Corporate Summary

Our operations are currently conducted through our wholly owned subsidiaries Jim Butler Performance ("JBP") and West Texas Real Estate & Resources, Inc. ("WTRER"). Unless the context indicates otherwise, any of the terms "we," "us," "it," and "our" includes and refers to AmeriResource Technologies, Inc., its predecessors and subsidiaries. Our principle executive offices are located at 3430 E. Russell Road, Suite 310, Las Vegas, Nevada 89120. Our telephone number is (702) 214-4249.

JIM BUTLER PERFORMANCE

JBP's current operations concentrate on its core business of manufacturing high end racing engines and the research for the development of potential new product lines as well as expanding the functionality of its existing website, www.jbp-pontiac.com, which is still under minor construction. The website will have a link to a full inventory of parts that can be purchased on line, as well as a calendar of upcoming events and a technical section that will allow JBP's management to answer questions from the car enthusiasts and/or hobbyists.

WEST TEXAS REAL ESTATE AND RESOURCES, INC.

WTRER's current business operations primarily consist of analyzing the viability

Edgar Filing: AMERIRESOURCE TECHNOLOGIES INC - Form S-8 POS

of drilling additional wells and deepening the existing wells on its oil, gas and mineral lease in Pecos County, Texas.

We continue to search for viable business operations to acquire or merge with in order to increase our revenues and profitability. We have received unsolicited offers concerning the sale of our subsidiaries and although we have not received an offer on any of our subsidiaries which we deem acceptable, we will continue to entertain offers to sell some or all of our subsidiaries in an attempt to generate profitability.

Risk Factors

An investment in our common stock is highly speculative and involves a high degree of risk. Therefore, you should carefully consider all of the risk factors discussed below, as well as the other information contained in this document. You should not invest in our common stock unless you can afford to lose your entire investment and you are not dependent on the funds you are investing. The following risk factors are interrelated and, consequently, investors should treat such risk factors as a whole.

We Have Limited Cash Flow From Operations And May Require Additional Financing Which May Not Be Available.

We have limited operating cash flows. We anticipate to have sufficient working capital provided in the form of loans from management to satisfy our operating expenses for the next several months. However, no assurance may be given that such loans will be sufficient or available at all to allow us to realize our goals and engage in a business venture. If our cash resources prove to be insufficient, we may be required to seek additional debt or equity financing to fund the costs of continuing operations until we achieve positive cash flow. We have no current commitments or arrangements for additional financing and there can be no assurance that any additional debt or equity financing will be available to us on acceptable terms, or at all.

4

To date we have financed operations and expansion primarily from operating cash flows, private placements of the common stock and loans from affiliates. Management believes these sources will cover operating expenses and our anticipated obligations during the several months. Thereafter, we may require additional financing. We can give no assurances that we will be able to obtain external financing on favorable terms, or at all. If we are unable to obtain additional financing, management's ability to meet our goals could be affected in a material adverse manner. We reported a net loss of \$60,079 and of \$639,266 for the three (3) and nine (9) months ended September 30, 2002, respectively.

Our Business Is In The Formative and Development Stage And Is Uncertain.

Despite our ownership of JBP, we must be considered to be in the formative and development stage. Potential investors should be aware of the difficulties normally encountered by a new enterprise. There is nothing at this time upon which to base an assumption that any business we conduct will prove successful, and there is no assurance that we will be able to operate profitably. We have limited resources and have had no significant revenues to date.

The nature of our business, seeking to acquire or merge with a company, is inherently uncertain. Our business is subject to substantial liabilities, including contingent liabilities, and generates no cash flow.

Edgar Filing: AMERIRESOURCE TECHNOLOGIES INC - Form S-8 POS

The Speculative Nature of Our Proposed Operations Makes an Evaluation of Us Very Difficult.

The success of our proposed plan of operation will depend to a great extent on the operations, financial condition and management of the business operations we merge with or acquire. While management intends to seek business combinations with entities having established operating histories, there can be no assurance that we will be successful in locating candidates with any operating history. In the event we complete a business combination, of which there can be no assurance, the success of our operations will be largely dependent upon management of the successor firm or venture partner firm and numerous other factors related to the new business entity. There can be no assurance that we will increase our revenues and profitability.

Competition for Business Opportunities and Combinations May Be Fierce and Prevent the Execution of Our Merger/Acquisition Goals.

We are, and will continue to be, a participant in the business of seeking mergers, joint ventures and acquisitions with small private entities. While we have had success in attracting potential combination partners and in securing letters of intent or confidentiality and non circumvent agreements with entities that are in operation with assets and generating revenues, we have encountered problems in either our due diligence investigations or other issues preventing the consummation of a business combination. Despite this limited success, there is a large number of established and well-financed entities, including venture capital firms, who are actively seeking to merge with or acquire companies which may be target candidates for us. Many of these venture capital firms have significantly greater financial resources, technical expertise and managerial capabilities than us and, consequently, we will be at a competitive disadvantage in identifying possible business opportunities and successfully completing a business combination. Moreover, we will also compete in seeking merger or acquisition candidates with numerous other small public companies.

5

We May Acquire a Business With Obligations Requiring Additional Financing Which May Severely Impair Our Operations.

An acquired business may already have previously incurred debt or equity financing which it may not be able to satisfy. Such an entity would require an infusion of capital we might not be able to satisfy. To the extent we engage in a business combination with an entity requiring additional financing, such additional financing (which could be derived from the public or private offering of other securities or from the acquisition of debt through conventional bank financing), may not be available.

We Do Not Face Limits in Pursuing Debt Financing Options.

There are currently no limitations on our ability to borrow funds to effect a business combination or finance the operations of any acquired business. The amount and nature of any of our attempted borrowings will depend on numerous factors, including our capital requirements, our perceived ability to meet debt services on any such borrowings, and then-prevailing conditions in the financial markets as well as general economic conditions. There can be no assurance that debt financing, if required or otherwise sought, will be available on terms deemed to be commercially acceptable or in our best interest.

Edgar Filing: AMERIRESOURCE TECHNOLOGIES INC - Form S-8 POS

The Possible Issuance of Additional Shares of Our Common Stock Will Reduce the Ownership and Voting Power of the Other Stockholders and May Result in a Change of Our Control.

As of January 20, 2003, we have 66,081,519 shares of common stock issued and outstanding and 933,918,481 shares of common stock authorized but unissued. Our board of directors has the power to issue additional shares without stockholder approval. We anticipate issuing a substantial amount of shares to acquire a business interest or other type of property in the future. Although we presently have no commitments, contracts or intentions to issue any additional shares, we may issue shares for the purpose of raising additional capital. Potential investors should be aware that any such stock issuances may result in a reduction of the book value or market price, if any, of the outstanding shares. If we issue additional shares, such issuance will reduce the proportionate ownership and voting power of the other stockholders. Also, any new issuance of shares may result in a change of our control.

6

Restricted Shares May Be Eligible for Future Resale.

As of January 20, 2003, approximately 40,807,932 or 62%, of the currently outstanding shares of our common stock are restricted securities or held by our affiliates, or both. Consequently, these shares may be sold without registration upon compliance with the various conditions set forth in Rule 144 under the Securities Act of 1933. Sales of substantial amounts of common stock by security holders under Rule 144, or otherwise, or even the potential for such sales, might depress the price for common stock and could impair our ability to raise capital through the sale of our equity securities.

We Are Exposed To Litigation and Contingent Liabilities.

We are subject to a variety of claims and suits that arise from time to time out of the ordinary course of business, most of which are contract disputes. These potential liabilities could, if realized, have a materially adverse effect on our financial condition and our ability to conduct business.

We Have Never Paid Dividends On Our Common Stock In The Last Several Years And Do Not Intend To Do So In The Near Future.

We have not paid dividends on our common stock for the last several years and do not intend to pay any dividends to stockholders in the foreseeable future. Management intends to reinvest future profits, if any, to develop and expand the business. Any investor who purchases our common stock should not anticipate receiving any dividends on the common stock at any time in the foreseeable future. Payment of dividends is within the absolute discretion of our board of directors.

We May Merge with Operations in Foreign Countries and a Meaningful Review of Operational Risks Abroad May Not Be Possible.

Our business plan is to search for viable business operations to acquire or merge with in order to increase our revenues and profitability. Management's discretion is unrestricted, and we may participate in any business whatsoever that may in the opinion of management meet the business objectives discussed herein. Therefore, we may effect a business combination with another business

Edgar Filing: AMERIRESOURCE TECHNOLOGIES INC - Form S-8 POS

outside the United States. We have not limited the scope of our search to a particular region or country. Accordingly, to the extent that the acquired business may be located or operate in a foreign jurisdiction, our operations may be adversely affected to the extent of the existence of unstable economic, social and/or political conditions in such foreign regions and countries. We may not be capable of reviewing the potential operational risks surrounding foreign businesses.

Selling Shareholders

Our board of directors has evaluated the compensation of our officers and directors and decided, based on the following, that additional compensation for the Selling Shareholders is warranted.

1. The first and only other time that the Selling Shareholders have received unrestricted shares of our common stock, which was also the last time they received any form of compensation since October 1996, was pursuant to a Post Effective Amendment to Registration Statement on Form S-8 (SEC File No. 333-71343), filed by us on February 20, 2001, whereby Janovec received 305,000 shares and Clawson received 170,000 shares.
2. Janovec has served as one of our directors since May 12, 1994. Since June 27, 1994, Janovec has served as our chief executive officer, and on December 31, 1999, he was appointed as our president. Janovec has served without receiving a salary since October 1, 1996.
3. Clawson has been with us since October 1, 1993. Since May of 1995, Clawson has served as our Vice President and was President of KLH Engineers & Constructors, Inc., our engineering subsidiary. On August 10, 1995, Clawson was appointed as one of our directors. Clawson currently spends on average from 40 to 70 hours per month on various issues regarding AmeriResource Technologies, Inc. and has never received any compensation for his services, other than the shares addressed above in paragraph #1.

As we only have stock to provide to our officers and directors, our board believes it to be prudent to issue the 20,000,000 shares to Janovec and Clawson. These 20,000,000 shares were previously issued pursuant to our Second Amended and Restated 2001 Stock Option Plan as a bonus for the services Selling Shareholders have rendered to us over several years.

Neither Janovec nor Clawson are covered by key man life insurance, but we hope to be capable of obtaining key man life insurance in the near future.

The following table sets forth certain stock ownership facts of the Selling Shareholders as of January 21, 2003:

Name	Number of Shares Beneficially Owned Prior to Offering	Number of Shares Offered	Number of Shares Beneficially Owned After Offering Presuming All Shares Offered Are Sold

As of January 22, 2003, Janovec's Series C preferred stock would have converted into 458,715,596 shares of our common stock.

Holders of our Series D preferred stock have the option, at any time, to convert their shares into one share of common stock and have voting rights equivalent to five (5) shares of common stock. As of January 22, 2003, Clawson's Series D preferred stock would have converted into 250,000 shares of our common stock which would possess voting rights of 1,250,000 shares of our common stock.
- (4) Percentage is based upon the total 66,081,519 outstanding shares of common stock combined with the 1,290,000 shares of common stock beneficially owned by Clawson.

Plan of Distribution

Selling Shareholders may sell the Shares from time to time in the over-the-counter market, or otherwise, at prices and terms then prevailing or at prices related to the then current market price, or in negotiated transactions. Selling Shareholders expect to employ brokers or dealers in order to sell the Shares. Brokers or dealers engaged by Selling Shareholders may arrange for other brokers or dealers to participate. Brokers or dealers will receive commissions or discounts from Selling Shareholders or from purchasers in amounts to be negotiated immediately prior to the sale, which commissions and discounts are not expected to deviate from usual and customary brokers' commissions. Neither we nor Selling Shareholders expect to employ, utilize or otherwise engage any finders to assist in the sales of the Shares.

There is no assurance that Selling Shareholders will offer for sale or sell any or all of the Shares registered pursuant to this Prospectus.

Indemnification of Directors and Officers

Our articles of incorporation and bylaws limit the liability of our directors to the fullest extent permitted by the Delaware General Corporation Law, ss.145, or any other applicable provision. Generally, Delaware General Corporation Law permits the indemnification of officers, directors, employees and agents from any threatened, pending or completed action, suit or proceeding, whether civil or criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that the person is or was a director, officer, employee or agent of the corporation and from judgments, expenses, fines, and settlements so long as such person was acting in good faith and in a manner the person reasonably believed to be in or not opposed to the best interest of the corporation, or had no reasonable cause to believe that such conduct was unlawful. In addition, our articles of incorporation provide that we will indemnify our directors and officers to the fullest extent permitted by such law. We believe that these provisions are necessary to attract and retain qualified directors and officers.

Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended, may be permitted to directors, officers and control persons pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the United States Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933, as amended, and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by us of expenses incurred or paid by a director, officer or control person in the successful defense of any action, suit or proceeding) is asserted by such director, officer or control person, we will, unless in the opinion of counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by us is against public policy as expressed in the Securities Act of 1933, as amended, and we will be governed by the final adjudication of such issue.
