Securities registered pursuant to Section 12(b) of the Act:

Edgar Filing: LANDSTAR SYSTEM INC - Form 10-K

Title of Each Class	Name of Exchange on Which Registered
Common Stock, \$0.01 Par Value	The NASDAQ Stock Market, Inc.
Securities Registered Pursuant to Section 12(g) of the Act:	

None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files): Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value of the voting stock held by non-affiliates of the registrant was \$2,130,401,000 (based on the per share closing price on June 25, 2011, the last business day of the Company's second fiscal quarter, as reported on the NASDAQ Global Select Market). In making this calculation, the registrant has assumed, without admitting for any purpose, that all directors and executive officers of the registrant, and no other persons, are affiliates.

The number of shares of the registrant's common stock, par value \$0.01 per share (the "Common Stock"), outstanding as of the close of business on January 27, 2012 was 46,721,147.

PART I**Item 1. Business**
General

Landstar System, Inc. was incorporated in January 1991 under the laws of the State of Delaware. It acquired all of the capital stock of its predecessor, Landstar System Holdings, Inc. (LSHI) on March 28, 1991. Landstar System, Inc. has been a publicly held company since its initial public offering in March 1993. LSHI owns directly or indirectly all of the common stock of Landstar Ranger, Inc. (Landstar Ranger), Landstar Inway, Inc. (Landstar Inway), Landstar Ligon, Inc. (Landstar Ligon), Landstar Gemini, Inc. (Landstar Gemini), Landstar Transportation Logistics, Inc. (Landstar Transportation Logistics), Landstar Global Logistics, Inc. (Landstar Global Logistics), Landstar Express America, Inc. (Landstar Express America), Landstar Canada Holdings, Inc. (LCHI), Landstar Canada, Inc. (Landstar Canada), Landstar Contractor Financing, Inc. (LCFI), Signature Technology Services, Inc. (STSI), Risk Management Claim Services, Inc. (RMCS), Landstar Supply Chain Solutions, Inc. (LSCS), Landstar Supply Chain Solutions LLC (LSCSLLC) and Signature Insurance Company (Signature). Landstar Ranger, Landstar Inway, Landstar Ligon, Landstar Gemini, Landstar Transportation Logistics, Landstar Global Logistics, Landstar Express America, LSCS, LSCSLLC and Landstar Canada are collectively herein referred to as Landstar s Operating Subsidiaries. Landstar System, Inc., LSHI, LCFI, STSI, RMCS, LCHI, Signature and the Operating Subsidiaries are collectively referred to herein as Landstar or the Company, unless the context otherwise requires. The Company s principal executive offices are located at 13410 Sutton Park Drive South, Jacksonville, Florida 32224 and its telephone number is (904) 398-9400. The Company makes available free of charge through its website its annual report on Form 10-K, quarterly reports on Form 10-Q, proxy and current reports on Form 8-K as soon as reasonably practicable after such material is electronically filed with the Securities and Exchange Commission (SEC). The Company s website is www.landstar.com. The SEC maintains a website at <http://www.sec.gov> that contains the Company s current and periodic reports, proxy and information statements and other information filed electronically with the SEC.

Description of Business

Landstar is a non-asset based provider of freight transportation services and supply chain solutions. The Company offers services to its customers across multiple transportation modes, with the ability to arrange for individual shipments of freight to enterprise-wide solutions to manage all of a customer s transportation and logistics needs. Landstar provides services principally throughout the United States and to a lesser extent in Canada and between the United States and Canada, Mexico and other countries around the world. The Company s services emphasize safety, information coordination and customer service and are delivered through a network of independent commission sales agents and third party capacity providers linked together by a series of information technology systems which are provided and coordinated by the Company. Landstar exclusively utilizes third party capacity providers to transport and store customers freight. The nature of the Company s business is such that a significant portion of its operating costs varies directly with revenue.

Landstar markets its freight transportation services and supply chain solutions primarily through independent commission sales agents who enter into contractual arrangements with the Company and are responsible for locating freight, making that freight available to Landstar s third party capacity providers and coordinating the transportation of the freight with customers and capacity providers. The Company s third party capacity providers consist of independent contractors who provide truck capacity to the Company under exclusive lease arrangements (the BCO Independent Contractors), unrelated trucking companies who provide truck capacity to the Company under non-exclusive contractual arrangements (the Truck Brokerage Carriers), air cargo carriers, ocean cargo carriers, railroads and independent warehouse capacity providers (Warehouse Capacity Owners). Through this network of agents and capacity providers linked together by Landstar s information technology systems, Landstar operates a transportation services and supply chain solutions business primarily throughout North America with revenue of \$2.6 billion during the most recently completed fiscal year.

The Company reports the results of two operating segments: the transportation logistics segment and the insurance segment.

Transportation Logistics Segment

The transportation logistics segment provides a wide range of transportation services and supply chain solutions. Transportation services offered by the Company include truckload and less-than-truckload transportation, rail intermodal, air cargo, ocean cargo, expedited ground and air delivery of time-critical freight, heavy-haul/specialized, U.S.-Canada and U.S.-Mexico cross-border, project cargo and customs brokerage. Supply chain solutions are based on advanced technology solutions utilizing intellectual property that may be owned by the Company or licensed from third parties. Such solutions as offered to shippers by the Company may include integrated multi-modal solutions, outsourced logistics, supply chain engineering and warehousing. Industries serviced by the transportation logistics segment include automotive products, paper, lumber and building products, metals, chemicals, foodstuffs, heavy machinery, retail, electronics, ammunition and explosives and military equipment. In addition, the transportation logistics segment provides transportation services to other transportation companies, including logistics and less-than-truckload service providers. Each of the Company's independent commission sales agents has the opportunity to market all of the services provided by the transportation logistics segment. Freight transportation services are typically charged to customers on a per shipment basis for the physical transportation of freight. Supply chain solution customers are generally charged fees for the services provided. Revenue recognized by the transportation logistics segment when providing capacity to customers to haul their freight is referred to herein as transportation services revenue and revenue for freight management services recognized on a fee-for-service basis is referred to herein as transportation management fees. See Notes to Consolidated Financial Statements for the amount of revenue from external customers, measure of profit and total assets attributable to the transportation logistics segment for the last three fiscal years.

Truck Services. The transportation logistics segment's truckload services include a full array of truckload transportation for a wide range of commodities, much of which are transported over irregular or non-repetitive routes. The Company utilizes a broad assortment of equipment, including dry and specialty vans of various sizes, unsided trailers (including flatbeds, drop decks and light specialty trailers), temperature-controlled vans and containers. Available truckload services also include short-to-long haul movement of containers by truck and expedited ground and dedicated power-only truck capacity. During the fifty-three week fiscal year 2011, revenue hauled by BCO Independent Contractors and Truck Brokerage Carriers was 53% and 40%, respectively, of total transportation logistics segment revenue. The Company's truck services contributed 92%, 92% and 91% of total revenue in fiscal year 2011, 2010 and 2009, respectively.

Rail Intermodal Services. The transportation logistics segment has contracts with Class 1 domestic and Canadian railroads, certain short-line railroads and most major asset-based intermodal equipment providers, including agreements with stacktrain operators and container and trailing equipment companies. In addition, the transportation logistics segment has contracts with a vast network of local trucking companies that handle pick-up and delivery of rail freight. These contracts provide the transportation logistics segment the ability to transport freight via rail throughout the United States, Canada and Mexico. The transportation logistics segment's rail intermodal service capabilities include trailer on flat car, container on flat car, box car and railcar. The transportation logistics segment's rail intermodal services contributed 3% of total revenue in fiscal year 2011.

Air and Ocean Services. The transportation logistics segment has contracts with domestic and international airlines and ocean lines. These contracts give the transportation logistics segment the capability to provide domestic and international air services and international ocean services to its customers. The transportation logistics segment executes international freight transportation as an IATA certified Indirect Air Carrier (IAC) and Federal Maritime Commission (FMC) licensed non-vessel operating common carrier (NVOCC). The transportation logistics segment also provides international freight transportation solutions as a licensed freight forwarder. Through its network of independent commission sales agents and relationships within a global network of foreign freight forwarders, the transportation logistics segment provides efficient and cost

effective door-to-door transportation to most points in the world for a vast array of cargo types such as over sized break bulk, consolidations, full container loads and refrigerated. The transportation logistics segment's air and ocean services contributed 3% of total revenue in fiscal year 2011.

Supply Chain Services. The transportation logistics segment offers customers technology-based supply chain solutions and other value-added services on a fee-for-service basis and in conjunction with the Company's transportation service offerings. Service capabilities include logistics order management, shipment planning and optimization, rate management, transportation sourcing, in-transit visibility and shipment execution. The transportation logistics segment also offers warehousing solutions that provide customers with nationwide access to available warehouse capacity utilizing a network of independently owned and operated regional warehouse facilities without Landstar owning or leasing facilities or hiring employees to work at warehouses. The transportation logistics segment's transportation management fee services contributed 1% of total revenue in fiscal year 2011.

Insurance Segment

The insurance segment is comprised of Signature, a wholly owned offshore insurance subsidiary, and RMCS. This segment provides risk and claims management services to certain of Landstar's Operating Subsidiaries. In addition, it reinsures certain risks of the Company's BCO Independent Contractors and provides certain property and casualty insurance directly to certain of Landstar's Operating Subsidiaries. Revenue, representing premiums on reinsurance programs provided to the Company's BCO Independent Contractors, at the insurance segment represented approximately 1% of total revenue in fiscal year 2011. See Notes to Consolidated Financial Statements for the amount of revenue from external customers, measure of profit and total assets attributable to the Insurance Segment for the last three fiscal years.

Factors Significant to the Company's Operations

Management believes the following factors are particularly significant to the Company's operations:

Agent Network

The Company's primary day-to-day contact with its customers is through its network of independent commission sales agents and, to a lesser extent, through employees of the Company. The typical Landstar independent commission sales agent maintains a relationship with a number of shippers and services these shippers utilizing the Company's network of information technology systems and the various modes of transportation made available through the Company's network of third party capacity providers. The Company provides assistance to the agents in developing additional relationships with shippers and enhancing agent and Company relationships with larger shippers through the Company's field employees, located throughout the United States and, to a lesser degree, in Canada. The Operating Subsidiaries emphasize programs to support the agents' operations and to provide guidance on establishing pricing parameters for freight hauled by the various modes of transportation available to the agents. It is important to note that the Operating Subsidiaries, and not the Company's agents, contract directly with customers and generally assume the related credit risk and potential liability for freight losses or damages when the Company is providing transportation services as a motor carrier.

Management believes the Company has more independent commission sales agents than any other non-asset based transportation and logistics services company. Landstar's vast network of independent commission sales agent locations provides the Company regular contact with shippers at the local level and the capability to be highly responsive to shippers' changing needs. The Company's large fleet of available capacity provides the agent network the resources needed to service both large and small shippers. Through its agent network, the Company offers smaller shippers a level of service comparable to that typically enjoyed only by larger customers. Examples include the ability to provide transportation services on short notice (often within hours of notification to time of pick-up), multiple pick-up and delivery points, electronic data interchange capability and access to specialized equipment. In addition, a number of the Company's agents specialize in certain types of

freight and transportation services (such as oversized or heavy loads and/or rail, air and international freight transportation). Each independent commission sales agent has the opportunity to market all of the services provided by the transportation logistics segment.

The independent commission sales agents use a variety of proprietary and third party information technology applications, depending on the mode of transportation, provided by the Company to service the requirements of shippers. For truck services, the Company's independent commission sales agents use Landstar proprietary software which enables agents to enter available freight, dispatch capacity and process most administrative procedures and then communicate that information to Landstar and its capacity providers via the internet. The Company's web-based available truck information system provides a listing of available truck capacity to the Company's independent commission sales agents. For other modes, the independent commission sales agents utilize mostly third party information technology applications provided by the Company.

Commissions to agents are based on contractually agreed-upon percentages of revenue or net revenue, defined as revenue less the cost of purchased transportation, or net revenue less a contractually agreed upon percentage of revenue retained by Landstar. Commissions to agents as a percentage of consolidated revenue will vary directly with fluctuations in the percentage of consolidated revenue generated by the various modes of transportation, transportation management fees and the insurance segment and with changes in net revenue margin on services provided by Truck Brokerage Carriers, rail intermodal carriers, air cargo carriers and ocean cargo carriers. Commissions to agents are recognized upon the completion of freight delivery.

The Company reported 504 and 468 agents who generated at least \$1 million each in Landstar revenue during 2011 and 2010, respectively (the Million Dollar Agents). Landstar revenue from Million Dollar Agents in the aggregate represented 91% and 89% of total Landstar revenue in 2011 and 2010, respectively. During 2010, one agent generated approximately \$216,000,000, or 9%, of Landstar's total revenue, but contributed less than 1% of Landstar's gross profit, defined as revenue less the cost of purchased transportation and commissions to agents. Historically, the Company has experienced very low turnover among its Million Dollar Agents, as annual turnover among Million Dollar Agents is typically less than 3%. Management believes that the majority of the Million Dollar Agents choose to represent the Company exclusively.

Transportation Capacity

The Company relies exclusively on independent third parties for its hauling capacity other than for a portion of the Company's available trailing equipment owned or leased by the Company and utilized primarily by the BCO Independent Contractors. These third party transportation capacity providers consist of BCO Independent Contractors, Truck Brokerage Carriers, air and ocean cargo carriers and railroads. Landstar's use of capacity provided by third parties allows it to maintain a lower level of capital investment, resulting in lower fixed costs. During the most recently completed fiscal year, revenue hauled by BCO Independent Contractors, Truck Brokerage Carriers and rail intermodal, air and ocean cargo carriers represented 53%, 40%, 3%, 1% and 2%, respectively, of the Company's transportation logistics segment revenue. Transportation management fees represented 1% of the transportation logistics segment revenue in the most recently completed fiscal year. Historically, the gross profit margin (defined as gross profit divided by revenue) generated from freight hauled by BCO Independent Contractors has been greater than that from freight hauled by other third party capacity providers. However, the Company's insurance and claims costs and other operating costs are incurred primarily in support of the BCO Independent Contractor capacity. In addition, as further described in the Corporate Services section that follows, the Company incurs significantly higher selling, general and administrative costs in support of the BCO Independent Contractor capacity as compared to the other modes of transportation. Purchased transportation costs are recognized upon the completion of freight delivery.

BCO Independent Contractors. Management believes the Company has the largest fleet of truckload BCO Independent Contractors in the United States. BCO Independent Contractors provide truck capacity to the Company under exclusive lease arrangements. Each BCO Independent Contractor operates under the motor carrier operating authority issued by the U.S. Department of Transportation (DOT) to Landstar's Operating Subsidiary to which such BCO Independent Contractor has leased his or her services and equipment. The Company's network of BCO Independent Contractors provides marketing, operating, safety, recruiting, retention and financial advantages to the Company.

The Company's BCO Independent Contractors are compensated based on a fixed percentage of the revenue generated from the freight they haul. This percentage generally ranges from 62% to 73% where the BCO Independent Contractor provides only a tractor and 73% to 75% where the BCO Independent Contractor provides both a tractor and a trailer. The BCO Independent Contractor must pay substantially all of the expenses of operating his/her equipment, including driver wages and benefits, fuel, physical damage insurance, maintenance, highway use taxes and debt service, if applicable. The Company passes 100% of fuel surcharges billed to customers for freight hauled by BCO Independent Contractors to its BCO Independent Contractors. During 2011, the Company billed customers \$285.7 million in fuel surcharges and passed 100% of such fuel surcharges to the BCO Independent Contractors. These fuel surcharges are excluded from revenue.

The Company maintains an internet site through which BCO Independent Contractors can view a comprehensive listing of the Company's available freight, allowing them to consider rate, size, origin and destination when planning trips. The Landstar Contractors Advantage Purchasing Program (LCAPP) leverages Landstar's purchasing power to provide discounts to eligible BCO Independent Contractors when they purchase equipment, fuel, tires and other items. In addition, LCFI provides a source of funds at competitive interest rates to the BCO Independent Contractors to purchase primarily trailing equipment and mobile communication equipment.

The number of trucks provided to the Company by BCO Independent Contractors was 8,371 at December 31, 2011, compared to 8,452 at December 25, 2010. At December 31, 2011, 97% of the trucks provided by BCO Independent Contractors were provided by BCO Independent Contractors who provided five or fewer trucks to the Company. The number of trucks provided by BCO Independent Contractors fluctuates daily as a result of truck recruiting and truck terminations. Trucks recruited were lower in 2011 than in 2010, and trucks terminated were also lower in 2011 compared to 2010, resulting in a net loss of 81 trucks during 2011. Landstar's BCO Independent Contractor truck turnover was approximately 27% in 2011 compared to 31% in 2010. Approximately 36% of 2011 turnover was attributable to BCO Independent Contractors who had been with the Company for less than one year. Management believes that factors that have historically favorably impacted turnover include the Company's extensive agent network, available freight, the Company's programs to reduce the operating costs of its BCO Independent Contractors and Landstar's reputation for quality, service and reliability and its financial strength.

Truck Brokerage Carriers. At December 31, 2011, the Company maintained a database of over 28,000 approved Truck Brokerage Carriers who provide truck hauling capacity to the Company. Truck Brokerage Carriers provide truck capacity to the Company under non-exclusive contractual arrangements and each operates under their own DOT-issued motor carrier operating authority. Truck Brokerage Carriers are paid either a negotiated rate for each load they haul or a contractually agreed-upon amount per load. The Company recruits, qualifies, establishes contracts with, tracks safety ratings and service records of and generally maintains the relationships with these third party trucking companies. In addition to providing additional capacity to the Company, the use of Truck Brokerage Carriers enables the Company to pursue different types and quality of freight such as temperature-controlled, short-haul traffic and less-than-truckload and, in certain instances, lower-priced freight that generally would not be handled by the Company's BCO Independent Contractors.

The Company maintains an internet site through which Truck Brokerage Carriers can view a listing of the Company's freight that is available to be hauled by Truck Brokerage Carriers. The Landstar Savings Plus Program leverages Landstar's purchasing power to provide discounts to eligible Truck Brokerage Carriers when they purchase fuel and equipment and provides the Truck Brokerage Carriers with an electronic payment option.

Third Party Rail Intermodal, Air and Ocean. The Company has contracts with Class 1 domestic and Canadian railroads, certain short-line railroads and domestic and international airlines and ocean lines. These relationships allow the Company to pursue the freight best serviced by these forms of transportation capacity. Railroads and air and ocean cargo carriers are generally paid a contractually fixed amount per load. The Company also contracts with other third party capacity providers, such as air charter service providers, when required by specific customer needs.

Warehouse Capacity

The Company has contracts with Warehouse Capacity Owners throughout the United States. The services available to the Company's customers provided from the warehouse capacity network include storage, order fulfillment, repackaging, labeling, inventory consolidations, sub-assembly and temperature and climate options. In general, Warehouse Capacity Owners are paid a fixed percentage of the gross revenue for storage and services provided through their warehouse. Warehouse storage and services revenue is reported net of the amount earned by the Warehouse Capacity Owner. Historically, warehousing services have not been a significant contributor to revenue or earnings. However, management believes that this service offering and relationships with Warehouse Capacity Owners provide the Company with additional transportation services opportunities.

Trailing Equipment

The Company offers its customers a large and diverse fleet of trailing equipment. Specialized services offered by the Company include those provided by a large fleet of flatbed trailers and multi-axle trailers capable of hauling extremely heavy or oversized loads. Management believes the Company, along with its network of capacity providers, offers the largest fleet of heavy/specialized trailing equipment in the United States.

The following table illustrates the diversity of the trailing equipment as of December 31, 2011, either provided by the BCO Independent Contractors or owned or leased by the Company and made available primarily to BCO Independent Contractors. In general, Truck Brokerage Carriers utilize their own trailing equipment when providing transportation services on behalf of Landstar. Truck Brokerage Carrier trailing equipment is not included in the following table:

Trailers by Type	
Vans	9,823
Flatbeds, including step decks, drop decks and low boys	3,424
Temperature-controlled	73
Total	13,320

At December 31, 2011, 8,776 of the trailers available to the BCO Independent Contractors were owned by the Company and 353 were rented by the Company under short-term rental arrangements. In addition, at December 31, 2011, 4,191 trailers were provided by the BCO Independent Contractors.

Customers

The Company's customer base is highly diversified and dispersed across many industries, commodities and geographic regions. The Company's top 100 customers accounted for approximately 44% and 49%, respectively, of the Company's revenue during fiscal years 2011 and 2010. Management believes that the Company's overall

size, technological applications, geographic coverage, access to equipment and diverse service capability offer the Company significant competitive marketing and operating advantages. These advantages allow the Company to meet the needs of even the largest shippers. Larger shippers often consider reducing the number of authorized carriers they use in favor of a small number of core carriers, such as the Company, whose size and diverse service capabilities enable these core carriers to satisfy most of the shippers' transportation needs. The Company's national account customers include the United States Department of Defense and many of the companies included in the Fortune 500. Large shippers are also using third party logistics providers (3PLs) to outsource the management and coordination of their transportation needs. The Company's supply chain solutions services provide shippers the opportunity to outsource the management and coordination of their transportation needs and provide these shippers the opportunity to utilize the significant amount of capacity available from the Company. 3PLs and other transportation companies also utilize the Company's transportation capacity to satisfy their obligations to their shippers. There were 10 transportation service providers, including 3PLs, included in the Company's top 25 customers for the fiscal year ended December 31, 2011. Management believes the Company's network of agents and third party capacity providers allows it to efficiently attract and service smaller shippers which may not be as desirable to other large transportation providers (see above under Agent Network). No customer accounted for more than 10% of the Company's 2011 revenue.

Technology

Management believes leadership in the development and application of information systems technology is an ongoing part of providing high quality service at competitive prices. The Company continues to focus on identifying, purchasing or developing and implementing software applications which are designed to improve its operational and administrative efficiency, assist its independent commission sales agents in sourcing capacity and pricing transportation services, assist customers in meeting their supply chain needs and assist its third party capacity providers in identifying desirable freight. Landstar focuses on providing transportation services and supply chain solutions which emphasize customer service and information coordination among its independent commission sales agents, customers and capacity providers. In 2009, the Company completed two separate acquisitions of companies that each offer customers technology-based supply chain solutions and other value-added services. These services provide the Company with the ability to offer customers complete enterprise solutions and compete in the freight management segment of the transportation industry. Landstar intends to continue to purchase or develop appropriate systems and technologies that offer integrated transportation and logistics solutions to meet the total needs of its customers.

The Company's information technology systems used in connection with its operations are located in Jacksonville, Florida and, to a lesser extent, in Rockford, Illinois and Southfield, Michigan. In addition, the Company utilizes several third-party data centers throughout the U.S. Landstar relies, in the regular course of its business, on the proper operation of its information technology systems.

Corporate Services

The Company provides many administrative support services to its network of independent commission sales agents, third party capacity providers and customers. Management believes that the technological applications purchased or developed and maintained by the Company and its administrative support services provide operational and financial advantages to its independent commission sales agents, third party capacity providers and customers. These, in turn, enhance the operational and financial efficiency of all aspects of the network.

Administrative support services that provide operational and financial advantages to the network include customer contract administration, customer credit review and approvals, sales administration and pricing, customer billing, accounts receivable collections, third party capacity payment, safety and operator and equipment compliance management, insurance claims handling, coordination of vendor discount programs and third party capacity quality programs. The Company also provides marketing and advertising strategies.

Management also believes that significant advantages result from the collective expertise and corporate services provided by Landstar's corporate management. The primary functions provided by management include finance and treasury services, accounting, strategic initiatives, budgeting, taxes, legal and human resource management.

Competition

Landstar competes primarily in the transportation and logistics services industry with truckload carriers, third party logistics companies, intermodal transportation and logistics service providers, railroads, less-than-truckload carriers and other non-asset based transportation and logistics service providers. The transportation and logistics services industry is extremely competitive and fragmented.

Management believes that competition for freight transported by the Company is based on service, efficiency and freight rates, which are influenced significantly by the economic environment, particularly the amount of available transportation capacity and freight demand. Management believes that Landstar's overall size and availability of a wide range of equipment, together with its geographically dispersed local independent agent network and wide range of service offerings, present the Company with significant competitive advantages over many transportation and logistics service providers.

Self-Insured Claims

Potential liability associated with accidents in the trucking industry is severe and occurrences are unpredictable. For commercial trucking claims, Landstar retains liability up to \$5,000,000 per occurrence. The Company also retains liability for each general liability claim up to \$1,000,000, \$250,000 for each workers' compensation claim and up to \$250,000 for each cargo claim. The Company's exposure to liability associated with accidents incurred by Truck Brokerage Carriers, rail intermodal capacity providers and air cargo and ocean cargo carriers who transport freight on behalf of the Company is reduced by various factors including the extent to which they maintain their own insurance coverage. A material increase in the frequency or severity of accidents, cargo claims or workers' compensation claims or the unfavorable development of existing claims could be expected to materially adversely affect Landstar's cost of insurance and claims and its results of operations.

For the fiscal year ended and as of December 31, 2011, the Company maintains insurance for liabilities attributable to commercial trucking accidents with third party insurance companies for each and every occurrence in an amount in excess of the Company's \$5,000,000 self-insured retention. Historically, the Company has relied on a limited number of third party insurance companies to provide insurance coverage for commercial trucking claims in excess of specific per occurrence limits, up to various maximum amounts. The premiums proposed by the third party insurance companies providing coverage for commercial trucking liability insurance up to the Company's self-insured retention amounts have typically exceeded the Company's cost of claims. In an attempt to manage the cost of insurance and claims, the Company has historically increased or decreased the level of its financial exposure to commercial trucking claims on a per occurrence basis by increasing or decreasing its level of self-insured retention based on the estimated cost differential between proposed premiums from the third-party insurance companies and historical losses experienced by the Company at various levels of self-insured retention.

Regulation

Certain of the Operating Subsidiaries are considered motor carriers and/or brokers authorized to arrange for transportation services by motor carriers which are regulated by the Federal Motor Carrier Safety Administration (the FMCSA) and by various state agencies. The FMCSA has broad regulatory powers with respect to activities such as motor carrier operations, practices, periodic financial reporting and insurance. Subject to federal and state regulatory authorities or regulation, the Company's capacity providers may transport most types of freight to and from any point in the United States over any route selected.

Interstate motor carrier operations are subject to safety requirements prescribed by the FMCSA. Each driver, whether a BCO Independent Contractor or Truck Brokerage Carrier, is required to have a commercial driver's license and may be subject to mandatory drug and alcohol testing. The FMCSA's commercial driver's license and drug and alcohol testing requirements have not adversely affected the Company's ability to source the capacity necessary to meet its customers' transportation needs.

In addition, certain of the Operating Subsidiaries are licensed as ocean transportation intermediaries by the U.S. Federal Maritime Commission as non-vessel-operating common carriers and/or as ocean freight forwarders. The Company's air transportation activities in the United States are subject to regulation by the U.S. Department of Transportation as an indirect air carrier. The Company is also subject to regulations and requirements relating to safety and security promulgated by, among others, the U.S. Department of Homeland Security through the Bureau of U.S. Customs and Border Protection and the Transportation Security Administration, the Canada Border Services Agency and various state and local agencies and port authorities.

The transportation industry is subject to possible other regulatory and legislative changes (such as the possibility of more stringent environmental, climate change and/or safety/security regulations or limits on vehicle weight and size) that may affect the economics of the industry by requiring changes in operating practices or by changing the demand for motor carrier services or the cost of providing truckload or other transportation or logistics services.

In addition, because the U.S. government is one of the Company's customers, the Company must comply with and is affected by laws and regulations related to doing business with the federal government. U.S. government agencies, including various agency Inspectors General, routinely audit and investigate government contractors. See *Risk Factors* *Doing Business with the Federal Government*.

Seasonality

Landstar's operations are subject to seasonal trends common to the trucking industry. Results of operations for the quarter ending in March are typically lower than the quarters ending in June, September and December.

Employees

As of December 31, 2011, the Company and its subsidiaries employed 1,351 individuals. Approximately 11 Landstar Ranger drivers (out of a Company total of 8,371 drivers for BCO Independent Contractors) are members of the International Brotherhood of Teamsters. The Company considers relations with its employees to be good.

Item 1A. *Risk Factors*

Increased severity or frequency of accidents and other claims. As noted above in Item 1, *Business Factors* Significant to the Company's Operations *Self-Insured Claims*, potential liability associated with accidents in the trucking industry is severe and occurrences are unpredictable. For commercial trucking claims, Landstar retains liability up to \$5,000,000 per occurrence. The Company also retains liability for each general liability claim up to \$1,000,000, \$250,000 for each workers' compensation claim and up to \$250,000 for each cargo claim. The Company's exposure to liability associated with accidents incurred by Truck Brokerage Carriers, rail intermodal carriers, air cargo carriers and ocean cargo carriers who transport freight on behalf of the Company is reduced by various factors including the extent to which they maintain their own insurance coverage. A material increase in the frequency or severity of accidents, cargo claims or workers' compensation claims or the unfavorable development of existing claims could be expected to materially adversely affect Landstar's results of operations, particularly given the Company's relatively high self-insured retention on commercial trucking claims.

Dependence on third party insurance companies. As noted above in Item 1, Business Factors Significant to the Company's Operations Self-Insured Claims, the Company is dependent on a limited number of third party insurance companies to provide insurance coverage in excess of its self-insured retention amounts. Historically, the Company has maintained insurance coverage for commercial trucking claims in excess of specific per occurrence limits, up to various maximum amounts, with a limited number of third party insurance companies. In an attempt to manage the cost of insurance and claims, the Company has historically increased or decreased the level of its financial exposure to commercial trucking claims on a per occurrence basis by increasing or decreasing its level of self-insured retention based on the estimated cost differential between proposed premiums from third-party insurance companies and historical losses experienced by the Company at various levels of self-insured retention. To the extent that the third party insurance companies propose increases to their premiums for coverage of commercial trucking claims, the Company may pay such increased premiums or increase its financial exposure on an aggregate or per occurrence basis, including by increasing the amount of its self-insured retention. However, to the extent the third party insurance companies propose reduced premiums for coverage of commercial trucking claims, the Company may reduce its financial exposure on an aggregate or per occurrence basis, including by decreasing the amount of its self-insured retention. In addition, no assurance can be given that insurance coverage from third party insurers for claims in excess of its current \$5 million self-insured retention will continue to be available on commercially reasonable terms.

Dependence on independent commission sales agents. As noted above in Item 1, Business Factors Significant to the Company's Operations Agent Network, the Company markets its services primarily through independent commission sales agents. During 2011, 504 agents generated revenue for Landstar of at least \$1 million each (the Million Dollar Agents), or approximately 91% of Landstar's consolidated revenue. Landstar competes with motor carriers and other third parties for the services of these independent commission sales agents. Landstar has historically experienced very limited agent turnover among its Million Dollar Agents. There can be no assurances, however, that Landstar will continue to experience very limited turnover of its Million Dollar Agents in the future. Landstar's contracts with its agents, including its Million Dollar Agents, are typically terminable without cause upon 10 to 30 days' notice by either party and generally contain significant but not unqualified non-compete provisions limiting the ability of a former agent to compete with Landstar for a specified period of time post-termination, and other restrictive covenants. The loss of some of the Company's Million Dollar Agents and/or a significant decrease in volume generated by other Million Dollar Agents could have a material adverse effect on Landstar, including its results of operations and revenue.

Dependence on third party capacity providers. As noted above in Item 1, Business Factors Significant to the Company's Operations Transportation Capacity, Landstar does not own trucks or other transportation equipment (other than trailing equipment) and relies on third party capacity providers, including BCO Independent Contractors, Truck Brokerage Carriers, railroads and air and ocean cargo carriers, to transport freight for its customers. The Company competes with motor carriers and other third parties for the services of BCO Independent Contractors and other third party capacity providers. The market for qualified truck owner-operators is very competitive among motor carriers and no assurances can be given that the Company will be able to maintain or expand the number of BCO Independent Contractors. A significant decrease in available capacity provided by either the Company's BCO Independent Contractors or other third party capacity providers could have a material adverse effect on Landstar, including its results of operations and revenue.

Decreased demand for transportation services. The transportation industry historically has experienced cyclical financial results as a result of slowdowns in economic activity, the business cycles of customers, price increases by capacity providers and other economic factors beyond Landstar's control. The Company's third party capacity providers other than BCO Independent Contractors can be expected to charge higher prices to cover increased operating expenses, such as any increases in the cost of fuel, and the Company's operating income may decline if it is unable to pass through to its customers the full amount of such higher transportation costs. If a slowdown in economic activity or a downturn in the Company's customers' business cycles cause a reduction in the volume of freight shipped by those customers, the Company's operating results could be materially adversely affected.

Substantial industry competition. As noted above in Item 1, *Business Factors Significant to the Company's Operations* Competition, Landstar competes primarily in the transportation and logistics services industry. This industry is extremely competitive and fragmented. Landstar competes primarily with truckload carriers, intermodal transportation service providers, railroads, less-than-truckload carriers, third party logistics companies and other non-asset based transportation and logistics service providers. Management believes that competition for the freight transported by the Company is based on service, efficiency and freight rates, which are influenced significantly by the economic environment, particularly the amount of available transportation capacity and freight demand. Historically, competition has created downward pressure on freight rates. In addition, many large shippers are using third party logistics providers (3PLs) other than the Company to outsource the management and coordination of their transportation needs rather than directly arranging for transportation services with carriers. As noted above, there were 10 transportation service providers, including 3PLs, included in the Company's top 25 customers for the fiscal year ended December 31, 2011. Usage by large shippers of 3PLs often provides carriers, such as the Company, with a less direct relationship with the shipper and, as a result, may increase pressure on freight rates while making it more difficult for the Company to compete primarily based on service and efficiency. A decrease in freight rates could have a material adverse effect on Landstar, including its revenue and operating income.

Disruptions or failures in the Company's computer systems. As noted above in Item 1, *Business Factors Significant to the Company's Operations* Technology, the Company's information technology systems used in connection with its operations are located in Jacksonville, Florida and to a lesser extent in Rockford, Illinois and Southfield, Michigan. In addition, the Company utilizes several third-party data centers throughout the U.S. Landstar relies in the regular course of its business on the proper operation of its information technology systems to link its extensive network of customers, agents and third party capacity providers, including its BCO Independent Contractors. Although the Company has redundant systems for its critical operations, any significant disruption or failure of its technology systems or those of third-party data centers on which it relies could significantly disrupt the Company's operations and impose significant costs on the Company.

Dependence on key vendors. As described above under *Dependence on third party insurance companies* and *Disruptions or failures in the Company's computer systems*, the Company is dependent on certain vendors, including third party insurance companies, third party data center providers, third party information technology application providers and third party payment system providers. Any inability to negotiate satisfactory terms with one of these key vendors or any other significant disruption to or termination of a relationship with one of these key vendors could disrupt the Company's operations and impose significant costs on the Company.

Potential changes in fuel taxes. From time to time, various legislative proposals are introduced to increase federal, state, or local taxes, including taxes on motor fuels. The Company cannot predict whether, or in what form, any increase in such taxes applicable to the transportation services provided by the Company will be enacted and, if enacted, whether or not the Company's Truck Brokerage Carriers would attempt to pass the increase on to the Company or if the Company will be able to reflect this potential increased cost of capacity, if any, in prices to customers. Any such increase in fuel taxes, without a corresponding increase in price to the customer, could have a material adverse effect on Landstar, including its results of operations and financial condition. Moreover, competition from other transportation service companies including those that provide non-trucking modes of transportation and intermodal transportation would likely increase if state or federal taxes on fuel were to increase without a corresponding increase in taxes imposed upon other modes of transportation.

Status of independent contractors. From time to time, various legislative or regulatory proposals are introduced at the federal or state levels to change the status of independent contractors' classification to employees for either employment tax purposes (withholding, social security, Medicare and unemployment taxes) or other benefits available to employees. Currently, most individuals are classified as employees or independent contractors for employment tax purposes based on 20 common-law factors rather than any definition found in the Internal Revenue Code or Internal Revenue Service regulations. In addition, under Section 530 of the Revenue Act of 1978, taxpayers that meet certain criteria may treat an individual as an independent contractor for employment tax purposes if they have been audited without being told to treat similarly situated workers as employees, if they have received a ruling from the Internal Revenue Service or a court decision affirming their treatment, or if they are following a long-standing recognized practice.

The Company classifies all of its BCO Independent Contractors and independent commission sales agents as independent contractors for all purposes, including employment tax and employee benefits. There can be no assurance that legislative, judicial, or regulatory (including tax) authorities will not introduce proposals or assert interpretations of existing rules and regulations that would change the employee/independent contractor classification of BCO Independent Contractors or independent commission sales agents doing business with the Company. Although management believes that there are no proposals currently pending that would significantly change the employee/independent contractor classification of BCO Independent Contractors or independent commission sales agents currently doing business with the Company, the costs associated with potential changes, if any, with respect to these BCO Independent Contractor and independent commission sales agent classifications could have a material adverse effect on Landstar, including its results of operations and financial condition if Landstar were unable to pass through to its customers the full amount of such higher transportation costs.

Regulatory and legislative changes. As noted above in Item 1, Business Factors Significant to the Company's Operations Regulation, certain of the Operating Subsidiaries are motor carriers and/or property brokers authorized to arrange for transportation services by motor carriers which are regulated by the Federal Motor Carrier Safety Administration (FMCSA), an agency of the U.S. Department of Transportation, and by various state agencies. Certain of the Operating Subsidiaries are licensed as ocean transportation intermediaries by the U.S. Federal Maritime Commission as non-vessel-operating common carriers and/or as ocean freight forwarders. The Company's air transportation activities in the United States are subject to regulation by the U.S. Department of Transportation as an indirect air carrier. The Company is also subject to regulations and requirements relating to safety and security promulgated by, among others, the U.S. Department of Homeland Security through the Bureau of U.S. Customs and Border Protection and the Transportation Security Administration, the Canada Border Services Agency and various state and local agencies and port authorities. The transportation industry is subject to possible regulatory and legislative changes (such as increasingly stringent environmental, climate change and/or safety/security regulations or limits on vehicle weight and size) that may affect the economics of the industry by requiring changes in operating practices or by changing the demand for common or contract carrier services or the cost of providing truckload or other transportation or logistics services.

In December 2010, the FMCSA initiated its Compliance Safety Accountability (CSA) motor carrier oversight program (formerly Comprehensive Safety Analysis 2010). The Company believes the intent is to improve regulatory oversight of motor carriers and commercial drivers using a safety measurement system methodology that is fundamentally different from the methodology that the FMCSA had historically relied upon. The FMCSA is attempting to implement changes to the hours of service regulations which govern the work hours of commercial drivers and is consistently proposing regulatory changes that affect the operation of commercial motor carriers across the United States. It is difficult to predict which and in what form CSA or any other regulations may be implemented, modified or enforced and what impact any such regulation may have on motor carrier operations or the aggregate number of trucks that provide hauling capacity to the Company. In addition, recent focus on climate change and related environmental matters has led to efforts by federal and local governmental agencies to support legislation and regulations to limit the amount of carbon emissions, including emissions created by diesel engines utilized in tractors operated by the Company's BCO Independent Contractors and Truck Brokerage Carriers. Moreover, federal and state governmental agencies, such as efforts by the California Air Resources Board, may also focus on regulation in relation to trailing equipment specifications in an effort to achieve, among other things, lower carbon emissions. Increased regulation on tractor or trailing equipment specifications, including emissions created by diesel engines, could create substantial costs on the Company and the Company's third-party capacity providers and, in turn, increase the cost of purchased transportation to the Company. An increase in the costs to purchase, lease or maintain trailing equipment or in purchased transportation cost caused by new regulations without a corresponding increase in price to the customer could have a material adverse effect on Landstar, including its results of operations and financial condition.

Catastrophic loss of a Company facility. The Company faces the risk of a catastrophic loss of the use of all or a portion of its facilities located in Jacksonville, Florida, Rockford, Illinois and Southfield, Michigan due to hurricanes, flooding, tornados, other weather conditions, natural disasters, terrorist attacks or otherwise. The Company's corporate headquarters and approximately two-thirds of the Company's employees are located in its Jacksonville, Florida facility. In particular, a significant hurricane that impacts the Jacksonville, Florida metropolitan area could significantly disrupt the Company's operations and impose significant costs on the Company.

Although the Company maintains insurance covering its facilities, including business interruption insurance, the Company's insurance may not be adequate to cover all losses that may be incurred in the event of a catastrophic loss of one of the Company's facilities. In addition, such insurance, including business interruption insurance, could in the future become more expensive and difficult to maintain and may not be available on commercially reasonable terms or at all.

Acquired businesses. In the Company's 2009 fiscal third quarter, the Company completed the acquisitions of (i) National Logistics Management Co., together with a limited liability company and certain corporate subsidiaries and affiliates, now collectively known as LSCS and (ii) A3 Integration, LLC, now known as LSCSLLC, through A3i Acquisition LLC (A3i Acquisition) an entity in which the Company owned 100% of the non-voting, preferred interests and, from the date of acquisition to January 2011, 75% of the voting, common equity interests. LSCS purchased the remaining 25% of the voting, common equity interests in A3i Acquisition in January 2011. These two acquisitions are referred to herein collectively as the 2009 Acquisitions. LSCS's business is heavily dependent on the automotive industry which has been very volatile in the past few years. As of the time of its acquisition by the Company, LSCSLLC was a startup company with no customers under contract. LSCSLLC licenses its principal software technology from an unaffiliated third party. The Company's strategic initiatives of the 2009 Acquisitions are to increase freight transportation opportunities of the Company by identifying and engaging agents and customers to utilize LSCSLLC's supply chain solutions technology. The Company makes no assurance that the Company will be able to successfully achieve its strategic initiatives as it relates to the 2009 Acquisitions. The two acquired entities are considered one reporting unit as it relates to business valuation. As it relates to goodwill recorded upon the acquisition of these companies in July 2009, should the automotive industry experience a significant downturn and should the Company fail to add customers

to the technology platform acquired with the start-up company, the Company could determine that its goodwill is impaired in the future. The Company will continue to monitor the economic environment and test for impairment of goodwill as necessary.

Intellectual property. The Company uses both internally developed and purchased technology in conducting its business. Whether internally developed or purchased, it is possible that the use of these technologies could be claimed to infringe upon or violate the intellectual property rights of third parties. In the event that a claim is made against the Company by a third party for the infringement of intellectual property rights, any settlement or adverse judgment against the Company either in the form of increased costs of licensing or a cease and desist order in using the technology could have an adverse effect on the Company's business and its results of operations.

Doing business with the federal government. The Company must comply with and is affected by laws and regulations relating to doing business with the federal government. In addition, U.S. government agencies, including various agency Inspectors General, routinely audit and investigate government contractors like the Company. Government contractors may also be subject to investigation by the U.S. Department of Justice as a result of or in connection with allegations made by third parties. In connection with an audit or investigation by a U.S. government agency or the U.S. Department of Justice, the Government may allege violations of specific laws and regulations by the Company or those doing business with the Company. The Government may also seek remedies against the Company, such as fines and penalties, the termination of our contracts, or suspension or prohibition from doing business with the U.S. Government, any of which could cause the Company to suffer serious reputational harm and other adverse consequences.

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

The Company owns or leases various properties in the U.S. for the Company's operations and administrative staff that support its independent commission sales agents, BCO Independent Contractors and other third party capacity providers. The transportation logistics segment's primary facilities are located in Jacksonville, Florida, Rockford, Illinois and Southfield, Michigan. In addition, the Company's corporate headquarters are located in Jacksonville, Florida. The Jacksonville, Florida and Rockford, Illinois facilities are owned by the Company, and the Southfield, Michigan facility is leased. Management believes that Landstar's owned and leased properties are adequate for its current needs and that leased properties can be retained or replaced at an acceptable cost.

Item 3. Legal Proceedings

In June 2011, Landstar System, Inc. received a Civil Investigative Demand (the "CID") from the United States Attorney for the Western District of Kentucky issued pursuant to the False Claims Act. The CID requests documents and written interrogatories limited to freight hauled to or from Fort Campbell, Kentucky by certain subsidiaries of the Company and billed to the U.S. government. The Company submitted its response to the CID in August 2011. Since that time, the Company has cooperated fully, and intends to continue to cooperate fully with the U.S. Attorney.

On September 23, 2011, a jury sitting in a state court in Cobb County, Georgia, entered a damage award of approximately \$40.2 million (such amount, plus pre-judgment interest and a portion of plaintiffs' attorney fees in an amount not yet determined are collectively referred to herein as the Damage Award) against Landstar Ranger, Inc., Landstar System Holdings, Inc. and Landstar System, Inc. The Damage Award arises out of an accident that occurred in February, 2007, involving a truck owner-operator leased to Landstar Ranger, Inc. Under the terms of the commercial trucking insurance program that Landstar had in place in 2007, Landstar retained liability for up to \$5 million with respect to the accident giving rise to the Damage Award. Landstar has third party insurance in place covering all amounts of the Damage Award in excess of such retention, including all related out-of-pocket expenses, such as the costs of an appeal bond, post-judgment interest and attorney fees comprising the Damage Award. The Company recorded a \$5 million charge representing its self-insured retention in respect of this accident in the consolidated financial results of the Company in the 2007 first quarter. Accordingly, the Company's portion of the Damage Award was previously recorded and therefore did not reduce consolidated operating income or net income for the Company's 2011 fiscal year. Under the terms of the Company's insurance policies, the Company is the primary obligor of the amount of the Damage Award, and as such, the Company has reported a \$40.2 million receivable from the third party insurance providers in other receivables and a corresponding liability of the same amount in insurance claims in the consolidated balance sheets at December 31, 2011. The Company and its insurers intend to appeal the Damage Award. No assurances can be given regarding the outcome of such appeal, including as to the impact of the Damage Award on the premiums charged by the Company's third party insurers from time to time for commercial trucking insurance.

The Company is involved in certain claims and pending litigation, including those described herein, arising from the normal conduct of business. Based on knowledge of the facts and, in certain cases, opinions of outside counsel, management believes that adequate provisions have been made for probable losses with respect to the resolution of all such claims and pending litigation and that the ultimate outcome, after provisions therefor, will not have a material adverse effect on the financial condition of the Company, but could have a material effect on the results of operations in a given quarter or year.

Item 4. *Mine Safety Disclosures*

Not applicable.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

The Common Stock of the Company is listed and traded on the NASDAQ Global Select Market under the symbol LSTR. The following table sets forth the high and low reported sale prices for the Common Stock on the NASDAQ Global Select Market and the per share value of dividends declared for the periods indicated.

Fiscal Period	2011 Market Price		2010 Market Price		Dividends Declared	
	High	Low	High	Low	2011	2010
First Quarter	\$ 45.66	\$ 40.50	\$ 42.40	\$ 34.86	\$ 0.050	\$ 0.045
Second Quarter	48.31	42.89	46.23	38.69	0.050	0.045
Third Quarter	49.66	36.64	41.95	35.10	0.055	0.050
Fourth Quarter	48.69	38.16	40.93	35.85	0.055	0.050

The reported last sale price per share of the Common Stock as reported on the NASDAQ Global Select Market on January 27, 2012 was \$51.55 per share. As of such date, Landstar had 46,721,147 shares of Common Stock outstanding. As of January 27, 2012, the Company had 65 stockholders of record of its Common Stock. However, the Company estimates that it has a significantly greater number of stockholders because a substantial number of the Company's shares are held by brokers or dealers for their customers in street name.

It is the intention of the Board of Directors to pay a quarterly dividend going forward.

Purchases of Equity Securities by the Company

The following table provides information regarding the Company's purchases of its Common Stock during the period from September 25, 2011 to December 31, 2011, the Company's fourth fiscal quarter:

Fiscal Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs	Maximum Number of Shares That May Yet Be Purchased Under the Programs
September 24, 2011				709,155
Sept. 25, 2011 - Oct. 22, 2011		\$		709,155
Oct. 23, 2011 - Nov. 19, 2011	77,137	43.91	77,137	632,018
Nov. 20, 2011 - Dec. 31, 2011	115,467	44.15	115,467	516,551
Total	192,604	\$ 44.05	192,604	

On August 16, 2011, Landstar System, Inc. announced that it had been authorized by its Board of Directors to purchase up to 1,000,000 shares of its Common Stock from time to time in the open market and in privately negotiated transactions. As of December 31, 2011, the Company may purchase 516,551 shares of its Common Stock under this authorization. No specific expiration date has been assigned to the August 16, 2011 authorization.

During 2011, Landstar paid dividends as follows:

Dividend Amount per Share	Declaration Date	Record Date	Payment Date
\$0.050	January 25, 2011	February 14, 2011	March 11, 2011
\$0.050	April 20, 2011	May 5, 2011	May 27, 2011
\$0.055	July 20, 2011	August 8, 2011	August 26, 2011

Edgar Filing: LANDSTAR SYSTEM INC - Form 10-K

\$0.055

October 19, 2011

November 8, 2011

December 2, 2011

On February 2, 2012, the Company announced the declaration of a quarterly dividend of \$0.055 per share payable on March 16, 2012 to shareholders of record as of February 20, 2012.

On June 27, 2008 Landstar entered into a credit agreement with a syndicate of banks and JPMorgan Chase Bank, N.A., as administrative agent (the Credit Agreement). The Credit Agreement provides for a restriction on cash dividends and other distributions to stockholders on the Company's capital stock to the extent there is a default under the Credit Agreement. In addition, the Credit Agreement, under certain circumstances, limits the amount of such cash dividends and other distributions to stockholders in the event that, after giving effect to any payment made to effect such cash dividend or other distribution, the Leverage Ratio (as defined in the Credit Agreement) would exceed 2.5 to 1 on a pro forma basis as of the end of the Company's most recently completed fiscal quarter.

The Company maintains one stock compensation plan for members of its Board of Directors and two employee equity incentive plans. The following table presents information related to securities authorized for issuance under these plans at December 31, 2011:

Plan Category	Number of Securities		Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans
	to be Issued Upon Exercise of Outstanding Options	Weighted-average Exercise Price of Outstanding Options	
Equity Compensation Plans Approved by Security Holders	2,326,776	\$ 40.11	6,116,959
Equity Compensation Plans Not Approved by Security Holders	0	0	0

Under the 2011 Equity Incentive Plan (the 2011 EIP), the issuance of a non-vested share of Landstar Common Stock counts as the issuance of two securities against the number of securities available for future issuance. Included in the number of securities remaining available for future issuance under equity compensation plans were 118,959 shares of Common Stock reserved for issuance under the 2003 Directors' Stock Compensation Plan.

Financial Model Shareholder Returns

The following graph illustrates the return that would have been realized assuming reinvestment of dividends by an investor who invested \$100 in each of the Company's Common Stock, the Standard and Poor's 500 Stock Index and the Dow Jones Transportation Stock Index for the period commencing December 30, 2006 through December 31, 2011.

Item 6. Selected Financial Data**LANDSTAR SYSTEM, INC. AND SUBSIDIARY****SELECTED CONSOLIDATED FINANCIAL DATA**

(Dollars in thousands, except per share amounts)

Income Statement Data:	Fiscal Years				
	2011	2010	2009	2008	2007
Revenue	\$ 2,649,082	\$ 2,400,170	\$ 2,008,796	\$ 2,643,069	\$ 2,487,277

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations
Forward-Looking Statements

The following is a safe harbor statement under the Private Securities Litigation Reform Act of 1995. Statements contained in this document that are not based on historical facts are forward-looking statements. This Management's Discussion and Analysis of Financial Condition and Results of Operations and other sections of this Form 10-K contain forward-looking statements, such as statements which relate to Landstar's business objectives, plans, strategies and expectations. Terms such as anticipates, believes, estimates, expects, plans, predicts, may, should, the negative thereof and similar expressions are intended to identify forward-looking statements. Such statements are by nature subject to

Edgar Filing: LANDSTAR SYSTEM INC - Form 10-K

uncertainties and risks, including but not limited to: an increase in the frequency or severity of accidents or other claims; unfavorable development

of existing accident claims; dependence on third party insurance companies; dependence on independent commission sales agents; dependence on third party capacity providers; decreased demand for transportation services; substantial industry competition; disruptions or failures in our computer systems; dependence on key vendors; changes in fuel taxes; status of independent contractors; regulatory and legislative changes; catastrophic loss of a Company facility; acquired businesses; intellectual property; doing business with the federal government; and other operational, financial or legal risks or uncertainties detailed in this and Landstar's other SEC filings from time to time and described in Item 1A of this Form 10-K under the heading "Risk Factors." These risks and uncertainties could cause actual results or events to differ materially from historical results or those anticipated. Investors should not place undue reliance on such forward-looking statements and the Company undertakes no obligation to publicly update or revise any forward-looking statements.

Introduction

Landstar System, Inc. and its subsidiary, Landstar System Holdings, Inc. (together, referred to herein as "Landstar" or the "Company"), is a non-asset based provider of freight transportation services and supply chain solutions. The Company offers services to its customers across multiple transportation modes, with the ability to arrange for individual shipments of freight to enterprise-wide solutions to manage all of a customer's transportation and logistics needs. Landstar provides services principally throughout the United States and to a lesser extent in Canada, and between the United States and Canada, Mexico and other countries around the world. The Company's services emphasize safety, information coordination and customer service and are delivered through a network of independent commission sales agents and third party capacity providers linked together by a series of technological applications which are provided and coordinated by the Company. Landstar markets its freight transportation services and supply chain solutions primarily through independent commission sales agents and exclusively utilizes third party capacity providers to transport and store customers' freight. The nature of the Company's business is such that a significant portion of its operating costs varies directly with revenue.

Landstar markets its freight transportation services and supply chain solutions primarily through independent commission sales agents who enter into contractual arrangements with the Company and are responsible for locating freight, making that freight available to Landstar's capacity providers and coordinating the transportation of the freight with customers and capacity providers. The Company's third party capacity providers consist of independent contractors who provide truck capacity to the Company under exclusive lease arrangements (the "BCO Independent Contractors"), unrelated trucking companies who provide truck capacity to the Company under non-exclusive contractual arrangements (the "Truck Brokerage Carriers"), air cargo carriers, ocean cargo carriers, railroads and independent warehouse capacity providers ("Warehouse Capacity Owners"). The Company has contracts with Class 1 domestic and Canadian railroads, certain short-line railroads and domestic and international airlines and ocean lines. Through this network of agents and capacity providers linked together by Landstar's information technology systems, Landstar operates a transportation services and supply chain solutions business primarily throughout North America with revenue of \$2.6 billion during the most recently completed fiscal year. The Company reports the results of two operating segments: the transportation logistics segment and the insurance segment.

The transportation logistics segment provides a wide range of transportation services and supply chain solutions. Transportation services offered by the Company include truckload and less-than-truckload transportation, rail intermodal, air cargo, ocean cargo, expedited ground and air delivery of time-critical freight, heavy-haul/specialized, U.S.-Canada and U.S.-Mexico cross-border, project cargo and customs brokerage. Supply chain solutions are based on advanced technology solutions utilizing intellectual property that may be owned by the Company or licensed from third parties. Such solutions as offered by the Company may include integrated multi-modal solutions, outsourced logistics, supply chain engineering and warehousing. In the Company's 2009 fiscal third quarter, the Company acquired LSCSLLC and its subsidiaries through A3i Acquisition, an entity in which the Company owned 100% of the non-voting, preferred interests and, from the time of acquisition through January 2011, 75% of the voting, common equity interests. In January 2011, the

Company purchased the remaining 25% of the voting, common equity interests in A3i Acquisition. Industries serviced by the transportation logistics segment include automotive products, paper, lumber and building products, metals, chemicals, foodstuffs, heavy machinery, retail, electronics, ammunition and explosives and military equipment. In addition, the transportation logistics segment provides transportation services to other transportation companies, including logistics and less-than-truckload service providers. Each of the independent commission sales agents has the opportunity to market all of the services provided by the transportation logistics segment. Freight transportation services are typically charged to customers on a per shipment basis for the physical transportation of freight. Supply chain solution customers are generally charged fees for the services provided. Revenue recognized by the transportation logistics segment when providing capacity to customers to haul their freight is referred to herein as transportation services revenue and revenue for freight management services recognized on a fee-for-service basis is referred to herein as transportation management fees. During 2011, transportation services revenue hauled by BCO Independent Contractors, Truck Brokerage Carriers and rail intermodal, air cargo and ocean cargo carriers represented 53%, 40%, 3%, 1%, and 2%, respectively, of the Company's transportation logistics segment revenue. Transportation management fees represented 1% of the Company's transportation logistics segment revenue in 2011.

The insurance segment is comprised of Signature Insurance Company, a wholly owned offshore insurance subsidiary, and Risk Management Claim Services, Inc. This segment provides risk and claims management services to certain of Landstar's Operating Subsidiaries. In addition, it reinsures certain risks of the Company's BCO Independent Contractors and provides certain property and casualty insurance directly to certain of Landstar's Operating Subsidiaries. Revenue, representing premiums on reinsurance programs provided to the Company's BCO Independent Contractors, at the insurance segment represented approximately 1% of the Company's total revenue for 2011.

Changes in Financial Condition and Results of Operations

Management believes the Company's success principally depends on its ability to generate freight through its network of independent commission sales agents and to efficiently deliver that freight utilizing third party capacity providers. Management believes the most significant factors to the Company's success include increasing revenue, sourcing capacity and controlling costs, including insurance and claims.

While customer demand, which is subject to overall economic conditions, ultimately drives increases or decreases in revenue, the Company primarily relies on its independent commission sales agents to establish customer relationships and generate revenue opportunities. Management's primary focus with respect to revenue growth is on revenue generated by independent commission sales agents who on an annual basis generate \$1 million or more of Landstar revenue (Million Dollar Agents). Management believes future revenue growth is primarily dependent on its ability to increase both the revenue generated by Million Dollar Agents and the number of Million Dollar Agents through a combination of recruiting new agents and increasing the revenue opportunities generated by existing independent commission sales agents. The following table shows the number of Million Dollar Agents, the average revenue generated by these agents and the percent of consolidated revenue generated by these agents during the past three fiscal years:

	Fiscal Year		
	2011	2010	2009
Number of Million Dollar Agents	504	468	405
Average revenue generated per Million Dollar Agent	\$ 4,778,000	\$ 4,576,000	\$ 4,292,000
Percent of consolidated revenue generated by Million Dollar Agents	91%	89%	87%

Edgar Filing: LANDSTAR SYSTEM INC - Form 10-K

Management monitors business activity by tracking the number of loads (volume) and revenue per load by mode of transportation. Revenue per load can be influenced by many factors other than a change in price. Those factors include the average length of haul, freight type, special handling and equipment requirements, fuel costs and delivery time requirements. For shipments involving two or more modes of transportation, revenue is classified by the mode of transportation having the highest cost for the load. The following table summarizes information by mode of transportation for the past three fiscal years:

	2011	Fiscal Year 2010	2009
Revenue generated through (in thousands):			
BCO Independent Contractors	\$ 1,374,664	\$ 1,289,395	\$ 1,140,004
Truck Brokerage Carriers	1,052,605	919,605	694,467
Rail intermodal	75,979	70,299	76,346
Ocean cargo carriers	52,744	46,064	33,835
Air cargo carriers	37,680	20,104	17,621
Other(1)	55,410	54,703	46,523
	\$ 2,649,082	\$ 2,400,170	\$ 2,008,796
Number of loads:			
BCO Independent Contractors	808,210	821,330	761,940
Truck Brokerage Carriers	613,790	591,810	501,980
Rail intermodal	31,370	31,070	37,890
Ocean cargo carriers	8,490	6,830	5,370
Air cargo carriers	7,950	6,880	7,780
	1,469,810	1,457,920	1,314,960
Revenue per load:			
BCO Independent Contractors	\$ 1,701	\$ 1,570	\$ 1,496
Truck Brokerage Carriers	1,715	1,554	1,383
Rail intermodal	2,422	2,263	2,015
Ocean cargo carriers	6,212	6,744	6,301
Air cargo carriers	4,740	2,922	2,265

(1) Includes premium revenue generated by the insurance segment and warehousing and transportation management fee revenue generated by the transportation logistics segment.

Also critical to the Company's success is its ability to secure capacity, particularly truck capacity, at rates that allow the Company to profitably transport customers' freight. The following table summarizes available truck capacity providers as of the end of the three most recent fiscal years:

	Dec. 31, 2011	Dec. 25, 2010	Dec. 26, 2009
BCO Independent Contractors	7,871	7,865	7,926
Truck Brokerage Carriers:			
Approved and active(1)	19,223	18,049	14,887
Other approved	9,272	9,938	9,886
	28,495	27,987	24,773
Total available truck capacity providers	36,366	35,852	32,699
Number of trucks provided by BCO Independent Contractors	8,371	8,452	8,519

- (1) Active refers to Truck Brokerage Carriers who moved at least one load in the 180 days immediately preceding the fiscal year end.

The Company incurs costs that are directly related to the transportation of freight that include purchased transportation and commissions to agents. The Company incurs indirect costs associated with the transportation of freight that include other operating costs and insurance and claims. In addition, the Company incurs selling, general and administrative costs essential to administering its business operations. Management continually monitors all components of the costs incurred by the Company and establishes annual cost budgets which, in general, are used to benchmark costs incurred on a monthly basis.

Purchased transportation represents the amount a BCO Independent Contractor or other third party capacity provider is paid to haul freight. The amount of purchased transportation paid to a BCO Independent Contractor is primarily based on a contractually agreed-upon percentage of revenue generated by the haul. Purchased transportation paid to a Truck Brokerage Carrier is based on either a negotiated rate for each load hauled or a contractually agreed-upon rate. Purchased transportation paid to rail intermodal, air cargo or ocean cargo carriers is generally based on contractually agreed-upon fixed rates. Purchased transportation as a percentage of revenue for truck brokerage, rail intermodal and ocean cargo services is normally higher than that of BCO Independent Contractor and air cargo services. Purchased transportation is the largest component of costs and expenses and, on a consolidated basis, increases or decreases in proportion to the revenue generated through BCO Independent Contractors and other third party capacity providers, transportation management fees and revenue from the insurance segment. Purchased transportation as a percent of revenue also increases or decreases in relation to the availability of truck brokerage capacity, the price of fuel on revenue hauled by Truck Brokerage Carriers and, to a lesser extent, on revenue hauled by railroads and air and ocean cargo carriers. Purchased transportation costs are recognized upon the completion of freight delivery.

Commissions to agents are based on contractually agreed-upon percentages of revenue or net revenue, defined as revenue less the cost of purchased transportation, or net revenue less a contractually agreed upon percentage of revenue retained by Landstar. Commissions to agents as a percentage of consolidated revenue will vary directly with fluctuations in the percentage of consolidated revenue generated by the various modes of transportation, transportation management fees and revenue from the insurance segment and with changes in net revenue on services provided by Truck Brokerage Carriers and rail intermodal, air cargo and ocean cargo carriers. Commissions to agents are recognized upon the completion of freight delivery.

The Company defines gross profit as revenue less the cost of purchased transportation and commissions to agents. Gross profit divided by revenue is referred to as gross profit margin. The Company's operating margin is defined as operating income divided by gross profit.

In general, gross profit margin on revenue hauled by BCO Independent Contractors represents a fixed percentage of revenue due to the nature of the contracts that pay a fixed percentage of revenue to both the BCO Independent Contractors and independent commission sales agents. For revenue hauled by Truck Brokerage Carriers, gross profit margin is either fixed or variable as a percent of revenue, depending on the contract with each individual independent commission sales agent. Under certain contracts with independent commission sales agents, the Company retains a fixed percentage of revenue and the agent retains the amount remaining less the cost of purchased transportation (the retention contracts). Gross profit margin on revenue hauled by rail, air cargo carriers, ocean cargo carriers and Truck Brokerage Carriers, other than those under retention contracts, are variable in nature as the Company's contracts with independent commission sales agents provide commissions to agents at a contractually agreed upon percentage of net revenue for these types of loads. Approximately 66% of the Company's revenue in 2011 had a fixed gross profit margin.

Maintenance costs for Company-provided trailing equipment, BCO Independent Contractor recruiting costs and the provision for uncollectible advances and other receivables due from BCO Independent Contractors and independent commission sales agents are the largest components of other operating costs.

Potential liability associated with accidents in the trucking industry is severe and occurrences are unpredictable. For commercial trucking claims, Landstar retains liability up to \$5,000,000 per occurrence. The Company also retains liability for each general liability claim up to \$1,000,000, \$250,000 for each workers' compensation claim and up to \$250,000 for each cargo claim. The Company's exposure to liability associated with accidents incurred by Truck Brokerage Carriers, rail intermodal capacity providers and air cargo and ocean cargo carriers who transport freight on behalf of the Company is reduced by various factors including the extent to which they maintain their own insurance coverage. A material increase in the frequency or severity of accidents, cargo claims or workers' compensation claims or the unfavorable development of existing claims could have a material adverse effect on Landstar's cost of insurance and claims and its results of operations.

Employee compensation and benefits account for over half of the Company's selling, general and administrative costs.

Depreciation and amortization primarily relate to depreciation of trailing equipment, amortization of intangible assets and depreciation of information technology hardware and software.

The following table sets forth the percentage relationship of purchased transportation and commissions to agents, both being direct costs, to revenue and indirect costs as a percentage of gross profit for the period indicated:

	Fiscal Year		
	2011	2010	2009
Revenue	100.0%	100.0%	100.0%
Purchased transportation	75.8	76.0	74.8
Commissions to agents	7.9	7.6	8.0
Gross profit margin	16.3%	16.4%	17.2%
Gross profit	100.0%	100.0%	100.0%
Investment income	0.4	0.4	0.4
Indirect costs and expenses:			
Other operating costs	6.7	7.3	8.5
Insurance and claims	9.9	12.5	13.3
Selling, general and administrative	35.4	38.8	38.8
Depreciation and amortization	6.0	6.3	6.8
Total costs and expenses	58.0	64.9	67.4
Operating margin	42.4%	35.5%	33.0%

Fiscal Year Ended December 31, 2011 Compared to Fiscal Year Ended December 25, 2010

Revenue for fiscal year 2011 was \$2,649,082,000, an increase of \$248,912,000, or 10%, compared to fiscal year 2010. Revenue increased \$248,707,000, or 11%, at the transportation logistics segment. The increase in revenue at the transportation logistics segment was primarily attributable to a higher revenue per load of approximately 10% and a 1% increase in the number of loads hauled. Included in fiscal years 2011 and 2010 were transportation management fees of \$20,516,000 and \$17,652,000, respectively. Revenue, representing premiums on reinsurance programs provided to BCO Independent Contractors, at the insurance segment was \$34,343,000 and \$34,138,000 for fiscal years 2011 and 2010, respectively.

Truck transportation revenue hauled by BCO Independent Contractors and Truck Brokerage Carriers (together, the third-party truck capacity providers) for fiscal year 2011, which represented 92% of total revenue, was \$2,427,269,000, an increase of \$218,269,000, or 10%, compared to fiscal year 2010. The number of loads hauled by third-party truck capacity providers in fiscal year 2011 increased 1% compared to fiscal year 2010, and revenue per load increased 9% compared to fiscal year 2010. The increase in the number of loads

hailed by third-party truck capacity providers was primarily attributable to increased industrial production in the domestic marketplace as well as the impact of market share gains from agents recruited during 2011 and 2010, partially offset by the anticipated reduction of freight hauled on behalf of one customer in the Company's less-than-truckload substitute line haul service offering. Less-than-truckload substitute line haul revenue was \$74,823,000 and \$219,872,000 in fiscal years 2011 and 2010, respectively. The increase in revenue per load on revenue hauled by third-party truck capacity providers was primarily attributable to tighter truck capacity in the domestic market during 2011. Fuel surcharges on Truck Brokerage Carrier revenue identified separately in billings to customers and included as a component of Truck Brokerage Carrier revenue were \$101,114,000 and \$79,898,000 in fiscal years 2011 and 2010, respectively. Fuel surcharges billed to customers on revenue hauled by BCO Independent Contractors are excluded from revenue.

Transportation revenue hauled by rail intermodal, air cargo and ocean cargo carriers (together the multimode capacity providers) for fiscal year 2011, which represented 6% of total revenue, was \$166,403,000, an increase of \$29,936,000, or 22%, compared to fiscal year 2010. The number of loads hauled by multimode capacity providers in fiscal year 2011 increased 7% compared to fiscal year 2010, and revenue per load increased 14% over the same period. The increase in revenue per load on revenue hauled by multimode capacity providers is influenced by many factors including the mode of transportation used, length of haul, complexity of freight, density of freight lanes, fuel costs and availability of capacity.

Purchased transportation was 75.8% and 76.0% of revenue in fiscal years 2011 and 2010, respectively. The decrease in purchased transportation as a percentage of revenue was primarily attributable to reduced less-than-truckload substitute line-haul revenue, which has a higher rate of purchased transportation, partially offset by an increase in the percentage of revenue hauled by Truck Brokerage Carriers excluding less-than-truckload substitute line-haul revenue. Commissions to agents were 7.9% of revenue in fiscal year 2011 and 7.6% of revenue in fiscal year 2010. The increase in commissions to agents as a percentage of revenue was primarily attributable to decreased less-than-truckload substitute line-haul revenue, which typically has a lower commission rate.

Investment income at the insurance segment was \$1,705,000 and \$1,558,000 in fiscal years 2011 and 2010, respectively. The increase in investment income was primarily due to an increased average rate of return on investments held by the insurance segment, partly offset by a lower average investment balance during fiscal year 2011.

Other operating costs were 6.7% and 7.3% of gross profit in fiscal years 2011 and 2010, respectively. The decrease in other operating costs as a percentage of gross profit was primarily attributable to the effect of increased gross profit and a reduction in certain outsourced logistics services costs in fiscal year 2011. Insurance and claims were 9.9% of gross profit in fiscal year 2011 and 12.5% of gross profit in fiscal year 2010. The decrease in insurance and claims as a percentage of gross profit was primarily due to an increase in the percent of gross profit contributed from revenue hauled by Truck Brokerage Carriers in fiscal year 2011, which has a lower claims risk profile and favorable frequency and severity of accidents in fiscal year 2011. Selling, general and administrative costs were 35.4% of gross profit in fiscal year 2011 and 38.8% of gross profit in fiscal year 2010. The decrease in selling, general and administrative costs as a percentage of gross profit was primarily attributable to the effect of increased gross profit and a lower provision for bonuses under the Company's incentive compensation plan, partially offset by an increase in the provision for customer bad debt in fiscal year 2011 with a significant portion related to one specific customer. In addition, selling, general and administrative costs included a one-time charge in fiscal year 2010 of \$3,800,000 related to the buyout by the Company of its remaining contingent payment obligations relating to an acquisition completed in 2009. Depreciation and amortization was 6.0% of gross profit in fiscal year 2011 and 6.3% of gross profit in fiscal year 2010. The decrease in depreciation and amortization as a percentage of gross profit was primarily due to the effect of increased gross profit in fiscal year 2011.

Interest and debt expense in fiscal year 2011 was \$511,000 lower than fiscal year 2010. The decrease in interest and debt expense was primarily attributable to lower average capital lease obligations and lower average borrowing rates on capital leases, partially offset by increased average borrowings on the Company's revolving credit facility during fiscal year 2011.

The provisions for income taxes for fiscal years 2011 and 2010 were based on estimated full year combined effective income tax rates of approximately 37.3% and 36.5%, respectively, which were higher than the statutory federal income tax rate primarily as a result of state taxes, the meals and entertainment exclusion and non-deductible stock compensation expense, partly offset by recognition of benefits relating to several uncertain tax provisions in both years.

The net losses attributable to noncontrolling interest of \$62,000 and \$932,000 in fiscal years 2011 and 2010, respectively, represent the noncontrolling investor's 25% share of the net loss incurred by A3i Acquisition through January 2011. The Company purchased the remaining 25% of A3i Acquisition in January 2011.

Net income attributable to the Company was \$113,007,000, or \$2.38 per common share (\$2.38 per diluted share), in fiscal year 2011. Net income attributable to the Company was \$87,514,000, or \$1.77 per common share (\$1.77 per diluted share), in fiscal year 2010.

Fiscal Year Ended December 25, 2010 Compared to Fiscal Year Ended December 26, 2009

Revenue for 2010 was \$2,400,170,000, an increase of \$391,374,000, or 19%, compared to 2009. Revenue increased \$393,169,000, or 20%, at the transportation logistics segment. The increase in revenue at the transportation logistics segment was primarily attributable to an 11% increase in the number of loads hauled and a higher revenue per load of approximately 8%. Included in 2010 and 2009 were transportation management fees of \$17,652,000 and \$8,111,000, respectively.

Truck transportation revenue hauled by third-party truck capacity providers for 2010, which represented 92% of total revenue, was \$2,209,000,000, an increase of \$374,529,000, or 20%, compared to 2009. The number of loads hauled by third-party truck capacity providers in 2010 increased 12% compared to 2009, and revenue per load increased 8% compared to 2009. The increase in the number of loads hauled by third-party truck capacity providers was generally attributable to improved industrial production in the U.S. during 2010 and the impact of market share gains from agents recruited during 2010 and 2009. The increase in revenue per load on revenue hauled by third-party truck capacity providers was generally attributable to increased demand and tighter truck capacity in 2010. Fuel surcharges on Truck Brokerage Carrier revenue identified separately in billings to customers and included as a component of Truck Brokerage Carrier revenue were \$79,898,000 and \$48,095,000 in 2010 and 2009, respectively. Fuel surcharges billed to customers on revenue hauled by BCO Independent Contractors are excluded from revenue.

Transportation revenue hauled by multimode capacity providers for 2010, which represented 6% of total revenue, was \$136,467,000, an increase of \$8,665,000, or 7%, compared to 2009. The number of loads hauled by multimode capacity providers in 2010 decreased 12% compared to 2009, while revenue per load increased 22% over the same period. The decrease in the number of loads hauled by multimode capacity providers in 2010 was primarily due to the loss of a small number of Million Dollar Agents in 2009 and 2010 whose businesses were concentrated in rail and air transportation services. The increase in revenue per load on revenue hauled by multimode capacity providers is influenced by many factors including the mode of transportation used, length of haul, complexity of freight, density of freight lanes, fuel costs and availability of capacity.

Purchased transportation was 76.0% and 74.8% of revenue in 2010 and 2009, respectively. The increase in purchased transportation as a percentage of revenue was primarily attributable to increased revenue hauled by Truck Brokerage Carriers, which tends to have a higher cost of purchased transportation, and increased rates of purchased transportation paid to Truck Brokerage Carriers due to increased freight demand and reduced industry wide truck capacity. Commissions to agents were 7.6% of revenue in 2010 and 8.0% of revenue in 2009. The decrease in commissions to agents as a percentage of revenue was primarily attributable to the increased rate of purchased transportation on revenue hauled by Truck Brokerage Carriers.

Investment income at the insurance segment was \$1,558,000 and \$1,268,000 in 2010 and 2009, respectively. The increase in investment income was primarily due to an increased average rate of return on investments held by the insurance segment in 2010.

Other operating costs were 7.3% and 8.5% of gross profit in 2010 and 2009, respectively. The decrease in other operating costs as a percentage of gross profit was primarily attributable to the effect of increased gross profit in 2010. Insurance and claims were 12.5% of gross profit in 2010 and 13.3% of gross profit in 2009. The decrease in insurance and claims as a percentage of gross profit was primarily due to the effect of increased gross profit, partially offset by favorable development of prior year claims reported in 2009. Selling, general and administrative costs were 38.8% of gross profit in both 2010 and 2009. Included in selling, general and administrative costs in 2010 was a provision for bonuses under the Company's incentive compensation plans of \$15,093,000, whereas no such provision was included in 2009. In addition, included in selling, general, and administrative costs were \$19,185,000 in 2010 and \$7,138,000 in 2009 of costs attributable to entities acquired in the 2009 fiscal third quarter. As noted above, the results of entities acquired in the 2009 fiscal third quarter were included in the Company results for the full 2010 fiscal year as compared to approximately half of the 2009 fiscal year. Depreciation and amortization was 6.3% of gross profit in 2010 compared with 6.8% of gross profit in 2009. The decrease in depreciation and amortization as a percentage of gross profit was primarily due to the effect of increased gross profit, partially offset by amortization of identifiable intangible assets attributed to the two entities acquired in July 2009.

Interest and debt expense in 2010 was \$407,000 lower than 2009. The decrease in interest and debt expense was primarily attributable to lower average capital lease obligations during 2010, partially offset by increased average borrowings under the Company's revolving credit facility.

The provisions for income taxes for 2010 and 2009 were based on estimated full year combined effective income tax rates of approximately 36.5% and 36.2% respectively, which were higher than the statutory federal income tax rate primarily as a result of state taxes, the meals and entertainment exclusion and non-deductible stock compensation expense, partly offset by a recognition of benefits relating to several uncertain tax positions in both years.

The net loss attributable to noncontrolling interest of \$932,000 and \$445,000 in 2010 and 2009, respectively, represents the noncontrolling investor's 25% share of the net losses incurred by A3 Integration, LLC, now known as LSCSLLC.

Net income attributable to the Company was \$87,514,000, or \$1.77 per common share (\$1.77 per diluted share), in 2010. Net income attributable to the Company was \$70,395,000, or \$1.38 per common share (\$1.37 per diluted share), in 2009.

Capital Resources and Liquidity

Working capital and the ratio of current assets to current liabilities were \$220,679,000 and 1.7 to 1, respectively, at December 31, 2011, compared with \$142,571,000 and 1.5 to 1, respectively, at December 25, 2010 and \$167,977,000 and 1.6 to 1, respectively, at December 26, 2009. Landstar has historically operated with current ratios within the range of 1.5 to 1 to 2.0 to 1. Cash provided by operating activities was \$118,034,000, \$108,758,000, and \$144,964,000 in 2011, 2010 and 2009, respectively. The increase in cash flow provided by operating activities for 2011 compared to 2010 was primarily attributable to increased net income and the timing of payments, partially offset by timing of collections of trade receivables. The decrease in cash flow provided by operating activities for 2010 compared to 2009 was primarily attributable to the timing of collections of trade receivables.

The Company paid \$0.21, \$0.19, and \$0.17 per share, or \$9,983,000, \$9,422,000 and \$8,686,000 in cash dividends during 2011, 2010, and 2009, respectively. It is the intention of the Board of Directors to continue to pay a quarterly dividend. During 2011, the Company purchased 1,206,111 shares of its Common Stock at a total cost of \$50,450,000. During 2010 and 2009, the Company purchased 2,652,791 and 1,624,547 shares of its Common Stock at a total cost of \$102,736,000 and \$55,757,000, respectively. As of December 31, 2011, the Company may purchase up to an additional 516,551 shares of its Common Stock under its authorized stock purchase program. The Company has used cash provided by operating activities and borrowings on the Company's revolving credit facilities to fund the purchases. Since January 1997, the Company has purchased over \$1,025,000,000 of its Common Stock under programs authorized by the Board of Directors of the Company in open market and private block transactions. Long-term debt, including current maturities, was \$132,342,000 at December 31, 2011, compared to \$121,611,000 at December 25, 2010 and \$92,898,000 at December 26, 2009.

Equity was \$300,577,000, or 69% of total capitalization (defined as long-term debt including current maturities plus equity), at December 31, 2011, compared to \$250,967,000, or 67% of total capitalization, at December 25, 2010 and \$268,151,000, or 74% of total capitalization at December 26, 2009. The increase in equity in 2011 over 2010 was primarily a result of net income and the effect of the exercises of stock options during the period, partially offset by the January 2011 purchase of the noncontrolling interest, purchases of shares of the Company's Common Stock and dividends paid by the Company. The increase in equity in 2010 over 2009 was primarily the result of net income and the effect of the exercises of stock options during the period, partially offset by the purchase of shares of the Company's Common Stock.

On June 27, 2008, Landstar entered into a credit agreement with a syndicate of banks and JPMorgan Chase Bank, N.A., as administrative agent (the Credit Agreement). The Credit Agreement, which expires on June 27, 2013, provides \$225,000,000 of borrowing capacity in the form of a revolving credit facility, \$75,000,000 of which may be utilized in the form of letter of credit guarantees.

The Credit Agreement contains a number of covenants that limit, among other things, the incurrence of additional indebtedness. The Company is required to, among other things, maintain a minimum Fixed Charge Coverage Ratio, as defined in the Credit Agreement, and maintain a Leverage Ratio, as defined in the Credit Agreement, below a specified maximum. The Credit Agreement provides for a restriction on cash dividends and other distributions to stockholders on the Company's capital stock to the extent there is a default under the Credit Agreement. In addition, the Credit Agreement under certain circumstances limits the amount of such cash dividends and other distributions to stockholders in the event that after giving effect to any payment made to effect such cash dividend or other distribution, the Leverage Ratio (as defined in the Credit Agreement) would exceed 2.5 to 1 on a pro forma basis as of the end of the Company's most recently completed fiscal quarter. The Credit Agreement provides for an event of default in the event, among other things, that a person or group acquires 25% or more of the outstanding capital stock of the Company or obtains power to elect a majority of the Company's directors. None of these covenants are presently considered by management to be materially restrictive to the Company's operations, capital resources or liquidity. The Company is currently in compliance with all of the debt covenants under the Credit Agreement.

At December 31, 2011, the Company had \$80,000,000 in borrowings outstanding and \$33,499,000 of letters of credit outstanding under the Credit Agreement. At December 31, 2011, there was \$111,501,000 available for future borrowings under the Credit Agreement. In addition, the Company has \$45,165,000 in letters of credit outstanding as collateral for insurance claims that are secured by investments and cash equivalents totaling \$50,183,000. Investments, all of which are carried at fair value, include primarily investment-grade corporate bonds and U.S. Treasury obligations having maturities of up to five years. Fair value of investments is based primarily on quoted market prices. See Notes to Consolidated Financial Statements for further discussion on measurement of fair value of investments.

Historically, the Company has generated sufficient operating cash flow to meet its debt service requirements, fund continued growth, both internal and through acquisitions, complete or execute share purchases of its Common Stock under authorized share purchase programs, pay dividends and meet working capital needs. As a non-asset based provider of transportation services and supply chain solutions, the Company's annual capital requirements for operating property are generally for trailing equipment and information technology hardware and software. In addition, a significant portion of the trailing equipment used by the Company is provided by third party capacity providers, thereby reducing the Company's capital requirements. During 2011, 2010 and 2009, the Company purchased \$4,337,000, \$27,505,000 and \$2,715,000, respectively, of operating property and acquired \$34,044,000, \$14,986,000 and \$12,284,000, respectively, of trailing equipment by entering into capital leases. The Company purchased its primary facility in Jacksonville, Florida in 2010 for \$21,135,000. Landstar anticipates acquiring approximately \$57,000,000 in operating property, primarily new trailing equipment to replace older trailing equipment, and information technology equipment during fiscal year 2012 either by purchase or lease financing. The Company does not currently anticipate any other significant capital requirements in 2012.

Management believes that cash flow from operations combined with the Company's borrowing capacity under the Credit Agreement will be adequate to meet Landstar's debt service requirement, fund continued growth, both internal and through acquisitions, pay dividends, complete the authorized share purchase program and meet working capital needs.

Contractual Obligations and Commitments

At December 31, 2011, the Company's obligations and commitments to make future payments under contracts, such as debt and lease agreements, were as follows (in thousands):

Contractual Obligation	Total	Payments Due By Period			
		Less Than 1 Year	1-3 Years	3-5 Years	More Than 5 Years
Long-term debt obligations	\$ 80,000		\$ 80,000		
Capital lease obligations	55,415	\$ 18,553	22,425	\$ 14,437	
Operating lease obligations	8,293	2,661	3,091	1,421	\$ 1,120
Purchase obligations	20,406	17,042	3,025	339	
	\$ 164,114	\$ 38,256	\$ 108,541	\$ 16,197	\$ 1,120

Long-term debt obligations represent borrowings under the Credit Agreement and do not include interest. Capital lease obligations above include \$3,073,000 of imputed interest. At December 31, 2011, the Company has gross unrecognized tax benefits of \$7,364,000. This amount is excluded from the table above as the Company cannot reasonably estimate the period of cash settlement with the respective taxing authorities. At December 31, 2011, the Company has insurance claims liabilities of \$104,118,000. This amount is excluded from the table above as the Company cannot reasonably estimate the period of cash settlement on these liabilities. The short term portion of the insurance claims liability is reported on the consolidated balance sheets primarily on an actuarially determined basis. Included in purchase obligations in the table above is \$13,447,000 of obligations related to trailing equipment to replace older trailer equipment.

Off-Balance Sheet Arrangements

As of December 31, 2011, the Company had no off-balance sheet arrangements, other than operating leases as disclosed in the table of Contractual Obligations and Commitments above, that have or are reasonably likely to have a current or future material effect on the Company's financial condition, changes in financial condition, revenue or expenses, results of operations, liquidity, capital expenditures or capital resources.

Legal Matters

In June 2011, Landstar System, Inc. received a Civil Investigative Demand (the "CID") from the United States Attorney for the Western District of Kentucky issued pursuant to the False Claims Act. The CID requests documents and written interrogatories limited to freight hauled to or from Fort Campbell, Kentucky by certain subsidiaries of the Company and billed to the U.S. government. The Company submitted its response to the CID in August 2011. Since that time, the Company has cooperated fully, and intends to continue to cooperate fully with the U.S. Attorney.

On September 23, 2011, a jury sitting in a state court in Cobb County, Georgia, entered a damage award of approximately \$40.2 million (such amount, plus pre-judgment interest and a portion of plaintiffs' attorney fees in an amount not yet determined are collectively referred to herein as the "Damage Award") against Landstar Ranger, Inc., Landstar System Holdings, Inc. and Landstar System, Inc. The Damage Award arises out of an accident that occurred in February, 2007, involving a truck owner-operator leased to Landstar Ranger, Inc. Under the terms of the commercial trucking insurance program that Landstar had in place in 2007, Landstar retained liability for up to \$5 million with respect to the accident giving rise to the Damage Award. Landstar has third party insurance in place covering all amounts of the Damage Award in excess of such retention, including all related out-of-pocket expenses, such as the costs of an appeal bond, post-judgment interest and attorney fees comprising the Damage Award. The Company recorded a \$5 million charge representing its self-insured retention in respect of this accident in the consolidated financial results of the Company in the 2007 first quarter. Accordingly, the Company's portion of the Damage Award was previously recorded and therefore did not reduce consolidated operating income or net income for the Company's 2011 fiscal year. Under the terms of the Company's insurance policies, the Company is the primary obligor of the amount of the Damage Award, and as such, the Company has reported a \$40.2 million receivable from the third party insurance providers in other receivables and a corresponding liability of the same amount in insurance claims in the consolidated balance sheets at December 31, 2011. The Company and its insurers intend to appeal the Damage Award. No assurances can be given regarding the outcome of such appeal, including the impact of the Damage Award on the premiums charged by the Company's third party insurers for commercial trucking insurance.

The Company is involved in certain claims and pending litigation, including those described herein, arising from the normal conduct of business. Based on knowledge of the facts and, in certain cases, opinions of outside counsel, management believes that adequate provisions have been made for probable losses with respect to the resolution of all such claims and pending litigation and that the ultimate outcome, after provisions therefor, will not have a material adverse effect on the financial condition of the Company, but could have a material effect on the results of operations in a given quarter or year.

Critical Accounting Policies and Estimates

The allowance for doubtful accounts for both trade and other receivables represents management's estimate of the amount of outstanding receivables that will not be collected. Historically, management's estimates for uncollectible receivables have been materially correct. Although management believes the amount of the allowance for both trade and other receivables at December 31, 2011 is appropriate, a prolonged period of low or no economic growth may adversely affect the collection of these receivables. In addition, liquidity concerns and/or unanticipated bankruptcy proceedings at any of the Company's larger customers in which the Company is carrying a significant receivable could result in an increase in the provision for uncollectible receivables and have a significant impact on the Company's results of operations in a given quarter or year. However, it is not expected that a provision for uncollectible accounts receivable resulting from an individual customer would have a significant impact on the Company's financial position. Conversely, a more robust economic environment or the recovery of a previously provided for uncollectible receivable from an individual customer may result in the realization of some portion of the estimated uncollectible receivables.

Landstar provides for the estimated costs of self-insured claims primarily on an actuarial basis. The amount recorded for the estimated liability for claims incurred is based upon the facts and circumstances known on the applicable balance sheet date. The ultimate resolution of these claims may be for an amount greater or less than the amount estimated by management. The Company continually revises its existing claim estimates as new or revised information becomes available on the status of each claim. Historically, the Company has experienced both favorable and unfavorable development of prior year claims estimates. During fiscal years 2011, 2010 and 2009, insurance and claims costs included \$505,000, \$1,582,000 and \$4,113,000, respectively, of favorable adjustments to prior years' claims estimates. It is reasonably likely that the ultimate outcome of settling all outstanding claims will be more or less than the estimated claims reserve at December 31, 2011.

The Company utilizes certain income tax planning strategies to reduce its overall cost of income taxes. Upon audit, it is possible that certain strategies might be disallowed resulting in an increased liability for income taxes. Certain of these tax planning strategies result in a level of uncertainty as to whether the related tax positions taken by the Company will result in a recognizable benefit. The Company has provided for its estimated exposure attributable to such tax positions due to the corresponding level of uncertainty with respect to the amount of income tax benefit that may ultimately be realized. Management believes that the provision for liabilities resulting from the uncertainty in such income tax positions is appropriate. To date, the Company has not experienced an examination by governmental revenue authorities that would lead management to believe that the Company's past provisions for exposures related to the uncertainty of such income tax positions are not appropriate.

The Company tests for impairment of goodwill at least annually, typically in the fourth quarter, based on a two-step impairment test. The first step compares the fair value of each reporting unit with its carrying amount, including goodwill. Fair value of each reporting unit is estimated using a discounted cash flow model. The model includes a number of significant assumptions and estimates including future cash flows and discount rates. Such assumptions and estimates necessarily involve management judgments concerning, among other things, future revenues and profitability. If the carrying amount exceeds fair value under the first step of the impairment test, then the second step is performed to measure the amount of any impairment loss. Only the first step of the impairment test was required in 2011 as the estimated fair value of the reporting units exceeded carrying value.

The Company purchased two companies in July 2009, one of which is highly dependent on the U.S. automotive manufacturing industry and one start-up. On the date of the acquisitions, the Company recorded \$26,300,000 of goodwill. The two acquired entities are considered one reporting unit as it relates to business valuation. As it relates to goodwill recorded upon the acquisition of these companies in July 2009, should the automotive industry experience a significant downturn and should the Company fail to add customers to the technology platform acquired with the start-up company, the Company could determine that its goodwill is impaired in the future. The Company will continue to monitor the economic environment and test for impairment of goodwill as necessary.

Significant variances from management's estimates for the amount of uncollectible receivables, the ultimate resolution of self-insured claims, the provision for uncertainty in income tax positions and impairment of goodwill can all be expected to positively or negatively affect Landstar's earnings in a given quarter or year. However, management believes that the ultimate resolution of these items, given a range of reasonably likely outcomes, will not significantly affect the long-term financial condition of Landstar or its ability to fund its continuing operations.

Effects of Inflation

Management does not believe inflation has had a material impact on the results of operations or financial condition of Landstar in the past five years. However, inflation in excess of historical trends might have an adverse effect on the Company's results of operations.

Seasonality

Landstar's operations are subject to seasonal trends common to the trucking industry. Results of operations for the quarter ending in March are typically lower than the quarters ending June, September and December.

Item 7A. Quantitative and Qualitative Disclosures about Market Risk

The Company is exposed to changes in interest rates as a result of its financing activities, primarily its borrowings on the revolving credit facility, and investing activities with respect to investments held by the insurance segment.

On June 27, 2008, Landstar entered into a credit agreement with a syndicate of banks and JPMorgan Chase Bank, N.A., as administrative agent (the Credit Agreement). The Credit Agreement, which expires on June 27, 2013, provides \$225,000,000 of borrowing capacity in the form of a revolving credit facility, \$75,000,000 of which may be utilized in the form of letter of credit guarantees.

Borrowings under the Credit Agreement bear interest at rates equal to, at the option of the Company, either (i) the greater of (a) the prime rate as publicly announced from time to time by JPMorgan Chase Bank, N.A. and (b) the federal funds effective rate plus .5%, or, (ii) the rate at the time offered to JPMorgan Chase Bank, N.A. in the Eurodollar market for amounts and periods comparable to the relevant loan plus, in either case, a margin that is determined based on the level of the Company's Leverage Ratio, as defined in the Credit Agreement. As of December 31, 2011 and December 25, 2010, the weighted average interest rate on borrowings outstanding was 1.15% and 1.14%, respectively. During the fourth quarter of 2011 and 2010, the average outstanding balance under the Credit Agreement was approximately \$85,296,000 and \$87,062,000, respectively. The balance outstanding under the Credit Agreement was \$80,000,000 at both December 31, 2011 and December 25, 2010. Assuming that debt levels on the Credit Agreement remain at \$80,000,000, the balance at December 31, 2011, a hypothetical increase of 100 basis points in current rates provided for under the Credit Agreement is estimated to result in an increase in interest expense of \$800,000 on an annualized basis. Based on the borrowing rates in the Credit Agreement and the repayment terms, the fair value of the outstanding borrowings as of December 31, 2011 was estimated to approximate carrying value.

Long-term investments, all of which are available-for-sale and are carried at fair value, include primarily investment-grade corporate bonds and U.S. Treasury obligations having maturities of up to five years. The balance of the long-term portion of investments was \$40,544,000 and \$54,401,000 at December 31, 2011 and December 25, 2010, respectively. Assuming that the long-term portion of investments remains at \$40,544,000, the balance at December 31, 2011, a hypothetical increase or decrease in interest rates of 100 basis points would not have a material impact on future earnings on an annualized basis. Short-term investments consist of short-term investment-grade instruments and the current maturities of investment-grade corporate bonds and U.S. Treasury obligations. Accordingly, any future interest rate risk on these short-term investments would not be material.

Assets and liabilities of the Company's Canadian operation are translated from their functional currency to U.S. dollars using exchange rates in effect at the balance sheet date and revenue and expense accounts are translated at average monthly exchange rates during the period. Adjustments resulting from the translation process are included in accumulated other comprehensive income. Transactional gains and losses arising from receivable and payable balances, including intercompany balances, in the normal course of business that are denominated in a currency other than the functional currency of the operation are recorded in the statements of income when they occur. The net assets held at the Company's Canadian subsidiary at December 31, 2011 were, as translated to U.S. dollars, less than 1% of total consolidated net assets. Accordingly, any translation gain or loss related to the Canadian operation would not be material.

LANDSTAR SYSTEM, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(1) Significant Accounting Policies

Consolidation

The consolidated financial statements include the accounts of Landstar System, Inc. and its subsidiary Landstar System Holdings, Inc. (LSHI). Landstar System, Inc. and its subsidiary are herein referred to as Landstar or the Company. Significant inter-company accounts have been eliminated in consolidation.

Estimates

The preparation of the consolidated financial statements requires the use of management's estimates. Actual results could differ from those estimates.

Fiscal Year

Landstar's fiscal year is the 52 or 53 week period ending the last Saturday in December.

Revenue Recognition

When providing the physical transportation of freight, the Company is the primary obligor with respect to freight delivery and assumes the related credit risk. Accordingly, transportation services revenue billed to customers for the physical transportation of freight and the related direct freight expenses are recognized on a gross basis upon completion of freight delivery. In general, when providing transportation management services under a fee-for-service basis, the Company does not assume credit risk for billings related to the physical transportation of freight. Accordingly, transportation management fee revenue is recognized net of freight expenses upon completion of freight delivery. Insurance premiums of the insurance segment are recognized over the period earned, which is usually on a monthly basis. Fuel surcharges billed to customers for freight hauled by independent contractors who provide truck capacity to the Company under exclusive lease arrangements (the BCO Independent Contractors) are excluded from revenue and paid in entirety to the BCO Independent Contractors.

Insurance Claim Costs

Landstar provides, primarily on an actuarially determined basis, for the estimated costs of cargo, property, casualty, general liability and workers compensation claims both reported and for claims incurred but not reported. Landstar retains liability for individual commercial trucking claims up to \$5,000,000 per occurrence. The Company also retains liability for each general liability claim up to \$1,000,000, \$250,000 for each workers compensation claim and up to \$250,000 for each cargo claim.

Tires

Tires purchased as part of trailing equipment are capitalized as part of the cost of the equipment. Replacement tires are charged to expense when placed in service.

LANDSTAR SYSTEM, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Cash and Cash Equivalents

Included in cash and cash equivalents are all investments, except those provided for collateral, with an original maturity of 3 months or less.

Financial Instruments

The Company's financial instruments include cash equivalents, short and long term investments, trade and other accounts receivable, accounts payable, other accrued liabilities, current and non-current insurance claims and long term debt plus current maturities (Debt). The carrying value of cash equivalents, trade and other accounts receivable, accounts payable, current insurance claims and other accrued liabilities approximate fair value as the assets and liabilities are short term in nature. Short and long term investments are carried at fair value as further described in the Investments footnote below. The carrying value of non-current insurance claims approximate fair value as the Company generally has the ability to, but is not required to, settle claims in a short term. The Company's Debt includes borrowings under the Company's revolving credit facility plus borrowings relating to capital lease obligations used to finance trailing equipment. The interest rates on borrowings under the revolving credit facility are typically tied to short-term LIBOR rates that adjust monthly and, as such, carrying value approximates fair value. Interest rates on borrowings under capital leases approximate the interest rates that would currently be available to the Company under similar terms and, as such, carrying value approximates fair value.

Trade and Other Receivables

The allowance for doubtful accounts for both trade and other receivables represents management's estimate of the amount of outstanding receivables that will not be collected. Estimates are used to determine the allowance for doubtful accounts for both trade and other receivables and are generally based on specific identification, historical collection results, current economic trends and changes in payment terms. Following is a summary of the activity in the allowance for doubtful accounts for fiscal years ending December 31, 2011, December 25, 2010 and December 26, 2009 (in thousands):

	Balance at Beginning of Period	Charged to Costs and Expenses	Write-offs, Net of Recoveries	Balance at End of Period
For the Fiscal Year Ended December 31, 2011				
Trade receivables	\$ 5,324	\$ 4,503	\$ (3,236)	\$ 6,591
Other receivables	7,499	3,293	(3,024)	7,768
Other non-current receivables	312	8	(46)	274
	\$ 13,135	\$ 7,804	\$ (6,306)	\$ 14,633
For the Fiscal Year Ended December 25, 2010				
Trade receivables	\$ 5,547	\$ 1,395	\$ (1,618)	\$ 5,324
Other receivables	6,727	2,516	(1,744)	7,499
Other non-current receivables	319	5	(12)	312
	\$ 12,593	\$ 3,916	\$ (3,374)	\$ 13,135
For the Fiscal Year Ended December 26, 2009				
Trade receivables	\$ 6,230	\$ 3,801	\$ (4,484)	\$ 5,547
Other receivables	4,866	4,182	(2,321)	6,727
Other non-current receivables	316	3		319
	\$ 11,412	\$ 7,986	\$ (6,805)	\$ 12,593

LANDSTAR SYSTEM, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Operating Property

Operating property is recorded at cost. Depreciation is provided on a straight-line basis over the estimated useful lives of the related assets. Buildings and improvements are being depreciated over 30 years. Trailing equipment is being depreciated over 7 years. Hardware and software included in other equipment is generally being depreciated over 3 to 7 years.

Goodwill and Other Intangible Assets

Goodwill represents the excess of the purchase price paid over the fair value of the net assets of acquired businesses. The Company has two reporting units within the transportation logistics segment that report goodwill. The Company tests for impairment of goodwill at least annually, typically in the fourth quarter, based on a two-step impairment test. The first step compares the fair value of each reporting unit with its carrying amount, including goodwill. Fair value of each reporting unit is estimated using a discounted cash flow model. The model includes a number of significant assumptions and estimates including future cash flows and discount rates. If the carrying amount exceeds fair value under the first step of the impairment test, then the second step is performed to measure the amount of any impairment loss. Only the first step of the impairment test was required in 2011 as the estimated fair value of the reporting units significantly exceeded carrying value. Other intangible assets, which consist primarily of non-contractual customer relationships, developed technology, trademarks and non-compete agreements, are included in other assets on the consolidated balance sheets and are amortized over their estimated useful lives, which range from five to ten years.

Income Taxes

Income tax expense is equal to the current year's liability for income taxes and a provision for deferred income taxes. Deferred tax assets and liabilities are recorded for the future tax effects attributable to temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using the enacted tax rates expected to be applied to taxable income in the years in which those temporary differences are expected to be recovered or settled.

Earnings Per Share

Earnings per common share attributable to Landstar System, Inc. and subsidiary are based on the weighted average number of shares outstanding, including outstanding non-vested restricted stock, and diluted earnings per share attributable to Landstar System, Inc. and subsidiary are based on the weighted average number of common shares outstanding, including outstanding non-vested restricted stock, plus the incremental shares that would have been outstanding upon the assumed exercise of all dilutive stock options.

The following table provides a reconciliation of the average number of common shares outstanding used to calculate earnings per common share attributable to Landstar System, Inc. and subsidiary to the average number of common shares and common share equivalents outstanding used to calculate diluted earnings per share attributable to Landstar System, Inc. and subsidiary (in thousands):

	Fiscal Year		
	2011	2010	2009
Average number of common shares outstanding	47,444	49,523	51,095
Incremental shares from assumed exercises of stock options	80	57	185
Average number of common shares and common share equivalents outstanding	47,524	49,580	51,280

LANDSTAR SYSTEM, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the fiscal years ended December 31, 2011, December 25, 2010 and December 26, 2009, there were 220,244, 1,349,313 and 1,895,742 options outstanding, respectively, to purchase shares of Common Stock excluded from the calculation of diluted earnings per share attributable to Landstar System, Inc. and subsidiary because they were antidilutive.

Share-Based Payments

The Company estimates the fair value of stock option awards on the date of grant using the Black-Scholes pricing model and recognizes compensation cost for stock option awards expected to vest on a straight-line basis over the requisite service period for the entire award. Forfeitures are estimated at grant date based on historical experience and anticipated employee turnover. The fair value of each share of non-vested restricted stock is based on the fair value of such share on the date of grant and compensation costs for non-vested restricted stock is recognized on a straight-line basis over the requisite service period for the award.

Foreign Currency Translation

Assets and liabilities of the Company's Canadian operation are translated from their functional currency to U.S. dollars using exchange rates in effect at the balance sheet date and revenue and expense accounts are translated at average monthly exchange rates during the period. Adjustments resulting from the translation process are included in accumulated other comprehensive income. Transactional gains and losses arising from receivable and payable balances, including intercompany balances, in the normal course of business that are denominated in a currency other than the functional currency of the operation are recorded in the statements of income when they occur.

(2) Noncontrolling Interest

In the Company's 2009 fiscal third quarter, the Company acquired A3 Integration, LLC and its subsidiaries through A3i Acquisition LLC, an entity in which the Company owned 100% of the non-voting, preferred interests and, from the date of acquisition to January 2011, 75% of the voting, common equity interests. A subsidiary of the Company purchased the remaining 25% of the voting, common equity interests in A3i Acquisition LLC in January 2011.

(3) Comprehensive Income

The following table includes the components of comprehensive income attributable to Landstar System, Inc. and subsidiary for the fiscal years ended December 31, 2011, December 25, 2010 and December 26, 2009 (in thousands):

	Fiscal Year		
	2011	2010	2009
Net income attributable to Landstar System, Inc. and subsidiary	\$ 113,007	\$ 87,514	\$ 70,395
Unrealized holding gains on available-for-sale investments	26	312	791
Income tax expense on unrealized holding gains on available-for-sale investments	(9)	(111)	(279)
Net unrealized holding gains on available-for-sale investments	17	201	512
Foreign currency translation gains (losses)	(171)	182	547
Comprehensive income attributable to Landstar System, Inc. and subsidiary	\$ 112,853	\$ 87,897	\$ 71,454

LANDSTAR SYSTEM, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The foreign currency translation loss during 2011 represents the unrealized net loss on the translation of the financial statements of the Company's Canadian operations. The foreign currency translation gains during 2010 and 2009 represent the unrealized net gain on the translation of the financial statements of the Company's Canadian operations. Accumulated other comprehensive income as reported as a component of equity at December 31, 2011 of \$727,000 represents the unrealized net gain on the translation of the financial statements of the Company's Canadian operations of \$219,000 and the cumulative unrealized holding gains on available-for-sale investments, net of income taxes, of \$508,000.

(4) Investments

Investments include primarily investment-grade corporate bonds and U.S. Treasury obligations having maturities of up to five years (the bond portfolio). Investments in the bond portfolio are reported as available-for-sale and are carried at fair value. Investments maturing less than one year from the balance sheet date are included in short-term investments and investments maturing more than one year from the balance sheet date are included in other assets in the consolidated balance sheets. Management has performed an analysis of the nature of the unrealized losses on available-for-sale investments to determine whether such losses are other-than-temporary. Unrealized losses, representing the excess of the purchase price of an investment over its fair value as of the end of a period, considered to be other-than-temporary, are to be included as a charge in the statement of income while unrealized losses considered to be temporary are to be included as a component of equity. Investments whose values are based on quoted market prices in active markets are classified within Level 1. Investments that trade in markets that are not considered to be active, but are valued based on quoted market prices, are classified within Level 2. As Level 2 investments include positions that are not traded in active markets, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information. Transfers between levels are recognized as of the beginning of the period. Fair value of the bond portfolio was determined using Level 1 inputs related to U.S. Treasury obligations and money market investments and Level 2 inputs related to investment-grade corporate bonds, mortgage-backed securities and direct obligations of government agencies. Unrealized gains, net of unrealized losses, on the investments in the bond portfolio were \$786,000 and \$760,000 at December 31, 2011 and December 25, 2010, respectively.

The amortized cost and fair market values of available-for-sale investments are as follows at December 31, 2011 and December 25, 2010 (in thousands):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Market Value
December 31, 2011				
Money market investments	\$ 1,989	\$	\$	\$ 1,989
Mortgage-backed securities	3,017	61	18	3,060
Corporate bonds and direct obligations of government agencies	51,014	819	126	51,707
U.S. Treasury obligations	11,682	51	1	11,732
Total	\$ 67,702	\$ 931	\$ 145	\$ 68,488
December 25, 2010				
Money market investments	\$ 535	\$	\$	\$ 535
Mortgage-backed securities	3,458	64	8	3,514
Corporate bonds and direct obligations of government agencies	60,330	872	151	61,051
U.S. Treasury obligations	12,584	6	23	12,567
Total	\$ 76,907	\$ 942	\$ 182	\$ 77,667

LANDSTAR SYSTEM, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For those available-for-sale investments with unrealized losses at December 31, 2011 and December 25, 2010, the following table summarizes the duration of the unrealized loss (in thousands):

	Less than 12 months		12 months or longer		Total	
	Fair Market Value	Unrealized Loss	Fair Market Value	Unrealized Loss	Fair Market Value	Unrealized Loss
December 31, 2011						
Mortgage-backed securities	\$ 468	\$ 18	\$	\$	\$ 468	\$ 18
Corporate bonds and direct obligations of government agencies	6,067	126			6,067	126
U.S. Treasury obligations	591	1			591	1
Total	\$ 7,126	\$ 145	\$	\$	\$ 7,126	\$ 145
December 25, 2010						
Mortgage-backed securities	\$ 225	\$ 8	\$	\$	\$ 225	\$ 8
Corporate bonds and direct obligations of government agencies	11,615	151			11,615	151
U.S. Treasury obligations	774	23			774	23
Total	\$ 12,614	\$ 182	\$	\$	\$ 12,614	\$ 182

Short-term investments include \$27,944,000 in current maturities of investments held by the Company's insurance segment at December 31, 2011. These short-term investments together with \$22,239,000 of the non-current portion of investments included in other assets at December 31, 2011 provide collateral for the \$45,165,000 of letters of credit issued to guarantee payment of insurance claims.

Investment income represents the earnings on the insurance segment's assets. Investment income earned from the assets of the insurance segment are included as a component of operating income as the investment of these assets is critical to providing collateral, liquidity and earnings with respect to the operation of the Company's insurance programs.

(5) Income Taxes

The provisions for income taxes consisted of the following (in thousands):

	2011	Fiscal Year 2010	2009
Current:			
Federal	\$ 53,413	\$ 46,164	\$ 35,878
State	3,247	2,199	656
Canadian	1,023	878	809
	\$ 57,683	\$ 49,241	\$ 37,343
Deferred:			
Federal	\$ 9,056	\$ 801	\$ 2,035

Edgar Filing: LANDSTAR SYSTEM INC - Form 10-K

State	449	(276)	384
	9,505	525	2,419
Income taxes	\$ 67,188	\$ 49,766	\$ 39,762

LANDSTAR SYSTEM, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Temporary differences and carryforwards which gave rise to deferred tax assets and liabilities consisted of the following (in thousands):

	Dec. 31, 2011	Dec. 25, 2010
Deferred tax assets:		
Receivable valuations	\$ 4,570	\$ 5,014
Share-based payments	5,843	5,797
Self-insured claims	5,940	5,861
Other	5,316	6,137
	\$ 21,669	\$ 22,809
Deferred tax liabilities:		
Operating property	\$ 38,040	\$ 29,084
Other	8,259	8,284
	\$ 46,299	\$ 37,368
Net deferred tax liability	\$ 24,630	\$ 14,559

The following table summarizes the differences between income taxes calculated at the federal income tax rate of 35% on income before income taxes and the provisions for income taxes (in thousands):

	2011	Fiscal Year 2010	2009
Income taxes at federal income tax rate	\$ 63,047	\$ 47,722	\$ 38,399
State income taxes, net of federal income tax benefit	2,424	695	676
Meals and entertainment exclusion	972	691	870
Share-based payments	708	550	636
Other, net	37	108	(819)
Income taxes	\$ 67,188	\$ 49,766	\$ 39,762

As of December 31, 2011 and December 25, 2010, the Company had \$5,069,000 and \$6,415,000, respectively, of net unrecognized tax benefits representing the provision for the uncertainty of certain tax positions plus a component of interest and penalties. Estimated interest and penalties on the provision for the uncertainty of certain tax positions is included in income tax expense. At December 31, 2011 and December 25, 2010 there was \$2,214,000 and \$2,797,000, respectively, accrued for estimated interest and penalties related to the uncertainty of certain tax positions. The Company does not currently anticipate any significant increase or decrease to the unrecognized tax benefit during 2012.

The Company files a consolidated U.S. federal income tax return. The Company or its subsidiaries file state tax returns in the majority of the U.S. state tax jurisdictions. With few exceptions, the Company and its subsidiaries are no longer subject to U.S. federal or state income tax examinations by tax authorities for 2007 and prior years. The Company's wholly owned Canadian subsidiary, Landstar Canada, Inc., is subject to Canadian income and other taxes.

LANDSTAR SYSTEM, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The following table summarizes the rollforward of the total amounts of gross unrecognized tax benefits for fiscal years 2011 and 2010 (in thousands):

	Fiscal Year	
	2011	2010
Gross unrecognized tax benefits beginning of the year	\$ 9,209	\$ 11,966
Gross increases related to current year tax positions	553	210
Gross increases related to prior year tax positions	755	412
Gross decreases related to prior year tax positions	(2,098)	(2,822)
Settlements	(274)	
Lapse of statute of limitations	(781)	(557)
Gross unrecognized tax benefits end of the year	\$ 7,364	\$ 9,209

Landstar paid income taxes of \$59,442,000 in 2011, \$51,542,000 in 2010 and \$32,913,000 in 2009.

(6) Operating Property

Operating property is summarized as follows (in thousands):

	Dec. 31, 2011	Dec. 25, 2010
Land	\$ 7,982	\$ 7,982
Leasehold improvements	10,180	10,038
Buildings and improvements	23,875	23,520
Trailing equipment	204,117	188,176
Other equipment	41,796	40,763
	287,950	270,479
Less accumulated depreciation and amortization	145,804	137,830
	\$ 142,146	\$ 132,649

Included above is \$112,599,000 in 2011 and \$114,017,000 in 2010 of operating property under capital leases, \$76,603,000 and \$70,154,000, respectively, net of accumulated amortization. Landstar acquired operating property by entering into capital leases in the amount of \$34,044,000 in 2011, \$14,986,000 in 2010 and \$12,284,000 in 2009.

(7) Retirement Plan

Landstar sponsors an Internal Revenue Code section 401(k) defined contribution plan for the benefit of full-time employees who have completed one year of service. Eligible employees make voluntary contributions up to 75% of their base salary, subject to certain limitations. Landstar contributes an amount equal to 100% of the first 3% and 50% of the next 2% of such contributions, subject to certain limitations.

Edgar Filing: LANDSTAR SYSTEM INC - Form 10-K

The expense for the Company-sponsored defined contribution plan included in selling, general and administrative expense was \$1,754,000 in 2011, \$1,663,000 in 2010 and \$1,598,000 in 2009.

LANDSTAR SYSTEM, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(8) Debt

Long-term debt is summarized as follows (in thousands):

	Dec. 31, 2011	Dec. 25, 2010
Capital leases	\$ 52,342	\$ 41,611
Revolving credit facility	80,000	80,000
	132,342	121,611
Less current maturities	17,212	22,172
Total long-term debt	\$ 115,130	\$ 99,439

On June 27, 2008, Landstar entered into a credit agreement with a syndicate of banks and JPMorgan Chase Bank, N.A., as administrative agent (the Credit Agreement). The Credit Agreement, which expires on June 27, 2013, provides \$225,000,000 of borrowing capacity in the form of a revolving credit facility, \$75,000,000 of which may be utilized in the form of letter of credit guarantees. Borrowings under the Credit Agreement are unsecured, however, all but two of the Company's subsidiaries guarantee the obligations under the Credit Agreement. All amounts outstanding under the Credit Agreement are payable on June 27, 2013, the expiration date of the Credit Agreement.

Borrowings under the Credit Agreement bear interest at rates equal to, at the option of the Company, either (i) the greater of (a) the prime rate as publicly announced from time to time by JPMorgan Chase Bank, N.A. and (b) the federal funds effective rate plus 0.5%, or, (ii) the rate at the time offered to JPMorgan Chase Bank, N.A. in the Eurodollar market for amounts and periods comparable to the relevant loan plus, in either case, a margin that is determined based on the level of the Company's Leverage Ratio, as defined in the Credit Agreement. The unused portion of the revolving credit facility under the Credit Agreement carries a commitment fee determined based on the level of the Leverage Ratio, as therein defined. The commitment fee for the unused portion of the revolving credit facility under the Credit Agreement ranges from .175% to .350%, based on achieving certain levels of the Leverage Ratio. As of December 31, 2011, the weighted average interest rate on borrowings outstanding was 1.15%.

The Credit Agreement contains a number of covenants that limit, among other things, the incurrence of additional indebtedness. The Company is required to, among other things, maintain a minimum Fixed Charge Coverage Ratio, as defined in the Credit Agreement, and maintain a Leverage Ratio, as defined in the Credit Agreement, below a specified maximum. The Credit Agreement provides for a restriction on cash dividends and other distributions to stockholders on the Company's capital stock to the extent there is a default under the Credit Agreement. In addition, the Credit Agreement under certain circumstances limits the amount of such cash dividends and other distributions to stockholders in the event that after giving effect to any payment made to effect such cash dividend or other distribution, the Leverage Ratio would exceed 2.5 to 1 on a pro forma basis as of the end of the Company's most recently completed fiscal quarter. The Credit Agreement provides for an event of default in the event, among other things, that a person or group acquires 25% or more of the outstanding capital stock of the Company or obtains power to elect a majority of the Company's directors. None of these covenants are presently considered by management to be materially restrictive to the Company's operations, capital resources or liquidity. The Company is currently in compliance with all of the debt covenants under the Credit Agreement.

The interest rates on borrowings under the revolving credit facility are typically tied to short-term LIBOR rates that adjust monthly and, as such, carrying value approximates fair value. Interest rates on borrowings under capital leases approximate the interest rates that would currently be available to the Company under similar terms and, as such, carrying value approximates fair value.

LANDSTAR SYSTEM, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Landstar paid interest of \$3,133,000 in 2011, \$3,785,000 in 2010 and \$4,398,000 in 2009.

(9) Leases

The future minimum lease payments under all noncancelable leases at December 31, 2011, principally for trailing equipment, are shown in the following table (in thousands):

	Capital Leases	Operating Leases
2012	\$ 18,553	\$ 2,661
2013	11,574	1,816
2014	10,851	1,275
2015	8,574	804
2016	5,863	617
Thereafter		1,120
	55,415	\$ 8,293
Less amount representing interest (2.3% to 5.9%)	3,073	
Present value of minimum lease payments	\$ 52,342	

Total rent expense, net of sublease income, was \$1,238,000 in 2011, \$356,000 in 2010 and \$2,664,000 in 2009.

(10) Share-Based Payment Arrangements***Employee Equity Plans***

As of December 31, 2011, the Company had two employee equity incentive plans, the 2002 employee stock option and stock incentive plan (the ESOSIP) and the 2011 equity incentive plan (the 2011 EIP). The Company also has a stock compensation plan for members of its Board of Directors (the Directors Stock Compensation Plan). The ESOSIP, 2011 EIP and Directors Stock Compensation Plan are each referred to herein as a Plan, and, collectively, as the Plans. In May 2011, the Company's shareholders approved the 2011 EIP. The provisions of the 2011 EIP are substantially similar to the provisions of the ESOSIP. 6,000,000 shares of the Company's Common Stock were authorized for issuance under the 2011 EIP. No further grants can be made under the ESOSIP, including 2,239,117 shares of the Company's Common Stock previously reserved for issuance under the ESOSIP. Amounts recognized in the financial statements with respect to these Plans are as follows (in thousands):

	2011	Fiscal Years	
		2010	2009
Total cost of the Plans during the period	\$ 5,012	\$ 4,769	\$ 4,968
Amount of related income tax benefit recognized during the period	983	1,194	1,163
Net cost of the Plans during the period	\$ 4,029	\$ 3,575	\$ 3,805

Edgar Filing: LANDSTAR SYSTEM INC - Form 10-K

Options granted under the Plans generally become exercisable in either three or five equal annual installments commencing on the first anniversary of the date of grant or 100% four and one-half years from the date of grant or 100% on the third or fifth anniversary from the date of grant, subject to acceleration in certain circumstances. All options granted under the Plans expire on the tenth anniversary of the date of grant. Under the Plans, the exercise price of each option equals the fair market value of the Company's Common Stock on the date of grant.

LANDSTAR SYSTEM, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The fair value of each option grant on its grant date was calculated using the Black-Scholes option pricing model with the following weighted average assumptions for grants made in 2011, 2010 and 2009:

	2011	2010	2009
Expected volatility	35.0%	37.0%	38.0%
Expected dividend yield	0.450%	0.400%	0.400%
Risk-free interest rate	1.75%	2.50%	1.50%
Expected lives (in years)	4.0	4.2	4.4

The Company utilizes historical data, including exercise patterns and employee departure behavior, in estimating the term that options will be outstanding. Expected volatility was based on historical volatility and other factors, such as expected changes in volatility arising from planned changes to the Company's business, if any. The risk-free interest rate was based on the yield of zero coupon U.S. Treasury bonds for terms that approximated the terms of the options granted. The weighted average grant date fair value of stock options granted during 2011, 2010 and 2009 was \$12.06, \$12.03 and \$12.30, respectively.

The following table summarizes information regarding the Company's stock options granted under the Plans:

	Options Outstanding		Options Exercisable	
	Number of Options	Weighted Average Exercise Price per Share	Number of Options	Weighted Average Exercise Price per Share
Options at December 27, 2008	2,505,644	\$ 35.47	822,211	\$ 30.75

At December 31, 2011, the total intrinsic value of options outstanding was \$18,179,000. As of December 31, 2011, there were 73,000 stock options that were out-of-the-money based on the year end per share closing market price of \$47.92 as reported on the NASDAQ Global Select Market. The remaining stock options outstanding as of December 31, 2011 that were in-the-money had an aggregate intrinsic value of \$18,196,000. At December 31, 2011, the total intrinsic value of options outstanding and exercisable was \$9,091,000. As of December 31, 2011, there were 44,400 exercisable stock options outstanding that were out-of-the-money based on the year end per share closing market price of \$47.92 as reported on the NASDAQ Global Select Market. The remaining exercisable stock options outstanding as of December 31, 2011 that were in-the-money had an intrinsic value of \$9,101,000. The total intrinsic value of stock options exercised during 2011, 2010 and 2009 was \$1,052,000, \$9,657,000 and \$3,816,000, respectively.

As of December 31, 2011, there was \$8,114,000 of total unrecognized compensation cost related to non-vested stock options granted under the Plans. The unrecognized compensation cost related to these non-vested options is expected to be recognized over a weighted average period of 2.7 years.

The 2011 EIP provides the Compensation Committee of the Board of Directors with the authority to issue shares of Common Stock of the Company, subject to certain vesting and other restrictions on transfer (restricted stock). Shares of restricted stock generally are granted under the 2011 EIP subject to vesting in three year annual installments or 100% on the third or fifth anniversary of the date of grant and the shares of restricted stock remain subject to forfeiture unless the grantee remains continuously employed with the Company or a subsidiary thereof through the applicable vesting date. The fair value of each share of non-vested restricted stock issued under the Plans is based on the fair value of a share of the Company's Common Stock on the date of grant.

The following table summarizes information regarding the Company's non-vested restricted stock under the Plans:

	Number of Shares	Weighted Average Grant Date Fair Value
Non-vested restricted stock outstanding at December 25, 2010	29,854	\$ 39.49
Granted	22,410	\$ 44.82
Vested	(8,333)	\$ 42.14
Forfeited	(2,938)	\$ 37.13
Non-vested restricted stock outstanding at December 31, 2011	40,993	\$ 42.03

LANDSTAR SYSTEM, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

As of December 31, 2011, there was \$1,227,000 of total unrecognized compensation cost related to non-vested shares of restricted stock granted under the Plans. The unrecognized compensation cost related to these non-vested shares of restricted stock is expected to be recognized over a weighted average period of 2.1 years.

As of December 31, 2011, there were 8,324,776 shares of the Company's Common Stock reserved for issuance under the Plans.

Directors' Stock Compensation Plan

Upon election or re-election to the Board of Directors for a three year term, outside members of the Board of Directors may receive a grant of such number of restricted shares of the Company's Common Stock equal to the quotient of \$225,000 divided by the fair market value of a share of Common Stock on the date immediately following the date of such Director's re-election or election to the Board. In 2011 and 2010, 9,510 and 9,954 restricted shares, respectively, were granted to outside Directors upon their re-election to the Board. The restricted shares vest in three equal annual installments on the first three annual anniversary dates of the date of grant. During 2011 and 2010, \$242,000 and \$98,000, respectively, of compensation cost was recorded for the grant of these restricted shares.

Prior to 2010, under the Directors' Stock Compensation Plan, outside members of the Board of Directors who were elected or re-elected to the Board received 6,000 shares of Common Stock of the Company, subject to certain restrictions including restrictions on transfer. There were no such shares issued in 2009.

As of December 31, 2011, there were 118,959 shares of the Company's Common Stock reserved for issuance upon the grant of Common Stock under the Directors' Stock Compensation Plan.

(11) Equity

On August 23, 2010, Landstar System, Inc. announced that it had been authorized by its Board of Directors to purchase up to 2,000,000 shares of its Common Stock from time to time in the open market and in privately negotiated transactions. During its 2011 third quarter, the Company completed the purchase of shares authorized for purchase under this program. On August 16, 2011, Landstar System, Inc. announced that it had been authorized by its Board of Directors to purchase up to an additional 1,000,000 shares of its Common Stock from time to time in the open market and in privately negotiated transactions. As of December 31, 2011, Landstar may purchase 516,551 shares of its Common Stock under this authorization. No specific expiration date has been assigned to the August 16, 2011 authorization. During 2011, Landstar purchased a total of 1,206,111 shares of its Common Stock at a total cost of \$50,450,000 pursuant to its previously announced stock purchase programs.

The Company has 2,000,000 shares of preferred stock authorized and unissued.

(12) Commitments and Contingencies

At December 31, 2011, in addition to the \$45,165,000 letters of credit secured by investments, Landstar had \$33,499,000 of letters of credit outstanding under the Credit Agreement.

In June 2011, Landstar System, Inc. received a Civil Investigative Demand (the "CID") from the United States Attorney for the Western District of Kentucky issued pursuant to the False Claims Act. The CID requests documents and written interrogatories limited to freight hauled to or from Fort Campbell, Kentucky by certain subsidiaries of the Company and billed to the U.S. government. The Company submitted its response to the CID in August 2011. Since that time, the Company has cooperated fully, and intends to continue to cooperate fully with the U.S. Attorney.

LANDSTAR SYSTEM, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

On September 23, 2011, a jury sitting in a state court in Cobb County, Georgia, entered a damage award of approximately \$40.2 million (such amount, plus pre-judgment interest and a portion of plaintiffs' attorney fees in an amount not yet determined are collectively referred to herein as the Damage Award) against Landstar Ranger, Inc., Landstar System Holdings, Inc. and Landstar System, Inc. The Damage Award arises out of an accident that occurred in February, 2007, involving a truck owner-operator leased to Landstar Ranger, Inc. Under the terms of the commercial trucking insurance program that Landstar had in place in 2007, Landstar retained liability for up to \$5 million with respect to the accident giving rise to the Damage Award. Landstar has third party insurance in place covering all amounts of the Damage Award in excess of such retention, including all related out-of-pocket expenses, such as the costs of an appeal bond, post-judgment interest and attorney fees comprising the Damage Award. The Company recorded a \$5 million charge representing its self-insured retention in respect of this accident in the consolidated financial results of the Company in the 2007 first quarter. Accordingly, the Company's portion of the Damage Award was previously recorded and therefore did not reduce consolidated operating income or net income for the Company's 2011 fiscal year. Under the terms of the Company's insurance policies, the Company is the primary obligor of the amount of the Damage Award, and as such, the Company has reported a \$40.2 million receivable from the third party insurance providers in other receivables and a corresponding liability of the same amount in insurance claims in the consolidated balance sheets at December 31, 2011. The Company and its insurers intend to appeal the Damage Award. No assurances can be given regarding the outcome of such appeal, including the impact of the Damage Award on the premiums charged by the Company's third party insurers for commercial trucking insurance.

The Company is involved in certain claims and pending litigation, including those described herein, arising from the normal conduct of business. Based on knowledge of the facts and, in certain cases, opinions of outside counsel, management believes that adequate provisions have been made for probable losses with respect to the resolution of all such claims and pending litigation and that the ultimate outcome, after provisions therefor, will not have a material adverse effect on the financial condition of the Company, but could have a material effect on the results of operations in a given quarter or year.

(13) Segment Information

Landstar markets its freight transportation services and supply chain solutions primarily through independent commission sales agents who enter into contractual arrangements with the Company and are responsible for locating freight, making that freight available to Landstar's capacity providers and coordinating the transportation of the freight with customers and capacity providers. The Company's third party capacity providers consist of independent contractors who provide truck capacity to the Company under exclusive lease arrangements (the BCO Independent Contractors), unrelated trucking companies who provide truck capacity to the Company under non-exclusive contractual arrangements (the Truck Brokerage Carriers), air cargo carriers, ocean cargo carriers, railroads and independent warehouse capacity providers (Warehouse Capacity Owners). The Company has contracts with Class 1 domestic and Canadian railroads, certain short-line railroads and domestic and international airlines and ocean lines. Through this network of agents and capacity providers linked together by Landstar's information technology systems, Landstar operates a transportation services and supply chain solutions business primarily throughout North America with revenue of \$2.6 billion during the most recently completed fiscal year. The Company reports the results of two operating segments: the transportation logistics segment and the insurance segment.

The transportation logistics segment provides a wide range of transportation services and supply chain solutions. Transportation services offered by the Company include truckload and less-than-truckload transportation, rail intermodal, air cargo, ocean cargo, expedited ground and air delivery of time-critical freight, heavy-haul/specialized, U.S.-Canada and U.S.-Mexico cross-border, project cargo and customs brokerage. Supply chain solutions are based on advanced technology solutions utilizing intellectual property that may be owned by the

LANDSTAR SYSTEM, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Company or licensed from third parties. Such solutions as offered to shippers by the Company may include integrated multi-modal solutions, outsourced logistics, supply chain engineering and warehousing. In the Company's 2009 fiscal third quarter, the Company acquired LSCS LLC (formerly known as A3 Integration, LLC) and its subsidiaries through A3i Acquisition, an entity which the Company owned 100% of the non-voting, preferred interests and, from the date of acquisition to January 2011, 75% of the voting, common equity interests. In January 2011, the Company purchased the remaining 25% of the voting, common equity interests in A3i Acquisition. In June 2011, the Company merged A3i Acquisition into its parent company, LSCS. Industries serviced by the transportation logistics segment include automotive products, paper, lumber and building products, metals, chemicals, foodstuffs, heavy machinery, retail, electronics, ammunition and explosives and military hardware. In addition, the transportation logistics segment provides transportation services to other transportation companies, including logistics and less-than-truckload service providers. Each of the independent commission sales agents has the opportunity to market all of the services provided by the transportation logistics segment. Freight transportation services are typically charged to customers on a per shipment basis for the physical transportation of freight. Supply chain solution customers are generally charged fees for the services provided.

The insurance segment is comprised of Signature Insurance Company, a wholly owned offshore insurance subsidiary, and Risk Management Claim Services, Inc. The insurance segment provides risk and claims management services to certain of Landstar's Operating Subsidiaries. In addition, it reinsures certain risks of the Company's BCO Independent Contractors and provides certain property and casualty insurance directly to certain of Landstar's Operating Subsidiaries. Internal revenue for premiums billed by the insurance segment to the transportation logistics segment is calculated each fiscal period based primarily on an actuarial calculation of historical loss experience and is believed to approximate the cost that would have been incurred by the transportation logistics segment had similar insurance been obtained from an unrelated third party.

The accounting policies of the segments are the same as those described in the summary of significant accounting policies. The Company evaluates a segment's performance based on operating income.

No single customer accounted for more than 10% of consolidated revenue in 2011, 2010 or 2009. Substantially all of the Company's revenue is generated in North America, primarily through customers located in the United States.

The following tables summarize information about the Company's reportable business segments as of and for the fiscal years ending December 31, 2011, December 25, 2010 and December 26, 2009 (in thousands):

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders

Landstar System, Inc.:

We have audited the accompanying consolidated balance sheets of Landstar System, Inc. and subsidiary (the Company) as of December 31, 2011 and December 25, 2010, and the related consolidated statements of income, changes in equity and cash flows for each of the fiscal years ended December 31, 2011, December 25, 2010 and December 26, 2009. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Landstar System, Inc. and subsidiary as of December 31, 2011 and December 25, 2010, and the results of their operations and their cash flows for each of the fiscal years ended December 31, 2011, December 25, 2010 and December 26, 2009, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Landstar System, Inc.'s internal control over financial reporting as of December 31, 2011, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated February 24, 2012, expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures
Disclosure Controls and Procedures

As of the end of the period covered by this Annual Report on Form 10-K, an evaluation was carried out, under the supervision and with the participation of the Company's management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended). Based on that evaluation, the CEO and CFO concluded that the Company's disclosure controls and procedures were effective as of December 31, 2011 to provide reasonable assurance that information required to be disclosed by the Company in reports that it filed or submitted under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.

In designing and evaluating disclosure controls and procedures, Company management recognizes that any disclosure controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Because of the inherent limitation in any control system, no evaluation or implementation of a control system can provide complete assurance that all control issues and all possible instances of fraud have been or will be detected.

Internal Control Over Financial Reporting

(a) Management's Report on Internal Control over Financial Reporting

Management of Landstar System, Inc. (the Company) is responsible for establishing and maintaining effective internal controls over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act, as amended.

Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. The Company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Company's financial statements.

Management, with the participation of the Company's principal executive and principal financial officers, assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2011. This assessment was performed using the criteria established under the Internal Control-Integrated Framework established by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations, including the possibility of human error or circumvention or overriding of internal control. Accordingly, even effective internal control over financial reporting can provide

only reasonable assurance with respect to financial statement preparation and reporting and may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Based on the assessment performed using the criteria established by COSO, management has concluded that the Company maintained effective internal control over financial reporting as of December 31, 2011.

KPMG LLP, the independent registered public accounting firm that audited the financial statements included in this Annual Report on Form 10-K for the fiscal year ended December 31, 2011, has issued an audit report on the effectiveness of the Company's internal control over financial reporting. Such report appears immediately below.

(b) Attestation Report of the Registered Public Accounting Firm

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders

Landstar System, Inc.:

We have audited Landstar System, Inc.'s internal control over financial reporting as of December 31, 2011, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Landstar System, Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Landstar System, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2011, based on criteria established in Internal Control – Integrated Framework issued by COSO.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Landstar System, Inc. and subsidiary as of December 31, 2011 and December 25, 2010, and the related consolidated statements of income, changes in equity, and cash flows for each of the fiscal years ended December 31, 2011, December 25, 2010 and December 26, 2009, and our report dated February 24, 2012, expressed an unqualified opinion on those consolidated financial statements.

(c) Changes in Internal Control Over Financial Reporting

There were no significant changes in the Company's internal controls over financial reporting during the Company's fourth fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Item 9B. Other Information

None

PART III

Item 10. Directors, Executive Officers and Corporate Governance

The information required by this Item concerning the Directors (and nominees for Directors) and Executive Officers of the Company is set forth under the captions Election of Directors, Directors of the Company, Information Regarding Board of Directors and Committees, and Executive Officers of the Company and Compliance with Section 16(a) of the Securities Exchange Act of 1934 in the Company's definitive Proxy Statement for its annual meeting of stockholders to be filed with the Securities and Exchange Commission pursuant to Regulation 14A, and is incorporated herein by reference. The information required by this Item concerning the Company's Audit Committee and the Audit Committee's Financial Expert is set forth under the caption Information Regarding Board of Directors and Committees and Report of the Audit Committee in the Company's definitive Proxy Statement for its annual meeting of stockholders to be filed with the Securities and Exchange Commission pursuant to Regulation 14A, and is incorporated herein by reference.

The Company has adopted a Code of Ethics and Business Conduct that applies to each of its directors and employees, including its principal executive officer, principal financial officer, controller and all other employees performing similar functions. The Code of Ethics and Business Conduct is available on the Company's website at www.landstar.com under Investor Relations Corporate Governance. The Company intends to satisfy the disclosure requirement under Item 5.05 of Form 8-K regarding amendments to, or waivers from, a provision or provisions of the Code of Ethics and Business Conduct by posting such information on its website at the web address indicated above.

Item 11. Executive Compensation

The information required by this Item is set forth under the captions Compensation of Directors, Compensation of Executive Officers, Compensation Discussion and Analysis, Summary Compensation Table, Grants of Plan-Based Awards, Option Exercises and Stock Vested, Outstanding Equity Awards at Fiscal Year End, Nonqualified Deferred Compensation, Report of the Compensation Committee on Executive Compensation and Key Executive Employment Protection Agreements in the Company's definitive Proxy Statement for its annual meeting of stockholders to be filed with the Securities and Exchange Commission pursuant to Regulation 14A, and is incorporated herein by reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The information required by this Item pursuant to Item 201(d) of Regulation S-K is set forth under the caption Market for Registrants Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities in Part II, Item 5 of this report, and is incorporated by reference herein.

The information required by this Item pursuant to Item 403 of Regulation S-K is set forth under the caption Security Ownership by Management and Others in the Company's definitive Proxy Statement for its annual meeting of stockholders to be filed with the Securities and Exchange Commission pursuant to Regulation 14A, and is incorporated herein by reference.

Item 13. Certain Relationships and Related Transactions, and Director Independence

None, other than information required to be disclosed under this item in regard to Director Independence, which is set forth under the caption Independent Directors in the Company's definitive Proxy Statement for its annual meeting of stockholders to be filed with the Securities and Exchange Commission pursuant to Regulation 14A and incorporated herein by reference.

Item 14. Principal Accounting Fees and Services

The information required by this item is set forth under the caption Report of the Audit Committee and Ratification of Appointment of Independent Registered Public Accounting Firm in the Company's definitive Proxy Statement for its annual meeting of stockholders to be filed with the Securities and Exchange Commission pursuant to Regulation 14A, and is incorporated herein by reference.
