Equity Awards for 2016 and 2017

The Leadership Development and Compensation Committee (the Committee) of the Board of Directors (the Board) of Axiall Corporation (the Company) recently conducted an annual review of its executive officers' existing compensation. As a result of that review, pursuant to the Company's 2011 Equity and Performance Incentive Plan (the Plan), the Committee awarded to each of the executive officers named below 2016 equity grants of performance-based restricted stock units (PRSUs) and time-based restricted stock units (RSUs), together with retention awards attributable to 2017. The Committee believes that these combined grants better align executive compensation and long-term shareholder value creation, provide a strong incentive for successful execution of the Company's strategies and help ensure the retention of senior management during this important period for the Company. In addition, the Committee reviewed the incentives in place for its executive officers in light of the Company's success in its continuing efforts to reduce costs, improve productivity and optimize its portfolio. Specifically, the Committee noted that since July 2015, the Company has captured more than \$50 million of annualized savings and signed definitive agreements to sell two non-core building products businesses, and is in the process of selling its core building products business. As a result of the determinations with respect to these awards, the Committee anticipates making no further grants of such equity awards in 2017 to the executive officers identified below.

Accordingly, on March 7, 2016, the Committee approved for Timothy Mann, Jr., the Company's President and Chief Executive Officer, Gregory C. Thompson, the Company's Chief Financial Officer, and William H. Doherty, the Company's Senior Vice President, Chemicals, and the independent members of the Board subsequently ratified with respect to Mr. Mann, the following awards:

94,292, 22,580 and 18,610 TSR-based PRSUs at target, respectively, to Messrs. Mann, Thompson and Doherty, for which the performance restriction over the three-year period is relative total shareholder return (TSR) and which will vest on the third anniversary of the grant date, as long as the executive officer remains employed by the Company through that date and subject to the achievement of the performance goal;

94,292, 22,580 and 18,610 TSR-based PRSUs at target, respectively, to Messrs. Mann, Thompson and Doherty, in lieu of 2017 equity awards, for which the performance restriction over the four-year period is relative TSR and which will vest on the fourth anniversary of the grant date, as long as the executive officer remains employed by the Company through that date and subject to the achievement of the performance goal;

94,292 and 18,610 adjusted EBITDA-based RSUs, respectively, to Messrs. Mann and Doherty, that will vest in three equal installments on each of the first, second and third anniversaries of the grant date, provided that the Company achieves positive adjusted EBITDA for fiscal 2016 and the executive officer remains employed by the Company through each vesting date;

45,160 time-based RSUs to Mr. Thompson, one-half of which will vest in three equal installments on each of the first, second and third anniversaries of the grant date and the remaining one-half of which, in lieu of 2017 equity awards, will vest in four equal installments on each of the first, second, third and fourth anniversaries of the grant date, provided that he remains employed by the Company through each vesting date; and

94,292 and 18,610 time-based RSUs, respectively, to Messrs. Mann and Doherty, in lieu of 2017 equity awards, that will vest in four equal installments on each of the first, second, third and fourth anniversaries of the grant date; provided that the executive officer remains employed by the Company through each vesting date.

Except as otherwise described above, the performance and vesting terms of the TSR-based PRSUs, EBITDA-based RSUs and time-based RSUs are generally consistent with prior grants made by the Company. The form of agreement for the TSR-based PRSUs, the form of agreement for adjusted EBITDA-based RSUs and the form of agreement for time-based RSUs are attached hereto as Exhibits 10.1, 10.2 and 10.3, respectively, and are incorporated herein by reference.

Change of Control Severance Plan

On March 8, 2016, the Board also adopted an amended and restated Axiall Corporation Amended and Restated Executive and Key Employee Change of Control Severance Plan (the "Change of Control Plan"), which provides for certain benefits for designated participants in the event of a change of control. The Change of Control Plan is intended to ensure that executive officers are able, as a practical matter, to evaluate any potential change of control transaction objectively and to encourage executive officers to remain employed by the Company in the event a change of control becomes a real possibility. The Change of Control Plan's benefits are based on typical market practices at what the Board believes to be no more than median compensation levels when compared to our market references. All of the named executive officers of the Company (other than Simon Bates, the Company's Executive Vice President, Building Products) will participate in the Change of Control Plan.

In order to update the Change of Control Plan, the Board adopted the following modifications and amendments:

revisions to the cutback provision regarding Section 280G of the Internal Revenue Code of 1986 to provide that it would only apply if the named executive officer were to be placed in a better after-tax position being cutback than if no cutback applied and the participant were required to pay the excise tax;

revisions to the "good reason" definition to trigger upon (1) a material reduction in base salary or target bonus in the aggregate, (2) a relocation of more than 35 miles and (3) a material diminution in duties, responsibilities, authorities or reporting relationships;

modifications to the definition of "cause" to streamline and modernize the definition such that it is based on more objective criteria, such as a material violation of the provision of the Change of Control Plan, willful refusal to perform duties, conviction of a felony, willful misconduct or other conduct that is materially injurious to the Company; and

inclusion of a restrictive covenant that, in the event of a violation of the covenant, a participant would forfeit his right to severance and have to repay any severance previously paid to him.

Except as set forth above, the original terms and conditions of the Change of Control Plan have not been materially amended. The foregoing description of the Change of Control Plan does not purport to be complete and is qualified in its entirety by the full text of that agreement, which is filed as Exhibit 10.4 and incorporated herein by reference.

Item 8.01 Other Events.

On March 8, 2016, the Company issued press releases announcing that William L. Mansfield had been elected Non-Executive Chairman of the Board, effective immediately, and that the Board has declared a cash dividend of \$0.16 per common share, payable on April 8, 2016 to shareholders of record as of March 25, 2016. Copies of these press releases are filed as Exhibits 99.1 and 99.2 hereto, respectively, and are incorporated herein by reference.
