PROXY STATEMENT

February 27, 2015

This statement is furnished in connection with the solicitation by the Board of Directors of General American Investors Company, Inc. (hereinafter called the “Company” or the “Corporation”) of proxies to be used at the annual meeting of stockholders of the Company, to be held at The Century Association, 7 West 43rd Street, New York City, N.Y., on Wednesday, April 15, 2015 at 11:00 a.m. (and at any adjournments or postponements thereof) for the purposes set forth in the accompanying Notice of Annual Meeting of Stockholders. Stockholders who execute proxies retain the right to revoke them at any time, insofar as they have not been exercised, by written notice to the Secretary of the Company or by attending the Annual Meeting and taking action to revoke such proxies.

THIS IS A VERY IMPORTANT ANNUAL MEETING OF STOCKHOLDERS OF THE COMPANY. Notwithstanding the con-tinued strong performance of the Company, we expect that an institutional stockholder, Opportunity Partners L.P. (“Opportunity Partners”), will solicit proxies for the election of three individuals as directors of the Company, for the purpose of replacing three long-standing and experienced current Directors, and for a proposal to amend the By-Laws of the Company. Your Board strongly believes that Opportunity Partners’ proposals are only in its self-interest, not the interests of all stockholders, that the approval of its proposals could adversely affect the Company’s investment operations and performance, and could ultimately result in a forced liquidation of the Company, all to the detriment of long-term investors. Based on public filings, the managing general partner of Opportunity Partners is Phillip Goldstein. Mr. Goldstein is also the chairman of the proponent, which refers to itself as “an activist investor”, behind a non-binding proposal that the Company authorize a self-tender for all of the Company’s outstanding shares, item (C) on the agenda. A vote for Opportunity Partners’ proposals furthers the destabilizing motives of this activist. We believe that our Director nominees are far better qualified and will better serve the interests of all of our stockholders.

Your Board is also opposed to a proposal to amend the Company’s By-Laws to give access to its proxy statement. While we have not been advised as to the rationale for this proposal, based on what we know, this proposal would ignore the effective voice stock-holders already have, undercut the critical role of our independent Nominating Committee, and would introduce an unnecessary and potentially destabilizing, Company-financed dynamic into the Board election process. In short, the proposal, if made and approved, would create problems and risks that could cause considerable harm to our Company.

Failure to return your proxy to the Company or to give instructions to your broker to return your proxy could facilitate the approval of Opportunity Partners’ proposals. Please do not return any proxy solicited by or on behalf of Opportunity Partners. It could nullify your vote for items (A) and (C).

The close of business on February 17, 2015 has been fixed as the record date for the determination of the stockholders entitled to notice of, and to vote at, the meeting.

Proxies returned will be voted in accordance with the instructions thereon or, if no instructions are indicated, in favor of the nominees named herein, to approve the appointment of Ernst & Young LLP as auditors, and against the non-binding shareholder proposal herein.

As of February 17, 2015, the Company had outstanding [•] shares of Common Stock, \$1 par value, and 7,604,687 shares of 5.95% Cumulative Preferred Stock, Series B ("Preferred Stock"), \$1 par value, each share carrying one vote.

This proxy statement, form of proxy and Annual Report of the Company, including audited financial statements for the fiscal year ended December 31, 2014, are enclosed in this mailing and are being mailed to stockholders on or about February 27, 2015. The Company will provide, without charge, additional copies of the Annual Report to any stockholder upon request by calling Maureen E. LoBello, Corporate Secretary of the Company, at 1-800-436-8401.

The Company intends to treat properly executed proxies that are marked "abstain" or "withhold," including "broker non-votes" (that is, a proxy from a broker or nominee indicating that such person has not received instructions from the beneficial owner or other person entitled to vote shares on a particular matter with respect to which the broker or nominee does not have discretionary power), as present for purposes of determining the existence of a quorum for the transaction of business. A quorum will consist of a majority of the shares of stock of the Company entitled to vote on a matter at the meeting, present in person or represented by proxy. The election of the Company's directors requires a plurality of the votes of the shares present or represented by proxy at the meeting and entitled to vote on the election. In the election of directors, votes may be cast in favor of or withheld with respect to any or all nominees; votes that are withheld and broker non-votes will be excluded entirely from the vote and will have no effect

on the outcome of the vote. The affirmative vote of the holders of a majority of the outstanding shares present in person or represented by proxy and entitled to vote on the matter is required to ratify the appointment of Ernst & Young LLP. In accordance with Delaware law, only votes cast “for” a matter constitute affirmative votes. Accordingly, votes that are withheld or abstentions from voting are not votes cast “for” a particular matter, and such votes have the same effect as negative votes or votes “against” a particular matter. Because of the routine nature of item (B) presented in this proxy statement, relating to the ratification of the appointment of the auditors, the rules of The New York Stock Exchange, Inc. permit member brokers who do not receive instructions from their customers who are beneficial owners of the Company’s shares to vote their customers’ shares on this item of business. However, in the case of items (A) and (C) presented in this proxy statement, relating to the election of directors in the context of a proxy contest and a non-binding shareholder proposal, such rules prohibit member brokers who do not receive instructions from their customers from voting their customers’ shares on these items.

A. Respecting the Election of Directors

At the meeting, ten directors are to be elected to hold office until the annual meeting of stockholders next ensuing after their election and until their respective successors are elected and shall have qualified. Eight directors are to be elected by the holders of both the Company’s Common Stock and its Preferred Stock, voting together as a single class, and two directors are to be elected only by the holders of the Company’s Preferred Stock. Directors are to be elected by a plurality of the vote of shares present in person or represented by proxy at the meeting and entitled to vote on directors. Stockholders vote at the meeting by casting ballots (in person or by proxy) which are tabulated by one or two persons, appointed at the meeting, who serve as Inspectors of Election at the meeting and who execute an oath to discharge their duties. It is the intention of the persons named in the accompanying form of proxy to nominate and to vote such proxy for the election of persons named below or, if any such persons should be unable to serve, for the election of such other person or persons as shall be determined by the persons named in the proxy in accordance with their judgment. All of the ten persons named below are incumbent directors and all have agreed to serve if elected. Information in the following table is as of December 31, 2014.

1 The address of each director is: c/o General American Investors Company, Inc., 100 Park Avenue, 35th Floor, New York, NY 10017.

2 Each director is elected for a one year term of office.

3 Messrs. Altschul and Troubh have been designated as the Preferred Stock directors and are to be elected only by the holders of the Company's Preferred Stock.

4 Medicis Pharmaceutical Corporation was acquired by and merged into Valeant Pharmaceuticals International in 2012.

5 Insight Communications Company, Inc. was acquired by and became a wholly owned subsidiary of Time Warner Cable Inc. in 2012.

6 Vocollect, Inc. was acquired by Intermecc Technologies Corp. in 2011.

As we indicated previously, the Company was recently notified that an institutional stockholder, Opportunity Partners L.P. ("Opportunity Partners"), intends to send you a proxy statement and solicit your vote with regard to its proposal to elect three of its own nominees as Directors of the Company. Based upon information referenced by Opportunity Partners with respect to its proposed nominees, your Board believes that, through their qualifications and experience, all of the Board's ten nominees will better serve the interests of all of our stockholders than any of the nominees of Opportunity Partners. Potentially adversarial involvement by the three Opportunity Partners nominees for Directors will not, in the opinion of the Board, in any way compare with the value the Board's nominees have contributed and will continue to contribute to the Company.

The Board of Directors believes that each Director's experience, qualifications, attributes and skills on an individual basis and in combination with those of other Directors lead to the conclusion that each Director should continue to serve in such capacity. Among the attributes and skills common to all Directors are their ability to critically review, evaluate, question, and discuss information; to interact effectively with the other Directors, counsel, the Fund's independent registered public accounting firm, and other service providers; and to exercise effective and independent business judgment in the performance of their duties as Directors. Each Director's ability to perform his/her duties effectively has been attained in large part through the Director's education; business, consulting or public service positions; and through their experience from service as a member of the Company's Board of Directors, and that of other public companies, non-profit entities, or other organizations as indicated.

Directors - Leadership Structure and Oversight Responsibilities

Overall responsibility for oversight of the Company rests with the Board of Directors. The Board of Directors has appointed Mr. Knafel as the Lead Independent Director. The Lead Independent Director presides over executive sessions of the Board of Directors, serves between meetings of the Board of Directors as a liaison with other Directors, officers of the Company, counsel, and service providers, as necessary, on a variety of matters. Mr. Knafel, in conjunction with Mr. Davidson, also oversee the scheduling of agenda items and subject matter included for discussion at the Board of Directors meetings. Designation as such does not impose on the Lead Independent Director any obligations or standards greater than or different from the other Directors. The Board of Directors has established Audit, Compensation, Executive, Nominating and Pension Committees to assist the Board of Directors in the oversight and management of the Company. From time to time the Board of Directors may establish additional committees or informal working groups, to deal with specific matters.

All of the Company's Directors, other than Mr. Priest, are independent Directors, and the Board of Directors believes they are able to provide effective oversight of the Company. In addition to providing feedback and direction during Board of Directors meetings, the Directors meet regularly in executive session and independent Directors chair all committees of the Board of Directors.

The Company's operations entail a variety of risks including investment, administration, valuation, and a range of compliance matters. Although the officers and employees of the Company are responsible for managing these risks on a day-to-day basis within the framework of their established risk management functions, the Board of Directors is responsible for and oversees the risk management processes of the Company. As part of its oversight process, the Board of Directors reviews with officers at Board meetings the levels and types of risks being undertaken by the Company, and the Audit Committee discusses the Company's risk management and controls with the independent registered public accounting firm engaged by the Company. The Board of Directors reviews valuation policies and procedures and the valuations of specific illiquid securities. The Board of Directors also receives periodic reports from the Company's Chief Compliance Officer regarding compliance matters relating to the Company and its major service providers, including results of the implementation and testing of the Company's and such providers' compliance programs. The Board of Directors reviews its role in supervising the Company's risk management from time to time and may make changes at its discretion.

The Board of Directors has determined that its leadership structure is appropriate for the Company because it enables the Board of Directors to exercise informed and independent judgment over matters under its purview, allocates responsibility among committees in a manner that fosters effective oversight and allows the Board of Directors to devote appropriate resources to specific issues in a flexible manner as they arise. The Board of Directors periodically reviews its leadership structure as well as its overall structure, composition and functioning and may make changes in its discretion at any time.

¹The amounts shown in this column represent the Company's payments made during 2014 to the trustee of the Company's Employees' Thrift Plan, as described below, or accounting reserves established during 2014 under the Company's Excess Contribution Plan, as described below, on behalf of the respective individuals.

During 2014, each Director who was not a paid officer of the Company received a fee of \$15,000 as an annual retainer, a fee of \$1,250 for attendance at each Directors' meeting and a fee of \$1,250 for each Committee meeting which he or she attended in his or her capacity as a Director (a fee of \$750 if participation was by telephone).

With respect to the Company's Employees' Thrift Plan, the Company matches 150% of an employee's contributions up to 8% of basic salary to the plan. Company contributions are invested in shares of the Company's common stock. An employee's interest in Company contributions to his account is fully vested after six years of service. Partial vesting begins after two years of participation in the plan. All employees, including officers, are eligible to participate in the Thrift Plan after six months of service with the Company.

The Company has an Employees' Retirement Plan which is broadly characterized as a defined benefit plan. The Company contributes to the trustee for the plan annual costs which include actuarially determined current service costs and amortization of prior service costs. Retirement benefits are based on final average earnings (basic salary and, beginning in 2000, bonuses for non-highly compensated employees, exclusive of overtime, commissions, pension, retainer fees, fees under contracts or any other forms of additional or special compensation, for the five consecutive years in which the participant had the highest basic salary during the last ten years of service) and years of credited service, less an offset for social security covered compensation, plus an additional amount equal to \$150 for each year of credited service. All employees, including officers, over age 21 commence participation in the plan after one year of service and are fully vested after six years of service. Partial vesting begins after two years of service. Participants are eligible to receive normal retirement benefits at age 65. In certain instances, a reduced benefit may begin upon retirement between ages 55 and 65 from the tax qualified plan.

The following table shows the estimated annual retirement benefits (including amounts attributable to the Company's Excess Benefit Plan, as described below), which are subject to a deduction based on a portion of social security covered compensation, payable on a straight life annuity basis, at normal retirement date to all eligible employees, including officers, in specified compensation and years-of-service classifications:

| Final Average Earnings | Estimated Annual Benefits Based Upon Years of Credited Service | | | |
|------------------------|--|----------|----------|----------|
| | 10 | 20 | 30 | 40 |
| \$100,000 | \$17,920 | \$35,840 | \$53,760 | \$66,250 |
| 200,000 | 34,210 | 68,420 | 102,630 | 125,980 |
| 300,000 | 50,500 | 101,000 | 151,500 | 185,710 |
| 400,000 | 66,790 | 133,580 | 200,370 | 245,440 |
| 500,000 | 83,080 | 166,160 | 249,240 | 305,170 |
| 600,000 | 99,370 | 198,740 | 298,110 | 364,900 |

For each of the officers of the Company listed in the compensation table on page 10, the following indicates his years of credited service in the Company's Retirement Plan and basic salary for 2014: Messrs. Priest (4) \$650,000, Vindigni (26) \$425,000, and Lynch (18) \$325,000.

The Company also has Excess Contribution and Excess Benefit Plans. Under such plans, the Company may establish account- ing reserves and make payments directly to selected participants in the Company's Thrift and Retirement Plans, respectively, to the extent the levels of contributions or benefits for such participants under such plans are limited by sections 415, 416 and/or 401(a) (17) of the Internal Revenue Code. Messrs. Priest and Vindigni and Dr. Lynch are participants in both the Excess Contribution and Excess Benefit Plans.

The Board of Directors unanimously believes that your vote "FOR" all of the Board's ten nominees as directors will be in the best interest of the Company and its stockholders. Do not return any proxy solicited by or on behalf of Opportunity Partners.

B. Respecting the Ratification and Approval of Appointment of Auditors by the Board of Directors

Proposal (B) set forth in the accompanying Notice of Annual Meeting of Stockholders is the ratification or rejection of the action taken in the following resolutions unanimously adopted by the Board of Directors (a majority of non-interested directors voting in person) approving the appointment by the Audit Committee of the Company of the firm of Ernst & Young LLP to be the auditors of the Company for the fiscal year ending December 31, 2015.

"RESOLVED, that the appointment by the Audit Committee of the firm of Ernst & Young LLP to be the auditors of the Company with respect to its operations for the year 2015 be and it hereby is approved; and further

"RESOLVED, that such auditors be and they hereby are authorized and instructed to conduct an audit, in accordance with auditing standards generally accepted in the United States, of the financial statements of the Company as of and for the year ending December 31, 2015; and further

"RESOLVED, that such auditors be and they hereby are authorized and instructed to conduct a review, in accordance with the standards of the Public Company Accounting Oversight Board (United States), of the interim financial statements of the Company as of and for the six months ending June 30, 2015; and further

"RESOLVED, that such appointment shall terminate (without penalty to the Company) in the event that it shall be rejected at the annual meeting of the stockholders of the Company in 2015; and further

“RESOLVED, that such appointment shall terminate (without penalty to the Company) if a majority (as defined in the Investment Company Act of 1940) of the outstanding voting securities of the Company at any meeting called for the purpose shall vote to terminate such appointment; and further

“RESOLVED, that the report of such auditors expressing their opinion with respect to the financial statements above described and the report of such auditors with respect to the review above described shall be addressed to the Board of Directors of the Company and to the stockholders thereof.”

While the rules under the Investment Company Act of 1940, as amended, would permit the Company not to submit to stock-holders the ratification of the selection of Ernst & Young LLP as the Company’s auditors, it is being done because it continues the Company’s long-standing practice to do so and the Company believes that it is good corporate practice.

C. Respecting the Non-Binding Shareholder Proposal

The Board of Directors has been informed by a shareholder, Special Opportunities Fund, Inc. (the “Proponent”), that it intends to submit the following non-binding proposal at the meeting. The Board of Directors unanimously recommends that you vote AGAINST this non-binding shareholder proposal. The Proponent’s non-binding proposal and supporting statement are set forth below and are followed by the Board of Directors’ explanation of its rationale for opposing the proposal. The Proponent’s mailing address is 250 Pehle Avenue, Suite 708, Saddle Brook, NJ 07663, and the Proponent has represented that it has held at least \$2,000 of the Company’s common stock continuously for at least one year.

RESOLVED: The common and preferred shareholders of General American Investors Company, Inc. (the “Fund”) request the Board of Directors (the “Board”) to authorize the Fund to conduct a self-tender offer for all outstanding shares of common stock of the Fund at or close to net asset value (“NAV”). If more than 50% of the Fund’s outstanding shares of common stock are tendered, the tender offer should be cancelled and the Board should, at its discretion, take the steps necessary to liquidate or convert the Fund into an exchange traded fund (“ETF”) or an open-end mutual fund.

SUPPORTING STATEMENT

For the twenty year period ending June 30, 2014, the Fund beat its benchmark, the S&P 500 Index, by a solid 2.1% per annum based upon NAV performance. But, its more recent performance has been disappointing. Over the last ten years, the Fund’s NAV performance just matched the S&P 500 Index. And, it has underperformed the Index by 1.4% and 1.6% for the past five and three years respectively. Moreover, the common shares of the Fund have traded at a double-digit discount to NAV for more than five years and the discount is currently more than 14%. If, for example, the Fund converted to an open-end fund, all shareholders could capture a windfall gain by having the discount closed.

The Board of Directors has attempted to address the Fund’s discount with a share repurchase program. However, it has been ineffective because the number of shares actually repurchased has been miniscule relative to the number of outstanding shares. Consequently, we think it is now appropriate for the Board of Directors to authorize a self-tender offer for the Fund’s common shares at or close to NAV to afford shareholders an opportunity to receive a price closer to NAV for their shares. If a majority of the Fund’s outstanding common shares are tendered, that would demonstrate that there is insufficient shareholder support for continuing the Fund in its closed-end format. In that case, the tender offer should be cancelled and the Fund should be liquidated or converted into an ETF or an open-end mutual fund.

If you agree that it is time to implement measures to address the Fund’s persistent double-digit discount, please vote for this non-binding proposal.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE AGAINST THIS NON-BINDING SHAREHOLDER PROPOSAL FOR THE REASONS SET FORTH BELOW

THE BOARD OF DIRECTORS’ STATEMENT OF OPPOSITION

The Company has a long-term investment focus and has been structured as an internally-managed closed-end fund since 1927. The Board of Directors strongly believes that the internally-managed closed-end format allows the Company’s shareholders to benefit from:

- favorable and competitive long-term investment returns,
- a stable asset base that can be thoughtfully invested for the long-term, unconstrained by near-term liquidity needs,
- an operating structure more cost effective than that of most open-end funds,
- a platform to employ appropriate risk management measures and controls, and
- a structure that allows tax efficient management of the portfolio (low tax cost).

The Board of Directors believes that if the Proponent’s proposal is implemented, it could adversely affect the Company’s investment operations and performance, which will be to the detriment of long-term investors. The Board

of Directors unanimously opposes this non-binding shareholder proposal and recommends that you vote against it.

As discussed below, the Proponent's non-binding proposal and supporting statement omit numerous facts and considerations, that your Board of Directors believes are essential to a more complete understanding of the ramifications of the proposal:

- the net asset value returns cited in the supporting statement do not reflect the total investment returns actually experienced by shareholders over many years,
- the total investment return of the Company, relative to the benchmark, is much more favorable than that suggested by the Proponent over a series of time periods (see tables below),
- the shares of closed-end equity funds routinely trade at a market discount to net asset value and have done so for many years,
- broad suggestions of tender offers, liquidation, or conversion to an exchange traded fund or mutual fund fail to consider the operational complexities, potentially higher costs, the portfolio management constraints that typically accompany those investment vehicles, or the adverse tax consequences likely to be experienced by shareholders in taxable accounts,
- the shareholder proposal and supporting statement fail to address the concerns and interests of the preferred shareholders, which vote together with the common shareholders,
- the preferred shares receive a cumulative annual distribution rate of 5.95%, historically have enjoyed favorable tax treatment, and as of December 31, 2014 were valued at a \$1.01 premium to liquidation value – all of which would likely be lost by preferred shareholders if the Company were liquidated or converted to a mutual fund, and
- the proposal and supporting statement fail to mention the level of cash the Company has returned to shareholders since commencement of the common share repurchase program in 1995 – which totals 19.2 million shares at a cost of \$535.4 million – or that over \$1.4 billion of dividends and distributions have been declared and paid to shareholders over the same period.

Total Investment Return

As required under the proxy rules, the non-binding proposal and supporting statement is set forth above. However, the Board of Directors believes a more detailed and complete evaluation of the performance of the Company is appropriate given the irrevers-ible ramifications of this proposal. Furthermore, the Board of Directors believes that focusing upon “total investment return,” the methodology required by the Securities and Exchange Commission (SEC) in various forms required to be filed with the SEC, is more appropriate than consideration of net asset return, a measure without similar regulatory support. Total investment return focuses upon the closing market prices of the Company’s shares and reinvestment of dividends and distributions at actual reinvest-ment prices and more accurately reflects returns achieved by shareholders.

The table below more fully presents the total investment return of the Company and the S&P 500® Total Return Index (assum-ing reinvestment of all dividends and distributions by both the Company and the index) for multiple periods as of calendar year end December 31, 2014 as published in the Company’s annual report. The average annual total investment return of the Company has equaled or exceeded the S&P 500® Total Return Index during five of the seven time periods listed below.

| Average Annual Total Investment Return | GAM Total Investment Return | S&P 500® Total Return | Difference in Total Return |
|--|-----------------------------|-----------------------|----------------------------|
| 3 Years Ended 12/31/2014 | 20.7% | 20.4% | +0.3% |
| 5 Years Ended 12/31/2014 | 14.1% | 15.5% | -1.4% |

| 50 Years Ended 12/31/2014 | 11.8% | 9.9% | +1.9% |

A more granular evaluation illustrates that, on a calendar year basis (assuming reinvestment of all dividends and distributions by both the Company and the S&P 500® Total Return Index at market prices), the Company has outperformed that Index in two of the last three years, in three of the last five years, and in seven of the last ten years.

Discount

The Proponent also states that the Company's shares have traded at a double-digit discount to net asset value as another reason for submitting the non-binding proposal. The Company believes that the variability of market prices for the Company's shares as compared to the Company's underlying net asset value per share is inherent in the closed-end organizational format. Discounts to NAV are overwhelmingly common among closed-end funds, particularly equity funds. As of January 5, 2015, the available reported data for closed-end equity funds classified as "Core," "Growth," and "Value" by the Closed-End Fund Association (website [www. cefa.com](http://www.cefa.com)), reflect that 29 out of 30 of those funds were trading at a discount to net asset value. The sole exception was a fund with a "managed distribution policy" in excess of 20% per annum, which is far in excess of the long-term average annual return for equity funds. The same website reported that as of the week ended January 2, 2015, the median discount for all closed-end funds was -9.2% and the median discount for all closed-end equity funds was -9.4%. It should be noted that the Proponent, a closed-end equity fund included in the population of 30 funds noted above, also traded at a discount to net asset value.

On a positive note, the discount provides shareholders with the opportunity to invest in the underlying assets of a closed-end fund at a price which is below market price for those assets. For example, when a closed-end fund is trading at a 12% discount, investors effectively can purchase one dollar's worth of assets for 88¢ and obtain the full investment returns generated by that dollar of assets. It can also be demonstrated that investors who reinvest their dividends and capital gains distributions at a discount to net asset value can potentially earn greater returns over the long term. Of course, a discount also means that shareholders who sell their shares do not receive the full net asset value of their shares at point of sale. However, since the purchasing shareholder in all likelihood paid less than net asset value at the time of purchase, the outcome is commensurate, reasonable and not unfair.

Trading at a discount also tends to attract short-term investors. The Proponent is an activist investor that focuses upon closed-end funds that trade at a discount. The management of the Proponent has a history of investing with the objective of reducing discounts of the closed-end funds in which it has invested in order to realize the incremental differential as profit. The Board of Directors does not endorse short-term trading as it is inconsistent with the Company's investment approach.

The Board of Directors actively considers and employs discount reduction measures that are intended to provide long-term benefit to the shareholders of the Company. In so doing, the Board of Directors believes that superior long-term investment performance and returning value to shareholders, either in the form of (i) dividends and distributions reflective of such investment performance or (ii) open market share repurchases, are among the best methods to serve shareholder interests over the long-term. In so doing, the Company has repurchased 19.2 million of its common shares at a cost of \$535.4 million since the Company's common share repurchase program was originally announced in 1995. During this same 20 year period, over \$1.4 billion has been declared and paid in dividends and distributions, an amount equivalent to the current net assets of the Company. Since the year 2000, \$1.36 billion has been returned to shareholders in the form of repurchases of common shares in the open market (\$369 million) and payment of dividends and distributions (\$995 million).

It should be noted that not all shares of the Company trade at a discount. As of December 31, 2014, the Company's preferred shares traded at a premium of \$1.01 per share to their liquidation value of \$25 per share. These shares receive an annual distribution rate of 5.95% on their liquidation value. Such distributions have historically enjoyed preferential tax treatment (20% federal income tax rate for capital gains distributions and qualified dividend income). In the event the preferred shares must be redeemed because of one of the courses of action sought by the Proponent, holders of preferred shares so redeemed would no longer earn a fixed rate of return and would likely suffer a loss in economic value equal to the value of the premium at which the shares trade because the preferred shares could be required, at least in part, to be redeemed at liquidation value.

Tender Offer. The Board of Directors has carefully considered the likely impact of the proposed tender offer on the Company and, more importantly, its shareholders. The Board of Directors believes that a self-tender offer for all outstanding common shares of the Company would not serve the best interests of the Company or its shareholders.

From the Company's perspective, in order to carry out a self-tender offer for all outstanding common shares or even up to 50% of the Company's outstanding shares, it would be necessary to liquidate sufficient portfolio securities of the Company to generate cash necessary to pay such proceeds to tendering shareholders. Further cash sums would be also required to pay for the distribution to remaining shareholders in the Company of realized capital gains on the sale of portfolio securities. The sale of portfolio investments, the distribution of cash to tendering shareholders, and the subsequent distribution of capital gains would cause the Company's total assets to decrease significantly, resulting in proportionally higher expenses to be borne by remaining shareholders. The amount of assets available for future investment would also decline, making it increasingly difficult to achieve the Company's investment goals. Each of these results could adversely affect long-term investment performance.

From the perspective of tendering common shareholders who previously held their shares in taxable accounts, such shareholder likely would incur very high tax costs as a result of the magnitude of gains realized through either a voluntary tender or forced sale of their common shares. This adverse tax consequence likely would result from either capital gains taxes (20% federal income tax rate plus applicable state and/or local income taxes) and/or taxes on short-term gains resulting from recent share purchases or the reinvestment of dividends and distributions (generally taxed as ordinary income at the federal level plus applicable state and/or local income taxes).

From the perspective of continuing common shareholders who hold their shares in taxable accounts, such shareholders would also likely incur very high tax costs as a result of the distribution of capital gains realized on the sale of portfolio securities (described in the paragraphs above). This adverse tax consequence likely would also result from either capital gains taxes (20% federal income rate plus applicable state and/or local income taxes) and/or taxes on short-term gains (generally taxed as ordinary income at the federal level plus applicable state and/or local income taxes). As noted above, the sale of a substantial portion of portfolio securities, the distribution of cash to tendering shareholders, and the subsequent distribution of capital gains to remaining shareholders would cause the Company's total assets to decrease significantly, resulting in higher proportional expenses to be borne by remaining shareholders. The decline in the amount of assets available for future investment would make it more difficult for the Company to achieve its investment goals and would adversely affect long-term performance for remaining shareholders.

A tender offer would also have potentially adverse consequences for the preferred shareholders. Whether due to the necessity to maintain compliance with the Investment Company Act of 1940, to maintain the credit rating of the preferred shares, or to maintain a judicious level of leverage, some or all of the preferred shares may also need to be redeemed. In all likelihood, redemption of the preferred shares, whether mandatory or voluntary, would occur at their liquidation preference of \$25 per share (which was \$1.01 per share lower than the market price as of December 31, 2014). Accordingly, the Board of Directors believes that the Proponent's contention that "all shareholders could capture a windfall gain by having the discount closed" via a tender offer or the Company's conversion to an open-end fund is simply untrue.

Addressing the second set of alternatives contained in the non-binding proposal, the Board of Directors believes that liquidating the Company or converting it to an open-end fund (that is, an exchange traded fund - "ETF"- or a mutual fund) if more than 50% of the Company's outstanding shares are tendered would not be in the best interests of the Company and, more importantly, its shareholders. In the following paragraphs we evaluate and more fully describe the impact of each of these options.

Liquidation. The Board of Directors believes that liquidating the Company if more than 50% of the Company's outstanding shares are tendered would not be in the best interests of the Company or, more importantly, its shareholders. Liquidation is a death sentence for a company and would eliminate any possibility of the Company continuing to provide the value-added services it has performed for its shareholders for over 85 years. Liquidation is also a lengthy and costly process with many of the same disadvantages detailed above relating to a tender offer, which the Proponent neglects to describe in its non-binding proposal and supporting statement. The Board of Directors does not believe that terminating the Company after it has provided solid investment returns for many years and has helped many generations of investors achieve their financial goals is a prudent course of action.

Open-Ending/Exchange Traded Fund. Closed-end funds that are converted to open-end funds under the duress of activist tactics often suffer from some combination of greatly reduced assets, significantly higher operating costs and expense ratios, and a portfolio constructed to accommodate a level of liquidity to support the resulting share redemption and subscription activity. Additionally, shareholders who hold their shares in taxable accounts could be subjected to untimely capital gains distributions, and the resulting increased and high cost of income taxes, than would otherwise be the case for shareholders who wish to remain invested in a closed-end fund with a relatively stable asset base. Typically, the only investors who benefit in the case of a forced open-ending are those who sell their shares immediately before the fund converts to an open-end format. The remaining shareholders, who wish to continue their investment in the open-end fund, may suffer from the adverse circumstances described earlier. Moreover, the Company's relatively unique structure as an internally-managed fund does not provide it with the share distribution capability that operating as an open-end fund would require. This internally managed structure has permitted the Company to keep its expenses and its expense ratio at a low level for many years. If the Company were to open-end, either a large number of staff would need to be added to handle the distribution functions associated with a continuous offering of Company shares, or an affiliation with an existing mutual fund or ETF complex would be required, both of which would likely substantially increase the costs of operating the Company. Further, as with a tender offer or liquidation, selling portfolio securities to pay for cash redemptions after open-ending would have substantially similar costs as detailed above for a tender offer. In the event of a conversion to an open-end fund, shareholders would also lose the benefits of owning a company listed on the New York Stock Exchange including governance protocols and the ability to purchase and sell Company shares intra-day. Any proposed conversion to an ETF would require the Company to apply for, and obtain, an SEC order granting the exemptions under the Investment Company Act of 1940 that are necessary for a fund to operate as an ETF, a potentially time-consuming and expensive process. In addition, the "conditions to relief" imposed by the SEC in its ETF exemptive order, if granted, would effect substantial changes on the manner in which the Company has heretofore conducted its business. The Board of Directors believes that numerous ETF and mutual fund options exist and that an internally-managed closed-end fund offers unique and beneficial attributes not available through other formats.

Approval of the non-binding proposal requires the affirmative vote of the holders of a majority of the shares present in person or represented by proxy at the meeting and entitled to vote on the subject matter. Abstentions are counted as present and entitled to vote on the non-binding proposal, but because they are not voted "For" the matter, they will have the effect of an "Against" vote. Broker non-votes are not entitled to vote on the matter and will not be counted as votes "For" or "Against" the non-binding proposal. If not otherwise specified on a properly submitted proxy, the proxy will be voted "Against" approval of the non-binding proposal.

The proposal is non-binding, advisory only and requests the Board of Directors to take specific action. Dissolving or liquidating the Company, or any amendment to the Certificate of Incorporation of the Company which makes the common stock a redeemable security as defined in the Investment Company Act of 1940, cannot occur unless such transaction is approved by the Board of Directors and by the shareholders at a subsequent meeting of shareholders, at which meeting at least two-thirds of all the outstanding shares (common and preferred in the aggregate) of the Company would have to be voted in favor of the proposed transaction. At such a subsequent meeting, in addition to the common and preferred shareholders voting together as a single class to authorize such a liquidation or open-ending transaction, an additional affirmative vote of the holders of a majority of the outstanding shares of preferred stock, voting as a separate class, also would be required to approve (i) any plan of reorganization adversely affecting the preferred shareholders or (ii) any action requiring a vote of security holders under Section 13(a) of the Investment Company Act of 1940, including any action to change the subclassification of the Company from a closed-end fund to an open-end fund, change the Company's investment objectives or investment restrictions that constitute fundamental policies, or change the nature of the Company's business so as to cease to be an investment company.

The Board of Directors believes that your vote AGAINST the non-binding proposal will be in the best interest of the Company and all its shareholders.

Other than Opportunity Partners' proposals and the matters identified in this proxy statement, the Board of Directors of the Company does not know of any other matters which may come before the meeting. However, if any other matters, of which the Board of Directors is not now aware, are properly presented for action before the meeting, including any questions as to the adjournment or postponement of the meeting, it is the intention of the persons named in the accompanying form of proxy to vote such proxy in accordance with their judgment on such matters.

In addition, for stockholder proposals or director nominations that a stockholder seeks to bring before the 2016 annual meeting of stockholders but, does not seek to have included in the Company's proxy statement and form of proxy for that meeting, the following requirements apply: Pursuant to the Company's By-Laws, in order for stockholder proposals or nominations of persons for election to the Board of Directors to be properly brought before the 2016 annual meeting, any such stockholder proposal or nomination (including in the case of a nomination, the information required by the Company's advance notice By-Law provisions) must be received at the office of the Company no

earlier than [•] 2015 and no later than [•] 2015. The Company's advance notice By-Law requirements are separate from, and in addition to, the Securities and Exchange Commission's requirements (including the timing requirements described in the preceding paragraph) that a stockholder must meet in order to have a stockholder proposal included in the proxy statement. Should the Company determine to allow a stockholder proposal that is received by the Company after [•] 2105 to be presented at the 2016 annual meeting, the persons named as appointees in the form accompanying the proxy statement for such meeting will have discretionary voting authority with respect to such stockholder proposal.

In order for a stockholder proposal to be considered for inclusion in the Company's proxy material relating to its 2016 annual meeting of stockholders, the stockholder proposal must be received by the Company no later than October 30, 2015, and must comply with certain other rules and regulations promulgated by the Securities and Exchange Commission.

In accordance with a notice sent to certain stockholders of the Company, who share a single address, only one copy of the Proxy Statement and our 2014 Annual Report is being sent to that address unless we received contrary instructions from any stockholder at that address. EXHIBIT

Report of the Audit Committee of
The Board of Directors of General American Investors Company, Inc.

The purposes of the Company's Audit Committee are set forth in the Committee's Charter. The purposes include assisting the Board of Directors in its oversight of the Company's financial reporting process and internal controls, the Company's financial state-ments and the selection of the Company's independent auditors. Management, however, is responsible for the preparation, presenta-tion and integrity of the Company's financial statements, and the independent auditors are responsible for planning and carrying out proper audits and reviews.

In connection with the audited financial statements as of and for the year ended December 31, 2014 included in the Company's Annual Report for the year ended December 31, 2014 (the "Annual Report"), at a meeting held on January 21, 2015, the Audit Committee considered and discussed the audited financial statements with management and the independent auditors, and discussed the audit of such financial statements with the independent auditors.

In addition, the Audit Committee discussed with the independent auditors the quality, and not just the acceptability under gen-erally accepted accounting principles, of the accounting principles applied by the Company, and such other matters brought to the attention of the Audit Committee by the independent auditors required by Statement of Auditing Standards No. 61, as amended, as adopted by the Public Company Accounting Oversight Board in Rule 3200T. The Audit Committee also received from the inde-pendent auditors the written disclosures and the letter required by Independence Standards Board Standard No. 1, as adopted by the Public Company Accounting Oversight Board in Rule 3600T, considered whether the provision of nonaudit services by the indepen-dent auditors is compatible with maintaining the auditors' independence and discussed with the auditors the auditors' independence.

The members of the Audit Committee are not professionally engaged in the practice of auditing or accounting and are not experts in the fields of accounting or auditing, including in respect of auditor independence. Moreover, the Committee relies on and makes no independent verification of the facts presented to it or representations made by management or the independent auditors. Accordingly, the Audit Committee's oversight does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting principles and policies, or internal controls and procedures, designed to assure com-pliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's considerations and dis-cussions referred to above do not assure that the audit of the Company's financial statements has been carried out in accordance with auditing standards generally accepted in the United States, that the financial statements are presented in accordance with accounting principles generally accepted in the United States or that the Company's auditors are in fact "independent."

Based on its consideration of the audited financial statements and the discussions referred to above with management and the independent auditors and subject to the limitations on the responsibilities and role of the Audit Committee set forth in the Committee's Charter and those discussed above, the Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report.
