Item 2.01 Completion of Acquisition or Disposition of Assets.

On April 20, 2008, EMCORE Corporation (the “Company”) completed its previously announced acquisition of the enterprise and storage assets of Intel Corporation’s (“Seller”) Optical Platform Division as well as the Intel® Connects Cables business. The assets include intellectual property, inventory, fixed assets and technology relating to optical transceivers for enterprise and storage customers, as well as optical cable interconnects for high-performance computing clusters.

As consideration for the purchase of the assets of Seller by the Company in accordance with the Agreement, the Company issued 3.7 million restricted shares of the Company’s common stock to Seller. In addition, the Company may be required to make an additional payment to Seller based on the Company’s stock price twelve months after the closing of the transaction. In the event that the Company is required to make an additional payment, it has the option to make that payment in cash, its common stock or both (not to exceed the equivalent of 1.3 million shares).

The parties have entered into a transition services agreement under which Seller will provide selected services to the Company for a limited period after closing. The parties have also entered into an intellectual property agreement under which Seller will license, subject to certain conditions, certain related intellectual property to the Company in connection with the Company’s use and development of the assets being transferred to it.

The Company issued a press release in connection with the completion of the acquisition. The press release is attached to this Current Report on Form 8-K as exhibit 99.1 and is incorporated herein by reference thereto.
