Holland, Michigan - Macatawa Bank Corporation Reports Strong Start for 2004.

Macatawa Bank Corporation today announced net income for the first quarter of 2004. Net income totaled \$2.87 million, an increase of 2% as compared to first quarter 2003 net income of \$2.81 million. Earnings per share on a diluted basis were \$.34 for the quarter, which was an increase of 3% over the same period of the prior year. Total assets grew by \$55.3 million during the quarter to \$1.46 billion spurred by the second highest loan increase in the Company's history behind the fourth quarter of last year.

Our investments in people, products and branches have continued to drive our success, said Ben Smith, Chairman and CEO. Within the last six months four new full service branches and two limited service branches have been opened. Also, staff in the loan, trust and investment services areas have been expanded to take advantage of opportunities in the market place. Our branch expansion continues to drive excellent growth in our core deposit base, added Mr. Smith. During the first quarter, over 5,000 new checking accounts were opened, which was more than double that of the first quarter of the prior year. It is expected that, as these new accounts develop into more full relationships, they will further contribute to deposit growth. Also, our new branches in Grand Rapids are showing growth rates as fast as we have ever experienced. Our people and their high service quality standards are at the heart of these successes, said Mr. Smith. Total portfolio loans were up by \$67.1 million for the quarter, or 23% on an annualized basis. Regarding the lending success, Mr. Smith stated, Our existing and new customers continue to respond well to our lending approach, which involves not only satisfying their lending needs but also helping them succeed financially with a wide array of financial products and services.

The increase in quarterly earnings resulted from growth in net interest income. First quarter net interest income totaled \$11.4 million, an increase of 19%, as compared to the 2003 quarter. The net interest income improvement was driven primarily by the significant increase in average earning assets, which grew by 20% or \$220.8 million from \$1.10 billion for the first quarter of 2003 to \$1.32 billion for the first quarter of 2004. A decrease in net interest margin from 3.54% for the first quarter of 2003 to 3.49% for the current quarter offset some of the effect of the growth in earning assets. Although there were various offsetting factors contributing to the fluctuation in net interest margin, the primary cause for the reduction over this time period was the low level of short-term interest rates combined with the low likelihood of their increase. As a result, customers preferred variable rate loans. This preference continued to cause a loan portfolio mix shift from fixed rates to variable rates, thereby reducing the overall yield on loans. Going forward, the large variable rate loan portfolio should improve earnings once short-term interest rates begin to rise.

Non-interest income was \$2.3 million for the first quarter of 2004, virtually unchanged from the first quarter of the prior year. Although gains on sales of mortgage loans decreased by \$457,000 from last year's first quarter, other noninterest income sources made up the difference. The largest component increase in noninterest income was in trust fees which grew by \$155,000. Commenting on this increase, Mr. Smith said, Our trust area continues to gain assets and customer relationships. We see great opportunity in the future by being the largest local provider of these services.

An increase in the quarterly provision for loan losses partially offset the increase in net interest income. The provision was \$1,225,000 for the quarter compared to \$990,000 for the first quarter of 2003. The high loan growth for the quarter required larger provisions, causing a short-term strain on earnings. Asset quality remained strong with annualized net loan charge-offs to total loans at .12% for the quarter and non-performing loans to total loans of .25% at the end of the quarter. These ratios were consistent with the first quarter of the prior year and remained well below historical peer averages.

Edgar Filing: MACATAWA BANK CORP - Form 8-K

Non-interest expense increased to \$8.3 million for the quarter as compared to \$6.7 million for the first quarter of 2003. Salaries and benefits increased by \$897,000 over the first quarter of the prior year reflecting the 23% increase in staffing for the six new branches and the lending, trust and investment services areas. The increased staffing reflects our attention to properly managing and supporting our growth and our interest in creating a platform for strong future growth, said Ben Smith.

On March 18, 2004 Macatawa raised additional capital in the amount of \$20.0 million by participating in a pooled trust preferred security issuance. These proceeds, which are classified as long-term debt on the balance sheet, provide additional regulatory capital to support growth in assets into 2007. Mr. Smith commented, Our tremendous growth and plans for future growth require more capital. The trust preferred securities complement our capital structure well by providing a low cost source without diluting our current shareholders through a common stock offering.

Management sees many opportunities ahead. Mr. Smith stated, Our current branch network has great capacity, so as we continue to grow, we expect profitability to improve. We are well-positioned for increases in net interest income as the economy improves and short-term interest rates begin to rise. With these opportunities and others, we expect that 2004 will continue to be another great year for Macatawa.

Conference Call

Macatawa Bank Corporation will hold its quarterly earnings conference call on Tuesday, April 20, 2004, at 10:00 A.M. Persons who wish to access the call may do so via the Internet by visiting www.macatawabank.com and clicking on the webcast link in the Investor Information section. It may also be accessed by logging on to www.streetevents.com. A replay of the call will be available for 30 days following the call.

Headquartered in Holland, Michigan, Macatawa Bank Corporation is the parent company for Macatawa Bank and Macatawa Investment Services. Through its subsidiaries, the Corporation offers a full range of banking, investment and trust services to individuals, businesses, and governmental entities from a network of 21 full service branches located in communities in Kent County, Ottawa County, and northern Allegan County. Services include commercial, consumer and real estate financing; business and personal deposit services, ATM's and Internet banking services, trust and employee benefit plan services, and various investment services. The Corporation emphasizes its local management team and decision making, along with providing customers excellent service and superior financial products.

CAUTIONARY STATEMENT: This press release contains certain forward-looking statements that involve risks and uncertainties which could cause actual results to differ materially from those expressed or implied by such forward-looking statements, including, but not limited to, economic, competitive, governmental and technological factors affecting our operations, markets, products, services, and pricing. These statements include, among others, statements related to future growth and funding sources, future profitability levels, the effects on earnings of changes in interest rates and the future level of trust revenues. Annualized growth rates are not intended to imply future growth at those rates. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this press release. Further information concerning our business, including additional factors that could materially affect our financial results, is included in our filings with the Securities and Exchange Commission.
