Quarterly Information at

March 31, 2016

and Independent Auditors' Report Review

Report of Independent Registered Public Accounting Firm

To Board of Directors and Shareholders of Braskem S.A

We have reviewed the accompanying consolidated balance sheet of Braskem S.A and its subsidiaries as of March 31, 2016, and the related consolidated statements of operations, comprehensive income, and changes in equity for the three-month periods ended March 31, 2016 and 2015 and the consolidated statement of cash flows for the three-month periods ended March 31, 2016 and 2015. These interim financial information are the responsibility of the Company's management.

We conducted our review in accordance with the standards of Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying consolidated interim financial information for it to be in conformity with IAS 34 — Interim Financial Reporting issued by the International Accounting Standard Board ("IASB")

Edgar Filing: BRASKEM SA - Form 6-K

We previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) the consolidated balance sheet as of December 31, 2015, and related consolidated statements of operations, comprehensive income, changes in equity, and of cash flows for the year then ended (not presented herein), and in our report dated February 17, 2016, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of December 31, 2015, is fairly stated in all material respects in relation to the balance sheet from which it has been derived.

Braskem S.A.**Notes to the financial statements****at March 31, 2016****All amounts in thousands, unless otherwise stated****2.2. Foreign currency translation**

The information on foreign currency translation was presented in the 2015 annual financial statements of the Company, in Note 2.2.

(a) Brazilian real as functional currency

The company has a few companies abroad that also use the real as their functional currency. Foreign currency transactions and balances are translated into the functional currency using the foreign exchange rates prevailing at the dates of the transactions or at year end, as applicable. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end foreign exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the statement of operations as “financial income” and “financial expenses”, respectively, except those designated for hedge accounting, which are, in this case, deferred in equity as cash flow hedges.

(b) Exchange variation effects

The main effects from exchange variation in these financial statements are shown below:

	End of period rate			Average rate for period ended

Notes to the financial statements

at March 31, 2016

All amounts in thousands, unless otherwise stated

The main transactions with related companies in the period, were:

(i) In March 2016, an agreement was entered into with Usina Conquista do Pontal S.A., with Agro Energia Santa Luzia S.A. and with Odebrecht Agroindustrial Participações S.A. to ensure the continued supply of hydrous ethanol to the Company, with technical flexibilities and differentiated commercial conditions, through an advance duly restated by the market rate and guaranteed by Odebrecht S.A. The Companies that are parties to the agreement are indirectly controlled by Odebrecht S.A. The price of hydrous ethanol is based on the Monthly Rate published by the Luiz de Queiroz College of Agriculture (ESALQ) Hydrous Fuel – São Paulo, in R\$/liter, of the reference month and with a discount. The Agreement has an estimated maximum amount of R\$305,000 and is valid through April 30, 2017.

(ii) In March 2016, an agreement was entered into with Refinaria de Petróleo Rio Grandense S.A. (“RPR”) for the sale of gasoil to be used as feedstock in its diesel production process, which is renewed on a monthly basis.

(iii) Since March 2016, Braskem maintains agreements for the sale of gasoline to RPR, renewable on a monthly basis.

14.3 Non-derivative liabilities designated for export hedge accounting**(a.i) Future exports in U.S. dollars**

On May 1, 2013, Braskem S.A. designated non-derivative financial instrument liabilities, denominated in U.S. dollars, as hedge for the flow of its highly probable future exports. Thus, the impact of exchange rates on future cash flows in dollars derived from these exports will be offset by the foreign exchange difference on the designated liabilities, partly eliminating the volatility of results.

Exports that were designated and not yet realized amounted to US\$6,550,280, as shown below:

	Total nominal value US\$
2016	632,496
2017	829,684
2018	787,894
2019	733,980
2020	724,000
2021	716,000
2022	719,000
2023	718,372
2024	688,854
	6,550,280

Considering the strong cash generation in recent quarters, the Management of the Company believed it was an opportunity to prepay dollar-denominated debt, including liabilities designated as export hedging instruments. As a result of the decision, the amount of US\$210,752 was discontinued prospectively. Exchange differences on the discontinued amount, of R\$345,442, which is recorded under Shareholders' Equity as "OCI" will be transferred to net financial income (expenses) as from April 2016 onwards, as the hedged exports are realized.

Braskem S.A.**Notes to the financial statements****at March 31, 2016****All amounts in thousands, unless otherwise stated**

For the portion of hedge accounting discontinued, Braskem will follow the international accounting standards IAS 39-32 and IFRS 7. In other words, if the hedging instrument expires or is sold, terminated or exercised, and the hedge was effective before this event (expiration, sale, termination or exercise), the cumulative gain or loss resulting from such hedging instrument will continue to be retained in equity since the period the hedge was in place, and continue to be recognized under shareholders' equity until the future hedged exports occur.

The following table provides the balances of exchange differences recognized in the Company's net financial income (expenses) due to the realization of exports designated for hedge accounting over the course of the quarter ended March 31, 2016:

	Total nominal value US\$	Conversion rate at inception R\$/US\$	Closing rate R\$/US\$	Total nominal value R\$
First quarter	206,951	2.0017	4.0399	421,800 421,800

The following table provides the changes related to hedge operations in the quarter:

Designated balance	6,757,231	(206,951)	(210,751)	6,339,529

On March 31, 2016, the maturities of the financial liabilities designated as this hedge, within the scope of the consolidated balance sheet, were as follows:

	Total nominal value US\$
2016	1,664,035
2017	281,802
2018	1,152,280

(b) Other financial assets

In order to determine the credit ratings of counterparties in financial assets classified as cash and cash equivalents, held-for-trading, held-to-maturity and loans and receivables, Braskem uses credit rating from the following agencies: Standard & Poor's, Moody's and Fitch Ratings. Braskem's financial policy determines "A-" as the minimum rating for financial investments.

14.5 Sensitivity analysis

Financial instruments, including derivatives, may be subject to changes in their fair value as a result of the variation in commodity prices, foreign exchange rates, interest rates, shares and share indexes, price indexes and other variables. The sensitivity of the derivative and non-derivative financial instruments to these variables are presented below:

(a) Selection of risks

On March 31, 2016, the main risks that can affect the value of Braskem's financial instruments are:

- Brazilian real/U.S. dollar exchange rate;
- Brazilian real/Mexican peso exchange rate;
- Libor floating interest rate;
- Selic interest rate;
- CDI interest rate; and
- TJLP interest rate.

For the purposes of the risk sensitivity analysis, Braskem presents the exposures to currencies as if they were independent, that is, without reflecting in the exposure to a foreign exchange rate the risks of the variation in other foreign exchange rates that could be directly influenced by it.

(b) Value at risk

The value at risk of the derivatives held by Braskem which is defined as the loss that could result in one month as from March 31, 2016, with a probability of 5%, and under normal market conditions, was estimated by the Company at US\$33,521 for the NCE exchange rate swap (Note 14.2.1(a.i)); and at US\$6,987 for the swap of Libor related to Braskem Idesa's project (Note 14.2.1 (a.ii.i)).

(c) Selection of scenarios

(c.1) Probable scenario

The Market Readout published by the Central Bank of Brazil was used to create the probable scenario for the U.S. dollar/Brazilian real exchange rate, Selic basic interest rate and the CDI interest rate, using the reference date of March 31, 2016. According to the Market Readout, at the end of 2016, the U.S. dollar will appreciate by 16.61% against the Brazilian real, compared to the closing PTAX rate at March 31, 2016, while the Selic rate will be 14.25% p.a. The Selic rate is used as a reference for analyses of sensitivity to the CDI.

The probable scenario for the TJLP is an increase of 0.50% from the current rate of 7.5%, in line with the size of the government's most recent decisions to increase or decrease the rate. The Selic rate in this scenario will remain stable by the end of 2016. The Market Readout does not publish forecasts for the Libor interest rate. Therefore, to determine the probable scenario, Braskem considered a 5% increase on current market levels.

18. Contingencies

(a) Allegations

Braskem and its subsidiaries are subject to a number of anti-corruption and anti-bribery laws in the countries where they operate, including Federal Law 12,846/2013, or Brazilian Anticorruption Law, in force since January 28, 2014, and the U.S. Foreign Corrupt Practices Act.

In early March 2015, declarations made by defendants in judicial proceedings of a criminal nature were made public, in which Braskem, certain former managers and one former executive were cited in allegations of alleged improper payments in order to benefit the Company in raw-material supply agreements entered into with Petrobras (“Allegations”).

In light of such facts, the Company's Management and Board of Directors immediately approved the engagement of law firms with experience in similar cases in the United States and Brazil to conduct an independent internal investigation into the Allegations ("Investigation"). These firms are conducting the Investigation and will report their findings directly to an Ad Hoc committee of the Board of Directors of the Company. Through said firms, Braskem voluntarily contacted the regulatory agencies of capital markets in Brazil (Securities and Exchange Commission of Brazil - CVM) and the United States (Securities and Exchange Commission – SEC, and the Department of Justice - DOJ) to inform them of the ongoing Investigation. The Company has been cooperating with these agencies and maintaining regular contact therewith through its law firms. The cooperation between the Company and these agencies includes the voluntary submission of documents to the regulatory agencies, as well as compliance with document requests, including the formal request made by the SEC (subpoena) on February 8, 2016.

The Company cannot anticipate the duration or outcome of the Investigation, which could take a significant length of time. The Company cannot anticipate the impact of the Investigation and the actions of authorities on the Company, or the resources required to remedy any occurrences. The scope of the Investigation may be expanded to include other

matters. The Company cannot forecast the actions said authorities may take, which may include lawsuits brought against the Company or even against current or former officers, directors and employees. Moreover, the authorities with jurisdiction over the Company may impose financial penalties if the Investigation, or a concurrent investigation by authorities, find evidence of unlawful conduct. The financial exposure of the Company may be subject to obligations to indemnify, observing the legal limits, current and former officers, directors and employees for any losses incurred as a result of actions carried out on behalf of the Company, including reimbursement for attorneys' fees. Additionally, the negative publicity of the Investigation and any potential regulatory sanctions may have a material adverse impact on our businesses, including reducing the demand for our products. Therefore, the Investigation and any concurrent investigation by the applicable authorities, as well as the class action mentioned below, may have a material adverse impact on our businesses, our reputation, financial condition, results of our operations, liquidity and price of any securities issued by the Company.

The Management is committed to taking all the necessary measures to clarify the facts and will keep the market informed of any developments in this matter.

(b) Class actions

A class action has been filed in the U.S. courts by the Boilermaker-Blacksmith National Pension Trust, as Lead Plaintiff, alleging the Company has made misrepresentations and/or failed to disclose through its SEC filings the existence of unlawful payments. The Company has engaged an expert U.S. law firm to represent it and the Lead Plaintiff is expected to present its amended initial pleading by May 19, 2016.

The Company cannot foresee the outcome of this process. The Company may be cited as defendant in other legal actions. Furthermore, the Company is generally required to, observing the legal limits, indemnify directors, officers and employees that are defendants in actions of this nature. Said action requires significant time and dedication of the Management of the Company. The Company may also incur financial obligations that may have a material adverse impact on its financial condition and the results of its operations.

(c) Labor

(c.1) The labor action mentioned in Note 23(a.i) of the 2015 financial statements ended through a settlement between the parties.

(c.2) In the class action suits filed by the Trade Union of Petrochemical and Chemical Workers of Triunfo, Rio Grande do Sul, in the third quarter of 2010, claiming the payment of overtime related to breaks during work shifts and the inclusion of overtime in the calculation of the weekly remunerated rest, in the restated amount of R\$369,895, the following developments occurred: (i) the Superior Labor Court (“TST”) upheld the appeal by Braskem to eliminate

breaks during work shifts, with the Trade Union filing an appeal at the TST, where it is pending trial; and (ii) judgment for plaintiff in the suit involving the inclusion of overtime in the calculation of the weekly remunerated rest, which was upheld by the Regional Appellate Labor Court ("TRT"), for which Braskem appealed to the TST, which ordered the case to be sent back to the TRT for a new trial. However, as the TRT did not judge on the merits, Braskem appealed once again to the TST.

No judicial deposit or other form of security was made for these suits.

The description of the main contingent liabilities of the Company was presented in the 2015 annual financial statements, in Note 23.

19. Shareholders' Equity

The information related to the Company's shareholders' equity was presented in its 2015 annual financial statements, in Note 24.
