FOR IMMEDIATE RELEASE

INCUMBENT BEZEQ PILOTS WIMAX SERVICES IN ISRAEL
USING ALVARION'S BREEZEMAX(TM)

Broadband Services Being Provided to Underserved Community in Negev Desert

TEL AVIV, Israel, September 15, 2005 -- Alvarion Ltd. (NASDAQ:ALVR), the world's leading provider of wireless broadband solutions and specialized mobile networks, today announced that Bezeq, the Israel Telecommunication Corporation incumbent, has purchased and deployed a pilot using its WiMAX-ready equipment, BreezeMAX 3500, to provide broadband in the southern Israeli city of Rahat, an underserved community located in the Negev desert. The first WiMAX system in Israel, operating in the 3.5 GHz range, is initially serving public institutions, such as schools and medical facilities where the need for broadband is greatest, and it will have the most impact on people's daily lives. Bezeq is now developing plans to extend the network to other communities in southern Israel.

This WiMAX pilot builds on an already strong relationship between the two companies. Over the years, Alvarion has supplied Bezeq with wireless systems to deploy thousands of wireless connections for voice and data services throughout Israel.

"We are pleased to supply Bezeq with our industry leading BreezeMAX system to bring broadband services to the underserved areas of Israel," said Zvi Slonimsky, CEO of Alvarion. "We are encouraged by the fact that spectrum was expressly allocated for this purpose and are optimistic about additional uses

Edgar Filing: ALVARION LTD - Form 6-K

and more spectrum in 3.5 GHz."

BreezeMAX is Alvarion's WiMAX-ready platform that uses OFDM technology for advanced non-line-of-sight (NLOS) functionality to enable operators to offer broadband IP-based data and voice services over a large service area. Its carrier-class design supports broadband speeds and quality of service (QoS) to enable carriers to offer multiple services to thousands of subscribers from a single base station. BreezeMAX networks are already installed with over 100 operators in more than 30 countries.

About Bezeq The Israel Telecommunication Corp., Limited

Bezeq is Israel's national telecommunications provider. Established in 1984, the company has led Israel into the new era of communications, based on the most advanced technologies and services. Bezeq and its subsidiaries offer the full range of telecommunication services including domestic, international and cellular phone services; Internet, ADSL, and other data communications; leased lines, and corporate networks.

About Alvarion

With more than 2 million units deployed in 130 countries, Alvarion is the worldwide leader in wireless broadband, providing systems to carriers, ISPs and private network operators, and also in extending coverage of GSM and CDMA mobile networks to developing countries and other hard to serve areas.

Leading the WiMAX revolution, Alvarion has the most extensive deployments and proven product portfolio in the industry covering the full range of frequency bands with both fixed and mobile solutions. Alvarion's products enable the delivery of business and residential broadband access, corporate VPNs, toll quality telephony, mobile base station feeding, hotspot coverage extension, community interconnection, public safety communications, and mobile voice and data. Alvarion works with several global OEM providers and more than 200 local partners to support its diverse global customer base in solving their last-mile challenges.

As a wireless broadband pioneer, Alvarion has been driving and delivering innovations for more than 10 years from core technology developments to creating and promoting industry standards. Leveraging its key roles in the IEEE and HiperMAN standards committees and experience in deploying OFDM-based systems, the Company's prominent work in the WiMAX Forum(TM) is focused on increasing the widespread adoption of standards-based products in the wireless broadband market and leading the entire industry to mobile WiMAX solutions.
