 - (ii) EBITDA for each of the Company s business segments, which is equal to that business segment s operating profit less that segment s other expense (income), net plus that segment s depreciation, depletion and amortization expense, as applicable to that segment;
 - (iii) working capital of the Company on a consolidated basis, which is equal to current assets less current liabilities;

 - (vi) net debt of the Company on a consolidated basis, which is equal to long-term debt plus the current portion of long-term debt plus short-term borrowings less cash and cash equivalents, each on a consolidated basis.
- Management of the Company uses the non-GAAP Measures to evaluate ongoing operations and believes that these non-GAAP Measures are useful to enable investors to perform meaningful comparisons of current and historical performance of the Company. Management of the Company also believes that the non-GAAP Measures provide a more stable platform on which to compare the historical performance of the Company than the most nearly equivalent GAAP data.
