MERCER INTERNATIONAL INC.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(In thousands of U.S. dollars, except share and per share data)

Note 1. The Company and Summary of Significant Accounting Policies

Nature of Operations and Basis of Presentation

The Interim Consolidated Financial Statements contained herein include the accounts of Mercer International Inc. (Mercer Inc.) and all of its subsidiaries (collectively the Company). The Company s shares of common stock are quoted and listed for trading on both the NASDAQ Global Market and the Toronto Stock Exchange.

The Interim Consolidated Financial Statements have been prepared by the Company pursuant to the rules and regulations of the United States Securities and Exchange Commission (the SEC). The year-end Consolidated Balance Sheet data was derived from audited financial statements. The footnote disclosure included herein has been prepared in accordance with accounting principles generally accepted for interim financial statements in the United States (GAAP). The unaudited Interim Consolidated Financial Statements should be read together with the audited Consolidated Financial Statements and accompanying notes included in the Company s latest Annual Report on Form 10-K for the fiscal year ended December 31, 2017. In the opinion of the Company, the unaudited Interim Consolidated Financial Statements contained herein contain all adjustments necessary for a fair statement of the results of the interim periods included. The results for the periods included herein may not be indicative of the results for the entire year.

In these Interim Consolidated Financial Statements, unless otherwise indicated, all amounts are expressed in United States dollars (U.S. dollars or \$). The symbol € refers to euros and the symbol C\$ refers to Canadian dollars.

Use of Estimates

Preparation of financial statements and related disclosures in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Significant management judgment is required in determining the accounting for, among other things, pension and other post-retirement benefit obligations, deferred income taxes (valuation allowance and permanent reinvestment), depreciation and amortization, future cash flows associated with impairment testing for long-lived assets, the allocation of the purchase price in a business combination to the assets acquired and liabilities assumed, legal liabilities and contingencies. Actual results could differ materially from these estimates, and changes in these estimates are recorded when known.

New Accounting Pronouncements

Accounting Pronouncements Implemented

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2014-09, Revenue Recognition Revenue from Contracts with Customers (ASU 2014-09) that requires companies to recognize revenue when a customer obtains control rather than when companies have transferred substantially all risks and rewards of a good or service. Additionally, the update provides presentation and disclosure requirements which are more detailed in regards to the nature, amount, timing, and uncertainty of revenue and cash flows arising from

contracts with customers. The Company adopted this standard as at January 1, 2018 using the modified retrospective method. The new standard does not change the timing of when the Company recognizes revenue as the majority of the Company's revenue arises from contracts with customers in which the sale of goods is the main performance obligation. The Company's revised revenue recognition disclosure has been included in the Significant Accounting Policies and the Business Segment Information Note.

MERCER INTERNATIONAL INC.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(In thousands of U.S. dollars, except share and per share data)

Note 1. The Company and Summary of Significant Accounting Policies (continued)

In March 2017, the FASB issued Accounting Standards Update 2017-07, Improving the Presentation of Net Periodic Pension Cost and Net Periodic Post-Retirement Benefit Cost (ASU 2017-07) which requires that an employer report the service cost component in the same line item or items as other compensation costs arising from services rendered by the pertinent employees during the period. The other components of net benefit cost are required to be presented in the income statement separately from the service cost component and outside a subtotal of income from operations. This standard is effective for fiscal years beginning after December 15, 2017 and should be applied retrospectively to all periods presented. The Company adopted this standard as at January 1, 2018. For the three month period ended March 31, 2018, \$293 of the net benefit cost has been recorded in other income (expenses) in the Interim Consolidated Statement of Operations. For the three month period ended March 31, 2017, \$360 has been reclassified from operating costs, excluding depreciation and amortization to other income (expenses) in the Interim Consolidated Statement of Operations.

Accounting Pronouncements Not Yet Implemented

In February 2016, the FASB issued Accounting Standards Update 2016-02, Leases (ASU 2016-02) which requires lessees to recognize virtually all of their leases on the balance sheet, by recording a right-of-use asset and liability. This update is effective for financial statements issued for fiscal years beginning after December 15, 2018, with early adoption permitted at the beginning of an interim or annual reporting period. The Company is currently assessing the impact the adoption of ASU 2016-02 will have on its consolidated financial statements.

In February 2018, the FASB issued Accounting Standards Update 2018-02, Income Statement - Reporting Comprehensive Income (ASU 2018-02) which allows a reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects resulting from the Tax Cuts and Jobs Act. This standard is effective for fiscal years beginning after December 15, 2018, and should be applied either in the period of adoption or retrospectively to each period (or periods) in which the effect of the change in the U.S. federal corporate income tax rate in the Tax Cuts and Jobs Act is recognized. The Company believes this new standard will not have an impact on its consolidated financial statements.

Significant Accounting Policies

Revenue Recognition

The Company recognizes revenue when obligations under the terms of a contract with its customer are satisfied; generally this occurs with the transfer of control of the products sold. Transfer of control to the customer is based on the standardized shipping terms in the contract as this determines when the Company has the right to payment, the customer has legal title to the asset and the customer has the risks of ownership. Payment terms are defined in the

contract and payment is typically due within three months after control has transferred to the customer. The contracts do not have a significant financing component.

The Company has elected to exclude value added, sales and other taxes it collects concurrent with revenue-producing activities from revenues.

The Company may arrange shipping and handling activities as part of the sale of its products. The Company has elected to account for shipping and handling activities that occur after the customer has obtained control of the product as a fulfillment cost rather than as an additional promised service.

The following is a description of the principal activities from which the Company generates its revenues. For a breakdown of revenues by product and geographic location see the Business Segment Information Note.

MERCER INTERNATIONAL INC.
NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS**(Unaudited)****(In thousands of U.S. dollars, except share and per share data)****Note 1. The Company and Summary of Significant Accounting Policies (continued)***Pulp and Lumber Revenues*

For European sales sent by truck or train from the mills directly to the customer, the contracted sales terms are such that control transfers once the truck or train leaves the mill. For orders sent by ocean freighter, the contract terms state that control transfers at the time the product passes the ships rail. For North American sales shipped by truck or train, the contracts state that control transfers once the truck or train has arrived at the customer's specified location.

The transaction price is included in the sales contract and is net of customer discounts, rebates and other selling concessions.

The Company's pulp sales are to tissue and paper producers and the Company's lumber sales are to manufacturers and retailers. The Company's sales to Europe and North America are direct to the customer. The Company's pulp sales to overseas customers are primarily through third party sales agents and the Company's lumber sales to overseas customers are either direct to the customer or through third party sales agents.

By-Product Revenues

Energy sales are to utility companies in Canada and Germany. Sales of energy are recognized as the electricity is consumed by the customer and is based on contractual usage rates and meter readings that measure electricity consumption.

Chemicals and wood residuals are sold into the European market direct to the customer and have shipping terms where control transfers once the chemicals or wood residuals are loaded onto the truck at the mill.

Certain of the Company's debt instruments were issued under agreements which, among other things, may limit its ability and the ability of its subsidiaries to make certain payments, including dividends. These limitations are subject to specific exceptions. As at March 31, 2018, the Company is in compliance with the terms of its debt agreements.

- (a) On December 20, 2017, the Company issued \$300,000 in aggregate principal amount of 5.50% senior notes which mature on January 15, 2026 (2026 Senior Notes). The 2026 Senior Notes were issued at a price of 100.00% of their principal amount. The net proceeds of the offering were \$293,795, after deducting the underwriter's discount and offering expenses.

Edgar Filing: MERCER INTERNATIONAL INC. - Form 10-Q

In January 2018, the Company used the net proceeds, together with cash on hand, to redeem \$300,000 in aggregate principal amount of 2022 Senior Notes (herein defined below). In connection with this redemption the Company recorded a loss on settlement of debt of \$21,515 in the Interim Consolidated Statement of Operations. As at December 31, 2017, the total cash used to redeem the 2022 Senior Notes was classified as restricted cash and the carrying value of the 2022 Senior Notes was classified as a current liability in the Consolidated Balance Sheet.

Note 4. Debt (continued)

On February 3, 2017, the Company issued \$225,000 in aggregate principal amount of 6.50% senior notes which mature on February 1, 2024 (2024 Senior Notes) and on March 16, 2017, the Company issued an additional \$25,000 in aggregate principal amount of its 2024 Senior Notes. The 2024 Senior Notes were issued at a price of 100.00% of their principal amount. The net proceeds of the offerings were \$244,711, after deducting the underwriter's discount and offering expenses. The net proceeds from the 2024 Senior Notes, together with cash on hand, were used to redeem \$227,000 of remaining aggregate principal amount of outstanding senior notes due 2019, to finance the acquisition of a German sawmill and bio-mass power plant near Friesau Germany (the Friesau Facility) and for general working capital purposes. In connection with the redemption, the Company recorded a loss on settlement of debt of \$10,696 in the Interim Consolidated Statement of Operations.

On November 26, 2014, the Company issued \$400,000 in aggregate principal amount of 7.75% senior notes which mature on December 1, 2022 (2022 Senior Notes) and collectively with the 2024 Senior Notes and 2026 Senior Notes, the Senior Notes).

The Senior Notes are general unsecured senior obligations of the Company. They rank equal in right of payment with all existing and future unsecured senior indebtedness of the Company and are senior in right of payment to any current or future subordinated indebtedness of the Company. The Senior Notes are effectively junior in right of payment to all existing and future secured indebtedness, to the extent of the assets securing such indebtedness, and all indebtedness and liabilities of the Company's subsidiaries.

The Company may redeem all or a part of the 2026 Senior Notes, upon not less than 10 days or more than 60 days notice, at the redemption prices (expressed as percentages of principal amount) discussed below, plus accrued and unpaid interest to (but not including) the applicable redemption date. The Company may redeem all or a part of the 2024 Senior Notes or 2022 Senior Notes, upon not less than 30 days or more than 60 days notice, at the redemption prices (expressed as percentages of principal amount) discussed below, plus accrued and unpaid interest to (but not including) the applicable redemption date. The 2026 Senior Notes redemption prices are equal to 102.750% for the twelve month period beginning on January 15, 2021, 101.375% for the twelve month period beginning on January 15, 2022, and 100.000% beginning on January 15, 2023 and at any time thereafter. The 2024 Senior Notes redemption prices are equal to 103.250% for the twelve month period beginning on February 1, 2020, 101.625% for the twelve month period beginning on February 1, 2021, and 100.000% beginning on February 1, 2022 and at any time thereafter. The 2022 Senior Notes redemption prices are equal to 105.813% for the twelve month period beginning on December 1, 2017, 103.875% for the twelve month period beginning on December 1, 2018, 101.938% for the twelve month period beginning on December 1, 2019, and 100.000% beginning on December 1, 2020 and at any time thereafter.

- (b) A 75.0 million revolving credit facility at the Stendal mill that matures in October 2019. Borrowings under the facility are collateralized by the mill's inventory and accounts receivable and bear interest at Euribor plus 3.50%. As at March 31, 2018, approximately 0.1 million (\$161) of this facility was supporting bank guarantees leaving approximately 74.9 million (\$92,246) available.
- (c) A C\$40.0 million revolving credit facility at the Celgar mill that matures in May 2019. Borrowings under the facility are collateralized by the mill's inventory and accounts receivable and are restricted by a borrowing base calculated on the mill's inventory and accounts receivable. Canadian dollar denominated amounts bear interest at bankers acceptance plus 1.50% or Canadian prime. U.S. dollar denominated amounts bear interest at LIBOR plus 1.50% or U.S. base. As at March 31, 2018, approximately C\$1.7 million (\$1,318) was supporting letters of credit and approximately C\$38.3 million (\$29,705) was available.

- (d) A 70.0 million joint revolving credit facility that matures in April 2022. The Rosenthal mill has full access to the available amount under the facility and the Company's wholly owned subsidiary, Mercer Timber Products GmbH has access to a maximum of 45.0 million. Borrowings under the facility are collateralized by the borrowers' inventory and accounts receivable and bear interest at Euribor plus 2.95%. As at March 31, 2018, approximately 23.0 million (\$28,338) of this facility was drawn and accruing interest at a rate of 2.95% and approximately 11.6 million (\$14,331) of this facility was supporting bank guarantees leaving approximately 35.4 million (\$43,578) available.
- (e) A 5.0 million revolving credit facility at the Rosenthal mill that matures in December 2018. Borrowings under this facility bear interest at the rate of the three-month Euribor plus 2.50% and are secured by certain land at the Rosenthal mill. As at March 31, 2018 approximately 2.6 million (\$3,144) of this facility was supporting bank guarantees leaving approximately 2.4 million (\$3,016) available.
- (f) A 25.0 million revolving credit facility for the Company's wholly owned German subsidiary, Mercer Holz GmbH (Mercer Holz), that matures in February 2020. Borrowings under this facility bear interest at Euribor plus 3.30% and are secured by Mercer Holz's inventory and accounts receivable. As at March 31, 2018, approximately 14.4 million (\$17,689) of this facility was drawn and accruing interest at a rate of 3.30% and approximately 0.9 million (\$1,134) of this facility was supporting bank guarantees leaving approximately 9.7 million (\$11,980) available.

Note 5. Pension and Other Post-Retirement Benefit Obligations

Defined Benefit Plans

Included in pension and other post-retirement benefit obligations are amounts related to the Company's Celgar and Rosenthal mills. The largest component of these obligations is with respect to the Celgar mill which maintains a defined benefit pension plan and other post-retirement benefit plans for certain employees (the Celgar Defined Benefit Plans).

Pension benefits are based on employees' earnings and years of service. The Celgar Defined Benefit Plans are funded by contributions from the Company based on actuarial estimates and statutory requirements.

The components of the net benefit costs relating to the Celgar Defined Benefit Plans for the three month periods ended March 31, 2018 and 2017 were as follows:

	Three Months Ended March 31,

MERCER INTERNATIONAL INC.**NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited)****(In thousands of U.S. dollars, except share and per share data)****Note 5. Pension and Other Post-Retirement Benefit Obligations (continued)****Defined Contribution Plan**

Effective December 31, 2008, the Celgar Defined Benefit Plans were closed to new members. In addition, the defined benefit service accrual ceased on December 31, 2008, and members began to receive pension benefits, at a fixed contractual rate, under a new defined contribution plan effective January 1, 2009. During the three month period ended March 31, 2018, the Company made contributions of \$218 (2017 \$267), to this plan.

Multiemployer Plan

The Company participates in a multiemployer plan for the hourly-paid employees at the Celgar mill. The contributions to the plan are determined based on a percentage of pensionable earnings pursuant to a collective bargaining agreement. The Company has no current or future contribution obligations in excess of the contractual contributions. During the three month period ended March 31, 2018, the Company made contributions of \$487 (2017 \$478), to this plan.

Note 6. Income Taxes

The income tax provision attributable to income before provision for income taxes in the Interim Consolidated Statement of Operations differs from the amounts computed by applying the U.S. Federal statutory income tax rate of 21% (2017 - 35%) for the three month periods ended March 31, 2018 and 2017 as a result of the following:

	Three Months Ended March 31,	
	2018	2017

As at March 31, 2018, the Company had approximately \$60,600 of total gross unrecognized tax benefits, which if recognized would not impact the Company's effective tax rate. The liability related to the unrecognized tax benefit is fully offset by a reduction in the valuation allowance. The Company did not recognize any interest or penalties related to the unrecognized tax benefits.

The Tax Cuts and Jobs Act (the Act) enacted on December 22, 2017 resulted in substantial changes including reducing the US federal corporate income tax rate from 35% to 21% and requiring companies to pay a one-time transition tax on earnings of certain foreign subsidiaries that were previously tax deferred. The Company applied the guidance in Staff Accounting Bulletin No. 118 and at December 31, 2017 calculated its best estimate of the impact of the Act in its year end income tax provision.

During the three month period ended March 31, 2018, the Company did not record any measurement period adjustments to the provisional estimates recorded at December 31, 2017. Final accounting for these impacts is expected in the third quarter of 2018 subsequent to the Company's completion of the 2017 tax return.

Restricted shares	32,515	28,768
Diluted	65,574,821	65,287,758

(1) For the three month period ended March 31, 2018, the basic weighted average number of common shares outstanding excludes 43,635 restricted shares which have been issued, but have not vested as at March 31, 2018 (2017 38,000 restricted shares).

The calculation of diluted net income per common share does not assume the exercise of any instruments that would have an anti-dilutive effect on net income per common share. There were no anti-dilutive instruments for the three month periods ended March 31, 2018 and 2017.

Note 8. Shareholders Equity

Dividends

In February 2018, the Company's Board of Directors declared a quarterly dividend of \$0.125 per common share. Payment of the dividend was made on April 4, 2018 to all shareholders of record on March 28, 2018.

In May 2018, the Company's Board of Directors declared a quarterly dividend of \$0.125 per common share. Payment of the dividend will be made on July 6, 2018 to all shareholders of record on June 27, 2018. Future dividends are subject to approval by the Board of Directors and may be adjusted as business and industry conditions warrant.

MERCER INTERNATIONAL INC.**NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited)****(In thousands of U.S. dollars, except share and per share data)****Note 8. Shareholders Equity (continued)****Stock Based Compensation**

In June 2010, the Company adopted a stock incentive plan which provides for options, restricted stock rights, restricted shares, performance shares, PSUs and stock appreciation rights to be awarded to employees, consultants and non-employee directors. During the three month period ended March 31, 2018, there were no issued and outstanding options, restricted stock rights, performance shares or stock appreciation rights. As at March 31, 2018, after factoring in all allocated shares, there remain approximately 2.9 million common shares available for grant.

PSUs

PSUs comprise rights to receive common shares at a future date that are contingent on the Company and the grantee achieving certain performance objectives. The performance objective period is generally three years. For the three month period ended March 31, 2018, the Company recognized an expense of \$64 related to PSUs (2017 income of \$249).

The following table summarizes PSU activity during the period:

	Number of PSUs
Outstanding as at January 1, 2018	1,867,158
Granted	652,548
Vested and issued	(153,243)
Forfeited	(330,455)
Outstanding as at March 31, 2018	2,036,008

Restricted Shares

Restricted shares generally vest at the end of one year. Expense recognized for the three month period ended March 31, 2018 was \$129 (2017 \$88). As at March 31, 2018, the total remaining unrecognized compensation cost related to restricted shares amounted to approximately \$86 which will be amortized over the remaining vesting periods.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS**(Unaudited)****(In thousands of U.S. dollars, except share and per share data)****Note 9. Business Segment Information**

The Company is managed based on the primary products it manufactures: pulp and wood products. Accordingly, the Company's three pulp mills are aggregated into the pulp business segment, and the Friesau Facility is a separate reportable business segment, wood products.

None of the income or loss items following operating income in the Company's Interim Consolidated Statement of Operations are allocated to the segments, since those items are reviewed separately by management.

Revenues between segments are accounted for at prices that approximate fair value. These include revenues from the sale of residual fiber from the wood products segment to the pulp segment for use in the pulp production process and from the sale of residual fuel from the pulp segment to the wood products segment for use in energy production.

For the three month period ended March 31, 2017 there was only one reportable business segment, pulp, as the Friesau Facility was acquired on April 12, 2017. The following tables shows information by reportable business segments for the three month periods ended March 31, 2018 and March 31, 2017.

Note 10. Financial Instruments and Fair Value Measurement

Due to their short-term maturity, the carrying amounts of cash and cash equivalents, restricted cash, accounts receivable and accounts payable and other approximates their fair value.

The fair value of the senior notes classified as Level 2 was determined using quoted prices in a dealer market, or using recent market transactions.

The following tables present a summary of the Company's outstanding financial instruments and their estimated fair values under the fair value hierarchy:

Credit Risk

The Company's credit risk is primarily attributable to cash held in bank accounts and accounts receivable. The Company maintains cash balances in foreign financial institutions in excess of insured limits. The Company limits its credit exposure on cash held in bank accounts by periodically investing cash in excess of short-term operating requirements and debt obligations in low risk government bonds, or similar debt instruments. The Company's credit risk associated with the sale of pulp, lumber and other wood residuals is managed through setting credit limits, the purchase of credit insurance and for certain customers a letter of credit is received prior to shipping the product. Concentrations of credit risk on the sale of pulp, lumber and other wood residuals are with customers and agents based primarily in Germany, China and Italy.

The carrying amount of cash and cash equivalents of \$213,566 and accounts receivable of \$212,845 recorded in the Interim Consolidated Balance Sheet, net of any allowances for losses, represents the Company's maximum exposure to credit risk.

Note 11. Commitments and Contingencies

- (a) The Company is involved in legal actions and claims arising in the ordinary course of business. While the outcome of any legal actions and claims cannot be predicted with certainty, it is the opinion of management that the outcome of any such claims which are pending or threatened, either individually or on a combined basis, will not have a material adverse effect on the consolidated financial condition, results of operations or liquidity of the Company.

- (b) The Company is subject to regulations that require the handling and disposal of asbestos in a prescribed manner if a property undergoes a major renovation or demolition. Otherwise, the Company is not required to remove asbestos from its facilities. Generally asbestos is found on steam and condensate piping systems as well as certain cladding on buildings and in building insulation throughout older facilities. The Company's obligation for the proper removal and disposal of asbestos products from the Company's mills is a conditional asset retirement obligation. As a result of the longevity of the Company's mills, due in part to the maintenance procedures and the fact that the Company does not have plans for major changes that require the removal of asbestos, the timing of the asbestos removal is indeterminate. As a result, the Company is currently unable to reasonably estimate the fair value of its asbestos removal and disposal obligation. The Company will recognize a liability in the period in which sufficient information is available to reasonably estimate its fair value.

- (c) In March 2018, the Company announced it had received the decision of the tribunal in respect of its previously initiated claim in January 2012 against the Government of Canada under the North American Free Trade Agreement (NAFTA). The basis of the claim was that the Celgar mill had received discriminatory treatment regarding its ability to purchase and sell energy compared to other pulp mills and entities that generate and sell electricity within the Province of British Columbia. The tribunal ruled that there was no violation of NAFTA and as is customary in these matters, the tribunal awarded costs to the Government of Canada of approximately \$6,951.

NON-GAAP FINANCIAL MEASURES

This quarterly report on Form 10-Q contains non-GAAP financial measures, that is, financial measures that either exclude or include amounts that are not excluded or included in the most directly comparable measure calculated and presented in accordance with the generally accepted accounting principles in the United States, referred to as GAAP. Specifically, we make use of the non-GAAP measure Operating EBITDA.

Operating EBITDA is defined as operating income (loss) plus depreciation and amortization and non-recurring capital asset impairment charges. We use Operating EBITDA as a benchmark measurement of our own operating results and as a benchmark relative to our competitors. We consider it to be a meaningful supplement to operating income as a performance measure primarily because depreciation expense and non-recurring capital asset impairment charges are not actual cash costs, and depreciation expense varies widely from company to company in a manner that we consider largely independent of the underlying cost efficiency of our operating facilities. In addition, we believe Operating EBITDA is commonly used by securities analysts, investors and other interested parties to evaluate our financial performance.

Operating EBITDA does not reflect the impact of a number of items that affect our net income (loss), including financing costs and the effect of derivative instruments. Operating EBITDA is not a measure of financial performance under GAAP, and should not be considered as an alternative to net income (loss) or income (loss) from operations as a measure of performance, or as an alternative to net cash from operating activities as a measure of liquidity. Operating EBITDA is an internal measure and therefore may not be comparable to other companies.

Operating EBITDA has significant limitations as an analytical tool, and should not be considered in isolation, or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are that Operating EBITDA does not reflect: (i) our cash expenditures, or future requirements, for capital expenditures or contractual commitments; (ii) changes in, or cash requirements for, working capital needs; (iii) the significant interest expense, or the cash requirements necessary to service interest or principal payments, on our outstanding debt; (iv) the impact of realized or marked to market changes in our derivative positions, which can be substantial; and (v) the impact of impairment charges against our investments or assets. Because of these limitations, Operating EBITDA should only be considered as a supplemental performance measure and should not be considered as a measure of liquidity or cash available to us to invest in the growth of our business. Because all companies do not calculate Operating EBITDA in the same manner, Operating EBITDA as calculated by us may differ from Operating EBITDA or EBITDA as calculated by other companies. We compensate for these limitations by using Operating EBITDA as a supplemental measure of our performance and by relying primarily on our GAAP financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

In this document: (i) unless the context otherwise requires, references to we, our, us, the Company or Mercer International Inc. and its subsidiaries; (ii) references to Mercer Inc. mean the Company excluding its subsidiaries; (iii) information is provided as of March 31, 2018, unless otherwise stated; (iv) our reporting currency is dollars and references to mean euros and C\$ mean Canadian dollars; (v) ADMTs refers to air-dried metric tonne; (vi) MW refers to megawatts and MWh refers to megawatt hours; (vii) Mfbm refers to thousand board feet of lumber and MMfbm mean million board feet of lumber; and (viii) our lumber metrics are converted from cubic meters to Mfbm using a conversion ratio of 1.6 cubic meters to 1 Mfbm, which is the ratio commonly used in the industry.

Due to rounding, numbers presented throughout this report may not add up precisely to totals we provide and percentages may not precisely reflect the absolute figure.

The following discussion and analysis of our results of operations and financial condition for the three months ended March 31, 2018 should be read in conjunction with our interim consolidated financial statements and related notes included in this quarterly report, as well as our most recent annual report on Form 10-K for the fiscal year ended December 31, 2017 filed with the Securities and Exchange Commission, referred to as the SEC.

Results of Operations

General

We have two reportable operating segments, being the pulp business and, since the April 2017 acquisition of one of Germany's largest sawmills and a bio-mass power plant, referred to as the Friesau Facility, the wood products business.

Each segment offers primarily different products and requires different manufacturing processes, technology and sales and marketing.

Current Market Environment

In the first quarter of 2018, pulp prices in Europe, China and North America increased compared to fourth quarter of 2017 due to continued steady demand, producer downtime, low paper producer inventories and lower levels of recycled fiber availability in China due to recent import restrictions.

Overall, our average pulp sales realizations were approximately 9% higher in the first quarter of 2018 compared to the fourth quarter of 2017.

At the end of the current quarter, list prices in Europe, China and North America were approximately \$1,130, \$910 and \$1,260 per ADMT, respectively.

Currently, the NBSK pulp market is generally balanced with world producer inventories at about 31 days supply. Looking forward, we believe the new pulp production capacity that has or is coming online will not materially adversely impact the market in the near term as a result of

continued steady demand growth, producer downtime and declining recovered or waste paper availability in China.

In the second quarter of 2018, we have an aggregate of 26 days of scheduled maintenance downtime (which will reduce production by approximately 40,800 ADMTs) at our pulp mills of which 12 days are at our Stendal mill and 14 days are at our Celgar mill. Additionally, one of the two turbines at our Stendal mill will be offline for service for approximately three months commencing in the second quarter and into the third quarter of 2018.

In the first quarter of 2018, European and U.S. lumber markets continued to be strong with prices near multi-year highs and are expected to remain steady in the near term.

Consolidated - Three Months Ended March 31, 2018 Compared to Three Months Ended March 31, 2017

Total revenues for the three months ended March 31, 2018 increased by approximately 52% to \$367.9 million from \$242.8 million in the same quarter of 2017 primarily due to a 34% increase in pulp sales realizations and the inclusion of \$53.7 million of wood products segment revenues.

Costs and expenses in the current quarter increased by approximately 45% to \$291.9 million from \$201.4 million in the first quarter of 2017 primarily due to the inclusion of costs and expenses from our wood products segment, the negative impact of a weaker dollar on our euro denominated costs and expenses and higher per unit fiber costs.

In the first quarter of 2018, operating depreciation and amortization increased to \$23.2 million from \$19.1 million in the same quarter of 2017 due to the negative impact of a weaker dollar on our euro denominated depreciation expense and the acquisition of the Friesau Facility.

Selling, general and administrative expenses increased to \$14.4 million in the first quarter of 2018 from \$9.7 million in the same quarter of 2017 primarily due to the inclusion of the wood products segment.

FORM 10-Q

QUARTERLY REPORT - PAGE 22

In the first quarter of 2018, our operating income increased by approximately 84% to \$76.0 million from \$41.3 million in the same quarter of 2017 primarily due to higher pulp sales realizations and the inclusion of the wood products segment partially offset by the negative impact of a weaker dollar on our euro denominated costs and expenses and higher per unit fiber costs.

In December 2017, we issued \$300.0 million of 5.50% senior notes due 2026, referred to as the 2026 Senior Notes and, on January 5, 2018, we utilized the proceeds, together with cash on hand, to redeem \$300.0 million of our 7.75% senior notes due 2022 at a cost, including premium, of \$317.4 million and recorded a loss on such redemption of \$21.5 million (being \$0.33 per share).

Interest expense in the current quarter decreased to \$12.1 million from \$13.9 million in the same quarter of 2017 primarily as a result of a lower interest rate on our outstanding senior notes.

In the first quarter of 2018, we recognized an expense of \$7.0 million, or \$0.11 per share, in connection with the legal cost award made by the tribunal in our claim against the Government of Canada under the North American Free Trade Agreement, referred to as NAFTA .

During the first quarter of 2018, income tax expense increased to \$9.6 million from \$7.5 million in the same quarter of 2017 due to higher taxable income for our German mills.

For the first quarter of 2018, after giving effect to costs of \$28.5 million, or \$0.44 per basic and \$0.43 per diluted share, for the redemption of senior notes and the NAFTA legal cost awards, our net income increased to \$25.6 million, or \$0.39 per share, from \$9.7 million, or \$0.15 per share, after giving effect to costs of \$10.7 million for the redemption of senior notes in the same quarter of 2017.

In the first quarter of 2018, Operating EBITDA increased by approximately 64% to \$99.4 million from \$60.6 million in the same quarter of 2017 primarily due to higher pulp sales realizations partially offset by the negative impact of a weaker dollar relative to the euro and higher per unit fiber costs.

Pulp Segment - Three Months Ended March 31, 2018 Compared to Three Months Ended March 31, 2017**Selected Financial Information**

	Three Months Ended March 31,	
	2018	2017
	(in thousands)	
Pulp revenues	\$ 290,551	\$ 220,812
Energy and chemical revenues	\$ 23,684	\$ 21,972
Depreciation and amortization	\$ 21,523	\$ 19,116
Operating income	\$ 74,054	\$ 42,360

Pulp revenues in the first quarter of 2018 increased by approximately 32% to \$290.6 million from \$220.8 million in the same quarter of 2017 due to higher sales realizations partially offset by lower sales volumes.

Energy and chemical revenues increased by approximately 8% to \$23.7 million in the first quarter of 2018 from \$22.0 million in the same quarter of 2017 due to the positive impact of a weaker dollar on our euro denominated revenues partially offset by lower energy sales volumes.

Pulp production decreased by approximately 2% to 364,486 ADMTs in the current quarter from 373,765 ADMTs in the same quarter of 2017 due to minor maintenance activities at the Stendal mill. We did not have any scheduled maintenance downtime in either the first quarter of 2018 or 2017.

Pulp sales volumes decreased by approximately 2% to 367,074 ADMTs in the current quarter from 375,104 ADMTs in the same quarter of 2017 primarily due to slightly lower production.

In the current quarter of 2018, list prices for NBSK pulp in Europe and China increased from the same quarter of 2017, largely as a result of overall steady demand. Average list prices for NBSK pulp in Europe were approximately \$1,097 per ADMT in the first quarter of 2018 compared to approximately \$823 per ADMT in the same quarter of 2017. Average list prices for NBSK pulp in China and North America were approximately \$910 per ADMT and \$1,233 per ADMT, respectively, in the current quarter compared to approximately \$645 per ADMT and \$1,033 per ADMT, respectively, in the same quarter of 2017. NBSK pulp prices are cyclical and are at or near record highs.

Average pulp sales realizations increased by approximately 34% to \$783 per ADMT in the first quarter of 2018 from approximately \$584 per ADMT in the same quarter of 2017 primarily due to higher list prices.

Compared to the same quarter of the prior year the dollar was weaker against the euro and Canadian dollar which increased the dollar cost of our euro and Canadian dollar costs and expenses and contributed to a negative foreign exchange impact on operating income of approximately \$20.7 million when compared to the same quarter of the prior year.

Costs and expenses for our pulp segment in the current quarter increased by approximately 20% to \$240.5 million from \$200.4 million in the first quarter of 2017 primarily due to the negative

impact of a weaker dollar on our euro denominated costs and expenses and higher per unit fiber costs.

In the first quarter of 2018, pulp segment operating depreciation and amortization increased to \$21.5 million from \$19.1 million in the same quarter of 2017 primarily due the negative impact of a weaker dollar on our euro denominated depreciation expense.

On average, in the current quarter overall per unit fiber costs increased by approximately 28% from the same quarter of 2017 primarily as a result of the negative impact of a weaker dollar on our euro and Canadian dollar denominated fiber costs, weather related increased demand from Scandinavian pulp mills and lower harvesting activities in our mills fiber supply areas. Harvesting activities in Germany and British Columbia were impacted by short interruptions resulting from unseasonably wet winter conditions. Additionally, there was reduced pulp log availability in British Columbia as sawmills focused harvesting activities on rebuilding sawlog inventories that were impacted by the summer wild fires. We expect a moderate decline in per unit fiber costs in the second quarter of 2018 as a result of improved harvesting conditions.

Transportation costs for our pulp segment increased by approximately 14% to \$19.9 million in the current quarter from \$17.4 million in the same quarter of 2017 primarily due to the negative impact of a weaker dollar on our euro and Canadian dollar denominated transportation costs.

In the first quarter of 2018, pulp segment operating income increased by approximately 75% to \$74.1 million from \$42.4 million in the same quarter of 2017 primarily due to higher pulp sales realizations partially offset by the negative impact of a weaker dollar relative to the euro and higher per unit fiber costs.

Wood Products Segment - Three Months Ended March 31, 2018

Selected Financial Information

	Three Months Ended March 31, 2018 (in thousands)
Lumber revenues	\$ 48,168
Energy revenues	\$ 2,781
Wood residual revenues	\$ 2,719
Depreciation and amortization	\$ 1,686
Operating income	\$ 2,982

In the first quarter of 2018, lumber revenues were \$48.2 million, of which approximately 27% of sales volumes were in the U.S. market and substantially all remaining sales were in Europe. European and U.S. lumber markets were generally strong with prices steady and near multi-year highs.

We produced 102.7 million board feet of lumber in the first quarter of 2018. Lumber sales volumes were 115.1 million board feet.

Average lumber sales realizations in the first quarter of 2018 were \$418 per Mfbm.

In the first quarter of 2018, energy and other by-product revenues were approximately \$5.5 million.

Our fiber costs were approximately 80% of our cash production costs. Unseasonably wet winter weather conditions in Germany resulted in lower harvesting activities and high fiber costs in the current quarter. As harvesting activities increase we expect modestly lower fiber costs in the second quarter of 2018.

In the first quarter of 2018, operating depreciation and amortization for our wood products segment was \$1.7 million.

In the first quarter of 2018, our wood products segment operating income was approximately \$3.0 million.

(1) Includes cash used for the redemption of 2022 Senior Notes of \$317.4 million.

Cash Flows from Operating Activities. We operate in a cyclical industry and our operating cash flows vary accordingly. Our principal operating cash expenditures are for labor, fiber, chemicals and debt service.

Working capital levels fluctuate throughout the year and are affected by maintenance downtime, changing sales patterns, seasonality and the timing of receivables and sales and the payment of payables and expenses.

Cash provided by operating activities was \$76.4 million in the three months ended March 31, 2018 and \$53.4 million in the comparative period of 2017. An increase in accounts payable and accrued expenses provided cash of \$18.0 million, including the legal cost award in our NAFTA claim, in the first quarter of 2018 compared to \$6.9 million in the same period of 2017. An overall increase in inventories used cash of \$6.8 million in the three months ended March 31, 2018 compared to a decrease in inventories providing cash of \$9.4 million in the same period of 2017. An increase in accounts receivable used cash of \$5.1 million in the three months ended March 31, 2018 compared to \$6.3 million in the same period of 2017.

Cash Flows from Investing Activities. Investing activities in the three months ended March 31, 2018 used cash of \$16.4 million primarily related to capital expenditures of \$16.2 million. In the three months ended March 31, 2018, capital expenditures primarily related to large maintenance

projects and improvements to the digester performance at our Celgar mill, the replacement of mobile equipment and saw line optimization at our Friesau Facility and various other smaller projects. In the same period of 2017, investing activities used cash of \$8.4 million, primarily related to capital expenditures of \$8.2 million comprised of a number of projects at our mills.

Cash Flows from Financing Activities. In the three months ended March 31, 2018, financing activities used cash of \$307.7 million primarily in connection with the redemption of 2022 Senior Notes, which used cash of \$317.4 million. In the three months ended March 31, 2018, we drew \$20.1 million on our revolving credit facilities primarily to finance wood procurement activities, paid a dividend of \$8.1 million and paid \$1.4 million of debt issuance costs primarily for the 2026 Senior Notes. In the same period of 2017, financing activities provided cash of \$1.6 million, including an aggregate of \$250.0 million from the issuance of our 6.50% senior notes due 2024, referred to as the 2024 Senior Notes, which was primarily used to redeem our 2019 Senior Notes at a cost of \$234.9 million. In the first quarter of 2017, debt issuance costs for the 2024 Senior Notes used cash of \$5.1 million and a dividend payment used cash of \$7.4 million.
