REFERENCE DOCUMENTS

CONCERNING EXERCISE OF VOTING RIGHT

Reference matters with respect to the proposals:

FIRST ITEM: Distribution of Dividends

The Company strives to maintain a global perspective, to develop its operations in many countries throughout the world and to increase its corporate value.

With respect to the distribution of profits, the Company regards the distribution of profits to its stockholders to be one of the most important issues for management. The Company will make dividend distributions after taking into account its long-term strategy and consolidated earnings performance and will also acquire its own stock from time to time with the objectives of improving capital efficiency and flexibly implementing capital policies.

Retained earnings will be allocated toward financing R&D activities that are essential for the future growth of the Company and toward capital expenditures and investment programs that will expand the Company's operations for the purpose of improving business results and strengthening the Company's financial condition.

Regarding the year-end dividends for the fiscal year under review, the following conditions are proposed:

(1) Conditions and Total Value of Dividend Assets Allocated to Stockholders

¥22 per share of common stock

Total value of ¥39,650,406,312

(2) Effective Date of Distribution of Dividends

June 16, 2014

Outside Corporate Auditor of Tokyo Kaikan Co., Ltd.

Notes: 1. Reasons for selection of candidates for the position of Outside Director

Nobuo Kuroyanagi is proposed as a candidate because the Company wishes to receive his advice on the Company's activities given from an objective, broad-ranging and high-level perspective, and based on his rich experience and high level of insight regarding corporate management.

2. Incidence of inappropriate corporate operations at other companies for which the candidate was serving as an officer (during the past five years), acts which were done to prevent the occurrence of such incidences and acts which were done as measures taken after the occurrence of such incidence

At The Senshu Ikeda Bank, Ltd., where Nobuo Kuroyanagi served as an Outside Director from June 2010 until June 2012, the following were discovered: an incidence of embezzlement of customers' savings by a part-time worker in November 2010, an incidence of fraudulent withdrawal by an employee through the misuse of the maximum amount of overdraft in March 2011 and, finally, an incidence of embezzlement of customers' savings by an employee in June 2011. While Nobuo Kuroyanagi was unaware of such facts in advance, he made various recommendations regarding legal compliance, at meetings of the Board of Directors, on a regular basis and, after the discovery of the aforesaid incidence, Nobuo Kuroyanagi has proactively advised the Company on the implementation of measures to prevent the recurrence of such incidence through the strengthening of the Company's internal systems for checks, etc. and the enhancement of employee training, etc.

In addition, in September 2013, Mitsubishi Heavy Industries, Ltd. signed a plea bargaining agreement with the U.S. Department of Justice, including matters related to the payment of a penalty for violations of the U.S. antitrust laws in connection with certain automotive parts businesses, which may have occurred during Mr. Kuroyanagi's term of service as outside auditor of Mitsubishi Heavy Industries, that began in June 2009. He was not aware of these matters until they were revealed, but he made a number of proposals from the perspective of legal compliance in his day-to-day participation in meetings of the board of directors and board of auditors. After the facts of the matter were made clear, he has proactively expressed opinions regarding the prevention of a recurrence of such matters.

Note: Honda Group Unit Sales is the total unit sales of completed products of Honda, its consolidated subsidiaries and its affiliates accounted for under the equity method. Consolidated Unit Sales is the total unit sales of completed products corresponding to consolidated net sales to external customers, which consists of unit sales of completed products of Honda and its consolidated subsidiaries.

With respect to Honda's sales for the fiscal year by business segment, in motorcycle business operations, revenue from sales to external customers increased by 24.2%, to ¥1,663.6 billion from the previous fiscal year, due mainly to increased consolidated unit sales and favorable foreign currency translation effects. Operating income totaled ¥165.6 billion, an increase of 50.2% from the previous fiscal year, due primarily to increases in sales volume and model mix and favorable foreign currency effects, despite increased SG&A and R&D expenses.

Note: Honda Group Unit Sales is the total unit sales of completed products of Honda, its consolidated subsidiaries and its affiliates accounted for under the equity method. Consolidated Unit Sales is the total unit sales of completed products corresponding to consolidated net sales to external customers, which consists of unit sales of completed products of Honda and its consolidated subsidiaries. Certain sales of automobiles that are financed with residual value type auto loans by our Japanese finance subsidiaries are accounted for as operating leases in conformity with U.S. generally accepted accounting principles and are not included in consolidated net sales to the external customers in our automobile business. As a result, they are not included in Consolidated Unit Sales, but are included in Honda Group Unit Sales of our automobile business.

In automobile business operations, revenue from sales to external customers increased by 19.0%, to ¥9,176.3 billion from the previous fiscal year due mainly to increased consolidated unit sales and favorable foreign currency translation effects. Operating income totaled ¥403.7 billion, an increase of 41.2% from the previous fiscal year, due primarily to continuing cost reduction efforts as well as favorable foreign currency effects, despite increased SG&A and R&D expenses.

Financial Service Business

Revenue from customers in the financial services business operations increased by 27.3%, to ¥698.1 billion from the same period last year due mainly to an increase in revenue from operating leases and favorable foreign currency translation effects. Operating income increased by 15.6%, to ¥182.7 billion from the same period last year due mainly to favorable foreign currency effects, despite an increase in SG&A expenses.

Note: Intangible assets are not included in the table above.

In addition to investments for new model introductions, the Company's capital investments were predominantly utilized for expanding, rationalizing and renovating manufacturing facilities as well as for expanding sales and R&D facilities.

(3) Liquidity and Capital Resources

Funds for financing capital investments in Honda's manufacturing and sales businesses are provided mainly from cash generated by operating activities and bank loans. The outstanding balance of funds for Honda's manufacturing and sales businesses at the end of the fiscal year under review was ¥565.3 billion.

Honda funds its financial programs for customers and dealers primarily from medium-term notes, bank loans, securitization of monetary assets, commercial paper, corporate bonds and from operating companies. The outstanding balance of funds for Honda's financial services subsidiaries at the end of the fiscal year under review was ¥5,838.2 billion.

(4) Preparing for the Future

Honda aims to achieve global growth by further encouraging and strengthening innovation and creativity and creating quality products that please the customers and exceed their expectations.

Honda will focus all its energies on the tasks set out below, aiming to get back on a growth trajectory as it pursues the vision toward 2020 of providing good products to customers with speed, affordability and low CO₂ emissions.

1. Research and Development

In connection with its efforts to develop the most effective safety and environmental technologies, Honda will continue to be innovative in advanced technology and products. Honda aims to create and introduce new value-added products to quickly respond to specific needs in various markets around the world. Honda will also continue its efforts to conduct research on experimental technologies for the future.

2. Production Efficiency

Honda will establish and enhance efficient and flexible production systems at its global production bases and supply high-quality products, with the aim of meeting the needs of its customers in each region. Learning from the experience of disasters such as the Great East Japan Earthquake and the Thai floods, Honda will work at improving its global supply chain, implementing disaster prevention measures at each place of business

and devising more effective business continuity plans (BCPs).

3. Sales Efficiency

Honda will remain proactive in its efforts to expand product lines through the innovative use of IT and will show its continued commitment to different customers throughout the world by upgrading its sales and service structure.

4. Product Quality

In response to increasing customer demand, Honda will upgrade its quality control by enhancing the functions of and coordination among the development, purchasing, production, sales and service departments.

Table of Contents**5. Safety Technologies**

Honda is working to develop safety technologies that enhance accident prediction and prevention, technologies to help reduce the risk of injuries to passengers and pedestrians from car accidents and technologies that enhance compatibility between large and small vehicles, as well as expand its lineup of products incorporating such technologies. Honda will reinforce and continue to advance its contribution to traffic safety in motorized societies in Japan and abroad. Honda also intends to remain active in a variety of traffic safety programs, including advanced driving and motorcycling training programs provided by local dealerships.

6. The Environment

Honda will step up its efforts to create better, cleaner and more fuel-efficient engine technologies and to further improve recyclables throughout its product lines. Honda has now set a target to reduce CO₂ emissions from its global products by 30% by the end of 2020 compared to year 2000 levels. In addition to reducing CO₂ emissions during production and its supply chain, Honda will strengthen its efforts to realize reductions in CO₂ emissions through its entire corporate activities. Furthermore, Honda will strengthen its efforts in advancing technologies in the area of total energy management, to reduce CO₂ emissions through mobility and people's everyday lives.

7. Continuing to Enhance Honda's Social Reputation and Communication with the Community

In addition to continuing to provide products incorporating Honda's advanced safety and environmental technologies, Honda will continue striving to enhance its social reputation by, among other things, strengthening its corporate governance, compliance and risk management as well as participating in community activities and making philanthropic contributions.

Through these company-wide activities, Honda will strive to be a company that its shareholders, investors, customers and society want to exist.

6. THE COMPANY'S SYSTEMS AND POLICIES

Systems to Ensure Directors' Execution of Duties Complies with Laws and Regulations and the Articles of Incorporation and Other Systems to Ensure the Appropriateness of the Company's Operations

The Company's Board of Directors made the following decisions regarding enhancements in the Company's Internal Control Systems.

1. Systems for ensuring that the execution of duties by directors and employees complies with the law and the Company's Articles of Incorporation

The Company has prepared the Honda Conduct Guidelines which provide for conformity with applicable laws and internal rules and regulations as guidelines for conduct which should be shared by the Company's management and employees and implements measures to ensure that all management personnel and employees are made aware of and follow these guidelines. The Company establishes its compliance system such as by appointing a Compliance Officer, who is a director in charge of compliance-related initiatives and by establishing the Business Ethics Committee and the Business Ethics Improvement Proposal Line.

2. Systems related to retention and management of information on execution of duties by directors

Information related to the execution of duties by directors, including minutes of Board of Directors meetings and other important meetings, is retained and stored appropriately in accordance with the Company's document management policy.

3. Regulations and other systems related to risk management

Important management issues are taken up by the Board of Directors, Executive Council and/or Regional Operating Boards, which discuss them in accordance with established rules of procedure, assess associated risks and make decisions after due consideration.

A Risk Management Officer is appointed as a director in charge of promoting risk management initiatives. The Risk Management Officer playing the main role, risk information is collected and evaluated (of these risks, significant risk is promptly reported to the division in charge along with instructions on the countermeasures, and its progress is then monitored). For large-scale disasters requiring Company-level crisis management, the Company organizes the system, such as by establishing the Corporate Crisis Management Policy and Honda Crisis Response Rules.

4. Systems for ensuring that the execution of duties by directors is being conducted efficiently

The Company has established a system for operating its organizational units that reflects its fundamental corporate philosophy. For example, separate headquarters have been set up for each region, business and function, and an operating officer has been assigned to each headquarters and main division. In addition, we have implemented a system that enables prompt and appropriate decision making by having the Executive Council and Regional Operating Boards deliberate on important management issues. To conduct management efficiently and effectively, business plans are prepared on an annual basis and for the medium term, and measures are taken to share these plans.

5. Systems for ensuring that the corporate group, comprised of the Company and its subsidiaries, conducts business activities appropriately
- The Company and its subsidiaries share the Honda Conduct Guidelines and basic policies regarding corporate governance. In addition, each subsidiary works to promote activities that are in compliance with the laws of countries in which they operate and practices observed in their respective industries as they endeavor to enhance corporate governance.

As for the business execution of its subsidiaries, the Company helps with the establishment of account settlement rules. When it comes to important management issues, the Company requests the subsidiary to obtain prior approval from the Company or to report to the Company according to its internal rules. The business control division of the Company regularly receives reports on the subsidiary's business plans to

confirm the appropriateness of the operation.

The Business Ethics Improvement Proposal Line of the Company establishes an internal whistle-blowing and response system for the Company and subsidiaries and major subsidiaries have such internal reporting functions etc. These systems enable the Honda Group to discover and respond to issues that may arise at an early date.

The Audit Office, which directly reports to the president and CEO, is working to strengthen internal auditing functions within the Honda Group, internal auditing of all units, supervising and providing guidance to internal auditing units in major subsidiaries, conducting audits of subsidiaries directly when necessary.

In the case of a company accounted for by the equity method, the Company works to improve corporate governance throughout the Group by seeking the understanding and cooperation of such companies with Honda's basic corporate governance policies.

6. Provision of employees when assistance is requested by corporate auditors and independence of such employees from directors The Corporate Auditors' Office has been established as a supportive staff organization directly under the Board of Corporate Auditors to provide support to corporate auditors.

7. Systems for ensuring directors and employees report to corporate auditors and other systems related to the reporting to corporate auditors
In addition to regularly reporting the state of operations at the Company and its subsidiaries and the state of implementation and operation of internal control systems, including those related to compliance and risk management, any information that may have a significant impact on the Company's operations is also reported to the corporate auditors.

8. Other systems for ensuring the effectiveness of audits by corporate auditors
Corporate auditors work closely with the Audit Office, which serves as the Company's internal audit department, to conduct business audits of the Company and its subsidiaries. Additionally, corporate auditors attend the Executive Council and other important meetings.

7. POLICY REGARDING DECISIONS FOR DISTRIBUTION OF DIVIDENDS, ETC.

The Company strives to carry out its operations worldwide from a global perspective and to increase its corporate value. With respect to the redistribution of profits to our shareholders, which we consider to be one of the most important management issues, the Company's basic policy for dividends is to make distributions after taking into account its long-term consolidated earnings performance.

The Company will also acquire its own shares at the optimal timing with the goal of improving efficiency of the Company's capital structure and implementing a flexible capital policy. The present goal is to maintain a shareholders' return ratio (i.e., the ratio of the total of the dividend payment and the repurchase of the Company's own shares to consolidated net income attributable to Honda Motor Co., Ltd.) of approximately 30%. Retained earnings will be allocated toward financing R&D activities that are essential for the future growth of the Company and capital expenditures and investment programs that will expand its operations for the purpose of improving business results and strengthening the Company's financial condition.

The Company plans to distribute year-end cash dividends of ¥22 per share for the year ended March 31, 2014. As a result, total cash dividends for the year ended March 31, 2014, together with the first quarter cash dividends of ¥20, the second quarter cash dividends of ¥20 and the third quarter cash dividends of ¥20, are planned to be ¥82 per share, an increase of ¥6 per share from the annual dividends paid for the year ended March 31, 2013.

Also, please note that the year-end cash dividends for the year ended March 31, 2014 is a matter to be resolved at the general meeting of shareholders.

Newly formed affiliated companies: 2

Reduced through reorganization: 5

4. The Company prepares its consolidated financial statements in conformity with accounting principles generally accepted in the United States of America in accordance with Article 120-2 (1) of the Ordinance of Companies Accounting. The Company omits some disclosure items and notes in accordance with the second sentence of Article 120-2 (1) of the Ordinance of Companies Accounting.

5. Inventories are stated at the lower of cost, determined principally by the first-in, first-out method, or market.

6. Honda classifies its debt and equity securities in the following categories: available-for-sale, trading or held-to-maturity. Debt securities that are classified as held-to-maturity securities are reported at amortized cost. Debt and equity securities classified as trading securities are reported at fair value, with unrealized gains and losses included in earnings. Other marketable debt and equity securities are classified as

Edgar Filing: HONDA MOTOR CO LTD - Form 6-K

available-for-sale securities and are reported at fair value, with unrealized gains or losses, net of deferred taxes, included in accumulated other comprehensive income (loss) in the stockholders' equity section of the consolidated balance sheets.

7. Goodwill, all of which is allocated to Honda's reporting units, is not amortized but instead is tested for impairment at least annually.
8. Depreciation of property, plant and equipment is calculated principally by the straight-line method based on estimated useful lives and salvage values of the respective assets.
9. Honda applies hedge accounting for certain foreign currency forward contracts related to forecasted foreign currency transactions between the Company and its subsidiaries.
10. The allowance for credit losses on finance subsidiaries' receivables is maintained at an amount management deems adequate to cover estimated losses on finance receivables. The allowance is based on management's evaluation of many factors, including current economic trends, industry experience, inherent risks in the portfolio and the borrower's ability to pay.
11. The allowance for losses on lease residual values is maintained at an amount management deems adequate to cover estimated losses on the uninsured portion of the vehicles' lease residual values. The allowance is also based on management's evaluation of many factors, including current economic conditions, industry experience and the finance subsidiaries' historical experience with residual value losses.
12. Provisions for retirement benefits and other postretirement benefits are provided based on the fair value of both projected benefit obligations and plan assets at the end of the fiscal year to cover for employees' retirement benefits. The Company recognizes its overfunded or underfunded status for the defined benefit postretirement plan as an asset or liability in its consolidated balance sheets and recognizes changes in the funded status in accumulated comprehensive income (loss), net of taxes. Prior service cost (benefit) is amortized by using the straight-line method and the estimated average remaining service years of employees. Actuarial loss is amortized if unrecognized net gain or loss exceeds ten percent of the greater of the projected benefit obligation or the market-related value of plan assets by using the straight-line method and the estimated average remaining service years of employees.
13. Estimated warranty expenses are provided based on historical warranty claim experience with consideration given to the expected level of future warranty costs as well as current information on repair costs. Included in warranty expense accruals are costs for general warranties on vehicles Honda sells and product recalls.
14. Honda's common stock-to-ADS exchange ratio is one share of common stock to one ADS.

Table of Contents**Changes in Accounting Policies:**

1. Adoption of New Accounting Pronouncements

In February 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2013-02 Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. This amendment requires reporting entities to provide information about the amounts reclassified out of accumulated other comprehensive income by component, and to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income.

Honda adopted ASU 2013-02, effective April 1, 2013. This adoption has no impact on the Honda's financial position or results of operations.

2. Changing in Fiscal Year-end of a Subsidiary

Effective April 1, 2013, a subsidiary of the Company changed its fiscal year-end from December 31 to March 31. As a result, the Company eliminated the previously existing three month differences between the reporting periods of the Company and the subsidiary in the consolidated financial statements. The elimination of the lag period represents a change in accounting principle and has been reported by retrospective application. The impacts on the retained earnings and noncontrolling interests as of April 1, 2012 are ¥6,023 million and ¥1,658 million, respectively. Honda believes the effect of the retrospective application is not material to the Company's consolidated financial statements as of and for the year ended March 31, 2013, and therefore the Company's consolidated financial statements have not been retrospectively adjusted, except for the adjustment to retained earnings and noncontrolling interests as of April 1, 2012.

	Mar. 31, 2013	Mar. 31, 2014
Bank loans of employees for their housing costs	26,475	25,368

If an employee defaults on his/her loan payments, Honda is required to perform under the guarantee. The undiscounted maximum amount of Honda's obligation to make future payments in the event of defaults is shown above. As of March 31, 2014, no amount has been accrued for any estimated losses under these obligations, as it is probable that the employees will be able to make all scheduled payments.

3. The total amount of dividends for the fiscal year ended March 31, 2014, was ¥142,381 million. The Company intends to distribute year-end cash dividends of ¥39,650 million to the stockholders of record on March 31, 2014.		

Note on Financial Instruments:**Current Status of Financial Instruments**

1. Policy Regarding Financial Instruments

The policy of Honda is to support its business activities by maintaining sufficient capital resources, a sufficient level of liquidity and a sound balance sheet. In its cash management activities, the Company invests principally in highly safe, short-term financial instruments. Honda meets its operating capital requirements primarily through cash generated by operations, bank loans and the issuance of commercial paper. In addition, the Company's finance subsidiaries fund those financial programs for customers and dealers primarily from medium-term notes, bank loans, securitization of finance receivables, commercial paper, corporate bonds and intercompany loans.

2. Risk Associated with Financial Instruments and Related Risk Management System

The Company reduces the credit risk arising from trade accounts and notes receivables and finance subsidiaries' receivables by requiring compliance with its internal credit management regulations. To minimize the foreign currency fluctuation risk of the

foreign currency denominated receivables, the Company enters into foreign currency forward exchange contracts and foreign currency purchased option contracts. Regarding the lease receivables held by the Company's finance subsidiaries, losses may be incurred when proceeds from the sale of the returned vehicles are less than the contractual residual value. The Company's finance subsidiaries periodically review the estimated residual value of the leased vehicles to monitor the residual value risk.

Available-for-sale securities mainly consist of equity securities. Held-to-maturity securities mainly consist of corporate bonds and local bonds. In order to manage the price fluctuation risk, the Company periodically estimates the fair value of these securities.

To manage the liquidity risk associated with short-term and long-term debt, the Company diversifies its sources of funds. To reduce the interest rate fluctuation risk, the Company enters into interest rate swap contracts. To minimize the foreign currency fluctuation risk of the foreign currency denominated payables, the Company enters into currency swap contracts.

The Company enters into derivative contracts within the actual demand of its business activities in accordance with the risk management policy. The derivative instruments contain an element of risk in the event the counterparties are unable to meet the terms of the agreement. However, Honda minimizes the risk exposure by limiting the counterparties to major international banks and financial institutions meeting established credit guidelines.

The Company applies hedge accounting for certain foreign currency forward exchange contracts related to forecasted foreign currency transactions between the Company and its subsidiaries.

Table of Contents**Fair Value of Financial Instruments**

The carrying amount, estimated fair value and difference of financial instruments at March 31, 2014 are as follows: Yen (millions)

	Carrying Amount	Estimate Fair Value	Difference
Finance subsidiaries receivables	5,140,064	5,175,564	35,500
Available-for-sale securities	185,960	185,960	
Held-to-maturity securities	34,650	34,667	17
Short-term and long-term debt	(5,856,874)	(5,917,087)	(60,213)
Derivative instruments	5,111	5,111	

Note: The book value of the previously mentioned finance subsidiaries receivables excludes direct finance leases (net) from the amount of finance subsidiaries receivables appearing on the balance sheets. The amount of direct finance leases (net) at the end of the fiscal year under review was ¥393,933 million. Also, the previously mentioned finance subsidiaries receivables include the amount of finance subsidiaries receivables, which is presented in the balance sheet items trade accounts and notes receivable and other assets. The amount of such finance subsidiaries receivables at the end of the fiscal year under review was ¥752,229 million.

The methodologies and assumptions used to estimate the fair values of financial instruments are as follows:

1. Cash and cash equivalents, trade receivables and trade payables

The carrying amounts approximate fair values because of the short maturity of these instruments.

2. Finance subsidiaries receivables

The fair values of retail receivables and commercial loans are estimated by discounting future cash flows using the current rates for these instruments of similar remaining maturities. Given the short maturities of wholesale flooring receivables, the carrying amount of those receivables approximates fair value.

3. Available-for-sale securities

The fair value of marketable equity securities is estimated by using quoted market prices. To estimate fair value of auction rate securities, Honda uses third-party developed valuation model which obtains a wide array of market observable inputs, as well as unobservable inputs, including probability of passing or failing auction at each auction. Debt securities consist mainly of corporate bonds and local bonds and the fair values are estimated based on proprietary pricing models provided by specialists and/or market makers and the models obtain a wide array of market observable inputs such as credit ratings and discount rates.

4. Held-to-maturity securities

The fair value of Government bonds is estimated by using quoted market prices. The fair values of corporate bonds and local bonds are estimated based on proprietary pricing models provided by specialists and/or market makers and the models obtain a wide array of market observable inputs such as credit ratings and discount rates.

5. Debt

Edgar Filing: HONDA MOTOR CO LTD - Form 6-K

The fair values of bonds are estimated by using quoted market prices. The fair values of short-term loans and long-term loans are estimated by discounting future cash flows using interest rates currently available for loans of similar terms and remaining maturities.

6. Derivative instruments

The Company holds foreign currency and interest rate derivative instruments. The fair values of foreign currency forward exchange contracts and foreign currency option contracts are estimated using market observable inputs such as spot exchange rates, discount rates and implied volatility. The fair values of currency swap agreements and interest rate swap agreements are estimated by discounting future cash flows using market observable inputs such as LIBOR rates, swap rates, and foreign exchange rates. The credit risk of Honda and its counterparties are considered on the valuation of foreign exchange and interest rate instruments.

Non-marketable securities are excluded from the above table as it is not possible to estimate the future cash flow and it is deemed to be extremely difficult to measure the fair value. The carrying amount of non-marketable securities is ¥11,285 million at March 31, 2014.

Notes to Information about Per Common Share:

Honda Motor Co., Ltd. shareholders' equity per common share and basic net income attributable to Honda Motor Co., Ltd. per common share are as follows: Yen

For detailed information, please refer to Consolidated Financial Summary "Changes in Accounting Policies 2: Changing in Fiscal Year-end of a Subsidiary".

Other

1. Impairment loss on investments in affiliates

For the fiscal year ended March 31, 2013, Honda recognized an impairment loss of ¥12,757 million, net of tax, on certain investments in affiliates which have quoted market values because of an other-than-temporary decline in fair value below their carrying values. The fair values of the investments were based on quoted market price. The impairment losses are included in equity in income of affiliates in the accompanying consolidated statement of income. For the year ended March 31, 2014, Honda did not recognize any significant impairment losses.

2. Impact of the plan amendment and curtailment in consolidated subsidiaries on the Company's consolidated financial position and results of operations

In September 2013, certain consolidated subsidiaries in North America amended their existing defined benefit pension plans, effective January 1, 2014, to reduce the benefits in future periods for their employees on or after January 1, 2014.

This plan amendment resulted in a reduction of the projected benefit obligation and recognition of the prior service benefit at the date of the plan amendment which is amortized over the average remaining service period from the date of the plan amendment. The consolidated subsidiaries also remeasured their projected benefit obligation and the fair value of related plan assets at the date of the plan amendment. The effects of the plan amendment and the remeasurement were recorded in other comprehensive income (loss), net of tax during the fiscal year ended March 31, 2014.

Following this plan amendment, employees of these consolidated subsidiaries could elect to move from the existing defined benefit pension plans to a defined contribution pension plan on January 1, 2014. Consequently, certain employees elected to move to the defined contribution pension plan in October 2013, resulting in a curtailment in the existing defined benefit pension plans. As a result, Honda recognized ¥21,368 million of the prior service benefit included in accumulated other comprehensive income (loss) as a curtailment gain, of which ¥15,407 million is included in cost of sales and ¥5,961 million is included in selling, general and administrative expense in the accompanying consolidated statements of income for the fiscal year ended March 31, 2014. The consolidated subsidiaries also remeasured their projected benefit obligation and the fair value of plan assets in the existing defined benefit pension plans at the date of the curtailment. The effect of the remeasurement was recorded in other comprehensive income (loss), net of tax during the fiscal year ended March 31, 2014.

3. Income taxes

On March 20, 2014, the National Diet of Japan approved amendments to existing income tax laws and the Special Reconstruction Corporation Tax imposed on companies will be abolished for fiscal years beginning on or after April 1, 2014. Upon the change in the laws, the statutory income tax rate in Japan for fiscal years beginning on or after April 1, 2014 will be changed to approximately 35%. Thus, the Company and its Japanese subsidiaries re-measured deferred tax assets and liabilities as of the enactment date based on the new tax rates to be applied in the fiscal years in which temporary differences are expected to be recovered or settled. As a result, net of deferred tax assets decreased by ¥7,321 million, and income tax expenses increased by ¥7,321 million, as of the enactment date of the laws.

We have audited the consolidated financial statements, comprising the consolidated balance sheet, the consolidated statement of income, the consolidated statement of changes in equity and the related notes of Honda Motor Co., Ltd. as at March 31, 2014 and for the year from April 1, 2013 to March 31, 2014 in accordance with Article 444-(4) of the Companies Act.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the second sentence of Article 120-2 (1) of the Ordinance of Companies Accounting that prescribes some omissions of disclosure items required under accounting principles generally accepted in the United States of America, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audit as independent auditor. We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, while the objective of the financial statement audit is not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above, which were prepared in accordance with the second sentence of Article 120-2 (1) of the Ordinance of Companies Accounting that prescribes some omissions of disclosure items required under accounting principles generally accepted in the United States of America, present fairly, in all material respects, the financial position and the results of operations of Honda Motor Co., Ltd. and its consolidated subsidiaries for the period, for which the consolidated financial statements were prepared.

Other Matter

Our firm and engagement partners have no interest in the Company which should be disclosed pursuant to the provisions of the Certified Public Accountants Law of Japan.
