Media Release

Credit Suisse Group reports 1Q10 net income of CHF 2.1 billion, return on equity of 22.3%, net new assets of CHF 26.0 billion, tier 1 ratio of 16.4%

· Strong results overall with improved operating performance versus 1Q09, industry-leading return on equity; risk levels among lowest in industry; continued to generate strong net new assets

· Results demonstrate continued successful execution of client-focused, capital-efficient strategy; over last five quarters, average operating net income of CHF 1.9 billion, average underlying return on equity of 21% and average net new assets of CHF 14.0 billion for the Group

· Solid Private Banking pre-tax income of CHF 0.9 billion and very strong net new assets of CHF 18.6 billion from international and Swiss businesses

· High-quality results in Investment Banking: pre-tax income of CHF 1.8 billion; strong pre-tax return on economic capital of 37.2%; continued strong momentum in client franchise; sustained market share gains across securities businesses; strong underwriting and advisory pipeline

· Asset Management pre-tax income of CHF 0.2 billion and strong net new assets of CHF 11.2 billion across most asset classes

· Very strong capital base and liquidity position; well positioned to meet new liquidity rules announced by Swiss Financial Market Supervisory Authority (FINMA)

Zurich, April 22, 2010 Credit Suisse Group reported net income attributable to shareholders of CHF 2.1 billion in 1Q10 and core net revenues of CHF 9.0 billion. The return on equity attributable to shareholders was 22.3% and diluted earnings per share were CHF 1.63. The tier 1 ratio was 16.4% as of the end of 1Q10.

Brady W. Dougan, Chief Executive Officer, said: "In the first quarter of 2010 we provided further evidence that our client-focused, capital-efficient strategy and reduced-risk business model can generate stable, high-quality earnings. We are pleased that we were able to improve our operating performance compared to the strong first quarter of 2009 and achieve an industry-leading return on equity and capital position. We also generated strong client flows and maintained our track record of attracting strong net new assets.

Market conditions in the second quarter to date have remained similar to those in the first quarter and we are confident that our business model will enable us to continue to generate high-quality results in good as well as in more challenging market conditions."

Commenting on Private Banking, he said: “We believe that we will further improve our profitability in Private Banking when markets and the demand for comprehensive solutions recover. We also expect to

Media Release

April 22, 2010

Page 2/6

benefit from a higher interest rate environment. We are positioned to perform well in the changing regulatory environment in cross-border banking as we have been building a multi-shore business with a robust compliance framework for many years. We will continue to invest in strengthening and expanding our international presence.”

Commenting on Investment Banking, he said: “Investment Banking is thriving as a result of the action we took to reposition the business in the changed financial services landscape. We believe that we have a significant opportunity to extend our market share gains across our Investment Banking businesses as we build our distribution platform and expand our client base. We are significantly increasing our distribution capabilities in our securities businesses by growing our flow sales headcount across key businesses, including our rates and foreign exchange, emerging markets and credit products businesses.”

Commenting on Asset Management, he said: “We are focusing on core fee-generating businesses in which we believe we can excel – asset allocation, the Swiss businesses and alternative investments. Asset Management is expected to benefit further from the strategic measures undertaken last year and to be a significant contributor of value to the bank and to our clients in 2010 and beyond.”

Segment Results

Private Banking

Private Banking, which comprises the Wealth Management Clients and Corporate & Institutional Clients businesses, reported solid income before taxes of CHF 892 million in 1Q10. Net revenues increased slightly, by CHF 22 million, to CHF 2,900 million. Total operating expenses rose 8% compared to 1Q09, which included captive insurance settlement proceeds of CHF 100 million. Income before taxes declined 10% in 1Q10 compared to 1Q09 as a result of this impact, but would have been flat excluding the captive insurance settlement proceeds. Private Banking recorded CHF 18.6 billion of net new assets in 1Q10, with very strong inflows from Swiss and emerging markets clients in

particular.

The Wealth Management Clients business reported income before taxes of CHF 677 million in 1Q10, down 6% compared to 1Q09, as a 4% increase in net revenues to CHF 2,464 million – reflecting higher recurring and transaction-based revenues – was more than offset by an 8% rise in total operating

Media Release

April 22, 2010

Page 3/6

expenses. Excluding the above-mentioned captive insurance settlement proceeds in 1Q09, income before taxes would have increased by CHF 53 million, or 8%. The increase in recurring revenues compared to 1Q09 was driven by higher recurring commissions and fees, offsetting a decline in net interest income, while the increase in transaction-based revenues was mainly due to higher brokerage and product issuing fees. The gross margin on assets under management was 121 basis points, a decrease of 13 basis points compared to 1Q09, as average assets under management increased 14.8% and net revenues increased 4%. Of Private Banking's total net new assets, the Wealth Management Clients business contributed CHF 12.9 billion, corresponding to an annualized net new asset growth rate of 6.4%.

The Corporate & Institutional Clients business reported income before taxes of CHF 215 million in 1Q10, down 20% compared to 1Q09, as net revenues declined 14% to CHF 436 million and total operating expenses rose 11%. The decrease in net revenues was mainly due to a reduction in net interest income, reflecting the low interest rate environment. The results included fair value losses related to Clock Finance, a synthetic collateralized loan portfolio, of CHF 12 million in 1Q10, compared to fair value gains of CHF 5 million in 1Q09. Net releases of provision for credit losses of CHF 13 million were recorded in 1Q10, compared to net provisions of CHF 31 million in 1Q09. The Corporate & Institutional Clients business recorded particularly strong net new assets of CHF 5.7 billion in 1Q10.

Investment Banking

Investment Banking continued to execute its client-focused, capital-efficient strategy in 1Q10 and maintained market share momentum across most products and regions. Income before taxes was CHF 1,794 million on net revenues of CHF 5,216 million, reflecting well-diversified results across the businesses. Investment Banking's strong fixed income sales and trading revenues were driven by credit products (both high yield and investment grade), US residential mortgage-backed securities trading and emerging markets, which offset the impact of the weaker market environment in global rates and foreign exchange. Equity sales and trading revenues were resilient despite subdued market activity, and were driven by strong revenues in cash equities, prime services and equity derivatives, reflecting sustained market share gains across major markets. Compared to 1Q09, Investment Banking's income before taxes and net revenues decreased, by 26% and 19% respectively. Results in 1Q09 had benefited from approximately CHF 1.3 billion of revenues driven by the normalization of market conditions that had been severely dislocated in 4Q08, as well as fair value gains on Credit Suisse debt of CHF 365 million, compared to fair value losses of CHF 59 million in 1Q10. Results in 1Q09 also included CHF 1.7 billion in losses from businesses that Credit Suisse is exiting. Investment Banking's 1Q10 results were also impacted by the weakening of the average rate of the US dollar against the Swiss franc compared to 1Q09, which adversely affected revenues and favorably impacted expenses. The pre-tax income margin was 34.4%, compared to 37.5% in 1Q09. The pre-tax return on economic capital remained strong at 37.2%, compared to 45.3% in 1Q09. Compared to 4Q09, Investment Banking's performance improved significantly, as client-driven revenues recovered after a marked slowdown in 4Q09.

Compensation in Investment Banking continues to be accrued on the basis of the economic profitability of each business and of the division as a whole; this resulted in compensation expenses in 1Q10 of CHF 2,324 million, which is equivalent to 44% of revenues (excluding fair value moves on own debt), compared to 48% of revenues (excluding fair value moves on own debt) in 1Q09. Total other operating expenses increased 18% from 1Q09, primarily due to higher IT investment costs associated with the expansion of client flow businesses across equities and fixed income.

Media Release

April 22, 2010

Page 4/6

Risk-weighted assets increased to USD 144 billion compared to 4Q09 as Investment Banking grew its client-focused businesses. Average one-day, 99% Value-at-Risk of CHF 104 million increased 9% compared to 4Q09.

League table highlights

- Announced M&A: ranked number one in the Americas and number three globally
- Equity underwriting: among the top five globally and number two in Europe, Middle East and Africa
 - Debt underwriting: one of the top five globally in investment grade and high yield underwriting
 - Emerging markets: number one in underwriting and advisory share of wallet

Asset Management

Asset Management reported income before taxes of CHF 166 million in 1Q10, compared to a loss of CHF 490 million in 1Q09. Net revenues totaled CHF 631 million, an increase of CHF 625 million compared to 1Q09. Net revenues in 1Q10 benefited primarily from investment-related gains of CHF 126 million, mainly in private equity and credit-related investments, compared to losses of CHF 387 million in 1Q09, and from realized and unrealized gains of CHF 107 million on securities purchased from Credit Suisse's money market funds, compared to losses of CHF 21 million in 1Q09. Total operating expenses decreased 6%, as lower compensation and benefits and general and administrative expenses were partially offset by higher commission expenses. Net new assets of CHF 11.2 billion included inflows of CHF 4.4 billion in multi-asset class solutions, CHF 4.3 billion in alternative investments and CHF 1.3 billion in Swiss advisory.

Benefits of the integrated bank

Credit Suisse generated CHF 1.0 billion in collaboration revenues from the integrated bank in 1Q10, which was in line with 1Q09.

Capital and liquidity

Credit Suisse's capital position remains very strong. The tier 1 ratio was 16.4% at the end of 1Q10, compared to 14.1% at the end of 1Q09 and 16.3% at the end of 4Q09.

Credit Suisse entered the credit and financial market dislocation with a strong liquidity position, which it has maintained and strengthened through open market funding ever since, incurring significant additional costs as a result. This has positioned Credit Suisse well to meet the new rules for quantitative and

qualitative liquidity management announced yesterday by FINMA, when they become effective at the end of 2Q10.

Credit Suisse AG

Credit Suisse AG is one of the world's leading financial services providers and is part of the Credit Suisse group of companies (referred to here as 'Credit Suisse'). As an integrated bank, Credit Suisse offers clients its combined expertise in the areas of private banking, investment banking and asset management. Credit Suisse provides advisory services, comprehensive solutions and innovative products to companies, institutional clients and high-net-worth private clients globally, as well as to retail clients in Switzerland. Credit Suisse is headquartered in Zurich and operates in over 50 countries worldwide. The group employs approximately 48,300 people. The registered shares (CSGN) of Credit Suisse's parent company, Credit Suisse Group AG, are listed in Switzerland and, in the form of American Depositary Shares (CS), in New York. Further information about Credit Suisse can be found at www.credit-suisse.com.

Cautionary statement regarding forward-looking information and non-GAAP information

This press release contains statements that constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act. In addition, in the future we, and others on our behalf, may make statements that constitute forward-looking statements. Such forward-looking statements may include, without limitation, statements relating to the following:

- our plans, objectives or goals;
- our future economic performance or prospects;
- the potential effect on our future performance of certain contingencies; and
- assumptions underlying any such statements.

Words such as “believes,” “anticipates,” “expects,” “intends” and “plans” and similar expressions are intended to identify forward-looking statements but are not the exclusive means of identifying such statements. We do not intend to update these forward-looking statements except as may be required by applicable securities laws. By their very nature, forward-looking statements involve inherent risks and uncertainties, both general and specific, and risks exist that predictions, forecasts, projections and other outcomes described or implied in forward-looking statements will not be achieved. We caution you that a number of important factors could cause results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements. These factors include:

- the ability to maintain sufficient liquidity and access capital markets;
 - market and interest rate fluctuations;
- the strength of the global economy in general and the strength of the economies of the countries in which we conduct our operations, in particular the risk of a continued US or global economic downturn in 2010 and beyond;
 - the direct and indirect impacts of continuing deterioration of subprime and other real estate markets;
- further adverse rating actions by credit rating agencies in respect of structured credit products or other credit-related exposures or of monoline insurers;
 - the ability of counterparties to meet their obligations to us;
- the effects of, and changes in, fiscal, monetary, trade and tax policies, and currency fluctuations;
 - political and social developments, including war, civil unrest or terrorist activity;

- the possibility of foreign exchange controls, expropriation, nationalization or confiscation of assets in countries in which we conduct our operations;
 - operational factors such as systems failure, human error, or the failure to implement procedures properly;
- actions taken by regulators with respect to our business and practices in one or more of the countries in which we conduct our operations;
 - the effects of changes in laws, regulations or accounting policies or practices;
 - competition in geographic and business areas in which we conduct our operations;
 - the ability to retain and recruit qualified personnel;
 - the ability to maintain our reputation and promote our brand;
 - the ability to increase market share and control expenses;
 - technological changes;
- the timely development and acceptance of our new products and services and the perceived overall value of these products and services by users;
- acquisitions, including the ability to integrate acquired businesses successfully, and divestitures, including the ability to sell non-core assets;
 - the adverse resolution of litigation and other contingencies;
 - the ability to achieve our cost efficiency goals and other cost targets; and
 - our success at managing the risks involved in the foregoing.

We caution you that the foregoing list of important factors is not exclusive. When evaluating forward-looking statements, you should carefully consider the foregoing factors and other uncertainties and events, as well as the information set forth in our Annual Report 2009 under IX – Additional information – Risk Factors.

This press release contains non-GAAP financial information. Information needed to reconcile such non-GAAP financial information to the most directly comparable measures under GAAP can be found in the Credit Suisse Financial Release 1Q10.

Cautionary statement regarding forward-looking and non-GAAP information

This presentation contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements involve inherent risks and uncertainties, and we might not be able to achieve the predictions, forecasts, projections and other outcomes we describe or imply in forward-looking statements.

A number of important factors could cause results to differ materially from the plans, objectives, expectations, estimates and intentions we express in these forward-looking statements, including those we identify in "Risk Factors" in our Annual Report on Form 20-F for the fiscal year ended December 31, 2009 filed with the US Securities and Exchange Commission, and in other public filings and press releases. We do not intend to update these forward-looking statements except as may be required by applicable laws.

This presentation contains non-GAAP financial information. Information needed to reconcile such non-GAAP financial information to the most directly comparable measures under GAAP can be found in Credit Suisse Group's first quarter report 2010.

Slide 13

Client-focused, capital-efficient strategy delivering sustained
and consistent returns for Investment Banking

- § Client-driven revenues returned to levels closer to the first three quarters of '09
 - § High quality of earnings and continued market share momentum leading to pre-tax return on capital of 37%, ahead of full-year 2009 return of 34%
 - § Substantial and sustained market share gains in equities over the past two years; full benefit of gains not yet realized given relatively subdued market activity
 - § Strong underwriting and advisory pipeline with good momentum
 - § Continued investment in high-return fixed income flow businesses, with majority of planned sales hires completed and significant progress on emerging markets initiatives

§ Client-driven revenues returned to levels closer to the first three quarters of 2009

§ Revenues demonstrate the diversity of our fixed income franchise with strong results across the majority of our businesses

§ Strong results driven by credit (both high-yield and investment grade), RMBS and emerging markets, offsetting the slow-down in global rates and foreign exchange from high 2009 levels

§ Significant progress in expanding high-return flow businesses, particularly in global rates, foreign exchange, emerging markets and credit, with the majority of planned flow sales hires completed

1) Excludes impact of movements in spreads on own debt

2) Includes market rebound revenues of CHF 1.1 bn (USD 0.9 bn) and losses of CHF 1.6 bn (USD 1.4 bn) from exit businesses

Portfolio ratings by transaction rating

Wealth Management Clients: CHF 128 bn

§ Securities-backed lending (CHF 32 bn) with conservative haircuts

§ Mortgages (CHF 89 bn) underwriting based on conservative client income, affordability calculations and loan-to-value requirements

§ Prices for real-estate flat, falling in structurally weaker regions, not yet in attractive regions (e.g., Zurich, Lac Léman); outlook: slight decline with risk of sharp price falls only conceivable in the Geneva region and certain tourist regions

Corporate & Institutional Clients: CHF 51 bn

§ Sound credit quality with relatively low concentrations

§ Over 70% collateralized by mortgages and securities

§ Counterparties are Swiss corporates incl. real-estate industry

§ Commercial real-estate: Prices flat for office space, declining for retail space; stable outlook for office space in central market regions and prime retail space, negative for office in peripheral markets and other retail

§ Corporate client segment less affected by the economic downturn than expected due to the swift recovery
