Form 10-Q
November 13, 2014

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

**x QUARTERLY REPORT PURSUANT TO SECTION 13 or 15 (D) OF THE SECURITIES EXCHANGE
ACT OF 1934**

For the quarterly period ended September 30, 2014

or

**.. TRANSITION REPORT PURSUANT TO SECTION 13 OR 15 (D) OF THE SECURITIES EXCHANGE
ACT OF 1934**

Commission File Number 001-12103

PEOPLES FINANCIAL CORPORATION

(Exact name of registrant as specified in its charter)

**Mississippi
(State or other jurisdiction of**

**64-0709834
(I.R.S. Employer**

incorporation or organization)

Identification No.)

Lameuse and Howard Avenues,

Biloxi, Mississippi
(Address of principal executive offices)

39533
(Zip Code)

(228) 435-5511

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files.) Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the last practicable date. Peoples Financial Corporation has only one class of common stock authorized. At October 31, 2014, there were 15,000,000 shares of \$1 par value common stock authorized, with 5,123,186 shares issued and outstanding.

PEOPLES FINANCIAL CORPORATION AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

For the Nine Months Ended September 30, 2014 and 2013

1. Basis of Presentation:

Peoples Financial Corporation (the Company) is a one-bank holding company headquartered in Biloxi, Mississippi. It has two operating subsidiaries, PFC Service Corp., an inactive company, and The Peoples Bank, Biloxi, Mississippi (the Bank). The Bank provides a full range of banking, financial and trust services to state, county and local government entities and individuals and small and commercial businesses operating in those portions of Mississippi, Louisiana and Alabama which are within a fifty mile radius of the Waveland, Wiggins and Gautier branches, the Bank's three most outlying locations (the trade area).

The accompanying unaudited consolidated financial statements and notes thereto contain all adjustments, consisting only of normal recurring adjustments, necessary to present fairly, in accordance with accounting principles generally accepted in the United States of America (GAAP), the financial position of the Company and its subsidiaries as of September 30, 2014 and the results of their operations and their cash flows for the periods presented. The interim financial information should be read in conjunction with the annual consolidated financial statements and the notes thereto included in the Company's 2013 Annual Report and Form 10-K.

The results of operations for the quarter or nine months ended September 30, 2014, are not necessarily indicative of the results to be expected for the full year.

Use of Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates. Material estimates common to the banking industry that are particularly susceptible to significant change in the near term include, but are not limited to, the determination of the allowance for loan losses, the valuation of other real estate acquired in connection with foreclosure or in satisfaction of loans and valuation allowances associated with the realization of deferred tax assets, which are based on future taxable income.

Summary of Significant Accounting Policies - The accounting and reporting policies of the Company conform with GAAP and general practices within the banking industry. There have been no material changes or developments in the application of principles or in our evaluation of the accounting estimates and the underlying assumptions or methodologies that we believe to be Critical Accounting Policies as disclosed in our Form 10-K for the year ended December 31, 2013.

New Accounting Pronouncements - In April 2014, the Financial Accounting Standards Board (the FASB) issued Accounting Standards Update (ASU) No. 2014-06, *Technical Corrections and Improvements Related to Glossary Terms*. This ASU added, deleted, corrected and modified terms in the Master Glossary of the Codification and was effective upon issuance. The adoption of this ASU did not have a material effect on the Company's financial position, results of operations or cash flows. In August 2014, the FASB issued ASU No. 2014-14, *Receivables - Troubled Debt*

Restructurings by Creditors (Subtopic 310-40): Classification of Certain Government-Guaranteed Mortgage Loans upon Foreclosure. This ASU requires that a mortgage loan be derecognized and a separate other receivable be recognized upon foreclosure if certain conditions are met. ASU No. 2014-14 is effective for annual periods and interim periods within those annual periods beginning after December 31, 2014. In August 2014, the FASB issued ASU No. 2014-15, *Presentation of Financial Statements - Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern.* This ASU defines management's responsibility to evaluate whether there is substantial doubt about an organization's ability to continue as a going concern and to provide related footnote disclosures. ASU 2014-15 is effective for annual periods ending after December 31, 2016, and interim periods within annual periods beginning after December 14, 2016. The adoption of ASU 2014-14 and ASU 2014-15 is not expected to have a material effect on the Company's financial position, results of operations or cash flows.

2. Earnings Per Share:

Per share data is based on the weighted average shares of common stock outstanding of 5,123,186 and 5,123,316 for the quarters ended September 30, 2014 and 2013, respectively, and 5,123,186 and 5,130,811 for the nine months ended September 30, 2014 and 2013, respectively.

3. Statements of Cash Flows:

The Company has defined cash and cash equivalents as cash and due from banks and federal funds sold. The Company paid \$1,209,501 and \$1,198,021 for the nine months ended September 30, 2014 and 2013, respectively, for interest on deposits and borrowings. Income tax payments of \$320,000 and \$810,000 were made during the nine months ended September 30, 2014 and 2013, respectively. Loans transferred to other real estate amounted to \$1,143,953 and \$3,695,825 during the nine months ended September 30, 2014 and 2013, respectively.

4. Investments:

The amortized cost and fair value of securities at September 30, 2014 and December 31, 2013, are as follows (in thousands):

| September 30, 2014 | Amortized Cost | Gross Unrealized Gains | Gross Unrealized Losses | Fair Value |

| U.S. Treasuries | \$ 29,708 | \$ 1,042 | \$ | \$ | \$ 29,708 | \$ 1,042 |
| U.S. Government agencies | 113,446 | 10,322 | 4,621 | 379 | 118,067 | 10,701 |
| Mortgage-backed securities | 44,269 | 1,269 | | | 44,269 | 1,269 |
| States and political subdivisions | 7,690 | 470 | | | 7,690 | 470 |
| TOTAL | \$ 195,113 | \$ 13,103 | \$ 4,621 | \$ 379 | \$ 199,734 | \$ 13,482 |

At September 30, 2014, 7 of the 10 securities issued by the U.S. Treasury, 23 of the 29 securities issued by U.S. Government agencies, 7 of the 13 mortgage-backed securities and 21 of the 157 securities issued by states and political subdivisions contained unrealized losses.

Management evaluates securities for other-than-temporary impairment on a monthly basis. In performing this evaluation, the length of time and the extent to which the fair value has been less than cost, the fact that the Company's securities are primarily issued by U.S. Treasury and U.S. Government Agencies and the cause of the decline in value are considered. In addition, the Company does not intend to sell and it is not more likely than not that it will be required to sell these securities before maturity. While some available for sale securities have been sold for liquidity purposes or for gains, the Company has traditionally held its securities, including those classified as available for sale, until maturity. As a result of the evaluation of these securities, the Company has determined that the unrealized losses summarized in the tables above are not deemed to be other-than-temporary.

Securities with a fair value of \$212,315,955 and \$262,830,011 at September 30, 2014 and December 31, 2013, respectively, were pledged to secure public deposits, federal funds purchased and other balances required by law.

Proceeds from the sale of available for sale debt securities were \$26,075,225 for the nine months ended September 30, 2013. Available for sale debt securities were sold for a realized gain of \$257,997. There were no sales of available for sale securities in 2014.

5. Loans:

The composition of the loan portfolio at September 30, 2014 and December 31, 2013, is as follows (in thousands):

| | September 30, 2014 | December 31, 2013 |
|----------------------------------|-----------------------|----------------------|
| Gaming | \$ 23,747 | \$ 29,570 |
| Residential and land development | 16,873 | 19,403 |
| Real estate, construction | 39,976 | 44,987 |
| Real estate, mortgage | 242,128 | 237,158 |
| Commercial and industrial | 26,049 | 35,007 |
| Other | 9,419 | 9,224 |
| Total | \$ 358,192 | \$ 375,349 |

The age analysis of the loan portfolio, segregated by class of loans, as of September 30, 2014 and December 31, 2013, is as follows (in thousands):

| | Number of Days Past Due | | | Total Past Due | Current | Total Loans | Loans Past Due Greater Than 90 Days & Still Accruing |
|-------------------------------------|-------------------------|------------------|-----------------------|----------------------|-------------------|-------------------|--|
| | 30 - 59 | 60 - 89 | Greater Than 90 | | | | |
| September 30, 2014: | | | | | | | |
| Gaming | \$ | \$ | \$ 591 | \$ 591 | \$ 23,156 | \$ 23,747 | \$ |
| Residential and land development | | | 11,440 | 11,440 | 5,433 | 16,873 | |

| Gaming | \$ | \$ | \$ | \$ | \$ 29,570 | \$ 29,570 | \$ |
| Residential and land development | 51 | | 13,572 | 13,623 | 5,780 | 19,403 | |
| Real estate, construction | 3,846 | | 9,452 | 13,298 | 31,689 | 44,987 | 146 |
| Real estate, mortgage | 6,910 | 2,684 | 5,134 | 14,728 | 222,430 | 237,158 | 505 |
| Commercial and industrial | 1,192 | | | 1,192 | 33,815 | 35,007 | |
| Other | 227 | 5 | | 232 | 8,992 | 9,224 | |
| Total | \$ 12,226 | \$ 2,689 | \$ 28,158 | \$ 43,073 | \$ 332,276 | \$ 375,349 | \$ 651 |

The Company monitors the credit quality of its loan portfolio through the use of a loan grading system. A score of 1 to 5 is assigned to the loan on factors including repayment ability, trends in net worth and/or financial condition of the borrower and guarantors, employment stability, management ability, loan to value fluctuations, the type and structure of the loan, conformity of the loan to bank policy and payment performance. Based on the total score, a loan grade of A - F is applied. A grade of A will generally be applied to loans for customers that are well known to the Company and that have excellent sources of repayment. A grade of B will generally be applied to loans for customers that have excellent sources of repayment which have no identifiable risk of collection. A grade of C will generally be applied to loans for customers that have adequate sources of repayment which have little identifiable risk of collection. Loans with a grade of C may be placed on the watch list if weaknesses are not resolved which could result in potential loss or for other circumstances that require monitoring. A grade of D will generally be applied to loans for customers that are inadequately protected by current sound net worth, paying capacity of the borrower, or pledged collateral. Loans with a grade of D have unsatisfactory characteristics such as cash flow deficiencies, bankruptcy filing by the borrower or dependence on the sale of collateral for the primary source of repayment, causing more than acceptable levels of risk. Loans 60 to 89 days past due receive a grade of D. A grade of E will generally be applied to loans for customers with weaknesses inherent in the D classification and in which collection or liquidation in full is questionable. In addition, on a monthly basis the Company determines which loans are 90 days or more past due and assigns a grade of E to

them. A grade of F is applied to loans which are considered uncollectible and of such little value that their continuance in an active bank is not warranted. Loans with this grade are charged off, even though partial or full recovery may be possible in the future.

An analysis of the loan portfolio by loan grade, segregated by class of loans, as of September 30, 2014 and December 31, 2013, is as follows (in thousands):

| | Loans With A Grade Of: | | | | | Total |
|----------------------------------|------------------------|------------------|------------------|------------------|-----------|-------------------|
| | A or B | C | D | E | F | |
| September 30, 2014: | | | | | | |
| Gaming | \$ 23,156 | \$ | \$ | \$ 591 | \$ | \$ 23,747 |

| Residential and land development | 4,236 | 1,544 | 51 | 13,572 | | 19,403 |
| Real estate, construction | 38,808 | 781 | 2,220 | 3,178 | | 44,987 |
| Real estate, mortgage | 204,569 | 4,495 | 17,852 | 10,242 | | 237,158 |
| Commercial and industrial | 31,902 | 682 | 2,402 | 21 | | 35,007 |
| Other | 9,131 | 24 | 50 | 19 | | 9,224 |
| Total | \$ 312,621 | \$ 10,026 | \$ 22,575 | \$ 30,127 | \$ | \$ 375,349 |

A loan may be impaired but not on nonaccrual status when the loan is well secured and in the process of collection. Total loans on nonaccrual as of September 30, 2014 and December 31, 2013, are as follows (in thousands):

| | September 30, 2014 | December 31, 2013 |
|----------------------------------|--------------------|-------------------|
| Gaming | \$ 591 | \$ 1,223 |
| Residential and land development | 11,440 | 13,572 |
| Real estate, construction | 1,772 | 2,588 |
| Real estate, mortgage | 18,768 | 8,788 |
| Commercial and industrial | 880 | |
| Total | \$ 33,451 | \$ 26,171 |

The Company has modified certain loans by granting interest rate concessions to these customers. These loans are in compliance with their modified terms, are currently accruing and the Company has classified them as troubled debt restructurings. Troubled debt restructurings as of September 30, 2014 and December 31, 2013 were as follows (in thousands except for number of contracts):

| | Number of Contracts | Pre-Modification Outstanding Recorded Investment | Post-Modification Outstanding Recorded Investment | Related Allowance |
|---------------------------|------------------------|---|--|----------------------|
| September 30, 2014: | | | | |
| Real estate, construction | 2 | \$ 856 | \$ 856 | \$ 267 |
| Real estate, mortgage | 5 | 1,820 | 1,820 | 190 |
| Total | 7 | \$ 2,676 | \$ 2,676 | \$ 457 |
| December 31, 2013: | | | | |
| Real estate, construction | 2 | \$ 891 | \$ 891 | \$ 270 |
| Real estate, mortgage | 6 | 10,012 | 10,012 | 994 |
| Commercial and industrial | 1 | 678 | 678 | |
| Total | 9 | \$ 11,581 | \$ 11,581 | \$ 1,264 |

During September 2014, two loans which had been classified as troubled debt restructurings at December 31, 2013 became in default of their modified terms and were placed on nonaccrual. These loans included one loan that was included in the real estate mortgage segment with a balance of \$8,169,179 and one loan that was included in the commercial and industrial segment with a balance of \$677,901 as of December 31, 2013.

Impaired loans, which include loans classified as nonaccrual and troubled debt restructurings, segregated by class of loans, as of September 30, 2014 and December 31, 2013, are as follows (in thousands):

| | Unpaid Principal Balance | Recorded Investment | Related Allowance | Average Recorded Investment | Interest Income Recognized |

7. Deposits:

At September 30, 2014, time deposits of \$100,000 or more include brokered deposits of \$5,000,000, which mature in 2017.

8. Fair Value Measurements and Disclosures:

The Company utilizes fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. Available for sale securities are recorded at fair value on a recurring basis.

Additionally, from time to time, the Company may be required to record other assets at fair value on a non-recurring basis, such as impaired loans and ORE. These non-recurring fair value adjustments typically involve application of lower of cost or market accounting or write-downs of individual assets. Additionally, the Company is required to

disclose, but not record, the fair value of other financial instruments.

Fair Value Hierarchy

The Company groups assets and liabilities at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value.

These levels are:

Level 1 - Valuation is based upon quoted prices for identical instruments traded in active markets.

Level 2 - Valuation is based upon quoted market prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable in the market.

Level 3 - Valuation is generated from model-based techniques that use at least one significant assumption not observable in the market. These unobservable assumptions reflect estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include the use of option pricing models, discounted cash flow models and similar techniques.

Following is a description of valuation methodologies used to determine the fair value of financial assets and liabilities.

Cash and Due from Banks

The carrying amount shown as cash and due from banks approximates fair value.

Federal Funds Sold

The carrying amount shown as federal funds sold approximates fair value.

Available for Sale Securities

The fair value of available for sale securities is based on quoted market prices. The Company's available for sale securities are reported at their estimated fair value, which is determined utilizing several sources. The primary source is Interactive Data Corporation, which utilizes pricing models that vary based on asset class and include available trade, bid and other market information and whose methodology includes broker quotes, proprietary models and vast descriptive databases. The other source for determining fair value is matrix pricing, which is a mathematical technique used widely in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark securities. All of the Company's available for sale securities are Level 2 assets.

Held to Maturity Securities

The fair value of held to maturity securities is based on quoted market prices.

Other Investments

The carrying amount shown as other investments approximates fair value.

Federal Home Loan Bank Stock

The carrying amount shown as Federal Home Loan Bank Stock approximates fair value.

Loans

The fair value of fixed rate loans is estimated by discounting the future cash flows using the current rates at which similar loans would be made to borrowers with similar credit ratings for the remaining maturities. The cash flows considered in computing the fair value of such loans are segmented into categories relating to the nature of the contract and collateral based on contractual principal

maturities. Appropriate adjustments are made to reflect probable credit losses. Cash flows have not been adjusted for such factors as prepayment risk or the effect of the maturity of balloon notes. The fair value of floating rate loans is estimated to be its carrying value. At each reporting period, the Company determines which loans are impaired. Accordingly, the Company's impaired loans are reported at their estimated fair value on a non-recurring basis. An allowance for each impaired loan, which are generally collateral-dependent, is calculated based on the fair value of its collateral. The fair value of the collateral is based on appraisals performed by third-party valuation specialists. Factors including the assumptions and techniques utilized by the appraiser are considered by Management. If the recorded investment in the impaired loan exceeds the measure of fair value of the collateral, a valuation allowance is recorded as a component of the allowance for loan losses. Impaired loans are non-recurring Level 3 assets.

Other Real Estate

In the course of lending operations, Management may determine that it is necessary to foreclose on the related collateral. Other real estate acquired through foreclosure is carried at fair value, less estimated costs to sell. The fair value of the collateral is based on appraisals performed by third-party valuation specialists. Factors including the assumptions and techniques utilized by the appraiser are considered by Management. If the current appraisal is more than one year old and/or the loan balance is more than \$200,000, a new appraisal is obtained. Otherwise, the Bank's in-house property evaluator and Management will determine the fair value of the collateral, based on comparable sales, market conditions, Management's plans for disposition and other estimates of fair value obtained from principally independent sources, adjusted for estimated selling costs. Other real estate is a non-recurring Level 3 asset.

Cash Surrender Value of Life Insurance

The carrying amount of cash surrender value of bank-owned life insurance approximates fair value.

Deposits

The fair value of non-interest bearing demand and interest bearing savings and demand deposits is the amount reported in the financial statements. The fair value of time deposits is estimated by discounting the cash flows using current rates of time deposits with similar remaining maturities. The cash flows considered in computing the fair value of such deposits are based on contractual maturities, since approximately 98% of time deposits provide for automatic renewal at current interest rates.

Federal Funds Purchased and Securities Sold under Agreements to Repurchase

The carrying amount shown as federal funds purchased and securities sold under agreements to repurchase approximates fair value.

Borrowings from Federal Home Loan Bank

The fair value of Federal Home Loan Bank (FHLB) fixed rate borrowings is estimated using discounted cash flows based on current incremental borrowing rates for similar types of borrowing arrangements. The fair value of FHLB variable rate borrowings is estimated to be its carrying value.

The balances of available for sale securities, which are the only assets measured at fair value on a recurring basis, by level within the fair value hierarchy and by investment type, as of September 30, 2014 and December 31, 2013 are as follows (in thousands):

| | Total | Fair Value Measurements Using | | |
|-----------------------------------|-------------------|-------------------------------|-------------------|-----------|
| | | Level 1 | Level 2 | Level 3 |
| September 30, 2014: | | | | |
| U.S. Treasuries | \$ 37,278 | \$ | \$ 37,278 | \$ |
| U.S. Government agencies | 144,075 | | 144,075 | |
| Mortgage-backed securities | 46,371 | | 46,371 | |
| States and political subdivisions | 34,671 | | 34,671 | |
| Equity securities | 650 | | 650 | |
| Total | \$ 263,045 | \$ | \$ 263,045 | \$ |
| December 31, 2013: | | | | |
| U.S. Treasuries | \$ 43,648 | \$ | \$ 43,648 | \$ |
| U.S. Government agencies | 145,805 | | 145,805 | |
| Mortgage-backed securities | 50,326 | | 50,326 | |
| States and political subdivisions | 35,011 | | 35,011 | |
| Equity securities | 650 | | 650 | |
| Total | \$ 275,440 | \$ | \$ 275,440 | \$ |

Impaired loans, which are measured at fair value on a non-recurring basis, by level within the fair value hierarchy as of September 30, 2014 and December 31, 2013 are as follows (in thousands):

| | Total | Fair Value Measurements Using | | |
|--------------------|-----------|-------------------------------|---------|-----------|
| | | Level 1 | Level 2 | Level 3 |
| September 30, 2014 | \$ 12,346 | \$ | \$ | \$ 12,346 |
| December 31, 2013 | 18,831 | | | 18,831 |

The following table presents a summary of changes in the fair value of impaired loans which are measured using level 3 inputs (in thousands):

| | For the Nine Months Ended September 30, 2014 | For the Year Ended December 31, 2013 |
|------------------------------|--|--------------------------------------|
| Balance, beginning of period | \$ 18,831 | \$ 16,030 |

| | | |
|--|-----------|-----------|
| Additions to impaired loans and troubled debt restructurings | 212 | 17,424 |
| Principal payments, charge-offs and transfers to other real estate | (4,297) | (15,153) |
| Change in allowance for loan losses on impaired loans | (2,400) | 530 |
| Balance, end of period | \$ 12,346 | \$ 18,831 |

Other real estate, which is measured at fair value on a non-recurring basis, by level within the fair value hierarchy as of September 30, 2014 and December 31, 2013 are as follows (in thousands):

| | Total | Fair Value Measurements Using | | Level 3 |
|--------------------|----------|-------------------------------|---------|----------|
| | | Level 1 | Level 2 | |
| September 30, 2014 | \$ 9,710 | \$ | \$ | \$ 9,710 |
| December 31, 2013 | 9,630 | | | 9,630 |

The following table presents a summary of changes in the fair value of other real estate which is measured using level 3 inputs (in thousands):

| | For the Nine Months Ended September 30, 2014 | For the Year Ended December 31, 2013 |
|--------------------------------------|--|--------------------------------------|
| Balance, beginning of period | \$ 9,630 | \$ 7,008 |
| Loans transferred to ORE | 1,144 | 4,537 |
| Sales | (845) | (1,188) |
| Writedowns | (219) | (670) |
| Insurance proceeds for casualty loss | | (57) |
| Balance, end of period | \$ 9,710 | \$ 9,630 |

The carrying value and estimated fair value of assets and liabilities, by level within the fair value hierarchy, at September 30, 2014 and December 31, 2013, are as follows (in thousands):

| | Carrying Amount | Fair Value Measurements Using | | | Total |
|--|--------------------|-------------------------------|---------|---------|-----------|
| | | Level 1 | Level 2 | Level 3 | |

9. Reclassifications:

Certain reclassifications, which had no effect on prior year net income, have been made to prior period statements to conform to current year presentation.

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

GENERAL

The Company is a one-bank holding company headquartered in Biloxi, Mississippi. It has two operating subsidiaries, PFC Service Corp., an inactive company, and The Peoples Bank, Biloxi, Mississippi (the Bank). The Bank provides a full range of banking, financial and trust services to state, county and local government entities and individuals and small and commercial businesses operating in those portions of Mississippi, Louisiana and Alabama which are within a fifty mile radius of the Waveland, Wiggins and Gautier branches, the Bank's three most outlying locations (the trade area).

The following presents Management's discussion and analysis of the consolidated financial condition and results of operations of Peoples Financial Corporation and Subsidiaries. These comments should be considered in combination with the Consolidated Financial Statements and Notes to Consolidated Financial Statements included in this report on Form 10-Q and the Consolidated Financial Statements, Notes to Consolidated Financial Statements and Management's Discussion and Analysis included in the Company's Form 10-K for the year ended December 31, 2013.

Forward-Looking Information

Congress passed the Private Securities Litigation Act of 1995 in an effort to encourage corporations to provide information about a company's anticipated future financial performance. This act provides a safe harbor for such disclosure which protects the companies from unwarranted litigation if actual results are different from management expectations. This report contains forward-looking statements and reflects industry conditions, company performance and financial results. These forward-looking statements are subject to a number of factors and uncertainties which could cause the Company's actual results and experience to differ from the anticipated results and expectations expressed in such forward-looking statements. Such factors and uncertainties include, but are not limited to: changes in interest rates and market prices, changes in local economic and business conditions, increased competition for deposits and loans, a deviation in actual experience from the underlying assumptions used to determine and establish the allowance for loan losses, changes in the availability of funds resulting from reduced liquidity, changes in government regulations and acts of terrorism, weather or other events beyond the Company's control.

New Accounting Pronouncements

In April 2014, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2014-06, *Technical Corrections and Improvements Related to Glossary Terms*. This ASU added, deleted, corrected and modified terms in the Master Glossary of the Codification and was effective upon issuance. The adoption of this ASU did not have a material effect on the Company's financial position, results of operations or cash flows.

In August 2014, the FASB issued ASU No. 2014-14, *Receivables - Troubled Debt Restructurings by Creditors (Subtopic 310-40): Classification of Certain Government-Guaranteed Mortgage Loans upon Foreclosure*. This ASU requires that a mortgage loan be derecognized and a separate other

receivable be recognized upon foreclosure if certain conditions are met. ASU No. 2014-14 is effective for annual periods and interim periods within those annual periods beginning after December 31, 2014. The adoption of this ASU is not expected to have a material effect on the Company's financial position, results of operations or cash flows.

In August 2014, the FASB issued ASU No. 2014-15, *Presentation of Financial Statements - Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern*. This ASU defines management's responsibility to evaluate whether there is substantial doubt about an organization's ability to continue as a going concern and to provide related footnote disclosures. ASU 2014-15 is effective for annual periods ending after December 31, 2016, and interim periods within annual periods beginning after December 14, 2016. The adoption of this ASU is not expected to have a material effect on the Company's financial position, results of operations or cash flows.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires Management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company evaluates these estimates and assumptions on an on-going basis using historical experience and other factors, including the current economic environment. We adjust such estimates and assumptions when facts and circumstances dictate. Certain critical accounting policies affect the more significant estimates and assumptions used in the preparation of the consolidated financial statements.

Allowance for loan losses:

The Company's most critical accounting policy relates to its allowance for loan losses (ALL), which reflects the estimated losses resulting from the inability of its borrowers to make loan payments. The ALL is established and maintained at an amount sufficient to cover the estimated loss associated with the loan portfolio of the Company as of the date of the financial statements. Credit losses arise not only from credit risk, but also from other risks inherent in the lending process including, but not limited to, collateral risk, operation risk, concentration risk and economic risk. As such, all related risks of lending are considered when assessing the adequacy of the ALL. On a quarterly basis, Management estimates the probable level of losses to determine whether the allowance is adequate to absorb reasonably foreseeable, anticipated losses in the existing portfolio based on our past loan loss experience, known and inherent risk in the portfolio, adverse situations that may affect the borrowers' ability to repay and the estimated value of any underlying collateral and current economic conditions. Management believes that the ALL is adequate and appropriate for all periods presented in these financial statements. If there was a deterioration of any of the factors considered by Management in evaluating the ALL, the estimate of loss would be updated, and additional provisions for loan losses may be required. The analysis divides the portfolio into two segments: a pool analysis of loans based upon a five year average loss history which is updated on a quarterly basis and which may be adjusted by qualitative factors by loan type and a specific reserve analysis for those loans considered impaired under GAAP. All credit relationships with an outstanding balance of \$100,000 or greater that are included in Management's loan watch list are

individually reviewed for impairment. All losses are charged to the ALL when the loss actually occurs or when a determination is made that a loss is likely to occur; recoveries are credited to the ALL at the time of receipt.

Other Real Estate:

Other real estate (ORE) includes real estate acquired through foreclosure. Each other real estate property is carried at fair value, less estimated costs to sell. Fair value is principally based on appraisals performed by third-party valuation specialists. If Management determines that the fair value of a property has decreased subsequent to foreclosure, the Company records a write down which is included in noninterest expense.

Employee Benefit Plans:

Employee benefit plan liabilities and pension costs are determined utilizing actuarially determined present value calculations. The valuation of the benefit obligation and net periodic expense is considered critical, as it requires Management and its actuaries to make estimates regarding the amount and timing of expected cash outflows including assumptions about mortality, expected service periods and the rate of compensation increases.

Income Taxes:

GAAP requires the asset and liability approach for financial accounting and reporting for deferred income taxes. We use the asset and liability method of accounting for deferred income taxes and provide deferred income taxes for all significant income tax temporary differences. As part of the process of preparing our consolidated financial statements, the Company is required to estimate our income taxes in each of the jurisdictions in which we operate. This process involves estimating our actual current tax exposure together with assessing temporary differences resulting from differing treatment of items, such as the provision for loan losses, for tax and financial reporting purposes. These differences result in deferred tax assets and liabilities that are included in our consolidated statement of condition. We must also assess the likelihood that our deferred tax assets will be recovered from future taxable income, and to the extent we believe that recovery is not likely, we must establish a valuation allowance. Significant management judgment is required in determining our provision for income taxes, our deferred tax assets and liabilities and any valuation allowance recorded against our net deferred tax assets. To the extent the Company establishes a valuation allowance or adjusts this allowance in a period, we must include an expense within the tax provisions in the consolidated statement of income.

OVERVIEW

The Company is a community bank serving the financial and trust needs of its customers in its trade area of south Mississippi, southeast Louisiana and southwest Alabama. Maintaining a strong core deposit base and providing commercial and real estate lending in our trade area are the traditional focuses of the Company. Growth has largely been achieved through de novo branching activity, and it is expected that these strategies will continue to be emphasized in the future.

The Company incurred a net loss of \$1,799,000 for the third quarter of 2014 compared with net income of \$886,000 for the third quarter of 2013 and a net loss of \$885,000 for the first three quarters of 2014 compared with net income of \$345,000 for the first three quarters of 2013. Results

in 2014 were directly related to the large provision for the allowance for loan losses recorded in the third quarter of 2014. Management updated its evaluation of collateral relating to two loans during the third quarter of 2014 as a result of receiving new appraisals. These new evaluations resulted in additional loan loss provisions for these two credits. The provision for the allowance for loan losses was \$3,541,000 and \$4,615,000 for the third quarter and first three quarters of 2014, respectively, compared with \$542,000 and \$4,619,000, respectively, for the third quarter and first three quarters of 2013.

Managing the net interest margin in the Company's highly competitive market and in context of larger economic conditions has been very challenging and will continue to be so for the foreseeable future. The yield on average loans has increased as average nonaccrual loans have decreased significantly in 2014 as compared with 2013. The Company extended durations on its investments during 2013 in order to increase yield, which can be seen from the improved yield on average available for sale securities.

Monitoring asset quality, estimating potential losses in our loan portfolio and addressing non-performing loans continue to be emphasized during these difficult economic times, as the local and national economy continues to negatively impact collateral values and borrowers' ability to repay their loans. The Company is working diligently to address and reduce its non-performing assets. The Company's nonaccrual loans totaled \$33,451,000 and \$26,171,000 at September 30, 2014 and December 31, 2013, respectively. Most of these loans are collateral-dependent, and the Company has rigorously evaluated the value of its collateral to determine potential losses.

Non-interest income decreased \$227,000 and \$262,000 for the three and nine months ended September 30, 2014 as compared with 2013 results. Service charges on deposit accounts decreased \$181,000 for the three months ended September 30, 2014. Results for the nine months ended September 30, 2013 included gains on sales of securities of \$258,000, while there were no sales in 2014.

Non-interest expense increased \$73,000 and \$1,239,000 for the three and nine months ended September 30, 2014 as compared with 2013 results. This increase for the three months ended September 30, 2014 was the result of increases in net occupancy expense of \$56,000 and FDIC assessments of \$97,000, while other expenses decreased \$148,000 as compared with 2013. This increase for the nine months ended September 30, 2014 was the result of increases in salaries and employee benefits of \$421,000, equipment rentals, depreciation and maintenance of \$157,000, FDIC assessments of \$192,000, and ATM expenses of \$246,000 as compared with 2013.

Total assets at September 30, 2014 decreased \$8,994,000 as compared with December 31, 2013. Loans decreased \$17,157,000 at September 30, 2014 as compared with December 31, 2013, as principal payments, maturities, charge-offs and foreclosures on existing loans exceeded new loans. Federal funds sold were \$25,000,000 at September 30, 2014 in the management of the Company's liquidity position.

RESULTS OF OPERATIONS

Net Interest Income

Net interest income, the amount by which interest income on loans, investments and other interest earning assets exceeds interest expense on deposits and other borrowed funds, is the single largest component of the Company's income. Management's objective is to provide the largest possible amount of income while balancing interest rate, credit, liquidity and capital risk. Changes in the volume and mix of interest earning assets and interest-bearing liabilities combined with changes in market rates of interest directly affect net interest income.

Quarter Ended September 30, 2014 as Compared with Quarter Ended September 30, 2013

The Company's average interest earning assets decreased approximately \$56,762,000, or 8%, from approximately \$711,253,000 for the third quarter of 2013 to approximately \$654,491,000 for the third quarter of 2014. Average loans decreased as loan demand has been weak in the Company's trade area and the volume of maturities and pay-offs, particularly in the gaming portfolio, have been significant.

The average yield on earning assets increased by 9 basis points, from 3.38% for the third quarter of 2013 to 3.47% for the third quarter of 2014. The yield on average loans increased from 4.21% in 2013 to 4.33% in 2014 as a result of the reduction in average nonaccrual loans. Average nonaccrual loans decreased from approximately \$47,632,000 in 2013 to approximately \$29,180,000 in 2014.

Average interest bearing liabilities decreased approximately \$54,781,000, or 10%, from approximately \$564,722,000 for the third quarter of 2013 to approximately \$509,941,000 for the third quarter of 2014. Average time deposits decreased primarily as customers have moved their accounts to transaction deposits and brokered deposits matured in 2013. Average federal funds purchased and securities sold under agreements to repurchase, which only included non-deposit accounts, decreased \$76,901,000 as these customers reallocate their balances periodically. Average borrowings from the Federal Home Loan Bank increased \$66,165,000 due to the liquidity needs of the bank subsidiary.

The average rate paid on interest bearing liabilities for the third quarter of 2013 was .26% as compared with .45% for the third quarter of 2014. This increase was due to an immaterial interest expense adjustment of \$231,000 on time deposits. The average rate paid on time deposits would have been .27% in 2014 without this adjustment.

The Company's net interest margin on a tax-equivalent basis, which is net interest income as a percentage of average earning assets, was 3.12% for the quarter ended September 30, 2014, down 5 basis points from 3.17% for the quarter ended September 30, 2013. The net interest margin on tax-equivalent basis would have been 3.26% without the interest adjustment on time deposits.

Nine Months Ended September 30, 2014 as Compared with Nine Months Ended September 30, 2013

The Company's average interest earning assets decreased approximately \$79,567,000, or 11%, from approximately \$740,290,000 for the first three quarters of 2013 to approximately \$660,723,000 for the first three quarters of 2014. Average loans decreased as loan demand has been weak in the Company's trade area and the volume of maturities and pay-offs, particularly in the gaming portfolio, have been significant. Average federal funds sold also decreased based on the liquidity position of the bank subsidiary.

The average yield on earning assets increased by 33 basis points, from 3.24% for the first three quarters of 2013 to 3.57% for the first three quarters of 2014. The yield on average loans increased from 4.22% for the first three quarters of 2013 to 4.49% for the first three quarters of 2014 as a result of the reduction in average nonaccrual loans. Average nonaccrual loans decreased from approximately \$49,743,000 in 2013 to approximately \$29,811,000 in 2014. The yield on average taxable available for sale securities increased from 1.73% for the first three quarters of 2013 to 2.01% for the first three quarters of 2014 as a result of the Company's strategy of extending the duration of new investments. Future security purchases may be of shorter duration in anticipation of rising rates in the future.

Average interest bearing liabilities decreased approximately \$72,094,000, or 12%, from approximately \$590,582,000 for the first three quarters of 2013 to approximately \$518,488,000 for the first three quarters of 2014. Average time deposits decreased primarily as \$24,000,000 in brokered deposits matured during 2013. Average federal funds purchased and securities sold under agreements to repurchase, which only included non-deposit accounts, decreased \$66,607,000 as these customers reallocate their balances periodically. Average borrowings from the Federal Home Loan Bank increased \$50,460,000 due to the liquidity needs of the bank subsidiary.

The average rate paid on interest bearing liabilities increased 4 basis points, from .27% for the first three quarters of 2013 to .31% for the first three quarters of 2014.

The Company's net interest margin on a tax-equivalent basis, which is net interest income as a percentage of average earning assets, was 3.32% for the first three quarters of 2014, up 29 basis points from 3.03% for the first three quarters 2013.

The tables below analyze the changes in tax-equivalent net interest income for the quarters ended September 30, 2014 and 2013 and the nine months ended September 30, 2014 and 2013.

Provision for Loan Losses

In the normal course of business, the Company assumes risk in extending credit to its customers. This credit risk is managed through compliance with the loan policy, which is approved by the Board of Directors. The policy establishes guidelines relating to underwriting standards, including but not limited to financial analysis, collateral valuation, lending limits, pricing considerations and loan grading. The Company's Loan Review and Special Assets Departments play key roles in monitoring the loan portfolio and managing problem loans. New loans and, on a periodic basis, existing loans are reviewed to evaluate compliance with the loan policy. Loan customers in concentrated industries such as gaming and hotel/motel, as well as the exposure for out of area; residential and land development; construction and commercial real estate loans; and their direct and indirect impact on its operations are evaluated on a monthly basis. Loan delinquencies and deposit overdrafts are closely monitored in order to identify developing problems as early as possible. Lenders experienced in workout scenarios consult with loan officers and customers to address non-performing loans. A watch list of credits which pose a potential loss to the Company is

prepared based on the loan grading system. This list forms the foundation of the Company's allowance for loan loss computation.

Management relies on its guidelines and existing methodology to monitor the performance of its loan portfolio and identify and estimate potential losses based on the best available information. The potential effect resulting from the economic downturn on a national and local level, the decline in real estate values and actual losses incurred by the Company were key factors in our analysis. Much of the Company's loan portfolio is collateral-dependent, requiring careful consideration of changes in the value of the collateral.

The Company's on-going, systematic evaluation resulted in the Company recording a provision for loan losses of \$3,541,000 and \$542,000 for the third quarters of 2014 and 2013, respectively, and \$4,615,000 and \$4,619,000 for the first three quarters of 2014 and 2013, respectively. As a result of receiving new appraisals during the third quarter of 2014, the Company updated the evaluation of the collateral value relating to two previously impaired loans. An additional loan loss provision of \$1,700,000 was recorded for one out-of-area residential development loan. An additional loan loss provision of \$2,100,000 was recorded for one commercial real estate loan secured by a hotel in our trade area. During the second quarter of 2013, the Company recorded a loan loss provision of \$3,000,000 on the out-of-area residential development loan. The allowance for loan losses as a percentage of loans was 3.07% and 2.38% at September 30, 2014 and December 31, 2013, respectively. The Company's analysis includes evaluating the current values of collateral securing all nonaccrual loans. Even though nonaccrual loans were \$33,451,000 and \$26,171,000 at September 30, 2014 and December 31, 2013, respectively, specific reserves of only \$4,489,000 and \$1,280,000, respectively, have been allocated to these loans as collateral values appear sufficient to cover loan losses or the loan balances have been charged down to their realizable value. The Company believes that its allowance for loan losses is appropriate as of September 30, 2014.

The allowance for loan losses is an estimate, and as such, events may occur in the future which may affect its accuracy. The Company anticipates that it is possible that additional information will be gathered in future quarters which may require an adjustment to the allowance for loan losses. Management will continue to closely monitor its portfolio and take such action as it deems appropriate to accurately report its financial condition and results of operations.

Non-interest income

Quarter Ended September 30, 2014 as Compared with Quarter Ended September 30, 2013

Non-interest income decreased \$227,000 for the third quarter of 2014 as compared with the third quarter of 2013. Trust department income and fees increased while service charges on deposit accounts and income from other investments decreased in 2014 as compared with 2013.

Trust department income and fees increased \$23,000 in 2014 as compared with 2013 as a result of the increase in market value, on which fees are based, of personal trust accounts.

Service charges on deposit accounts decreased by \$181,000 during the third quarter of 2014 as compared with the third quarter of 2013. ATM fee income decreased \$182,000 as the Company's off-site ATMs at a casino transferred to another vendor during 2014.

The Company realized a loss from operations of its investment in a low income housing partnership in 2014 as compared with income from operations in 2013 as a result of decreased occupancy.

Nine Months Ended September 30, 2014 as Compared with Nine Months Ended September 30, 2013

Non-interest income decreased \$262,000 for the first three quarters of 2014 as compared with the first three quarters of 2013. Trust department income accounts increased and income from other investments decreased in 2014 as compared with 2013. During the first three quarters of 2013, the Company realized gains from sales and calls of securities while there were no sales or calls in 2014.

Trust department income and fees increased \$46,000 in 2014 as compared with 2013 as a result of the increase in market value, on which fees are based, of personal trust accounts.

The Company realized no income from operations of its investment in a low income housing partnership in 2014 as compared with income from operations in 2013 as a result of decreased occupancy.

Non-interest expense

Quarter Ended September 30, 2014 as Compared with Quarter Ended September 30, 2013

Total non-interest expense increased \$73,000 for the third quarter of 2014 as compared with the third quarter of 2013. Net occupancy increased \$56,000; equipment rentals, depreciation and maintenance increased \$26,000; FDIC assessments increased \$97,000; data processing expenses increased \$23,000; ATM expense increased \$22,000 and other expenses decreased \$148,000 for the third quarter of 2014 as compared with the third quarter of 2013.

The increase in net occupancy was primarily the result of increased insurance costs during 2014.

The increase in equipment rentals, depreciation and maintenance expense was primarily the result of servicing costs associated with bank-wide hardware and software conversions during 2014.

FDIC assessment costs in 2013 included a refund of prepaid assessments which results in 2013 expense being lower than 2014 expense.

Data processing costs increased in 2014 as compared with 2013 as result of additional costs associated with bank-wide hardware and software conversions.

ATM expenses increased in 2014 as a result of increased ATM activity in the current year.

Other expenses decreased in 2014 as 2013's results included costs incurred to produce a new advertising campaign and the Company's legal fees decreased in 2014 as compared with 2013.

Nine Months Ended September 30, 2014 as Compared with Nine Months Ended September 30, 2013

Total non-interest expense increased \$1,239,000 for the first three quarters of 2014 as compared with the first three quarters of 2013. Salaries and employee benefits increased \$421,000; equipment rentals, depreciation and maintenance increased \$157,000; FDIC assessments increased \$192,000; data processing expenses increased \$79,000 and ATM expense increased \$246,000 for the first three quarters of 2014 as compared with the first three quarters of 2013.

The increase in salaries and employee benefits was primarily the result of an increase in salaries and increase in costs relating to the deferred compensation plans. Salaries increased \$170,000 in the first three quarters of 2014 as compared with the first three quarters of 2013 due to merit raises. Costs associated with the Company's deferred compensation plans increased \$204,000 as a result of a change in the discount rate utilized to compute the related liabilities.

The increase in equipment rentals, depreciation and maintenance expense was primarily the result of servicing costs associated with bank-wide hardware and software conversions during 2014.

FDIC assessment costs in 2013 included a refund of prepaid assessments which results in 2013 expense being lower than 2014 expense.

Data processing costs increased in 2014 as compared with 2013 as result of additional costs associated with bank-wide hardware and software conversions.

ATM expenses increased in 2014 as a result of increased ATM activity in the current year.

Income Taxes (Benefit)

Income taxes have been impacted by non-taxable income and federal tax credits during the quarters and nine months ended September 30, 2014 and 2013, as follows (in thousands except rate):

| | Quarters Ended September 30, | | | |
|-------------------------------------|------------------------------|-------------|-----------------|-------------|
| | 2014 | | 2013 | |
| | Tax | Rate | Tax | Rate |
| Taxes at statutory rate | \$ (1,038) | (34) | \$ 265 | 34 |
| Increase (decrease) resulting from: | | | | |
| Tax-exempt interest income | (142) | (5) | (249) | (32) |
| Income from BOLI | (39) | (1) | (42) | (5) |
| Federal tax credits | (75) | (2) | (74) | (9) |
| Other | 40 | 1 | (5) | (1) |
| Total income taxes (benefit) | \$ (1,254) | (41) | \$ (105) | (13) |

| | Nine Months Ended September 30, | | | |
|-------------------------------------|---------------------------------|-------------|-----------------|--------------|
| | 2014 | | 2013 | |
| | Tax | Rate | Tax | Rate |
| Taxes at statutory rate | \$ (837) | (34) | \$ (201) | (34) |
| Increase (decrease) resulting from: | | | | |
| Tax-exempt interest income | (402) | (16) | (395) | (66) |
| Income from BOLI | (122) | (5) | (124) | (21) |
| Federal tax credits | (223) | (10) | (222) | (38) |
| Other | 6 | 1 | 6 | 1 |
| Total income taxes (benefit) | \$ (1,578) | (64) | \$ (936) | (158) |

FINANCIAL CONDITION

Cash and due from banks decreased \$4,885,000 at September 30, 2014, compared with December 31, 2013 in the management of the bank subsidiary's liquidity position.

Federal funds sold totaled \$25,000,000 at September 30, 2014 as a result of the bank subsidiary's liquidity position.

Loans decreased \$17,157,000 at September 30, 2014 compared with December 31, 2013, as principal payments, maturities, charge-offs and foreclosures on existing loans exceeded new loans.

Other real estate (ORE) increased \$80,000 at September 30, 2014 as compared with December 31, 2013. Loans totaling \$1,144,000 were transferred into ORE while \$845,000 was sold for a loss of \$80,000 and writedowns of ORE to fair value were \$219,000 during the first nine months of 2014.

Other assets decreased \$1,104,000 at September 30, 2014 as compared with December 31, 2013 primarily as the Company received an income tax refund of \$1,215,000.

Total deposits increased \$21,146,000 at September 30, 2014, as compared with December 31, 2013. Typically, significant increases or decreases in total deposits and/or significant fluctuations among the different types of deposits from quarter to quarter are anticipated by Management as customers in the casino industry and county and municipal entities reallocate their resources periodically.

Federal funds purchased and securities sold under agreements to repurchase decreased \$18,865,000 at September 30, 2014 as compared with December 31, 2013 as several county and municipal entities reallocated their balances from a non-deposit account during 2014.

Borrowings from the Federal Home Loan Bank decreased \$15,179,000 at September 30, 2014 as compared with December 31, 2013 based on the liquidity needs of the bank subsidiary.

Employee and director benefit plans liabilities increased \$772,000 at September 30, 2014 as compared with December 31, 2013 due to deferred compensation benefits earned by officers and directors during 2014.

SHAREHOLDERS EQUITY AND CAPITAL ADEQUACY

Strength, security and stability have been the hallmark of the Company since its founding in 1985 and of its bank subsidiary since its founding in 1896. A strong capital foundation is fundamental to the continuing prosperity of the Company and the security of its customers and shareholders.

The Company and the Bank are subject to regulatory capital adequacy requirements imposed by the federal banking agencies. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, specific capital guidelines that involve quantitative measures of the bank subsidiary's assets and certain off-balance sheet items, adjusted for credit risk, as calculated under regulatory accounting practices must be met. The risk-based capital standards currently in effect are designed to make regulatory capital requirements more sensitive to differences in risk profiles among bank holding companies and banks and to account for off-balance sheet exposure. Quantitative measures established by regulation to ensure capital adequacy require the Company and Bank to maintain minimum amounts and ratios of Total and Tier 1 capital to risk-weighted assets, and Tier 1 capital to average assets.

As of September 30, 2014, the most recent notification from the Federal Deposit Insurance Corporation categorized the bank subsidiary as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized, the bank subsidiary must have a Total risk-based capital ratio of 10.00% or greater, a Tier 1 risk-based capital ratio of 6.00% or greater and a Leverage capital ratio of 5.00% or greater. There are no conditions or events since that notification that Management believes have changed the bank subsidiary's category.

The actual capital amounts and ratios and required minimum capital amounts and ratios for the Company as of September 30, 2014 and December 31, 2013, are as follows (in thousands):

| | Actual | | For Capital Adequacy Purposes | |
|--|---------------|--------------|--------------------------------------|--------------|
| | Amount | Ratio | Amount | Ratio |
| September 30, 2014: | | | | |
| Total Capital (to Risk Weighted Assets) | \$ 109,580 | 23.20% | \$ 37,792 | 8.00% |
| Tier 1 Capital (to Risk Weighted Assets) | 103,612 | 21.93% | 18,896 | 4.00% |
| Tier 1 Capital (to Average Assets) | 103,612 | 13.89% | 29,842 | 4.00% |
| December 31, 2013: | | | | |
| Total Capital (to Risk Weighted Assets) | \$ 111,141 | 22.79% | \$ 39,022 | 8.00% |
| Tier 1 Capital (to Risk Weighted Assets) | 105,009 | 21.54% | 19,511 | 4.00% |
| Tier 1 Capital (to Average Assets) | 105,009 | 13.48% | 31,170 | 4.00% |

The actual capital amounts and ratios and required minimum capital amounts and ratios for the Bank as of September 30, 2014 and December 31, 2013, are as follows (in thousands):

| | Actual | | For Capital Adequacy Purposes | | To Be Well Capitalized | |
|--|------------|--------|-------------------------------|-------|------------------------|--------|
| | Amount | Ratio | Amount | Ratio | Amount | Ratio |
| September 30, 2014: | | | | | | |
| Total Capital (to Risk Weighted Assets) | \$ 105,879 | 22.44% | \$ 37,743 | 8.00% | \$ 47,179 | 10.00% |
| Tier 1 Capital (to Risk Weighted Assets) | 99,918 | 21.18% | 18,872 | 4.00% | 28,307 | 6.00% |
| Tier 1 Capital (to Average Assets) | 99,918 | 13.56% | 29,473 | 4.00% | 36,842 | 5.00% |
| December 31, 2013: | | | | | | |
| Total Capital (to Risk Weighted Assets) | \$ 106,870 | 21.94% | \$ 38,968 | 8.00% | \$ 48,711 | 10.00% |
| Tier 1 Capital (to Risk Weighted Assets) | 100,746 | 20.69% | 19,484 | 4.00% | 29,227 | 6.00% |
| Tier 1 Capital (to Average Assets) | 100,746 | 13.02% | 30,958 | 4.00% | 38,697 | 5.00% |

In addition to monitoring its risk-based capital ratios, the Company also determines the primary capital ratio on a quarterly basis. This ratio was 14.77% at September 30, 2014, which is well above the regulatory minimum of 6.00%. Management continues to emphasize the importance of maintaining the appropriate capital levels of the Company and has established the goal of maintaining its primary capital ratio at 8.00%, which is the minimum requirement for classification as being well-capitalized by the banking regulatory authorities.

LIQUIDITY

Liquidity represents the Company's ability to adequately provide funds to satisfy demands from depositors, borrowers and other commitments by either converting assets to cash or accessing new or existing sources of funds. Management monitors these funds requirements in such a manner as to satisfy these demands and provide the maximum earnings on its earning assets. The Company manages and monitors its liquidity position through a number of methods, including through the computation of liquidity risk targets and the preparation of various analyses of its funding sources and utilization of those sources on a monthly basis. The Company also uses proforma liquidity projections which are updated on a monthly basis in the management of its liquidity needs and also conducts periodic contingency testing on its liquidity plan.

Deposits, payments of principal and interest on loans, proceeds from maturities of investment securities and earnings on investment securities are the principal sources of funds for the Company. Borrowings from the FHLB, federal funds sold and federal funds purchased are utilized by the Company to manage its daily liquidity position. The Company has also been approved to participate in the Federal Reserve Bank's Discount Window Primary Credit Program, which it intends to use only as a contingency.

REGULATORY MATTERS

During 2009, Management identified opportunities for improving risk management, addressing asset quality concerns, managing concentrations of credit risk and ensuring sufficient liquidity at the Bank as a result of its own investigation as well as examinations performed by certain bank regulatory agencies. In concert with the regulators, the Company and the Bank identified specific corrective

steps and actions to enhance its risk management, asset quality and liquidity policies, controls and procedures. The Company and the Bank may not declare or pay any cash dividends without the prior written approval of their regulators.

Item 4: Controls and Procedures

As of September 30, 2014, an evaluation was performed under the supervision and with the participation of the Chief Executive Officer and Chief Financial Officer of the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e)). Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective to ensure that the information required to be disclosed by the Company in the reports it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms.

There were no changes in the Company's internal control over financial reporting that occurred during the period ended September 30, 2014 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1: Legal Proceedings

The Bank is involved in various legal matters and claims which are being defended and handled in the ordinary course of business. None of these matters is expected, in the opinion of Management, to have a material adverse effect upon the financial position or results of operations of the Company.

Item 5: Other Information

None.

Item 6 - Exhibits and Reports on Form 8-K

(a) Exhibits

- Exhibit 31.1: Certification of Chief Executive Officer Pursuant to Section 302 of the Sarbanes - Oxley Act of 2002
- Exhibit 31.2: Certification of Chief Financial Officer Pursuant to Section 302 of the Sarbanes - Oxley Act of 2002
- Exhibit 32.1: Certification of Chief Executive Officer Pursuant to 18 U.S.C. ss. 1350
- Exhibit 32.2: Certification of Chief Financial Officer Pursuant to 18 U.S.C. ss. 1350
- Exhibit 101 The following materials from the Company's quarterly report on Form 10-Q for the quarter ended September 30, 2014, formatted in XBRL (Extensible Business Reporting Language): (i) Consolidated Statements of Condition at September 30, 2014 and December 31, 2013, (ii) Consolidated Statements of Operations for the quarters and nine months ended September 30, 2014 and 2013, (iii) Consolidated Statements of Comprehensive Income (Loss) for the quarters and nine months ended September 30, 2014 and 2013, (iv) Consolidated Statement of Changes in Shareholders' Equity for the nine months ended September 30, 2014, (v) Consolidated Statements of Cash Flows for the nine months ended September 30, 2014 and 2013 and (vi) Notes to the Unaudited Consolidated Financial Statements for the nine months ended September 30, 2014 and 2013.

(b) Reports on Form 8-K

A Form 8-K was filed on July 23, 2014 and October 22, 2014.

SIGNATURES

Pursuant to the requirement of Section 13 of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
