NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

1. Basis of Presentation:

These unaudited consolidated financial statements of Sun Communities, Inc., a Maryland corporation, (the “Company”) and all majority-owned and controlled subsidiaries including Sun Communities Operating Limited Partnership (the “Operating Partnership”), SunChamp LLC (“SunChamp”), and Sun Home Services, Inc. (“SHS”), have been prepared pursuant to the Securities and Exchange Commission (“SEC”) rules and regulations and should be read in conjunction with the consolidated financial statements and accompanying notes of the Company included in Annual Report on Form 10-K for the year ended December 31, 2007. The following notes to consolidated financial statements present interim disclosures as required by the SEC. The accompanying consolidated financial statements reflect, in the opinion of management, all adjustments necessary for a fair presentation of the interim financial statements. All such adjustments are of a normal and recurring nature. Certain reclassifications have been made to prior periods’ financial statements in order to conform to current period presentation.

3. Notes and Other Receivables:

The following table sets forth certain information regarding notes and other receivables (amounts in thousands):

	March 31, 2008	December 31, 2007
Installment loans on manufactured homes with interest payable monthly at a net weighted average interest rate and maturity of 7.5% and 12.9 years and 7.3% and 13.2 years at March 31, 2008, and December 31, 2007, respectively.	\$ 33,045	\$ 30,429
Other receivables, net of allowance for losses of \$0.3 million at March 31, 2008 and December 31, 2007.	7,527	6,417
	\$ 40,572	\$ 36,846

The installment loans of \$33.0 million and \$30.4 million at March 31, 2008 and December 31, 2007, respectively, are collateralized by manufactured homes and are presented net of allowance for losses of \$0.3 million and \$0.2 million at March 31, 2008 and December 31, 2007, respectively. The loans represent financing provided by the Company to purchasers of manufactured homes located in its communities.

Officer's notes, presented as a reduction to stockholders' equity in the balance sheet, are 10 year, LIBOR + 1.75% notes, with a minimum and maximum interest rate of 6% and 9%, respectively. The notes become due in three installments on each of December 31, 2008, 2009 and 2010. The following table sets forth certain information regarding officer's notes as of March 31, 2008, and December 31, 2007 (in thousands except for shares and units):

3. **Notes and Other Receivables, continued:**

The officer's personal liability on the secured promissory notes is limited to all accrued interest on such notes plus fifty percent (50%) of the deficiency, if any, after application of the proceeds from the sale of the secured shares and/or the secured units to the then outstanding principal balance of the promissory notes. The unsecured notes are fully recourse to the officer.

The reduction in the aggregate principal balance of these notes was \$0.1 million for the three months ended March 31, 2008 and 2007. Total interest was \$0.1 million and \$0.2 million for the three months ended March 31, 2008 and 2007, respectively.

4. **Investment in Affiliate:**

Origen Financial, Inc. ("Origen") is a real estate investment trust in the business of originating and servicing manufactured home loans. In October 2003, the Company purchased 5,000,000 shares of common stock of Origen for \$50 million. The Company owns approximately 19% of Origen at March 31, 2008, and its investment is accounted for using the equity method of accounting. Equity loss recorded through March 31, 2008, reflects the Company's estimate of its portion of the anticipated loss of Origen for the period ending March 31, 2008. At March 31, 2008, the Company's investment in Origen had a market value of \$5.9 million based on the closing price of \$1.18 per share.

On March 13, 2008, Origen announced that recent and current conditions in the credit markets have adversely impacted Origen's business and financial condition to the extent that it has determined to suspend loan originations for its own account and has taken steps to right-size its work force. Subsequently, Origen announced that it has sold its unsecuritized loans with an aggregate carrying amount of approximately \$176 million for net proceeds of approximately \$155 million and completed a \$46 million secured financing arrangement provided by an affiliate of one of Origen's principal stockholders. Origen used the proceeds from these transactions to pay off its warehouse facility and supplemental advance facility. On April 30, 2008, Origen announced that it entered into an agreement for the sale of its servicing platform assets. Origen's Board of Directors is continuing to assess the possible sale of its origination platform and other strategic measures to continue management of its securitized loan portfolio. These events may have a material adverse effect on the value of our investment in Origen. The Company recorded an impairment to the carrying value of its investment in Origen of \$1.9 million and \$18.0 million at December 31, 2007 and 2006, respectively.

Preferred OP units, redeemable at various dates from December 1, 2009 through January 2, 2014, average interest at 6.8% at March 31, 2008, and 7.2% at December 31, 2007.	49,447	49,447
Mortgage notes, other, maturing at various dates from September 1, 2008 through May 1, 2017, average interest at 6.10% at March 31, 2008 and December 31, 2007.	184,737	184,875
	\$ 1,099,068	\$ 1,101,972

The collateralized term loans totaling \$864.9 million at March 31, 2008, are secured by 87 properties comprising approximately 31,108 sites representing approximately \$573.5 million of net book value. The mortgage notes totaling \$184.7 million at March 31, 2008, are collateralized by 16 communities comprising approximately 5,859 sites representing approximately \$166.8 million of net book value.

The Company has an unsecured revolving line of credit facility with a maximum borrowing capacity of \$115 million, subject to certain borrowing base calculations. The outstanding balance on the line of credit at March 31, 2008 and December 31, 2007, was \$91.5 million and \$85.4 million, respectively. In addition, \$3.4 million of availability was used to back standby letters of credit at March 31, 2008 and December 31, 2007. Borrowings under the line of credit bear an interest rate of LIBOR plus 1.65% (4.36% at March 31, 2008) and mature October 1, 2010. A one year extension is available at the Company's option. At March 31, 2008 and December 31, 2007, \$20.1 million and \$26.2 million, respectively, were available to be drawn under the facility based on the calculation of the borrowing base at each period.

Edgar Filing: SUN COMMUNITIES INC - Form 10-Q

The Company also has a \$40.0 million floor plan facility that allows for draws on new and pre-owned home purchases and on the Company's portfolio of rental homes. At March 31, 2008 and December 31, 2007, the outstanding balance on the floor plan was \$1.1 million and \$0.3 million, respectively. The facility matures on March 1, 2009, and bears interest at Prime for borrowings on new homes (5.25% at March 31, 2008) and Prime plus 0.50% for borrowings on pre-owned and rental homes.

In January of 2007, the Company completed financings of \$17.5 million and \$20.0 million at interest rates of 5.842 percent and 5.825 percent, respectively. The loans are secured by two properties and have interest only payments for a term of 10 years. The proceeds from both financings were used to pay down the Company's revolving line of credit. No financings were completed during the first quarter of 2008.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

5. Debt, continued:

In February of 2007, the Company redeemed \$4.5 million of Preferred OP units.

In April of 2007, the Company extended \$15.8 million of debt with an original maturity date of April 1, 2007. The transaction extended the maturity date of the debt to April 1, 2012, and reduced the spread over LIBOR by 0.25 percent, to LIBOR + 1.5 percent. As part of the transaction, the Company paid down the principal balance of the debt by \$1.0 million. The transaction was accounted for as a modification of debt.

At March 31, 2008, the total of maturities and amortization of debt and lines of credit during the next five years, are as follows:

		Maturities and Amortization By Period					
		(in thousands)					
		Apr 2009			Apr 2012		
		Apr 2008-	Apr 2010 -	Apr 2011 -	-	After

							\$ 889,620

The most restrictive of the Company's debt agreements place limitations on secured and unsecured borrowings and contain minimum debt service coverage, leverage, distribution and net worth requirements. At March 31, 2008, and December 31, 2007, the Company was in compliance with all covenants.

6. Share-Based Compensation:

The Company's primary share-base compensation is restricted stock. In February 2008, the Company issued twenty five thousand shares of restricted stock to certain key employees. The awards vest over a 10 year period beginning on the fourth anniversary of the grant date and have a weighted average grant date fair value of \$19.92 per share.

7. Other Income:

Edgar Filing: SUN COMMUNITIES INC - Form 10-Q

⁽¹⁾ Investors in and analysts following the real estate industry utilize net operating income (“NOI”) as a supplemental performance measure. NOI is derived from revenues (determined in accordance with GAAP) minus property operating expenses and real estate taxes (determined in accordance with GAAP). NOI does not represent cash generated from operating activities in accordance with GAAP and should not be considered to be an alternative to net income (determined in accordance with GAAP) as an indication of the Company’s financial performance or to be an alternative to cash flow from operating activities (determined in accordance with GAAP) as a measure of the Company’s liquidity; nor is it indicative of funds available for the Company’s cash needs, including its ability to make cash distributions. The Company believes that net income is the most directly comparable GAAP measurement to net operating income. Net income includes interest and depreciation and amortization which often have no effect on the market value of a property and therefore limit its use as a performance measure. In addition, such expenses are often incurred at a parent company level and therefore are not necessarily linked to the performance of a real estate asset. The Company believes that net operating income is helpful to investors as a measure of operating performance because it is an indicator of the return on property investment, and provides a method of comparing property performance over time. The Company uses NOI as a key management tool when evaluating performance and growth of particular properties and/or groups of properties. The principal limitation of NOI is that it excludes depreciation, amortization and non-property specific expenses such as general and administrative expenses, all of which are significant costs, and therefore, NOI is a measure of the operating performance of the properties of the Company rather than of the Company overall.

⁽²⁾ Seasonal recreational vehicle revenue is included in Property Operations revenues and is approximately \$5.7 million annually. This seasonal revenue is recognized approximately 53% in the first quarter, 6.5% in both the second and third quarters and 34% in the fourth quarter of each fiscal year.

9. Derivative Instruments and Hedging Activities:

The Company currently has three derivative contracts consisting of two interest rate swap agreements and an interest rate cap agreement. The Company's primary strategy in entering into derivative contracts is to minimize the variability that changes in interest rates could have on its future cash flows. The Company generally employs derivative instruments that effectively convert a portion of its variable rate debt to fixed rate debt and to cap the maximum interest rate on its variable rate borrowings. The Company does not enter into derivative instruments for speculative purposes.

The swap agreements were effective April 2003, and have the effect of fixing interest rates relative to a collateralized term loan due to Fannie Mae. One swap fixes \$25 million of variable rate borrowings at 4.84 percent through July 2009. The second swap fixes an additional \$25 million of variable rate borrowings at 5.28 percent through July 2012. The interest rate cap agreement has a cap rate of 9.99 percent, a notional amount of \$152.4 million and a termination date of April 28, 2009. Each of the Company's derivative contracts is based upon 90-day LIBOR.

The Company has designated the two swaps and the interest rate cap as cash flow hedges for accounting purposes. The changes in the value of these hedges are reflected in accumulated other comprehensive income (loss) on the balance sheet. These three hedges were highly effective and had minimal effect on income. The Company had an interest rate swap, which matured in July 2007, which was not eligible for hedge accounting. Accordingly, the valuation adjustment decreased interest expense by \$0.1 million for the three months ended March 31, 2007.

Edgar Filing: SUN COMMUNITIES INC - Form 10-Q

In accordance with SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," which requires all derivative instruments to be carried at fair value on the balance sheet, the Company has recorded a liability of \$2.3 million and \$0.9 million as of March 31, 2008, and December 31, 2007, respectively.

These valuation adjustments will only be realized if the Company terminates the swaps prior to maturity. This is not the intent of the Company and, therefore, the net of valuation adjustments through the various maturity dates will approximate zero.

9. Derivative Instruments and Hedging Activities, continued:

The Company is required to provide cash collateral for its swaps. At March 31, 2008 and December 31, 2007, the Company had collateral deposits recorded in other assets of \$3.6 million and \$1.4 million, respectively.

10. Income Taxes:

The Company has elected to be taxed as a real estate investment trust ("REIT") as defined under Section 856(c) of the Internal Revenue Code of 1986, as amended. As a REIT, the Company generally will not be subject to U.S. federal income taxes at the corporate level on the ordinary taxable income it distributes to its stockholders as dividends.

SHS, the Company's taxable REIT subsidiary, is subject to U.S. federal income taxes. The Company's deferred tax assets and liabilities reflect the impact of temporary differences between the amounts of assets and liabilities for financial reporting purposes and the bases of such assets and liabilities as measured by tax laws. Deferred tax assets are reduced, if necessary, by a valuation allowance to the amount where realization is more likely than not assured after considering all available evidence. The Company's temporary differences primarily relate to net operating loss carryforwards and depreciation. A net deferred tax asset of \$1.0 million is included in other assets in the consolidated balance sheets as of March 31, 2008 and December 31, 2007.

The Company had no unrecognized tax benefits as defined by FASB Interpretation No. 48 "Accounting for Uncertainty in Income Taxes-An Interpretation of FASB Statement No. 109" as of March 31, 2008. The Company expects no significant increases or decreases in unrecognized tax benefits due to changes in tax positions within one year of March 31, 2008.

The Company's policy is to report penalties and tax-related interest expense as a component of income tax expense. The Company has no interest or penalties relating to income taxes recognized in the statement of operations for the three months ended March 31, 2008 or in the balance sheet as of March 31, 2008.

The Company and its subsidiaries are subject to income taxes in the U.S. and various state jurisdictions. Tax regulations within each jurisdiction are subject to the interpretation of the related tax laws and regulations and require significant judgment to apply. With few exceptions, the Company is no longer subject to U.S. Federal, State and Local, examinations by tax authorities before 2003.

10. Income Taxes, continued:

In July 2007, the State of Michigan signed into law the Michigan Business Tax Act (MBT), replacing the Michigan single business tax with a business income tax and modified gross receipts tax. These new taxes became effective on January 1, 2008, and are subject to the provisions of SFAS No. 109 "Accounting for Income Taxes." The Company is also subject to Texas Margin tax. The Company has a deferred income tax liability for the expected cumulative future effects of these taxes in the amount of \$0.4 million.

11. Earnings (Loss) Per Share (in thousands):

For the three months ended March 31, 2008 and 2007:

	2008	2007
Earnings (loss) used for basic and diluted earnings (loss)		
per share computation:		
Net income (loss)	\$ (3,095)	\$ 46
Weighted average shares used for basic earnings (loss) per share	18,077	17,841
Dilutive securities:		
Stock options and other	—	144
Diluted weighted average shares	18,077	17,985

Diluted earnings per share reflect the potential dilution that would occur if dilutive securities were exercised or converted into common stock. Due to reporting a net loss, the calculation of both basic and diluted earnings per share for the three month period ending March 31, 2008, is based upon weighted average shares prior to dilution, as the effect of including potentially dilutive securities in the calculation during this period would be anti-dilutive.

The Company also has the following potentially convertible securities which, if converted, may impact dilution:

Convertible Securities	Number of units issued	Conversion Features
Series A Preferred OP Units	1,325,275	Convertible to common stock at \$68 per share/unit. Mandatorily redeemable on January 2, 2014

12. Commitments and Contingencies:

On April 9, 2003, T.J. Holdings, LLC (“TJ Holdings”), a member of Sun/Forest, LLC (“Sun/Forest”) (which, in turn, owns an equity interest in SunChamp LLC), (“SunChamp”), filed a complaint against the Company, SunChamp, certain other affiliates of the Company and two directors of Sun Communities, Inc. in the Superior Court of Guilford County, North Carolina. The complaint alleges that the defendants wrongfully deprived the plaintiff of economic opportunities that they took for themselves in contravention of duties allegedly owed to the plaintiff and purports to claim damages of \$13.0 million plus an unspecified amount for punitive damages. The Company believes the complaint and the claims threatened therein have no merit and will defend it vigorously. These proceedings were stayed by the Superior Court of Guilford County, North Carolina in 2004 pending final determination by the Circuit Court of Oakland County, Michigan as to whether the dispute should be submitted to arbitration and the conclusion of all appeals therefrom. On March 13, 2007, the Michigan Court of Appeals issued an order compelling arbitration of all claims brought in the North Carolina case. TJ Holdings has filed an application for review in the Michigan Supreme Court which has been denied and, accordingly, the North Carolina case is permanently stayed. TJ Holdings has now filed an arbitration demand in Southfield, Michigan based on the same claims. The Company intends to vigorously defend against the allegations.

As announced on February 27, 2006, the U.S. Securities and Exchange Commission (the “SEC”) completed its inquiry regarding the Company’s accounting for its SunChamp investment during 2000, 2001 and 2002, and the Company and the SEC entered into an agreed-upon Administrative Order (the “Order”). The Order required that the Company cease and desist from violations of certain non intent-based provisions of the federal securities laws, without admitting or denying any such violations.

On February 27, 2006, the SEC filed a civil action against the Company’s Chief Executive Officer, its then (and now former as of February 2008) Chief Financial Officer and a former controller in the United States District Court for the Eastern District of Michigan alleging various claims generally consistent with the SEC’s findings set forth in the Order. The case is ongoing and the Company continues to indemnify such employees for all costs and expenses incurred in connection with such civil action.

The Company is involved in various other legal proceedings arising in the ordinary course of business. All such proceedings, taken together, are not expected to have a material adverse impact on our results of operations or financial condition.

13. Recent Accounting Pronouncements:

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities – Including an Amendment of FASB Statement No. 115" (SFAS 159). This statement permits, but does not require, entities to measure certain financial instruments and other assets and liabilities at fair value on an instrument-by-instrument basis. Unrealized gains and losses on items for which the fair value option has been elected should be recognized in earnings at each subsequent reporting date. SFAS 159 is effective for financial statements issued for fiscal years beginning after November 15, 2007. The Company did not elect the fair value option on January 1, 2008 and does not believe SFAS 159 will have an impact on its results from operations or financial position.

In December 2007, the FASB issued Statement No. 141R (revised 2007), "Business Combinations" ("SFAS 141R"). SFAS 141R will significantly change the accounting for business combinations. Under SFAS 141R, an acquiring entity will be required to recognize all the assets acquired and liabilities assumed in a transaction at the acquisition-date fair value with limited exceptions. Statement 141R will change the accounting treatment for certain specific acquisition related items and also includes a substantial number of new disclosure requirements. The Company will apply SFAS 141R prospectively to business combinations for which the acquisition date is on or after January 1, 2009.

In December 2007, the FASB issued Statement No. 160, "Noncontrolling Interests in Consolidated Financial Statements-An Amendment of ARB No. 51" ("SFAS 160"). SFAS 160 establishes new accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary (minority interest) is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements and presented separately from the parent company's equity. This statement also requires consolidated net income to be reported at amounts that include the amounts attributable to the parent and the noncontrolling interest and requires disclosure, on the face of the consolidated statement of operations, the amounts of consolidated net income attributable to the parent and the noncontrolling interest. SFAS 160 is effective for business combinations for which the acquisition date is on or after the first annual reporting period beginning on or after December 15, 2008. The Company does not believe SFAS 160 will have a material impact on its consolidated financial statements.

In March 2008, the FASB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities" ("SFAS 161"), an amendment of FASB Statement No. 133 "Accounting for Derivative Instruments and Hedging Activities". SFAS 161 provides for enhanced disclosures about how and why an entity uses derivatives and how and where those derivatives and related hedged items are reported in the entity's financial statements. The statement is effective for fiscal years and interim periods beginning after November 15, 2008. The Company is currently evaluating the impact of SFAS No. 161 on its financial disclosures.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the consolidated financial statements and the notes thereto. Capitalized terms are used as defined elsewhere in this Form 10-Q.

SIGNIFICANT ACCOUNTING POLICIES

The Company has identified significant accounting policies that, as a result of the judgments, uncertainties and complexities of the underlying accounting standards and operations involved, could result in material changes to its financial condition or results of operations under different conditions or using different assumptions. Details regarding the Company's significant accounting policies are described fully in the Company's 2007 Annual Report filed with the Securities and Exchange Commission on Form 10-K. During the three months ended March 31, 2008, there have been no material changes to the Company's significant accounting policies that impacted the Company's financial condition or results of operations.

RESULTS OF OPERATIONS

Comparison of the three months ended March 31, 2008 and 2007

For the three months ended March 31, 2008, loss from operations increased by \$3.5 million, from an income of less than \$0.1 million to a loss of \$(3.5) million, when compared to the three months ended March 31, 2007. An increase in revenues of \$3.6 million and a decrease in provision for state income tax of \$0.3 million was offset by increased expenses of \$2.3 million and an increase in equity loss from affiliate of \$5.1 million.

Income from real property increased by \$1.1 million, from \$49.5 million to \$50.6 million, or 2.2 percent, due to rent increases, net of increased vacancies of \$0.9 million and other community revenues of \$0.2 million.

Revenue from home sales increased by \$1.3 million, from \$6.2 million to \$7.5 million, or 21.0 percent, due to an increase in the number of homes sold. The Company sold 227 manufactured homes during the three months ended March 31, 2008, as compared to 185 sales during the same period in 2007.

Edgar Filing: SUN COMMUNITIES INC - Form 10-Q

Rental home revenue increased by \$0.6 million, from \$4.4 million to \$5.0 million, or 13.6 percent, due to the increase in the number of tenants in the Company's rental program.

Ancillary revenues, net, decreased by \$0.1 million, from \$0.3 million to \$0.2 million, or 33.3 percent, due primarily to a decrease in golf course profit partially offset by an increase in commissions from the sale of insurance contracts.

SUN COMMUNITIES, INC.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

RESULTS OF OPERATIONS, continued:

Other income increased by \$0.7 million, from \$0.2 million to \$0.9 million, due to the gain on disposition of undeveloped land.

Property operating and maintenance expenses increased by \$0.5 million, from \$11.9 million to \$12.4 million, or 4.2 percent. An increase in utility costs (\$0.4 million), payroll and benefit costs (\$0.2 million) and in cable expense (\$0.1 million) was partially offset by a decrease in property and casualty insurance costs (\$0.2 million).

Real estate taxes increased by \$0.1 million, from \$4.1 million to \$4.2 million, or 2.4 percent, due to increases in assessments and tax rates.

Cost of home sales increased by \$0.9 million, from \$4.9 million to \$5.8 million, or 18.4 percent. The increase was due primarily to the increase in the number of homes sold. The Company sold 227 manufactured homes during the three months ended March 31, 2008, as compared to 185 sales during the same period in 2007.

Rental home operating and maintenance expense increased by \$0.4 million, from \$3.1 million to \$3.5 million, or 12.9 percent, due primarily to an increase in the number of tenants in the Company's rental program. Additional information regarding the Company's rental program is contained in the table below.

General and administrative expenses for real property decreased by \$0.2 million, from \$4.4 million to \$4.2 million, or 4.5 percent, due primarily to a reduction of deferred compensation expenses of \$0.5 million offset by an increase in salary, incentive and benefit related costs of \$0.3 million.

General and administrative expenses for home sales and rentals decreased by \$0.1 million, from \$1.7 million to \$1.6 million, or 5.9 percent, due primarily to decreases in salary and benefit related costs.

Depreciation and amortization increased by \$0.6 million, from \$15.4 million to \$16.0 million, or 3.9 percent, due primarily to an increase in the total rental home portfolio.

Edgar Filing: SUN COMMUNITIES INC - Form 10-Q

Interest expense, including interest on mandatorily redeemable debt, increased by \$0.1 million from \$16.1 million to \$16.2 million, or 0.6 percent, due to an increase in average outstanding balance on lines of credit, resulting in an increase in interest expense of \$0.2 million, offset by a decrease in interest expense on mandatorily redeemable debt of \$0.1 million.

Provision for state income taxes decreased by \$0.3 million primarily due to the use of an effective tax rate, rather than a statutory tax rate, to calculate the deferred tax liability related to the implementation of the Michigan Business Tax.

Edgar Filing: SUN COMMUNITIES INC - Form 10-Q

Net operating income from the rental program increased \$1.1 million from \$6.4 million in the first quarter of 2007 to \$7.5 million in the first quarter of 2008 as a result of a \$1.5 million increase in revenue offset by a \$0.4 million increase in expenses. Revenues increased due to an increase in the number of leased rental homes. Expenses were also impacted by the increase in the number of leased rental homes.

SUN COMMUNITIES, INC.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

LIQUIDITY AND CAPITAL RESOURCES

The Company's principal liquidity demands have historically been, and are expected to continue to be, distributions to the Company's stockholders and the unitholders of the Operating Partnership, capital improvements of properties, the purchase of new and pre-owned homes, property acquisitions, development and expansion of properties, and debt repayment.

The Company expects to meet its short-term liquidity requirements through its working capital provided by operating activities and through its \$155.0 million lines of credit. The Company considers these resources to be adequate to meet all operating requirements, including recurring capital improvements, routinely amortizing debt and other normally recurring expenditures of a capital nature, pay dividends to its stockholders to maintain qualification as a REIT in accordance with the Internal Revenue Code and make distributions to the Operating Partnership's unitholders.

The Company continuously seeks acquisition opportunities that meet the Company's criteria for acquisition. Should such investment opportunities arise in 2008, the Company will finance the acquisitions through the temporary use of its lines of credit until permanent secured financing can be arranged, through the assumption of existing debt on the properties or the issuance of certain equity securities.

The Company has also invested approximately \$3.4 million during the three months ended March 31, 2008, in acquisition of homes primarily intended for its rental program. Expenditures for the remainder of 2008 will be dependent upon the condition of the markets for repossessions and new home sales as well as rental homes.

Cash and cash equivalents decreased by \$0.5 million from \$5.4 million at December 31, 2007, to \$4.9 million at March 31, 2008. Net cash provided by operating activities decreased by \$1.0 million to \$12.0 million for the three months ended March 31, 2008, from \$13.0 million for the three months ended March 31, 2007.

The Company's net cash flows provided by operating activities may be adversely impacted by, among other things: (a) the market and economic conditions in the Company's current markets generally, and specifically in metropolitan areas of the Company's current markets; (b) lower occupancy and rental rates of the Company's properties (the "Properties"); (c) increased operating costs, including insurance premiums, real estate taxes and utilities, that cannot be passed on to the Company's tenants; and (d) decreased sales of manufactured homes. See "Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

The Company has an unsecured revolving line of credit facility with a maximum borrowing capacity of \$115.0 million, subject to certain borrowing base calculations. The outstanding balance on the line of credit at March 31, 2008 and December 31, 2007, was \$91.5 million and \$85.4 million, respectively. In addition, \$3.4 million of availability was used to back standby letters of credit at March 31, 2008 and December 31, 2007. Borrowings under the line of credit bear an interest rate of LIBOR plus 1.65% (4.36% at March 31, 2008) and mature October 1, 2010.

Edgar Filing: SUN COMMUNITIES INC - Form 10-Q

A one year extension is available at the Company's option. At March 31, 2008, \$20.1 million was available to be drawn under the facility based on the calculation of the borrowing base. The line of credit facility contains various leverage, debt service coverage, net worth maintenance and other customary covenants all of which the Company was in compliance with at March 31, 2008.

SUN COMMUNITIES, INC.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

LIQUIDITY AND CAPITAL RESOURCES, continued:

The sub-prime credit crisis and ensuing decline in credit availability have caused turmoil in US and foreign markets. Many industries with no direct involvement with sub-prime lending, securitizations, home building or mortgages have suffered share price declines as economic uncertainty has derailed investor confidence. While many of the fundamentals of the Company, and manufactured housing industry, have been improving over recent years, the Company's share price has suffered in the turbulent stock market. For the Company, the most relevant consequence of this financial turmoil is the uncertainty of the availability of credit. With minimal debt maturities of \$4.3 million and \$17.3 million in the remainder of 2008 and 2009, respectively, the Company believes this risk is significantly mitigated.

The Company anticipates meeting its long-term liquidity requirements, such as scheduled debt maturities, large property acquisitions, and Operating Partnership unit redemptions through the collateralization of its Properties. The Company currently has 33 unencumbered Properties with an estimated market value of \$257.0 million, some of which support the borrowing base for the Company's \$115.0 million unsecured line of credit which has \$94.9 million outstanding at March 31, 2008. From time to time, the Company may also issue shares of its capital stock or preferred stock, issue equity units in the Operating Partnership or sell selected assets. The ability of the Company to finance its long-term liquidity requirements in such a manner will be affected by numerous economic factors affecting the manufactured housing community industry at the time, including the availability and cost of mortgage debt, the financial condition of the Company, the operating history of the Properties, the state of the debt and equity markets, and the general national, regional and local economic conditions. If it were to become necessary for the Company to approach the credit markets, the current volatility in the credit markets could make borrowing more expensive. See "Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2007. If the Company is unable to obtain additional debt or equity financing on acceptable terms, the Company's business, results of operations and financial condition will be adversely impacted.

At March 31, 2008, the Company's debt to total market capitalization approximated 73.7 percent (assuming conversion of all Common Operating Partnership Units to shares of common stock). The debt has a weighted average maturity of approximately 6.1 years and a weighted average interest rate of 5.2 percent.

Capital expenditures for the three months ended March 31, 2008 and 2007 included recurring capital expenditures of \$1.3 million and \$1.2 million, respectively.

Net cash used in investing activities was \$3.2 million for the three months ended March 31, 2008, compared to \$9.9 million cash provided by investing activities for the three months ended March 31, 2007. The difference is due to a \$13.0 million decrease in cash received from the payoff of notes receivable and officers' notes and increased investment in rental property of \$2.5 million, offset by an increase in proceeds from the sale of vacant land of \$2.4 million.

SUN COMMUNITIES, INC.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

LIQUIDITY AND CAPITAL RESOURCES, continued:

Net cash used in financing activities was \$9.2 million for the three months ended March 31, 2008, compared to \$21.7 million for the three months ended March 31, 2007. The difference is due to a \$44.7 million increase in net borrowings on lines of credit, a decrease in net proceeds from option exercises and the issuance of common stock and Operating Partnership Units, net, of \$1.2 million, decreased payments for deferred financing costs of \$0.1 million, and a \$4.5 million decrease in payments to retire preferred operating partnership units, offset by a decrease in net proceeds from notes payable and other debt of \$36.1 million and increased distributions of \$1.9 million.

SUPPLEMENTAL MEASURE:

Funds from operations ("FFO") is defined by the National Association of Real Estate Investment Trusts ("NAREIT") as net income (computed in accordance with generally accepted accounting principles), excluding gains (or losses) from sales of depreciable operating property, plus real estate-related depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. FFO is a non-GAAP financial measure that management believes is a useful supplemental measure of the Company's operating performance. Management generally considers FFO to be a useful measure for reviewing comparative operating and financial performance because, by excluding gains and losses related to sales of previously depreciated operating real estate assets and excluding real estate asset depreciation and amortization (which can vary among owners of identical assets in similar condition based on historical cost accounting and useful life estimates), FFO provides a performance measure that, when compared year over year, reflects the impact to operations from trends in occupancy rates, rental rates and operating costs, providing perspective not readily apparent from net income. Management believes that the use of FFO has been beneficial in improving the understanding of operating results of REITs among the investing public and making comparisons of REIT operating results more meaningful.

Because FFO excludes significant economic components of net income including depreciation and amortization, FFO should be used as an adjunct to net income and not as an alternative to net income. The principal limitation of FFO is that it does not represent cash flow from operations as defined by GAAP and is a supplemental measure of performance that does not replace net income as a measure of performance or net cash provided by operating activities as a measure of liquidity. In addition, FFO is not intended as a measure of a REIT's ability to meet debt principal repayments and other cash requirements, nor as a measure of working capital. FFO only provides investors with an additional performance measure. Other REITs may use different methods for calculating FFO and, accordingly, the Company's FFO may not be comparable to other REITs.

The following table reconciles net income to FFO and calculates FFO data for both basic and diluted purposes for the three months ended March 31, 2008 and 2007 (in thousands):

SUPPLEMENTAL MEASURE, continued:

RECONCILIATION OF NET INCOME (LOSS) TO FUNDS FROM OPERATIONS

FOR THE THREE MONTHS ENDED MARCH 31, 2008 AND 2007

(Amounts in thousands, except per share/OP unit amounts) (Unaudited)

	2008	2007
Net income (loss)	\$ (3,095) (1)	\$ 46
Adjustments:		
Depreciation and amortization	16,449	15,572
Valuation adjustment ⁽²⁾	—	(122)
Provision for state income tax ⁽³⁾	(389)	—
Gain on disposition of assets, net	(1,542)	(2)
Income (loss) allocated to minority interest	(394)	6
Funds from operations (FFO)	\$ 11,029	\$ 15,500
Weighted average common shares/OP Units outstanding:		
Basic	20,379	20,143
Diluted	20,436	20,287
FFO per weighted average Common Share/OP Unit - Basic	\$ 0.54	\$ 0.77
FFO per weighted average Common Share/OP Unit - Diluted	\$ 0.54	\$ 0.76

⁽¹⁾ Net loss for the three months ended March 31, 2008 includes a \$4.8 million equity loss from affiliate (Origen). The table below is adjusted to exclude this amount:

	2008
Net income (loss) as reported	\$ (3,095)
Equity loss from affiliate adjustment	4,830
Adjustment to loss allocated to common minority interest	(545)
Adjusted net income	\$ 1,190
Depreciation and amortization	16,449
Valuation adjustment	—

Edgar Filing: SUN COMMUNITIES INC - Form 10-Q

Provision for state income tax	(389)
Gain on disposition of assets, net	(1,542)
Income allocated to common minority interests	151
Adjusted Funds from operations (FFO)	\$ 15,859
Adjusted FFO per weighted avg. Common Share/OP Unit - Diluted	\$ 0.78

⁽²⁾ The Company had an interest rate swap, which matured in July 2007, which was not eligible for hedge accounting. Accordingly, the valuation adjustment (the theoretical non-cash profit or loss if the swap contract were to be terminated at the balance sheet date) was recorded in interest expense. If held to maturity the net cumulative valuation adjustment would approximate zero. The Company had no intention of terminating the swap prior to maturity and therefore excluded the valuation adjustment from FFO so as not to distort this comparative measure.

⁽³⁾ This tax provision represents the reversal of potential future state taxes payable on sale of company assets added back to FFO in a prior period.

Safe Harbor Statement

This Form 10-Q contains various "forward-looking statements" within the meaning of the Securities Act of 1933 and the Securities Exchange Act of 1934, and the Company intends that such forward-looking statements will be subject to the safe harbors created thereby. For this purpose, any statements contained in this filing that relate to prospective events or developments are deemed to be forward-looking statements. Words such as "believes," "forecasts," "anticipates," "intends," "plans," "expects," "may," "will" and similar expressions are intended to identify forward-looking statements. These forward-looking statements reflect the Company's current views with respect to future events and financial performance, but involve known and unknown risks and uncertainties, both general and specific to the matters discussed in this filing. These risks and uncertainties may cause the actual results of the Company to be materially different from any future results expressed or implied by such forward looking statements. Such risks and uncertainties include the national, regional and local economic climates, the ability to maintain rental rates and occupancy levels, competitive market forces, changes in market rates of interest, the ability of manufactured home buyers to obtain financing, the level of repossessions by manufactured home lenders and those risks and uncertainties referenced under the headings entitled "Risk Factors" contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2007, and the Company's filings with the Securities and Exchange Commission. The forward-looking statements contained in this Form 10-Q speak only as of the date hereof and the Company expressly disclaims any obligation to provide public updates, revisions or amendments to any forward-looking statements made herein to reflect changes in the Company's expectations of future events.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

The Company's principal market risk exposure is interest rate risk. The Company mitigates this risk by maintaining prudent amounts of leverage, minimizing capital costs and interest expense while continuously evaluating all available debt and equity resources and following established risk management policies and procedures, which include the periodic use of derivatives. The Company's primary strategy in entering into derivative contracts is to minimize the variability that changes in interest rates could have on its future cash flows. The Company generally employs derivative instruments that effectively convert a portion of its variable rate debt to fixed rate debt. The Company does not enter into derivative instruments for speculative purposes.

The Company has two interest rate swap agreements and an interest rate cap agreement. One of the swap agreements fixes \$25 million of variable rate borrowings at 4.84 percent through July 2009 and another of the swap agreements fixes \$25 million of variable rate borrowings at 5.28 percent through July 2012. The interest rate cap agreement has a cap rate of 9.99 percent, a notional amount of \$152.4 million and a termination date of April 28, 2009. Each of the Company's derivative contracts is based upon 90-day LIBOR.

The Company's variable rate debt totals \$216.5 million and \$146.2 million as of March 31, 2008 and 2007, respectively, which bears interest at various Prime and LIBOR/DMBS rates. If Prime or LIBOR/DMBS increased or decreased by 1.00 percent during the three months ended March 31, 2008 and 2007, the Company believes its interest expense would have increased or decreased by approximately \$0.5 million and \$0.4 million based on the \$213.5 million and \$153.2 million average balance outstanding under the Company's variable rate debt facilities for the three months ended March 31, 2008 and 2007, respectively.

ITEM 4. CONTROLS AND PROCEDURES

- (a) Under the supervision and with the participation of the Company's management, including the Chief Executive Officer, Gary A. Shiffman, and Chief Financial Officer, Karen J. Dearing, the Company evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this quarterly report, pursuant to Rule 13a-15 of the Securities Exchange Act of 1934 (the "Exchange Act"). Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective to ensure that information the Company is required to disclose in its filings with the Securities and Exchange Commission under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms, and to ensure that information required to be disclosed by the Company in the reports that it files under the Exchange Act is accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

- (b) There have been no changes in the Company's internal control over financial reporting during the quarterly period ended March 31, 2008, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
