For Quarter Ended September 30, 2006*

POLARIS INDUSTRIES INC.**NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS****NOTE 1. Significant Accounting Policies***Basis of Presentation*

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial statements and, therefore, do not include all information and disclosures of results of operations, financial position and changes in cash flow in conformity with accounting principles generally accepted in the United States for complete financial statements. Accordingly, such statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2005, previously filed with the Securities and Exchange Commission. In the opinion of management, such statements reflect all adjustments (which include only normal recurring adjustments) necessary for a fair presentation of the financial position, results of operations, and cash flows for the periods presented. Due to the seasonality of the snowmobile, all terrain vehicle (ATV), motorcycle and the parts, garments and accessories (PG&A) business, and to certain changes in production and shipping cycles, results of such periods are not necessarily indicative of the results to be expected for the complete year. Certain amounts in the 2005 periods presented have been reclassified for consistency of presentation. Polaris' allocable share of the income (loss) of Robin Manufacturing, U.S.A. (Robin) has been reclassified to Equity in (income) of manufacturing affiliates, net of tax, in the consolidated statements of income and Polaris' investment for Robin has been reclassified to Investments in manufacturing affiliates in the consolidated balance sheets for each period presented. These changes had no impact on previously reported net income. Additionally, during the first quarter of 2006, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 123(R), Share-Based Payment (SFAS 123(R)), which requires companies to recognize in the financial statements the fair value of stock options and other equity-based compensation issued to employees. Certain amounts in the financial statements in the 2005 period have been adjusted to give effect to the adoption of SFAS 123(R). See Note 2 for further discussion.

On September 2, 2004, the Company announced its decision to discontinue the manufacture of marine products. In accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, the marine products division's financial results are reported separately as discontinued operations for all periods presented.

Product Warranties

Polaris provides a limited warranty for ATVs for a period of six months and for a period of one year for its snowmobiles and motorcycles. Polaris may provide longer warranties related to certain promotional programs, as well as longer warranties in certain geographical markets as determined by local regulations and market conditions. Polaris standard warranties require the Company or its dealers to repair or replace defective product during such warranty period at no cost to the consumer. The warranty reserve is established at the time of sale to the dealer or distributor based on management's best estimate using historical rates and trends. Adjustments to the warranty reserve are made from time to time as actual claims become known in order to properly estimate the amounts necessary to settle future and existing claims on products sold as of the balance sheet date. Factors that could have an impact on the warranty accrual in any given period include the following: improved manufacturing quality, shifts in product mix, changes in warranty coverage periods, snowfall and its impact on snowmobile usage, product recalls and any significant changes in sales volume. The activity in Polaris' accrued warranty reserve for the periods presented is as follows (in thousands):

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2006	2005	2006	2005
Accrued warranty reserve, beginning	\$ 22,827	\$ 23,386	\$ 28,178	\$ 28,243
Additions charged to expense	10,301	10,553	25,294	26,599
Warranty claims paid	(5,229)	(7,000)	(25,573)	(26,953)
				(950)

Consumer Products Safety Commission
(CPSC) settlement paid (charged to expense prior to
2004)

Accrued warranty reserve, ending	\$ 27,899	\$ 26,939	\$ 27,899	\$ 26,939
----------------------------------	-----------	-----------	-----------	-----------

During the first quarter 2005, the Company paid the CPSC \$950,000 to settle claims alleging that the Company violated the Consumer Product Safety Act dating back to the late 1990 s. Polaris entered into the settlement to avoid continuing legal costs associated with protracted litigation.

6

Table of Contents

*Polaris Industries Inc. FORM 10-Q
For Quarter Ended September 30, 2006*

NOTE 2. Share-Based Employee Compensation

In the first quarter ended March 31, 2006 Polaris adopted Financial Accounting Standards Board (FASB) SFAS 123(R) which requires companies to recognize in the financial statements the grant-date fair value of stock options and other equity-based compensation issued to employees. Polaris adopted SFAS 123(R) using the modified retrospective method. In accordance with the modified retrospective method, the consolidated financial statements for prior periods have been adjusted to give effect to the adoption of SFAS 123(R). In addition, Polaris recorded on the consolidated statements of income in the first quarter of 2006 an after tax benefit of \$407,000 or \$0.01 per diluted share from the cumulative effect of the accounting change. Beginning with the first quarter 2006, the Company has reclassified other share-based compensation expenses, previously reported in General and administrative expenses, to Cost of sales and the Operating expenses lines on the consolidated statements of income. The balance sheet and statements of cash flow for the quarter and year to date periods ended September 30, 2005 have also been adjusted to reflect the impact of SFAS 123(R). The impact to the Company's net earnings of adopting SFAS 123(R) is consistent with the pro forma disclosures provided in the footnotes contained in previous financial statements.

Share-Based Plans

Polaris maintains a stock option plan (Option Plan) under which incentive and nonqualified stock options for a maximum of 8,200,000 shares of common stock may be issued to certain employees. Options granted to date generally vest three years from the award date and expire after ten years.

Polaris maintains a broad based stock option plan (Broad Based Plan) under which incentive stock options for a maximum of 700,000 shares of common stock could be issued to substantially all Polaris employees. These options expire in 2009. Options with respect to 675,400 shares of common stock were granted under this plan during 1999 at an exercise price of \$15.78 and of the options initially granted under the Broad Based Plan, an aggregate of 518,400 vested in March 2002.

Polaris maintains a restricted stock plan (Restricted Plan) under which a maximum of 2,350,000 shares of common stock may be awarded as an incentive to certain employees with no cash payments required from the recipient. The majority of the outstanding awards contain restrictions which lapse after a two to four year period if Polaris achieves certain performance measures.

Polaris maintains a nonqualified deferred compensation plan (Director Plan) under which members of the Board of Directors who are not Polaris officers or employees can elect to receive common stock equivalents in lieu of director's fees, which will be converted into common stock when board service ends. A maximum of 200,000 shares of common stock has been authorized under this plan of which 75,248 equivalents have been earned and an additional 59,810 shares have been issued to retired directors as of September 30, 2006. As of September 30, 2006 and December 31, 2005, Polaris' liability under the plan totaled \$3,096,000 and \$3,500,000, respectively.

Polaris maintains a non-employee director stock option plan (the Directors Stock Option Plan), under which nonqualified stock options for a maximum of 200,000 shares of common stock may be issued to non-employee directors. Each non-employee Director as of the date of the annual shareholders meetings has been granted an option to purchase 4,000 shares of common stock at a price per share equal to the fair market value as of the date of grant. Options become exercisable as of the date of the next annual shareholders meeting following the date of grant and must be exercised no later than 10 years from the date of grant.

Polaris maintains a long term incentive plan (LTIP) under which awards are issued to provide incentives for certain employees to attain and maintain the highest standards of performance and to attract and retain employees of outstanding competence and ability with no cash payments required from the recipient. The awards are paid in cash and are based on certain performance measures for the Company that are measured over a period of three consecutive calendar years. At the beginning of the plan cycle participants have the option to receive a cash value at the time of awards or a cash value tied to Polaris stock price movement over the three year plan cycle. At September 30, 2006 and December 31, 2005, Polaris' liability under the plan totaled \$0 and \$3,997,000, respectively.

Share-Based Compensation Expense

The amount of compensation cost for share-based awards to be recognized during a period is based on the portion of the awards that are ultimately expected to vest. The Company estimates option forfeitures at the time of grant and revises those estimates in subsequent periods if actual forfeitures differ from those estimates. The Company analyzes historical data to estimate pre-vesting forfeitures and records share compensation expense for those awards expected to vest. During the second quarter of 2006 it was determined that the likelihood of the

Table of Contents*Polaris Industries Inc. FORM 10-Q
For Quarter Ended September 30, 2006*

performance measures associated with 93,000 shares of restricted stock awards outstanding being achieved was no longer probable. Therefore the previously recorded expense of \$2,971,000 associated with these restricted stock awards was reversed during the second quarter of 2006. Additionally, during the third quarter of 2006 stock based compensation expenses for the LTIP were adjusted to reflect the anticipated lower Company financial performance for the 2006 year.

Total share-based compensation expenses for the three and nine month periods ended September 30, 2006 and 2005 are as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
Option plan	\$ 2,109	\$ 2,525	\$ 6,353	\$ 6,016
Other share-based awards	(3,148)	1,593	(5,752)	4,090
Total share-based compensation before tax	(1,039)	4,118	601	10,106
Tax (benefit) expense	(512)	1,220	236	3,349
Total share-based compensation expense included in net income	(\$ 527)	\$ 2,898	\$ 365	\$ 6,757

These share-based compensation expenses are reflected in Cost of sales and Operating expenses in the accompanying consolidated statements of income. For purposes of determining the estimated fair value of share-based payment awards on the date of grant under SFAS 123(R), Polaris has used the Black-Scholes option-pricing model. Assumptions utilized in the model are evaluated and revised, as necessary, to reflect market conditions and experience.

At September 30, 2006 there was \$9,286,000 of total unrecognized stock-based compensation expense related to unvested share-based awards. Unrecognized share-based compensation expense is expected to be recognized over a weighted-average period of 1.0 year. Included in unrecognized share-based compensation is approximately \$9,137,000 related to stock options and \$149,000 for restricted stock.

General Stock Option and Restricted Stock Information

The following summarizes share activity and the weighted average exercise price for the following plans for the nine months ended September 30, 2006:

	Option Plan		Broad Based Plan		Directors Stock Option Plan	
	Outstanding	Weighted Average Exercise Price	Outstanding	Weighted Average Exercise Price	Outstanding	Weighted Average Exercise Price
	Shares	Price	Shares	Price	Shares	Price
Balance as of December 31, 2005	4,264,798	\$ 33.94	66,700	\$ 15.78	92,000	\$ 43.84
Granted	8,000	51.65			28,000	49.21
Exercised	(243,070)	22.60	(4,600)	15.78	(8,000)	26.68
Forfeited	(56,560)	46.19	(1,100)	15.78	(8,000)	52.55
Balance as of September 30, 2006	3,973,168	\$ 34.49	61,000	\$ 15.78	104,000	\$ 45.93

Vested or expected to vest at September 30, 2006	3,933,149	\$	34.33	61,000	\$	15.78	104,000	\$	45.93
Options exercisable as of September 30, 2006	2,508,168	\$	24.48	61,000	\$	15.78	76,000	\$	44.73

The weighted average remaining contractual life of outstanding options was 5.4 years as of September 30, 2006.

Table of Contents

*Polaris Industries Inc. FORM 10-Q
For Quarter Ended September 30, 2006*

The following assumptions were used to estimate the weighted average fair value of options of \$12.58 and \$14.39 granted during the nine months ended September 30, 2006 and 2005, respectively:

	For the Nine Months Ended September 30,	
	2006	2005
Expected volatility	27%-29%	27%-33%
Weighted-average volatility	28%	29%
Expected dividend yield	2.5%	2.1%
Expected term (in years)	5.0	4.9
Risk free interest rate	4.4%-4.9%	3.3%-4.1%

The total intrinsic value of options exercised during the nine months ended September 30, 2006 was \$6,721,000. The total intrinsic value of options outstanding and exercisable at September 30, 2006 was \$43,694,000 and \$41,800,000, respectively. The total intrinsic value at September 30, 2006 is based on the Company's closing stock price on the last trading day of the quarter for in-the-money options.

The following table summarizes restricted stock activity during the nine months ended September 30, 2006:

	Shares Outstanding	Weighted Average Grant Price
Balance as of December 31, 2005	167,280	\$ 51.50
Granted		
Vested	(21,780)	25.32
Canceled		
Balance as of September 30, 2006	145,500	\$ 55.41
Expected to vest at September 30, 2006	52,500	\$ 43.20

The total intrinsic value of restricted stock expected to vest as of September 30, 2006 was \$2,160,000. The total intrinsic value at September 30, 2006 is based on the Company's closing stock price on the last trading day of the quarter.

NOTE 3. Inventories

Inventories are stated as the lower of cost (first-in, first-out method) or market. The major components of inventories are as follows (in thousands):

	September 30, 2006	December 31, 2005
Raw materials and purchased components	\$ 42,868	\$ 17,321
Service parts, garments and accessories	67,205	70,299
Finished goods	145,564	126,311
Less: reserves	(11,701)	(11,909)
Inventories	\$ 243,936	\$ 202,022

NOTE 4. Financing Agreement

Polaris has an unsecured bank line of credit arrangement with maximum available borrowings of \$250,000,000 expiring on June 25, 2009. Interest is charged at rates based on LIBOR or prime (effective rate was 6.00 percent at September 30, 2006).

Polaris has entered into an interest rate swap agreement to manage exposures to fluctuations in interest rates. The effect of this agreement is to fix the interest rate at 7.21 percent for \$18,000,000 of borrowings under the credit line until June 2007.

As of September 30, 2006, total borrowings under the bank line of credit arrangement were \$78,000,000 and have been classified as long-term in the accompanying consolidated balance sheets.

NOTE 5. Investment in Finance Affiliate

In 1996, a wholly owned subsidiary of Polaris entered into a partnership agreement with a subsidiary of Transamerica Distribution Finance (TDF) to form Polaris Acceptance. In January 2004, TDF was merged with a subsidiary of General Electric Company and as a result of that merger, TDF s name was changed to GE Commercial Distribution Finance (GECDF). Polaris Acceptance provides floor plan

Table of Contents*Polaris Industries Inc. FORM 10-Q
For Quarter Ended September 30, 2006*

financing to Polaris dealers in the United States. Polaris subsidiary has a 50 percent equity interest in Polaris Acceptance. The receivable portfolio is recorded on Polaris Acceptance's books, and is funded 85 percent through a loan from an affiliate of GECDP and 15 percent by a cash investment shared equally between the two partners. Polaris has not guaranteed the outstanding indebtedness of Polaris Acceptance. Substantially all of Polaris U.S. sales are financed through Polaris Acceptance whereby Polaris receives payment within a few days of shipment of the product. The net amount financed for dealers under this arrangement at September 30, 2006 was approximately \$768,000,000. During the first quarter 2006, the term of the partnership agreement with GECDP was extended to February 29, 2012. Polaris investment in Polaris Acceptance is accounted for under the equity method, and is recorded as a component of Investments in finance affiliate in the accompanying consolidated balance sheets. The partnership agreement provides that all income and losses of the portfolio are shared 50 percent by Polaris wholly owned subsidiary and 50 percent by GECDP. Polaris allocable share of the income of Polaris Acceptance has been included as a component of Income from financial services in the accompanying consolidated statements of income.

A wholly owned subsidiary of Polaris has entered into a multi-year contract with HSBC Bank Nevada, National Association (HSBC), formerly known as Household Bank (SB), N.A., under which HSBC will continue managing the Polaris private label revolving credit card program under the StarCard label. The terms of the multi-year agreement, executed on August 10, 2005, became effective as of August 1, 2005. The agreement provides for income to be paid to Polaris based on a percentage of the volume of revolving retail credit business generated. The previous agreement provided for equal sharing of all income and losses with respect to the retail credit portfolio, subject to certain limitations. The current contract removes all credit, interest rate and funding risk to Polaris and also eliminates the need for Polaris to maintain a retail credit cash deposit with HSBC. Polaris income generated from the HSBC agreement has been included as a component of Income from financial services in the accompanying consolidated statements of income.

A wholly owned subsidiary of Polaris entered into a multi-year contract with GE Money Bank (GE Bank) under which GE Bank will make available closed-end consumer and commercial credit to customers of Polaris dealers. The terms of the new multi-year agreement, executed on February 28, 2006, became effective April 1, 2006. The new agreement provides for income to be paid to Polaris based on a percentage of the volume of sales generated pursuant to the program. Polaris income generated from the GE Bank agreement has been included as a component of Income from financial services in the accompanying consolidated statements of income.

Polaris facilitates the availability of extended service contracts to consumers and certain insurance contracts to dealers and consumers through arrangements with various third party suppliers. Polaris does not have any incremental warranty, insurance or financial risk from any of these third party arrangements. Polaris service fee income generated from these arrangements has been included as a component of Income from financial services in the accompanying consolidated statements of income.

NOTE 6. Investment in Manufacturing Affiliates

The caption Investments in manufacturing affiliates in the consolidated balance sheets represents Polaris equity investment in Robin, which builds engines in the United States for recreational and industrial products, and the investment in the Austrian motorcycle company, KTM Power Sports AG (KTM), which manufactures off-road and on-road motorcycles. Polaris has a 40 percent ownership interest in Robin and during the third quarter of 2005 purchased a 25 percent ownership interest in KTM. Polaris investments, including associated transaction costs, totaling \$97,348,000 at September 30, 2006 and \$87,772,000 at December 31, 2005, are accounted for under the equity method. Polaris allocable share of the operating results of these investments was income of \$2,653,000 and \$945,000 for the three month periods ended September 30, 2006 and 2005, respectively, which are recorded in Equity in (income) of manufacturing affiliates in the accompanying consolidated statements of income. Polaris allocable share of the operating results of these investments for the nine month periods ended September 30, 2006 and 2005 totaled \$3,614,000 and \$945,000, respectively.

Additionally, Polaris and KTM's largest shareholder, Cross Industries AG (Cross), have entered into an option agreement which provides that, under certain conditions in 2007, either Cross may purchase Polaris interest in KTM

or, alternatively, Polaris may purchase Cross' interest in and become the majority shareholder of KTM. The exercise price under both option agreements are based on a predetermined pricing formula to be derived from the operating results of both companies and the market price of Polaris' common stock in 2007. Although the options provided for in the option agreement are not exercisable until 2007, the Company views it as likely that Cross would have the initial option to purchase Polaris' equity interest in KTM. On July 28, 2006, the Company announced that it has been informed by Cross of Cross' intention to retain its majority interest in KTM. In the event that Cross exercises its option to purchase Polaris' equity

Table of Contents

*Polaris Industries Inc. FORM 10-Q
For Quarter Ended September 30, 2006*

interest in KTM, the sale by Polaris to Cross could result in a gain or a loss to Polaris, depending on the calculation of the exercise price at the time of exercise, which in either case will not be based on the market price of KTM shares at that time.

NOTE 7. Shareholders' Equity

During the first nine months of 2006, Polaris paid \$109,353,000 to repurchase and retire approximately 2,576,000 shares of its common stock. As of September 30, 2006 the Company has authorization from its Board of Directors to repurchase up to an additional 2,082,000 shares of Polaris stock. The repurchase of any or all such shares authorized for repurchase will be governed by applicable SEC rules and dependent on management's assessment of market conditions.

Polaris paid a regular cash dividend of \$0.31 per share on August 15, 2006 to holders of record on August 1, 2006. On October 19, 2006, the Polaris Board of Directors declared a regular cash dividend of \$0.31 per share payable on or about November 15, 2006 to holders of record of such shares at the close of business on November 1, 2006.

Net Income per Share

Basic net income per share is computed by dividing net income available to common shareholders by the weighted average number of common shares outstanding during each period, including shares earned under the Director Plan and the Employee Stock Ownership Plan (ESOP). Diluted net income per share is computed under the treasury stock method and is calculated to reflect the dilutive effect of outstanding stock options and certain shares issued under the Restricted Plan.

A reconciliation of these amounts is as follows (in thousands):

	For the Three Months Ended September 30, 2006		For the Nine Months Ended September 30, 2006	
	2006	2005	2006	2005
Weighted average number of common shares outstanding	40,045	41,704	40,890	42,118
Director Plan	75	67	74	65
ESOP	157	191	190	166
Weighted average shares outstanding - basic	40,277	41,962	41,154	42,349
Net effect of dilutive stock options and restricted stock	980	1,638	1,165	1,836
Weighted average shares outstanding - diluted	41,257	43,600	42,319	44,185

Comprehensive Income

Comprehensive income represents net income adjusted for foreign currency translation adjustments and the deferred gains or losses on derivative instruments utilized to hedge Polaris' interest and foreign exchange exposures.

Comprehensive income is as follows (in thousands):

	For the Three Months Ended September 30, 2006		For the Nine Months Ended September 30, 2006	
	2006	2005	2006	2005
Net income	\$ 42,484	\$ 48,344	\$ 74,585	\$ 94,921
Other comprehensive income:				
Foreign currency translation adjustments, net	1,381	221	9,204	(4,673)
Unrealized gain (loss) on derivative instruments, net	424	(1,214)	1,682	744

Comprehensive income	\$ 44,289	\$ 47,351	\$ 85,471	\$ 90,992
----------------------	-----------	-----------	-----------	-----------

NOTE 8. Commitments and Contingencies

Polaris is subject to product liability claims in the normal course of business. Polaris is currently self-insured for all product liability claims. The estimated costs resulting from any losses are charged to operating expenses when it is probable a loss has been incurred and the amount of the loss is reasonably determinable. The Company utilizes historical trends and actuarial analysis tools to assist in determining the appropriate loss reserve levels.

Table of Contents

*Polaris Industries Inc. FORM 10-Q
For Quarter Ended September 30, 2006*

Polaris is a defendant in lawsuits and subject to claims arising in the normal course of business. In the opinion of management, it is not probable that any legal proceedings pending against or involving Polaris will have a material adverse effect on Polaris' financial position or results of operations.

NOTE 9. Accounting for Derivative Instruments and Hedging Activities

Accounting and reporting standards require that every derivative instrument, including certain derivative instruments embedded in other contracts be recorded in the balance sheet as either an asset or liability measured at its fair value. Changes in the derivative's fair value should be recognized currently in earnings unless specific hedge criteria are met and companies must formally document, designate and assess the effectiveness of transactions that receive hedge accounting.

Interest Rate Swap Agreements

Polaris has an interest rate swap agreement expiring in 2007 related to \$18,000,000 of debt that has been designated as and meets the criteria of a cash flow hedge. At September 30, 2006, the fair value of the interest rate swap agreement was an unrealized loss of \$261,000, which is recorded net of tax as a component of Accumulated other comprehensive income (loss) in shareholders' equity.

Foreign Exchange Contracts

Polaris enters into foreign exchange contracts to manage currency exposures of certain of its purchase commitments denominated in foreign currencies and transfers of funds from its foreign subsidiaries. Polaris does not use any financial contracts for trading purposes. These contracts have been designated as and meet the criteria for cash flow hedges or fair value hedges.

At September 30, 2006, Polaris had open Japanese yen foreign exchange contracts with notional amounts totaling U.S. \$34,143,000, and an unrealized loss of \$1,013,000 and open Canadian dollar contracts with notional amounts totaling U.S. \$17,610,000 and an unrealized gain of \$44,000. These contracts met the criteria for cash flow hedges and the net unrealized losses, after tax, are recorded as a component of Accumulated other comprehensive income (loss) in shareholders' equity.

NOTE 10. Discontinued Operations

On September 2, 2004, the Company announced its decision to discontinue the manufacture of marine products. In the third quarter 2004, the Company recorded a loss on disposal of discontinued operations of \$35,600,000 before tax or \$23,852,000 after tax. This loss included a total of \$28,705,000 in expected future cash payments for costs to assist the dealers in selling their remaining inventory, incentives and discounts to encourage consumers to purchase remaining products, costs to cancel supplier arrangements, legal and regulatory issues, and personnel termination costs. In addition, there were \$8,287,000 of liabilities related to the marine products division at the time of the exit announcement.

In addition, the loss on disposal of discontinued operations included \$6,895,000 in non-cash costs related primarily to the disposition of tooling, other physical assets, and the Company's remaining inventory. Total non-cash charges of \$6,895,000 have been made to the accrual since the marine products division exit announcement.

During the second quarter of 2006, the Company recorded an additional loss on disposal of discontinued operations of \$3,073,000 before tax, or \$2,021,000 after tax. This loss includes the expected future cash payments required to support additional product liability litigation claims and warranty expenses related to marine products.

Total cash outlays of \$609,000 were made in the third quarter 2006 related to the litigation and warranty liabilities.

Total cash outlays of \$38,051,000 have been made since the marine products division exit announcement.

Income tax (benefit)	(134)	(130)	(242)	(337)
Loss on discontinued operations, net of tax	(\$ 259)	(\$ 265)	(\$ 466)	(\$ 685)
Loss on disposal of discontinued operations, net of tax			(\$ 2,021)	

Subsequent Event: Discontinued Operations Product Liability claim

On October 17, 2006, the Company was informed that a jury had awarded a plaintiff a substantial sum in a trial arising from a discontinued operations personal watercraft product liability claim. The potential exposure to the Company based on the verdict and a pre-verdict agreement between the Company and the plaintiff is uncertain at this time but could be as much as \$2.6 million. The Company is currently considering making a motion to the trial court judge to modify the judgment. As more information becomes available the Company will continue to assess the adequacy of its accrual for discontinued operations.

Item 2

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Executive-Level Overview

The following discussion pertains to the results of operations and financial position of Polaris Industries Inc., a Minnesota corporation (Polaris or the Company) for the quarter and year-to-date periods ended September 30, 2006 and 2005. Due to the seasonality of the snowmobile, all terrain vehicle (ATV), motorcycle and parts, garments and accessories (PG&A) business, and to certain changes in production and shipping cycles, results of such periods are not necessarily indicative of the results to be expected for the complete year.

Effective in the first quarter of 2006, Polaris adopted Financial Accounting Standards Board (FASB) SFAS No. 123(R), Share-Based Payment (SFAS 123(R)), which requires that all share-based compensation, including grants of employee stock options, be accounted for using a fair value-based method. The Company has elected to adopt SFAS 123(R) using the modified retrospective method. As a result, Polaris has revised its historical results to include the effect of share-based compensation. Therefore, all required financial data provided in this Form 10-Q filing, including prior year data, has been revised to include the impact of stock option compensation expensing as well as the reclassification of the Company's other share-based compensation expenses into the appropriate line items within the financial statements as required by SFAS 123(R).

For the third quarter ended September 30, 2006, Polaris reported net income from continuing operations of \$1.04 per diluted share, compared to net income from continuing operations of \$1.11 per diluted share for the same period ended September 30, 2005. Net income from continuing operations was \$42.7 million for the quarter ended September 30, 2006 compared to net income from continuing operations of \$48.6 million for the comparable period in 2005. Sales from continuing operations for the third quarter 2006 totaled \$490.1 million, a decrease of ten percent compared to sales from continuing operations of \$543.1 million for the third quarter 2005.

The Company ceased manufacturing marine products on September 2, 2004. The marine products division's financial results are reported separately as discontinued operations for all periods presented.

Results of Operations

Sales were \$490.1 million in the third quarter 2006, a ten percent decrease from \$543.1 million in sales for the same period in 2005.

Sales of ATVs were \$308.3 million in the third quarter 2006, a decrease of 12 percent from the third quarter 2005 sales of \$351.2 million. This decrease is largely attributable to North American dealers scaling back orders in an effort to further reduce inventory levels. As a result, dealer inventory levels in North America were slightly lower at the end of the third quarter 2006 than at the end of the third quarter 2005. Also impacting sales were lower international revenues due to continued sales softness in the southern region of Europe, particularly in Spain and France. Despite the lower sales performance, several of the Company's newer products continued to show growth during the quarter including the entry-level Hawkeye ATV and the two-up ATV the Sportsman X2. Polaris also experienced double digit sales growth during the third quarter and year-to-date 2006 periods in the RANGER product line. Year-to-date 2006 ATV sales decreased nine percent from the same period in 2005 to a total of \$838.6 million. For the year-to-date period ended September 30, 2006, the average ATV per unit sales price increased six percent over last year's comparable period primarily as a result of the increased sales of the higher priced RANGER product and a positive product mix change for other ATVs.

Sales of snowmobiles were \$87.2 million for the third quarter 2006, a decrease of 16 percent compared to sales of \$104.2 million for the comparable quarter in 2005. For the year-to-date 2006 period, snowmobile sales declined 42 percent to \$95.0 million from \$163.3 million for the prior year-to-date period. Shipments in the third quarter 2006 were lower as a result of a significant decrease in dealer orders for 2007 model year snowmobiles. As discussed in prior communications, the reduced levels of dealer orders resulted from increased dealer inventory levels at the end of the prior 2005-2006 snowmobile season due to below average snowfall across many regions of North America and quality issues relating to certain 2005 and 2006 model year snowmobiles. During the third quarter 2006 the Company

began shipping its IQ and RMK

Table of Contents*Polaris Industries Inc. FORM 10-Q
For Quarter Ended September 30, 2006*

models which utilize the new 600 HO Cleanfire semi-direct injection engine technology which has received positive reviews. The average snowmobile per unit sales price for the year-to-date 2006 period decreased three percent when compared to the same period last year due to product mix change.

Sales of Victory motorcycles were \$25.8 million for the third quarter 2006, a 60 percent increase from \$16.2 million for the comparable period in 2005. Year-to-date 2006 Victory motorcycle sales increased 28 percent over the comparable period of 2005, to a total of \$78.9 million. This increase in sales continues the positive trend Victory has experienced for the past several quarters driven by increased brand recognition, the continued success of the Hammer and Vegas Jackpot models in addition to the new 2007 Kingpin Tour and Hammer S models introduced in July, positive customer response to a more powerful 100 cubic inch engine and six speed transmission, and increased market penetration, made possible by improvements in the dealer network. The average per unit sales price for Victory motorcycles increased two percent during the year-to-date period in 2006 when compared to the same period in 2005 due to a product mix change.

PG&A sales were \$68.8 million for the third quarter 2006, a decrease of four percent from \$71.6 million for the third quarter 2005. For the nine month period ended September 30, 2006, PG&A sales decreased two percent to total \$195.4 million. The decline in PG&A sales was primarily related to lower shipments of ATVs and snowmobiles during the quarter and year-to-date periods.

Gross profit for the third quarter 2006 decreased 18 percent to \$102.7 million compared to \$124.9 million for the third quarter 2005. For the year-to-date period ended September 30, 2006, gross profit decreased 16 percent to \$253.5 million compared to \$302.3 million in the comparable period in 2005. Gross profit, as a percentage of sales, was 20.9 percent for the third quarter 2006, a decrease from 23.0 percent in the comparable quarter of 2005. During the third quarter 2006, increased commodity costs, higher promotional expenses and reduced manufacturing and logistics efficiencies due to lower sales volume were partially offset by increased sales of higher gross margin products, favorable currency effects and savings from various cost reduction initiatives. For the first nine months of 2006, gross profit, as a percentage of sales, was 21.0 percent compared to 22.5 percent for the comparable nine-month period in 2005.

For the third quarter 2006, operating expenses decreased 15 percent to \$55.1 million compared to \$64.6 million for the third quarter of 2005. Operating expenses, as a percent of sales, decreased to 11.2 percent from 11.9 percent in the third quarter of 2005. For the year-to-date 2006 period, operating expenses decreased seven percent to \$173.3 million compared to \$186.0 million for the same period in 2005. Operating expenses in absolute dollars for the third quarter and year-to-date 2006 periods and as a percentage of sales for the third quarter 2006 decreased due to the reduction in incentive compensation plan expenses resulting from the Company's lower profitability and lower stock price during 2006 as well as operating cost control measures taken. For the nine-month period ended September 30, 2006, operating expenses, as a percentage of sales, increased to 14.3 percent of sales compared to 13.8 percent of sales for the same period in 2005 due to the lower sales volumes which were partially offset by operating expense control measures taken.

Income from financial services increased 24 percent to \$12.7 million in the third quarter 2006, compared to \$10.2 million in the third quarter 2005, due to increased profits generated by the retail and wholesale credit portfolios. Income from financial services for the year-to-date period ended September 30, 2006 increased 25 percent to \$33.6 million compared to \$27.0 million for the same period in 2005. The increase in income from the wholesale credit portfolio in the 2006 periods is the result of higher interest rates and continued elevated dealer inventory levels. The income generated from the retail credit portfolio has increased in the 2006 third quarter and year-to-date periods in part due to the success of an additional offering to Polaris dealers to finance their used and non-Polaris products through Polaris' retail credit relationship with HSBC Bank Nevada, National Association (HSBC) (formerly known as Household Bank (SB), N.A.).

Interest expense increased to \$2.6 million and \$6.1 million for the 2006 third quarter and year-to-date periods, respectively, compared to \$1.6 million and \$3.3 million for the third quarter and year-to-date periods, respectively, of 2005. The increase is due to higher debt levels and increased interest rates during the 2006 periods.

Equity in income of manufacturing affiliates (which primarily represents the Company's portion of income from its investment in 25 percent of KTM Power Sports AG (KTM), an Austrian motorcycle manufacturer) totaled \$2.7 million for the third quarter of 2006 and \$3.6 million for the 2006 year to date period. The Company purchased a 25 percent interest in KTM in July 2005.

The income tax provision for the third quarter 2006 was recorded at a rate of approximately 28.4 percent of Polaris pretax income, compared to 29.3 percent recorded in the third quarter 2005 and 33.2 percent for the first half of 2006. The lower income tax rate for the third quarter 2006 is primarily the result of favorable resolution of certain income tax events.

Table of Contents

*Polaris Industries Inc. FORM 10-Q
For Quarter Ended September 30, 2006*

Discontinued Operations

The Company ceased manufacturing marine products on September 2, 2004. As a result, the marine products division's financial results are being reported separately as discontinued operations for all periods presented. The Company's third quarter 2006 loss from discontinued operations was \$0.3 million, net of tax, or less than \$0.01 per diluted share, compared to a loss of \$0.3 million, net of tax, or less than \$0.01 per diluted share in the third quarter 2005. For the nine months ended September 30, 2006, the loss from discontinued operations was \$0.5 million, after tax, or \$0.01 per diluted share, compared to a loss of \$0.7 million or \$0.01 per diluted share in the same period of 2005. For the nine months ended September 30, 2006, the Loss on disposal of discontinued operations was \$3.1 million before tax or \$2.0 million after tax, or \$0.05 per diluted share.

Share-Based Payment

Polaris adopted SFAS 123(R) effective as of the beginning of fiscal year 2006 using the modified retrospective method. In connection with the adoption of this new accounting standard, Polaris has recorded an after tax benefit of \$0.4 million or \$0.01 per diluted share on its income statement for the 2006 first quarter resulting from the cumulative effect of the accounting change. All prior periods presented were adjusted to give effect to the adoption of SFAS 123(R) using the modified retrospective method. The Company provided revised quarterly consolidated statements of income for the 2005 year reflecting the adoption of SFAS 123(R) under the modified retrospective method in a Form 8-K dated January 26, 2006.

Reported Net Income

Reported net income for the third quarter 2006, including each of continuing and discontinued operations and the loss on disposal of discontinued operations, was \$42.5 million, or \$1.03 per diluted share compared to \$48.3 million, or \$1.11 per diluted share in the third quarter of 2005. Reported net income for the nine months ended September 30, 2006, including each of continuing and discontinued operations, the loss on disposal of discontinued operations and the cumulative effect of the accounting change, was \$74.6 million or \$1.76 per diluted share, compared to \$94.9 million, or \$2.15 per diluted share for the nine months ended September 30, 2005.

Cash Dividends

Polaris paid a \$0.31 per share dividend on August 15, 2006 to shareholders of record on August 1, 2006. On October 19, 2006, the Polaris Board of Directors declared a regular cash dividend of \$0.31 per share payable on or about November 15, 2006 to holders of record of such shares at the close of business on November 1, 2006.

Liquidity and Capital Resources

Net cash provided by operating activities of continuing operations totaled \$83.5 million for the third quarter 2006, compared to \$108.8 million in the third quarter 2005. For the year-to-date period ended September 30, 2006, net cash provided by operating activities of continuing operations totaled \$92.5 million compared to \$101.7 million for the comparable period in 2005. The decrease in net income in the third quarter and year-to-date 2006 periods compared to the same periods last year was the primary reason for the lower net cash flow provided by operating activities. Net cash used for investing activities was \$18.9 million for the first nine months of 2006 and primarily represents the purchase of property and equipment, offset by a reduction of the investment in finance affiliates. Net cash flow used for financing activities totaled \$78.4 million during the nine-month period ending September 30, 2006, which primarily represents the payment of dividends to shareholders and the repurchase of common shares offset by increased borrowings under the credit agreement during the first nine months of 2006. Cash and cash equivalents totaled \$9.1 million at September 30, 2006 compared to \$13.4 million at September 30, 2005. The Company's debt to total capital ratio was 19 percent at September 30, 2006, compared to five percent in the third quarter 2005, resulting primarily from a continued aggressive share repurchase program and the lower earnings results.

The seasonality of production and shipments causes working capital requirements to fluctuate during the year. Polaris has an unsecured bank line of credit arrangement with maximum available borrowings of \$250.0 million. Interest is charged at rates based on LIBOR or prime (effective rate was 6.00 percent at September 30, 2006). As of September 30, 2006, total borrowing under this credit arrangement was \$78.0 million and has been classified as long-term in the accompanying consolidated balance sheets.

*Polaris Industries Inc. FORM 10-Q
For Quarter Ended September 30, 2006*

The following table summarizes the Company's significant future contractual obligations at September 30, 2006 (in millions):

	Total	< 1 year	1-3 Years	> 3 Years
Borrowings under credit agreement	\$ 78.0	\$	\$ 78.0	\$
Interest expense under swap agreement	1.0	1.0		
Operating leases	4.5	1.9	2.0	.6
Capital leases	.1	.1		
Total	\$ 83.6	\$ 3.0	\$ 80.0	\$.6

Additionally, at September 30, 2006, Polaris had letters of credit outstanding of \$5.5 million related to purchase obligations for raw materials.

In the past, Polaris has entered into interest rate swap agreements to manage exposures to fluctuations in interest rates. Currently the Company has one such agreement in place. The effect of the agreement is to fix the interest rate at 7.21 percent for \$18.0 million of borrowings under the credit line until June 2007.

During the first nine months of 2006, Polaris paid \$109,353,000 to repurchase and retire approximately 2,576,000 shares of its common stock. As of September 30, 2006 the Company has authorization from its Board of Directors to repurchase up to an additional 2,082,000 shares of Polaris stock. The repurchase of any or all such shares authorized for repurchase will be governed by applicable SEC rules and will be dependent on management's assessment of market conditions. Since 1996, the Company has repurchased approximately 24.9 million shares of its common stock under its share repurchase program.

Management believes that existing cash balances and bank borrowings, cash flow to be generated from operating activities and available borrowing capacity under the line of credit arrangement will be sufficient to fund operations, regular dividends, share repurchases, and capital requirements for the foreseeable future. At this time, management is not aware of any adverse factors that would have a material impact on cash flow.

In 1996, a wholly owned subsidiary of Polaris entered into a partnership agreement with a subsidiary of Transamerica Distribution Finance (TDF) to form Polaris Acceptance. In January 2004, TDF was merged with a subsidiary of General Electric Company and, as a result of that merger, TDF's name was changed to GE Commercial Distribution Finance (GECDF). Polaris Acceptance provides floor plan financing to Polaris dealers in the United States. Polaris subsidiary has a 50 percent equity interest in Polaris Acceptance. The receivable portfolio is recorded on Polaris Acceptance's books, and is funded 85 percent with a loan from an affiliate of GECDF and 15 percent by a cash investment shared equally between the two partners. Polaris has not guaranteed the outstanding indebtedness of Polaris Acceptance. Substantially all of Polaris' U.S. sales are financed through Polaris Acceptance whereby Polaris receives payment within a few days of shipment of the product. During the first quarter 2006, the term of the partnership agreement with GECDF was extended to February 29, 2012.

Polaris' investment in Polaris Acceptance is accounted for under the equity method, and is recorded as a component of Investments in finance affiliate in the accompanying consolidated balance sheets. The partnership agreement provides that all income and losses of the portfolio are shared 50 percent by Polaris' wholly owned subsidiary and 50 percent by GECDF. Polaris' allocable share of the income of Polaris Acceptance has been included as a component of Income from financial services in the accompanying consolidated statements of income. As of September 30, 2006, the Polaris Acceptance wholesale portfolio balance for dealers in the United States was approximately \$768.0 million, a one percent increase from \$757.0 million at September 30, 2005. Credit losses in this portfolio have been modest, averaging less than one percent of the portfolio.

A wholly owned subsidiary of Polaris has entered into a multi-year contract with HSBC under which HSBC will continue managing the Polaris private label revolving credit card program under the StarCard label. The terms of the

multi-year agreement, executed on August 10, 2005, became effective as of August 1, 2005. The agreement provides for income to be paid to Polaris based on a percentage of the volume of revolving retail credit business generated. The previous agreement provided for equal sharing of all income and losses with respect to the retail credit portfolio, subject to certain limitations. The current contract removes all credit, interest rate and funding risk to Polaris and also eliminates the need for Polaris to maintain a retail credit cash deposit with HSBC.

A wholly owned subsidiary of Polaris entered into a multi-year contract with GE Money Bank (GE Bank) under which GE Bank will make available closed-end consumer and commercial credit to customers of Polaris dealers. The terms of the new multi-year agreement, executed on February 28, 2006, became effective April 1, 2006. The new agreement provides for income to be paid to Polaris based on a percentage of the volume of sales generated pursuant to the program.

Table of Contents*Polaris Industries Inc. FORM 10-Q
For Quarter Ended September 30, 2006*

During the third quarter 2005, a wholly owned Austrian subsidiary of Polaris (Polaris Austria) made an investment in KTM by purchasing a 25 percent interest in that company from a third party. Additionally, Polaris and KTM's largest shareholder, Cross, have entered into an option agreement which provides that, under certain conditions in 2007, either Cross may purchase Polaris' interest in KTM or, alternatively, Polaris may purchase Cross' interest and become the majority shareholder of KTM. Cross' principal shareholders are entities controlled by KTM Chief Executive Officer Stefan Pierer and KTM Chairman Rudolf Knünz. The exercise price under both option arrangements are based on a predetermined pricing formula to be derived from the operating results of both companies and the market price of Polaris' common stock in 2007. Although the options provided for in the option agreement are not exercisable until 2007, the Company views it as likely that Cross would have the initial option to purchase Polaris' equity interest in KTM. On July 28, 2006, the Company announced that it has been informed by Cross of Cross' intention to retain its majority interest in KTM. In the event that Cross exercises its option to purchase Polaris' equity interest in KTM, the sale by Polaris to Cross could result in a gain or a loss to Polaris, depending on the calculation of the exercise price at the time of exercise, which in either case will not be based on the market price of KTM shares at that time.

Inflation and Foreign Exchange Rates

Commodity inflation has had a material impact on the results of Polaris' recent operations. The changing relationships of the U.S. dollar to the Japanese yen, Canadian dollar and Euro have also had a material impact from time to time.

During calendar year 2005, purchases totaling 12 percent of Polaris' cost of sales were from yen-denominated suppliers. Polaris' cost of sales in the third quarter and year-to-date periods ended September 30, 2006 were positively impacted by the Japanese yen-U.S. dollar exchange rate fluctuation when compared to the same periods in 2005. At September 30, 2006 Polaris had open Japanese yen foreign exchange hedging contracts in place through June 2007 with notional amounts totaling \$34.1 million with an average rate of approximately 113 Japanese yen to the U.S. dollar. In view of the foreign exchange hedging contracts currently in place, Polaris anticipates that the Japanese yen-U.S. dollar exchange rate will have a neutral impact on cost of sales for the remainder of 2006 and into 2007 when compared to the same period in the prior years.

Polaris operates in Canada through a wholly owned subsidiary. The weakening of the U.S. dollar in relation to the Canadian dollar has resulted in higher gross margin levels in the nine-month period ended September 30, 2006 when compared to the same period in 2005. At September 30, 2006 Polaris had open Canadian dollar foreign exchange hedging contracts in place for its remaining 2006 exposures with notional amounts totaling \$17.6 million with an average rate of approximately 0.90 U.S. dollar to Canadian dollar. In view of the foreign exchange hedging contracts currently in place, Polaris anticipates that the Canadian dollar-U.S. dollar exchange rate will continue to have a positive impact on net income for the remainder of 2006.

Polaris operates in various countries in Europe through wholly owned subsidiaries and also sells to certain distributors in other countries and purchases components from certain suppliers directly from its U.S. operations in Euro denominated transactions. The fluctuation of the U.S. dollar in relation to the Euro has resulted in a minimal impact on gross margins for the first nine months of 2006 when compared to the same period in 2005. Polaris currently does not have any Euro currency hedging contracts in place for the remainder of 2006.

The assets and liabilities in all Polaris foreign entities are translated at the foreign exchange rate in effect at the balance sheet date. Translation gains and losses are reflected as a component of Accumulated other comprehensive income (loss), net in the shareholders' equity section of the accompanying consolidated balance sheets. Revenues and expenses in all Polaris foreign entities are translated at the average foreign exchange rate in effect for each month of the quarter.

Polaris is subject to market risk from fluctuating market prices of certain purchased commodity raw materials including steel, aluminum, fuel, and petroleum-based resins. In addition, the Company is a purchaser of components and parts containing various commodities, including steel, aluminum, rubber and others which are integrated into the Company's end products. While such materials are typically available from numerous suppliers, commodity raw materials are subject to price fluctuations. The Company generally buys these commodities and components based upon market prices that are established with the vendor as part of the purchase process. During the first nine months of

2006 the Company experienced commodity price increases with some of these key raw materials. During the third quarter 2006, the Company did enter into derivative contracts to hedge a portion of the exposure to commodity risk for aluminum and natural gas. The total amount of hedges in place as of September 30, 2006 is immaterial to the overall financial position of the Company.

Significant Accounting Policies

See Polaris most recent Annual Report on Form 10-K for the year ended December 31, 2005 for a discussion of its critical accounting policies.

Share-Based Compensation: For purposes of determining estimated fair value of share-based payment awards on the date of grant under SFAS 123(R), Polaris used the Black-Scholes Model. The Black-Scholes Model requires the input of certain assumptions that require subjective judgment. Because employee stock options and restricted stock awards have characteristics significantly different from those of traded options, and because changes in the input assumptions can materially affect the fair value estimate, the existing models may not provide a reliable single measure of the fair value of the employee stock options or restricted stock awards. Management will continue to assess the assumptions and methodologies used to calculate estimated fair value of share-based compensation. Circumstances may change and additional data may become available over time, which could result in changes to these assumptions and methodologies and thereby materially impact the fair value determination. If factors change and the Company employs different assumptions in the application of SFAS 123(R) in future periods, the compensation expense that was recorded under SFAS 123(R) may differ significantly from what was recorded in the current period. Refer to Note 2 *Share-Based Employee Compensation* in this Form 10-Q for additional information regarding share-based compensation.

Item 3

QUANTITATIVE AND QUALITATIVE DISCLOSURES
ABOUT MARKET RISK

Refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2005 for a complete discussion on the Company's market risk. There have been no material changes to the market risk information included in the Company's 2005 Annual Report on Form 10-K.

Note Regarding Forward Looking Statements

Certain matters discussed in this report are forward-looking statements intended to qualify for the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements can generally be identified as such because the context of the statement will include words such as the Company or management believes, anticipates, expects, estimates or words of similar import. Similarly, statements that describe the Company's future plans, objectives or goals are also forward-looking. Forward-looking statements may also be made from time to time in oral presentations, including telephone, conferences and/or webcasts open to the public. Shareholders, potential investors and others are cautioned that all forward-looking statements involve risks and uncertainties that could cause results in future periods to differ materially from those anticipated by some of the statements made in this report, including the risks and uncertainties described under the heading entitled Item 1A-Risk Factors appearing in the Company's Annual Report on Form 10-K for the year ended December 31, 2005. In addition to the factors discussed above, among the other factors that could cause actual results to differ materially are the following: product offerings, promotional activities and pricing strategies by competitors; future conduct of litigation processes; warranty expenses; foreign currency exchange rate fluctuations; effects of the KTM relationship and related option agreement; commodity and transportation costs; environmental and product safety regulatory activity; effects of weather; uninsured product liability claims; and overall economic conditions, including inflation and consumer confidence and spending.

Item 4

CONTROLS AND PROCEDURES

The Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and its Vice President-Finance and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Exchange Act Rule 13a-15) as of the end of the period covered by this report. Based upon that evaluation, the Company's Chief Executive Officer along with the Company's Vice President-Finance and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective in timely alerting them to material information relating to the Company (including its consolidated subsidiaries) required to be included in the Company's periodic SEC filings. There were no material changes in the Company's internal controls over financial reporting during the third quarter 2006.
