

CORNING INC /NY  
Form 10-Q  
November 02, 2009  
UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended **September 30, 2009**

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission file number: 1-3247

**CORNING INCORPORATED**

(Exact name of registrant as specified in its charter)

**New York**  
(State or other jurisdiction of incorporation or organization)

**16-0393470**  
(I.R.S. Employer Identification No.)

**One Riverfront Plaza, Corning, New York**  
(Address of principal executive offices)

**14831**  
(Zip Code)

**607-974-9000**

Edgar Filing: CORNING INC /NY - Form 10-Q

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days.

Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes  No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class	Outstanding as of October 15, 2009
Corning's Common Stock, \$0.50 par value per share	1,556,093,519 shares

**CORNING INCORPORATED AND SUBSIDIARY COMPANIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(Unaudited)

**1. Significant Accounting Policies**

***Basis of Presentation***

In these notes, the terms "Corning," "Company," "we," "us," or "our" mean Corning Incorporated and subsidiary companies.

Effective September 30, 2009, the Financial Accounting Standards Board (FASB) established *The FASB Accounting Standards Codification* (ASC) as the source of authoritative accounting to be applied by nongovernmental entities in the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP). Except for newly issued standards which have not been codified, references to codified literature have been updated to reflect this change.

The accompanying unaudited consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) and in accordance with GAAP for interim financial information. Certain information and note disclosures normally included in financial statements prepared in accordance with GAAP have been omitted or condensed. These interim consolidated financial statements should be read in conjunction with Corning's consolidated financial statements and notes thereto included in its Annual Report on Form 10-K for the year ended December 31, 2008 (2008 Form 10-K). Corning evaluates all events or transactions that occur after the balance sheet date through the date of issuance of our financial statements. For the period ending September 30, 2009, subsequent events were evaluated through November 2, 2009.

The unaudited consolidated financial statements reflect all adjustments which, in the opinion of management, are necessary for a fair statement of the results of operations, financial position and cash flows for the interim periods presented. All such adjustments are of a normal recurring nature. Certain amounts for prior periods have been reclassified to conform to the 2009 presentation. The results for interim periods are not necessarily indicative of results which may be expected for any other interim period or for the full year.

Effective January 1, 2009, the Company adopted ASC 810-10-65-1 *Transition Related to SFAS No. 16 Noncontrolling Interests in Consolidated Financial Statements*. A noncontrolling interest, previously called a minority interest, is the portion of equity in a subsidiary not attributable, directly or indirectly, to a parent. Under this standard, noncontrolling interests in subsidiaries are now included as a component of equity in the consolidated statements of financial position. This guidance also provides the required accounting treatment for changes in ownership of noncontrolling interests. As required, the related presentation and disclosure provisions have been applied retrospectively. For the three and nine months ended September 30, 2009, and 2008, net income attributable to noncontrolling interests was not significant (\$6 million and \$1 million for the nine months ended September 30, 2009 and 2008, respectively) and therefore, was not presented separately on the consolidated statements of income.

Effective January 1, 2009, the Company changed the presentation of equity in earnings of affiliated companies in the Consolidated Statements of Income from below "Benefit for income taxes" to above "Income before income taxes." The change in presentation reflects the strategic nature and

Edgar Filing: CORNING INC /NY - Form 10-Q

economic importance of the Company's investments accounted for under the equity method of accounting. There was no effect on the Company's consolidated results of operation, financial condition, or cash flows as a result of this change.

- 7 -

---

## Edgar Filing: CORNING INC /NY - Form 10-Q

Effective April 1, 2009, the Company adopted the following:

ASC 320-10-65-1 Transition Related to FSP FAS 115-2 and FAS 124-2 *Recognition and Presentation of Other-Than-Temporary Impairments* which changes the method for determining whether an other-than temporary impairment exists for debt securities and for determining the amount of an impairment charge to be recorded in earnings;

ASC 820-10-65-4 Transition Related to FSP FAS 157-4 *Determining Fair Value When the Volume and Level of Activity for the Asset and Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* which provides guidance addressing the determination of (a) when a market for an asset or a liability is active or inactive and (b) when a particular transaction is distressed; and

ASC 825-10-65-1 Transition Related to FSP FAS 107-1 and APB 28- *Interim Disclosures about Fair Value of Financial Instruments* which requires disclosures about fair value of financial instruments for interim reporting periods as well as in annual financial statements.

The impact of adopting these fair value standards was not significant.

### ***Equity Method Investments***

Our equity investments are accounted for under the equity method of accounting for investments as required by ASC 323 *Investments Equity Method and Joint Ventures*.

Our equity method investments are reviewed for impairment on a periodic basis or if an event occurs or circumstances change that indicate the carrying amount may be impaired. This assessment is based on a review of the equity investments' performance and a review of indicators of impairment to determine if there is evidence of a loss in value of an equity investment. Factors we consider include:

Absence of our ability to recover the carrying amount;

Inability of the equity affiliate to sustain an earnings capacity which would justify the carrying amount of the investment; and

Significant litigation, bankruptcy or other events that could impact recoverability.

For an equity investment with impairment indicators, we measure fair value on the basis of discounted cash flows or other appropriate valuation methods, depending on the nature of the company involved. If it is probable that we will not recover the carrying amount of our investment, the impairment is considered other-than-temporary and recorded in earnings, and the equity investment balance is reduced to its fair value accordingly. We require our equity method affiliates to provide audited financial statements in accordance with GAAP. Consequently, required assessments of asset recoverability are included in their results. We also include these financial statements in our recoverability assessment.

### ***Property, Net of Accumulated Depreciation***

Land, buildings, and equipment, including precious metals, are recorded at cost. Depreciation is based on estimated useful lives of properties using the straight-line method. Except as described in Note 2 (Restructuring, Impairment and Other Charges and (Credits)) related to accelerated depreciation arising from restructuring programs and Note 11 (Property, Net of Accumulated Depreciation) related to the depletion of precious metals, the estimated useful lives range from 10 to 40 years for buildings and 2 to 20 years for equipment.

Included in the subcategory of equipment are the following types of assets:

**Asset type**

**Range of useful life**

Computer hardware and software

3 to 7 years

Manufacturing equipment (excluding precious metals)

2 to 15 years

Furniture and fixtures

5 to 10 years

Transportation equipment

5 to 20 years

- 8 -

---

## Edgar Filing: CORNING INC /NY - Form 10-Q

Manufacturing equipment includes certain components of production equipment that are constructed of precious metals. These assets are not depreciated because they have very low physical losses and are repeatedly reclaimed and reused in our manufacturing process over a very long useful life. We treat the physical loss of precious metals in the manufacturing and reclamation process as depletion and account for these losses as a period expense based on actual units lost. Precious metals are integral to many of our glass production processes. They are only acquired to support our operations and are not held for trading or other purposes.

### *Fair Value Measurements*

The company applies ASC 820 Fair Value Measurements and Disclosures (ASC 820) to all assets and liabilities that are measured and reported on a fair value basis. Major categories of financial assets and liabilities, including short-term investments, other assets and derivatives are measured at fair value on a recurring basis. Certain assets and liabilities including long-lived assets, goodwill, asset retirement obligations, and cost and equity investments are measured at fair value on a nonrecurring basis.

ASC 820 defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, we consider the principal or most advantageous market in which we would transact and consider assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance.

### *Other Income (Expense), Net*

Other income (expense), net in Corning's consolidated statements of income includes the following (in millions):

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2009	2008	2009	2008
Royalty income from Samsung Corning Precision	\$ 62	\$ 54	\$ 165	\$ 148
Foreign currency exchange and hedge (losses)/gains, net	(12)	(19)	(47)	(53)
Net realized losses on available-for-sale securities		(39)		(41)
Loss on sale of Steuben glass business		(14)		(14)
Net (loss) income attributable to noncontrolling interests	(5)		(6)	1
Other, net	3	(12)	(3)	(30)
Total	\$ 48	\$ (30)	\$ 109	\$ 11

### *New Accounting Standards*

In June 2009, the FASB issued SFAS No. 167, *Amendments to FASB Interpretation No. 46 (R)* (SFAS 167). SFAS 167 revises the consolidation guidance for variable interest entities. SFAS 167 modifies the approach for determining the primary beneficiary of a variable interest entity (VIE). Under SFAS 167, the primary beneficiary is the variable interest holder that has the power to direct the activities of the VIE that most significantly impact the entity's economic performance and the obligation to absorb losses of the VIE or the right to receive benefits from the VIE that could potentially be significant to the VIE. In addition, SFAS 167 provides guidance on shared power and joint venture relationships, removes the scope exemption for qualified special purpose entities, revises the definition of a VIE, and requires additional disclosures. SFAS 167 is effective for fiscal years beginning after November 15, 2009. Corning does not expect adoption of this standard to have a material impact on its consolidated results of operations and financial condition.

## Edgar Filing: CORNING INC /NY - Form 10-Q

In October 2009, the FASB issued Accounting Standard Update No. 2009-13, *Revenue Recognition (Topic 605): Multiple-Deliverable Revenue Arrangements* a consensus of the FASB Emerging Issues Task Force (ASU 2009-13). ASU 2009-13 addresses the accounting for sales arrangements that include multiple products or services by revising the criteria for when deliverables may be accounted for separately rather than as a combined unit. Specifically, this guidance establishes a selling price hierarchy for determining the selling price of a deliverable, which is necessary to separately account for each product or service. This hierarchy provides more options for establishing selling price than existing guidance. ASU 2009-13 is required to be applied prospectively to new or materially modified revenue arrangements in fiscal years beginning on or after June 15, 2010. Early adoption is permitted. Corning does not expect adoption of this standard to have a material impact on its consolidated results of operations and financial condition.

### 2. Restructuring, Impairment and Other Charges (Credits)

#### 2009 Activities

In the third quarter of 2009, we recorded a charge of \$10 million which was comprised of severance costs for a restructuring plan in the Environmental Technologies segment and asset disposal costs in other segments.

In the first quarter of 2009, we recorded a charge of \$165 million associated with a corporate-wide restructuring plan to reduce our global workforce in response to anticipated lower sales in 2009. The charge included costs for severance, special termination benefits, outplacement services, and the impact of a \$30 million curtailment loss for postretirement benefits. Total cash expenditures associated with this plan are expected to be approximately \$105 million with the majority of spending completed by early 2010.

The following table summarizes the restructuring, impairment and other charges (credits) as of and for the nine months ended September 30, 2009 (in millions):

	Reserve at January 1, 2009	Charges	Non-Cash Settlements	Cash Payments	Reserve at September 30, 2009
<b>Restructuring:</b>					
Employee related costs	\$ 17	\$ 152	\$ (47)	\$ (68)	\$ 54
Other charges (credits)	17	5		(3)	19
Total restructuring charges	\$ 34	\$ 157	\$ (47)	\$ (71)	\$ 73
<b>Impairment of long-lived assets:</b>					
Assets to be disposed of		\$ 18			
Total impairment charges		\$ 18			
Total restructuring, impairment and other charges and (credits)		\$ 175			

The year-to-date cost of these plans for each of our reportable operating segments was as follows (in millions):

Operating segment	Employee- related and other costs
Display Technologies	\$ 29
Telecommunications	15
Environmental Technologies	22

Edgar Filing: CORNING INC /NY - Form 10-Q

Specialty Materials	17
Life Sciences	8
Corporate and All Other	84
Total restructuring, impairment and other charges	\$ 175

- 10 -

---

## Edgar Filing: CORNING INC /NY - Form 10-Q

Cash payments for employee-related costs will be substantially complete by early 2010, while payments for exit activities will be substantially complete by the end of 2011.

### 2008 Activities

The following table summarizes the restructuring, impairment, and other charges and (credits) as of and for the nine months ended September 30, 2008 (in millions):

	Reserve at January 1, 2008	Revisions to existing plans	Net charges/ (reversals)	Cash payments	Reserve at September 30, 2008
Restructuring activity:					
Employee related costs	\$ 12	\$ (3)	\$ (3)	\$ (7)	\$ 2
Other charges	22			(3)	19
Total restructuring charges	\$ 34	\$ (3)	\$ (3)	\$ (10)	\$ 21

### 3. Commitments and Contingencies

#### *Asbestos Litigation*

**Pittsburgh Corning Corporation.** Corning and PPG Industries, Inc. (PPG) each own 50% of the capital stock of Pittsburgh Corning Corporation (PCC). Over a period of more than two decades, PCC and several other defendants have been named in numerous lawsuits involving claims alleging personal injury from exposure to asbestos. On April 16, 2000, PCC filed for Chapter 11 reorganization in the U.S. Bankruptcy Court for the Western District of Pennsylvania. At the time PCC filed for bankruptcy protection, there were approximately 11,800 claims pending against Corning in state court lawsuits alleging various theories of liability based on exposure to PCC's asbestos products and typically requesting monetary damages in excess of one million dollars per claim. Corning has defended those claims on the basis of the separate corporate status of PCC and the absence of any facts supporting claims of direct liability arising from PCC's asbestos products. Corning is also currently involved in approximately 10,300 other cases (approximately 38,700 claims) alleging injuries from asbestos and similar amounts of monetary damages per case. Those cases have been covered by insurance without material impact to Corning to date. As described below, several of Corning's insurance carriers have filed a legal proceeding concerning the extent of any insurance coverage for these claims. Asbestos litigation is inherently difficult, and past trends in resolving these claims may not be indicators of future outcomes.

On March 28, 2003, Corning announced that it had reached agreement with the representatives of asbestos claimants for the resolution of all current and future asbestos claims against it and PCC, which might arise from PCC products or operations (the 2003 Plan). The 2003 Plan would have required Corning to relinquish its equity interest in PCC, contribute its equity interest in Pittsburgh Corning Europe N.V. (PCE), a Belgian corporation, contribute 25 million shares of Corning common stock, and pay a total of \$140 million in six annual installments (present value \$131 million at March 2003), beginning one year after the plan's effective date, with 5.5 percent interest from June 2004. In addition, the 2003 Plan provided that Corning would assign certain insurance policy proceeds from its primary insurance and a portion of its excess insurance.

On December 21, 2006, the Bankruptcy Court issued an order denying confirmation of the 2003 Plan for reasons it set out in a memorandum opinion. Several parties, including Corning, filed motions for reconsideration. These motions were argued on March 5, 2007, and the Bankruptcy Court reserved decision.

Edgar Filing: CORNING INC /NY - Form 10-Q

On January 10, 2008, some of the parties in the proceeding advised the Bankruptcy Court that they had made substantial progress on a proposed amended plan of reorganization (the Amended PCC Plan) that resolved issues raised by the Court in denying the confirmation of the 2003 Plan and that would therefore make it unnecessary for the Bankruptcy Court to decide the motion for reconsideration. On March 27, 2008 and May 22, 2008, the parties further informed the Bankruptcy Court on the progress toward the Amended PCC Plan. The parties filed a partial tentative plan on August 8, 2008. The parties continued to inform the Bankruptcy Court of the status of their discussions on the Amended PCC Plan. The complete Amended PCC Plan and its ancillary documents were filed with the Bankruptcy Court on January 29, 2009.

- 11 -

---

## Edgar Filing: CORNING INC /NY - Form 10-Q

As a result, Corning believes the Amended PCC Plan now represents the most probable outcome of this matter and expects that the Amended PCC Plan will be confirmed by the Court. At the same time, Corning believes the 2003 Plan no longer serves as the basis for the Company's best estimate of liability. Key provisions of the Amended PCC Plan address the concerns expressed by the Bankruptcy Court. Accordingly, in the first quarter of 2008, Corning adjusted its asbestos litigation liability to reflect components of the Amended PCC Plan. The proposed resolution of PCC asbestos claims under the Amended PCC Plan requires Corning to contribute its equity interests in PCC and PCE and to contribute a fixed series of payments, recorded at present value. Corning will have the option to use its shares rather than cash to make these payments, but the liability is fixed by dollar value and not the number of shares. The Amended PCC Plan would require Corning to make (1) one payment of \$100 million one year from the date the Amended PCC Plan becomes effective and certain conditions are met and (2) five additional payments of \$50 million, on each of the five subsequent anniversaries of the first payment, the final payment of which is subject to reduction based on the application of credits under certain circumstances.

The Amended PCC Plan does not include non-PCC asbestos claims that may be or have been raised against Corning. Corning has recorded an additional \$150 million for such claims in its estimated asbestos litigation liability. The liability for non-PCC claims was estimated based upon industry data for asbestos claims since Corning does not have recent claim history due to the injunction issued by the Bankruptcy Court. The estimated liability represents the undiscounted projection of claims and related legal fees over the next 20 years. The amount may need to be adjusted in future periods as more Company-specific data becomes available.

The liability for the Amended PCC Plan and the non-PCC asbestos claims was estimated to be \$677 million at September 30, 2009, compared with an estimate of liability of \$662 million at December 31, 2008. In the three and nine months ended September 30, 2009, Corning recorded asbestos litigation expense of \$6 million and \$15 million, respectively. The entire obligation is classified as a non-current liability as installment payments for the cash portion of the obligation are not planned to commence until more than 12 months after the Amended PCC Plan becomes effective and the PCE portion of the obligation will be fulfilled through the direct contribution of Corning's investment in PCE (currently recorded as a non-current other equity method investment).

In the first quarter of 2008, Corning recorded a credit to asbestos settlement expense of \$327 million as a result of the increase in likelihood of a settlement under the Amended PCC Plan and a corresponding decrease in the likelihood of a settlement under the 2003 Plan. In the second and third quarters of 2008, Corning recorded a charge of \$9 million and \$6 million, respectively, to reflect the change in value of the estimated liability under an Amended PCC Plan.

The Amended PCC Plan is subject to a number of contingencies. Payment of the amounts required to fund the Amended PCC Plan from insurance and other sources are subject to a number of conditions which may not be achieved. The approval of the Amended PCC Plan by the Bankruptcy Court is not certain and faces objections by some parties. Any approval of the Amended PCC Plan by the Bankruptcy Court is subject to appeal. The Amended PCC Plan will also be subject to a vote of PCC's creditors. For these and other reasons, Corning's liability for these asbestos matters may be subject to changes in subsequent quarters. The estimate of the cost of resolving the non-PCC asbestos claims may also be subject to change as developments occur. Management continues to believe that the likelihood of the uncertainties surrounding these proceedings causing a material adverse impact to Corning's financial statements is remote.

Several of Corning's insurers have commenced litigation for a declaration of the rights and obligations of the parties under insurance policies, including rights that may be affected by the potential resolutions described above. Corning is vigorously contesting these cases. Management is unable to predict the outcome of this insurance litigation and therefore cannot estimate the range of any possible loss.

### *Other Commitments and Contingencies*

In the normal course of our business, we do not routinely provide significant third-party guarantees. When provided, these guarantees have various terms, and none of these guarantees are individually significant. Generally, third party guarantees provided by Corning are limited to

Edgar Filing: CORNING INC /NY - Form 10-Q

certain financial guarantees including stand-by letters of credit and performance bonds, and the incurrence of contingent liabilities in the form of purchase price adjustments related to attainment of milestones.

- 12 -

---

## Edgar Filing: CORNING INC /NY - Form 10-Q

We have also agreed to provide a credit facility to Dow Corning Corporation (Dow Corning). The funding of the Dow Corning \$125 million credit facility is subject to events connected to the Dow Corning Bankruptcy Plan. Refer to Note 13 (Commitments, Contingencies, and Guarantees) to the consolidated financial statements in our 2008 Form 10-K for a discussion of contingent liabilities associated with Dow Corning.

As of September 30, 2009, contingent guarantees totaled a notional value of \$251 million, compared with \$292 million at December 31, 2008. We believe a significant majority of these contingent guarantees will expire without being funded. We also were contingently liable for purchase obligations of \$111 million and \$126 million, at September 30, 2009 and December 31, 2008, respectively.

Product warranty liability accruals at September 30, 2009 and December 31, 2008 were \$24 million and \$18 million, respectively.

Corning is a defendant in various lawsuits, including environmental litigation, product-related suits, the Dow Corning and PCC matters, discussed in Note 7 (Investments) to the consolidated financial statements in our 2008 Form 10-K and in Part II Item 1, Legal Proceedings, and is subject to various claims which arise in the normal course of business. In the opinion of management, the likelihood that the ultimate disposition of these matters will have a material adverse effect on Corning's consolidated financial position, liquidity, or results of operations, is remote.

Corning has been named by the Environmental Protection Agency (the Agency) under the Superfund Act, or by state governments under similar state laws, as a potentially responsible party for 21 active hazardous waste sites. Under the Superfund Act, all parties who may have contributed any waste to a hazardous waste site, identified by the Agency, are jointly and severally liable for the cost of cleanup unless the Agency agrees otherwise. It is Corning's policy to accrue for its estimated liability related to Superfund sites and other environmental liabilities related to property owned by Corning based on expert analysis and continual monitoring by both internal and external consultants. At September 30, 2009, and December 31, 2008, Corning had accrued approximately \$23 million (undiscounted) and \$21 million (undiscounted), respectively, for the estimated liability for environmental cleanup and related litigation. Based upon the information developed to date, management believes that the accrued reserve is a reasonable estimate of the Company's liability and that the risk of an additional loss in an amount materially higher than that accrued is remote.

#### **4. Debt**

Based on borrowing rates currently available to us for loans with similar terms and maturities, the fair value of long-term debt was \$2.0 billion at September 30, 2009 and \$1.5 billion at December 31, 2008.

##### Third Quarter

There were no significant debt transactions in the third quarter of 2009.

##### Second Quarter

In the second quarter of 2009, we issued \$250 million of 6.625% senior unsecured notes and \$100 million of 7% senior unsecured notes for net proceeds of approximately \$248 million and \$98 million, respectively. The 6.625% notes mature on May 15, 2019 and the 7% notes mature on May 15, 2024. We may redeem these debentures at any time.

First Quarter

In the first quarter of 2009, we recorded the impact of a capital lease obligation associated with a manufacturing facility in our Display Technologies segment. The balance of this obligation at March 31, 2009 was \$141 million and is included in our long-term debt balance. Corning repaid \$72 million of debt which included the redemption of \$54 million principal amount of our 6.3% notes due March 1, 2009. There were no other significant debt transactions in the first quarter of 2009.

There were no significant debt transactions in the first, second, and third quarters of 2008.

- 13 -

---

## 5. Income Taxes

Our (provision) benefit for income taxes and the related effective income tax rates were as follows (in millions):

	Three months ended		Nine months ended	
	September 30, 2009	2008	September 30, 2009	2008
(Provision) benefit for income taxes	\$ (32)	\$ 51	\$ 38	\$ 2,358
Effective (tax) benefit rate	(4.7)%	7.1%	3.1%	89.0%

For the three months ended September 30, 2009, the effective income tax rate differed from the U.S. statutory rate of 35% primarily due to the following items:

Rate differences on income/ (losses) of consolidated foreign companies.

The impact of equity in earnings of affiliated companies.

The benefit of tax holidays and investment credits in foreign jurisdictions.

The impact of discrete items, including a restructuring charge of \$10 million. Refer to Note 2 (Restructuring, Impairment and Other Charges (Credits)) for additional information about Corning's restructuring charge. Discrete items decreased our effective tax rate by 2.5 percentage points.

In addition to the items noted above, the tax provision for the nine months ended September 30, 2009, reflected the impact of discrete items, including a restructuring charge of \$165 million. Discrete items decreased our effective rate by 7.4 percentage points.

For the three months ended September 30, 2008, the effective income tax rate differed from the U.S. statutory rate of 35% primarily due to the following items:

The release of \$70 million of valuation allowances resulting from a change in estimate regarding 2008 U.S. taxable income.

A \$43 million benefit related to a favorable tax settlement with the Canadian Revenue Agency.

The impact of not recording net tax expense on income generated in the U.S.

The benefit of tax holidays and investment credits in foreign jurisdictions.

The impact of discrete items for which no tax benefit was recorded, including \$39 million of net realized losses on short-term investments and a \$14 million loss on the sale of our Steuben glass business. Discrete items and the valuation allowance release decreased our effective tax rate by 15.1 percentage points. Refer to Note 7 (Available-for-Sale Investments) for additional information about net realized losses.

In addition to the items noted above, the tax provision for the nine months ended September 30, 2008 reflected the impact of the release of \$2.4 billion of valuation allowances attributable to a change in judgment about the realizability of certain deferred tax assets and other discrete items for which no tax expense was recorded including an asbestos settlement credit of \$312 million and litigation related items totaling \$12 million. For the nine months ended September 30, 2008, discrete items and valuation allowance releases decreased our effective tax rate by 97.7 percentage points. Refer to Note 3 (Commitments and Contingencies) for additional information about asbestos settlement litigation.

As more fully described in Note 6 (Income Taxes) to the consolidated financial statements in our 2008 Form 10-K, all of our U.S. deferred tax assets had full valuation allowances until the second quarter of 2008. At that time, we concluded that it was more likely than not that we would realize substantially all of our U.S. deferred tax assets because we expect to generate sufficient levels of income in the U.S. As a result, we released \$2.4 billion of valuation allowances on our U.S. deferred tax assets in the second quarter of 2008. We considered all available evidence, both positive and negative, to determine whether, based on the weight of that evidence, a valuation allowance was needed.

## Edgar Filing: CORNING INC /NY - Form 10-Q

The evaluation of the realizability of deferred tax assets is inherently subjective. Following are the key items that provided positive evidence to support the release of the valuation allowance for a large portion of our deferred tax assets in the second quarter of 2008:

- Positive pre-tax income in the U.S. for the first half of 2008 and the preceding year;
- The impact of positive results in the Display Technologies operating segment and the royalty income generated from the foreign locations in this segment;
- The number of years remaining to utilize our net operating loss carryforwards; and
- Increased confidence in our longer-term forecasted income levels which were supported by detailed sensitivity analyses.

At June 30, 2008, the following items were considered as negative evidence in our valuation allowance assessment, but were less heavily weighted than our positive evidence:

- Uncertainty of future taxable earnings;
- Historical utilization of deferred tax assets caused largely by non-recurring items; and
- Economic and consumer demand uncertainty.

Deferred tax liabilities totaled \$26 million at December 31, 2008, and therefore, were not a significant factor in our assessment of the realizability of deferred tax assets.

U.S. profits of approximately \$8.3 billion dollars will be required to fully realize the deferred tax assets as of December 31, 2008. Of that amount, \$3.9 billion of U.S. profits will be required over the next 18 years to fully realize the deferred tax assets associated with federal net operating loss carry forwards.

For the three and nine months ended September 30, 2008, we recorded tax expense on income generated in the U.S. of \$16 million and \$239 million, respectively, which was fully offset by releases of valuation allowance. These amounts include the impact of discrete items described above.

Certain foreign subsidiaries in China and Taiwan are operating under tax holiday arrangements. The nature and extent of such arrangements vary, and the benefits of such arrangements phase out through 2013 according to the specific terms and schedules of the relevant taxing jurisdictions. The impact of the tax holidays on our effective tax rate is a reduction in the rate of 6.5 and 5.3 percentage points for the three months ended September 30, 2009 and 2008, respectively, and a reduction in the rate of 7.2 and 4.8 percentage points for the nine months ended September 30, 2009 and 2008, respectively.

While we expect the amount of unrecognized tax benefits to change in the next 12 months, we do not expect the change to have a significant impact on the results of operations or our financial position.

**6. Earnings per Common Share**

The reconciliation of the amounts used in the basic and diluted earnings per common share computations follows (in millions, except per share amounts):

	Three months ended September 30, 2009			2008		
	Net Income Attributable to Corning Incorporated	Weighted- Average Shares	Per Share Amount	Net Income Attributable to Corning Incorporated	Weighted- Average Shares	Per Share Amount
Basic earnings per common share	\$ 643	1,550	\$ 0.41	\$ 768	1,558	\$ 0.49
Effect of dilutive securities:						
Stock options and other dilutive securities		19			20	
Diluted earnings per common share	\$ 643	1,569	\$ 0.41	\$ 768	1,578	\$ 0.49

	Nine months ended September 30, 2009			2008		
	Net Income Attributable to Corning Incorporated	Weighted- Average Shares	Per Share Amount	Net Income Attributable to Corning Incorporated	Weighted- Average Shares	Per Share Amount
Basic earnings per common share	\$ 1,268	1,549	\$ 0.82	\$ 5,008	1,564	\$ 3.20
Effect of dilutive securities:						
Stock options and other dilutive securities		16			28	
Diluted earnings per common share	\$ 1,268	1,565	\$ 0.81	\$ 5,008	1,592	\$ 3.15

The following potential common shares were excluded from the calculation of diluted earnings per common share because their inclusion would have been anti-dilutive. In addition, the following performance-based restricted stock awards have been excluded from the calculation of diluted earnings per common share because the number of shares ultimately issued is contingent on our performance against certain targets established for the performance period (in millions):

	Three months ended September 30, 2009		Nine months ended September 30, 2009	
	2008	2008	2008	2008
Potential common shares excluded from the calculation of diluted earnings per share:				
Employee stock options and awards	50	49	60	41
Performance-based restricted stock awards	4	2	4	2
Total	54	51	64	43

## 7. Available-for-Sale Investments

The following is a summary of the fair value of available-for-sale investments (in millions):

	Amortized Cost		Fair Value	
	September 30, 2009	December 31, 2008	September 30, 2009	December 31, 2008
Bonds, notes and other securities:				
U.S. government and agencies	\$ 845	\$ 733	\$ 847	\$ 737
Asset-backed securities		6		5
Other debt securities	119	210	121	201
Total short-term investments	\$ 964	\$ 949	\$ 968	\$ 943
Asset-backed securities	\$ 78	\$ 87	\$ 41	\$ 40
Total long-term investments	\$ 78	\$ 87	\$ 41	\$ 40

Long-term investment securities are comprised of asset-backed securities with a fair value of \$41 million at September 30, 2009. We do not intend to sell, nor do we believe it is more likely than not that we would be required to sell, the \$78 million amortized cost-basis of these asset-backed securities (which are collateralized by mortgages) before recovery of their amortized cost basis. It is possible that a significant degradation in the delinquency or foreclosure rates in the underlying assets could cause further temporary or other-than-temporary impairments in the future.

The following table provides the fair value and gross unrealized losses of the Company's investments aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position at September 30, 2009 (in millions):

	Period Ended September 30, 2009					
	Less Than 12 Months		12 Months or Greater		Total	
	Fair value	Unrealized losses	Fair value	Unrealized losses	Fair value	Unrealized losses
Bonds, notes and other securities						
U.S. government and agencies	\$ 102				\$ 102	
Asset-backed securities						
Other debt securities	10		\$ 54		64	
Total short-term investments	\$ 112		\$ 54		\$ 166	
Asset-backed securities			\$ 41	\$ (37)	\$ 41	\$ (37)
Total long-term investments			\$ 41	\$ (37)	\$ 41	\$ (37)

Gross realized gains and losses for the three and nine months ended September 30, 2009 and 2008 were as follows

(in millions):

	Three months ended		Nine months ended	
	September 30, 2009	2008	September 30, 2009	2008
Gross realized gains	\$ 1	\$ 2	\$ 2	\$ 5
Gross realized losses	\$ (1)	\$ (41) (1)	\$ (5)	\$ (46)

(1) Realized losses in the third quarter of 2008 included an other-than-temporary impairment of \$26 million for securities of Lehman Brothers Holdings Inc., which filed for bankruptcy protection in mid-September 2008.

## Edgar Filing: CORNING INC /NY - Form 10-Q

Gross unrealized gains and losses included in accumulated other comprehensive income at September 30, 2009 and December 31, 2008, were as follows (in millions):

	September 30, 2009	December 31, 2008
Gross unrealized gains		\$ 2
Gross unrealized losses	\$ (37) (1)	\$ (58) (2)

- (1) Unrealized losses included temporary impairments of asset-backed securities with an amortized cost of \$23 million and a fair value of \$12 million at September 30, 2009.
- (2) Unrealized losses included temporary impairments of asset-backed securities with a fair value of \$40 million at December 31, 2008.

A reconciliation of the changes in credit losses recognized in earnings for the three and six months ended September 30, 2009 (in millions):

Beginning balance of credit losses, April 1, 2009	\$ 0
Additions for credit losses not previously recognized in earnings	2
Ending balance of credit losses, for the six months ended September 30, 2009	\$ 2

Beginning balance of credit losses, July 1, 2009	\$ 1
Additions for credit losses not previously recognized in earnings	1
Ending balance of credit losses, for the three months ended September 30, 2009	\$ 2

The \$2 million loss represents management's estimate of credit losses inherent in the securities considering projected cash flows using assumptions of delinquency rates, loss severities, and other estimates of future collateral performance. These credit losses are limited to asset-backed securities in our investment portfolio.

### 8. Inventories

Inventories comprise the following (in millions):

	September 30, 2009	December 31, 2008
Finished goods	\$ 209	\$ 293
Work in process	123	197
Raw materials and accessories	109	120
Supplies and packing materials	177	188
Total inventories	\$ 618	\$ 798

### 9. Investments

Investments comprise the following (in millions):

	Ownership Interest (1)	September 30, 2009	December 31, 2008
Affiliated companies accounted for by the equity method			
Samsung Corning Precision Glass Co., Ltd.	50%	\$ 2,746	\$ 1,965
Dow Corning Corporation	50%	846	866
All other	20%-50%	222	221
		3,814	3,052

Edgar Filing: CORNING INC /NY - Form 10-Q

Other investments	4	4
Total	\$ 3,818	\$ 3,056

(1) Amounts reflect Corning's direct ownership interests in the respective affiliated companies. Corning does not control any of these entities.

- 18 -

---

## Edgar Filing: CORNING INC /NY - Form 10-Q

Related party information for these investments in affiliates follows (in millions):

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2009	2008	2009	2008
Related Party Transactions:				
Corning sales to affiliates	\$ 6	\$ 9	\$ 27	\$ 32
Corning purchases from affiliates	\$ 14	\$ 16	\$ 26	\$ 38
Dividends received from affiliates	\$ 20	\$ 191	\$ 439	\$ 470
Royalty income from affiliates	\$ 62	\$ 54	\$ 167	\$ 148
Contractual services to affiliates	\$ 14		\$ 14	
Corning transfers of assets, at cost, to affiliates	\$ 12	\$ 53	\$ 54	\$ 152

As of September 30, 2009, balances due to and due from affiliates were \$3 million and \$139 million, respectively. As of December 31, 2008, balances due to and due from affiliates were \$2 million and \$20 million, respectively.

We have contractual agreements with several of our equity affiliates which include sales, purchasing, licensing, financing and technology agreements.

Summarized results of operations for our two significant investments accounted for by the equity method follow:

### *Samsung Corning Precision Glass Co., Ltd. (Samsung Corning Precision)*

Samsung Corning Precision is a South Korea-based manufacturer primarily of liquid crystal display (LCD) glass for flat panel displays.

Samsung Corning Precision's results of operations follow (in millions):

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2009	2008	2009	2008
Statement of Operations:				
Net sales	\$ 1,164	\$ 1,022	\$ 2,989	\$ 2,837
Gross profit	\$ 854	\$ 704	\$ 2,145	\$ 1,955
Net income	\$ 632	\$ 540	\$ 1,592	\$ 1,494
Corning's equity in earnings of Samsung Corning Precision	\$ 316	\$ 268	\$ 797	\$ 737
Related Party Transactions:				
Corning purchases from Samsung Corning Precision	\$ 8	\$ 11	\$ 12	\$ 25
Corning sales to Samsung Corning Precision			\$ 9	\$ 7
Dividends received from Samsung Corning Precision		\$ 126	\$ 181	\$ 277
Royalty income from Samsung Corning Precision	\$ 62	\$ 54	\$ 165	\$ 148
Corning transfers of machinery and equipment to Samsung Corning Precision at cost (1)	\$ 12	\$ 53	\$ 54	\$ 152

(1) Corning purchases machinery and equipment on behalf of Samsung Corning Precision to support its capital expansion initiatives. The machinery and equipment are transferred to Samsung Corning Precision at our cost basis, with no gain or loss recognized on the transaction.

Edgar Filing: CORNING INC /NY - Form 10-Q

Corning owns 50% of Samsung Corning Precision. Samsung Electronics Co., Ltd. owns 43% and three other shareholders own the remaining 7%.

As of September 30, 2009 and December 31, 2008, balances due from Samsung Corning Precision were \$42 million and \$17 million, respectively.

- 19 -

---

## Edgar Filing: CORNING INC /NY - Form 10-Q

On December 31, 2007, Samsung Corning Precision acquired all of the outstanding shares of Samsung Corning Co., Ltd. (Samsung Corning). After the transaction, Corning retained its 50% interest in Samsung Corning Precision. Samsung Corning Precision accounted for the transaction at fair value while Corning accounted for the transaction at historical cost.

Prior to their merger, Samsung Corning Precision and Samsung Corning Co. Ltd. (Samsung Corning) were two of approximately thirty co-defendants in a lawsuit filed by Seoul Guarantee Insurance Co. and thirteen other creditors (SGI and Creditors) for alleged breach of an agreement that approximately twenty-eight affiliates of the Samsung group (Samsung Affiliates) entered into with SGI and Creditors on August 24, 1999 (the Agreement). The lawsuit is pending in the courts of South Korea. Under the Agreement it is alleged that the Samsung Affiliates agreed to sell certain shares of Samsung Life Insurance Co., Ltd. (SLI), which had been transferred to SGI and Creditors in connection with the petition for court receivership of Samsung Motor Inc. In the lawsuit, SGI and Creditors allege a breach of the Agreement by the Samsung Affiliates and are seeking the loss of principal (approximately \$1.95 billion) for loans extended to Samsung Motors Inc., default interest and a separate amount for breach. On January 31, 2008, the Seoul District Court ordered the Samsung Affiliates: to pay approximately \$1.3 billion by disposing of 2,334,045 shares of SLI less 1,165,955 shares of SLI previously sold by SGI and Creditors and paying the proceeds to SGI and Creditors; to satisfy any shortfall by participating in the purchase of equity or subordinate debentures issued by them; and pay default interest of 6% per annum. The ruling has been appealed and a ruling on the appeal is expected sometime in November of 2009. Due to the uncertainties around the financial impact to each of the respective Samsung affiliates, Samsung Corning Precision is unable to reasonably estimate the amount of potential loss, if any, associated with this case and therefore no provision for such loss is reflected in its financial statements. Other than as described above, no claim in these matters has been asserted against Corning or any of its affiliates.

In connection with an investigation by the Commission of the European Communities, Competition DG, of alleged anticompetitive behavior relating to the worldwide production of LCD glass, Corning and Samsung Corning Precision received a request on March 30, 2009, for certain information from the Competition DG. Corning and Samsung Corning Precision have responded to those requests for information. On October 9, 2009, in connection with its investigation, the Competition DG made a further request for information from both Corning and Samsung Corning Precision to which each party is responding.

In September 2009, Corning and Samsung Corning Precision formed Corsam Technologies LLC (Corsam), a new equity affiliate established to provide glass technology research for future product applications. Samsung Corning Precision invested \$124 million in cash and Corning contributed intellectual property with a corresponding value. Corning and Samsung Corning Precision each own 50% of the common stock of Corsam and Corning has agreed to provide research and development services at arms length to Corsam. Corning does not control Corsam because Samsung Corning Precision's other investors maintain significant participating voting rights. In addition, Corsam has sufficient equity to finance its activities, the voting rights of investors in Corsam are considered substantive, and the risks and rewards of Corsam's research are shared only by those investors noted. As a result, Corsam is accounted for under the equity method of accounting for investments.

## Edgar Filing: CORNING INC /NY - Form 10-Q

*Dow Corning Corporation (Dow Corning)*

Dow Corning is a U.S.-based manufacturer of silicone products. Dow Corning's results of operations follow (in millions):

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2009	2008	2009	2008
<b>Statement of Operations:</b>				
Net sales	\$ 1,409	\$ 1,487	\$ 3,625	\$ 4,146
Gross profit	\$ 529	\$ 565	\$ 1,187	\$ 1,444
Net income	\$ 184	\$ 218	\$ 309	\$ 566
Corning's equity in earnings of Dow Corning	\$ 92	\$ 109	\$ 154	\$ 283
<b>Related Party Transactions:</b>				
Corning purchases from Dow Corning	\$ 5	\$ 4	\$ 13	\$ 12
Dividends received from Dow Corning		\$ 52	\$ 222	\$ 155

Balances due to Dow Corning were \$2 million and \$1 million as of September 30, 2009 and December 31, 2008, respectively.

In response to recent economic challenges, Dow Corning incurred restructuring charges associated with a global workforce reduction in the first quarter of 2009. Our share of these charges was \$29 million.

At September 30, 2009, Dow Corning's marketable securities included approximately \$1.1 billion of auction rate securities, net of a temporary impairment of \$50 million. As a result of the temporary impairment, unrealized losses of \$39 million, net of \$11 million for a minority interest's share, were included in accumulated other comprehensive income in Dow Corning's consolidated balance sheet. Corning's share of this unrealized loss was \$20 million and is included in Corning's accumulated other comprehensive income.

Dow Corning has borrowed the full amount under its \$500 million revolving credit facility and believes it has adequate liquidity to fund operations, its capital expenditure plan, breast implant settlement liabilities, and shareholder dividends.

Corning and The Dow Chemical Company (Dow Chemical) each own 50% of the common stock of Dow Corning. In May 1995, Dow Corning filed for bankruptcy protection to address pending and claimed liabilities arising from many thousands of breast implant product lawsuits. On June 1, 2004, Dow Corning emerged from Chapter 11 with a Plan of Reorganization (the Plan) which provided for the settlement or other resolution of implant claims. The Plan also includes releases for Corning and Dow Chemical as shareholders in exchange for contributions to the Plan.

Under the terms of the Plan, Dow Corning has established and is funding a Settlement Trust and a Litigation Facility to provide a means for tort claimants to settle or litigate their claims. Inclusive of insurance, Dow Corning has paid approximately \$1.6 billion to the Settlement Trust. As of September 30, 2009, Dow Corning had recorded a reserve for breast implant litigation of \$1.6 billion and anticipates insurance receivables of \$16 million. As a separate matter arising from the bankruptcy proceedings, Dow Corning is defending claims asserted by a number of commercial creditors who claim additional interest at default rates and enforcement costs, during the period from May 1995 through June 2004. As of September 30, 2009, Dow Corning has estimated the liability to commercial creditors to be within the range of \$82 million to \$224 million. As Dow Corning management believes no single amount within the range appears to be a better estimate than any other amount within the range, Dow Corning has recorded the minimum liability within the range. Should Dow Corning not prevail in this matter, Corning's equity earnings would be reduced by its 50% share of the amount in excess of \$82 million, net of applicable tax benefits. In addition, the London Market Insurers (the LMI Claimants) have claimed a reimbursement right with respect to a portion of insurance proceeds previously paid by the LMI Claimants to Dow Corning. This claim is based on a theory that the LMI Claimants overestimated Dow Corning's liability for the resolution of implant claims pursuant to the Plan. The LMI Claimants offered two calculations of their claim amount: \$54 million and \$93 million, plus minimum interest of \$67 million and \$116 million, respectively. These estimates were explicitly characterized as preliminary and subject to change. Litigation regarding this claim is in the discovery stage. Dow Corning disputes the claim and is unable to reasonably estimate any potential liability. There are a number of other claims in the bankruptcy proceedings against Dow Corning awaiting resolution by the U.S. District Court, and it is reasonably possible that Dow Corning may record bankruptcy-related charges in the future. There are no remaining tort claims against Corning, other than those that will be channeled by the Plan into facilities established by the Plan or otherwise defended by the Litigation Facility.

In 1995, Corning fully impaired its investment in Dow Corning after it filed for bankruptcy protection. Corning did not recognize net equity earnings from the second quarter of 1995 through the end of 2002. Corning began recognizing equity earnings in the first quarter of 2003 when management concluded that Dow Corning's emergence from bankruptcy was probable. Corning considers the \$249 million difference between the carrying value of its investment in Dow Corning and its 50% share of Dow Corning's equity to be permanent.

#### *Pittsburgh Corning Corporation (PCC)*

Corning and PPG Industries, Inc. (PPG) each own 50% of the capital stock of Pittsburgh Corning Corporation (PCC). Over a period of more than two decades, PCC and several other defendants have been named in numerous lawsuits involving claims alleging personal injury from exposure to asbestos. Corning also has an equity interest in Pittsburgh Corning Europe N.V. (PCE), a Belgian Corporation which is a component of the Company's proposed settlement for asbestos litigation. At September 30, 2009 and December 31, 2008, the fair value of PCE significantly exceeded its carrying value of \$122 million and \$112 million, respectively. There have been no impairment indicators for our investment in PCE and we continue to recognize equity earnings of this affiliate. PCC filed for Chapter 11 reorganization in the U.S. Bankruptcy Court for the Western District of Pennsylvania on April 16, 2000. At that time, Corning determined that it lacked the ability to recover the carrying amount of its investment in PCC and its investment was other-than-temporarily impaired. As a result, we reduced our investment in PCC to zero. Refer to Note 3 (Commitments and Contingencies) for additional information about PCC and PCE.

#### *Variable Interest Entities*

Corning leases certain transportation equipment from three Trusts that qualify as variable interest entities under ASC 810 *Consolidation (ASC 810)*. The sole purpose of these entities is to lease transportation equipment to Corning.

For variable interest entities, we assess the terms of our interest in each entity to determine if we are the primary beneficiary as prescribed by ASC 810. Corning has performed the required ASC 810 assessments and has identified three entities as being variable interest entities. None of these entities are considered significant to Corning's consolidated financial statements.

Corning does not have retained interests in assets transferred to an unconsolidated entity that serve as credit, liquidity or market risk support to that entity.

**10. Acquisition**

On September 15, 2009, Corning acquired all of the shares of Axygen Bioscience, Inc. and its subsidiaries from American Capital Ltd. for \$410 million, net of \$7 million cash received. Axygen is a leading manufacturer and distributor of high-quality life sciences plastic consumable labware, liquid handling products, and bench-top laboratory equipment.

The purchase price of the acquisition was allocated to the net tangible and other intangible assets acquired with the remainder recorded as goodwill on the basis of fair value. The following amounts represent preliminary estimates and are subject to revision when valuations are finalized (in millions):

Total current assets	\$ 63
Other tangible assets	49
Other intangible assets	153
Current and non-current liabilities	(80)
Net tangible and intangible assets	\$ 185
Purchase price, including cash received	417
Goodwill (1)	\$ 232

(1) None of the goodwill recognized is deductible for U.S. income tax purposes. The goodwill was allocated to the Life Sciences segment.

Goodwill is primarily related to the value of Axygen's product portfolio and distribution network and its combination with Corning's existing life science platform, as well as synergies and other intangibles that do not qualify for separate recognition. Acquisition-related costs of \$4 million in the three months ended September 30, 2009 included costs for legal, accounting, valuation and other professional services and were included in selling, general and administrative expense in the Consolidated Statements of Income. Supplemental pro forma information was not provided because Axygen is not material to Corning's consolidated financial statements.

**11. Property, Net of Accumulated Depreciation**

Property, net follows (in millions):

	September 30, 2009	December 31, 2008
Land	\$ 101	\$ 71
Buildings	3,442	2,906
Equipment	9,087	8,364
Construction in progress	1,148	1,928
	13,778	13,269
Accumulated depreciation	(5,598)	(5,070)
Total	\$ 8,180	\$ 8,199

In the three months ended September 30, 2009 and 2008, interest costs capitalized as part of property, net, were \$6.3 million and \$6.9 million, respectively. In the nine months ended September 30, 2009 and 2008, interest costs capitalized as part of property, net, were \$24 million and \$20 million, respectively.

Manufacturing equipment includes certain components of production equipment that are constructed of precious metals. At September 30, 2009 and December 31, 2008, the recorded value of precious metals totaled \$1.8 billion. Depletion expense for precious metals in the three months

Edgar Filing: CORNING INC /NY - Form 10-Q

ended September 30, 2009 and 2008 totaled \$4 million in both years. Depletion expense in the nine months ended September 30, 2009 and 2008 totaled \$7 million and \$10 million, respectively.

- 23 -

---

**12. Goodwill and Other Intangible Assets**

Changes in the carrying amount of goodwill for the nine months ended September 30, 2009 are as follows (in millions):

	Telecom- munications	Display Technologies	Specialty Materials	Life Sciences	Total
Balance at December 31, 2008	\$ 118	\$ 9	\$ 150		\$ 277
Acquired Goodwill (1)				\$ 232	\$ 232
Balance at September 30, 2009	\$ 118	\$ 9	\$ 150	\$ 232	\$ 509

- (1) The Company recorded goodwill associated with the purchase of Axygen Bioscience, Inc. in the third quarter 2009. Refer to Note 10 (Acquisition) for additional information.

Other intangible assets follow (in millions):

	September 30, 2009			December 31, 2008		
	Gross	Accumulated Amortization	Net	Gross	Accumulated Amortization	Net
Amortized intangible assets:						
Patents, trademarks, and trade names (1)	\$ 206	\$ 120	\$ 86	\$ 129	\$ 112	\$ 17
Non-competition agreements	99	93	6	98	90	8
Other (1)	80	1	79	5	2	3
Total	\$ 385	\$ 214	\$ 171	\$ 232	\$ 204	\$ 28

- (1) The Company recorded other identifiable intangible assets associated with the purchase of Axygen Bioscience, Inc. in the third quarter 2009. Refer to Note 10 (Acquisition) for additional information.

Amortized intangible assets are primarily related to the Telecommunications and Life Sciences segments.

Estimated amortization expense related to these intangible assets is \$10 million for 2009 and \$7 million thereafter.

**13. Customer Deposits**

In 2005 and 2004, several of Corning's customers entered into long-term purchase and supply agreements in which Corning's Display Technologies segment would supply large-size glass substrates to these customers over periods of up to six years. As part of the agreements, these customers agreed to advance cash deposits to Corning for a portion of the contracted glass to be purchased. Between 2004 and 2007, we received a total of \$937 million for customer deposit agreements. We received our last deposit of \$105 million in 2007 and do not expect to receive additional deposits related to these agreements.

Upon receipt of the cash deposits made by customers, we recorded a customer deposit liability. This liability is reduced at the time of future product sales over the life of the agreements. As product is shipped to a customer, Corning recognizes revenue at the selling price and issues credit memoranda for an agreed amount of the customer deposit liability. The credit memoranda are applied against customer receivables resulting from the sale of product, thus reducing operating cash flows in later periods as these credits are applied for cash deposits received in earlier periods.

During the three and nine months ended September 30, 2009, we issued \$42 million and \$207 million, respectively, in credit memoranda. During the three and nine months ended September 30, 2008, we issued \$64 million and \$202 million, respectively, in credit memoranda.

Customer deposit liabilities were \$152 million and \$369 million at September 30, 2009 and December 31, 2008, respectively, of which \$121 million and \$320 million, respectively, were recorded in the current portion of other accrued liabilities in our consolidated balance sheets. Because these liabilities are denominated in Japanese yen, changes in the balances include the impact of movements in the Japanese yen U.S. dollar exchange rate.

- 24 -

---

## Edgar Filing: CORNING INC /NY - Form 10-Q

In the event customers do not purchase the agreed upon quantities of product, subject to specific conditions outlined in the agreements, Corning may retain certain amounts of the customer deposits. If Corning does not deliver agreed upon product quantities, subject to specific conditions outlined in the agreements, Corning may be required to return certain amounts of customer deposits.

### 14. Employee Retirement Plans

The following table summarizes the components of net periodic benefit cost for Corning's defined benefit pension and postretirement health care and life insurance plans (in millions):

	Pension benefits				Postretirement benefits			
	Three months ended September 30, 2009		Nine months ended September 30, 2009		Three months ended September 30, 2008		Nine months ended September 30, 2008	
Service cost	\$ 12	\$ 12	\$ 35	\$ 39	\$ 2	\$ 3	\$ 8	\$ 9
Interest cost	39	37	117	112	13	12	38	36
Expected return on plan assets	(45)	(49)	(134)	(148)				
Amortization of net loss	8	4	23	11	3	2	8	6
Amortization of prior service cost	2	2	6	7	(1)	(1)	(2)	(3)
Total pension and postretirement benefit expense	\$ 16	\$ 6	\$ 47	\$ 21	\$ 17	\$ 16	\$ 52	\$ 48
Curtailment charge			22				8	
Total expense	\$ 16	\$ 6	\$ 69	\$ 21	\$ 17	\$ 16	\$ 60	\$ 48

Corning and certain of its domestic subsidiaries offer postretirement plans that provide health care and life insurance benefits for retirees and eligible dependents. Certain employees may become eligible for such postretirement benefits upon reaching retirement age and service requirements. In response to rising health care costs, we changed our cost-sharing approach for retiree medical coverage. For current retirees (including surviving spouses) and active employees eligible for the salaried retiree medical program, we placed a cap on the amount we will contribute toward retiree medical coverage in the future. The cap equals 120% of our 2005 contributions toward retiree medical benefits. Once our contributions toward salaried retiree medical costs reach this cap, impacted retirees will have to pay the excess amount in addition to their regular contributions for coverage. This cap was attained for post-65 retirees in 2008 and has impacted their contribution rate in 2009. The pre-65 retirees are expected to trigger the cap in 2011. Further, employees hired or rehired on or after January 1, 2007 will be eligible for Corning retiree medical upon retirement; however, these employees will pay 100% of the cost.

#### Third Quarter

The impact of restructuring actions in the third quarter of 2009 was not significant to the Company's pension and postretirement benefit plans.

#### First Quarter

In the first quarter of 2009, Corning recorded restructuring charges of \$44 million for pension and postretirement benefit plans. This included a curtailment charge of \$30 million for the domestic qualified defined benefit plan (U.S. pension plan) and the domestic postretirement benefit plan. Accordingly, we remeasured the U.S. pension and postretirement benefit plans as of March 31, 2009. The remeasurement resulted in an increase of \$115 million to the Company's U.S. pension liability and a decrease of \$12 million to the domestic postretirement benefit plan liability. As part of the remeasurement, we updated the assumed discount rate for both plans to 6.25%, which reflected a 25 basis point increase from December 31, 2008.

**15. Hedging Activities**

Effective January 1, 2009, Corning adopted ASC 810-10-65-1 Transition Related to SFAS No. 16 *Disclosures about Derivative Instruments and Hedging Activities-an amendment of FASB Statement No. 133* which provides guidance for enhanced disclosures about derivatives. This pronouncement requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of and gains and losses on derivative instruments, and disclosures about credit-risk related contingent features in derivative agreements. The adoption of this standard did not have a material impact on the Company's consolidated results of operation or financial condition.

Corning operates and conducts business in many foreign countries and as a result is exposed to movements in foreign currency exchange rates. The areas in which exchange rate fluctuations affect us include:

Financial instruments and transactions denominated in foreign currencies, which impact earnings; and

The translation of net assets in foreign subsidiaries for which the functional currency is not the U.S. dollar, which impact our net equity.

Our most significant foreign currency exposures relate to the Japanese yen, Korean won, New Taiwan dollar, and the Euro. We selectively enter into foreign exchange forward and option contracts with durations of generally 18 months or less to hedge our exposure to exchange rate risk on foreign source income and purchases. The hedges are scheduled to mature coincident with the timing of the underlying foreign currency commitments and transactions. The objective of these contracts is to neutralize the impact of exchange rate movements on our operating results.

We engage in foreign currency hedging activities to reduce the risk that changes in exchange rates will adversely affect the eventual net cash flows resulting from the sale of products to foreign customers and purchases from foreign suppliers. The hedge contracts reduce the exposure to fluctuations in exchange rate movements because the gains and losses associated with foreign currency balances and transactions are generally offset with gains and losses of the hedge contracts. Because the impact of movements in foreign exchange rates on the value of hedge contracts offsets the related impact on the underlying items being hedged, these financial instruments help alleviate the risk that might otherwise result from currency exchange rate fluctuations.

The following table summarizes the notional amounts and respective fair values of Corning's derivative financial instruments, which mature at varying dates (in millions):

<b>As of September 30, 2009</b>		<b>Asset derivatives</b>		<b>Liability derivatives</b>	
	<b>Notional</b>	<b>Balance</b>	<b>Fair</b>	<b>Balance</b>	<b>Fair</b>
	<b>amount</b>	<b>sheet</b>	<b>value</b>	<b>sheet</b>	<b>value</b>
		<b>location</b>		<b>location</b>	
<b>Derivatives designated as hedging instruments</b>					
Foreign exchange contracts	\$ 155	Other current assets	\$ 1	Other accrued liabilities	\$ (6)
<b>Derivatives not designated as hedging instruments</b>					
Foreign exchange contracts	\$ 1,493	Other current assets	\$ 15	Other accrued liabilities	\$ (42)
Total derivatives	\$ 1,648		\$ 16		\$ (48)

Edgar Filing: CORNING INC /NY - Form 10-Q

Corning uses derivative instruments (forwards and options) to limit exposures to fluctuations related to certain monetary assets, monetary liabilities, and net earnings in foreign currencies. These derivative instruments are not designated as hedging instruments for accounting purposes and, as such, are referred to as undesignated derivatives. Changes in the fair value of undesignated derivatives are recorded in current period earnings in the other income, net component, along with the foreign currency gains and losses arising from the underlying monetary assets or liabilities in the consolidated statement of operations. The notional amount of the undesignated derivatives at September 30, 2009 and December 31, 2008 was \$1.5 billion.

The following tables summarize the effect on the consolidated financial statements relating to Corning's derivative financial instruments, which mature at varying dates (in millions):

<b>Effect of derivative instruments on the consolidated financial statements</b>					
<b>For the three months ended September 30, 2009</b>					
	<b>Gain/(loss)</b>	<b>Location of gain/(loss) reclassified from OCI into income (effective)</b>	<b>Gain/(loss) reclassified from OCI into income (effective)</b>	<b>Location of gain/(loss) related to ineffectiveness &amp; excluded from effectiveness testing</b>	<b>Gain/(loss) related to ineffectiveness &amp; excluded from effectiveness testing</b>
<b>Derivatives in hedging relationships</b>	<b>Gain/(loss) recognized in other comprehensive income (OCI)</b>				
<b>Cash flow hedges</b>					
Foreign exchange contracts	\$ (2)	Cost of sales	\$ 1	Other income/ (expense)	
Foreign exchange contracts		Royalties (1)	\$ (5)	Other income/ (expense)	
Total cash flow hedges	\$ (2)		\$ (4)		\$
<b>Net investment hedges</b>					
Foreign denominated debt	\$ 2				
Total net investment hedges	\$ 2				
		<b>Location of gain/(loss) recognized in income</b>	<b>Gain/(loss) recognized in income</b>		
<b>Undesignated derivatives</b>					
Foreign exchange contracts	Other income/ (expense)		\$ (81)		
Total undesignated			\$ (81)		

(1) Included in this amount is a loss of \$8 million relating to derivatives that were de-designated by the company in the fourth quarter of 2008 for which the amounts recorded in accumulated OCI were determined to still be probable or reasonably possible of occurring as originally forecasted.

Edgar Filing: CORNING INC /NY - Form 10-Q

Effect of derivative instruments on the consolidated financial statements  
For the nine months ended September 30, 2009

Derivatives in hedging relationships	Gain/(loss) recognized in other comprehensive income (OCI)	Location of gain/(loss) reclassified from accumulated OCI into income (effective)	Gain/(loss) reclassified from accumulated OCI into income (effective)	Location of gain/(loss) related to ineffectiveness & excluded from effectiveness testing	Gain/(loss) related to ineffectiveness & excluded from effectiveness testing
<b>Cash flow hedges</b>					
Foreign exchange contracts	\$ 1	Cost of sales	\$ 1	Other income/ (expense)	
Foreign exchange contracts	\$ 6	Royalties (1)	\$ (32)	Other income/ (expense)	\$ (1)
Total cash flow hedges	\$ 7		\$ (31)		\$ (1)
<b>Net investment hedges</b>					
Foreign denominated debt	2				
Total net investment hedges	\$ 2				

Undesignated derivatives	Location of gain/(loss) recognized in income	Gain/(loss) recognized in income
Foreign exchange contracts	Other income/ (expense)	\$ (34)
Total undesignated		\$ (34)

(1) Included in this amount is a loss of \$8 million relating to derivatives that were de-designated by the company in the fourth quarter of 2008 for which the amounts recorded in accumulated OCI were determined to still be probable or reasonably possible of occurring as originally forecasted.

The forward and option contracts we use in managing our foreign currency exposures contain an element of risk in that the counterparties may be unable to meet the terms of the agreements. However, we minimize this risk by limiting the counterparties to a diverse group of highly-rated major domestic and international financial institutions with which we have other financial relationships. We are exposed to potential losses in the event of non-performance by these counterparties; however, we do not expect to record any losses as a result of counterparty default. Neither we nor our counterparties are required to post collateral for these financial instruments.

The amount of ineffectiveness, related to derivatives, at September 30, 2009 was insignificant. The amount of ineffectiveness at December 31, 2008 was a loss of \$19 million.

Cash Flow Hedges

Corning typically has cash flow hedges that are comprised of foreign exchange forward and option contracts. Corning utilizes a regression analysis for the effectiveness analysis of its cash flow hedges, both prospectively and retrospectively.

## Edgar Filing: CORNING INC /NY - Form 10-Q

Corning defers net gains and losses from cash flow hedges into accumulated other comprehensive income on the consolidated balance sheet until such time as the hedged item impacts earnings. At that time, Corning reclassifies net gains and losses from cash flow hedges into the same line item of the consolidated statements of income where the effects of the hedged item are recorded, typically sales, cost of sales, or royalty income. At September 30, 2009, the amount of net losses expected to be reclassified into earnings within the next 12 months was \$1 million.

### Net Investment in Foreign Operations

We have issued foreign currency denominated debt that has been designated as a hedge of the net investment in a foreign operation. The effective portion of the changes in fair value of the debt is reflected as a component of other accumulated comprehensive income (loss) as part of the foreign currency translation adjustment. Net losses related to this investment included in the cumulative translation adjustment at September 30, 2009 and December 31, 2008, were \$143 million, and \$141 million, respectively.

- 28 -

---

**16. Fair Value Measurements**

The following tables provide fair value measurement information for the Company's major categories of financial assets and liabilities measured on a recurring basis (in millions):

	September 30, 2009	Fair Value Measurements at Reporting Date Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
<b>Assets</b>				
Short-term investments	\$ 968	\$ 817	\$ 151	(2)
Other assets	\$ 41		\$ 41	
Derivatives (1)	\$ 16		\$ 16	
<b>Liabilities</b>				
Derivatives (1)	\$ 48		\$ 48	

	December 31, 2008	Fair Value Measurements at Reporting Date Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
<b>Assets</b>				
Short-term investments	\$ 943	\$ 531	\$ 412	(2)
Other assets	\$ 40		\$ 40	
Derivatives (1)	\$ 22		\$ 22	
<b>Liabilities</b>				
Derivatives (1)	\$ 81		\$ 81	

- (1) Derivative assets and liabilities include foreign exchange contracts which are measured using observable quoted prices for similar assets and liabilities.
- (2) Short-term investments are measured using observable quoted prices for similar assets.

The FASB deferred implementation of ASC 820 Fair Value Measurements and Disclosures (ASC 820) for certain assets and liabilities that are measured at fair value on a non-recurring basis until 2009. Corning adopted ASC 820, effective January 1, 2009, as it relates to certain non-financial assets and liabilities. Corning's assets and liabilities that are measured at fair value on a non-recurring basis include long-lived assets, goodwill, asset retirement obligations, cost and equity investments. These items are recognized at fair value when they are considered to be other than temporarily impaired. In the third quarter of 2009, there were no required fair value measurements for assets and liabilities measured at fair value on a non-recurring basis and no required additional disclosures resulting from adoption of this standard.

**17. Share-based Compensation****Stock Compensation Plans**

The Company measures and recognizes compensation cost for all share-based payment awards made to employees and directors, including grants of employee stock options and employee stock purchases related to the Worldwide Employee Share Purchase Plan (WESPP), based on estimated fair values.

Share-based compensation cost was approximately \$97 million and \$104 million for the nine months ended September 30, 2009 and 2008, respectively, and approximately \$30 and \$26 million for the three months ended September 30, 2009 and 2008, respectively, and included (1) employee stock options, (2) time-based restricted stock, (3) performance-based restricted stock and restricted stock units, and (4) WESPP shares.

- 29 -

---

**Stock Options**

Our stock option plans provide non-qualified and incentive stock options to purchase authorized but unissued shares or treasury shares at the market price on the grant date and generally become exercisable in installments from one to five years from the grant date. The maximum term of non-qualified and incentive stock options is 10 years from the grant date.

The following table summarizes information concerning options outstanding including the related transactions under the option plans for the nine months ended September 30, 2009:

	Number of Shares (in thousands)	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term in Years	Aggregate Intrinsic Value (in thousands)
Options Outstanding as of December 31, 2008	89,630	\$ 26.92		
Granted	9,550	\$ 10.34		
Exercised	(1,273)	\$ 7.72		
Forfeited and Expired	(1,394)	\$ 16.96		
Options Outstanding as of September 30, 2009	96,513	\$ 25.68	4.61	\$ 299,025
Options Exercisable as of September 30, 2009	76,226	\$ 28.60	3.48	\$ 222,741

The aggregate intrinsic value (market value of stock less option exercise price) in the preceding table represents the total pretax intrinsic value, based on the Company's closing stock price on September 30, 2009, which would have been received by the option holders had all option holders exercised their options as of that date.

As of September 30, 2009, there was approximately \$47 million of unrecognized compensation cost related to stock options granted under the Plan. The cost is expected to be recognized over a weighted-average period of 2 years. Compensation cost related to stock options was approximately \$50 million and \$53 million for the nine months ended September 30, 2009 and 2008, respectively, and approximately \$15 million and \$14 million for the three months ended September 30, 2009 and 2008, respectively.

Proceeds received from the exercise of stock options were \$8 million and \$79 million for the nine months ended September 30, 2009 and 2008, respectively, and \$4 million and \$5 million for the three months ended September 30, 2009, and 2008, respectively. Proceeds received from the exercise of stock options were included in financing activities on the Company's Consolidated Statements of Cash Flows. The total intrinsic value of options exercised for the nine months ended September 30, 2009 and 2008 was approximately \$9 million and \$124 million, respectively, and \$4 million for the three months ended September 30, 2009 and 2008, which is currently deductible for tax purposes. However, these tax benefits were not realized due to net operating loss carryforwards available to the Company. Refer to Note 5 (Income Taxes) for additional information.

A lattice-based valuation model is used to estimate the fair values of option grants and incorporates the assumptions (including ranges of assumptions) noted in the table below. Expected volatility is based on the blended short-term volatility (the arithmetic average of the implied volatility and the short-term historical volatility), and the long-term historical volatility of Corning's stock.

Corning also uses historical data to estimate future option exercise and employee termination within the valuation model. Separate groups of employees that have similar historical exercise behavior are considered separately for valuation purposes. The expected time to exercise of

## Edgar Filing: CORNING INC /NY - Form 10-Q

options granted is derived using a regression model and represents the period of time that options granted are expected to be outstanding. The range given below results from certain groups of employees which exhibit different behavior. The risk-free rates used in the lattice model are derived from the U.S. Treasury yield curve in effect from the grant date to the option's expiration date. Since period-by-period calculations are employed in the lattice model, Corning uses risk-free rates that apply from one period to the next, generally quarter to quarter. Such rates are typically referred to as forward rates. Being essentially marginal rates, forward rates both vary during the contractual term of the option and exhibit greater variation than the yield curve from which they are derived.

- 30 -

---

## Edgar Filing: CORNING INC /NY - Form 10-Q

The following inputs for the lattice-based valuation model were used for option grants under our Stock Option Plans:

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2009	2008	2009	2008

### Incentive Stock Plans

The Corning Incentive Stock Plan permits stock grants, either determined by specific performance goals or issued directly, in most instances, subject to the possibility of forfeiture and without cash consideration. Shares under the Incentive Stock Plan are generally granted at the money, contingently vest over a period of 1 to 10 years, and have contractual lives of 1 to 10 years.

The fair value of each restricted stock grant under the Incentive Stock Plans was estimated on the date of grant for performance based grants assuming that performance goals will be achieved. The expected term for grants under the Incentive Stock Plans is 1 to 10 years.

### Time-Based Restricted Stock:

Time-based restricted stock is issued by the Company on a discretionary basis, and is payable in shares of the Company's common stock upon vesting. The fair value is based on the market price of the Company's stock on the grant date. Compensation cost is recognized over the requisite vesting period and adjusted for actual forfeitures before vesting.

The following table represents a summary of the status of the Company's nonvested time-based restricted stock as of December 31, 2008, and changes during the nine months ended September 30, 2009:

	Shares	Weighted-Average Grant-Date Fair Value
	(000 s)	
Nonvested shares at December 31, 2008	2,065	\$ 21.01
Granted	537	15.02
Vested	(198)	23.67
Forfeited	(5)	48.08
Nonvested shares at September 30, 2009	2,399	\$ 19.45

As of September 30, 2009, there was approximately \$24 million of unrecognized compensation cost related to non-vested time-based restricted stock compensation arrangements granted under the Plan. The cost is expected to be recognized over a weighted-average period of 3.2 years. Compensation cost related to time-based restricted stock was approximately \$10 million and \$8 million for the nine months ended September 30, 2009 and 2008, respectively, and \$2 million and \$3 million for the three months ended September 30, 2009 and 2008, respectively.

Performance-Based Restricted Stock and Restricted Stock Units:

Performance-based restricted stock and restricted stock units are earned upon the achievement of certain targets, and are payable in shares of the Company's common stock upon vesting, typically over a three-year period. The fair value is based on the market price of the Company's stock on the grant date and assumes that the target payout level will be achieved. Compensation cost is recognized over the requisite vesting period and adjusted for actual forfeitures before vesting. During the performance period, compensation cost may be adjusted based on changes in the expected outcome of the performance-related target.

The following table represents a summary of the status of the Company's nonvested performance-based restricted stock and restricted stock units as of December 31, 2008, and changes during the nine months ended September 30, 2009:

	Shares	Weighted- Average Grant-Date Fair Value
	(000 s)	
Nonvested restricted stock and restricted stock units at December 31, 2008	8,942	\$ 15.51
Granted		
Vested	(2,381)	20.98
Forfeited	(157)	14.30
Nonvested restricted stock and restricted stock units at September 30, 2009	6,404	\$ 13.50

As of September 30, 2009, there was approximately \$34 million of unrecognized compensation cost related to non-vested performance-based restricted stock and restricted stock units compensation arrangements granted under the Plan. The cost is expected to be recognized over a weighted-average period of 2.0 years. Compensation cost related to performance-based restricted stock and restricted stock units was approximately \$34 million and \$40 million for the nine months ended September 30, 2009 and 2008, respectively, and \$12 million and \$8 million for the three months ended September 30, 2009 and 2008, respectively.

**Worldwide Employee Stock Purchase Plan**

In addition to the Stock Option Plan and Incentive Stock Plans, we have a Worldwide Employee Share Purchase Plan (WESPP). Under the WESPP, substantially all employees can elect to have up to 10% of their annual wages withheld to purchase our common stock. The purchase price of the stock is 85% of the end-of-quarter closing market price. Compensation cost related to the WESPP for all periods presented is immaterial.

**18. Comprehensive Income**

Components of comprehensive income, on an after-tax basis where applicable, follow (in millions):

	Three months ended		Nine months ended	
	September 30, 2009 (1)	2008 (1)	September 30, 2009 (1)	2008 (1)
Net income	\$ 648	\$ 768	\$ 1,274	\$ 5,007
Other comprehensive income:				
Change in unrealized loss on investments without credit loss, net	6	(9)	11	(31)
Change in unrealized loss on investments with credit loss, net			3	
Change in unrealized gain on derivative hedging instruments, net	(29)	(6)	25	(10)
Reclassification adjustment relating to derivatives, net	33	16	1	22
Foreign currency translation adjustment, net	530	(491)	313	(369)
Amortization of postretirement benefit plan losses, net	9	35	(1)	48
Other, net (2)	14	(23)	25	(39)
Comprehensive income	\$ 1,211	\$ 290	\$ 1,651	\$ 4,628
Comprehensive income attributable to noncontrolling interests	(5)		(6)	1
Comprehensive income attributable to Corning	\$ 1,206	\$ 290	\$ 1,645	\$ 4,629

- (1) Other comprehensive income items for the three and nine months ended September 30, 2009 include net tax effects of \$(12) million and \$(16) million, respectively, and \$(4) million for the three and nine months ended September, 2008. Refer to Note 5 (Income Taxes) for an explanation of Corning's tax paying position.
- (2) Other, net includes unrealized gain of \$14 million and \$25 million for the three and nine months, respectively, ended September 30, 2009 and unrealized losses of \$23 million and \$39 million for the three and nine months ended September 30, 2008, respectively, related to the temporary impairment of auction rate securities held by Dow Corning Corporation. Refer to Note 9 (Investments) for additional information.

**19. Significant Customers**

For the three months ended September 30, 2009, Corning's sales to AU Optronics Corporation (AUO), a customer of our Display Technologies segment, represented 14% of the Company's consolidated net sales. For the three months ended September 30, 2008, Corning's sales to AU Optronics Corporation (AUO) and Chi Mei Optoelectronics Corporation (Chi Mei), two customers of our Display Technologies segment, represented 11% and 10%, respectively, of the Company's consolidated net sales.

For the nine months ended September 30, 2009, Corning's sales to AUO represented 14% of the Company's consolidated net sales. For the nine months ended September 30, 2008, Corning's sales to AUO and Chi Mei, represented 12% and 11%, respectively, of the Company's consolidated net sales.

## 20. Operating Segments

Our reportable operating segments are as follows:

Display Technologies manufactures liquid crystal display (LCD) glass for flat panel displays.

Telecommunications manufactures optical fiber and cable and hardware and equipment components for the telecommunications industry.

Environmental Technologies manufactures ceramic substrates and filters for automotive and diesel applications. This reportable operating segment is an aggregation of our Automotive and Diesel operating segments as these two segments share similar economic characteristics, products, customer types, production processes and distribution methods.

Specialty Materials manufactures products that provide more than 150 material formulations for glass, glass ceramics and fluoride crystals to meet demand for unique customer needs.

Life Sciences manufactures glass and plastic consumables for scientific applications.

All other operating segments that do not meet the quantitative threshold for separate reporting are grouped as All Other. This group is primarily comprised of development projects and results for new product lines.

We prepared the financial results for our reportable segments on a basis that is consistent with the manner in which we internally disaggregate financial information to assist in making internal operating decisions. We included the earnings of equity affiliates that are closely associated with our operating segments in the respective segment's net income. We have allocated certain common expenses among segments differently than we would for stand-alone financial information prepared in accordance with GAAP. Segment net income may not be consistent with measures used by other companies. The accounting policies of our reportable segments are the same as those applied in the consolidated financial statements.

Effective January 1, 2009, we began providing U.S. income tax expense (or benefit) on U.S. earnings (losses) due to the change in our conclusion about the realizability of our U.S. deferred tax assets in 2008. As a result of the change in our tax position, we adjusted the allocation of taxes to our operating segments in 2009 to reflect this difference. The impact of this change was not significant.

## Edgar Filing: CORNING INC /NY - Form 10-Q

- (1) Depreciation expense for Corning's reportable segments includes an allocation of depreciation of corporate property not specifically identifiable to a segment.
- (2) Research, development, and engineering expense includes direct project spending which is identifiable to a segment.
- (3) Many of Corning's administrative and staff functions are performed on a centralized basis. Where practicable, Corning charges these expenses to segments based upon the extent to which each business uses a centralized function. Other staff functions, such as corporate finance, human resources and legal are allocated to segments, primarily as a percentage of sales. In the nine months ended September 30, 2008, net income of the Display Technologies segment included a \$12 million litigation settlement charge. In the three and nine months ended September 30, 2008, net loss of the All Other segment included a \$14 million loss on the sale of Corning's Steuben glass business.

## Edgar Filing: CORNING INC /NY - Form 10-Q

A reconciliation of reportable segment net income to consolidated net income follows (in millions):

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2009	2008	2009	2008
Net income of reportable segments	\$ 618	\$ 685	\$ 1,335	\$ 2,150
Non-reportable segments	(17)	(54)	(51)	(118)
Unallocated amounts:				
Net financing costs (1)	(35)	4	(86)	17
Stock-based compensation expense	(30)	(26)	(97)	(104)
Exploratory research	(15)	(17)	(46)	(52)
Corporate contributions	(8)	(8)	(23)	(26)
Equity in earnings of affiliated companies, net of impairments (2)	96	112	160	294
Asbestos settlement (3)	(6)	(6)	(15)	312
Other corporate items (4)	40	78	91	2,535
Net income	\$ 643	\$ 768	\$ 1,268	\$ 5,008

- (1) Net financing costs include interest income, interest expense, and interest costs and investment gains associated with benefit plans.
- (2) Represents the equity earnings of Dow Corning Corporation. In the nine months ended September 30, 2009, equity earnings of affiliated companies, net of impairments includes a charge of \$29 million representing restructuring charges at Dow Corning Corporation. In the three and nine months ended September 30, 2008, equity earnings of affiliated companies, net of impairments includes a charge of \$18 million representing an other-than-temporary impairment of auction rate securities at Dow Corning.
- (3) In the three and nine months ended September 30, 2009, Corning recorded charges of \$6 million and \$15 million, respectively, to adjust the asbestos liability for the change in value of certain components of the Amended PCC Plan and the estimated liability for non-PCC asbestos claims. In the three and nine months ended September 30, 2008, Corning recorded a charge of \$6 million and \$15 million, respectively, to adjust the asbestos liability for the change in value of certain components of the Amended PCC Plan and the estimated liability for non-PCC asbestos claims. In the first quarter of 2008, Corning reduced its liability for asbestos litigation by \$327 million as a result of the increase in the likelihood of a settlement under recently proposed terms and a corresponding decrease in the likelihood of a settlement under terms established in 2003.
- (4) In the three and nine months ended September 30, 2009, other corporate items included \$12 million (\$8 million after-tax) and \$80 million (\$52 million after-tax) of restructuring charges, respectively. In the three months ended September 30, 2008, Corning released an additional \$70 million of valuation allowance on our U.S. deferred tax assets as a result of a change in our estimate regarding 2008 U.S. taxable income. Also, in the three months ended September 30, 2008, Corning recorded a \$43 million gain related to a favorable tax settlement with the Canadian Revenue Agency. In the three and nine months ended September 30, 2008, Corning recorded net losses of \$39 million on short-term investments. In the nine months ended September 30, 2008, Corning recorded a \$2.4 billion tax benefit from the release of a valuation allowance on U.S. tax benefits due to sustained profitability and positive future earnings projections for U.S. entities.

In the Display Technologies operating segment, assets increased from \$7.9 billion at December 31, 2008 to \$8.9 billion at September 30, 2009. The increase is due primarily to an increase in investments due to earnings from Samsung Corning Precision of approximately \$800 million and an increase of \$70 million related to translation adjustment for the nine months ended September 30, 2009.

The sales of each of our reportable operating segments are concentrated across a relatively small number of customers. In the third quarter of 2009, the following number of customers, which individually accounted for 10% or more of each segment's sales, represented the following concentration of segment sales:

In the Display Technologies segment, three customers accounted for 60% of total segment sales.

In the Telecommunications segment, one customer accounted for 11% of total segment sales.

In the Environmental Technologies segment, three customers accounted for 88% of total segment sales.

In the Specialty Materials segment, there were no customers that accounted for 10% or more of total segment sales.

In the Life Sciences segment, one customer accounted for 35% of total segment sales.

For the nine months ended September 30, 2009, the following number of customers, which individually accounted for 10% or more of each segment's sales, represented the following concentration of segment sales:

In the Display Technologies segment, three customers accounted for 65% of total segment sales.

In the Telecommunications segment, two customers accounted for 22% of total segment sales.

In the Environmental Technologies segment, three customers accounted for 87% of total segment sales.

In the Specialty Materials segment, there were no customers that accounted for 10% or more of total segment sales.

In the Life Sciences segment, one customer accounted for 39% of total segment sales.

## Edgar Filing: CORNING INC /NY - Form 10-Q

A significant amount of specialized manufacturing capacity for our Display Technologies segment is concentrated in Taiwan, Japan, and Korea. It is possible that the Company's facilities located in these countries could be disrupted. Due to the scale and specialized nature of the assets, it would not be possible to find replacement capacity quickly. Accordingly, disruption at these facilities would produce a near-term severe impact to our Display Technologies segment and the Company as a whole. In the third quarter of 2009, an earthquake halted production at one of the Company's liquid crystal display glass manufacturing facilities in Japan. Production capacity in Taiwan and our ability to quickly resume some manufacturing in Japan helped to ease the impact of the disruption.

---

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

**ORGANIZATION OF INFORMATION**

Management's Discussion and Analysis provides a historical and prospective narrative on the Company's financial condition and results of operations. The discussion includes the following sections:

- Overview
- Results of Operations
- Operating Segments
- Liquidity and Capital Resources
- Critical Accounting Estimates
- New Accounting Standards
- Environment
- Forward Looking Statements

**OVERVIEW**

Corning's results for the third quarter of 2009 reflected the continued effects of the global economic recession and the impact of a disruption at one of our manufacturing facilities offset by the positive impact of movements in foreign exchange rates. Although results for most of our operating segments were down when compared to last year, the rate of decline has slowed. In August, an earthquake halted production at one of the Company's liquid crystal display (LCD) glass manufacturing facilities in Japan. Production capacity in Taiwan and our ability to quickly resume some manufacturing in Japan helped to ease the impact of the disruption.

In comparison to the second quarter of 2009, results improved in a number of segments. Continued strength in demand for the Company's LCD glass products contributed to the performance of the Display Technologies segment and government incentives drove improvements in the Environmental Technologies segment. Results in the Telecommunications segment continued to reflect the strength in demand for optical fiber and cable products in China. We also saw an increase in demand at Dow Corning Corporation, our equity affiliate which manufactures silicone products worldwide when compared to the previous quarter.

In the third quarter of 2009, Corning acquired Axygen BioScience, Inc. (Axygen) for \$410 million, net of \$7 million cash received. The acquisition of Axygen, which will be integrated into the Life Sciences operating segment, supports the Company's strategy to expand Corning's portfolio of life sciences products and enhance global customer access in this business.

The Company's year-to-date results included restructuring charges of \$175 million primarily for costs associated with workforce reductions in the first quarter of 2009 in all of our operating segments as we scaled back manufacturing operations, curbed the rate of growth in research, development, and engineering expenses, reduced capital spending, and reduced operating costs. We also recorded \$29 million for our share of restructuring charges at Dow Corning in the first quarter of 2009.

Our key priorities for 2009 remain similar to those from the previous four years: protect our financial health and invest in the future. During the third quarter of 2009, we made the following progress toward our priorities:

***Protecting Financial Health***

Our balance sheet remains strong, and we generated positive cash flow from operating activities.

Our debt to capital ratio of 12% at September 30, 2009 remains low. The increase from 11% at December 31, 2008 primarily reflected the impact of \$350 million of senior unsecured notes that were issued in the second quarter of 2009 for general corporate purposes.

Operating cash flow in the nine months ended September 30, 2009 was \$1.2 billion.

We ended the third quarter of 2009 with \$2.9 billion of cash, cash equivalents and short-term investments, well above our debt balance of \$2.0 billion.

## Edgar Filing: CORNING INC /NY - Form 10-Q

For the three months ended September 30, 2009, we generated net income of \$643 million or \$0.41 per share compared to net income of \$768 million or \$0.49 per share for the same period in 2008. When compared to the same period last year, the decrease in net income was due largely to the following items:

Lower net income in the Display Technologies segment driven by lower prices and approximately \$20 million of costs associated with the earthquake in Japan.

The absence of a \$70 million valuation allowance release on deferred tax assets last year resulting from a change in estimate of full-year income.

The absence of a \$43 million benefit related to a favorable tax settlement with the Canadian Revenue Agency.

The decrease in net income for the three months ended September 30, 2009, was offset somewhat by \$102 million from the positive impact of movements in foreign exchange rates when compared to the same period last year.

For the nine months ended September 30, 2009, we reported net income of \$1.3 billion or \$0.81 per share compared with \$5.0 billion or \$3.15 per share for the same period in 2008. When compared to the same period last year, the decrease in net income was due largely to the following items:

The absence of a \$2.4 billion valuation allowance release on our deferred tax assets resulting from a change in judgment about the realizability of deferred tax assets in future years.

The absence of a credit to asbestos litigation expense of \$312 million reflecting a change in the estimate of our asbestos settlement liability compared to expense of \$15 million reported in the current year.

Lower net income in the Display Technologies segment due to lower volume and lower prices.

The decrease in net income for the nine months ended September 30, 2009, was offset somewhat by \$256 million from the positive impact of movements in foreign exchange rates and lower operating expenses resulting from the Company's restructuring activities in the first quarter of 2009 when compared to the same periods last year. For additional information on the release of valuation allowances in 2008, refer to Note 5 (Income Taxes) to the consolidated financial statements. For additional information on asbestos litigation, refer to Note 3 (Commitments and Contingencies) to the consolidated financial statements and Part II Other Information, Item 1. Legal Proceedings.

### *Investing In Our Future*

We continue to focus on the future and on what we do best – creating and making keystone components that enable high-technology systems. We remain committed to investing in research, development, and engineering to drive innovation and continue to work on technologies for glass substrates for active matrix LCD glass substrates, diesel filters and substrates in response to tightening emissions control standards, and the optical fiber and cable and hardware and equipment that enable fiber-to-the-premises. We continue to make investments in promising technologies such as the Epic system, synthetic green lasers, silicon-on-glass, advanced flow reactors, thin-film photovoltaics, and mercury abatement.

Our research, development and engineering expenses for the three and nine months ended September 30, 2009, were lower when compared to the same periods last year. Reduced spending in both periods presented was driven primarily by the impact of restructuring actions taken in the first quarter of 2009 and cost reduction efforts. Expenses in the third quarter were also favorably impacted by research and development services provided to Corsam Technologies LLC (Corsam) in 2009 when compared to the same periods last year. Refer to Note 9 (Investments) to the consolidated financial statements for additional information about Corsam and related party transactions.

## Edgar Filing: CORNING INC /NY - Form 10-Q

Capital spending totaled \$727 million and \$1.2 billion for the nine months ended September 30, 2009 and 2008, respectively. Spending in the third quarter of 2009 was driven primarily by projects in our Display Technologies segment. We expect our 2009 capital spending to be about \$1.0 billion. Approximately \$600 million will be directed toward our Display Technologies segment, of which about \$525 million relates to construction completed in 2008.

- 39 -

---

*Corporate Outlook*

Although our outlook is favorable, we believe our sales and profitability will continue to be negatively impacted by global economic conditions for the remainder of the year. In mid-October, production at the Company's LCD glass manufacturing facility in Taichung was impacted by a power disruption. Prior to the impact of the power disruption, we anticipated volume at our wholly-owned business in our Display Technologies segment in the fourth quarter to be up 5% when compared to the third quarter. We now expect this volume to be flat to down slightly. We continue to assess the levels of recovery in certain of our businesses and we may incur further charges to reduce our workforce and consolidate capacity where necessary. We will continue to focus on preserving cash, controlling our costs, and accelerating new products while maintaining our emphasis on research and development investments for longer term growth. We may take advantage of acquisition opportunities that support the long-term strategies of our businesses, such as our recent purchase of Axygen. We remain confident that our strategy to grow through global innovation while preserving our financial stability will enable our continued long-term success.

**RESULTS OF OPERATIONS**

Selected highlights for the third quarter follow (dollars in millions):

	Three months ended		%	Nine months ended		%
	September 30, 2009	2008		September 30, 2009	2008	
			Change 09 vs. 08			Change 09 vs. 08
Net sales	\$ 1,479	\$ 1,555	(5)%	\$ 3,863	\$ 4,864	(21)%
Gross margin	\$ 599	\$ 735	(19)%
