FIRST INTERSTATE BANCSYSTEM, INC. AND SUBSIDIARIES

Notes to Unaudited Consolidated Financial Statements

(Dollars in thousands, except share and per share data)

(1) Basis of Presentation

In the opinion of management, the accompanying unaudited consolidated financial statements of First Interstate BancSystem, Inc. (the Parent Company or FIBS) and subsidiaries (the Company) contain all adjustments (all of which are of a normal recurring nature) necessary to present fairly the financial position of the Company at September 30, 2006 and December 31, 2005 and the results of operations and cash flows for each of the three and nine month periods ended September 30, 2006 and 2005, in conformity with U.S. generally accepted accounting principles. The balance sheet information at December 31, 2005 is derived from audited consolidated financial statements; however, certain reclassifications, none of which were material, have been made to conform to the September 30, 2006 presentation.

These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2005. Operating results for the three and nine months ended September 30, 2006 are not necessarily indicative of the results that may be expected for the year ending December 31, 2006.

(2) Stock-Based Compensation

General

Effective January 1, 2006, the Company adopted the provisions of Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standard (SFAS) No. 123 (revised), Share-Based Payment (SFAS 123R) using the modified prospective method of transition. Under the modified prospective method of transition, the provisions of SFAS 123R apply to new awards and to awards outstanding on January 1, 2006 and subsequently modified, repurchased or cancelled. Compensation expense recognized in 2006 includes compensation costs for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the grant-date fair value estimated in accordance with the original provisions of SFAS 123, and compensation cost for all share-based payments granted subsequent to January 1, 2006, based on the grant-date fair value estimated in accordance with the provisions of SFAS 123R. Prior periods were not restated to reflect the impact of adopting SFAS 123R.

As a result of adopting SFAS 123R, the Company recorded compensation expense related to share-based payments of \$232 and \$1,007 during the three and nine months ended September 30, 2006, respectively, and recognized income tax benefits on share-based payments of \$89 and \$384 for the three and nine months ended September 30, 2006, respectively. At September 30, 2006, the Company had \$1,096 of unrecognized compensation cost related to unvested share-based payments that is expected to be recognized over a weighted-average period of 0.8 years.

The following table sets forth pro forma net income and earnings per share for the three and nine months ended September 30, 2005, assuming the adoption of SFAS 123R as of January 1, 2005, during which the fair value based method was not used to account for share-based compensation.

Three Months Ended September 30, 2005	Nine Months Ended September 30, 2005

Table of Contents**FIRST INTERSTATE BANCSYSTEM, INC. AND SUBSIDIARIES****Notes to Unaudited Consolidated Financial Statements***(Dollars in thousands, except share and per share data)****Stock Options***

In May 2006, the Company's Board of Directors adopted and shareholders approved the 2006 Equity Compensation Plan (the "Plan"). The Plan consolidates into one plan the benefits available under existing formal and informal equity compensation plans including the 2001 Stock Option Plan, the 2004 Restricted Stock Benefit Plan, the Officer Stock Benefit Plan and the Director Stock Compensation Plan. Subsequent to April 2006, the Company ceased awarding benefits under all pre-existing share-based benefit plans. All share-based awards after April 2006 will be made pursuant to the Plan. At September 30, 2006, there were 738,404 shares available for future grant under the Plan.

All options granted under the Company's stock option plans have an exercise price equal to the minority appraised value of the Company's common stock at the date of grant, and are subject to vesting and exercise periods as determined by the Company's Board of Directors or Compensation Committee. Stock issued upon exercise of options is subject to a shareholder agreement prohibiting transfer of the stock for a period of six months following the exercise. In addition, the shareholder agreement grants the Company a right of first refusal to repurchase the stock and provides the Company a right to call some or all of the stock under certain conditions.

Compensation expense related to stock option awards of \$163 and \$810 was included in salaries, wages and benefits expense on the Company's consolidated income statements for the three and nine month periods ended September 30, 2006, respectively. Compensation expense related to stock option awards of \$70 was included in salaries, wages and benefits expense on the Company's consolidated income statements for the nine months ended September 30, 2005. No compensation expense related to stock option awards was recorded during third quarter 2005.

The Company uses the Black-Scholes option pricing model to estimate the fair value of stock option awards. The following table presents the weighted average fair values and related assumptions used in the option pricing model for the periods indicated.

	Three months ended September 30,		Nine months ended September 30,	
	2006	2005	2006	2005
Expected dividend yield	3.16%	2.90%	3.01%	3.05%
Expected volatility	5.20%	8.40%	5.87%	8.40%
Risk-free interest rate	4.75%	4.13%	4.51%	4.19%
Expected life of options (in years)	6.20	8.50	6.20	8.50
Weighted-average grant date fair value	\$ 6.52	\$ 7.38	\$ 5.94	\$ 6.06

Expected dividend yield is based on the Company's annualized expected dividends per share divided by the average common stock price. Risk-free interest rate is based on U.S. treasury constant maturity yield at grant date for treasury securities with maturities approximating the expected life of options granted. The Company has elected to use the simplified method to estimate expected life until its analysis of historical exercise and post-vesting employment termination behaviors is refined. Expected volatility is based on the historical volatility of the Company's common stock calculated using the quarterly appraised value of a minority interest over the expected life of options in 2006 and the contractual option term in 2005.

The following table summarizes all activity with respect to stock options granted under the Company's stock option plans for the nine months ended September 30, 2006:

	Number of Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contract Life
Outstanding options, beginning of period	837,145	\$ 45.95	
Granted	141,951	68.28	

Edgar Filing: FIRST INTERSTATE BANCSYSTEM INC - Form 10-Q

Exercised	(116,738)		43.20	
Forfeited	(8,899)		59.32	
Outstanding options, end of period	853,459	\$	49.91	6.12 years
Outstanding options exercisable, end of period	672,310	\$	46.83	5.43 years

Table of Contents**FIRST INTERSTATE BANCSYSTEM, INC. AND SUBSIDIARIES****Notes to Unaudited Consolidated Financial Statements***(Dollars in thousands, except share and per share data)*

The total intrinsic value of options exercised was \$556 and \$3,186 during the three and nine months ended September 30, 2006, respectively; and, \$651 and \$1,351 during the three and nine months ended September 30 2005, respectively. The actual tax benefit realized for the tax deduction from option exercises totaled \$212 and \$1,218 for the three and nine months ended September 30, 2006. The tax benefit is reflected in financing activities in the accompanying Consolidated Statement of Cash Flows. Cash received from stock option exercises during the three and nine months ended September 30, 2006 was \$602 and \$2,909, respectively.

The following table summarizes the Company's nonvested stock option activity for the nine months ended September 30, 2006:

	Number of Shares	Weighted-Average Grant-Date Fair Value
Nonvested stock options, beginning of period	186,141	\$ 5.50
Granted	98,516	5.84
Vested	(94,609)	5.39
Forfeited	(8,899)	5.63
Nonvested stock options, end of period	181,149	\$ 5.75

The total fair value of stock options vested during the three and nine months ended September 30, 2006 was \$7 and \$512, respectively; and, \$1 and \$444 for the three and nine months ended September 30, 2005, respectively.

Restricted Stock

Common stock issued under the Company's restricted stock plans may not be sold or otherwise transferred until restrictions have lapsed or performance objectives have been obtained. During the vesting period, participants have voting rights and receive dividends on the restricted shares. Upon termination of employment, common shares upon which restrictions have not lapsed must be returned to the Company. The unearned share-based compensation related to these awards is amortized to compensation expense over the period the restrictions lapse (generally three years). As of September 30, 2006, unearned share-based compensation of \$207 associated with these awards was included in common stock on the Company's consolidated financial statements. Compensation expense related to restricted stock awards of \$69 and \$197 was included in salaries, wages and benefits expense on the Company's consolidated income statements for the three and nine month periods ended September 30, 2006, respectively. Compensation expense related to restricted stock awards of \$63 and \$180 was included in salaries, wages and benefits expense on the Company's consolidated income statements for the three and nine month periods ended September 30, 2005, respectively.

The following table presents information on the Company's restricted shares as of September 30, 2006 and December 31, 2005:

	September 30, 2006	December 31, 2005
Restricted stock, beginning of period	10,500	11,000
Granted during the period ended	1,000	500
Forfeited during the period ended		(1,000)

Outstanding, end of period	11,500	10,500
----------------------------	--------	--------

(3) Computation of Earnings per Share

Basic earnings per common share (EPS) is calculated by dividing net income by the weighted average number of common shares outstanding during the period presented. Diluted earnings per common share is calculated by dividing net income by the weighted average number of common shares and potential common shares outstanding during the period.

10

Table of Contents**FIRST INTERSTATE BANCSYSTEM, INC. AND SUBSIDIARIES****Notes to Unaudited Consolidated Financial Statements***(Dollars in thousands, except share and per share data)*

The following table sets forth the computation of basic and diluted earnings per share for the three and nine month periods ended September 30, 2006 and 2005:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
Net income basic and diluted	\$ 16,746	15,274	49,017	40,113
Average outstanding shares-basic	8,093,287	7,981,356	8,102,093	7,971,921
Add: effect of dilutive stock options	198,792	153,525	182,429	143,625
Average outstanding shares-diluted	8,292,079	8,134,881	8,284,522	8,115,546
Basic earnings per share	\$ 2.07	1.91	6.05	5.03
Diluted earnings per share	\$ 2.02	1.88	5.92	4.94

(4) Financial Instruments with Off-Balance Sheet Risk

The Company is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit. Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the commitment contract. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. At September 30, 2006, commitments to extend credit to existing and new borrowers approximated \$1,026,583, including \$295,568 on unused credit card lines and \$284,750 with commitment maturities beyond one year.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. At September 30, 2006, the Company had outstanding standby letters of credit of \$86,456. The estimated fair value of the obligation undertaken by the Company in issuing the standby letters of credit is included in other liabilities in the Company's consolidated balance sheet.

(5) Supplemental Disclosures to Consolidated Statement of Cash Flows

The Company paid cash of \$72,339 and \$42,143 for interest during the nine months ended September 30, 2006 and 2005, respectively. The Company paid cash for income taxes of \$30,132 and \$17,597 during the nine months ended September 30, 2006 and 2005, respectively.

(6) Segment Reporting

The Company has two operating segments, Community Banking and Technology Services. Community Banking encompasses commercial and consumer banking services offered to individuals, businesses and municipalities.

Technology Services encompasses technology services provided to affiliated and non-affiliated financial institutions.

The Other category includes the net funding cost and other expenses of the Parent Company, the operational results of non-bank subsidiaries (except the Company's technology services subsidiary) and intercompany eliminations.

(7) Recent Accounting Pronouncements

During February 2006, the FASB issued SFAS No. 155, Accounting for Certain Hybrid Financial Instruments an amendment of FASB Statements No. 133 and 140. SFAS No. 155 amends SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, and SFAS No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. SFAS No. 155 permits fair value remeasurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation; clarifies which interest-only strips and principal-only strips are not subject to the requirements of SFAS No. 133; establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation; clarifies that concentrations of credit risk in the form of subordination are not embedded derivatives; and, amends SFAS No. 140 to eliminate the prohibition on a qualifying special-purpose entity from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument. SFAS No. 155 is effective for all financial instruments acquired or issued after December 31, 2006. The Company is currently evaluating the financial statement impact of adoption of SFAS No. 155.

FIRST INTERSTATE BANCSYSTEM, INC. AND SUBSIDIARIES

Notes to Unaudited Consolidated Financial Statements

(Dollars in thousands, except share and per share data)

In March 2006, the FASB issued SFAS No. 156, *Accounting for Servicing of Financial Assets* an amendment of FASB Statement No. 140. SFAS No. 156 requires recognition of servicing assets or servicing liabilities each time an entity undertakes an obligation to service a financial asset; requires all separately recognized servicing assets and servicing liabilities to be initially measured at fair value, if practicable; and, permits an entity to choose either to (1) amortize servicing assets or servicing liabilities in proportion to and over the period of estimated net servicing income or net servicing loss and assess servicing assets or servicing liabilities for impairment or increased obligation based on fair value at each reporting date; or, (2) measure servicing assets or servicing liabilities at fair value at each reporting date and report changes in fair value in earnings in the period in which the changes occur. At its initial adoption, SFAS No. 156 permits a one-time reclassification of available-for-sale securities to trading securities provided that the available-for-sale securities are identified in some manner as offsetting exposure to changes in fair value of servicing assets or servicing liabilities subsequently being measured at fair value. SFAS No. 156 requires separate financial statement presentation of servicing assets and servicing liabilities subsequently measured at fair value and requires additional disclosures for all separately recognized servicing assets and servicing liabilities. SFAS No. 156 is effective for the Company on January 1, 2007. The Company does not expect adoption to have a significant impact on the consolidated financial statements, results of operations or liquidity of the Company.

In June 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (an interpretation of SFAS No. 109) (FIN 48). FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN48 requires the Company to recognize in the financial statements the impact of a tax position if that position is more likely than not of being sustained on audit based on the technical merits of the position. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods and disclosure. The provisions of FIN 48 are effective for the Company on January 1, 2007 with earlier adoption encouraged. The Company is currently evaluating the financial statement impact of adoption of FIN 48.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*, which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. SFAS No. 157 does not require any new fair value measurements, but applies under other existing accounting pronouncements that require or permit fair value measurements. SFAS No. 157 emphasizes that fair value is a market-based measurement, not an entity-specific measurement and, therefore, should be determined based on the assumptions that market participants would use in pricing that asset or liability. SFAS No. 157 also establishes a fair value hierarchy that distinguishes between market participant assumptions developed based on market data obtained from independent sources and the Company's own assumptions about market participant assumptions based on the best information available. SFAS No. 157 is effective for the Company on January 1, 2008 with earlier adoption permitted. The Company does not expect adoption to have a significant impact on the consolidated financial statements, results of operations or liquidity of the Company.

In September 2006, the FASB issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans* an amendment of FASB Statements No. 87, 88, 106 and 132(R). SFAS No. 158 requires employers to recognize the overfunded or underfunded status of defined benefit postretirement plans, other than multiemployer plans, as assets or liabilities on the balance sheet and to recognize changes in the funded status in the year in which the changes occur through comprehensive income. The recognition and disclosure provisions of SFAS No. 158 are effective for the Company as of December 31, 2007, with earlier adoption encouraged. The Company does not expect adoption of SFAS No. 158 on December 31, 2007, to have a significant impact on the consolidated financial statements, results of operations or liquidity of the Company.

In September 2006, the Emerging Issues Task Force (EITF) reached a final consensus on Issue No. 06-4 (EITF 06-4),

Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements. EITF 06-4 requires employers to recognize a liability for future benefits provided through endorsement split-dollar life insurance arrangements that extend into postretirement periods in accordance with SFAS No. 106, *Employers' Accounting for Postretirement Benefits Other Than Pensions* or APB Opinion No. 12, *Omnibus*

Opinion 1967. The provisions of EITF 06-4 are effective for the Company on January 1, 2007 and are to be applied as a change in accounting principle either through a cumulative-effect adjustment to retained earnings or other components of equity or net assets in the statement of financial position as of the beginning of the year of adoption; or through retrospective application to all prior periods. The Company is currently evaluating the financial statement impact of adoption of EITF 06-4.

FIRST INTERSTATE BANCSYSTEM, INC. AND SUBSIDIARIES

Notes to Unaudited Consolidated Financial Statements

(Dollars in thousands, except share and per share data)

In September 2006, the EITF reached a final consensus on Issue No. 06-5 (EITF 06-5), Accounting for Purchase of Life Insurance Determining the Amount That Could be Realized in Accordance with FASB Technical Bulletin No. 85-4 . EITF 06-5 requires that the cash surrender value and any amounts provided by the contractual terms of an insurance policy that are realizable at the balance sheet date be considered in determining the amount that could be realized under Technical Bulletin No. 85-4. The provisions of EITF 06-5 require (1) consideration of the effect of contractual restrictions that limit amounts that could be realized, (2) exclusion from the amount that could be realized of amounts recoverable at the discretion of the insurance company, (3) amounts that are recoverable by the policyholder in periods beyond one year from the surrender of the policy be discounted, and (4) an assumption that policies will be surrendered on an individual life by individual life basis. The provisions of EITF 06-5 are effective for the Company on January 1, 2007 and are to be applied as a change in accounting principle through a cumulative-effect adjustment to retained earnings as of the beginning of the year of adoption. The Company is currently evaluating the financial statement impact of adoption of EITF 06-5.

In September 2006, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 108 (SAB 108) providing guidance for considering the effects of prior year misstatements when quantifying misstatements in current year financial statements. Under the provisions of SAB 108, a company is required to quantify the impact of correcting all misstatements, including both the carryover and reversing effects of prior year misstatements, using both a rollover and iron curtain approach. The rollover approach quantifies a misstatement based on the amount of the error originating in the current year income statement, ignoring the effects of correcting the portion of the current year balance sheet misstatement that originated in prior years. The iron curtain approach quantifies a misstatement based on the effects of correcting the misstatement existing in the balance sheet at the end of the current year, irrespective of the misstatement's year of origination. If either method results in quantifying a misstatement that is material, after considering all relevant quantitative and qualitative factors, the financial statements must be adjusted. SAB 108 is effective for financial statements for fiscal years ending after November 15, 2006 with earlier application encouraged. Prior period financial statements may be restated when first applying the guidance in SAB 108; however, restatement is not required if either the rollover or iron curtain approach was properly applied during prior periods. If prior periods are not restated, the cumulative effect of the initial application of SAB 108 should be reported in the carrying amounts of assets and liabilities as of the beginning of the fiscal year with an offsetting adjustment to the opening balance of retained earnings. The nature and amount of each individual error being corrected in the cumulative adjustment should be disclosed. The Company does not expect application of SAB 108 to have a significant impact on the consolidated financial statements, results of operations or liquidity of the Company.

Item 2.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS**

The following discussion should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2005, including the audited financial statements contained therein, filed with the Securities and Exchange Commission.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Rule 175 promulgated thereunder, and Section 21E of the Securities Exchange Act of 1934, as amended, and Rule 3b-6 promulgated thereunder, that involve inherent risks and uncertainties. Any statements about the Company's plans, objectives, expectations, strategies, beliefs, or future performance or events constitute forward-looking statements. Such statements are identified as those that include words or phrases such as believes, expects, anticipates, plans, trend, objective, continue or similar expressions or future or conditional verbs such as would, should, could, might, may or similar expressions. Forward-looking statements involve known and unknown risks, uncertainties, assumptions, estimates and other important factors that could cause actual results to differ materially from any results, performance or events expressed or implied by such forward-looking statements. All forward-looking statements are qualified in their entirety by reference to risk factors discussed in Item 1A of the Company's Annual Report of Form 10-K for the year ended December 31, 2005, including, among others: (i) credit risk; (ii) credit concentration and economic conditions in Montana and Wyoming; (iii) declines in real estate values; (iv) changes in interest rates; (v) inability to meet liquidity requirements; (vi) availability of capital; (vii) competition; (viii) dependence on technology; (ix) ineffective internal operational controls; (x) difficulties in execution of business strategy; (xi) disruption of vital infrastructure; (xii) changes in or noncompliance with governmental regulations; (xiii) restrictions on dividends and stock redemptions; (xiv) capital required to support the Company's bank subsidiary (the Bank); and (xv) investment risks affecting holders of common stock. Because the foregoing factors could cause actual results or outcomes to differ materially from those expressed or implied in any forward-looking statements, undue reliance should not be placed on any forward-looking statements. Further, any forward-looking statement speaks only as of the date on which it is made, and the Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of future events or developments.

CRITICAL ACCOUNTING ESTIMATES AND SIGNIFICANT ACCOUNTING POLICIES

The Company's consolidated financial statements are prepared in accordance with U.S. generally accepted accounting principles and follow general practices within the industries in which it operates. Application of these principles requires management to make estimates, assumptions and judgments that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ significantly from those estimates.

The Company's accounting policies are fundamental to understanding Management's Discussion and Analysis of Financial Condition and Results of Operations. The most significant accounting policies followed by the Company are presented in Note 1 of the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2005.

The Company's critical accounting estimates are summarized below. Management considers an accounting estimate to be critical if: (1) the accounting estimate requires management to make particularly difficult, subjective and/or complex judgments about matters that are inherently uncertain, and (2) changes in the estimate that are reasonably likely to occur from period to period, or the use of different estimates that management could have reasonably used in the current period, would have a material impact on the Company's consolidated financial statements, results of operations or liquidity.

Allowance for Loan Losses

The allowance for loan losses represents management's estimate of probable credit losses inherent in the loan portfolio. Determining the amount of the allowance for loan losses is considered a critical accounting estimate because it requires significant judgment and the use of subjective measurements, including management's assessment of the

internal risk classifications of loans, changes in the nature of the loan portfolio, industry concentrations and the impact of current local, regional and national economic factors on the quality of the loan portfolio. The allowance for loan losses is maintained at an amount the Company believes is sufficient to provide for estimated losses inherent in its loan portfolio at each balance sheet date. Management believes the process for determining the allowance for loan losses takes into account all of the significant potential factors that could result in credit losses. However, the process includes judgmental and quantitative elements that may be subject to significant change. To the extent actual outcomes differ from the Company's estimates, additional provision for loan losses could be required, which could adversely affect earnings or financial performance in future periods. Note 1 of the Notes to Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2005 describes the methodology used to determine the allowance for loan losses. A discussion of the factors driving changes in the amount of the allowance for loan losses is included herein under the heading Asset Quality, Provision/Allowance for Loan Losses.

Table of Contents

Valuation of Mortgage Servicing Rights

The Company recognizes as assets the rights to service mortgage loans for others, whether acquired or internally originated. Mortgage servicing rights are initially recorded at fair value and are amortized over the period of estimated servicing income. Mortgage servicing rights are carried on the consolidated balance sheet at the lower of amortized cost or fair value. The Company utilizes the expertise of a third-party consultant to estimate the fair value of its mortgage servicing rights quarterly. In evaluating the mortgage servicing rights, the consultant uses discounted cash flow modeling techniques, which require estimates regarding the amount and timing of expected future cash flows, including assumptions about loan repayment rates, costs to service, as well as interest rate assumptions that contemplate the risk involved. Management believes the valuation techniques and assumptions used by the consultant are reasonable.

Determining the fair value of mortgage servicing rights is considered a critical accounting estimate because of the assets' sensitivity to changes in estimates and assumptions used, particularly loan prepayment speeds and discount rates. Imprecision in estimating these factors can impact the amount of revenue or loss recorded in the Company's financial statements. Notes 1 and 7 of the Notes to Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2005, describe the methodology used to determine fair value of mortgage servicing rights.

EXECUTIVE OVERVIEW

During 2006, the Company has remained focused on improving operating efficiency and identifying opportunities to generate additional noninterest income. This strategy has resulted in increased earnings during the three and nine months ended September 30, 2006. Net income increased \$1.5 million, or 9.6%, to \$16.7 million, or \$2.02 per diluted share, for the quarter ended September 30, 2006, as compared to \$15.3 million, or \$1.88 per diluted share, for the same period in 2005. During the nine months ended September 30, 2006, net income increased \$8.9 million, or 22.2%, to \$49.0 million, or \$5.92 per diluted share, as compared to \$40.1 million, or \$4.94 per diluted share, for the same period in the prior year. Quarter-to-date and year-to-date net interest income, on a fully taxable-equivalent basis, increased 7.3% and 11.7%, respectively, as compared to the same periods in 2005, primarily due to growth in average earning assets. Average earning assets grew 10.2% and 11.1% and comprised a larger percentage of total assets during the three and nine months ended September 30, 2006, respectively, as compared to the same periods in 2005. In addition, interest-free funding sources, including noninterest-bearing deposits, other liabilities and common equity, contributed an additional \$98 million and \$126 million during the three and nine months ended September 30, 2006, as compared to the same periods in 2005, allowing the Company to be slightly less reliant on higher costing funding sources in 2006. Also contributing to quarter-to-date and year-to-date improvements in net income during 2006, as compared to 2005, were reductions in expenses associated with discontinuation of operations at Wal-Mart in-store banking offices described below; decreases in net losses on sales of investment securities; increases in fee income from higher debit and credit card transaction volumes; and, increases in revenues from technology and financial services. Improvements in current year net income as compared to prior year were partially offset by higher provisions for loan losses; inflationary increases in salaries, wages and employee benefit expenses; increases in share-based compensation expenses; and, recognition of impairment of capitalized mortgage servicing rights.

On January 1, 2006, the Company adopted SFAS No. 123R, *Share-Based Payments*, which requires all share-based payments to be recognized in the financial statements based on the fair value of the award at the date of grant. Adoption of SFAS No. 123R resulted in the recognition of compensation expense related to stock option and restricted stock awards, net of related income tax benefits, of \$143 thousand and \$623 thousand during the three and nine months ended September 30, 2006, respectively.

The Company has held a minority equity interest in an unconsolidated joint venture entity since 2001. The entity is currently exploring an acquisition transaction that, should it occur, could result in a substantial gain to the Company. There can be no assurance, however, that the entity will receive an acceptable proposal or that an acquisition or similar transaction will be effected.

The Company acts as transfer agent solely for its own common stock. In August 2006, the Company received an examination report on its transfer agent function from the Federal Reserve Bank noting certain operating deficiencies. Additionally, in October 2006, the Securities and Exchange Commission commenced an examination of the

Company's transfer agent function and indicated that a deficiency letter will be issued in the near future. Company management has corrected or is in the process of correcting the deficiencies identified by the Federal Reserve Bank and will correct any additional deficiencies identified by the Securities and Exchange Commission promptly upon notification.

During first quarter 2005, the Company made a strategic decision to discontinue the operation of nine banking offices located inside Wal-Mart stores. During 2005, operations at five of the nine Wal-Mart in-store banking offices were discontinued and customer loan and deposit accounts were transferred to existing banking offices located in the same communities. During January 2006, operations were discontinued and customers' accounts were transferred at three of the four remaining Wal-Mart in-store banking offices and the final Wal-Mart in-store banking office was sold. The Company recorded expenses directly related to the discontinuation of operations of \$23 thousand and \$952 thousand during the nine months ended September 30, 2006 and 2005, respectively.

Table of Contents**RESULTS OF OPERATIONS**

Net Interest Income. Net interest income, the Company's largest source of operating income, is derived from interest, dividends and fees received on interest earning assets, less interest expense incurred on interest bearing liabilities. The most significant impact on the Company's net interest income between periods is derived from the interaction of changes in the volume of and rates earned or paid on interest earning assets and interest bearing liabilities (spread). The volume of loans, investment securities and other interest earning assets, compared to the volume of interest bearing deposits and indebtedness, combined with the spread, produces changes in the net interest income between periods. Interest-free funding sources, such as demand deposits and stockholders' equity, also support earning assets. The impact of interest-free funding sources is captured in the net interest margin, which is calculated as net interest income divided by average earning assets.

The following tables present, for the periods indicated, condensed average balance sheet information for the Company, together with interest income and yields earned on average interest earning assets and interest expense and rates paid on average interest bearing liabilities.

Average Balance Sheets, Yields and Rates

Net FTE yield on interest earning assets (3)	4.50%	4.15%
--	-------	-------

(1) Interest income and average rates for tax exempt loans and securities are presented on a fully-taxable equivalent (FTE) basis.

(2) Includes interest on securities sold under repurchase agreements and other borrowed funds. Excludes long-term debt.

(3) Net FTE yield on interest earning assets during the period equals (i) the difference between annualized interest income on interest earning assets and annualized interest expense on interest bearing liabilities, divided by (ii) average interest earning assets for the period.

Although faced with a continuing yield-rate environment in which short-term interest rates are higher than long-term interest rates, which typically constrains a bank's ability to maintain its net interest margin, the Company's net interest income, on a fully taxable equivalent (FTE) basis, increased \$3.3 million, or 7.3%, to \$48.7 million for the three months ended September 30, 2006 as compared to \$45.4 million for the same period in 2005 and \$14.9 million,

or 11.7%, to \$142.2 million for the nine months ended September 30, 2006 as compared to \$127.3 million for the same period in 2005. Improvements in FTE net interest income are primarily attributable to growth in average earning assets. Average earning assets grew 10.2% quarter-over-quarter and 11.1% year-over-year and comprised a larger percentage of total assets during the three and nine months ended September 30, 2006, as compared to the same periods in 2005. In addition, interest-free funding sources contributed more to the funding base during the three and nine months ended September 2006, as compared to the same periods in 2005, allowing the Company to be slightly less reliant on higher costing funding sources in 2006.

Table of Contents

The FTE net yield on interest earning assets decreased 12 basis points to 4.48% for the three months ended September 30, 2006, as compared to 4.60% for the same period in 2005, primarily the result of competitive pressure to raise deposit rates while yields on interest earning assets have increased at a slower pace. The FTE net yield on interest earning assets increased 3 basis points to 4.50% for the nine months ended September 30, 2006, as compared to 4.47% for the same period in 2005 primarily due to the contribution of interest-free funding sources.

The table below sets forth, for the periods indicated, a summary of the changes in interest income and interest expense resulting from estimated changes in average asset and liability balances (volume) and estimated changes in average interest rates (rate). Changes which are not due solely to volume or rate have been allocated to these categories based on the respective percent changes in average volume and average rate as they compare to each other.

Noninterest Income. The Company's principal sources of noninterest income include other service charges, commissions and fees; service charges on deposit accounts; technology services revenues; income from the origination and sale of loans; and, revenues from financial services. Noninterest income increased \$3.8 million, or 21.7%, to \$21.4 million for the three months ended September 30, 2006 as compared to \$17.6 million for the same period in 2005 and \$8.3 million, or 15.9%, to \$60.6 million for the nine months ended September 30, 2006 as compared to \$52.3 million for the same period in 2005. Significant components of these increases are discussed below.

Other service charges, commissions and fees primarily includes debit and credit card interchange income, mortgage servicing fees and ATM service charge revenues. Other service charges, commissions and fees increased \$731 thousand, or 14.6%, to 5.7 million for the three months ended September 30, 2006 as compared to \$5.0 million for the same period in 2005 and \$1.5 million, or 10.5%, to \$16.3 million for the nine months ended September 30, 2006, as compared to \$14.7 million for the same period in 2005, primarily due to additional fee income from higher volumes of debit and credit card transactions and increases in mortgage servicing revenues, the result of increases in the principal balances of loans serviced.

Technology services revenues increased \$717 thousand, or 21.4%, to \$4.1 million for the three months ended September 30, 2006 as compared to \$3.3 million for the same period in 2005 and \$1.7 million, or 16.6%, to \$11.6 million for the nine months ended September 30, 2006, as compared to \$10.0 million for the same period in 2005, primarily due to increases in the number of customers using core data processing services and the volume of core data and debit card transactions processed.

Table of Contents

Financial services revenues, comprised principally of brokerage revenues and fees earned for management of trust assets, increased \$356 thousand, or 15.9%, to \$2.6 million for the three months ended September 30, 2006 as compared to \$2.2 million for the same period in 2005 and \$1.2 million, or 17.2%, to \$7.9 million for the nine months ended September 30, 2006, as compared to \$6.7 million for the same period in 2005, primarily due to higher asset management fees resulting from the improved market performance of underlying trust account assets and the addition of new trust customers.

Income from the origination and sale of loans includes origination and processing fees on residential real estate loans held for sale and gains on residential real estate loans sold to third parties. Fluctuations in market interest rates impact income generated from the origination and sale of loans. Income from the origination and sale of loans increased \$161 thousand, or 6.0%, to \$2.8 million for the three months ended September 30, 2006, as compared to \$2.7 million for the same period in 2005, and \$487 thousand, or 7.5%, to \$7.0 million for the nine months ended September 30, 2006, as compared to \$6.5 million for the same period in 2005, primarily due to strong demand for housing in the Company's market areas.

The Company recorded net gains of \$27 thousand on sales of investment securities during the three months ended September 30, 2006 as compared to net losses on sales of \$1.8 million for the same period in 2005 and net gains of \$23 thousand during the nine months ended September 30, 2006, as compared to net losses of \$2.9 million during the same period in 2005. In 2005, the Company partially restructured its investment security portfolio by selling lower yielding U.S. government agency securities and reinvesting the proceeds in higher yielding mortgage-backed and U.S. government agency securities.

Other income primarily includes increases in the cash surrender value of company-owned life insurance, check printing income, agency stock dividends and gains on sales of assets other than investment securities. Other income increased \$60 thousand, or 3.9%, to \$1.6 million during the three months ended September 30, 2006, as compared to \$1.5 million during the same period in 2005, and increased \$486 thousand, or 11.2%, to \$4.8 million for the nine months ended September 30, 2006, as compared to \$4.3 million for the same period in 2005, primarily due to increases in the cash surrender value of company-owned life insurance and higher check printing income. Additionally, the Company recorded an \$85 thousand gain on the sale of a branch banking office in February 2006.

Noninterest Expense. Noninterest expense increased \$4.1 million, or 10.9%, to \$41.3 million for the three months ended September 30, 2006, as compared to \$37.2 million for the same period in 2005, and \$7.0 million, or 6.3%, to \$118.2 million for the nine months ended September 30, 2006, as compared to \$111.2 million for the same period in 2005. Significant components of these increases are discussed below.

Salaries, wages and employee benefits expense increased \$1.7 million, or 8.3%, to \$22.1 million for the three months ended September 30, 2006, as compared to \$20.5 million for the same period in 2005, and \$5.8 million, or 9.8%, to \$65.0 million for the nine months ended September 30, 2006, as compared to \$59.2 million for the same period in 2005, primarily due to inflationary wage increases and higher incentive bonus and profit sharing accruals. Also contributing to the increase in salaries, wages and employee benefits expense in the current year was the adoption of SFAS 123R on January 1, 2006. Under the provisions of SFAS No. 123R, the Company recognized compensation expense for stock option and restricted stock awards of \$232 thousand and \$1.0 million during the three and nine months ended September 30, 2006, respectively, as compared to \$63 thousand and \$227 thousand during the same respective periods in 2005.

Mortgage servicing rights are amortized in proportion to and over the period of estimated net servicing income. Changes in estimated servicing period and growth in the serviced loan portfolio cause amortization expense to vary between periods. Mortgage servicing rights amortization decreased \$235 thousand, or 19.7%, to \$955 thousand for the three months ended September 30, 2006, as compared to \$1.2 million for the same period in 2005, and \$616 thousand, or 17.4%, to \$2.9 million for the nine months ended September 30, 2006, as compared to \$3.6 million for the same period in 2005.

Other expenses include advertising and public relation costs; office supply, postage, freight, telephone and travel expenses; other losses; and, impairment charges or reversals related to capitalized mortgage servicing rights and long-lived assets pending disposition. Other expenses increased \$2.1 million, or 30.4%, to \$8.9 million for the three months ended September 30, 2006, as compared to \$6.8 million for the same period in 2005, and \$1.3 million, or

5.9%, to \$23.2 million for the nine months ended September 30, 2006, as compared to \$21.9 million for the same period in 2005, primarily due to fluctuations in impairment charges related to capitalized mortgage servicing rights. The Company recorded impairment charges of \$654 thousand and \$266 thousand related to mortgage servicing rights during the three and nine months ended September 30, 2006, respectively, as compared to impairment reversals of \$985 thousand and \$1.3 million recorded during the same respective periods in 2005.

Income Tax Expense. The Company's effective federal income tax rate was 30.9% and 30.8% for the nine months ended September 30, 2006 and 2005, respectively. State income tax applies primarily to pretax earnings generated within Montana, Colorado, Idaho and Oregon. The Company's effective state tax rate was 4.1% and 4.0% for the nine months ended September 30, 2006 and 2005, respectively.

Table of Contents**OPERATING SEGMENT RESULTS**

The Company's primary operating segment is Community Banking. The Community Banking segment represented over 90% of the combined revenues and income of the Company during the three and nine months ended September 30, 2006 and 2005, and the consolidated assets of the Company as of September 30, 2006 and December 31, 2005.

The following table summarizes net income (loss) for each of the Company's operating segments:

Operating Segment Results

(Dollars in thousands)

	Net Income (Loss)			
	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
Community banking	\$17,585	15,749	50,672	41,380
Technology services	769	1,146	3,046	3,417
Other	(1,608)	(1,621)	(4,701)	(4,684)
Total	16,746	15,274	49,017	40,113

Net income from the Community Banking operating segment increased \$1.8 million, or 11.7%, to \$17.6 million for the three months ended September 30, 2006 as compared to \$15.7 million for the same period in 2005 and \$9.3 million, or 22.5%, to \$50.7 million for the nine months ended September 30, 2006 as compared to \$41.4 million for the same period in 2005. Significant components of this increase are discussed in Results of Operations included herein.

FINANCIAL CONDITION

Loans. Total loans increased \$254 million, or 8.4%, to \$3,288 million as of September 30, 2006, from \$3,034 million as of December 31, 2005. All significant loan categories demonstrated organic growth during the first three quarters of 2006, with the most significant growth occurring in real estate loans, which, in aggregate, constituted 62.6% of the total loan portfolio as of September 30, 2006 and 61.7% of the total loan portfolio as of December 31, 2005. Real estate loans increased \$183 million, or 9.8%, to \$2,057 million as of September 30, 2006 from \$1,874 as of December 31, 2005, primarily due to increases in construction loans to residential real estate developers, the result of continued strong demand for housing in the Company's market areas.

Investment Securities. The Company's investment portfolio is managed to attempt to obtain the highest yield possible, while meeting the Company's risk tolerance and liquidity guidelines and satisfying the pledging requirements for deposits of state and political subdivisions and securities sold under repurchase agreements. Investment securities increased \$31 million, or 3.0%, to \$1,051 million as of September 30, 2006, from \$1,020 million as of December 31, 2005.

The Company evaluates its investment portfolio quarterly for other-than-temporary declines in the market value of individual investment securities. This evaluation includes monitoring credit ratings; market, industry and corporate news; volatility in market prices; and, determining whether the market value of a security has been below its cost for an extended period of time. As of September 30, 2006, the Company had investment securities with fair values of \$501 million that had been in a continuous loss position more than twelve months. Gross unrealized losses on these securities totaled \$13 million as of September 30, 2006, and were attributable to changes in interest rates. The Company recorded no impairment losses during the three or nine months ended September 30, 2006 or 2005.

Net Deferred Tax Asset. The net deferred tax asset increased \$3 million to \$6 million as of September 30, 2006, from \$3 million as of December 31, 2005, primarily due to higher loan loss provisions in 2006, which are not deductible currently for income tax purposes, and differences in timing of depreciation expense for financial statement

and income tax purposes.

Deposits. Total deposits increased \$68 million, or 1.9%, to \$3,616 million as of September 30, 2006, from \$3,548 million as of December 31, 2005. All deposit categories demonstrated organic growth during the nine months ended September 30, 2006, with the exception of savings deposits which decreased less than 1.0% from December 31, 2005. As of September 30, 2006, noninterest-bearing demand deposits, interest-bearing demand deposits, savings deposits and time deposits comprised 24.0%, 24.2%, 23.1% and 28.7%, respectively, of total deposits as compared to 24.4%, 22.3%, 24.8% and 28.5%, respectively, as of December 31, 2005.

Repurchase Agreements. In addition to deposits, repurchase agreements with commercial depositors provide additional sources of funds for the Company. Under repurchase agreements, deposit balances are invested in short-term U.S. government agency securities overnight and are then repurchased the following day. All outstanding repurchase agreements are due in one day. Repurchase agreements increased \$116 million, or 22.3%, to \$635 million as of September 30, 2006, from \$519 million as of December 31, 2005, primarily due to fluctuations in customer funds available for overnight investment.

Table of Contents

Other Borrowed Funds. Other borrowed funds decreased \$2 million, or 20.7%, to \$6 million as of September 30, 2006, as compared to \$7 million as of December 31, 2005, due to fluctuations in the timing of tax deposits made by customers and the subsequent withdrawal of funds by the federal government.

Long-Term Debt. The Company's long-term debt is comprised principally of fixed rate notes with the Federal Home Loan Bank (FHLB), an unsecured revolving term loan, unsecured subordinated notes and obligations under capital leases. Long-term debt decreased \$26 million, or 47.7%, to \$29 million as of September 30, 2006, from \$55 million as of December 31, 2005, due to repayment of a \$25 million, 3.05% fixed rate borrowing from the FHLB called in July 2006.

ASSET QUALITY

Non-performing Assets. Non-performing assets include loans past due 90 days or more and still accruing interest, nonaccrual loans, loans renegotiated in troubled debt restructurings and other real estate owned (OREO).

The following table sets forth information regarding non-performing assets as of the dates indicated:

Non-Performing Assets

(Dollars in thousands)

	September 30, 2006	June 30, 2006	March 31, 2006	December 31, 2005	September 30, 2005
Non-performing loans:					
Nonaccrual loans	\$15,984	15,519	15,949	17,142	16,767
Accruing loans past due 90 days or more	5,033	7,674	4,375	1,001	2,716
Restructured loans	1,056	1,075	1,089	1,089	1,358
Total non-performing loans	22,073	24,268	21,413	19,232	20,841
OREO	498	558	806	1,091	728
Total non-performing assets	\$22,571	24,826	22,219	20,323	21,569
Non-performing assets to total loans and OREO	0.69%	0.76%	0.71%	0.67%	0.72%

Provision/Allowance for Loan Losses. The Company performs a quarterly assessment of the risks inherent in its loan portfolio, as well as a detailed review of each significant asset with identified weaknesses. Based on this analysis, the Company records a provision for loan losses in order to maintain the allowance for loan losses at appropriate levels. The balance of the allowance for loan losses is based on internally assigned risk classifications of loans, historical loan loss rates, changes in the nature of the loan portfolio, overall portfolio quality, industry concentrations, delinquency trends, current economic factors and the estimated impact of current economic conditions on certain historical loan loss rates. Fluctuations in the provision for loan losses result from management's assessment of the adequacy of the allowance for loan losses. Ultimate loan losses may vary from current estimates. For additional information concerning the provision for loan losses, see "Critical Accounting Estimates" included herein.

The provision for loan losses increased \$654 thousand, or 47.6%, to \$2.0 million for the three months ended September 30, 2006, as compared to \$1.4 million for the same period in the prior year and \$2.0 million, or 45.7%, to \$6.4 million for the nine months ended September 30, 2006, as compared to \$4.4 million for the same period in 2005, primarily due to downgrades of the internal risk classifications assigned to the loans of one residential real estate

developer during second quarter 2006. The allowance for loan losses was \$47 million, or 1.43% of total loans, as of September 30, 2006, as compared to \$42 million, or 1.40% of total loans, at December 31, 2005.

Table of Contents

The following table sets forth information regarding the Company's allowance for loan losses as of and for the periods indicated.

Allowance for Loan Losses

(Dollars in thousands)

	September 30, 2006	June 30, 2006	Three Months Ended March 31, 2006	December 31, 2005	September 30, 2005
Balance at beginning of period	\$ 45,721	43,633	42,450	43,213	43,368
Provision charged to operating expense	2,029	2,578	1,753	1,482	1,375
Less loans charged off	(1,322)	(1,300)	(1,101)	(2,671)	(1,990)
Add back recoveries of loans previously charged off	529	810	531	426	460
Net loans charged-off	(793)	(490)	(570)	(2,245)	(1,530)
Balance at end of period	\$ 46,957	45,721	43,633	42,450	43,213
Period end loans	\$3,288,470	3,256,500	3,116,927	3,034,354	2,982,325
Average loans	3,272,203	3,190,310	3,059,385	2,998,797	2,929,238
Annualized net loans charged off to average loans	0.08%	0.07%	0.08%	0.30%	0.21%
Allowance to period end loans	1.43%	1.40%	1.40%	1.40%	1.45%

Although management believes that it has established its allowance for loan losses in accordance with accounting principles generally accepted in the United States and that the allowance for loan losses is adequate to provide for known and inherent losses in the portfolio at each balance sheet date, future provisions will be subject to on-going evaluations of the risks in the portfolio. If the economy declines or asset quality deteriorates, material additional provisions could be required.

CAPITAL RESOURCES AND LIQUIDITY MANAGEMENT

Capital Resources. A significant source of strength of a financial institution is its stockholders' equity. Stockholders' equity is influenced primarily by earnings; dividends; sales and redemptions of common stock; changes in the unrealized holding gains or losses, net of taxes, on available-for-sale investment securities; and, changes in unrecognized compensation cost related to share-based payments. Stockholders' equity increased \$39 million, or 11.0%, to \$388 million as of September 30, 2006, from \$350 million as of December 31, 2005, primarily due to retention of earnings. The Company paid aggregate cash dividends to stockholders of \$13.4 million and \$11.0 million during the nine months ended September 30, 2006 and 2005, respectively. As of September 30, 2006 and December 31, 2005, the Company and its wholly-owned bank subsidiary, First Interstate Bank (the "Bank") each exceeded the well-capitalized requirements established by the federal banking agencies.

Liquidity. Liquidity is the Company's ability to meet current and future cash flow needs on a timely basis and at a reasonable cost. The Company manages its liquidity position to meet the daily cash flow needs of customers, while maintaining an appropriate balance between assets and liabilities to meet the return on investment objectives of its shareholders. The liquidity of the Company is used to originate loans; repay deposit and other liabilities as they become due or are demanded by customers; and, to fund capital expenditures and shareholder dividends.

The Company's primary sources of funding are core deposits, which are comprised of interest-bearing and noninterest-bearing demand deposits, savings, individual retirement accounts and certificates of deposit less than \$100 thousand. Total core deposits represented approximately 90% of total deposits as of September 30, 2006 and December 31, 2005. Other funding sources available to the Company include time deposits of \$100 thousand or more; brokered deposits; advances on the Company's unsecured revolving term loan; short-term borrowings including federal funds purchased and repurchase agreements; the sale of loans; and, the issuance of collateralized borrowings such as FHLB advances, debt securities and preferred or common securities.

As a holding company, FIBS is a corporation separate and apart from the Bank and, therefore, provides for its own liquidity. A significant amount of FIBS' revenues are obtained from management fees and dividends declared and paid by the Bank and other non-bank subsidiaries. There are statutory and regulatory provisions that could limit the ability of the Bank to pay dividends to FIBS. Management of FIBS believes that such restrictions will not have an impact on the ability of FIBS to meet its ongoing short-term cash obligations.

Table of Contents

ASSET LIABILITY MANAGEMENT

The goal of asset liability management is the prudent control of market risk, liquidity and capital. Asset liability management is governed by policies, goals and objectives adopted and reviewed by the Bank's board of directors. The ability to optimize net interest margin is largely dependent on the achievement of an interest rate spread that can be managed during periods of fluctuating interest rates. Interest sensitivity is a measure of the extent to which net interest income will be affected by market interest rates over a period of time. Interest rate sensitivity is related to the difference between amounts of interest earning assets and interest bearing liabilities that reprice or mature within a given period of time. Management monitors the sensitivity of the net interest margin by utilizing income simulation models. The Company's balance sheet structure is primarily short-term in nature with most interest earning assets and interest bearing liabilities repricing or maturing in less than five years.

The Company targets a mix of interest earning assets and interest bearing liabilities such that no more than 5% of the net interest margin will be at risk over a one-year period should short-term interest rates shift gradually up or down 2%. As of September 30, 2006, the Company's income simulation model predicted net interest income would decrease \$3.2 million, or 1.6%, assuming a gradual 1% increase in short-term market interest rates and gradual 2% increase in long-term interest rates. This scenario predicts the Company's funding sources will reprice faster than its interest earning assets and at higher rates, thereby reducing interest rate spread and net interest margin. Conversely, assuming a gradual 2% decrease in short-term market interest rates and gradual 1% decrease in long-term interest rates, the Company's income simulation model predicted net interest income would decrease \$236 thousand, or less than 1.0%. This scenario predicts that, because interest rates on deposit accounts cannot decrease below 0%, interest expense will not decrease in direct proportion to a simulated downward shift in interest rates, thereby reducing interest rate spread and net interest margin.

The preceding interest rate sensitivity analysis does not represent a forecast and should not be relied upon as being indicative of expected operating results.

Item 3.

**QUANTITATIVE AND QUALITATIVE DISCLOSURES
ABOUT MARKET RISK**

As of September 30, 2006, there have been no material changes in the quantitative and qualitative information about market risk provided pursuant to Item 305 of Regulation S-K as presented in the Company's Annual Report on Form 10-K for the year ended December 31, 2005.

Item 4.

CONTROLS AND PROCEDURES

Management of the Company is responsible for establishing and maintaining effective disclosure controls and procedures, as defined under Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934. As of September 30, 2006, an evaluation was performed, under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, management concluded that the Company's disclosure controls and procedures as of September 30, 2006 were effective in ensuring that information required to be disclosed in this Quarterly Report on Form 10-Q was recorded, processed, summarized, and reported within the time period required by the Securities and Exchange Commission's rules and forms.

There were no changes in the Company's internal controls over financial reporting for the quarter ended September 30, 2006 that have materially affected, or are reasonably likely to materially affect, such controls.

PART II.

OTHER INFORMATION

Item 1. Legal Proceedings

There have been no material changes in legal proceedings as described in the Company's Annual Report on Form 10-K for the year ended December 31, 2005.

Item 1A. Risk Factors

There have been no material changes in risk factors described in the Company's Annual Report on Form 10-K for the year ended December 31, 2005.

Table of Contents**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

(a) There were no unregistered sales of equity securities during the three months ended September 30, 2006.

(b) Not applicable.

(c) The following table provides information with respect to purchases made by or on behalf of the Company or any affiliated purchasers (as defined in Rule 10b-18(a)(3) under the Securities Exchange Act of 1934), of the Company's common stock during the three months ended September 30, 2006.

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1)	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
July 2006	6,990	\$74.50	0	Not Applicable
August 2006	7,751	76.27	0	Not Applicable
September 2006	19,703	77.25	0	Not Applicable
Total	34,444	\$76.47	0	Not Applicable

- (1) The common stock of the Company is not actively traded, and there is no established trading market for the stock. There is only one class of common stock, with approximately 90.3% of the shares subject to shareholder agreements granting the Company a

right of first refusal to repurchase the stock. The Company has no obligation to repurchase the stock, but has historically done so. Additionally, the shareholder agreement allows the Company to call all or some of the issued stock under certain conditions. All purchases indicated in the table above were effected pursuant to private transactions.

Item 3. Defaults upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Security Holders

None.

Item 5. Other Information

(a) Not applicable or required.

(b) None.
