Alvarion Reports First Quarter 2007 Results

TEL AVIV, Israel - May 2, 2007 - Alvarion Ltd. (NASDAQ: ALVR), the leading provider of WiMAX and wireless broadband solutions, today announced financial results for the first quarter ended March 31, 2007.

#### Highlights:

- · Positive momentum continued with revenues of \$52.1 million;
  - · 10 customers with over \$1 million in revenue each;
  - · Non-GAAP EPS of \$0.02; GAAP loss per share of (\$0.01);
    - · Gross margin of 51%;
- · Shipped BreezeMAX 802.16e platform to over 20 customers;
  - · Record BreezeMAX revenues of \$25 million;

In the first quarter of 2007, revenues increased to \$52.1 million, a 4% increase from \$50.3 million in the fourth quarter of 2006 and a 19% increase from \$43.6 million in the first quarter of 2006. BreezeMAX revenue in Q1 2007 was approximately \$25 million, 48% of total revenue, compared to about \$24 million in Q4.

GAAP net loss in the first quarter of 2007 was (\$623,000), or (\$0.01) per share, which included income from discontinued operations of \$436,000. Net loss from continuing operations was (\$1.1) million or (\$0.02) loss per share, compared to a loss from continuing operations of (\$282,000), or (\$0.00) per share in Q4. The increased loss was mainly a result of additional investment in WiMAX and the effects of currency fluctuations. Loss from continuing operations in the first quarter of 2006 was (\$574,000), or (\$0.01) per share.

Excluding discontinued operations, amortization of acquired intangibles and deferred stock compensation, on a non-GAAP basis, the company reported a net profit of \$1.3

million, or \$0.02 per diluted share, compared with a non-GAAP net profit of \$2.1 million, or \$0.03 per diluted share in the fourth quarter of 2006, and a non-GAAP net profit of \$1.5 million, or \$0.02 per diluted share in Q1 2006.

The company generated positive cash flow from operating activities of approximately \$4 million during Q1 2007. Cash reserves as of March 31, 2007 totaled approximately \$120 million, up from \$118.4 million in the previous quarter.

For supplemental information to facilitate evaluation of the impact of non-cash charges and comparisons with historical results of continuing and discontinued operations, see the attached table showing the detailed reconciliation of GAAP to non-GAAP results for Q1 2007 and the comparative quarters.

#### Comments from Management

"We are pleased by the momentum of Q1", said Tzvika Friedman, President and CEO of Alvarion. "Strong BreezeMAX shipments of approximately \$33 million and a sequential revenue increase during a quarter that is typically affected by seasonal weakness, show the impact of the growth drivers we've been pointing to, as well as good execution by our team.

"The demand for WiMAX, particularly in emerging markets, is growing and at the end of Q1, we had more than 150 commercial deployments among satisfied customers generating revenue from WiMAX services. We also had about 220 active trials, many of them with operators interested in deploying mobile WiMAX. Our 4Motion solution is among the most advanced in the industry and we achieved several important technical milestones during Q1. These included initial interoperability with numerous devices using embedded chipsets from a variety of vendors in preparation for certification of 802.16e systems. We also demonstrated mobile TV over WiMAX at CTIA and, together with Intel, we conducted the first live demo of Matrix B MIMO using their new WiMAX chip for the Centrino platform."

#### Q2 2007 Guidance

The company's revenue guidance for Q2 2007 is \$53 to \$57 million. Based on this revenue range, non-GAAP per share results from continuing operations are expected to range between \$0.00 and \$0.03. GAAP per share results are expected to range between (\$0.00) and \$(0.03).
