDA Margin goals for determination of aggregate award pools available to all eligible employees, including our NEOs, under both the LTI and STI programs for 2009:

	Revenue Growth	EBITDA Margin
Maximum	15%	37%
Superior	12%	34%
Target	10%	30%
Threshold	6%	27%

During 2009, we achieved revenue growth of 14.9%, between the specified Superior and Maximum performance goals, and EBITDA Margin of 43.6%, which exceeded the Maximum performance goal. The Compensation Committee primarily considered the degree to which these goals were achieved, together with financial and nonfinancial performance measures including preparation for our initial public offering, enhancements to productivity, achievement of new sales, accomplishment of strategic and operational initiatives, completion of acquisitions and development of strategic relationships in determining the aggregate LTI and STI pools. In assessing the revenue growth target, the Compensation Committee considered the Company's strong organic growth of 11.2% during 2009. The Compensation Committee established an STI pool of up to \$32.5 million for distribution to approximately 2,400 eligible employees (including NEOs other than Mr. Coyne) and an aggregate LTI pool of up to 2,250,000 options with an aggregate Black-Scholes value of \$21.4 million for distribution to approximately 200 eligible employees, including all NEOs. The Compensation Committee has adopted increased EBITDA margin targets for the determination of STI and LTI award pools for 2010.

See [Analysis of 2009 Variable Compensation](#) for a discussion of how we determined 2009 LTI and STI awards for NEOs.

Analysis of 2009 Variable Compensation

For individual NEOs, cash awards under the STI program and option awards under the LTI program are highly variable and not systematic, and are not based on fixed target amounts. Individual awards are determined based on the subjective judgment of the Compensation Committee (in the case of Mr. Coyne) and of Mr. Coyne (with the concurrence of the Compensation Committee) in the case of other NEOs. There is no fixed relationship between an individual NEO's LTI and STI awards. In reaching their subjective determinations about aggregate compensation, the Compensation Committee and Mr. Coyne seek to allocate a meaningful portion of total compensation in the form of LTI awards in order to incent employees to create long-term value for our stockholders.

For individual NEOs, other than Mr. Coyne, the STI and LTI awards are made based on Mr. Coyne's subjective evaluation of their individual performance and on the analysis of prevailing market compensation levels described above. Factors considered include the successful operation of an NEO's business unit or functional department including, where applicable, enhancements to productivity and profitability, achievement of new sales, revenue generated from new products, accomplishment of strategic and operational initiatives, completion of acquisitions and development of strategic relationships. For NEOs other than Mr. Coyne, the additional factors described below were considered by Mr. Coyne and the Compensation Committee in determining their STI and LTI awards. The factors noted were not given any specific weights, but rather informed the subjective recommendation of Mr. Coyne regarding the contribution of each individual to our overall performance.

Mr. Stephenson: the continued focus on our strategic initiatives; leadership in our business development initiatives, including the successful completion of three acquisitions/strategic alliances; and strong performance in positioning the company for successful future performance.

Mr. Anquillare: the strong performance rendered in all aspects of our initial public offering, or IPO, process; enhancement of our financing facilities during a difficult credit market; and strengthening of our finance staff and financial reporting and oversight.

Mr. Kenneth Thompson: the strong execution in connection with the IPO process, our acquisition and financing transactions and the pre-IPO reorganization; and oversight insuring compliance with laws, rules, regulations and values.

Mr. Kevin Thompson: the strong execution in delivery of high-quality products to our risk assessment customers while supporting innovation for new risk assessment strategies.

The 2009 STI award to Mr. Coyne was determined based upon the Compensation Committee's evaluation of Company performance and subjective evaluation of several nonfinancial factors including Mr. Coyne's leadership in all aspects of the IPO process, strong corporate performance and positioning the company for success into the future. Pursuant to his Employment Agreement, Mr. Coyne is eligible for an annual STI award of from 100% to 300% of his base salary and an annual option grant of between 150% and 450% of his base compensation. (See [Employment Agreements](#).) In making its determination the Compensation Committee recognized Mr. Coyne's strong execution on strategy, growth in EBITDA and operating cash flows achieved by

Table of Contents

the Company, and strong revenue performance, especially the strong organic revenue growth achieved in a difficult economic environment.

The amount of any annual increase in base salary, STI or LTI award is based on the subjective evaluation of the Compensation Committee in the case of Mr. Coyne, and of Mr. Coyne (with the approval of the Compensation Committee) in the case of other NEOs. Although the Company's financial performance is a factor taken into consideration, the specific amount of an increase in any component of an NEO's 2009 compensation is not tied directly to an overall Company financial performance metric but rather reflects a subjective determination by the Compensation Committee or Mr. Coyne, as the case may be, that the amount of the increase is appropriate based on the matters considered as set forth above.

Health, Welfare and Retirement Plans

We offer health and welfare benefit programs including medical, dental, life, accident and disability insurance. The Company contributes a percentage of the cost of these benefits. These benefits are available to substantially all employees, and the percentage of the Company's contribution is the same for all.

Our tax-qualified retirement plans include:

a combined 401(k) Savings Plan and ESOP,

a defined benefit pension plan with (i) a traditional final pay formula applicable to employees who were 49 years old with 15 years of service as of January 1, 2002, and (ii) a cash balance formula applicable to other employees hired prior to March 1, 2005, and

a profit sharing plan (as a component of the 401(k) plan) which is available to employees hired on or after March 1, 2005.

Our nonqualified retirement plans include a supplemental pension and savings (401(k)) plan for highly compensated employees. The combined 401(k) Savings Plan and ESOP and the pension/profit sharing plans are broad-based plans available to substantially all of our employees, including our NEOs. The supplemental retirement plans are offered to our highly paid employees, including our NEOs, to restore to them amounts to which they would be entitled under our tax-qualified plans but which they are precluded from receiving under those plans by IRS limits. The supplemental retirement plans are unsecured obligations of the Company.

We established our ESOP at the time we converted from nonprofit to for-profit status, in order to foster an ownership culture in the Company and to strengthen the link between compensation and value created for stockholders. This plan has enabled our employees to hold an ownership interest in the Company as well as provide a stock vehicle for Company matching contributions to our 401(k) and profit sharing plans, which has allowed employees to monitor directly, and profit from, the increasing value of our stock since our conversion in 1997.

Use of Comparative Compensation Data

To ensure that our compensation levels remain reasonable and competitive, the Compensation Committee engaged Cook to provide consulting services in 2009. In 2009, Cook advised the Compensation Committee on matters including the one-time award of stock options in connection with the IPO and the negotiation of an employment agreement with Mr. Coyne. We have used comparative data available from market surveys conducted by Cook as one component in our decision making process relating to the base salary and STI and LTI awards for our executive team. Cook most recently conducted a formal evaluation of our executive compensation levels in 2008.

Employment Agreements; Change of Control Severance Agreements

We do not currently have employment agreements with any of our NEOs except Mr. Coyne. The Company entered into an employment agreement with Mr. Coyne in September 2009, pursuant to which Mr. Coyne is entitled to receive an annual base salary of one million dollars. Mr. Coyne is eligible for an annual STI award in an amount ranging from 100% to 300% of his base salary, depending on the achievement of performance criteria to be established by the Compensation Committee. In addition, the employment agreement entitles Mr. Coyne to receive annual option grants to purchase shares of our Class A common stock. Each annual option grant would have a value (based upon a Black Scholes valuation) ranging between 150% and 450% of his base compensation.

The employment agreement provides that if Mr. Coyne's employment is terminated by the Company without cause, or by him for good reason, he will be entitled to a severance payment equal to the lesser of (i) 400% of his current base compensation, paid in 24 monthly installments or (ii) monthly payments of 1/6th of his current base compensation for each month remaining from the date of termination to the end of the original term of his employment agreement (December 31, 2012).

For information with respect to Mr. Coyne's change of control provisions in his employment agreement, please see Potential Payments upon Termination or Change in Control.

In October 2009, in connection with our IPO, we entered into Change of Control Severance Agreements with each of our other NEOs. We believe that these agreements are desirable to retain the services of these individuals in whom the Company has a significant investment. For information about the provisions of the NEOs' change of control severance agreements, please see Potential Payments upon Termination or Change in Control.

Impact of prior equity awards on current compensation

In general, we do not take into account prior equity grants, ESOP balances or amounts realized on the exercise or vesting of prior option grants in determining the number of options to be granted, because we believe we should pay an annualized market value for an executive's position, sized according to the performance level of the individual in the position. The Committee does consider prior equity grants (and related wealth accumulations) of executives in assessing the recruitment/retention risk for executives.

Stock Ownership Requirements for Executives

Senior executives are subject to minimum equity holding requirements. The CEO is required to hold stock and in-the-money options with a value equal to 200% of his annual salary plus an STI target. The other NEOs are required to hold stock and in-the-money options with a value equal to 100% of their annual salary plus an STI target. This requirement must be met no later than the third anniversary of the executive's first becoming an officer. As of December 31, 2009, Messrs. Coyne, Stephenson, Anquillare, Kenneth Thompson and Kevin Thompson each held common stock and in-the-money options in excess of the requirements.

Compensation Committee Report

We, the Compensation Committee of the Board of Directors of Verisk Analytics, Inc., have reviewed and discussed with management the Compensation Discussion and Analysis above. Based on the review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement and incorporated by reference into the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2009, filed with the Securities and Exchange Commission.

Grants of Plan Based Awards

The following table sets forth information concerning grants of plan based awards made to the NEOs during the Company's fiscal year ended December 31, 2009. We generally grant options in April, based on performance for the prior year. However, due to SEC regulations, the options shown in this table as granted on April 1, 2009 related to 2008 performance, and we consider them to be part of the NEOs' 2008 compensation. In October 2009, we made an additional special, one-time award of options to eligible employees, including NEOs, in connection with our initial public offering of common stock.

Pension Plans

The following table sets forth information with respect to each plan that provides for payments or other benefits at, following, or in connection with retirement.

Employees hired prior to March 1, 2005 participate in the Pension Plan for Insurance Organizations, or PPIO, a multiple-employer pension plan in which we participate. The PPIO provides a traditional final pay formula pension benefit, payable as an annuity, to employees who were 49 years old with 15 years of service as of January 1, 2002. Effective January 1, 2002, this formula benefit was frozen for all eligible employees. Effective January 1, 2002, a cash balance pension benefit, also payable as an annuity, was established under the PPIO. Employees hired prior to January 1, 2002 receive their frozen traditional benefit as well as their cash balance benefit. Employees hired from January 1, 2002 to March 1, 2005 receive only the cash balance benefit. The Supplemental Cash Balance Plan and Supplemental Executive Retirement Plan, or the Supplemental Plan, provides a benefit to which the participant would be entitled under the PPIO but which is subject to caps imposed by IRS regulations. Employees hired on or after March 1, 2005 are not eligible to participate in the PPIO or the Supplemental Plan.

Potential Payments upon Termination or Change in Control

Below is a description of the arrangements in place applicable to the NEOs relating to payments upon termination or change in control, other than severance payments upon termination (other than for cause) available to all salaried employees.

Mr. Coyne's employment agreement provides that in the event Mr. Coyne's employment is involuntarily terminated by the Company without cause or is voluntarily terminated by Mr. Coyne for good reason, he will be entitled to (i) any unpaid salary (ii) any unpaid bonus earned prior to the termination (iii) a pro rata portion of his incentive award and (iv) a separation payment equal to the lesser of (a) 400% of his current base compensation, paid in 24 monthly installments or (b) monthly payments of 1/6th of his current base compensation for each month remaining from the termination date to the end of the original term of the agreement (December 31, 2012). If Mr. Coyne's employment terminates as a result of his death or disability, the agreement provides for similar payments, except for clause (iv), which would not be paid. In the event of his disability, he would be paid a lump sum payment of 200% of his then current base compensation, plus his minimum target incentive award for the year of termination.

The employment agreement with Mr. Coyne provides that if Mr. Coyne's employment is terminated by the Company without cause or by him for good reason, which are defined in the agreement, within two years following a change in control, as defined in section 409A of the Internal Revenue Code, the payment described in clause (iv) would be paid in lump sum and the payment referred to in clause (iii) would be equal the minimum target incentive award.

Receipt of these benefits would be conditioned upon Mr. Coyne executing a general release of claims against the Company, and complying with confidentiality, noncompete and nonsolicitation agreements.

If Mr. Coyne's employment is terminated for cause, the Company will have no other obligations under his employment agreement except to pay any unpaid salary and unpaid bonus.

In addition, in October 2009, in connection with our IPO, the Company entered into Change in Control Severance Agreements with the other NEOs. These agreements incorporate provisions for payments to be made

Table of Contents

to the NEOs upon termination of their employment. Payments will be due in the event the NEO's employment is involuntarily terminated by the Company without cause, or is voluntarily terminated by the NEO for good reason, which are defined in the agreements, within a two-year period following a change in control.

These agreements provide that, upon a qualifying termination event, an NEO (other than Mr. Coyne) will be entitled to:

- (i) a pro rata STI award;
- (ii) a severance payment equal to the NEO's base salary plus a target bonus amount times two;
- (iii) continuation of health benefits (at the NEO's expense) for 18 months; and
- (iv) immediate vesting of any remaining unvested options.

The severance and pro rata bonus amounts will be payable in cash, in a lump sum for NEOs other than Mr. Coyne. Receipt of these benefits is conditioned upon the NEO executing a general release of claims against the Company, and complying with confidentiality, noncompete and nonsolicitation agreements for a period of 24 months. If these agreements had been in place at December 31, 2009, in the event of a qualifying termination Mr. Coyne would be entitled to cash payments totaling \$5,000,000, Mr. Stephenson would be entitled to cash payments totaling \$1,610,000, Mr. Anquillare would be entitled to cash payments totaling \$1,347,500, Mr. Kenneth E. Thompson would be entitled to cash payments totaling \$1,347,500, and Mr. Kevin B. Thompson would be entitled to cash payments totaling \$892,500. Mr. Coyne's employment agreement provides for payments to him upon his death or disability (as defined in the employment agreement). If Mr. Coyne had died or become disabled on December 31, 2009, he would have been entitled to death or disability payments of \$1,000,000 or \$3,000,000, respectively.

The Verisk Analytics, Inc. 2009 Equity Incentive Plan, provides that the Compensation Committee will determine and set forth in each award agreement whether any awards granted in such award agreement will continue to be exercisable, continue to vest or be earned and the terms of such exercise, vesting or earning, on and after the date that a participant ceases to be employed by or to provide services to us (including as a director), whether by reason of death, disability, voluntary or involuntary termination of employment or services, or otherwise. The award agreements with respect to currently outstanding options held by the NEOs under the Incentive Plan provide that in the event of the NEO's death, disability (as defined under the Incentive Plan), retirement (as defined under the Incentive Plan), or termination of employment for good reason or without cause (each as defined under the Incentive Plan), within two years following a change in control, the options will become immediately exercisable with respect to the number of unexercised shares covered by the option. Based on the closing price of our Class A common stock on December 31, 2009 and the number of options that would become vested for our NEOs, minus the exercise price of those options, in the event of a qualifying termination on December 31, 2009, the acceleration of option vesting would have a value of \$7,527,273 for Mr. Coyne, \$11,883,800 for Mr. Stephenson, \$8,199,375 for Mr. Anquillare, \$6,847,700 for Mr. Kenneth E. Thompson, and \$4,564,450 for Mr. Kevin B. Thompson.

ESOP

We established an ESOP funded with intercompany debt that includes 401(k), ESOP and profit sharing components to provide employees with equity participation. The trustee of the ESOP is GreatBanc Trust Company. The ESOP owns greater than five percent of our Class A common stock. We make quarterly cash contributions to the ESOP equal to the debt service requirements. As the debt is repaid, shares are released to the ESOP to fund 401(k) matching and profit sharing contributions and the remainder is allocated annually to ESOP accounts of active employees in proportion to their eligible compensation in relation to total participant eligible compensation. On October 6, 2009 we made an accelerated cash contribution to permit the ESOP to prepay a portion of the indebtedness, resulting in an accelerated allocation of shares to active eligible employees. The amount of our ESOP costs recognized for the year ended December 31, 2009 was \$76.1 million.

Voting rights with respect to shares of our Class A common stock owned by the ESOP are exercised by the trustee of the ESOP. The trustee is required to vote shares allocated to an ESOP participants' accounts as directed by the ESOP participant for all matters submitted to a vote of our Class A Shareholders. Shares of stock not allocated to a participant's account may be voted in accordance with the discretion of the Trustee in the best interest of ESOP participants.

Statement of Policy Regarding Transactions with Related Persons

Our Board of Directors has adopted a written statement of policy regarding transactions with related persons. Our related person policy requires that a related person (as defined as in paragraph (a) of Item 404 of Regulation S-K) must promptly disclose to the corporate secretary any related person transaction (defined as any transaction that is reportable by us under Item 404(a) of Regulation S-K in which we were or are to be a participant and the amount involved exceeds \$120,000 and in which any related person had or will have a direct or indirect material interest) and all material facts with respect thereto. The corporate secretary will then promptly communicate that information to the Board of Directors or the designated Board committee. No related person transaction will be consummated without the approval or ratification of the Board of Directors or any committee of the Board of Directors consisting exclusively of disinterested directors. The Board of Directors has initially designated the Nominating and Corporate Governance Committee to approve any related person transaction. It is our policy that directors interested in a related person transaction will recuse themselves from any vote of a related person transaction in which they have an interest.

ITEM 2 RATIFICATION OF THE APPOINTMENT OF VERISK'S INDEPENDENT AUDITOR

The Audit Committee appointed Deloitte & Touche LLP (Deloitte & Touche) as independent auditors for 2010 and presents this selection to the shareholders for ratification. Deloitte & Touche will audit our consolidated financial statements for 2010 and perform other permissible, preapproved services.

A Deloitte & Touche representative will attend the annual meeting to respond to your questions and will have the opportunity to make a statement. If shareholders do not ratify the appointment, the Audit Committee will reconsider it.

Our Board unanimously recommends a vote FOR the ratification of Deloitte & Touche's appointment as our independent auditor. Proxies solicited by the Board will be voted FOR this ratification unless otherwise instructed.

(2) In fiscal 2009, audit-related fees consisted of fees billed for tax consultations related to the audit.

Preapproval Policy of the Audit Committee of Services Performed by Independent Auditors

The Audit Committee has implemented preapproval policies and procedures related to the provision of audit and nonaudit services by the independent auditors to ensure that the services do not impair the auditor's independence. Under these procedures, the Audit Committee preapproves both the type of services to be provided by the independent auditors and the estimated fees related to those services. During the preapproval process, the Audit Committee considers the impact of the types of services and the related fees on the independence of the auditor. Even if a service has received general preapproval, if it involves a fee in excess of \$100,000 or relates to tax planning and advice, it requires a separate preapproval, which may be delegated to the Chairman of the Audit Committee. The services and fees must be deemed compatible with the maintenance of the auditor's independence, including compliance with SEC and NASDAQ rules and regulations.

AUDIT COMMITTEE REPORT

The Audit Committee operates under a written charter adopted by the Board. The charter is available under the [Corporate Governance](#) link under the [Investors](#) link at www.verisk.com. Information contained on our website is not incorporated by reference into this Proxy Statement or any other report filed with the SEC. The Audit Committee is responsible for the oversight of the integrity of the Company's consolidated financial statements, the Company's system of internal control over financial reporting, the Company's risk management, the qualifications and independence of the Company's independent registered public accounting firm (independent auditor), the performance of the Company's internal auditor and independent auditor and the Company's compliance with legal and regulatory requirements. The Audit Committee has the sole authority and responsibility to appoint, compensate, evaluate and, when appropriate, replace the Company's independent auditor. In making such determinations, the Audit Committee considers, among other things, the recommendations of management of the Company. The Board has determined that all of the Audit Committee's members are independent under the applicable independence standards of the NASDAQ and the Exchange Act.

The Audit Committee serves in an oversight capacity and is not part of the Company's managerial or operational decision-making process. Management is responsible for the financial reporting process, including the system of internal controls, and the preparation of consolidated financial statements in accordance with accounting principles generally accepted in the United States. The Company's independent auditor, Deloitte & Touche, is responsible for auditing those financial statements and expressing an opinion as to their conformity with accounting principles generally accepted in the United States and expressing an opinion on the effectiveness

of the Company's internal control over financial reporting. Our responsibility is to oversee the financial reporting process and the Company's internal control over financial reporting. We rely, without independent verification, on the information provided to us and on the representations made by management, the internal auditor and the independent auditor.

The Audit Committee held 3 meetings during 2009. With respect to 2009, the Audit Committee, among other things:

reviewed and discussed the Company's quarterly earnings release;

reviewed and discussed the (i) quarterly unaudited consolidated financial statements and related notes and the (ii) audited consolidated financial statements and related notes for the year ended December 31, 2009 with management and Deloitte & Touche;

reviewed and discussed the annual plan and scope of work of the independent auditor;

reviewed and discussed the annual plan and scope of work of the internal auditor and summaries of significant reports to management by the internal auditor;

met with Deloitte & Touche, the internal auditor, the General Counsel and Company management in executive sessions;

reviewed and discussed the critical accounting policies set forth in the Company's Quarterly Report on Form 10-Q; and

reviewed business and financial market conditions, including an assessment of risks posed to Verisk's operations and financial condition.

We discussed with Deloitte & Touche matters that independent registered public accounting firms must discuss with audit committees under generally accepted auditing standards and standards of the Public Company Accounting Oversight Board, including, among other things, matters related to the conduct of the audit of the Company's consolidated financial statements and the matters required to be discussed by Public Company Accounting Oversight Board (PCAOB) AU 380, Communication with Audit Committees and SEC Rule 2-07 of Regulation S-X. This review included a discussion with management and the independent auditor of the quality (not merely the acceptability) of the Company's accounting principles, the reasonableness of significant estimates and judgments, and the disclosures in the Company's consolidated financial statements, including the disclosures relating to critical accounting policies.

Deloitte & Touche also provided to the Audit Committee the written disclosures and the letter required by applicable requirements of PCAOB Ethics and Independence Rule 3526, Communication with Audit Committees Concerning Independence, regarding its communications with us concerning independence, and represented that it is independent from the Company. We discussed with Deloitte & Touche their independence from the Company and considered if services they provided to the Company beyond those rendered in connection with their audit of the Company's consolidated financial statements, and reviews of the Company's interim condensed consolidated financial statements included in its Quarterly Report on Form 10-Q compromise independence.

During 2009, we also received regular updates on the amount of fees and scope of audit and audit-related services provided. Pursuant to the preapproval policies and procedures related to the provision of audit and non-audit services by the independent auditors as described above under Preapproval Policy of the Audit Committee of Services Performed by Independent Auditors, we preapproved the hiring of Deloitte & Touche to provide non-audit services primarily related to expatriate income tax services and regulatory filings for our foreign subsidiaries.

Based on our review and these meetings, discussions and reports discussed above, and subject to the limitations on our role and responsibilities referred to above and in the Audit Committee charter, we recommended that the Company's audited consolidated financial statements for the year ended December 31,

2009 be included in the Company's Annual Report on Form 10-K. We also selected Deloitte & Touche as the Company's independent auditor for 2010 and are presenting the selection to the shareholders for ratification.

Based solely upon our review of forms filed by our directors and executive officers during the most recent fiscal year, we believe that all required reports have been timely filed under the SEC's rules for reporting transactions by executive officers and directors in our common stock.

Other Business. We do not know of any other matters that may be presented for action at the meeting other than those described in this Proxy Statement. If any other matter is properly brought before the meeting, the proxy holders will vote on such matter in their discretion.

Shareholder Nominations for Director Candidates. The Nominating and Corporate Governance Committee oversees searches for and identifies qualified individuals for membership on Verisk's Board. The Nominating and Corporate Governance Committee's written charter requires the Committee to review candidates' qualifications for membership on the Board or a committee of the Board, including making a specific determination as to the independence of each candidate, based on the criteria approved by the Board (and taking into account the enhanced independence, financial literacy and financial expertise standards that may be required under law or NASDAQ rules for Audit Committee membership purposes). The Nominating and Corporate Governance Committee is also required to review the composition of the Board and its committees in light of the current challenges and needs of the Board, the Company and each committee, and determine whether it may be appropriate to add or remove individuals after considering issues of judgment, diversity, age, skills, background and experience.

Shareholders of record complying with the notice procedures set forth below may make director recommendations for consideration by the Nominating and Corporate Governance Committee. Shareholders may make recommendations at any time, but recommendations for consideration as nominees at the annual meeting of shareholders must be received not less than 60 days before nor more than 90 days prior to the first anniversary of the date that the proxy statement was released to shareholders in connection with the previous year's annual meeting. Therefore, to submit a candidate for consideration for nomination at the 2011 annual meeting of shareholders, shareholders must submit the recommendation, in writing, by April 15, 2011. The written notice must demonstrate that it is being submitted by a shareholder of record of Verisk and include information about each proposed director candidate, including name, age, business address, principal occupation, principal qualifications and other relevant biographical information. In addition, the shareholder must confirm his or her candidate's consent to serve as a director.
