These charges consist of approximately \$25 million \$30 million of non-cash asset impairments to reduce the carrying value of long-lived assets to their respective fair value and \$5 million \$7 million for cash severance and related costs, both of which will be recorded during the fourth quarter of 2012. Approximately \$3 million \$4 million related to cash retention bonuses offered to certain employees will be recorded ratably over the period the employees are retained. The Company expects that the majority of the cash payments associated with both the severance and related costs and the retention bonuses will be paid out by December 2014.

In addition to the charges detailed above, a number of these campuses will have remaining lease obligations following the eventual campus closure, with the longest lease term being through 2021. The total gross remaining lease obligations for these campuses once they complete the close process is expected to be approximately \$75 million.
