Table of Contents

Approval of Compensation of Executive Compensation on an Advisory Basis

In connection with the requirements of the recently enacted Dodd-Frank Wall Street Reform and Consumer Protection Act, or the Dodd-Frank Act, all companies must include a non-binding stockholder advisory vote on executive compensation. The Company is including in its annual proxy statement the proposal for approval of compensation. Commonly known as a "say on pay", the proposal gives stockholders an opportunity to place a non-binding advisory vote on the compensation of the named executives of the Company through the following resolution.

Resolved, that the stockholders approve the compensation of the Company's named executives as outlined in the Summary Compensation Table of the proxy statement, including the Compensation Discussion and Analysis, the Executive Compensation tables and the related disclosures included in the proxy statement.

The Dodd-Frank Act specifies that this advisory stockholder vote is not binding on the board of directors of the Company, and may not be construed as overruling a decision by the board, nor create or imply any additional fiduciary duty by such board, nor be construed to restrict or limit the ability of stockholders to make proposals for inclusion in proxy materials related to executive compensation.

The board of directors recommends a vote FOR the approval of executive compensation.

Approval of Frequency of Vote on Executive Compensation on an Advisory Basis

In addition to the non-binding advisory vote on executive compensation, the Dodd-Frank Act also enables our stockholders to express their non-binding, advisory preference for having a "say on pay" by voting every one, two, or three years or by abstaining. This non-binding frequency vote is required at least once every six years beginning with our Annual Meeting in 2011. Through the following resolution, the stockholders are given the opportunity to advise our Board how often we should conduct an advisory say on pay vote on the executive compensation of our named executives.

Resolved, that an advisory vote of the stockholders to approve the compensation of the Company's named executives as outlined in the Summary Compensation Table of the proxy statement, including the Compensation Discussion and Analysis, the Executive Compensation tables and the related disclosures included in the proxy statement shall be held at an annual meeting of stockholders, beginning with the 2011 Annual Meeting of Stockholders, (i) every three years, (ii) every two years, (iii) every year, or (iv) abstain.

In formulating its recommendation, our Board considered that an advisory vote on executive compensation every year will allow our stockholders to provide us with their direct input on our compensation philosophy, policies and practices as disclosed in the proxy statement every year. Setting a one year period for this vote will enhance stockholder communication by providing a clear, simple means for the Company to obtain information on investor sentiment about our executive compensation philosophy.

The board of directors recommends a vote for Every Year.

Other Matters

The Company does not currently know of any other matters that may come before the Annual Meeting. However, if any other matters are properly presented at the Annual Meeting, the proxy holders will vote your proxy in their discretion on such matters.

Table of Contents

BOARD AND COMMITTEE MATTERS

Board of Directors

The business affairs of the Company are managed under the direction of the board of directors. The board of directors meets on a regularly scheduled basis during the fiscal year of the Company to review significant developments affecting the Company and to act on matters requiring approval by the board of directors. It also holds special meetings as required from time to time when important matters arise, requiring action between scheduled meetings. The board of directors had six regularly scheduled meetings during the 2010 fiscal year. Each of the Company's directors participated in at least 75% of the meetings of the board of directors and the committees of the board on which the director served during 2010.

Director Independence

The board of directors has determined that each director other than Joseph M. Grant, George F. Jones, Jr., and Peter B. Bartholow qualifies as an Independent Director as defined in the Nasdaq Stock Market Listing Rules and as further defined by applicable statutes and regulations.

Board Leadership Structure and Risk Oversight

Under the Company's Board leadership structure, the CEO and Chairman positions are held by two separate individuals. James R. Holland, Jr. acts as a non-employee Chairman and George F. Jones, Jr. is the CEO. The Board determined that this was the most effective way for its leadership to be structured and believes this is a best practice for governance in its industry.

The Company has intensified its focus on risk evident in the industry, its markets and those related to its unique business model. As a result, the Company created a Risk Management Committee (RMC) which operates under the direction of the Audit Committee of the board of directors. The Audit Committee approved the RMC's charter and defined scope of activities. The RMC is comprised of executives responsible for all major categories of risk and reports to the Audit Committee at least quarterly. The Audit Committee then reports to the Board at least quarterly on any activities of the RMC. If there were any risk matters requiring attention, the RMC would alert the Audit Committee and then elevate any matters necessary to the Board.

Committees of the Board of Directors and Meeting Attendance

The board of directors had three standing committees during 2010.

Governance and Nominating Committee. The Governance and Nominating Committee has the power to act on behalf of the board of directors and to direct and manage the business and affairs of the Company whenever the board of directors is not in session. Governance and Nominating Committee members are James R. Holland, Jr. (Chairman), Frederick B. Hegi, Jr., and Robert W. Stallings. The Committee evaluates and recommends candidates for election as directors, makes recommendations concerning the size and composition of the board of directors, develops and implements the Company's corporate governance policies, develops specific criteria for director independence and assesses the effectiveness of the board of directors. Each member of the Committee is an independent director. The Company's board of directors has adopted a charter for the Governance and Nominating Committee. A current copy of the charter is available on the Company's website at www.texascapitalbank.com. During 2010, the Governance and Nominating Committee met twelve times.

In evaluating and determining whether to nominate a candidate for a position on the Company's board of directors, the Governance and Nominating Committee considers high professional ethics and values, relevant management experience and a commitment to enhancing stockholder value. In

Table of Contents

evaluating candidates for nomination, the Committee utilizes a variety of methods. The Committee considers diversity in identifying nominees for director. Primarily, the Committee looks for diversity in professional experiences and skills to ensure the Board is comprised of a group of individuals who will be able to contribute a variety of viewpoints which the Committee believes is important in ensuring that the Board exercises broad judgment and diligence in their role. The Committee regularly assesses the size of the board of directors, whether any vacancies are expected due to retirement or otherwise, and the need for particular expertise on the board of directors. Candidates may come to the attention of the Committee from current directors, stockholders, professional search firms, officers or other persons. The Committee will review all candidates in the same manner regardless of the source of the recommendation.

Audit Committee. The Company has an Audit Committee comprised of independent directors that reviews the professional services and independence of the Company's independent registered public accounting firm and its accounts, procedures and internal controls. The board of directors has adopted a written charter for the Audit Committee. A current copy of the charter is available on the Company's website at www.texascapitalbank.com. The Audit Committee recommends to the board of directors the firm selected to be the Company's independent registered public accounting firm and monitors the performance of such firm, reviews and approves the scope of the annual audit, reviews and evaluates with the independent registered public accounting firm the Company's annual audit and annual consolidated financial statements. The Committee reviews with management the status of internal accounting controls, evaluates problem areas having a potential financial impact on the Company that may be brought to its attention by management, the independent registered public accounting firm or the board of directors, and evaluates all of the Company's public financial reporting documents. The Committee also directs the activities of the Company's Risk Management Committee which is chaired by the Chief Risk Officer of the Bank and comprised of officers of the Bank, including the CEO, CFO, President of the Bank and the director of operations. The Audit Committee is comprised of four independent directors: W. W. McAllister III (Chairman), James H. Browning, Steven P. Rosenberg, and Ian J. Turpin. During 2010, the Audit Committee met five times.

Audit Committee Financial Expert. The board of directors has determined that each of the four audit committee members is financially literate under the current listing standards of Nasdaq. The board of directors also determined that all four members qualify as audit committee financial experts as defined by the SEC and therefore satisfy the Nasdaq Stock Market's financial sophistication requirements as well.

Human Resources Committee. The Human Resources Committee (HR Committee) is empowered to advise management and make recommendations to the board of directors with respect to the compensation and other employment benefits of executive officers and key employees of the Company. The HR Committee also administers the Company's long-term incentive stock plans for officers and key employees and the Company's incentive bonus programs for executive officers and employees. A copy of the HR Committee Charter is available on the Company's website at www.texascapitalbank.com. The HR Committee members are Frederick B. Hegi, Jr. (Chairman), Lee Roy Mitchell, and Steven P. Rosenberg. During 2010, the Human Resources Committee met ten times.

inappropriate communications. If deemed an appropriate communication, the Corporate Secretary will submit your correspondence to the Chairman of the board or to any specific director to whom the correspondence is directed.

Report of the Audit Committee

The Audit Committee's general role as an audit committee is to assist the board of directors in overseeing the Company's financial reporting process and related matters. Each member of the Audit Committee is Independent as independence for audit committee members is defined by the Nasdaq Stock Market Listing Rules.

The Audit Committee has reviewed and discussed with the Company's management and the Company's independent registered public accounting firm the audited financial statements of the Company contained in the Company's Annual Report on Form 10K for the year ended December 31, 2010.

The Audit Committee has also discussed with the Company's independent registered public accounting firm the matters required to be discussed pursuant to Statement on Auditing Standards No. 61 *Communication with Audit Committees* (as amended). The Audit Committee has received and reviewed the written disclosures and the letter from the Company's independent registered public accounting firm required by Rule 3526 of the Public Company Accounting Oversight Board, *Communication with Audit Committees Concerning Independence*, and has discussed with the independent registered public accounting firm the firm's independence. The Audit Committee has also considered whether the provision of non-audit services to the Company by Ernst & Young LLP is compatible with maintaining their independence.

Based on the review and discussion referred to above, the Audit Committee recommended to the board of directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2010, filed with the Securities and Exchange Commission.

This report is submitted on behalf of the Audit Committee.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This Compensation Discussion and Analysis addresses the aspects of our compensation programs and explains our compensation philosophy, policies and practices with respect to our chief executive officer, chief financial officer, president and chief lending officer of the Bank, chief credit officer of the Bank, and Dallas regional president which are collectively referred to as our named executive officers.

Oversight of Executive Compensation Program

The Human Resources Committee of our board of directors oversees our executive compensation programs. Each member of the HR Committee is an independent director as defined by the Nasdaq Stock Market Listing Rules. The HR Committee has developed and applied a compensation philosophy that focuses on a combination of incentive compensation, in both cash and equity-linked programs, which is directly linked to performance and creation of stockholder value, coupled with a competitive level of base compensation. The objective for the named executives, relationship managers and key management is to have a substantial portion of total compensation derived from performance-based incentives.

The HR Committee works diligently throughout the year in its conferences, formal meetings, discussions with consultants, interaction with management and review of materials developed for it. The HR Committee works very closely with executive management, primarily our chief executive officer (CEO), in assessing the appropriate compensation approach and levels. The HR Committee is empowered to advise management and make recommendations to the board of directors with respect to the compensation and other employment benefits of executive officers and key employees of the Company. The HR Committee establishes objectives for the Company's Chief Executive Officer and sets the Chief Executive Officer's compensation based, in part, on the evaluation of peer group data. The HR Committee also administers the Company's long-term compensation plans for executive officers and key employees and the Company's incentive bonus programs for executive officers and employees.

The HR Committee regularly reviews the Company's compensation programs to ensure that remuneration levels and incentive opportunities are competitive and reflect performance. Factors taken into account in assessing the compensation of individual officers include the Company's overall performance, the officer's performance and contribution to the Company, experience, strategic impact, external equity or market value, internal equity or fairness, and retention priority. The various components of the compensation programs for executive officers are discussed below in the Executive Compensation Program Overview.

Objectives of Executive Compensation

We seek to provide a compensation package for our named executive officers that is driven primarily by the overall financial performance of the Company. We believe that the performance of each of the executives impacts our overall long-term profitability and, therefore, have the following goals for compensation programs impacting the named executive officers of the Company:

to provide motivation for the named executive officers and to enhance stockholder value by linking their compensation to the value of our common stock;

to retain the executive officers, relationship managers, and key management who lead the Company and the Bank;

Table of Contents

to allow the Company and the Bank to attract highly qualified executive officers in the future by providing total compensation opportunities consistent with those provided in the industry and commensurate with the Company's business strategy and performance objectives; and

to maintain reasonable fixed compensation costs by targeting base salaries at a competitive average.

Role of the Consultant

During 2010, the HR Committee engaged the services of an independent, executive compensation consulting firm, Longnecker and Associates (L&A), to assist the HR Committee in its review of total direct compensation for the CEO, CFO and President of the Bank, as well as other senior executives. L&A only provides executive compensation consulting services under the direction of the HR Committee and does not provide any additional services to the Company. In order not to impair the independence of the compensation consultant or to create the appearance of an impairment, the Committee follows a policy that the compensation consulting firm may not provide other services to the Company.

Our management provides input to the compensation consultant but does not direct or oversee its activities with respect to our executive compensation programs.

The compensation consultant reports to and acts at the direction of the HR Committee. The HR Committee directs its compensation consultant to provide certain guidance on an ongoing basis, including:

Expertise on compensation strategy and program design;

Information relating to the selection of the Company's peer group;

Establishing and administering executive compensation plans or arrangements which provide benefits to executive officers of the Company in accordance with the goals and objectives of the Company as established by the Board;

Considering and making recommendations to the Board concerning the existing executive compensation programs and changes to such programs; and

Reviewing and discussing the Compensation Discussion and Analysis and based upon such discussion recommending to the Board that the CD&A be included in the Company's Proxy Statement to shareholders.

Market Competitive Analysis Methodology

L&A provided the HR Committee with a market competitive executive compensation analysis for the named executive officers including base salary, annual incentives, long-term incentives and non-qualified deferred compensation plans, including retirement benefits.

This analysis was performed by utilizing two primary sources of information: 1) peer company proxy statements and 2) published survey sources. Each of the two primary sources were weighted 50% to create a market 50th and 75th percentile for comparison purposes.

Peer Company Proxy Data. The HR Committee and L&A, with input from the Company's management established a list of fourteen peer companies. Peer company data is used by the HR Committee as a reference or benchmark only

and not as an absolute target to reach. The following companies were selected based upon

Published Survey Data. L&A relied upon published survey information provided by recognized sources including the Economic Research Institute, Watson Wyatt, William Mercer, and World at Work. L&A procured market competitive compensation for the respective named executive officers from these survey sources based upon banking and financial service companies with comparable asset sizes.

Summary

According to information provided to the HR Committee by its independent compensation consultant, the amount of the Company's total compensation paid to its executive officers during 2010 was aligned between the market 50th and 75th percentiles. In view of the Company's competitive performance, turnover of key employees and historical earnings levels and growth in earnings, the HR Committee believes that the Company's current executive compensation philosophy and practices are successful in providing stockholders with talented, dedicated executive officers at competitive compensation levels.

Executive Compensation Program Overview

The executive compensation package available to our named executive officers is comprised of:

base salary;

annual incentive compensation;

long-term incentive compensation, including SARs, Performance SARs (PSARs), and restricted stock units (RSUs); cash-based Performance Units; and

other welfare and health benefits.

Base Salary

Base salary is designed to provide competitive levels of base compensation to our executives and be reflective of their experience, duties and scope of responsibilities. We pay competitive base salaries required to recruit

Table of Contents

and retain executives of the quality that we must employ to ensure the success of our Company. Base salaries for the named executive officers are not always adjusted on an annual basis. The HR Committee determines, and recommends to the Board, the appropriate level and timing of changes in base compensation for the CEO and the other named executive officers upon consideration of the recommendation of the CEO with respect to the other named executives. Based on the market input from L&A and its own analysis of the performance of the Company and the named executives, the HR Committee recommended and the Board approved increases in annual base compensation, effective in December 2010. Annual salaries and percentage increases are currently as follows: Jones \$620,000 (3%), Bartholow \$345,000 (3%), Cargill \$330,000 (7%), Ackerson \$285,000 (4%), and Hudgens \$300,000 (12%) based on competitive data provided by the compensation consultants, bank performance, and the time period since the last salary adjustment. Under the terms of the contracts discussed below annual base salaries for Messrs. Jones, Bartholow, Cargill, Ackerson and Hudgens are now subject to annual review.

In making determinations of salary levels for the named executives, the HR Committee considers the entire compensation package for executive officers, including the equity compensation provided under long-term compensation plans. The Company intends for the salary levels to be consistent with competitive practices of comparable institutions and each executive's level of responsibility. The HR Committee determines the level of any salary increase after reviewing:

the qualifications, experience and performance of the executive officers;

the compensation paid to persons having similar duties and responsibilities in other competitive institutions; and

the nature of the Bank's business, the complexity of its activities and the importance of the executives' experiences to the success of the business.

The HR Committee reviewed a survey of compensation paid to executive officers performing similar duties for depository institutions and their holding companies and also considered compensation levels applicable to executives in non-bank financial and professional services companies. The HR Committee reviews and adjusts the base salaries of the Company's executive officers when deemed appropriate.

Annual Incentive Compensation

Annual incentive compensation is designed to provide competitive levels of compensation based on experience, duties and scope of responsibilities. In addition, our annual incentive program is designed to ensure that variable compensation based on the Company's profitability is a significant component of total cash compensation for the named executives. The HR Committee compares our performance to peers with an emphasis on net income and earnings growth, as well as improvements in ROA, and measures of credit quality as compared to our peers. The HR Committee uses the annual incentive compensation to motivate and reward the named executive officers for achievement of strategic, business and financial objectives.

Pursuant to the cash incentive program developed by the Company and approved by the HR Committee, the Company establishes a bonus pool each year, and the size of the pool is derived as a percentage of the Company's pre-tax income. The bonus pool is generally 12 - 15% of pre-tax pre-bonus income but may vary depending on number of additional participants, amounts guaranteed to new officers and other factors. The amount of the incentive pool is incorporated in the annual business and financial plan approved by the board of directors and is adjusted during the year, based on actual results compared to the approved financial plan. After verification of final results, the total pool and allocation of dollars in the pool are approved by the HR Committee. The HR Committee can exercise positive or negative discretion over the incentive pool based on their evaluation of the Company in comparison to peer companies.

in our industry as well as evaluation of overall economic conditions. The pool is allocated among three distinct groups: the named executive officers, relationship managers generally responsible for lending and other service offerings, and key management,

Table of Contents

which includes persons who oversee and provide critical support in such areas as finance, operations, funding, investments and credit policy. Executive management determines allocations within production and key management groups pursuant to the approved program. The portion of the total pool allocated to the named executive officers is based on performance of the Company compared to plan and other measures of performance. For 2010, it was also based on the Company's EPS growth compared to plan and the improvement in ROA. The HR Committee approves the allocation of the remainder of the pool with input from the CEO. The CEO submits recommendations for incentive compensation for the named executive officers other than the CEO. The HR Committee determines the incentive payment for the CEO and considers the recommendation of the CEO in its final determinations of awards to be paid to the other named executives.

In determining awards of annual cash incentives the HR Committee considers the entire compensation package of each of the executive officers and performance of that individual executive officer. The bonus award potential is intended to be consistent with each executive officer's level of responsibility, competitive practices of financial institutions with comparable business characteristics and interests of stockholders. The HR Committee met in February 2011 to determine bonus compensation paid to the executive officers of the Company and the Bank for 2010 performance and the amount of these bonuses paid to the named executive officers is set forth in the Summary Compensation Table.

Equity Awards

Equity awards for our executives are granted from our 2005 Long-Term Incentive Plan (the "2005 Plan") or our 2010 Long-Term Incentive Plan (the "2010 Plan"). The HR Committee has made and intends to make annual grants of cash and equity-based awards under the 2005 Plan or 2010 Plan in order to align more directly the interests of the named executive officers with those of our stockholders and to motivate the named executive officers to increase the stockholder value of the Company over the long term. Executive management and the HR Committee believe that stock ownership is a significant incentive in aligning the interests of employees and stockholders, building stockholder value and retaining the Company's key employees.

The 2005 Plan became effective on May 17, 2005 and will terminate on May 17, 2015. Employees (including any employee who is also a director), consultants, contractors and non-employee directors of the Company or its subsidiaries whose judgment, initiative and efforts contributed to or may be expected to contribute to the successful performance of the Company are eligible to participate in the 2005 Plan. The HR Committee approves the eligible participants under the 2005 Plan, administers the granting of awards under the 2005 Plan, sets vesting criteria, establishes performance objectives, and may amend the Plan in accordance with authority approved by stockholders.

The 2005 Plan provides for the grant of long-term incentive awards to officers and directors; grants may include, but are not limited to, awards of SARs, PSARs, RSUs, stock options, and performance-based awards payable in cash. Under the 2005 Plan RSU, SAR and PSAR grants were made in April 2006, January 2007, and January 2009 to the named executive officers and are included in the compensation tables that follow this section. Under the 2005 Plan, subject to forfeiture and other provisions of the 2005 Plan, as of December 31, 2010 the Company may issue up to 60,760 shares of common stock.

The 2010 Plan became effective on May 18, 2010 and will terminate on May 18, 2020. Employees (including any employee who is also a director), consultants, contractors and non-employee directors of the Company or its subsidiaries whose judgment, initiative and efforts contributed to or may be expected to contribute to the successful performance of the Company are eligible to participate in the 2010 Plan. The HR Committee approves the eligible participants under the 2010 Plan, administers the granting of awards under the 2010 Plan, sets vesting criteria, establishes performance objectives, and may amend the Plan in accordance with authority approved by stockholders.

Table of Contents

The 2010 Plan provides for the grant of all types of equity-based awards to officers and directors; grants may include, but are not limited to, awards of SARs, PSARs, RSUs, stock options, and other performance awards paid in cash. The named executives had not received any grants from the 2010 Plan until the January 2011 grants. Subject to forfeiture and other provisions of the 2010 Plan, as of December 31, 2010, the Company may issue up to 498,400 shares of the Company's common stock.

Grants made in January 2009 reflected grants applicable to 2008. Of the total grant for 2008 made in January 2009, 67% of the total was based on growth in stock price with a provision for cliff vesting at the end of 5 years from the date of grant. The balance of the 2008 grant, 33% of the total, vests 25% annually over 4 years. In addition, the 2008 grant may be subject to accelerated vesting in the event of a change in control prior to the end of the 5-year vesting schedule (See 2010 Potential Payments Upon Termination or Change in Control Table). Vesting may also occur if the named executive officer is eligible for approved retirement prior to the end of the vesting period.

During 2009 and 2010, the HR Committee determined to revise the structure of the long-term incentives for named executive officers. Modifications were reviewed and made to emphasize growth in earnings per share, relate vesting to improvements in key performance measures other than stock price, reduce the numbers of shares issued compared to stock-based grants, align the value of the grants to changes in the Company's stock price, and extend the vesting period for the portion of grants subject to time-based vesting. In January 2011, long-term incentive grants intended to cover the annual grants applicable to 2009 and 2010, which had not been made during the period when the HR Committee restructured the long-term incentive approach, were awarded to each of the named executive officers. Grants were made in the form of cash-based Performance Units. Vesting of 75% of the cash-based Performance Units will be based on the attainment of certain performance metrics developed by the HR Committee. The performance measures for the 2009-2010 grant made in January 2011 will be tied to growth in EPS and improvement in Return on Assets (ROA) for the 3-year period ending in 2013. In addition, vesting of 75% of the Performance Units will be subject to determinations by the HR Committee and the Board that the EPS and ROA objectives were achieved without imposing excessive risk to shareholders and requiring the Company to maintain appropriate standards related to credit quality, capital adequacy, balance sheet liquidity and expense management. The number of Performance Units awarded was based on a defined percentage of base compensation for each of the named executives. Based on the defined objectives for 75% of the Performance Units, the named executive officers will have the opportunity to vest between 0% and 108% of the Performance Units. The Vesting of the remaining 25% will not vest annually, but will occur at the third anniversary of the date of grant if the named executive is employed by the Company or has been eligible for approved retirement. The value of the Performance Units will be determined at the end of the 3-year period covered by the grants. The value of the grants will be paid in cash in an amount equal to the number of units vested in accordance with vesting criteria times the per share value of the Company's common stock at the end of the performance period. As with earlier grants, acceleration of vesting may also occur in the event of a change in control. Grants to the named executive officers were as follows: Mr. Jones 62,959 units; Mr. Bartholow 29,857 units; Mr. Cargill 27,560 units; Mr. Ackerson 21,485 units; and Mr. Hudgens 21,076 units. The HR Committee has indicated that future grants, which are generally planned to be made during the fourth quarter of each year, will have vesting criteria established with financial and other conditions set for 3-year performance periods based on industry and economic conditions at time of grant.

Other Benefits

2006 Employee Stock Purchase Plan. On January 17, 2006, the board of directors adopted the Company's 2006 Employee Stock Purchase Plan (the 2006 ESPP), which was approved by our stockholders at our 2006 annual meeting on May 16, 2006. The 2006 ESPP provides eligible employees of the Company (and its participating subsidiaries) with an incentive to advance the best interests of the Company and its subsidiaries

Table of Contents

by providing them a means of voluntarily purchasing common stock at a favorable price and upon favorable terms. We believe that the participants in the 2006 ESPP have an additional incentive to promote the success of the Company's business by increasing their economic interest in the Company. Participation in the 2006 ESPP is voluntary and dependent upon each eligible employee's election to participate and his or her determination of the level of participation. We believe that the 2006 ESPP is a necessary tool to help us compete effectively. It has been and remains the policy of the Company that the named executive officers are not eligible to participate in the 2006 ESPP.

Retirement Savings Opportunity. All employees may participate in our 401(k) Retirement Savings Plan, or 401(k) Plan. Each employee may make before-tax contributions of up to 10% of their eligible compensation up to current Internal Revenue Service limits. We provide this 401(k) Plan to help our employees save some amount of their cash compensation for retirement in a tax efficient manner. Since 2006, we have matched contributions made by our employees to the 401(k) Plan based upon a formula that considers the amount contributed by the respective employee and such employee's tenure with the Company. We did not make, however, any discretionary contributions to the 401(k) Plan in the fiscal year ended December 31, 2010. We also do not provide an option for our employees to invest in our common stock through the 401(k) Plan. Other than the 401(k) Plan, we currently do not provide or offer any other retirement plans, such as defined benefit, defined contribution, supplemental executive retirement benefits, retiree medical or deferred compensation plans, to our employees or the named executive officers.

Health and Welfare Benefits. All full-time employees, including our named executive officers, may participate in our health and welfare benefit programs, including medical, dental and vision care coverage, disability insurance and life insurance. We provide these benefits to meet the health and welfare needs of employees and their families.

Employment Agreements

In order to retain the Company's senior executive officers, the HR Committee and board of directors of the Company determined it was in the best interests of the Company to enter into employment agreements with certain officers. The named executives first entered into employment contracts in 2002 and 2003, and amended and extended in December 2004. New contracts were executed effective December 31, 2008 (2008 Agreements) for Messrs. Jones, Bartholow, and Cargill, Ackerson and Hudgens. We entered into these agreements to ensure that the executives perform their respective roles for an extended period of time. In addition, we also considered the critical nature of each of these positions and our need to retain these executives when we committed to the agreements.

Each of the 2008 Agreements had an initial term of three years, subject to renewal, and has a compensation package that includes a base salary and participation in the annual incentive bonus plan for key executives. Each of the executives is also eligible to receive grants of equity-based incentive compensation under our 2005 Plan or 2010 Plan.

The employment agreements also provide for severance payments to each executive upon (i) termination of his employment by us on 30 days notice without cause, or (ii) termination by the executive for good reason. Upon termination without cause or upon resignation for good reason, each executive is entitled to receive the following severance payments and benefits:

a cash payment equal to the greater of the executive's base salary remaining in the executive's employment term or 12 months salary, paid in 12 equal monthly installments;

an amount equal to the average annual cash bonus paid to the executive for the two years preceding his termination, paid in 12 equal installments; and

continued medical insurance benefits, at the Company's expense, for a period of twelve months.

Table of Contents

If following a change in control, an executive subsequently is terminated either (1) by the Company or the successor entity without cause, or (2) by the executive for good reason, during the period beginning 90 days before and ending 18 months after, the change of control event, (i) Mr. Jones is entitled to receive a lump sum payment equal to 2.99 times of his average base salary and the average of any incentives paid to him during the two years preceding the change of control; and (ii) Messrs. Bartholow, Cargill, Ackerson and Hudgens are each entitled to receive a lump sum payment equal to 2.5 times his average base salary and the average of any bonuses paid to him during the two years preceding the change of control. This change of control payment is in lieu of any other amounts to which each executive would be entitled under his employment agreement. In addition, each executive will receive, for 24 months following his termination, continued health and welfare benefits that are no less favorable than the benefits to which he was entitled prior to the change of control, as well as payment of accrued vacation, sick leave, unreimbursed expenses and any amounts due the executive under any Company benefit plan.

If any amount paid or distributed to the executive in connection with the change of control is subject to an excise tax, the executive may have the right to receive a gross-up payment to cover a portion of the increase in tax liability. The potential for a gross-up payment could vary between 0% and 100% depending on the value realized by stockholders at the time of a change in control.

As a means of providing protection to the Company's stockholders, under certain adverse condition such as dissolution, bankruptcy, or any distressed sale of the Company's assets or stock, the above described payments would not occur, except for the cash payment related to the executive's base salary in the case of termination without cause or termination by the executive for good reason, and such payment would be reduced to 6 months of base salary.

The employment agreements contain other terms and conditions, including a 12 month non-solicitation provision, confidentiality obligations and restrictions on each executive's ability to be engaged or involved in a competing state or national bank with a principal place of business in Texas, New Mexico, Oklahoma, or Louisiana during his employment and for the 12 month period following his termination or resignation.

Indemnification Agreements

We have entered into indemnification agreements with each of our directors and officers, which may be broader than the specific indemnification provisions contained in our certificate of incorporation, bylaws or under Delaware law. These indemnification agreements may require us, among other things, to indemnify our officers and directors against liabilities that may arise by reason of their status or service as directors or officers. These indemnification agreements may also require us to advance any expenses incurred by our directors or officers as a result of any proceeding against them as to which they could be indemnified. As of the date of this filing, there is no pending litigation or proceeding involving any of the our directors, officers, employees or agents in which indemnification by us is sought, nor are we aware of any threatened litigation or proceeding that may result in a claim for indemnification. We have purchased a policy of directors' and officers' liability insurance that insures our directors and officers against the cost of defense, settlement or payment of a judgment in certain circumstances.

Tax Implications of Executive Compensation

Although deductibility of compensation is preferred, tax deductibility is not a primary objective of our compensation programs. We believe that achieving our compensation objectives set forth above is more important than the benefit of tax deductibility and we reserve the right to maintain flexibility in how we compensate our executive officers, even if it may result in limiting the deductibility of amounts of compensation from time to time.

- (A) The value realized is equal to the amount that is taxable to the executive, which was the difference between the market price of the underlying securities at exercise and the exercise price of the options.
- (B) The shares included in the table represent shares vested. In some instances, shares were issued to executives net of taxes. Actual shares issued were 859 and 4,327 shares to Mr. Jones, 734 and 966 shares to Mr. Bartholow, 807 and 2,612 shares to Mr. Cargill, 747, 5,148 and 710 shares to Mr. Ackerson, and 711, 3,000 and 983 shares to Mr. Hudgens.
- (C) The value realized by the named executive officer upon the vesting of stock is calculated by multiplying the number of shares of stock vested by the market value of the underlying shares on the vesting date and is equal to the amount that is taxable to the executive.

2010 Pension Benefits

The table disclosing the actuarial present value of each executive's accumulated benefit under defined benefit plans, the number of years of credited service under each plan, and the amount of pension benefits paid to each Senior Executive during the year is omitted because the Company does not have a defined benefit plan for Senior Executives. The only retirement plan available to named executive officers in 2010 was the Company's qualified 401(k) savings and retirement plan, which is available to all employees.

2010 Non-qualified Deferred Compensation

The table disclosing contributions to non-qualified and other deferred compensation plans, each executive's withdrawals, earnings and fiscal year balances in those plans is omitted because in 2010 the Company had no non-qualified deferred compensation plans or benefits for executive officers or other employees of the Company.

Table of Contents**2010 Potential Payments Upon Termination or Change in Control Table**

The following table summarizes the estimated payments to be made under each executive's contract, described more completely in the *Employment Agreements* section in the Compensation Discussion and Analysis starting on page 13. For the purposes of the quantitative disclosure in the following table, and in accordance with SEC regulations, we have assumed that the termination took place on December 31, 2010 and that the price per share of our common stock is the closing market price as of that date, \$21.34.

- (A) Assumes 50% vesting of RSUs. SARs are not included in the accelerated vesting for Long Term Incentives as the exercise price is greater than the 12/31/10 stock price of \$21.34.
- (B) All stock options are vested therefore a change in control is not a triggering event.
- (C) Severance is equal to 2.5 times average salary plus average incentive compensation paid during the prior two-year period for Messrs. Bartholow, Cargill, Ackerson and Hudgens. The factor for Mr. Jones is 2.99. Severance will be paid in a lump sum within thirty days of the Executive s termination.
- (D) Other benefits include the following insurance: medical, dental, vision, life, accidental death and disability, short-term disability, long-term disability and supplemental long-term disability. Cost includes both employer and employee coverage.

Table of Contents

- (E) Severance includes twelve months salary and an amount equal to the average incentive compensation paid during the prior two-year period. Severance will be paid over a period of twelve months.
- (F) If any amount paid or distributed to the executive in connection with the change of control is subject to an excise tax, and the consideration received by stockholders of the Company in connection with the change of control is at least \$22.50 per share, then each executive shall be entitled to receive an additional gross-up payment in an amount equal to 50% of the amount of the total excise tax. If the consideration received by the stockholders is greater than \$22.50 per share, the applicable percentage of the gross-up amount will be increased incrementally on a linear basis for each increase between \$22.50 up to \$25.00. If the price per share is \$25.00 or greater, the applicable percentage would be 100%. Since the 12/31/2010 ending price was less than \$22.50, there is no gross-up reflected in the numbers in the table above.

The Company also has other policies and procedures for reviewing related party transactions involving the Company's and the Bank's directors, executive officers and their affiliates. Each director and named executive officer of the Company and the Bank is required to complete a questionnaire annually, and each director who serves on the Audit Committee must complete a certification of independence annually. Both of these documents are designed to disclose all related party transactions, including loans, and this information is reviewed by management, the Audit Committee and the Board of Directors, as appropriate. Such transactions are subject to the standards set forth in the Company's Code of Conduct for executive officers and in applicable laws and regulations and of the NASDAQ Market Listing Rules for determining the independence of directors. The questionnaires, certifications and Code of Conduct are all in writing.
