PROXY STATEMENT

INFORMATION CONCERNING VOTING AND SOLICITATION

General

The enclosed proxy is solicited on behalf of the board of directors of Complete Production Services, Inc., a Delaware corporation (Complete Production Services, we, our or us), for use at the 2007 annual meeting of stockholders to be held on Thursday, May 24, 2007, at 9:30 A.M. local time, or at any continuation, postponement or adjournment thereof, for the purposes discussed in this proxy statement and in the accompanying notice of annual meeting and any business properly brought before the annual meeting. Proxies are solicited to give all stockholders of record an opportunity to vote on matters properly presented at the annual meeting. We intend to mail this proxy statement and accompanying proxy card on or about April 13, 2007 to all stockholders entitled to vote at the annual meeting. The annual meeting will be held at 1919 Briar Oaks Lane, St. Regis Hotel, Houston, Texas 77027.

Who Can Vote

You are entitled to vote if you were a stockholder of record of our common stock as of the close of business on March 30, 2007. You are entitled to one vote for each share of common stock held on all matters to be voted upon at the annual meeting. Your shares may be voted at the annual meeting only if you are present in person or represented by a valid proxy.

Voting by Proxy

The method of voting by proxy differs for shares held as a record holder and shares held in street name. If you hold your shares of common stock as a record holder, you may vote by completing, dating and signing the enclosed proxy card and promptly returning it in the enclosed, preaddressed, postage paid envelope or otherwise mailing it to us. If you hold your shares of common stock in street name, which means your shares are held of record by a broker, bank or nominee, you will receive instructions from your broker, bank or other nominee that you must follow in order to vote your shares. A large number of banks and brokerage firms are participating in the ADP Investor Communication Services online program. This program provides eligible stockholders who receive a paper copy of the Proxy Statement the opportunity to vote via the Internet or by telephone. If your bank or brokerage firm is participating in ADP's program, your voting form will provide instructions. If your voting form does not reference Internet or telephone information, please complete and return the enclosed paper proxy in the self-addressed postage paid envelope provided.

Your vote is very important. Accordingly, please complete, sign and return the enclosed proxy card or voting instruction card whether or not you plan to attend the annual meeting in person. You should vote by submitting your proxy or voting instructions even if you plan to attend the annual meeting.

All properly signed proxies that are received before the polls are closed at the annual meeting and that are not revoked will be voted at the annual meeting according to the instructions indicated on the proxies or, if no direction is indicated, they will be voted **FOR** the election of each of the three nominees for director and **FOR** ratification of the selection of the independent auditors.

Voting in Person

If you are a stockholder of record and plan to attend the annual meeting and wish to vote in person, you will be given a ballot at the annual meeting. Please note, however, that if your shares are held in street name, which means your shares are held of record by a broker, bank or other nominee, and you wish to vote in person at the annual meeting, you must bring to the annual meeting a legal proxy from the record holder of the shares (your broker or other nominee) authorizing you to vote at the annual meeting.

Table of Contents

Revocation of Proxy

If you are a stockholder of record, you may revoke your proxy at any time before your proxy is voted at the annual meeting by taking any of the following actions:

delivering to our corporate secretary a signed written notice of revocation, bearing a date later than the date of the proxy, stating that the proxy is revoked;

signing and delivering a new proxy, relating to the same shares and bearing a later date than the original proxy; or

attending the annual meeting and voting in person, although attendance at the annual meeting will not, by itself, revoke a proxy.

Written notices of revocation and other communications with respect to the revocation of proxies should be addressed to:

Complete Production Services, Inc.
11700 Old Katy Road, Suite 300
Houston, Texas 77079
Attn: Secretary

If your shares are held in street name by a broker or other nominee, you may change your vote by submitting new voting instructions to your broker, bank or other nominee. You must contact your broker, bank or other nominee to find out how to do so.

Quorum and Votes Required

At the close of business on March 30, 2007, 72,393,526 shares of our common stock were outstanding and entitled to vote. All votes will be tabulated by the inspector of election appointed for the annual meeting, who will separately tabulate affirmative and negative votes and abstentions.

A majority of the outstanding shares of common stock present in person or represented by proxy will constitute a quorum at the annual meeting. Shares of common stock held by persons attending the annual meeting but not voting, shares represented by proxies that reflect abstentions as to a particular proposal and broker non-votes will be counted as present for purposes of determining a quorum. Brokers or other nominees who hold shares of common stock in street name for a beneficial owner of those shares typically have the authority to vote in their discretion on routine proposals when they have not received instructions from beneficial owners. However, brokers are not allowed to exercise their voting discretion with respect to the approval of matters which the New York Stock Exchange (NYSE), determines to be non-routine, without specific instructions from the beneficial owner. These non-voted shares are referred to as broker non-votes. If your broker holds your common stock in street name, your broker will vote your shares on non-routine proposals only if you provide instructions on how to vote by filling out the voter instruction form sent to you by your broker with this proxy statement.

For Proposal 1, directors will be elected by a plurality of the votes cast. Thus the three nominees receiving the greatest votes will be elected. As a result, abstentions will not be counted in determining which nominees received the largest number of votes cast. Brokers generally have discretionary authority to vote on the election of directors and thus

broker non-votes are generally not expected to result from the vote on election of directors. Any broker non-votes that may result will not affect the outcome of the election.

For Proposal 2, the affirmative vote of a majority of the shares represented in person or by proxy at the annual meeting and entitled to vote is required for the ratification of the selection of Grant Thornton LLP as our independent auditors. Abstentions will have the same effect as votes against this proposal. Brokers generally have discretionary authority to vote on the ratification of our independent auditors, thus broker non-votes are generally not expected to result from the vote on Proposal 2. Any broker non-votes that may result will not affect the outcome of this proposal.

Solicitation of Proxies

Our board of directors is soliciting proxies for the annual meeting from our stockholders. We will bear the entire cost of soliciting proxies from our stockholders. In addition to the solicitation of proxies by mail, we will request that brokers, banks and other nominees that hold shares of our common stock, which are beneficially owned by our stockholders, send proxies and proxy materials to those beneficial owners and secure those beneficial owners' voting instructions. We will reimburse those record holders for their reasonable expenses. We have engaged Morrow & Co., Inc., to assist in the solicitation of proxies and to provide related advice and informational support, for a service fee of approximately \$5,000 and the reimbursement of customary expenses. We also may use several of our regular employees, who will not be specially compensated, to solicit proxies from our stockholders, either personally or by telephone, Internet, telegram, facsimile or special delivery letter.

CORPORATE GOVERNANCE

Composition of the Board of Directors

Our board of directors has adopted corporate governance guidelines to set forth its agreements concerning overall governance practices. Our board has also adopted a Code of Business Conduct and Ethics, which contains general guidelines for conducting our business that applies to all of our employees, including our principal executive officer and our principal financial officer, our principal accounting officer and our controller, and a Code of Ethics for Non-Employee Directors that applies to all of our non-employee directors. Our guidelines and codes of ethics can be found in the corporate governance section of our website at www.completeproduction.com. In addition, our guidelines and codes of ethics are available in print to any stockholder who requests a copy. Please direct all requests to our Secretary, Complete Production Services, Inc., 11700 Old Katy Road, Suite 300, Houston, Texas 77079.

Board Independence

Our board of directors has determined that each of Messrs. McShane, Ralls, Watts, Whaling and Woods is an independent member of the board under the listing standards of the NYSE and have no material relationship with us that would impair such director's independence. In making these determinations, our board considered all relationships between us and the director and the director's family members, including:

Joseph C. Winkler, our chairman of the board, has served as our Chief Executive Officer since September 2005. In addition, on June 20, 2005, Mr. Winkler assumed his duties as President and Chief Executive Officer of CES and as director of CES, IEM and IPS. CES and IEM were combined with IPS in September 2005, which was renamed Complete Production Services, Inc. Mr. Winkler was thus determined to be not independent.

Andrew L. Waite, our presiding non-employee director, is also a Managing Director and an officer of L.E. Simmons and Associates, Incorporated, the ultimate general partner of SCF-IV, L.P., which holds approximately 34% of the outstanding shares of our common stock. In addition, from November 2003 to November 2005, Mr. Waite served as Chairman, President and Chief Executive Officer of CES, which following the September 2005 Combination became one of our subsidiaries. Mr. Waite was thus determined not to be independent.

For Messrs. Boswell, Hamm, McShane, Whaling, Waite and Watts, see the relationships discussed under the Certain Relationships and Related Transactions.

Board Meetings

Our board held six meetings during fiscal year 2006 and acted by unanimous written consent six times. During fiscal year 2006, all directors attended at least 75% of the combined total of (i) all board meetings and (ii) all meetings of committees of the board of which the director was a member. The chairman of the board or his designee, taking into account suggestions from other board members, establishes the agenda for each board meeting and distributes it in advance to the each member of the board. Each board member is free to suggest the inclusion of items on the agenda. The board regularly meets in executive session without management present. Mr. Waite has been appointed our presiding non-employee director to preside at such executive sessions. The board has a policy that all directors attend the annual meeting of stockholders, absent unusual circumstances. This is our first annual meeting of stockholders as a

public company.

Our board maintains a standing Audit Committee, Nominating and Corporate Governance Committee and Compensation Committee. To view the charter of each of these committees please visit our website at www.completeproduction.com. In addition, the charters for each of our committees is available in print to any stockholder who requests a copy. Please direct all requests to our Secretary, Complete Production Services,

Audit Committee

We have a standing Audit Committee. The Audit Committee has sole authority for the appointment, compensation and oversight of our independent registered public accountants and our independent internal auditors, and responsibility for reviewing and discussing, prior to filing or issuance, with our management and our independent registered public accountants (when appropriate), our audited consolidated financial statements included in our Annual Report on Form 10-K and earnings press releases. The Audit Committee carries out its responsibilities in accordance with the terms of its charter.

In fiscal year 2006, the Audit Committee was composed of W. Matt Ralls (Chairman), Robert S. Boswell and R. Graham Whaling. Mr. Boswell served on this committee until March 20, 2007, at which point Michael McShane was appointed to the Audit Committee. Currently our Audit Committee is composed of Mr. Ralls (Chairman), Mr. McShane and Mr. Whaling. Our board of directors has determined that all current Audit Committee members are financially literate under the current listing standards of the NYSE and that all current Audit Committee members are independent under the requirements of SEC Rule 10A-3. Our board has also determined that Mr. Ralls qualifies as an audit committee financial expert as defined by the Securities Exchange Commission, or SEC, rules adopted pursuant to the Sarbanes-Oxley Act of 2002 and is independent as required by SEC regulations. During fiscal year 2006, the Audit Committee met six times.

Nominating and Corporate Governance Committee

We have a standing Nominating and Corporate Governance Committee (Nominating Committee). James D. Woods (Chairman) and Harold G. Hamm were members of the Nominating Committee throughout fiscal year 2006. Mr. R.

Graham Whaling served on the Nominating Committee from July 20, 2006 through March 20, 2007. On March 20, 2007, Marcus Watts was appointed to the Nominating Committee and Mr. Hamm and Mr. Whaling no longer served on the Nominating Committee. Currently our Nominating Committee is composed of Mr. Woods (Chairman) and Mr. Watts, who was appointed to our board of directors effective March 20, 2007. Our board has determined that all current Nominating Committee members qualify as independent directors under the NYSE standards. The Nominating Committee met once and acted by unanimous written consent once in fiscal year 2006. The purpose of the Nominating Committee is to make recommendations concerning the size and composition of our board and its committees, evaluate and recommend candidates for election as directors, develop, implement and review our corporate governance policies, and evaluate the effectiveness of our board. The Nominating Committee works with the board as a

Table of Contents

whole on an annual basis to determine the appropriate skills and characteristics required of board members in the context of the current make-up of the board and its committees.

Our entire board of directors is responsible for nominating members for election to the board and for filling vacancies on the board that may occur between annual meetings of the stockholders. The Nominating Committee is responsible for identifying, screening and recommending candidates to the entire board for prospective board membership. In evaluating the suitability of individuals, the Nominating Committee considers many factors, including issues of experience, integrity, qualifications (such as understanding of finance and marketing), educational and professional background and willingness to devote adequate time to board duties. When formulating its board membership recommendations, the Nominating Committee also considers any advice and recommendations offered by our Chief Executive Officer. The Nominating Committee may also review the composition and qualification of the board of directors of our competitors or other companies and may seek input from industry experts. In determining whether to recommend a director for re-election, the Nominating Committee also considers the board's and each committee's annual performance self-evaluation and well as annual individual director evaluations, which address the director's past attendance at meetings and participation in and contributions to the activities of the board and the like. The Nominating Committee evaluates each individual in the context of the board as a whole, with the objective of recommending a group that can best perpetuate the success of the business and represent stockholder interests through the exercise of sound judgment using its diversity of experience in these various areas.

The Nominating Committee will consider stockholder recommendations of candidates on the same basis as it considers all other candidates. Stockholder recommendations should be submitted to us under the procedures discussed in *Additional Matters - Stockholder Proposals and Nominations*, and should include the candidate's name, age, business address, residence address, principal occupation or employment, the number of shares beneficially owned by the candidate, and information that would be required to solicit a proxy under federal securities law. In addition, the notice must include the recommending stockholder's name, address, the number of shares beneficially owned and the time period those shares have been held.

Compensation Committee

We have a standing Compensation Committee. James D. Woods (Chairman) and R. Graham Whaling were the members of the Compensation Committee during fiscal year 2006 and are currently members of the Compensation Committee. Our board has determined that all current Compensation Committee members are intended to qualify as independent directors under the NYSE standards and are intended to qualify as non-employee directors within the meaning of Section 16 of the Exchange Act and as outside directors within the meaning of Section 162(m) of the Internal Revenue Code. The Compensation Committee met three times and acted by unanimous written consent three times in fiscal year 2006. The Compensation Committee reviews and establishes the compensation of our executive officers, including our chief executive officer, division presidents and all other members of our senior management who earn greater than \$200,000 in salary, on an annual basis, has direct access to third party compensation consultants, and administers our stock incentive plans, including the review and grant of stock options and restricted stock to all eligible employees under our stock incentive plans.

The Compensation Committee reviews annually in April the base salaries for our executive officers and other members of senior management who earn greater than \$200,000 in salary. The Compensation Committee also determines annually during the first quarter, the annual cash bonuses to be awarded to our executive officers and certain members of senior management based upon pre-established financial performance criteria set under the Management Incentive Plan for the prior fiscal year and our performance relative to such criteria. In addition, under our equity grant policy, the Compensation Committee makes grants of equity awards at least once annually and the grant date for the annual grant has been established as the last business day of January. Our Chief Executive Officer makes recommendations to the Compensation Committee regarding our other executive officers' compensation based

on his evaluation of the performance of each other executive officer against objectives established at the beginning of each year, the officer's scope of the responsibilities, our financial performance, retention considerations and general economic and competitive conditions. The Compensation Committee has the sole authority to retain consultants and advisors as it may deem appropriate

Table of Contents

in its discretion, and the Compensation Committee has the sole authority to approve related fees and other retention terms. In March 2006, the Compensation Committee engaged Stone Partners, independent compensation consultants, to advise it regarding pay strategies upon becoming a public company. In September 2006, the Compensation Committee engaged Pearl Meyer & Partners, independent compensation consultants, to advise the Compensation Committee on an ongoing basis. The consultant reports directly to the Compensation Committee and works closely with our Vice President Human Resources and Administration, who is management's representative to the Compensation Committee. The consultant, when invited, attends meetings of the Compensation Committee. The Compensation Committee determines when to hire, terminate or replace the consultant, and the projects to be performed by the consultant.

Communication with the Board

Interested persons, including our stockholders, may communicate with our board of directors, including the non-management directors, by sending a letter to our Secretary at our principal executive offices at 11700 Old Katy Road, Suite 300, Houston, Texas 77079. Our Secretary will submit all correspondence to the presiding non-employee director and to any specific director to whom the correspondence is directed.

Compensation of Directors

Our executive officers do not receive additional compensation for their service as directors. The table below summarizes the compensation received by our non-employee directors for the year ended December 31, 2006. Messrs. McShane and Watts were appointed to our board of directors effective March 20, 2007 and did not receive any compensation for the year ended December 31, 2006.

These options vest and are exercisable as to 25% of the total grant on each of the first, second, third and fourth anniversaries of April 20, 2006, the date of the grant, and have a term of ten years. - (6) Effective as of March 20, 2007, Mr. Baldwin resigned from our board of directors. In connection with his resignation, our board accelerated the vesting of his unvested stock options (covering 8,750 shares of our common stock) and unvested restricted stock (2,084 shares) effective as of March 20, 2007, resulting in a compensation cost recognized by us in fiscal year 2007 of approximately \$90,000. In addition, the exercise period for Mr. Baldwin's stock options was extended to December 31, 2007.
- (7) Upon his initial appointment, Mr. Ralls was entitled to receive an option to purchase 5,000 shares of our common stock and restricted stock valued at \$50,000, and on an annual basis thereafter, options to purchase 5,000 shares of our common stock and restricted stock valued at \$50,000. Mr. Ralls' awards upon his initial appointment were deferred and granted on April 20, 2006, the date prior to the date our common stock first traded on the NYSE. Consequently, Mr. Ralls' April 20, 2006 awards account for both his initial appointment awards and his annual 2006 awards.

ITEM 2:

RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS

The Audit Committee of our board of directors has selected Grant Thornton LLP (Grant Thornton) as our independent registered public accountants for the year ending December 31, 2007, and has further directed that management submit the selection of independent registered public accountants for ratification by the stockholders at the annual meeting. A representative of Grant Thornton is expected to be present at the annual meeting and will have an opportunity to make a statement if he or she so desires and will be available to respond to appropriate questions.

Stockholder ratification of the selection of Grant Thornton as our independent registered public accountants is not required by our bylaws or otherwise. However, the board is submitting the selection of Grant Thornton to the stockholders for ratification as a matter of corporate practice. If the stockholders fail to ratify the selection, the Audit Committee will reconsider whether or not to retain that firm. Even if the selection is ratified, the Audit Committee in its discretion may direct the appointment of a different independent accounting firm at any time during the year if the Audit Committee determines that such a change would be in our best interests and in the best interests of our stockholders.

Board Recommendation

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE RATIFICATION OF GRANT THORNTON LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS FOR FISCAL 2007.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This Compensation Discussion and Analysis section discusses the compensation programs and policies for our executive officers and the Compensation Committee's role in the design and administration of these programs and policies and in making specific compensation decisions for our executive officers, including our named executive officers which consist of Joseph C. Winkler, our Chairman and Chief Executive Officer, J. Michael Mayer, our Senior Vice President and Chief Financial Officer, James F. Maroney, our Vice President, Secretary and General Counsel, Kenneth L. Nibling, our Vice President - Human Resources and Administration, and Robert L. Weisgarber, Vice President - Accounting and Controller.

Objectives and Elements of our Compensation Programs and Policies

The initial public offering of our common stock occurred on April 21, 2006, and the compensation decisions made during 2006 reflected this important milestone and the Compensation Committee's objective of providing a total compensation package that is balanced with the proper incentives and is competitive with public companies within our peer group, while aligning the interests of our executives with our public stockholders. We believe a significant portion of compensation should be tied to our measurable performance.

The objectives of our compensation programs and policies are to:

attract and retain highly qualified and talented executive officers and other key employees;

motivate our executive officers and other key employees by aligning pay and performance and subjecting a significant portion of our executive officer's compensation to the achievement of our short-term financial

performance goals and, for the other members of our senior management, with the goals for their respective divisions and units;

align the interests of our executive officers with those of our stockholders through equity-based long-term incentive awards that link executive compensation to stockholder return;

provide financial stability while recognizing individual performance and achievements;

Table of Contents

ensure that our executive officers are placed on a level playing field with potential deal partners and serve the best interests of our stockholders in the event of a proposed transaction without concern over their personal financial security; and

honor the severance commitments made to our executives in inducing them to join our team.

The major compensation elements for our named executive officers are:

base salaries, which form stable parts of our named executive officers' compensation packages that reward individual achievements and contributions;

annual cash bonuses that are based on our financial performance measured against specific pre-established goals;

long-term equity incentive compensation, largely in the form of stock options that are tied to stock price appreciation, and supplementally in the form of restricted stock awards that enhance retention and a long-term focus;

severance benefits, which were offered as part of the executive's hiring package in order to induce quality executive talent to join us and which provide financial stability for the executives; and

change of control benefits, which predominate in our industry and facilitate the completion of transactions that are in the best interests of our stockholders.

We use each element of compensation to satisfy one or more of these compensation objectives and each element is an integral part of and supports our overall compensation objectives. We strive to offer our executive officers compensation and benefits that are attractive and competitive in the marketplace for talent.

Consistent with our performance-based philosophy, we reserve the largest potential compensation awards for performance- and incentive-based programs. Our annual performance-based cash bonus program rewards our short-term financial performance, while our long-term equity awards reward our long-term stock price performance and align the interests of our senior management with our stockholders.

Determination of Compensation

The Compensation Committee reviews and approves all compensation decisions relating to our Chief Executive Officer and the other named executive officers, all division presidents and all other members of our senior management who earn greater than \$200,000 in salary.

Pay Strategy Regarding Total Direct Compensation in Anticipation of Our Initial Public Offering

In March 2006, the Compensation Committee retained Stone Partners, independent compensation consultants, to assist in ensuring that our compensation programs provided proper rewards and incentives given the combination of our predecessor companies and the anticipated completion of the initial public offering of our common stock. Specifically, the Compensation Committee reviewed external market analysis prepared by the consultants, the pay practices of our predecessor companies and pay strategies for senior management going forward.

The market analysis performed by Stone Partners analyzed 14 peer group companies in the oilfield products and services industry. The data was regressed to reflect comparables for a company with revenue of \$800 million. Based on its review of the peer company comparisons and market data, and the history of compensation practices of our predecessor companies, and its consideration of various recommendations of the consultant regarding pay strategies, the Compensation Committee approved the following compensation strategy for our senior management:

Align base salaries at the market median;

Align total direct compensation (base, annual performance-based cash bonuses, and long-term equity awards) between the median and 75th percentile when our performance under our annual cash bonus

Table of Contents

plan is between Expected Value and Over Achievement, as such terms are used in the Management Incentive Plan discussed below;

Provide annual cash bonuses that are based on our performance against pre-established financial targets;

Employ long-term equity incentive award target guidelines, based on the fair value of the award on the date of grant, the executive's position and the executive's salary; and

Provide long-term incentive awards in a mix of 70% options, based on the Black-Scholes model for valuations, and 30% restricted shares, based on fair market value on grant, for senior management, and provide all other employees with options only.

This pay strategy results in a significant percentage of annual compensation being delivered in the form of equity, rather than cash, and is oriented to rewarding performance, long-term in the form of equity awards and short-term in the form of performance based annual cash awards. This strategy also places more compensation at risk in the form of equity awards for employees with higher levels of responsibility.

We believe in retaining the best talent among our senior executive management team. While we expect actual pay for each executive officer to be determined around this structure, the Compensation Committee also considers the performance of the executive officer over time, as well as our financial performance and the performance of our stock price. To retain and motivate these key individuals, the Compensation Committee may determine that it is in our best interests to provide total compensation packages with one or more members of our senior executive management that may deviate from the general principle of targeting compensation at the levels discussed above.

Non-direct Compensation

In September 2006, the Compensation Committee engaged Pearl Meyer & Partners to advise the Compensation Committee on an ongoing basis. During fiscal year 2006, this consultant provided at the request of the Compensation Committee specific studies and recommendations regarding change of control and severance benefit practices. Our employment agreement with our Chief Executive Officer, which was entered into when we hired him, includes severance and change of control benefits, while the letter agreements with our executive officers included certain severance benefits. The Compensation Committee desired to (i) provide more internal pay equity among the executive officers with regard to severance and change of control benefits, (ii) ensure that our senior management was not disadvantaged when compared to the prevalent amount our industry provides for change of control benefits and (iii) ensure compliance with Section 409A of the Internal Revenue Code. In November 2006, the Compensation Committee approved certain of the material terms of the severance and change of control benefits and payments, and the agreements were finalized in March 2007.

Components of Compensation

Base Salary

Base salaries provide our executive officers with a degree of financial certainty and stability. In order to attract and retain highly qualified executives, we provide base salaries comparable to those being paid by our peer group companies. We target base salaries at the median market rates. The Compensation Committee annually reviews and determines the base salaries of our named executive officers. Salaries are also reviewed in the case of executive promotions or other significant changes in responsibilities. In each case, the Compensation Committee reviews and takes into account compensation data relative to executive officers and other members of senior management holding comparable positions at our peer group companies and the Chief Executive Officer's recommendations based on his

evaluation of the performance of each other named executive officer against objectives established at the beginning of each year, their scope of the responsibilities, our financial performance, retention considerations and general economic and competitive conditions.

In March 2006, the Compensation Committee approved increases in salary for our division presidents retroactively effective to January 1, 2006, but deferred any increases in salaries of our named executive

Table of Contents

officers and other members of senior management until after our initial public offering. In May 2006, subsequent to our initial public offering, the Compensation Committee approved salary increases for our named executive officers and other members of senior management, effective April 22, 2006. The largest salary increases were approximately 30% (to \$520,000) for our Chief Executive Officer and 16% (to \$290,000) for our Chief Financial Officer, respectively, and from approximately 6% to 10% for our other named executive officers. The Compensation Committee determined that salary increases were appropriate given the successful completion of our public offering and that such increases placed our named executive officers at median salary level within our peer group.

Annual Performance-Based Cash Bonuses

Approximately 322 employees participate in a management incentive plan, including our named executive officers and all members of our senior management. The Management Incentive Plan (MIP) is designed to emphasize the importance of our short-term financial performance objectives and to reward members of our senior management for attaining and exceeding these objectives.

The MIP permits the payment of yearly cash bonuses based upon pre-established financial performance criteria for each plan year and provides for four levels of targeted financial performance: Entry, Expected Value, Over Achievement and Stretch, with the Entry level being the minimum level of performance that will be rewarded and the Stretch level being the highest level of performance that will be rewarded. At the beginning of each calendar year, the Compensation Committee establishes in writing the Entry, Expected Value, Over Achievement and Stretch performance levels and potential bonus payouts for each plan participant based upon our earnings before interest, taxes, depreciation and amortization, or EBITDA as adjusted for discontinued operations and acquisitions. In setting these targets, the Compensation Committee considers our prior financial performance, budgeted performance and anticipated developments.

As part of the MIP, individual target bonuses are expressed as a percentage of each participant's base salary, and vary based on position. Target bonus is earned by a participant when the Expected Value level of performance is reached by us. Entry Level performance level results in a payment equal to 10% of the target bonus, Over Achievement performance results in a payment equal to 150% of target bonus and Stretch performance results in a payment equal to 200% of the target bonus, with linear interpolation between targets based on actual performance. This program facilitates our objective of aligning total direct compensation (base salaries, annual performance-based cash bonuses, and long-term equity awards) between the median and 75th percentile when our performance under our annual cash bonus plan is between the Expected Value and Over Achievement levels. The following table provides the potential bonus payouts, expressed as a percentage of salary, to each of our named executive officers in the case of Entry, Expected Value, Over Achievement and Stretch performance.

Name and Position	Target Bonus	Entry Payout	Expected Value Payout	Over Achievement Payout	Stretch Payout
Joseph C. Winkler, Chairman and Chief Executive Officer	100% of base salary	10% of base salary	100% of base salary	150% of base salary	200% of base salary
J. Michael Mayer, Senior Vice President and Chief Financial Officer	60% of base salary	6% of base salary	60% of base salary	90% of base salary	120% of base salary
All Other Named Executive Officers	50% of base salary	5% of base salary	50% of base salary	75% of base salary	100% of base salary

In 2006, the performance objectives for our named executive officers were based on targeted EBITDA. The performance objectives for division presidents are based 25% on targeted EBITDA and 75% on the performance of individual divisions against pre-established performance targets. Following the end of the year in which the performance objectives are to be achieved, the Compensation Committee determines whether and to what extent the specified performance objectives have been achieved. The Compensation Committee, in its

Table of Contents

discretion, may reduce the bonus amount otherwise payable for failure to meet certain non-quantitative performance measures.

For fiscal year 2006, the Compensation Committee approved an Expected Value performance goal EBITDA of \$277 million, an Entry performance goal EBITDA of \$225 million, an Over Achievement performance goal EBITDA of \$300 million and a Stretch performance goal EBITDA of \$335 million. The plan provides for straight line interpolations between the performance goal levels. These targets were adjusted to give effect to discontinued operations and acquisitions, as permitted under the MIP. As a result of our achievement of EBITDA of \$304.6 million, as adjusted to reflect discounted operations and acquisitions, we performed in 2006 at approximately 57% between the Over Achievement and Stretch adjusted targets. The actual amounts awarded under the plan to our named executive officers for fiscal year 2006 are reflected in the Summary Compensation Table.

Under the plan, if the employment of a participant is terminated prior to the completion of the performance period for any reason except disability, death, retirement, reduction-in-force or a change of control, any rights to any bonus payouts under the bonus plan will be forfeited. Except in the case of the Chief Executive Officer, in the event of termination due to disability, death, retirement or reduction-in-force (which occurs during the fourth quarter of the plan year), a participant may receive a pro-rated award.

For the payment of annual incentive awards to participants under the MIP for fiscal 2007, the Compensation Committee has approved the same program, including the same potential bonus payouts as a percentage of each named executive officer's base salary as were used in fiscal year 2006, using, however, the performance measure of earnings per share and specified Entry, Expected Value, Over Achievement and Stretch performance levels for earnings per share or EPS. The performance objectives for division presidents are based 25% on targeted EPS and 75% on the performance of individual divisions against pre-established EBITDA performance targets.

Long-term Incentive Awards - Stock Options and Restricted Stock

Our employees, including our named executive officers, are eligible to participate in our annual grant of equity awards under our Amended and Restated 2001 Stock Incentive Plan, or the 2001 Stock Incentive Plan. In addition, our employees are eligible to receive other equity awards under our 2001 Stock Incentive Plan throughout the fiscal year in connection with certain events, such as a new hire, retention of an employee, or the achievement of certain individual or departmental performance objectives.

In connection with our initial public offering, the Compensation Committee established equity grant guidelines. The guidelines were based on input from the compensation consultant, and after consideration of peer group and market data, current and proposed total direct compensation, the rate of our share usage, dilution of our common stock, and individual and corporate performance achievements. The guidelines established for our senior management, including our named executive officers, is to provide equity awards based on the value of the award on the date of grant as a multiple of the executive's base salary, as follows, subject to continued review by the Compensation Committee of potential share dilution and overhang:

Chief Executive Officer 3.00 times base salary;

Chief Financial Officer 1.75 times base salary;

Other Executive Officers, Corporate Vice Presidents and Division Presidents 1.50 times base salary;

Division Vice Presidents and Directors 0.75 times base salary; and

Managers 0.50 times base salary.

In connection with Mr. Moore's promotion to President and Chief Operating Officer, the Compensation Committee set 2.00 times base salary as a guideline for his equity awards. In this way, a greater percentage of compensation is at risk for those members of senior management with greater responsibility and authority. These guidelines are consistent with our emphasis on long-term compensation that closely ties our executives' compensation with the price of our common stock and satisfies our objective to link executive compensation

Table of Contents

to stockholder return. Our named executive officers and senior management are awarded options and shares of restricted stock. Only stock options are granted to employees below the senior management level. The equity awards for named executive officers and senior management are determined based on 70% of the award value, using a Black-Scholes model for calculations developed by the Compensation Committee's consultant, Pearl Meyer & Partners, in the form of options and 30% of the award value, based on the closing price of our common stock on the grant date, in shares of restricted stock.

The Compensation Committee at least annually reviews the rate of share usage and dilution of our common stock in connection with its grants of equity awards. Our fiscal year 2006 rate of share usage of 1.2% of the common shares outstanding was at the median and below the average for our peer group companies. Our policy is to keep dilution of our common stock by outstanding stock options and shares of restricted stock to below 10%. Subsequent to our 2006 annual grants, dilution by outstanding equity awards was approximately 8.9%, which is below the median for our peer group companies.

On March 22, 2006, our board approved our 2006 annual long-term equity incentive awards for our named executive officers and senior management and determined that they will be effective as of April 20, 2006, the date prior to the first date of trading in our common stock on the NYSE, with an option exercise price equal to the initial public offering price. Approximately 166 employees and non-employee directors received a total of 801,400 option grants on April 20, 2006. Such grants provide an incentive for our executives and other employees to increase our market value, as represented by our market price, as well as serve as a method for motivating and retaining our executives.

All stock options granted to our executive officers in 2006 under our 2001 Stock Incentive Plan have a term of 10 years, subject to earlier termination in connection with termination of employment. Stock options and shares of restricted stock generally vest at a rate of one-third or one-fourth per year on each anniversary of the grant date over three or four years, as applicable, in order to provide an incentive for continued employment. In August 2006, we updated our form of equity award agreements and provided our executive officers with an extended option exercise period of one year following termination of employment in order to facilitate option exercises post termination when a participant is no longer in possession of material non-public information concerning us and to permit better personal financial planning. For option grants following our initial public offering, the exercise price of such grants under the 2001 Stock Incentive Plan is equal to the closing price of our common stock on the NYSE on the grant date.

Delegation of Authority to Grant Equity Awards. The Compensation Committee and our board of directors delegated to our Chief Executive Officer, the making of our annual 2006 grants of stock options to non-Section 16 key employees under the 2001 Stock Incentive Plan, effective as of April 20, 2006, the date prior to the first date of trading in our common stock on the NYSE. Such delegation was limited by guidelines approved by the Compensation Committee regarding the terms of the options, the exercise price (the public offering price) and the number of stock options that would be granted to each of the following employee groups: division vice presidents/directors, managers and key employees, totaling 559,300 options.

In September 2006, our board of directors established an Equity Award Sub-Committee of our board and our Chief Executive Officer was appointed as the sole member of the Equity Award Sub-Committee. The Compensation Committee and the board delegated the making of grants of equity awards, to employees who are not Section 16 officers and who are not officers or senior managers or other key employees with a salary in excess of \$200,000 per year, to our Chief Executive Officer, as the sole member of the Equity Award Sub-Committee. The foregoing delegation was generally subject to the following limitations and conditions:

the aggregate number of awards that may be granted must be set by the Compensation Committee each year;

the options must have an exercise price equal to the closing price of our common stock on the grant date and may have a term not longer than ten years; and

the awards shall be exercisable in installments, with full vesting to occur no sooner than the third anniversary after the grant date and awards shall be made under and subject to the terms set forth in our 2001 Stock Incentive Plan.

Table of Contents

Policies with Respect to Equity Compensation Awards Determinations. Effective for 2007, our board of directors adopted a written policy regarding granting of equity awards. Under our policy, we make grants of equity awards at least once annually and the grant date for the annual grant has been established as the last business day of January. The date of approval for such grants may precede, or occur on, the last business day of January. The Compensation Committee, in approving the annual grants is required to (i) specify the annual grants of equity awards to be made to each executive officer, each division president and each other employee whose base salary equals or exceeds \$200,000, and (ii) specify the total grants to be made to the employees as a group comprising each of our business units and/or divisions, as applicable. The Equity Award Sub-Committee, consisting of our Chief Executive Officer, may then allocate the equity awards to the specific employees within such business units and/or divisions and such allocation shall be complete and evidenced by a unanimous written consent executed by the Equity Award Sub-Committee on or before the last business day of January.

The Compensation Committee and the Equity Award Sub-Committee may from time to time grant equity awards in addition to the annual grant effective as of a specified future date or upon the occurrence of a specified and objectively determinable future event, such as an individual's commencement of employment or promotion, in which case such future date shall be the date of grant of the equity award. In no event may the grant date of an equity award be made effective as of a date earlier than the approval date of the award and in no event may the exercise price of an option grant be less than the closing price of our common stock on the NYSE on the grant date.

Severance and Change of Control Agreements

During the fourth quarter of 2006, the Compensation Committee reviewed market data provided by our compensation consultant relating to the prevalence of change of control agreements in the energy services and peripheral energy industry, and the standard terms for such benefits. The market data was compiled from a cross section of 33 energy and energy service companies that were selected on the basis that they directly or indirectly compete with us for executive talent, they experience comparable market cycles and they may be tracked similarly by market analysts. The Compensation Committee also considered the existing terms of the agreement with our Chief Executive Officer providing certain severance and change of control benefits, and the existing terms of the employment letters with our executive officers providing certain severance benefits. The Compensation Committee approved agreements for a total of nine members of senior management, including our named executive officers and our recently appointed President and Chief Operating Officer, that provide such employees with certain payments and other benefits in the event of a change of control, in the event of a qualifying termination of employment in connection with a change of control and in the event of certain terminations of employment not related to a change of control. In addition, the agreement of our Chief Executive Officer, was amended to be consistent with certain of the benefits provided to the other named executive officers and to ensure compliance of his agreement with Section 409A of the Internal Revenue Code.

The benefits payable in connection with a change of control vary with position and range from a multiple of three to two times salary and bonus, based on position, plus continuation of 401(k) contribution and health and other benefits for a period of years multiplied by the applicable multiple. These payments and benefits are payable only upon a double trigger, wherein the executive's employment is terminated by us without cause or by the executive for good reason within six months prior to or two years following a change of control. The payments and benefits also include full acceleration of all equity awards upon a change of control (i.e. a single trigger). Gross-up payments to reimburse for excise taxes payable by the executive are provided to the Chief Executive Officer and certain named executive officers. These provisions were prevalent in our industry and ensured that the executive officers would receive the full value of the expected payments. These agreements are designed to retain our executive officers and provide continuity of management in the event of an actual or threatened change in control and to ensure that our executive officers direct their energies to creating the best deal for our stockholders without concern for their personal prospects.

The agreements also provide certain benefits and payments in the event a member of senior management is terminated without cause. The benefits payable in connection with this type of termination vary with

Table of Contents

position and range from a multiple of two to one and one-third times salary and bonus, based on position, plus acceleration of all equity awards, and continuation of health and other benefits for a period of years multiplied by the applicable multiple. These provisions were consistent with the letter agreements of the executive officers and certain of the terms of our Chief Executive Officer's agreement. These benefits were also prevalent in approximately two-thirds of the companies reviewed. A more complete description of the material terms of our severance and change of control arrangements can be found under Potential Payments Upon Termination or Change of Control Change of Control Agreements.

Policy on Deductibility of Compensation

Section 162(m) of the Internal Revenue Code limits the tax deductibility by a company of annual compensation in excess of \$1,000,000 paid to our Chief Executive Officer and any of our four other most highly compensated executive officers. However, performance-based compensation that has been approved by stockholders is excluded from the \$1,000,000 limit if, among other requirements, the compensation is payable only upon attainment of pre-established, objective performance goals and our board of directors committee that establishes such goals consists only of outside directors. All members of the Compensation Committee qualify as outside directors. Additionally, stock options will qualify for the performance-based exception where, among other requirements, the exercise price of the option is not less than the fair market value of the stock on the date of grant, and the plan includes a per-executive limitation on the number of shares for which options may be granted during a specified period. Our stock option grants under our 2001 Stock Incentive Plan are intended to meet the criteria of performance based compensation under Section 162(m), while our restricted stock awards do not qualify as performance based compensation. The MIP is designed and has been implemented with the intent to meet the performance-based criteria of Section 162(m) of the Internal Revenue Code.

The Compensation Committee considers the anticipated tax treatment to us and our executive officers when reviewing executive compensation and our compensation programs. While the tax impact of any compensation arrangement is one factor to be considered, such impact is evaluated in light of the Compensation Committee's overall compensation philosophy. The Compensation Committee will consider ways to maximize the deductibility of executive compensation, while retaining the discretion it deems necessary to compensate officers in a manner commensurate with performance and the competitive environment for executive talent. From time to time, the Compensation Committee may award compensation to our executive officers which is not fully deductible if it determines that such award is consistent with its philosophy and is in our and our stockholders best interests, such as time vested grants of restricted stock or retention bonuses, as part of their initial employment offers.

Sections 280G and 4999 of the Internal Revenue Code impose certain adverse tax consequences on compensation treated as excess parachute payments. An executive is treated as having received excess parachute payments for purposes of Sections 280G and 4999 of the Internal Revenue Code if he or she receives compensatory payments or benefits that are contingent on a change in the ownership or control of a corporation, and the aggregate amount of such contingent compensatory payments and benefits equal or exceeds three times the executive's base amount. If this occurs, the portion of the payments and benefits in excess of one times the base amount is treated as an excess parachute payment subject to a 20% excise tax under Section 4999 of the Internal Revenue Code, in addition to any applicable federal income and employment taxes. Also, the corporation's compensation deduction in respect of the executive's excess parachute payment is disallowed under Section 280G of the Internal Revenue Code. If we were to be subject to a change of control, certain amounts received by our executives (for example, amounts attributable to the accelerated vesting of stock options and the payments and benefits payable upon a qualifying termination following a change of control) could be excess parachute payments under Sections 280G and 4999 of the Internal Revenue Code. We provide certain of our executive officers with tax gross-up payments in the event of a qualifying termination in connection with a change of control.

In June 2005, Mr. Winkler was granted options under each of our predecessor's stock incentive plans, which we assumed in September 2005 as part of the Combination of CES and IEM into IPS, which was renamed Complete Production Services, Inc.

Mr. Winkler's 2005 option grants vest in four annual installments over a four-year period on each anniversary of the grant date, subject to continued service with us.

- (4) The amounts shown represent the bonus performance awards earned under the MIP for services rendered during fiscal year 2006. The MIP permits the payment of yearly bonuses based upon pre-established performance criteria for each plan year and provides for four levels of performance: Entry, Expected Value, Over Achievement and Stretch, with the Entry level being the minimum level of performance that will be rewarded by the bonus plan and the Stretch level being the highest level of performance that will be rewarded by the bonus plan. As a result of our achievement of adjusted EBITDA of \$304.6 million for fiscal year 2006, we performed at approximately 57% between the Over Achievement and Stretch adjusted targets. Bonuses to our executive officers are based upon a percentage of their base salary. See Grant of Plan Based Awards and Compensation Discussion and Analysis Components of Compensation Annual Performance-Based Cash Bonuses for a more complete description of the bonus plan.
- (5) The amounts shown include our incremental cost for the provision to each of the named executive officers of a car allowance equal to \$9,600 for fiscal year 2006, and matching contributions made under our 401(k) Plan as follows:

(1) Option and stock awards were approved by the Compensation Committee on March 22, 2006 and became effective in accordance with the terms of the 2001 Stock Incentive Plan on April 20, 2007, the day before the first day of trading in our common stock on the NYSE.

(2) The amounts shown represent potential value of performance bonus awards under the MIP for fiscal year 2006. The Management Bonus Plan provides for the payment of cash bonuses based upon our EBITDA. The bonus plan permits the payment of yearly bonuses based upon pre-established performance criteria for each plan year. The bonus plan provides for four levels of performance: Entry, Expected Value, Over Achievement and Stretch, with the Entry level being the minimum level of performance that will be rewarded by the bonus plan and the Stretch

level being the highest level of performance that will be rewarded by the bonus plan. Accordingly, the amounts shown in the **Threshold** column above reflect the minimum amounts payable under the bonus plan, which occurs upon achievement of the **Entry** performance level. The amounts shown in the **Target** column reflect the target incentive amounts payable under the bonus plan, which occurs upon achievement of the **Expected Value** performance level. The amounts shown in the **Maximum** column reflect the maximum amounts payable under the bonus plan, which occurs upon achievement of the **Stretch** performance level. For each calendar year, the Compensation Committee establishes in writing the **Entry**, **Expected Value**, **Over Achievement** and **Stretch** performance levels and potential bonus payouts for each bonus plan participant based upon our EBITDA. For fiscal year 2006, the Compensation Committee approved an **Expected Value** performance goal EBITDA of \$277 million, an **Entry** performance goal EBITDA of \$225 million, an **Over Achievement** performance goal EBITDA of \$300 million and a **Stretch** performance goal EBITDA of \$335 million. Potential bonus payouts are represented as a percentage of each participant's base salary. The plan provides for straight line interpolations between the performance goal levels. These targets were adjusted to give effect to discontinued operations and acquisitions, as permitted under the MIP. As a result of our achievement of EBITDA of \$304.6 million, as adjusted to reflect discounted operations and acquisitions, we performed in 2006 at approximately 57% between the **Over Achievement** and **Stretch** adjusted targets. Actual amounts awarded under the plan to our named executive officers for fiscal year 2006 are reflected in the Summary Compensation Table. Please see Compensation Discussion and Analysis

- (4) Amounts shown represent options issued under our 2001 Stock Incentive Plan that vest in equal annual installments over a three-year period on each anniversary of the date of grant, subject to continued service with us, and have a ten-year term.
- (5) The dollar value of the options shown represents the grant date fair value based on the Black-Scholes model of option valuation to determine grant date fair value, as prescribed under Financial Accounting Standards No. 123R. The actual value, if any, an executive may realize will depend on the excess of the stock price over the exercise price on the date the option is exercised. There is no assurance that the value realized by an executive will be at or near the value estimated by the Black-Scholes model. The following assumptions were used in the Black-Scholes model: market price of stock, \$24.00; exercise price of option, \$24.00; expected stock volatility, 36.7%; risk-free interest rate, 5.02% (based on the 10-year treasury bond rate); expected life, approximately five years; dividend yield, 0%.
- (6) The dollar value of the stock shown represents the grant date fair value as prescribed under Financial Accounting Standards No. 123R, based on the closing price of our common stock on the date of grant of \$24.00.

Potential Payments Upon Termination or Change of Control

We have entered into agreements with each of our named executive officers and certain other members of our senior management that provide certain severance payments and benefits (the severance plan) and certain change of control payments and benefits (the change of control plan).

Severance Plan

Pursuant to the terms of the severance plan, if we terminate the employee's employment other than for cause (as defined below), and for Mr. Winkler, the employee voluntarily terminates his employment for good reason (as defined below) prior to attainment of age 63, the employee will be entitled to receive certain compensation and benefits from us, including the following:

a bonus for the year during which the employee's employment is terminated, which shall not be less than the target bonus amount for such year and shall be pro-rated for the days served;

a severance payment equal to two times (in the case of Mr. Winkler), 1.67 times (in the case of each of Messrs. Moore, Mayer, Maroney and Nibling) or 1.33 times (in the case of Mr. Weisgarber) the sum of the employee's annual base salary and bonus;

for Messrs. Winkler, Moore, Mayer, Maroney and Nibling, all unvested stock options and restricted stock will immediately vest; and

additional benefits, such as health and disability coverage and benefits and a lump sum payment in lieu of an automobile allowance for up to 24 months (in the case of Mr. Winkler), 20 months (in the case of each

Messrs. Moore, Mayer, Maroney and Nibling) or 16 months (in the case of Mr. Weisgarber) following the date of termination and an extended exercise period for options granted after the effective date of the agreements.

Change of Control Plan

Pursuant to the change of control plan, upon a change of control all unvested stock options and restricted stock will immediately vest. In addition, if at any time during the period that commences six months prior to and ends two years following the effective date of a change of control, the employee voluntarily terminates his employment for good reason (as defined below) or we terminate the employee's employment

other than for cause, the employee will be entitled to receive certain additional compensation and benefits from us, including the following:

a bonus for the year during which the employee's employment is terminated, which shall not be less than the target bonus amount for such year and shall be pro-rated for the days served,

a severance payment equal to three times (in the case of Mr. Winkler), 2.5 times (in the case of each of Messrs. Moore, Mayer, Maroney and Nibling) or two times (in the case of Mr. Weisgarber) of the sum of the employee's annual base salary and bonus and the amount we would be required to contribute on the employee's behalf under our pension, 401(k), deferred compensation and other retirement plans based on the employee's termination base salary,

the employee shall become fully vested in the employee's accrued benefits under all pension, 401(k), deferred compensation or any other retirement plans maintained by us;

additional benefits, such as health and disability coverage and benefits and a lump sum payment in lieu of a car allowance for up to three years (in the case of Mr. Winkler), 2.5 years (in the case of each Messrs. Moore, Mayer, Maroney and Nibling) or two years (in the case of Mr. Weisgarber) following the date of termination and an extended exercise period for options granted after the effective date of the agreements, and in the case of Mr. Winkler, a lump sum payment in lieu of outplacement services equal to 15% of his termination base salary; and

in the case of Messrs. Winkler, Moore, Mayer, Maroney and Nibling, additional payments to compensate for excise taxes imposed by Section 4999 of the Internal Revenue Code on the compensation and benefits provided.

General

All payments under both the severance plan and the change of control plan are designed to be paid in lump sum and are designed to avoid the taxation imposed by Section 409 of the Internal Revenue Code. Throughout the severance payout period (two years in the case of Mr. Winkler, 20 months in the case of Messrs. Moore, Mayer, Maroney and Nibling and 16 months in the case of Mr. Weisgarber) or the change of control payout period (three years in the case of Mr. Winkler, 2.5 years in the case of Messrs. Moore, Mayer, Maroney and Nibling and two years in the case of Mr. Weisgarber) the executive shall not induce any person in our employment to terminate such employment or accept employment with anyone other than us or, subject to certain limited exceptions, engage in any business or activity or render any services or provide any advice to any business or entity that directly or indirectly competes in any material manner with us. The initial term of Mr. Winkler's agreement terminates on June 20, 2008, the third anniversary of the effective date of the agreement, while the initial term of the other officers' agreements terminates on March 21, 2009, the second anniversary of the effective date of the agreements. Unless either party gives notice of its intention not to renew, the term will be automatically extended for successive one-year periods.

Cause is generally defined as the executive's (a) conviction of a felony; (b) commission of any act of theft, fraud, embezzlement or misappropriation against us that is materially injurious; (c) willful and continued failure to devote substantially all of his business time to our business affairs, which failure is not remedied within a reasonable time after written demand is delivered; (d) unauthorized disclosure of our confidential information that is materially injurious to us; or (e) knowing or willful material violation of federal or state securities laws.

A change of control is generally defined as one of the following: (a) any person becomes the beneficial owner of our securities representing 20% or more of our combined voting power; (b) a change in the majority of the membership of

our board occurs without approval by two-thirds of the directors who are continuing directors; (c) we are merged, consolidated or combined with another corporation or entity and our stockholders prior to such transaction own less than 55% of the outstanding voting securities of the surviving entity; (d) a tender offer or exchange offer is made and consummated by a person or group of persons for the ownership of

Table of Contents

20% or more of our voting securities; or (e) there is a disposition, transfer, sale or exchange of all or substantially all of our assets, or stockholder approval of a plan of our liquidation or dissolution.

Good reason is generally defined as any of the following which results in the terms of employee's employment having been detrimentally and materially affected: (a) failure to re-elect or appoint the employee to any corporate office or directorship he currently occupies or a material reduction in his authority, duties or responsibilities or if the executive is assigned duties or responsibilities materially inconsistent from those immediately prior to such assignment; (b) a material reduction in the employee's compensation, benefits and perquisites; (c) we fail to obtain a written agreement satisfactory to the executive from our successor or assigns to assume and perform his employment agreement; or (d) we require the executive to be based at any office located more than 50 miles from our current offices.

In accordance with the requirements of the rules of the SEC, the following table presents our reasonable estimate of the benefits payable to the named executive officers under our employment agreements (1) assuming that a change of control occurred on December 29, 2006, the last business day of fiscal year 2006, (2) assuming that a change of control and qualifying termination of employment occurred on December 29, 2006, the last business day of fiscal year 2006 and (3) assuming that a termination of employment without cause (and not within the change of control protective period), as described above, occurred on December 29, 2006, the last business day of fiscal year 2006. Excluded are benefits provided to all employees, such as accrued vacation, and benefits provided by third parties under our life and other insurance policies. While we have made reasonable assumptions regarding the amounts payable, there can be no assurance that in the event of a change of control, the named executive officers will receive the amounts reflected below.

OTHER MATTERS

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, or the Exchange Act, requires our directors and executive officers, and persons who own more than 10% of a registered class of our securities, to file with the SEC initial reports of ownership and reports of changes in ownership of our common stock and other equity securities. Based solely on a review of copies of such forms received with respect to fiscal year 2006 and the written representations received from certain reporting persons that no other reports were required, we believe that all directors, executive officers and persons who own more than 10% of our Common Stock have complied with the reporting requirements of Section 16(a).

Stockholder Proposals and Nominations

Proposals Pursuant to Rule 14a-8. Pursuant to Rule 14a-8 under the Exchange Act, stockholders may present proper proposals for inclusion in our proxy statement and for consideration at our next annual meeting of stockholders. To be eligible for inclusion in our 2008 proxy statement, your proposal must be received by us no later than December 14, 2007, and must otherwise comply with Rule 14a-8. While our board will consider stockholder proposals, we reserve the right to omit from our proxy statement stockholder proposals that we are not required to include under the Exchange Act, including Rule 14a-8.

Proposals and Nominations Pursuant to our Bylaws. Under our Amended and Restated Bylaws (bylaws), in order to nominate a director or bring any other business before the stockholders at the 2008 annual meeting that will not be included in our proxy statement, you must comply with these procedures as described below. In addition, you must notify us in writing and such notice must be delivered to our Secretary no earlier than January 25, 2008 and later than February 24, 2008.

Our bylaws provide that a stockholder's nomination must contain the following information about the nominee: (i) all information relating to such person that is required to be disclosed in solicitations of proxies for election of directors in an election contest, or is otherwise required, in each case pursuant to and in accordance with Regulation 14A under the Exchange Act and Rule 14a-11 thereunder, and (ii) such person's written consent to being named in the proxy statement as a nominee and to serving as a director if elected. Any candidates recommended by stockholders for nomination to the board will be evaluated in the same manner that nominees suggested by board members, management or other parties are evaluated.

Our bylaws provide that a stockholder's notice of a proposed business item must include: a brief description of the business desired to be brought before the meeting, the text of the proposal or business (including the text of any resolutions proposed for consideration and in the event that such business includes a proposal to amend the bylaws of the corporation, the language of the proposed amendment), the reasons for conducting such business at the meeting and any material interest in such business of such stockholder and the beneficial owner, if any, on whose behalf the proposal is made. In addition, the bylaws provide that a stockholder proposing any nomination or other business item must include, as to the stockholder giving the notice and the beneficial owner, if any, on whose behalf the nomination or proposal is made (i) the name and address of such stockholder, as they appear on our books, and of such beneficial owner, (ii) the class and number of shares of our capital stock which are owned beneficially and of record by such stockholder and such beneficial owner, (iii) a representation that the stockholder is a holder of record of our stock entitled to vote at such meeting and intends to appear in person or by proxy at the meeting to propose such business or

nomination, and (iv) a representation whether the stockholder or the beneficial owner, if any, intends or is part of a group which intends (a) to deliver a proxy statement and/or form of proxy to holders of at least the percentage of our outstanding capital stock required to approve or adopt the proposal or elect the nominee and/or (b) otherwise to solicit proxies from stockholders in support of such proposal or nomination. We may

Table of Contents

require any proposed nominee to furnish such other information as we may reasonably require to determine the eligibility of such proposed nominee to serve as our director.

You may write to our Secretary at our principal executive office, 11700 Old Katy Road, Suite 300, Houston, Texas 77079 to deliver the notices discussed above and for a copy of the relevant bylaw provisions regarding the requirements for making stockholder proposals and nominating director candidates pursuant to the bylaws.

Householding of Proxy Materials

The SEC has adopted rules that permit companies and intermediaries (such as banks and brokers) to satisfy the delivery requirements for proxy statements and annual reports with respect to two or more stockholders sharing the same address by delivering a single proxy statement addressed to those stockholders. This process, which is commonly referred to as householding, potentially means extra convenience for stockholders and cost savings for companies.

This year, a number of banks and brokers with account holders who are our stockholders will be householding our proxy materials. A single proxy statement will be delivered to multiple stockholders sharing an address unless contrary instructions have been received from the affected stockholders. Once you have received notice from your bank or broker that it will be householding communications to your address, householding will continue until you are notified otherwise or until you revoke your consent. If, at any time, you no longer wish to participate in householding and would prefer to receive a separate proxy statement and annual report, please notify your bank or broker, direct your written request to Investor Relations, Complete Production Services, Inc., 11700 Old Katy Road, Suite 300, Houston, Texas 77079, or contact Investor Relations by telephone at (281) 372-2300. Stockholders who currently receive multiple copies of the proxy statement at their address and would like to request householding of their communications should contact their bank or broker.

Incorporation by Reference

Notwithstanding anything to the contrary set forth in any of our previous filings under the Securities Act of 1933, as amended, or the Exchange Act which might incorporate future filings made by us under those statutes, neither the preceding Compensation Committee Report nor the Audit Committee Report will be incorporated by reference into any of those prior filings, nor will any such report be incorporated by reference into any future filings made by us under those statutes, except to the extent we specifically incorporate such reports by reference therein. In addition, information on our website, other than our proxy statement and form of proxy, is not part of the proxy soliciting material and is not incorporated herein by reference.
