MANAGEMENT PROXY CIRCULAR

Solicitation of Proxies

This management proxy circular is furnished in connection with the solicitation of proxies by the management of the Company for use at the annual and special meeting of shareholders to be held at 2:00 p.m. (EDT) on Thursday, May 20, 2004 at the Wyndham Hotel, 2 Van De Graaff Drive, Burlington, Massachusetts. The solicitation will be made by mail but proxies may also be solicited personally by employees of the Company. The cost of solicitation has been or will be borne by the Company. The Company may also pay brokers or nominees holding common shares of the Company in their names or in the names of their principals for their reasonable expenses in sending solicitation material to their principals.

The notice of the meeting, this management proxy circular, the form of proxy and a copy of the Company's annual report will be forwarded on or about Friday, April 23, 2004 to the Company's shareholders as of the close of business on Thursday, April 8, 2004.

Appointment and Revocation of Proxies

The persons named in the enclosed form of proxy are officers of the Company. **A shareholder may appoint a person to represent him or her at the meeting, other than the persons already named in the attached form of proxy, by inserting the name of such other person in the blank space provided in the form of proxy or by completing another proper form of proxy. Such person need not be a shareholder.** The completed form of proxy must be deposited with the Company at its principal executive offices at 39 Manning Road, Billerica, Massachusetts 01821 or with Computershare Trust Company of Canada, 100 University Avenue, 9th Floor, Toronto, Ontario, Canada, M5J 2Y1, in either case no later than 5:00 p.m. (EDT) on Wednesday, May 19, 2004, or, if the meeting is adjourned or postponed, the day before commencement of the reconvened meeting.

The shareholder executing the form of proxy may revoke it as to any manner on which a vote has not already been cast pursuant to the authority conferred by such proxy (a) by delivering another properly executed form of proxy bearing a later date and depositing it in the manner described above; (b) by delivering an instrument in writing revoking the proxy, executed by the shareholder or by the shareholder's attorney authorized in writing (i) at the registered office of the Company, at any time up to and including the last business day preceding the date of the meeting, or at any reconvened meeting following its adjournment or postponement, or (ii) with the chairman of the meeting on the day of the meeting, or at any reconvened meeting following its adjournment or postponement; or (c) in any other manner permitted by law.

All monetary amounts listed below are in U.S. dollars, unless otherwise indicated.

Voting of Proxies

The officers named in the form of proxy attached to this management proxy circular will vote or withhold from voting the common shares of the Company in respect of which they are appointed proxy in accordance with the directions of the shareholder appointing them and, if a shareholder specifies a choice with respect to any matter to be acted upon, the shares will be voted accordingly. In the absence of such direction, the shares will be voted **in favor** of the election as directors of the nominees named in this management proxy circular, **in favor** of the ratification of the appointment of Ernst & Young LLP as auditors and **in favor** of the approval of the Restated Plan.

The board of directors of the Company has fixed the close of business on Thursday, April 8, 2004 as the record date for the determination of shareholders entitled to vote at the meeting. At the close of business on that date there were outstanding and entitled to vote 40,976,318 common shares of the Company. Each share is entitled to one vote, which may be cast as follows:

the vote for the election as directors of the nominees named in this management proxy circular is cumulative and is described in more detail below;

Table of Contents

the vote for the ratification of the appointment of auditors requires the approval of a majority of the common shares represented and cast in respect of such matter to be effective; and

the vote for the approval of the Restated Plan requires the approval of a majority of the common shares represented and cast in respect of such matter, other than votes attached to common shares held by insiders of the Company, to be effective.

No votes may be taken at the meeting, other than a vote to adjourn, unless a quorum has been constituted consisting of the representation of at least 20% of the outstanding shares as of the record date. Votes will be tabulated by the Company's transfer agent subject to the supervision of persons designated by the board of directors of the Company as inspectors.

Voting for the Election of Directors. Section 65(1) of the *Business Corporations Act* (New Brunswick) provides for cumulative voting for the election of directors so that each shareholder entitled to vote at an election of directors has the right to cast an aggregate number of votes equal to the number of votes attached to the shares held by such shareholder multiplied by the number of directors to be elected, and may cast all such votes in favor of one candidate or distribute them among the candidates in any manner the shareholder decides. The statute further provides, in section 65(2), that a separate vote of shareholders shall be taken with respect to each candidate nominated for director unless a resolution of the shareholders is passed unanimously permitting two or more persons to be elected by a single resolution. Where a shareholder has voted for more than one candidate without specifying the distribution of votes among such candidates, the shareholder shall be deemed to have divided the votes equally among the candidates for whom such shareholder voted. If a shareholder desires to distribute votes otherwise than equally among the nominees for whom such shareholder has directed the persons in the enclosed form of proxy to vote, such shareholder must do so personally at the meeting or by another form of proxy. **On any ballot that may be called for the election of directors, the persons named in the enclosed form of proxy intend to cast the votes to which the shares represented by such proxy are entitled equally among all the proposed nominees whose names are set forth in the table under Election of Directors below, except those, if any, excluded by the shareholder in the proxy, or unless the shareholder who has given such proxy has directed that the shares be withheld from voting in the election of directors.**

Ownership of Directors and Executive Officers. As of the close of business Thursday April 8, 2004, the directors and executive officers of the Company and their respective affiliates, as a group, may be deemed to be the beneficial owners of 1,919,747 common shares, representing approximately 4.68% of the outstanding common shares. The directors and executive officers of the Company have indicated that they intend to vote their respective common shares **in favor** of the election as directors of the nominees named in this management proxy circular and **in favor** of the ratification of the appointment of Ernst & Young LLP as the Company's auditors. The votes attached to the shares owned by the executive officers and directors of the Company shall not be counted with respect to approval of the Restated Plan.

The enclosed form of proxy confers discretionary authority on the person named therein with respect to amendments to or variations of matters identified in the notice of meeting and other matters that may properly come before the meeting. At the date of this management proxy circular, the management of the Company knows of no such amendments, variations or other matters.

Voting and Ownership of Shares

As of the record date the Company had 40,976,318 common shares outstanding. Each shareholder of record, as of the close of business on Thursday, April 8, 2004, is entitled to one vote for each common share held, except to the extent that such shareholder has transferred the ownership of any shares after such date and the transferee of such shares establishes proper ownership thereof and demands not later than ten (10) days before the meeting to be added to the list of shareholders entitled to vote at the meeting in which case such transferee will be entitled to vote such shares. The failure of any shareholder to receive a notice of meeting of shareholders does not deprive the shareholder of a vote at the meeting.

ELECTION OF DIRECTORS

The articles of continuance of the Company provide that its board of directors is to be comprised of between five (5) and fifteen (15) directors, as determined from time to time by resolution of the board of

Table of Contents

directors. Within these minimum and maximum numbers of directors, the board of directors has resolved that the entire board of directors will consist of six (6) directors. Below are the names of the persons for whom it is intended that votes be cast for their election as directors pursuant to the proxy that is hereby solicited unless the shareholder directs therein that his, her or its shares be withheld from voting. Each director will hold office until the next annual meeting, until his successor is elected or appointed, or until his earlier death, resignation or removal.

Management does not contemplate that any of the nominees named below will be unable to serve as a director, but if that should occur for any reason prior to the meeting, where the proxy is granted to the management nominees, the management nominees reserve the right to vote for other nominees in their discretion unless directed to withhold from voting. The following table states, with respect to each person nominated for election as a director, the name, age, position held with the Company (where applicable), the year first elected or appointed as a director, committee memberships and the person's principal occupation and employment during the past five (5) years.

The board of directors recommends a vote **FOR** the election as the directors of the nominees named below.

If shareholders do not ratify the appointment of Ernst & Young LLP as the Company's independent accountants for the current fiscal year ending December 31, 2004, the Company's audit committee of the board of directors will evaluate what would be in the best interests of the Company and its shareholders and consider whether to select new independent accountants for the current fiscal year or whether to wait until the completion of the audit for the current fiscal year before changing independent accountants.

The audit committee has adopted a policy that it will pre-approve non-audit-related services to be performed by the Company's independent accountants.

All audit and non-audit services provided by Ernst & Young LLP were approved by the audit committee of the board of directors of the Company, which considered whether the provision of non-audit services was compatible with maintaining auditor independence.

**APPROVAL OF THE SECOND RESTATEMENT OF THE 1995 OPTION PLAN FOR
EMPLOYEES AND DIRECTORS**

The board of directors of the Company has approved and recommended to the shareholders that they approve a second restatement to the Restatement of GSI Lumonics Inc. 1995 Stock Option Plan for Employees and Directors (the *Plan*, and, the second restatement, the *Restated Plan*) to allow for the grant of incentive stock options and non-qualified stock options, restricted common shares and stock appreciation rights (collectively, *Awards*) and to increase the number of shares for which Awards may be granted under the Plan by 2,000,000, or from 4,906,000 to 6,906,000. A copy of the proposed Restated Plan is attached to this Proxy Statement as Schedule A and the description of the Restated Plan is qualified in its entirety by reference to Schedule A.

Although shareholder approval of the Restated Plan is not required under New Brunswick law, such approval is required (1) to meet the rules of The Toronto Stock Exchange and of The Nasdaq Stock Market and (2) under the U.S. Internal Revenue Code of 1986, as amended (the *Internal Revenue Code*) to allow certain Awards granted under the Restated Plan to qualify as incentive stock options under the Internal Revenue Code, and permit Awards granted under the Restated Plan to qualify as performance based compensation for purposes of Section 162(m) of the Internal Revenue Code. In addition, as of April 9, 2004, the Restated Plan is subject to regulatory approval by the Toronto Stock Exchange.

The Plan is intended to retain key employees (including contract employees), consultants and directors and thereby provide additional incentive for them to promote the success of the Company in a highly competitive business environment. Under the Plan, the maximum number of common shares which may be

Table of Contents

issued is 4,906,000. Options have been in the past granted under the Plan and the Company anticipates that in the future Awards will be granted under the Restated Plan to certain key employees (including contract employees), consultants and directors of the Company or its subsidiaries who are in a position to contribute substantially to the growth and success of the Company and its subsidiaries. However, the Company has not at the present time determined who specifically will receive the common shares that will be authorized for issuance under the Restated Plan if the proposed Restated Plan is approved. Certain key features of the Plan are more fully described in this Proxy Statement under the heading Stock Option Plans.

In the view of the board of directors, amending and restating the Plan to allow for the grant of incentive stock options, non-qualified stock options, restricted common shares and stock appreciation rights is necessary to provide the compensation committee the ability to offer incentive packages to employees (including contract employees), consultants and directors that are more conducive to long term ownership of the Company's common shares. The board of directors believes the increase in the number of shares for which Awards may be granted under the Restated Plan is necessary and appropriate in order to permit the continued grant of Awards to attract and retain talented individuals in accordance with the purposes of the Plan. Accordingly, the board of directors has determined that the total maximum number of common shares reserved for issuance under the Restated Plan should be increased by 2,000,000 to 6,906,000. The proposed 2,000,000 share increase in the Plan represents approximately 4.88% of the issued and outstanding common shares as of April 8, 2004. The Toronto Stock Exchange Policy requires a specified maximum number of shares issuable under the Restated Plan to be stated therein. The Toronto Stock Exchange Policy also requires a shareholder vote to be taken where, among other matters, the maximum number of shares reserved for issuance pursuant to stock options may exceed 10% of the outstanding shares. The rules of The Nasdaq Stock Market require shareholder approval for any material amendment to a stock option plan pursuant to which stock may be acquired by officers, directors, employees or consultants. The Restated Plan will only become effective upon shareholder approval. If shareholder approval is not received, the prior version of the Plan will remain effective until further amended.

Summary of the Restated Plan

The Restated Plan permits the granting of any or all of the following types of awards:

incentive stock options;

non-qualified stock options;

restricted common shares; and

stock appreciation rights (SARs).

Incentive Stock Options and Non Qualified Stock Options

Incentive stock options (which will be designated as such) and non-qualified stock options may be granted under the Restated Plan. The exercise price per share purchasable under an award shall be determined at the time of grant by the compensation committee and shall be at least the fair market value on the grant date.

The incentive stock options eligible to be granted under the Restated Plan are designed to meet the requirements of the Internal Revenue Code, including but not limited to a requirement that the exercise price be at least 100% of the fair market value of the Company's common shares on the date the option is granted and that the option have a term no longer than ten years. No person who owns, directly or indirectly, more than 10% of the total combined voting power of the Company's common shares may receive incentive stock options unless the exercise price is at least 110% of the fair market value of the Company's common shares on the grant date and the term is no longer than five years. Incentive stock options granted under the Restated Plan are not transferable by the participant, other than by will or by the laws of descent and distribution.

The exercise price of options must be equal to the closing price of the Company's common shares on the Toronto Stock Exchange, or in lieu thereof, The Nasdaq Stock Market, on the date of grant. Unless otherwise specifically approved by the compensation committee, options will vest and be exercisable by a participant at a rate of twenty-five percent (25%) per year on the first, second, third and fourth anniversaries of the date of

Table of Contents

grant of such options. The exercise period of each option is determined by the compensation committee but may not exceed ten (10) years from the date of grant. The purchase price will be paid in cash or certified check. Only full shares are to be issued under the Restated Plan. Unless otherwise determined by the Chief Executive Officer of the Company, if a participant's employment with the Company is terminated for cause, a stock option will terminate as of such termination. Unless otherwise determined by the Chief Executive Officer of the Company, if a participant's employment with the Company is terminated other than by death, or dismissal for cause, a stock option that has vested may generally be exercised for sixty days after termination. In the event of death of a participant, a stock option that has vested may be exercised for six months after such death by the legal personal representative of the participant.

Restricted Shares

The Restated Plan permits the compensation committee to make awards of restricted shares. Restricted shares are an award of common shares whose vesting and forfeiture restrictions are related to the participant's continued service with the Company for a specified period of time. The purchase price of restricted shares shall be the Market Price as of the date of grant of the restricted shares. Unless otherwise specifically approved by the compensation committee, restricted shares will vest at a rate of twenty-five percent (25%) per year on the first, second, third and fourth anniversaries of the date of purchase of such restricted shares. The purchase price will be paid in cash or certified check. Unless otherwise determined by the Chief Executive Officer of the Company, if a participant's employment with the Company is terminated for any reason, all vesting of restricted shares shall cease as of such termination and the Company may repurchase any of the unvested restricted shares in accordance with the terms and conditions of such restricted shares. Subject to the Restated Plan, the compensation committee will determine the time or times when such awards will be subject to forfeiture, and all of the other terms and conditions of such grants. Restricted common shares may not be sold, transferred, pledged or otherwise encumbered by the recipient during the forfeiture period determined by the compensation committee. The participant will have, with respect to such share awards, all of the rights of a shareholder of the Company, including the right to vote such shares. Notwithstanding the foregoing, the right to receive dividends with respect to the restricted common shares may be paid directly to the participant, withheld by the Company subject to vesting of the restricted common shares or reinvested in additional restricted common shares, as determined by the compensation committee in its sole discretion. Subject to certain exceptions described in the Restated Plan, on termination of employment during the restriction period, the participant forfeits all shares still subject to restriction.

Stock Appreciation Rights

The compensation committee has the right to grant SARs alone or in tandem with other awards. The exercise price per common share of a SAR will be an amount determined by the compensation committee but in no event may such amount be less than the closing price of the common shares on The Toronto Stock Exchange (or if the common shares are not then listed or posted for trading on such exchange, on such stock exchange in Canada on which such shares are listed and posted for trading as may be selected for such purpose by the compensation committee) on the date of grant (the "Market Price"). In the event that the common shares are not listed and posted for trading on any stock exchange in Canada, the market price shall be the last trading price of the common shares on The Nasdaq Stock Market on the trading day immediately preceding the date of grant; provided, however, that, notwithstanding the foregoing, in the case of a SAR granted in conjunction with an option, or a portion thereof, the exercise price may not be less than the exercise price of the related option. Each SAR granted independent of an option will entitle a participant upon exercise to an amount equal to (i) the excess of (A) the Market Price per common share on the exercise date over (B) the exercise price per common share, times (ii) the number of common shares covered by the SAR. Each SAR granted in conjunction with an option, or a portion thereof, will entitle a participant to surrender to the Company the unexercised option, or any portion thereof, and to receive from the Company in exchange therefor an amount equal to (I) the excess of (x) the Market Price per common share on the exercise date of one common share over (y) the exercise price, times (II) the number of common shares covered by the option, or portion thereof, which is surrendered. Payment will be made in common shares or in cash, or partly in common shares and partly in cash. If a participant's employment with the Company is terminated for cause, a SAR that has vested may generally be exercised for thirty days thereafter. Unless otherwise determined by

the Chief Executive Officer of the Company, if a participant's employment with the Company is terminated other than by death or dismissal for cause, a SAR that has vested may generally be exercised for sixty days after termination. In the event of death of a participant, a SAR that has vested may be exercised for six months after such death by the legal personal representative of the participant.

United States Income Tax Consequences

The following summary of tax consequences with respect to the awards granted under the Restated Plan is not comprehensive and is based upon laws and regulations in effect on January 1, 2004. Such laws and regulations are subject to change. The summary is intended for the information of shareholders considering how to vote and not as tax guidance to participants in the Restated Plan. Participants in the Restated Plan should consult their own tax advisors as to the tax consequences of participation.

Stock Options. Stock options granted under the Restated Plan may be either incentive stock options or non-qualified stock options. There are generally no federal income tax consequences either to the option holder or to the Company upon the grant of a stock option.

On exercise of an incentive stock option, the option holder will not recognize any income and the Company will not be entitled to a deduction for tax purposes, although such exercise may give rise to liability for the option holder under the alternative minimum tax provisions of the Internal Revenue Code. Generally, if the option holder disposes of shares acquired upon exercise of an incentive stock option within two years of the date of grant or one year of the date of exercise, the option holder will recognize compensation income and the Company will be entitled to a deduction for tax purposes in the amount of the excess of the fair market value of the shares on the date of exercise over the exercise price (or the gain on sale, if less). Any further gain realized will be taxed as capital gain and will not result in any deduction by the Company. Otherwise, the Company will not be entitled to any deduction for tax purposes upon disposition of such shares, and the entire gain for the option holder will be treated as a capital gain. Special rules apply when all or a portion of the exercise price is paid by tendering shares of the Company's stock.

On exercise of a non-qualified stock option, the amount by which the fair market value of the shares on the date of exercise exceeds the exercise price will generally be taxable to the option holder as compensation subject to income and payroll taxes, and will generally be deductible for tax purposes by the Company. The disposition of shares of stock acquired upon exercise of a non-qualified stock option will generally result in a capital gain or loss for the option holder with the holding period commencing on the date of the exercise, but will have no consequences for the Company.

Other Awards. With respect to other Awards (excluding stock options) granted under the Restated Plan that result in the payment or issuance of cash or common shares or other property that is either not restricted as to transferability or not subject to a substantial risk of forfeiture, the participant must generally recognize ordinary income equal to the cash or the fair market value of common shares or other property received on the date any such restrictions lapse. Thus, deferral of the time of payment or issuance generally will result in the deferral of the time the participant will be liable for income taxes with respect to such payment or issuance. The Company generally will be entitled to a deduction in an amount equal to the ordinary income received by the participant.

With respect to other Awards (excluding stock options) involving the issuance of common shares or other property that is restricted as to transferability and subject to a substantial risk of forfeiture, the participant generally must recognize ordinary income equal to the fair market value of the common shares or other property received as of the first time the shares or other property become transferable or not subject to a substantial risk of forfeiture, whichever occurs earlier. The Company generally will be entitled to a deduction in an amount equal to ordinary income received by the participant. A participant may elect to be taxed at the time of the earlier receipt of common shares or other property rather than upon lapse of restrictions on transferability or the substantial risk of forfeiture, but if the participant subsequently forfeits such shares or property he or she would not be entitled to any tax deduction, including as a capital loss, for the value of the shares or property on which the participant previously paid tax. The participant must file such election with the Internal Revenue Service within 30 days of the receipt of the common shares or other restricted property.

Table of Contents

Generally to the extent that a participant realizes compensation income with respect to an Award, the Company should be entitled to a corresponding tax deduction, subject to certain limits such as those set forth in Section 162(m) of the Internal Revenue Code as described below.

Parachute Payments. In the event any payments or rights accruing to a participant upon a change in control, or any other payments awarded under the Restated Plan, constitute parachute payments under Section 280G of the Internal Revenue Code, depending upon the amount of such payments accruing and the other income of the participant from the Company, the participant may be subject to a 20% excise tax (in addition to ordinary income tax) on the amount of the payment that exceeds a base amount (an excess parachute payment) and the Company may be disallowed a deduction for the excess parachute payment.

Alternative Minimum Tax. In addition to the tax consequences described above, the exercise of an incentive stock option may result in additional tax liability to the participant under the alternative minimum tax rules. The Internal Revenue Code provides that an alternative minimum tax will be applied against a taxable base which is equal to alternative minimum taxable income, reduced by a statutory exemption. In general, the amount by which the value of the common shares received upon exercise of the incentive stock option exceeds the exercise price is included in the participant's alternative minimum taxable income. A taxpayer is required to pay the higher of his or her regular tax liability or the alternative minimum tax.

Section 162(m) of the Internal Revenue Code. Section 162(m) of the Internal Revenue Code generally disallows a public company's tax deduction for compensation to a named executive officer in excess of \$1,000,000 in any tax year. Compensation that qualifies as performance-based compensation is excluded from the \$1,000,000 deductibility cap, and therefore can be fully deductible.

The board of directors is also seeking shareholder approval of the Restated Plan to permit the Company to deduct for tax purposes compensation paid to certain executive officers under Awards that qualify as performance-based compensation.

Nontransferability

Any participant's rights to an Award are not assignable or transferable by the participant during the participant's life time and any rights with respect to Awards are exercisable during the participant's lifetime only by the participant.

Change of Control

Unless otherwise determined by the compensation committee, all outstanding options will immediately vest and become exercisable by a participant upon a change in control (as determined by the board of directors) of the Company.

The board of directors recommends a vote **FOR** the adoption of the Restated Plan. In order to be effective, the Restated Plan must be approved by a majority of votes cast at the meeting, other than those attached to common shares held by insiders of the Company. As of March 26, 2004 insiders of the Company may be deemed to be the beneficial owners of 1,919,747 common shares, representing approximately 4.68% of the outstanding common shares. This number includes 1,740,742 common shares subject to options and warrants, which may be exercised by the holders, but which are not entitled to vote unless exercised by the holder and converted to common shares.

Repricings

The exercise or purchase price of Awards previously granted under the Restated Plan may not be reduced, nor may any Awards be canceled and reissued at a lower exercise price or purchase price, unless such action is approved by the shareholders of the Company, unless such reduction is made pursuant to a recapitalization or reorganization in accordance with the Restated Plan.

BOARD OF DIRECTORS AND COMMITTEE MEETINGS

During fiscal 2003, the board of directors of the Company held nine (9) meetings. Each incumbent director attended at least 75% of the aggregate number of meetings of the board of directors held during fiscal 2003 and the meetings of the committees of the board of directors on which he served. Company policies do

Table of Contents

not require members of the board of directors to attend the Company's annual meetings of shareholders. At the Company's 2003 annual meeting of shareholders, only Mr. Winston was in attendance.

The board of directors has an Audit Committee; Compensation Committee; Nominating and Corporate Governance Committee and Technology Committee.

Audit Committee. The audit committee oversees the financial reporting process and the internal controls of the Company, reviews the financial statements of the Company and oversees the appointment and activities of the Company's independent auditors. The audit committee is currently composed of three (3) members, each of whom is independent or unrelated as defined by The Nasdaq Stock Market's Marketplace Rules and the Toronto Stock Exchange Corporate Governance guidelines, as appropriate. The directors currently serving on the audit committee are Messrs. Black, Pond and Virgilio. The audit committee, with the board of directors' ratification, has selected and appointed Ernst & Young LLP to serve as the Company's independent auditors for the fiscal year ending December 31, 2004. The board of directors has determined that Richard B. Black is an audit committee financial expert, as that term is defined in Item 401(h) of Regulation S-K of the United States Securities Act of 1933, as amended, serving on its audit committee. The audit committee operates under a written charter which is reviewed and updated regularly and approved by the board of directors, and is attached hereto as Schedule B. The audit committee held six (6) meetings (including two meetings by telephone) during fiscal 2003.

Compensation Committee. The compensation committee reviews and recommends to the board of directors the compensation and benefits of all executive officers of the Company and reviews general policy relating to compensation and benefits of employees of the Company. The compensation committee also administers the issuance of stock options. The directors currently serving on the compensation committee are Messrs. Black, Pond and Virgilio. The compensation committee held four (4) meetings during fiscal 2003.

Nominating and Corporate Governance Committee. The nominating and corporate governance committee is responsible for the following: (a) identifying individuals qualified to become board members and recommending to the board the director nominees; (b) developing and recommending to the board a set of corporate governance principles applicable to the Company; and (c) reviewing the qualifications of directors eligible to become members of the different committees of the board, and recommending to the board director nominees for each committee. The directors currently serving on the nominating and corporate governance committee are Messrs. Pond, Ferrari and Griffiths. The nominating and corporate governance committee was established on February 25, 2004 and did not meet or take action by unanimous written consent during fiscal 2003. The board of directors has determined that the members of the nominating committee are independent as defined by The Nasdaq Stock Market's Marketplace Rules and the Toronto Stock Exchange Corporate Governance guidelines. The nominating and corporate governance committee operates under a written charter, which will be reviewed and updated periodically and is approved by the board of directors. A copy of the charter is available to shareholders on the Company's Web site at www.gsilumonics.com and is attached hereto as Schedule C.

The nominating and corporate governance committee and the board of directors have not established a formal process with regard to any director candidates recommended by shareholders due to the limited number of such recommendations, the need to evaluate such recommendations on a case-by-case basis, and the expectation that recommendations from shareholders probably would be considered generally in the same manner as recommendations by a director or an officer of the Company. Under the Company's by-law no. 1, a shareholder may recommend a director nominee if the recommendation is signed by one or more holders of shares representing in the aggregate not less than 5% of the common shares of the Company entitled to vote at the shareholder's meeting to which the nomination is to be presented. Any shareholder, as described in the preceding sentence, wishing to recommend candidates for consideration by the nominating and corporate governance committee and the full board of directors may do so by writing to the Secretary of the Company and providing the candidate's name, biographical data and qualifications.

The criteria that the nominating and corporate governance committee has established regarding the minimum qualifications for committee-recommended nominees are available on the Company's Web site at www.gsilumonics.com, under the title of Director Selection and Board Composition. These criteria center on finding candidates who have the highest level of integrity, are financially literate, have motivation and

Table of Contents

sufficient time to devote themselves to Company matters and who have skills that complement the skills and knowledge of current directors. The nominees named in this management proxy circular are all incumbent directors and have been selected and recommended by the current board of directors, including the President and Chief Executive Officer. In addition, the Company has engaged Christian & Timbers, a professional executive placement firm, to identify new candidates for positions as director, using such approved criteria. Such candidates would be identified for planning purposes only, as the Company has no present intention to replace incumbent directors.

Technology Committee. The technology committee is responsible for the review and recommendation to the board of directors of technology investments, and for developing and periodically reevaluating the Company's technology strategy. The directors currently serving on the technology committee are Messrs. Griffiths and Winston. Mr. Pelsue, the Company's Chief Technology Officer, also serves on the technology committee.

COMMUNICATIONS WITH DIRECTORS

The board of directors has not established a formal process for shareholders to send communications to the board of directors and individual directors. However, the names of all directors are available to shareholders in this management proxy circular. If the Company receives any shareholder communication intended for the full board of directors or any individual director, the Company will forward such communication to the full board of directors or such individual director, unless the communication is clearly of a marketing nature or is unduly hostile, threatening, illegal, or similarly inappropriate, in which case the Company has the authority to discard the communication or take appropriate legal action regarding the communication. The Company has also established a confidential hotline for communication between Company employees and members of the audit committee.

Report of the Audit Committee

The audit committee assists the board of directors by overseeing the audit coverage and monitoring the accounting, financial reporting, data processing, regulatory and internal control environments and oversees the appointment and activities of the Company's independent auditors, including the audit. Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls. The primary duties and responsibilities of the audit committee are to do the following:

Serve as an independent and objective party to monitor the Company's financial reporting process and internal control systems on behalf of the board of directors and to report the results of the committee's activities to the board of directors;

Appoint, evaluate and retain the Company's independent auditors each fiscal year;

Maintain direct responsibility for the compensation, termination and oversight of the auditors' performance and evaluate the auditor's qualifications and performance;

Review and evaluate the audit efforts of the Company's independent auditors;

Evaluate the Company's quarterly financial performance, reporting and compliance with applicable laws and regulations;

Oversee management's establishment and enforcement of financial policies; and

Provide an open avenue of communication among the independent auditors, financial and senior management, and the board of directors.

The audit committee has:

Reviewed and discussed the audited financial statements of the Company for the fiscal year ended December 31, 2003 with management and Ernst & Young LLP, the Company's independent auditors, including a discussion of the quality and effect of the Company's accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements;

Discussed the matters required by Statement on Auditing Standards No. 61 (Communication with Audit Committees), as currently in effect and as amended by SAS No. 89 (Audit Adjustments) and

Table of Contents

SAS No. 90 (Audit Committee Communications), with Ernst & Young LLP, including the process used by management in formulating certain accounting estimates and the basis for the conclusions of Ernst & Young LLP regarding the reasonableness of those estimates; and

Met with the independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls and the overall quality of the Company's financial reporting.

The audit committee has also received the written disclosures and the letter from Ernst & Young LLP required by Independence Standards Board Standard No. 1 (Independence Discussion with Audit Committees), has discussed the independence of Ernst & Young LLP and considered whether the provision of non-audit services by Ernst & Young LLP is compatible with maintaining auditor independence, and has satisfied itself as to the independence of Ernst & Young LLP.

Based on the review and discussions noted above, the audit committee has recommended to the board of directors that the Company's audited financial statements be included in its annual report on Form 10-K for the fiscal year ended December 31, 2003 for filing with the United States Securities and Exchange Commission. The audit committee, with the ratification of the full board of directors, has also appointed and selected Ernst & Young LLP as the Company's independent auditors for the fiscal year ending December 31, 2004.

Report of Compensation Committee on Executive Compensation

The executive compensation policy of the Company has as its goals the following:

to provide executives with compensation that is fair and competitive in the market place;

to provide executives with incentive to meet and exceed financial and other strategic objectives; and

to focus executives on strategically increasing shareholder value, rather than simply increasing the size of the Company.

Base salary. Base salaries are determined on an individual basis taking into consideration the individual's position, the individual's ability to contribute to the Company's performance and amounts paid by technology companies of similar size for comparable positions.

Annual bonus. Each executive officer has the opportunity to earn an annual bonus. The amount of the bonus is tied to the individual's performance and the achievement of specific goals and objectives that, in some cases, may be difficult to quantify. Cash bonuses may also, at the discretion of the compensation committee, be used to recognize other significant contributions of an executive to the overall accomplishment of the Company's objectives. All cash bonuses are paid at the discretion and upon the approval of the compensation committee. The amount of the potential bonuses varies based upon the executive officer's position with the Company, ability to impact the Company's performance and contribute to the Company's objectives and degree of responsibility.

Long term incentives. Executives may participate in the Company's stock option plans, referred to in this management proxy circular as the plans. The plans are administered by the compensation committee, which designates the individuals who are to be granted options, the number of options to be granted and other terms and conditions of the options. The number of stock options granted to executive officers is based upon the same factors as are relevant in setting their salaries and annual bonuses.

Chief Executive Officer's compensation. During the year ended December 31, 2003, Charles D. Winston served as the Company's Chief Executive Officer. In setting the Chief Executive Officer's salary and target bonus for the year ended December 31, 2003, the compensation committee reviewed salaries and bonuses paid to other chief executive officers of technology companies of similar size and considered his ability to impact the achievement of the Company's objectives. In view of the downturn in global economic conditions affecting the Company, Mr. Winston's base salary remained unchanged for the fourth consecutive year. For the year ended December 31, 2003, Mr. Winston's target bonus was 70% of his base salary. Bonus payments were predicated on achievement of targets relating to earnings per share, the ratio of working capital to sales and

on-time delivery. Mr. Winston achieved approximately 50% of his bonus opportunity and received \$161,960. The compensation committee awarded Mr. Winston an additional discretionary bonus of \$50,000, approximately 12% of his base salary, in respect of his achievements related to three corporate acquisitions in fiscal 2003. Mr. Winston did not receive any stock option awards or other form of long term compensation during the fiscal year ended December 31, 2003.

STOCK OPTION PLANS

A merger of equals involving General Scanning, Inc. and Lumonics Inc. was completed on March 22, 1999. In conjunction with the merger, the Company assumed outstanding options held by employees under nonqualified and incentive stock options and issued 2,051,903 stock options in exchange. As of December 31, 2003, options to purchase 597,180 common shares remained outstanding under the assumed 1981 stock option plan and the 1992 stock option plan of General Scanning, Inc. In addition, the Company assumed outstanding warrants, which were issued pursuant to the 1995 directors' warrant plan of General Scanning, Inc., for the purchase of common stock issued to non-employee members of the General Scanning, Inc. board of directors, referred to in this management proxy circular as the warrants. The warrants are subject to vesting as determined by a committee of the board of directors at the date of grant and expire ten (10) years from the date of grant. As of December 31, 2003, 51,186 warrants, all of which are exercisable, remain outstanding at prices ranging from \$9.65 to \$15.41 per share. The warrants have been included in all stock option tables included in this management proxy circular. Excluding the assumed options and warrants referenced herein, no additional options or warrants are authorized to be granted under the assumed General Scanning, Inc. stock option plans.

The Company's 1995 option plan, referred to throughout this management proxy circular as the 1995 option plan, which was established on September 29, 1995 by Lumonics Inc. for the benefit of employees (including contract employees), consultants and directors of the Company, remained in place following the merger with General Scanning, Inc. in 1999. The 1995 option plan was amended and restated in 2001 to, among other items, extend the benefits of the 1995 option plan to consultants and to amend certain termination provisions. As of the date of this management proxy circular, it is the only stock option plan under which new options may be granted. Subject to the requirements of the restated 1995 option plan, the compensation committee or the board of directors has the authority to select those directors, consultants and employees to whom options will be granted, date of the grant, the number of options to be granted and other terms and conditions of the options. The exercise price of options granted under the restated 1995 option plan must be equal to the closing price of the Company's common shares on the Toronto Stock Exchange, or in lieu thereof, The Nasdaq Stock Market, on the day immediately preceding the date of grant. The exercise period of each option is determined by the compensation committee but may not exceed ten (10) years from the date of grant. The 1995 option plan initially authorized the issuance of a maximum of 406,000 options to purchase common shares. This authorization was increased to: 1,906,000 on May 6, 1997, 2,906,000 on May 11, 1999 and 4,906,000 on May 8, 2000; with all such increases being approved by the shareholders. Currently, a maximum of 4,906,000 options to purchase common shares are permitted to be issued under the restated 1995 option plan. The compensation committee has the power to amend, modify or terminate the restated 1995 option plan provided that optionee's rights are not materially adversely affected and subject to any approvals required under the applicable regulatory requirements. As of the close of business on December 31, 2003, options to purchase an aggregate of approximately 2,812,438 common shares were outstanding under the

Table of Contents

restated 1995 option plan to employees and directors at prices ranging from Cdn\$6.38 per share to Cdn\$29.00 per share, and from \$4.31 per share to \$20.31 per share.

No past financial assistance has been given to participants to assist them in purchasing common shares under the restated 1995 option plan, nor is such financial assistance contemplated. The restated 1995 option plan contains no provision for the Company to provide any such assistance.

No additional warrants are authorized to be granted under the warrant plan.

**EMPLOYMENT CONTRACTS AND TERMINATION OF
EMPLOYMENT/ CHANGE-IN-CONTROL ARRANGEMENTS**

The Company entered into an employment agreement with Charles D. Winston on January 1, 2004, (the "Employment Agreement") that superseded an employment agreement and a severance agreement that had previously been in effect. Pursuant to the Employment Agreement, the Company agreed to employ Mr. Winston as its President and Chief Executive Officer until December 31, 2006 and to pay him certain benefits (described below) upon the termination of his employment without cause, prior to such date. In addition, the Employment Agreement provides for Mr. Winston to perform consulting services for the Company for a two (2) year period commencing on January 1, 2007, at 50% of his base salary for fiscal 2006. The severance provisions of the Employment Agreement provide that if the Company terminates Mr. Winston's employment without cause and for reasons other than disability prior to December 31, 2006, the Company shall pay Mr. Winston his base salary plus a bonus consisting of 70% of his base salary for the year in which he is terminated, for a period of two years from the date of termination. In addition, the Company shall continue to provide Mr. Winston with certain employee benefits for two years following his date of termination and all unvested options then held by Mr. Winston shall immediately vest upon the date of termination.

In addition, the Company has entered into severance agreements with Messrs. Swain, Pelsue and Stukalin and Ms. Palmer (the "Severance Agreements"). The Severance Agreements supercede previously executed severance agreements and all of the Severance Agreements provide for a severance payment if employment with the Company is terminated without cause or upon defined change of control events. The effective date for each of the Severance Agreements with Messrs. Swain and Pelsue, and Ms. Palmer is May 24, 2001. These Severance Agreements continue for a minimum term of three (3) years from their respective effective dates and will expire in May 2004. Upon their expiration, the Company expects to replace the Severance Agreements with new severance agreements, the terms of which are to be negotiated. Under each of these Severance Agreements, the payment in the event of termination without cause is equal to a minimum of one (1) year and a maximum of two (2) years, of the sum of (a) annual base salary; (b) targeted annual bonus, (c) a prorated portion of the employees' annual bonus; and (d) the cost of certain employment benefits. If the termination of employment occurs upon or following a defined change of control of the Company, the payment is equal to three (3) times the sum of (a)-(d). Also pursuant to the Severance Agreements all unvested options then held by Messrs. Swain and Pelsue and Ms. Palmer shall immediately

Table of Contents

vest, provided that such options shall expire upon the earlier of (i) three (3) years or the remainder of the option term in the event of a change of control, or (ii) six (6) months or the remainder of the option term in the event of a termination for cause. The Severance Agreements with Messrs Swain and Pelsue and Ms. Palmer provide that a payment would be increased in the event that it would subject the officer to an excise tax as a parachute payment under the Internal Revenue Code. The increase would be equal to the additional tax liability imposed on the executive as a result of the payment. The Severance Agreement with Mr. Stukalin has an effective date of March 3, 2004 and continues for a term of one year. Under this Severance Agreement, the payment in the event of termination for reasons other than cause, death or disability is equal to (a) one (1) year of base salary; (b) a prorated portion of the employee's annual bonus; and (c) the cost of certain employment benefits.

The options have an exercise price of fair market value of the Company's common shares on the day immediately prior to the date of grant, a term of six (6) years, vest as to 25% on each of the first, second, third and fourth anniversary of the date of grant and are otherwise subject to the terms of the 1995 option plan. Directors who are employees of the Company receive no remuneration for serving as members of the board of directors. All directors were entitled to reimbursement by the Company for all reasonable expenses incurred in attending meetings of shareholders, the board of directors and committees of the board of directors. For purposes of the Plan, the transfer of a Participant to a different position or office within the Company or any subsidiary shall not be considered a termination.

(i) If the cause of termination is dismissal for cause of the Participant, all Awards shall cease vesting on the Termination Date and all Options or Stock Appreciation Rights held by the Participant on the Termination Date shall terminate 30 days following the Termination Date, prior to which date (A) the Participant may exercise all or any part of the Participant's Award of Options or Stock Appreciation Rights that have vested and are exercisable in accordance with the provisions of Section 5(c) hereof, and (B) the Company may repurchase from the Participant all unvested Restricted Shares held by the Participant in accordance with the terms thereof.

(ii) If the cause of termination is other than the death or dismissal for cause of the Participant, all Awards shall cease vesting on the Termination Date and all Options or Stock Appreciation Rights held by the Participant on the Termination Date shall terminate 60 days following the Termination Date, prior to which date (A) the Participant may exercise all or any part of the Participant's Award of Options or Stock Appreciation Rights that have vested and are exercisable in accordance with the provisions of Section 5(c) hereof, and (B) the Company may repurchase from the Participant all unvested Restricted Shares held by the Participant in accordance with the terms thereof. The Chief Executive Officer of the Company may extend such period for up to an additional 30 days.

(g) *Reorganization and Recapitalization.* In the event of any subdivision, redivision or change of the Common Shares of the Company at any time into a greater number of shares, the Company shall deliver at the time of any exercise thereafter of Options or Stock Appreciation Rights hereby granted such additional number of shares as would have resulted from such subdivision, redivision or change if such exercise of the Award hereby granted had been prior to the date of such subdivision, redivision or change. In the event of any consolidation or change of the Common Shares of the Company at any time into a lesser number of shares, the number of shares deliverable by the Company on any exercise thereafter of Options or Stock Appreciation Rights hereby granted shall be reduced to such number of shares as would have resulted from such consolidation or change if such exercise of the Award hereby granted had been prior to the date of such consolidation or change.

6. Options

Options granted under the Plan shall be, as determined by the Committee, non-qualified or Incentive Stock Options for U.S. federal income tax purposes, as evidenced by the related Award agreements, and shall be subject to such other terms and conditions consistent with Section 5 hereof as the Committee shall determine.

Incentive Stock Options. An Option that the Board intends to be an Incentive Stock Option shall be granted only to employees of the Company and shall be subject to and shall be construed consistently with the requirements of Section 422 of the Code. The Board and the Company shall have no liability if an Option or any part thereof that is intended to be an Incentive Stock Option does not qualify as such.

To the extent required for Incentive Stock Option treatment under Section 422 of the Code, the aggregate Market Value (determined as of the time of grant) of the Common Shares with respect to which Incentive Stock Options granted under this Plan and any other plan of the Company or its parent and subsidiary corporations become exercisable for the first time by a Participant during any calendar year shall not exceed \$100,000. To the extent that any Option exceeds this limit, it shall constitute a non-qualified Option.

If an employee owns or is deemed to own (by reason of the attribution rules of Section 424(d) of the Code) more than 10% of the combined voting power of all classes of shares of the Company or any parent or subsidiary corporation and an Incentive Stock Option is granted to such employee, the Exercise Price of such Incentive Stock Option shall be not less than 110% of the Market Value on the grant date, and the term of such Incentive Stock Option shall be no more than five years from the date of such grant.

7. Restricted Shares

(a) *Grant.* Subject to the provisions of the Plan, the Committee shall determine the number of shares of Restricted Stock to be granted to each Participant, the duration of the period during which, and the conditions, if any, under which, the Restricted Stock may be forfeited to the Company, and the other terms and conditions of such Awards.

(b) *Transfer Restrictions.* Shares of Restricted Stock may not be sold, assigned, transferred, pledged or otherwise encumbered, except as provided in the Plan or the applicable Award agreement. Shares of Restricted Stock shall be registered in the name of the Participant and held by the Company. After the lapse of the restrictions applicable to such shares of Restricted Stock, the Company shall deliver such shares to the Participant or the Participant's legal representative.

8. Stock Appreciation Rights

Right granted pursuant to clause (ii) of the preceding sentence (A) may be granted at the time the related Option is granted or at any time prior to the exercise or cancellation of the related Option, (B) shall cover the same number of Common Shares covered by an Option (or such lesser number of Common Shares as the Committee may determine) and (C) shall be subject to the same terms and conditions as such Option except for such additional limitations as are contemplated by this Section 8 (or such additional limitations as may be included in an Award agreement) and those imposed by the Code.

(b) *Terms.* The Exercise Price of a Stock Appreciation Right shall be an amount determined by the Committee but in no event shall such amount be less than the Market Price per Common Share on the date the Stock Appreciation Right is granted; provided, however, that, notwithstanding the foregoing, in the case of a Stock Appreciation Right granted in conjunction with an Option, or a portion thereof, the exercise price may not be less than the Exercise Price of the related Option. Each Stock Appreciation Right granted independent of an Option shall entitle a Participant upon exercise to an amount equal to (i) the excess of (A) the Market Price per Common Share on the exercise date divided by (B) the Exercise Price per Common Share, times (ii) the number of Common Shares covered by the Stock Appreciation Right. Each Stock Appreciation Right granted in conjunction with an Option, or a portion thereof, shall entitle a Participant to surrender to the Company the unexercised Option, or any portion thereof, and to receive from the Company in exchange therefor an amount equal to (I) the excess of (x) the Market Price per Common Share on the exercise date of one Common Share divided by (y) the Exercise Price, times (II) the number of Common Shares covered by the Option, or portion thereof, which is surrendered. Payment shall be made in Common Shares or in cash, or partly in Common Shares and partly in cash (any such Common Shares valued at such Market Price per Common Share), all as set forth in the Award agreement. Stock Appreciation Rights may be exercised from time to time upon actual receipt by the Company of written or electronic notice of exercise stating the number of Common Shares with respect to which the Stock Appreciation Right is being exercised. The date a notice of exercise is received by the Company shall be the exercise date.

9. Amendment and Discontinuance

The Committee shall have the right to amend or modify this Plan or to terminate this Plan at any time without notice provided that a Participant's rights are not thereby materially adversely affected and subject to any approvals required under the applicable rules of any stock exchange upon which the Common Shares of the Company are or may be listed.

10. Repricing Awards.

The Exercise Price or Purchase Price of Awards previously granted under this Plan may not be reduced, nor may any Awards be canceled and reissued at a lower Exercise Price or Purchase Price, unless such action is approved by the shareholders of the Company or unless such reduction is made pursuant to a recapitalization or reorganization in accordance with Section 5(g) of this Plan.

11. Employment Non-Contractual

Nothing in this option shall be construed as conferring upon the Participant any right to continue in the service of the Company or any subsidiary of the Company.

12. Rights as a Shareholder

Except with respect to Restricted Shares, a Participant shall not have any rights as a shareholder with respect to any Common Shares issuable upon exercise of an Award until the Award has been validly exercised and the purchase price for such Common Share has been paid in full.

13. Nontransferability

The Participant's rights under an Award are not assignable or transferable by a Participant during the Participant's lifetime and are exercisable during the Participant's lifetime only by the Participant.

14. Corporate Action

Nothing contained herein shall be construed so as to prevent the Company or any subsidiary of the Company from taking corporate action which is deemed by the Company or the subsidiary to be appropriate or in its best interest, whether or not such action would have an adverse effect on the Award.

15. Government Regulation

The Company's obligation to issue and deliver Common Shares under an Award is subject to:

(a) the satisfaction of all requirements under applicable securities law in respect thereof and obtaining all regulatory approvals as the Company shall determine to be necessary or advisable in connection with the authorization, issuance or sale thereof, including shareholder approval, if required;

(b) the admission of such Common Shares to listing on any stock exchange on which Common Shares may then be listed; and

(c) the receipt from the Participant of such representations, agreements and undertakings as to future dealings in such Common Shares as the Company determines to be necessary or advisable in order to safeguard against the violation of the securities law of any jurisdiction. In this connection, the Company shall take all reasonable steps to obtain such approvals and registrations as may be necessary for the issuance of such Common Shares in compliance with applicable securities law and for the listing of such Common Shares on any stock exchange on which such Common Shares are then listed.

The committee shall be members of, and appointed by, the board of directors and shall comprise at least three directors, each of whom meet the independence requirements of (i) The Nasdaq Stock Market Marketplace Rules (Nasdaq Rules) and any exchange upon which the shares of GSI Lumonics, Inc. (the Company) are listed, and (ii) the Securities Exchange Commission. Members of the committee are considered independent as long as they do not accept any consulting, advisory, or other compensatory fee from the Company and are not an affiliated person of the Company or its subsidiaries. All committee members shall be financially literate, and at least one member shall be an audit committee financial expert, as defined by SEC regulations.

Purpose

The audit committee shall provide assistance to the board of directors in fulfilling their oversight responsibility to the shareholders, potential shareholders, the investment community, and others relating to: the integrity of the Company's financial statements; the financial reporting process; the systems of internal accounting and financial controls; the performance of the Company's internal audit function and independent auditors; the independent auditor's qualifications and independence; and the Company's compliance with ethics policies and legal and regulatory requirements. In so doing, it is the responsibility of the committee to maintain free and open communication between the committee, independent auditors, the internal auditors, and management of the Company.

In discharging its oversight role, the committee is empowered to investigate any matter brought to its attention with full access to all books, records, facilities, and personnel of the Company and the authority and funding to engage independent counsel, outside auditors and other advisers as it determines necessary to carry out its duties.

Duties and Responsibilities

The primary responsibility of the audit committee is to oversee the Company's financial reporting process on behalf of the board and report the results of the committee's activities to the board. While the audit committee has the responsibilities and powers set forth in this Charter, it is not the duty of the audit committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and are in accordance with generally accepted accounting principles. Management is responsible for the preparation, presentation, and integrity of the Company's financial statements and for the appropriateness of the accounting principles and reporting policies that are used by the Company. The independent auditors are responsible for auditing the Company's financial statements and for reviewing the Company's unaudited interim financial statements.

The committee shall review at least once a year each requirement listed in this Charter to determine that it has been performed or explain why a requirement was not performed.

The committee should take appropriate actions to set the overall corporate tone for quality financial reporting, sound business risk practices, and ethical behavior. The following shall be the principal duties and responsibilities of the audit committee. These are set forth as a guide with the understanding that the committee may supplement them as appropriate.

The committee shall be directly responsible for the appointment and termination (subject, if applicable, to shareholder ratification), compensation, and oversight of the work of the independent auditors, including resolution of disagreements between management and the auditor regarding financial reporting. tee shall pre-approve all audit and non-audit services provided by the independent auditors and shall not engage the independent auditors to perform the specific non-audit services proscribed by law or regulation. The committee may delegate pre-approval authority to a member of the audit committee. The decisions of any audit committee member to whom pre-approval authority is delegated must be presented to the full audit committee at its next scheduled meeting.

At least annually, the committee shall obtain and review a report by the independent auditors describing:

The firm's internal quality control procedures.

Any material issues raised by the most recent internal quality control review, or peer review, of the firm, or by an inquiry or investigation by governmental or professional authorities, within the preceding five years, respecting one or more independent audits carried out by the firm, and any steps taken to deal with any such issues.

All relationships between the independent auditor and the Company (to assess the auditor's independence).

In addition, the committee shall set clear hiring policies for employees or former employees of the independent auditors that meet the SEC regulations and Nasdaq Rules.

The committee shall discuss with the internal auditors and the independent auditors the overall scope and plans for their respective audits, including the adequacy of staffing and compensation. Also, the committee shall discuss with management, the internal auditors, and the independent auditors the adequacy and effectiveness of the accounting and financial controls, including the Company's policies and procedures to assess, monitor, and manage business risk, and legal and ethical compliance programs (e.g., the Company's Code of Conduct).

The committee shall meet separately and periodically with management, the internal auditors, and the independent auditors to discuss issues and concerns warranting committee attention. The committee shall provide sufficient opportunity for the internal auditors and the independent auditors to meet privately with the members of the committee. The committee shall review with the independent auditor any audit problems or difficulties and management's response.

The committee shall receive regular reports from the independent auditor on the critical policies and practices of the Company, and all alternative treatments of financial information within generally accepted accounting principles that have been discussed with management.

The committee shall review management's assertion on its assessment of the effectiveness of internal controls as of the end of the most recent fiscal year and the independent auditors' report on management's assertion.

The committee shall review and discuss earnings press releases, as well as financial information and earnings guidance provided to analysts and rating agencies.

The committee shall review and discuss with management and the independent auditors the interim financial statements and disclosures under Management's Discussion and Analysis of Financial Condition and Results of Operations to be included in the Company's Quarterly Report on Form 10-Q. Also, the committee shall discuss the results of the quarterly review and any other matters required to be communicated to the committee by the independent auditors under generally accepted auditing standards. The chair of the committee may represent the entire committee for the purposes of this review.

The committee shall review and discuss with management and the independent auditors the financial statements and disclosures under Management's Discussion and Analysis of Financial Condition and Results of Operations to be included in the Company's Annual Report on Form 10-K (or the annual report to shareholders if distributed prior to the filing of Form 10-K), including their judgment about the quality, not just the acceptability, of accounting principles, the reasonableness of significant judgments, and the clarity of the disclosures in the financial statements. Also, the committee shall discuss the results of the annual audit and any other matters required to be communicated to the committee by the independent auditors under generally accepted auditing standards.
