Item 1.01. Entry into a Material Definitive Agreement.

On November 17, 2010 we entered into a custom technology access and product license agreement with BioZone Laboratories, Inc. (BioZone) for the co-development and strategic licensing of a portfolio of up to 20 aesthetics, advanced skin care formulations and other products for Cardium s MedPodiumTM product line.

The agreement grants Cardium a royalty-free license of BioZone technology to develop a portfolio of 20 products, customized to Cardium s product specifications. Cardium will have exclusive rights to the products developed to its specifications. The license is for a term of 10 years

In exchange for the technology access license Cardium has agreed to pay BioZone a fee of \$1.0 million. The license fee is payable in shares of Cardium s unregistered common stock priced at \$0.50 per share. The common stock is subject to certain lock up restrictions and will be held in an escrow account, to be released to BioZone beginning six months following the closing date of the transaction with such shares being released in five equal monthly installments.

Under the terms of the agreement, BioZone will provide manufacturing services to Cardium. Cardium has been granted a right of first refusal with respect to any potential sale of BioZone or BioZone assets, under which Cardium would be entitled to acquire BioZone or BioZone assets as applicable on the same terms and conditions as negotiated to mutual acceptability with any third party.

The foregoing description of the agreement is not complete and is qualified in its entirety by reference to the full text of the agreement which is filed as Exhibit 10.1 to this Current Report on Form 8-K and incorporated herein by reference.
