

MIDDLESEX WATER CO  
Form 10-Q  
May 06, 2010

UNITED STATES SECURITIES AND EXCHANGE COMMISSION  
WASHINGTON, DC 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2010

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File Number 0-422

MIDDLESEX WATER COMPANY  
(Exact name of registrant as specified in its charter)

New Jersey  
(State of incorporation)

22-1114430  
(IRS employer identification no.)

1500 Ronson Road, Iselin, NJ 08830  
(Address of principal executive offices, including zip code)

(732) 634-1500  
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or such shorter period that the registrant was required to submit and post files).

Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company.

Large accelerated filer  Accelerated filer  Non-accelerated filer  Smaller reporting company

Edgar Filing: MIDDLESEX WATER CO - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act).

Yes  No

The number of shares outstanding of each of the registrant's classes of common stock, as of May 6, 2010: Common Stock, No Par Value: 13,573,813 shares outstanding.

MIDDLESEX WATER COMPANY  
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 – Basis of Presentation and Recent Matters

Middlesex Water Company (Middlesex) is the parent company and sole shareholder of Tidewater Utilities, Inc. (Tidewater), Tidewater Environmental Services, Inc. (TESI), Pinelands Water Company (Pinelands Water) and Pinelands Wastewater Company (Pinelands Wastewater) (collectively, Pinelands), Utility Service Affiliates, Inc. (USA), Utility Service Affiliates (Perth Amboy) Inc. (USA-PA), and Twin Lakes Utilities, Inc. (Twin Lakes). Southern Shores Water Company, LLC (Southern Shores) and White Marsh Environmental Systems, Inc. (White Marsh) are wholly-owned subsidiaries of Tidewater. The financial statements for Middlesex and its wholly-owned subsidiaries (the Company) are reported on a consolidated basis. All significant intercompany accounts and transactions have been eliminated.

The consolidated notes within the 2009 Annual Report on Form 10-K (the 2009 Form 10-K) are applicable to these financial statements and, in the opinion of the Company, the accompanying unaudited condensed consolidated financial statements contain all adjustments necessary (including normal recurring accruals) to present fairly the financial position as of March 31, 2010 and the results of operations and cash flows for the three month periods ended March 31, 2010 and 2009. Information included in the Condensed Consolidated Balance Sheet as of December 31, 2009, has been derived from the Company's audited financial statements for the year ended December 31, 2009 included in the 2009 Form 10-K.

Certain reclassifications have been made to the prior year financial statements to conform with the current period presentation.

Recent Accounting Guidance

Topic 855, Subsequent Events - In February 2010, the Financial Accounting Standards Board (the FASB) issued Accounting Standards Update (ASU) 2010-09, which amends Accounting Standards Codification (ASC) 855, Subsequent Events to address certain implementation issues related to an entity's requirement to perform and disclose subsequent-events procedures. ASU 2010-09 requires United States Securities and Exchange Commission (the SEC) filers to evaluate subsequent events through the date the financial statements are issued. All other entities are required to evaluate subsequent events through the date the financial statements are available to be issued. ASU 2010-09 exempts SEC filers from disclosing the date through which subsequent events have been evaluated. Adoption of ASU 2010-09 had no impact on the Company's results of operations, cash flows or financial position.

Topic 820, Fair Value Measurements and Disclosures - In January 2010, the FASB issued ASU 2010-06, which amends ASC 820, Fair Value Measurements and Disclosures, to add new requirements for disclosures about transfers into and out of Levels 1 and 2 and separate disclosures about purchases, sales, issuances, and settlements relating to Level 3 measurements. The ASU also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. Further, the ASU amends guidance on employers' disclosures about postretirement benefit plan assets under ASC 715 to require that disclosures be provided by classes of assets instead of by major categories of assets. However, unlike the proposed ASU, the final ASU does not require entities to provide sensitivity disclosures. The FASB will consider whether to require sensitivity disclosures jointly with the International Accounting Standards Board as part of a new convergence project on fair value measurement and disclosures. Adoption of ASU 2010-06 had no impact on the Company's results of operations, cash flows or financial position.

Index

Note 2 – Rate Matters

On March 17, 2010, Middlesex's application with the New Jersey Board of Public Utilities (NJBP) seeking permission to increase its base rates was partially approved, granting an increase in annual operating revenues of 13.57%, or \$7.8 million. The rate increase request was made to seek recovery of increased costs of operations, chemicals and fuel, electricity, taxes, labor and benefits, decreases in industrial and commercial customer demand patterns, as well as capital investment. The new rates are designed to recover these increased costs, as well as a return on invested capital in rate base of \$180.3 million based on a return on equity of 10.30%.

Effective January 1, 2010, Tidewater's Distribution System Improvement Charge (DSIC) was established at 1.11%. DSIC is a Delaware Public Service Commission (DEPSC) approved rate-mechanism that allows water utilities to recover investment in non-revenue producing capital improvements to the water system between base rate proceedings.

Note 3 – Capitalization

Common Stock

In April 2010, the Company received approval from the NJBP to issue up to 2.0 million shares of common stock in the form of a follow-on offering. Proceeds from the common stock offering will be used to retire short-term debt.

During the three months ended March 31, 2010, there were 37,256 common shares (approximately \$0.6 million) issued under the Company's Amended and Restated Dividend Reinvestment and Common Stock Purchase Plan (DRP).

Long-term Debt

In February 2010, Tidewater closed on a \$1.1 million loan with the Delaware State Revolving Fund (SRF). This loan allows, but does not obligate, Tidewater to draw down against a General Obligation Note for a specific project no later than July 31, 2011. The interest rate on any draw-down will be set at 3.45% with a final maturity of August 1, 2031 on the amount actually borrowed.

In March 2009, Tidewater closed on a \$22.0 million DEPSC approved loan. In 2009, Tidewater borrowed \$12.0 million under this loan. In March 2010, Tidewater borrowed the remaining \$10.0 million at a rate of 5.69% with a final maturity in January 2030.

Fair Value of Financial Instruments

The following methods and assumptions were used by the Company in estimating its fair value disclosure for financial instruments for which it is practicable to estimate that value. The carrying amounts reflected in the consolidated balance sheets for cash and cash equivalents, trade receivables, accounts payable and notes payable approximate their respective fair values due to the short-term maturities of these instruments. The fair value of the Company's long-term debt relating to First Mortgage and SRF Bonds is based on quoted market prices for similar issues. The carrying amount and fair market value of the Company's bonds were as follows:

Index

	(Thousands of Dollars)			
	March 31, 2010		December 31, 2009	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
First Mortgage Bonds	\$ 86,996	\$ 84,723	\$ 87,230	\$ 84,429
SRF Bonds	\$ 991	\$ 1,016	\$ 1,061	\$ 1,091

For other long-term debt for which there was no quoted market price, it was not practicable to estimate their fair value. The carrying amount of these instruments was \$49.9 million at March 31, 2010 and \$40.3 million at December 31, 2009. Customer advances for construction have a carrying amount of \$20.7 million at March 31, 2010 and \$20.8 million at December 31, 2009. Their relative fair values cannot be accurately estimated since future refund payments depend on several variables, including new customer connections, customer consumption levels and future rate increases.

## Note 4 – Earnings Per Share

Basic earnings per share (EPS) are computed on the basis of the weighted average number of shares outstanding during the period presented. Diluted EPS assumes the conversion of both the Convertible Preferred Stock \$7.00 Series and the Convertible Preferred Stock \$8.00 Series.

	(In Thousands Except per Share Amounts)			
	2010		2009	
		Shares		Shares
Basic:

Preferred Dividend	(52 )		(52 )	
Earnings Applicable to Common Stock	\$1,508	13,538	\$1,309	13,413
Basic EPS	\$0.11		\$0.10	
Diluted:				
Earnings Applicable to Common Stock	\$1,508	13,538	\$1,309	13,413
\$7.00 Series Preferred Dividend	24	167	24	167
\$8.00 Series Preferred Dividend	14	96	14	96
Adjusted Earnings Applicable to Common Stock	\$1,546	13,801	\$1,347	13,676
Diluted EPS	\$0.11		\$0.10	

## Note 5 – Business Segment Data

The Company has identified two reportable segments. One is the regulated business of collecting, treating and distributing water on a retail and wholesale basis to residential, commercial, industrial and fire protection customers in parts of New Jersey, Delaware and Pennsylvania. This segment also includes regulated wastewater systems in New Jersey and Delaware. The Company is subject to regulations as to its rates, services and other matters by New Jersey, Delaware and Pennsylvania with respect to utility services within these states. The other segment is primarily comprised of non-regulated contract services for the operation and maintenance of municipal and private water and wastewater systems in New Jersey and Delaware. Inter-segment transactions relating to operational costs are treated as pass-through expenses. Finance charges on inter-segment loan activities are based on interest rates that are below what

would normally be charged by a third party lender.

Consolidated Assets	\$ 462,771	\$ 458,086

## Note 6 – Short-term Borrowings

As of March 31, 2010, the Company has established lines of credit aggregating \$58.0 million. At March 31, 2010, the outstanding borrowings under these credit lines were \$37.4 million at a weighted average interest rate of 1.37 %.

The weighted average daily amounts of borrowings outstanding under the Company's credit lines and the weighted average interest rates on those amounts were \$41.7 million and \$36.2 million at 1.49% and 1.98% for the three months ended March 31, 2010 and 2009, respectively.

The maturity dates for the \$37.4 million outstanding as of March 31, 2010 are as follows: \$25.4 million in April 2010 and \$12.0 million in May 2010.

Interest rates for short-term borrowings under the lines of credit are below the prime rate with no requirement for compensating balances.

Index

## Note 7 – Commitments and Contingent Liabilities

## Guarantees

USA-PA operates the City of Perth Amboy's (Perth Amboy) water and wastewater systems under a service contract agreement (the Agreement) through June 30, 2018. Under the Agreement, USA-PA receives a fixed fee and a variable fee based on increased system billing. Scheduled fixed fee payments for 2010 are \$8.4 million. The fixed fees will increase over the term of the contract to \$10.2 million.

In connection with the Agreement, Perth Amboy, through the Middlesex County Improvement Authority, issued approximately \$68.0 million in three series of bonds. In 1998, as part of Agreement negotiations, Middlesex agreed to guarantee debt service payments on one of those series of bonds, designated the Series C Serial Bonds, in the principal amount of approximately \$26.3 million. Perth Amboy guaranteed the two other series of bonds. The Series C Serial Bonds have various maturity dates with the final maturity date on September 1, 2015. As of March 31, 2010, approximately \$19.7 million of the Series C Serial Bonds remained outstanding. To date, Middlesex has not had to fund any debt service obligations as guarantor.

We are obligated to perform under the guarantee in the event notice is received from the Series C Serial Bonds trustee of an impending debt service deficiency. Our obligation in that case would be to pay scheduled debt service payments as they come due. If Middlesex funds any debt service obligations as guarantor, there is a provision in the agreement that requires Perth Amboy to reimburse us. There are other provisions in the agreement that we believe make it unlikely that we will be required to perform under the guarantee, such as scheduled annual rate increases for water and wastewater services as well as rate increases due to unforeseen circumstances. In the event revenues from customers could not satisfy the reimbursement requirements, Perth Amboy has Ad Valorem taxing powers, which could be used to raise the needed amount.

## Water Supply

Middlesex has an agreement with the New Jersey Water Supply Authority (NJWSA) for the purchase of untreated water through November 30, 2023, which provides for an average purchase of 27 million gallons a day (mgd). Pricing is set annually by the NJWSA through a public rate making process. The agreement has provisions for additional pricing in the event Middlesex overdrafts or exceeds certain monthly and annual thresholds.

Middlesex also has an agreement with a non-affiliated regulated water utility for the purchase of treated water. This agreement, which expires February 27, 2011, provides for the minimum purchase of 3 mgd of treated water with provisions for additional purchases.

Purchased water costs are shown below:

(In Thousands)  
Three Months Ended  
March 31,  
2010      2009

Purchased Water		
Treated	\$ 719	\$ 541
Untreated	612	598
Total Costs	\$ 1,331	\$ 1,139

Index

Construction

The Company expects to spend approximately \$33.2 million on its construction program in 2010. The actual amount and timing of capital expenditures is dependent on customer growth, residential new home construction and sales and project scheduling. There is no assurance that projected customer growth and residential new home construction and sales will occur.

Litigation

The Company is a defendant in lawsuits in the normal course of business. We believe the resolution of pending claims and legal proceedings will not have a material adverse effect on the Company's consolidated financial statements.

Change in Control Agreements

The Company has Change in Control Agreements with certain of its officers that provide compensation and benefits in the event of termination of employment in connection with a change in control of the Company.

Note 8 – Employee Benefit Plans

Pension Benefits

The Company's noncontributory defined benefit pension plan (the Pension Plan) covers substantially all employees with more than 1,000 hours of service and who were hired prior to March 31, 2007. Employees hired after March 31, 2007 are not eligible to participate in this plan, but do participate in a defined contribution plan that provides an annual contribution at the discretion of the Company, based upon a percentage of the participants' compensation. For the three months ended March 31, 2010 and 2009, the Company made Pension Plan cash contributions of \$0.4 million and \$0.5 million, respectively. The Company expects to make additional Pension Plan cash contributions of approximately \$2.6 million over the remainder of the current year. The Company also maintains an unfunded supplemental retirement benefit plan for certain active and retired Company Officers and currently pays \$0.3 million in annual benefits to the retired participants.

Postretirement Benefits Other Than Pensions

The Company's postretirement plan other than pensions (the Other Benefits Plan) covers substantially all of its retired employees. Employees hired after March 31, 2007 are not eligible to participate in this plan. Coverage includes healthcare and life insurance. For the three months ended March 31, 2010 and 2009, the Company made Other Benefits Plan cash contributions of \$0.5 million and \$0.3 million, respectively. The Company expects to make additional Other Benefits Plan cash contributions of approximately \$1.5 million to the plan over the remainder of the current year.

Index

The following table sets forth information relating to the Company's periodic costs for its employee retirement benefit plans:

	(In Thousands)			
	Pension Plan		Other Benefits Plan	
	Three Months Ended March 31,			
	2010	2009	2010	2009
Service Cost	\$349	\$343	\$256	\$223
Interest Cost	557	525	334	272
Expected Return on Assets	(505 )	(401 )	(190 )	(149 )
Amortization of Unrecognized Losses	127	154	133	123
Amortization of Unrecognized Prior Service Cost	2	2	-	-
Amortization of Transition Obligation	-	-	34	34
Net Periodic Benefit Cost	\$530	\$623	\$567	\$503

## Stock Based Compensation

The Company has a stock compensation plan for its employees (the Employee Stock Compensation Plan). The Company maintains an escrow account for 93,415 shares of the Company's common stock for the Employee Stock Compensation Plan. Such stock is subject to an agreement requiring forfeiture by the employee in the event of termination of employment within five years of the award other than as a result of retirement, death, disability or change in control. The maximum number of shares authorized for grant under the Employee Stock Compensation Plan is 300,000 shares, for which there remains 248,405 unissued shares.

Compensation expense is determined by the market value of the stock on the date of the award and is being amortized over a five-year period. Compensation expense for each of the three month periods ended March 31, 2010 and 2009 was \$0.1 million. Total unearned compensation related to restricted stock at March 31, 2010 and 2009 was \$0.9 million and \$0.8 million, respectively.

Index

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the unaudited condensed consolidated financial statements of the Company included elsewhere herein and with the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2009.

Forward-Looking Statements

Certain statements contained in this periodic report and in the documents incorporated by reference constitute "forward-looking statements" within the meaning of Section 21E of the Securities Exchange Act of 1934 and Section 27A of the Securities Act of 1933. The Company intends that these statements be covered by the safe harbors created under those laws. These statements include, but are not limited to:

- statements as to expected financial condition, performance, prospects and earnings of the Company;
- statements regarding strategic plans for growth;
- statements regarding the amount and timing of rate increases and other regulatory matters, including the recovery of certain costs recorded as regulatory assets;
- statements as to the Company's expected liquidity needs during the upcoming fiscal year and beyond and statements as to the sources and availability of funds to meet its liquidity needs;
- statements as to expected rates, consumption volumes, service fees, revenues, margins, expenses and operating results;
- statements as to the Company's compliance with environmental laws and regulations and estimations of the materiality of any related costs;
- statements as to the safety and reliability of the Company's equipment, facilities and operations;
- statements as to financial projections;
- statements as to the ability of the Company to pay dividends;
- statements as to the Company's plans to renew municipal franchises and consents in the territories it serves;
- expectations as to the amount of cash contributions to fund the Company's retirement benefit plans, including statements as to anticipated discount rates and rates of return on plan assets;
- statements as to trends; and
- statements regarding the availability and quality of our water supply.

These forward-looking statements are subject to risks, uncertainties and other factors that could cause actual results to differ materially from future results expressed or implied by the forward-looking statements. Important factors that could cause actual results to differ materially from anticipated results and outcomes include, but are not limited to:

- the effects of general economic conditions;
- increases in competition in the markets served by the Company;
- the ability of the Company to control operating expenses and to achieve efficiencies in its operations;
- the availability of adequate supplies of water;
- actions taken by government regulators, including decisions on rate increase requests;
- new or additional water quality standards;
- weather variations and other natural phenomena;
- the existence of financially attractive acquisition candidates and the risks involved in pursuing those acquisitions;
- acts of war or terrorism;
- significant changes in the housing starts in Delaware;
- the availability and cost of capital resources;
- the ability to translate Preliminary Survey & Investigation charges into viable projects; and
- other factors discussed elsewhere in this quarterly report.

Index

Many of these factors are beyond the Company's ability to control or predict. Given these uncertainties, readers are cautioned not to place undue reliance on any forward-looking statements, which only speak to the Company's understanding as of the date of this report. The Company does not undertake any obligation to release publicly any revisions to these forward-looking statements to reflect events or circumstances after the date of this report or to reflect the occurrence of unanticipated events, except as may be required under applicable securities laws.

For an additional discussion of factors that may affect the Company's business and results of operations, see Item 1A. - Risk Factors in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2009.

Overview

The Company has operated as a water utility in New Jersey since 1897, in Delaware through our wholly-owned subsidiary, Tidewater, since 1992 and in Pennsylvania through our wholly-owned subsidiary, Twin Lakes, since November 2009. We are in the business of collecting, treating and distributing water for domestic, commercial, municipal, industrial and fire protection purposes. We also operate a New Jersey municipal water and wastewater system under contract and provide wastewater services in New Jersey and Delaware through our subsidiaries. We are regulated as to rates charged to customers for water and wastewater services, as to the quality of water service we provide and as to certain other matters in New Jersey, Delaware and Pennsylvania. Only our USA, USA-PA and White Marsh subsidiaries are not regulated utilities.

Our New Jersey water utility system (the Middlesex System) provides water services to approximately 59,800 retail customers, primarily in central New Jersey. The Middlesex System also provides water service under contract to municipalities in central New Jersey with a total population of approximately 303,000. In partnership with our subsidiary, USA-PA, we operate the water supply system and wastewater system for the City of Perth Amboy, New Jersey. Our Bayview subsidiary provides water services in Downe Township, New Jersey. Our other New Jersey subsidiaries, Pinelands Water and Pinelands Wastewater, provide water and wastewater services to residents in Southampton Township, New Jersey.

USA provides residential customers in New Jersey and Delaware water service line and sewer lateral maintenance programs called LineCare<sup>SM</sup> and LineCare+<sup>SM</sup>, respectively.

Our Delaware subsidiaries, Tidewater and Southern Shores, provide water services to approximately 33,200 retail customers in New Castle, Kent and Sussex Counties, Delaware. Our TESI subsidiary provides wastewater services to approximately 1,900 residential retail customers. Tidewater's subsidiary, White Marsh, services approximately 7,200 customers in Kent and Sussex Counties through 68 operations and maintenance contracts. We expect the growth of our regulated wastewater operations in Delaware will eventually become a more significant component of our consolidated operations.

Our Pennsylvania subsidiary, Twin Lakes, provides water services to approximately 120 retail customers in the Township of Shohola, Pike County, Pennsylvania.

The majority of our revenue is generated from retail and contract water services to customers in our service areas. We record water service revenue as such service is rendered and include estimates for amounts unbilled at the end of the period for services provided after the last billing cycle. Fixed service charges are billed in advance by our subsidiary, Tidewater, and are recognized in revenue as the service is provided.

## Index

Our ability to increase operating income and net income is based significantly on four factors: weather, adequate and timely rate relief, effective cost management, and customer growth. These factors are evident in the discussions below which compare our results of operations with prior periods.

### Recent Developments

#### Rate Increases

On March 17, 2010, Middlesex's application with the NJBPU seeking permission to increase its base rates was partially approved, granting an increase in annual operating revenues of 13.57%, or \$7.8 million. The rate increase request was made to seek recovery of increased costs of operations, chemicals and fuel, electricity, taxes, labor and benefits, decreases in industrial and commercial customer demand patterns, as well as capital investment. The new rates are designed to recover these increased costs, as well as a return on invested capital in rate base of \$180.3 million based on a return on equity of 10.30%.

Effective January 1, 2010, Tidewater's DSIC was established at 1.11%. DSIC is a DEPSC approved rate-mechanism that allows water utilities to recover investment in non-revenue producing capital improvements to the water system between base rate proceedings.

#### Outlook

Our revenues are expected to increase in 2010 from the full year's effect of rate increases granted to Tidewater in September 2009, the January 1, 2010 Tidewater DSIC rate implementation and the March 2010 rate increase granted to Middlesex.

In addition to changes in rates we charge our customers, revenues and, ultimately, earnings may also be influenced by weather. These changes, as well as increases in capital expenditures and operating costs, are the primary factors in determining the need for future rate increase requests. We continue to implement plans to streamline operations and reduce operating costs.

Ongoing economic conditions continue to negatively impact our customers' water consumption, particularly the level of water usage by our commercial and industrial customers in our Middlesex system. We are unable to determine when these customers' water demands may return to previous levels, or if a reduced level of demand will continue indefinitely. The decrease in demand by our commercial and industrial customers in our Middlesex system was one of the factors that required our Middlesex rate increase.

As a result of ongoing challenging economic conditions impacting the pace of new residential home construction, there may be an increase in the amount of Preliminary Survey & Investigation costs that will not be currently recoverable in rates. In addition, the impact of the depressed national and local economies on the residential housing market had resulted in the suspension of construction activities on the North Carolina water and wastewater facility we had intended to own and operate. We are not obligated to assume ownership of the facilities until completion of construction by the present owner and until homes are occupied and customers are connected. We entered into this agreement in 2008 and have invested approximately \$0.6 million. Given the continued effect of the economy on the pace of new housing construction, we do not expect construction on this project to resume in a timeframe acceptable to us. We have therefore elected to exercise our rights under the agreement to seek recovery of our investment.

Index

In April 2010, the Company received approval from the NJBPU to issue up to 2.0 million shares of common stock. The proceeds from the common stock offering will be used to retire short-term debt. We currently expect our level of short-term debt borrowing to decrease in 2010 as compared to 2009.

The return on assets held in our retirement benefit plans during 2009 resulted in an increase in the amount available to fund current and future obligations and has helped stabilize retirement plan benefit expenses and retirement plan cash contributions in 2010.

Our strategy includes continued revenue growth through acquisitions, internal expansion, contract operations and when necessary, rate relief. We will continue to pursue opportunities in both the regulated and non-regulated sectors that we believe complement existing capabilities and ultimately increase shareholder value.

## Operating Results by Segment

The Company has two operating segments, Regulated and Non-Regulated. Our Regulated segment contributed 88% of total revenues and 81% of net income for the three months ended March 31, 2010. This segment contributed 87% of total revenues and 80% of net income over the three months ended March 31, 2009. The discussion of the Company's results of operations is on a consolidated basis, and includes significant factors by subsidiary. The segments in the tables included below consist of the following companies: Regulated-Middlesex, Tidewater, Pinelands, Southern Shores, TESI and Twin Lakes; Non-Regulated- USA, USA-PA, and White Marsh.

## Results of Operations – Three Months Ended March 31, 2010

	(In Thousands)					
	Three Months Ended March 31,					
	2010			2009		
	Regulated	Non-Regulated	Total	Regulated	Non-Regulated	Total
Revenues	\$19,019	\$2,626	\$21,645	\$17,976	\$2,607	\$20,583
Operations and maintenance expenses	11,539	2,055	13,594	10,937	2,106	13,043
Depreciation expense	2,163	41	2,204	2,049	37	2,086
Other taxes	2,487	72	2,559	2,391	61	2,452
Operating income	2,830	458	3,288	2,599	403	3,002
Other income, net	373	74	447	311	98	409
Interest expense	1,383	41	1,424	1,335	57	1,392
Income taxes	554	197	751	489	169	658
Net income	\$1,266	\$294	\$1,560	\$1,086	\$275	\$1,361

## Operating Revenues

Operating revenues for the three months ended March 31, 2010 increased \$1.1 million from the same period in 2009. This increase was primarily related to the following factors:

- Revenues in our Middlesex System increased \$0.4 million, primarily as a result of increased revenues of \$0.2 million from contract sales to municipalities and increased revenues of \$0.2 million from the effects of the purchase

water adjustment clause implemented on July 1, 2009. Water consumption across our residential, commercial and industrial customer classes was consistent with the first quarter of 2009 but below historical average usage. We are unable to determine when these customers' water demands may return to previous levels, or if the decline in demand will continue indefinitely. In addition, the aforementioned rate increase of 13.57%, which became effective on March 17, 2010, had minimal impact on first quarter 2010 revenues, but is expected to result in approximately \$7.8 million in additional annual revenues.

Index

- Revenues in our Tidewater system increased \$0.7 million. Increased revenue of \$0.4 million is attributable to increased rates that went into effect in late March 2009. Increased revenues of \$0.1 million resulted from increased water consumption. New customer growth and connection fees added \$0.2 million of revenue.

Operation and Maintenance Expense

Operation and maintenance expenses for the three months ended March 31, 2010 increased \$0.6 million from the same period in 2009. This increase was primarily related to the following factors:

- Materials and supplies and outside contractor costs increased \$0.3 million, primarily due to a higher incidence of weather-related water main breaks in our Middlesex system.
- Labor costs at our regulated entities increased \$0.2 million, primarily due to increased overtime incurred in connection with:
  - § the aforementioned higher incidence of water main breaks in our Middlesex system; and
  - § snow removal and other storm-related costs due to large snow storms in January and February 2010 affecting both our New Jersey and Delaware operations.
- Production costs increased \$0.2 million, primarily due to:
  - § increased chemical and residuals disposal expenses of \$0.2 million from abnormally high amounts of rainfall in March 2010, which caused decreased quality of water;
  - § increased purchased water costs of \$0.2 million in our Middlesex system, primarily from increased rates; and
  - § decreased purchased power costs of \$0.2 million resulting from decreased water production in our Middlesex system.
- Facilities maintenance expenses increased \$0.1 million, primarily due to snow removal costs.
- All other operating and maintenance expense categories decreased \$0.2 million.

Depreciation

Depreciation expense for the three months ended March 31, 2010 increased \$0.1 million from the same period in 2009 due to a higher level of utility plant in service.

Other Taxes

Other taxes for the three months ended March 31, 2010 increased \$0.1 million from the same period in 2009, primarily due to increased payroll taxes and increased taxes on higher taxable gross revenues.

## Index

### Interest Charges

Interest charges for the three months ended March 31, 2010 remained consistent with the same period in 2009, primarily due to:

- increased interest charges on Tidewater long-term debt resulting from higher average long-term debt outstanding in the first quarter of 2010 as compared to the first quarter of 2009; and
- decreased interest charges on Middlesex long-term debt resulting from lower average long-term debt outstanding in the first quarter of 2010 as compared to the first quarter of 2009.

### Other Income, net

Other Income, net for the three months ended March 31, 2010 remained consistent with the same period in 2009, primarily due to increased Allowance for Funds Used During Construction from higher capitalized interest resulting from our ongoing capital program offset by decreased interest income from short term investments.

### Income Taxes

Income taxes for the three months ended March 31, 2010 increased \$0.1 million from the same period in 2009, primarily resulting from increased operating income in 2010 as compared to 2009.

### Net Income and Earnings Per Share

Net income for the three months ended March 31, 2010 increased \$0.2 million from the same period in 2009. Basic and diluted earnings per share increased to \$0.11 for the three months ended March 31, 2010 as compared to \$0.10 for the three months ended March 31, 2009.

### Liquidity and Capital Resources

#### Operating Cash Flows

Cash flows from operations are largely based on four factors: weather, adequate and timely rate increases, effective cost management and customer growth. The effect of those factors on net income is discussed in results of operations.

For the three months ended March 31, 2010, cash flows from operating activities increased \$0.1 million to \$5.9 million. As described more fully in the Results of Operations section above, increased earnings was the primary reason for the increase in cash flow. The \$5.9 million of net cash flow from operations enabled us to fund approximately 100% of our utility plant expenditures internally for the period.

#### Capital Expenditures and Commitments

To fund our capital program, we use internally generated funds, short-term and long-term debt borrowings and, when market conditions are favorable, proceeds from sales of common stock under our DRP and common stock offerings. See below for a more detailed discussion regarding the funding of our capital program.

The capital spending program for 2010 is currently estimated to be \$33.2 million. Through March 31, 2010, we have expended \$5.2 million and expect to incur approximately \$28.0 million for capital projects for the remainder of 2010.

Index

We currently project that we may be required to expend approximately \$55.0 million for capital projects in 2011 and 2012. The exact amount is dependent on customer growth, residential housing sales, project scheduling and refinement of engineering estimates for certain capital projects.

To fund our capital program for the remainder of 2010, we plan on utilizing:

- Internally generated funds
- Proceeds from the sale of common stock through the DRP
- Funds available and held in trust under existing New Jersey SRF loans (currently, \$4.1 million) and Delaware SRF loans (currently, \$3.0 million). The SRF programs provide low cost financing for projects that meet certain water quality and system improvement benchmarks.
- Short-term borrowings, if necessary, through \$58.0 million of available lines of credit with several financial institutions. At March 31, 2010, the outstanding borrowings under these credit lines were \$37.4 million.

Recent Accounting Pronouncements – See Note 1 of the Notes to Unaudited Condensed Consolidated Financial Statements for a discussion of recent accounting pronouncements.

Item 3. Quantitative and Qualitative Disclosures of Market Risk

The Company is subject to the risk of fluctuating interest rates in the normal course of business. Our policy is to manage interest rates through the use of fixed rate long-term debt and, to a lesser extent, short-term debt. The Company's interest rate risk related to existing fixed rate, long-term debt is not material due to the term of the majority of our First Mortgage Bonds, which have final maturity dates ranging from 2018 to 2038. Over the next twelve months, approximately \$4.1 million of the current portion of 27 existing long-term debt instruments will mature. Applying a hypothetical change in the rate of interest charged by 10% on those borrowings, would not have a material effect on our earnings.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

As required by Rule 13a-15 under the Securities and Exchange Act of 1934 (the Exchange Act), an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures was conducted by the Company's Chief Executive Officer along with the Company's Chief Financial Officer. Based upon that evaluation, the Company's Chief Executive Officer and the Company's Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective as of the end of the period covered by this Report.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in Company reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in Company reports filed under the Exchange Act is accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer as appropriate, to allow timely decisions regarding disclosure.

Index

Material Change in Internal Controls

Effective January 1, 2010, the Company replaced its existing general ledger system with a new general ledger system, which is a module of an enterprise resource planning (ERP) system. The Company is continuing to implement and integrate other modules of the ERP system including human resources, fixed asset, inventory/purchasing, customer service and work asset management that in the future will provide the Company with a fully integrated management information system.

The implementation of the new general ledger system and the related workflow changes have resulted in material changes to the Company's internal controls over financial reporting (as that term is defined in Rule 13(a)-15 under the Exchange Act). In connection with the implementation of the new general ledger system, the Company is continuing to replace and supplement existing internal controls over financial reporting, as appropriate. The decision to implement the ERP system was made to improve the efficiency and effectiveness of our management and financial reporting system and was not made in response to any actual or perceived deficiencies in the Company's internal control over financial reporting.

We continually review our disclosure controls and procedures and make changes, as necessary, to ensure the quality of our financial reporting. Other than the changes made related to the implementation of the new general ledger system and the related work flow changes, there have been no changes in internal control over financial reporting that occurred in the first quarter of 2010 that have materially affected, or are reasonably likely to materially affect the Company's internal control over financial reporting.
