NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

For the three-month periods beginning on
July 1, 2002 and 2001

NOTE 1: ARGENTINE ECONOMIC SITUATION

Argentina is immersed in a difficult economic climate. The prevailing indicators were a significant public debt burden, a financing system in crisis, country risk levels far above normal average and a more than four-year economic recession. This situation has led to a significant decrease in products and services consumption and an increase in the unemployment level. These circumstances have affected the Government's ability to comply with existing commitments and access to bank financing.

As from December 3, 2001 measures were issued to restrict the free availability and circulation of cash and the transfer of foreign currency abroad. Subsequently, the Government declared default on the external debt.

On January 6, 2002 after a political crisis that resulted in the resignation of two presidents, the Government enacted Law 25561 (Law of public emergency and exchange system reform) that involved an in-depth change of the prevailing economic model, and announced new economic measures though Decree 214 (Restructuring of the financial system) dated February 3, 2002 and Decree 260 (Exchange Regime), substantially modifying some of the measures implemented by the Law 25561 These decrees are being complemented by other regulations being issued by the various control agencies, some of which are been pending at the date of the issuance of these financial statements. In addition, on April 24, 2002 the Government signed an agreement with provincial governors, which, together with other changes to the National Administration, will lay down the basis for further measures that have yet to be issued or fully implemented.

Listed below are some of the measures adopted by the Government that

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

are in force at the date of filing these financial statements and the effect they have on the Company's economic and financial situation:

IRSA INVERSIONES Y REPRESENTACIONES SOCIEDAD ANONIMA AND SUBSIDIARIES

NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTD.)

NOTE 1: (Continued)

1. On February 8, 2002 a single free exchange market system was established observing the requirements to be laid down by the Argentine Central Bank.
2. At present certain transfers abroad of a financial nature require the prior approval of the Central Bank and there are certain requirements for settling and collecting foreign currency arising from exports.
3. As from February 3, 2002 deposits in U.S. dollars or other foreign currencies in Argentine financial institutions were converted to pesos at the exchange rate of Ps. 1.4 per US\$ 1 or its equivalent in such other currency. Furthermore, there are restrictions on the availability of certain balances in current accounts and savings accounts in dollars and fixed term deposits in pesos or dollars. In addition, the possibility exists of transforming part or all of the rescheduled deposits into Government Bonds or other financial institutions. If the depositors do not elect to receive Government Bonds, they will receive bonds issued by the Bank that will observe the pre-existing conditions.
4. Debts in the Argentine financial and the obligation to pay money that are not related to the financial system, whatever their origin or nature, were converted to pesos at the exchange rate of \$ 1 to US\$ 1 or its equivalent in such other foreign currency.
5. As from February 3, 2002 a reference stabilization index (CER) was to be applied to the rescheduled deposits and credits and debts were converted to pesos at the rate of exchange of Ps. 1 per US\$ 1 or its equivalents in such other currency. The CER is an index that measures the daily rate of change derived from the monthly change in the Consumer Price Index (CPI) published by the INDEC.
6. The negative net results that originate in this devaluation will be deductible from income tax as from the future five financial years.

Impact of the economic situation on the Company

The impact generated by all these measures adopted to date by the Government on the financial situation of the Company at September 30, 2002 was calculated according to the evaluations and estimates made by Management at the date of preparing the financial statements. Future actual results could differ from the evaluations and estimates made at the date of preparing these financial statements and these differences could be significant. Therefore, the Company's financial statements may not report all the adjustments that could result from

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

these adverse conditions. Furthermore, at this time it is not possible to foresee the future development of the country's economy or its consequences on the economic and financial situation of the Company. Thus, any decision that must be made on the basis of

6

IRSA INVERSIONES Y REPRESENTACIONES SOCIEDAD ANONIMA AND SUBSIDIARIES

NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTD.)

NOTE 1: (Continued)

these financial statements must take into account the effects of these measures and their future development and the Company's financial statements must be considered in the light of these uncertain circumstances.

As mentioned in Note 6 to the individual financial statements at September 30, 2002, the Company was unable to meet certain financial ratios required by el loan agreement and the negotiable obligations, so that the banks and the holders of the notes could require accelation of maturities. In this connection, the Company is making progress in the negotiations with creditor banks and holders of obligations to refinance its debt. The Management of the Company expects to refinance and partially settle those debts with the net proceeds of the issuance of the negotiable obligations convertible for shares mentioned in Note 13 to the basic unaudited financial statements.

As mentioned in Note 14 to the consolidated financial statements, the subsidiary Hoteles Argentinos S.A. has not paid principal installments amounting to US\$ 300 thousand, with original maturities set for January 26, April 29, July 29 and October 26, 2002, and an interest installment amounting to US\$ 315 thousand which fell due on July 29 and October 26, 2002, under the long-term loan agreement secured by a mortgage entered into with Bank Boston N.A., Buenos Aires branch. At the date of issue of these financial statements, the Management of the Company was renegotiating that liability.

The financial statements have been prepared assuming that the Company will continue as a going concern. Therefoe, these financial statements do not include the effects of a possible adjustment or reclassification, if any, that might be required if the Company could be obliged to sell its assets and settle its liabilities, including contingencies in conditions different to the normal course of its business.

NOTE 2: BASIS OF CONSOLIDATION - CORPORATE CONTROL

a) Basis of consolidation

The consolidated financial statements have been prepared following

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

the guidelines of Technical Resolution No. 4 of the Argentine Federation of Professional Councils of Economic Sciences (F.A.C.P.C.E.), pursuant to which the Balance Sheets as of September 30, 2002 and 2001 of IRSA Inversiones y Representaciones Sociedad Anonima, the Statements of Income

and the Statements of Cash Flows for the three month then ended were consolidated with the financial statements of those companies in which has the necessary votes to exercise control over the corporate decisions.

All significant intercompany balances and transactions have been eliminated in consolidation.

The following table shows the data concerning the corporate control:

COMPANIES	September 30, 2002	September 30, 2001
	DIRECT OR INDIRECT % OF VOTING SHARES	
IRSA International Ltd (1)	-	100,00
Ritelco S.A.(1)	100,00	-
Palermo Invest S.A.	66,67	66,67
Abril S. A.	83,33	83,33
Pereiraola S. A.	83,33	83,33
Baldovinos S. A.	83,33	83,33
Hoteles Argentinos S. A.	80,00	80,00
Buenos Aires Trade & Finance Center S.A (3)	100,00	50,00
Alto Palermo S.A ("APSA") (2)	49,93	49,51

(1) In accordance with mentioned in Note 16 to the Unaudited Consolidated Financial Statements, as of September 30, 2002 the Company decided the liquidation anticipated of IRSA International Ltd.

(2) As from the three-month period ended September 30, 2002 and as a result of the acquisition by the Company of the convertible negotiable obligations mentioned in Note 21 to the consolidated financial statements, the Company consolidates its financial statements with those of its subsidiary Alto Palermo S.A.

- (3) On August 16, 2002, the Company and RAGHSA S.A. agreed: i) the redistribution of the block 5M, of the Old Puerto Madero of the City of Buenos Aires, ii) the division and distribution of the charge and commitment to build on those plots of land, previously undertaken before Corporacion Antiquo Puerto Madero S.A. (CAPM), iii) the renegotiation of the other commitments and obligations also assumed before CAPM and iv) the exchange of the shares issued by ARSA, BARSAs and BAT&FCSA, respectively, which own the plots of land included in block 5M. As a result of the share exchange, the Company now owns 100% of the shares in BAT&FCSA, and transferred its 50% interest in ARSA and BARSAs respectively, to RAGHSA S.A.

As a result of the consolidation of the related company Alto Palermo S.A., mentioned above, since the beginning of this fiscal year the Company has discontinued the application of the proportional consolidation method in the preparation of the income statements. Accordingly, the financial statement figures originally issued as of September 30, 2001 have been reclassified to conform them to the presentation as of September 30, 2002.

IRSA INVERSIONES Y REPRESENTACIONES SOCIEDAD ANONIMA
AND SUBSIDIARIES

NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTD.)

NOTE 2: (Continued)

b) Consideration of the effects of inflation

The financial statements have been prepared in constant currency, reflecting the overall effects of inflation through August 31, 1995. As from that date, in accordance with professional accounting standards and the requirements of the control authorities, restatement of the financial statements was discontinued until December 31, 2001. As from January 1, 2002, in accordance with Resolution No. 3/2002 of the Professional Council in Economic Sciences of the Autonomous City of Buenos Aires and Resolution No. 415 of the National Securities Commission, the effects of inflation are being recognized in the financial statements. To this end, the restatement method established by Technical Pronouncement No. 6 of the F.A.C.P.C.E. has been followed.

As a consequence of the above, the Company's financial statements are presented in constant currency of September 30, 2002, having considered that the accounting measurements restated by the change in the purchasing power of the currency until August 31, 1995 and those arising between that date and December 31, 2001 are stated in currency of the latter date.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

The above restatement was made applying the coefficients prepared based on the domestic wholesale price index.

The Company used a conversion factor to restate the comparative financial statements in constant Argentine pesos of September 30, 2002 for comparative purposes.

c. Reclassifications

Certain reclassifications of prior period information have been made to conform with the current period presentation.

d. Acquisition of related companies

During the quarter ended September 30, 2002, the Company acquired 30.955% of the capital stock and registered, non-endorsable, convertible negotiable obligations issued by Valle de Las Lenas S.A., falling due on October 31, 2005, with a face value of US\$ 3.7 million, for approximately US\$ 2.4 million.

Those shares and negotiable obligations have temporarily been valued at their acquisition cost, restated in currency values as of September 2002.

e. Sales in jointly controlled affiliated companies incorporated abroad

i) Latin American Econetworks N.V (LAE) : On November 7, 2001, the Company sold its interest in LAE for a total consideration of US\$5,250. The price was fully collected on that date. In July 2000, this company was conceived as a developer of software, technology and internet services.

ii) Brazil Realty S.A. Empreendimentos e Participacoes ("Brazil Realty"): As established by the agreement signed on February 28, 2002 and the First Amendment dated May 3, 2002, between Ritelco S.A, IRSA International Limited, IRSA and Creed Holding Ltd, through its subsidiary Ritelco S.A., the Company sold 100% of its participation in Brazil Realty for US\$ 44,187 thousand, which had been collected in full at the date of issue of these financial statements.

NOTE 3: SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the subsidiaries mentioned in Note 2 have

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

been prepared on a consistent basis with those applied by IRSA Inversiones y Representaciones Sociedad Anonima.

a. Jointly controlled affiliated companies incorporated abroad

The financial statements of the related companies under joint control set up abroad, used for application of the equity method of accounting to value the investment in those companies, were converted into Argentine pesos at the year-end rate of exchange based on the financial statements of those companies stated in the currency of the country of origin. The conversion method envisages the conversion of monetary assets and liabilities at the exchange rate in force at the end of each period and the non-monetary assets and liabilities and equity accounts based on amounts adjusted for inflation, if applicable, at the exchange rate in force at the end of each period. Average exchange rates were used for the conversion of financial statements that reflect the results for the periods. The net gain/loss for monetary conversion is included in the Financial results, net.

Since March 31, 1999, as a consequence of changes in the variables to measure fluctuations in domestic prices, and the performance of the Brazilian currency compared to the Argentine peso, IRSA International Limited has decided to value its investments in fixed assets and other intangible assets that cannot be disposed of by its subsidiary, Brazil Realty S.A. Empreendimentos e Participacoes, at their original cost in pesos, less applicable accumulated depreciation, following the calculation method laid down by

10

IRSA INVERSIONES Y REPRESENTACIONES SOCIEDAD ANONIMA
AND SUBSIDIARIES

NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTD.)

NOTE 3: (Continued)

Technical Resolution No. 13, which was approved by the March 1999 Resolution of the Administrative Board of the Argentine Federation of Professional Councils in Economic Sciences.

b. Shares and options of Banco Hipotecario S.A.

The shares in Banco Hipotecario S.A. held by Ritelco S.A. (a wholly-owned subsidiary) have been valued at their quotation at the end of the year, less estimated selling expenses, while options were valued at restated cost as mentioned in Note 1.b) to the individual unaudited financial statements or estimated net realizable value, whichever is lower.

c. Revenue Recognition

The Company's revenues mainly stem from office rental, shopping center operations, development and sale of real estate, hotel

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

operations and, to a lesser extent, from e-commerce activities.

See Note 4 for details on the Company's business segments. As discussed in Note 2.a., the consolidated statements of income were prepared following the guidelines of Technical Resolution No. 4 of the F.A.C.P.C.E.

o Leases and services from shopping center operations

Leases with tenants are accounted for as operating leases. Tenants are generally charged a rent, which consists of the higher of (i) a monthly base rent (the "Base Rent") and (ii) a specified percentage of the tenant's monthly gross retail sales (the "Percentage Rent") (which generally ranges between 4% and 8% of tenant's gross sales).

Furthermore, pursuant to the rent escalation clause in most leases, a tenant's Base Rent generally increases between 4% and 7% each year during the term of the lease. Minimum rental income is recognized on a straight-line basis over the term of the lease. Certain lease agreements contain provisions, which provide for rents based on a percentage of sales or based on a percentage of sales volume above a specified threshold. The Company determines the compliance with specific targets and calculates the additional rent on a monthly basis as provided for in the contracts. Thus, these contingent rents are not recognized until the required thresholds are exceeded.

Generally, the Company's lease agreements vary from 36 to 120 months. Law No. 24,808 provides that tenants may rescind commercial lease agreements after the initial

11

IRSA INVERSIONES Y REPRESENTACIONES SOCIEDAD ANONIMA AND SUBSIDIARIES

NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTD.)

NOTE 3: (Continued)

six months, upon not less than 60 days' written notice, subject to penalties which vary from one to one and a half months rent if the tenant rescinds during the first year of its lease, and one month of rent if the tenant rescinds after the first year of its lease. The Company also charges its tenants a monthly administration fee, prorated among the tenants according to their leases, which varies from shopping center to shopping center, relating to the administration and maintenance of the common area and the administration of contributions made by tenants to finance promotional efforts for the overall shopping centers operations. Administration fees are recognized monthly when earned. In addition to rent, tenants are generally charged "admission rights", a non-refundable admission fee that tenants may be required to pay upon entering into a lease and upon lease renewal. Admission right is normally paid in one lump sum or in a small number of monthly installments. Admission rights are

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

recognized using the straight-line method over the life of the respective lease agreements. Furthermore, the lease agreements generally provide for the reimbursement of real estate taxes, insurance, advertising and certain common area maintenance costs. These additional rents and tenant reimbursements are accounted for on the accrual basis.

- o Credit card operations

Revenues derived from credit card transactions consist of commissions and financing income. Commissions are recognized at the time the merchants' transactions are processed, while financing income is recognized when earned.

- o Hotel operations

The Company recognizes revenues from its rooms, catering, and restaurant facilities as earned on the close of business each day.

- o International operations

As of September 30, 2001, the Company held a 49.95% ownership interest in Brazil Realty, a company operating in Brazil, which business primarily comprised the same type of operations related to real estate conducted by the Company in Argentina. See Note 2.e.ii., the Company sold its ownership interest in Brazil of february 28, 2002.

- d. Intangible assets, net

Intangible assets are carried at cost adjusted for inflation, less accumulated depreciation.

12

IRSA INVERSIONES Y REPRESENTACIONES SOCIEDAD ANONIMA AND SUBSIDIARIES

NOTE 3: (Continued)

- o Trademarks

Trademarks include the expenses and fees related to their registration.

- o Advertising expenses

Advertising expenses relate to the Torres de Abasto project, the opening of Abasto Shopping and promotion costs related to Paseo Alcorta. The expenses incurred in relation to Torres de Abasto project are recognized in the statement of operations as determined under the percentage-of-completion method. Other advertising expenses are amortized under the straight-line method

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

over a term of 3 years.

- o Investment projects

Investment projects represent expenses primarily related to marketing efforts incurred by the Alto Palermo S.A for the selling of merchandise through certain means of communication. These costs are capitalized and amortized to income under the straight-line method as from the start up date of the project. These expenses are written off upon abandonment or disposal of project.

- o Goodwill

Representing the excess of cost over the fair value of net identifiable assets acquired, is stated at cost adjusted for inflation at the end of the period, and is amortized on a straight-line basis over its estimated economic life, not exceeding 10 years. The goodwill included in this caption was generated by the purchase of shares in Tarshop S.A., Inversha S.A., Pentigras S.A. and Fibesa S.A. by Alto Palermo S.A..

- o Tenants list-Patio Bullrich

This item represents the acquired tenant list of the Patio Bullrich shopping mall and is amortized using the straight-line method over a five-year period.

- e. Issuance of new technical pronouncements

In accordance with mentioned in Note 1.c) to the individual unaudited financial statements, the main amendments to the new Technical Pronouncements, which would mean significant adjustments being made to the Company's financial statements, are related to the recognition of income tax according to the deferred tax method and of the interest rate swap contract at the subsidiary Alto Palermo S.A. However, we cannot provide assurance that the National Securities Commission will adopt the above-mentioned Technical Pronouncements without adding any amendment or limitation to their application and, therefore, the effects on the financial statements of the Company could differ from those previously indicated.

NOTE 14: RESTRICTED ASSETS

Puerto Retiro S.A.: extension of the bankruptcy

On April 18, 2000, Puerto Retiro S.A. was notified of a filing made by the National Government, through the Ministry of Defense, to extend the petition in bankruptcy of Inversora Darsena Norte S.A. (Indarsa) to Puerto Retiro S.A. Concurrently with the complaint, at the request of plaintiff, the bankruptcy court granted an order restraining the ability of Puerto Retiro to sell or dispose in any manner the real estate property purchased from Tandanor S.A. ("Tandanor").

Indarsa had purchased 90% of the capital stock of Tandanor, a formerly state owned company privatized in 1991, engaged in the shipyard industry.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

In June 1993, Tandanor sold the plot of land near Puerto Madero denominated "Planta 1" to Puerto Retiro S.A.

IRSA INVERSIONES Y REPRESENTACIONES SOCIEDAD ANONIMA AND SUBSIDIARIES

NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTD.)

NOTE 14: (Continued)

Indarsa did not comply with the payment of the outstanding price for the purchase of the stock of Tandanor, and therefore the Ministry of Defense requested the bankruptcy of Indarsa. Since the only asset of Indarsa were the shareholdings in Tandanor, the Ministry of Defense is pursuing to extend the bankruptcy to other companies or individuals which, according to its view, acted as an economic group, and therefore, requested the extension of the bankruptcy to Puerto Retiro which acquired Planta 1 from Tandanor. The lawsuit is at its first stages. Puerto Retiro S.A. answered the claim and appealed the preventive measures ordered. This appeal was overruled on December 14, 2000.

Puerto Retiro S.A. believes, pursuant to the advice of its legal advisors, that the plaintiff's claim shall be rejected by the courts.

Hoteles Argentinos S.A.: mortgage loan

The Extraordinary Shareholders' Meeting of Hoteles Argentinos S.A. held on January 5, 2001, approved taking a long-term mortgage loan from Bank Boston N.A. Buenos Aires for a total of US\$ 12,000,000 to be used to refinance existing debts. The term of the loan was agreed at 60 months payable in 19 equal and quarterly installments of US\$ 300,000 and one final payment of US\$ 6,300,000. The agreement was signed on January 26, 2001.

Interest is paid quarterly in arrears at an annual interest rate equivalent to LIBOR for nine-month loans plus the applicable mark-up per the contract, which consists in a variable interest rate applicable during the interest bearing periods, which ranges from 6.56% to 8.46% per year.

The guarantee granted was a senior mortgage on a Company property, which houses the Hotel Sheraton Libertador Buenos Aires.

At the date of issue of these financial statements, as a result of the current economic situation, the lack of credit and the crisis of the Argentine financial system, principal installments of US\$ 300 thousand falling due on January 26, April 29, July 29 and October 26, 2002, respectively and the interest installment amounting to US\$ 315 thousand falling due on July 29 and October 26, 2002 were not paid. Although Hoteles Argentinos' Management is renegotiating the debt with its creditors, as failure to pay the installments when due entitles the bank to require acceleration of principal and interest maturities,

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

the loan has been classified and is shown under current financial loans in these financial statements.

NOTE 15: TARSHOP CREDIT CARD RECEIVABLE SECURITIZACION

Alto Palermo S.A. has ongoing revolving period securitization programs through which Tarshop, a majority-owned subsidiary of APSA, transfers a portion of its customer credit card receivable balances to a master trust (the "Trust") that issues certificates to public and private investors.

To the extent the certificates are sold to third parties, the receivables transferred qualify as sales for financial statement purposes and are removed from the APSA balance sheet. The remaining receivables in the Trust which have not been sold to third parties are reflected on the APSA balance sheet as a retained interest in transferred credit card receivables. Under these programs, APSA acts as the servicer on the accounts and receives a fee for its services.

NOTE 15: (Continued)

Under the securitization programs, the Trust may issue two types of certificates representing undivided interests in the Trust - Titulos de Deuda Fiduciaria ("TDF") and Certificados de Participacion ("CP"), which represent debt, and equity certificates, respectively. Interest and principal services are paid periodically to the TDF holders throughout the life of the security. CPs are subordinated securities which entitle the CP holders to share pro rata in the cash flows of the securitized credit card receivables, after principal and interest on the TDFs and other fees and expenses have been paid. During the revolving period no payments are made to TDF and CP holders. Principal collections of the underlying financial assets are used by the Trust to acquire additional credit card receivables throughout the revolving period. Once the revolving period ends, a period of liquidation occurs during which: (i) no further assets are purchased and (ii) all cash collections are used to fulfill the TDF service requirements and (iii) the remaining proceeds are used to fulfill the CPs service requirements.

Alto Palermo S.A. entered into two-year revolving-period securitization programs, through which Tarshop sold an aggregate amount of Ps. 83.1 million of its customer credit card receivable. Under the securitization programs, the Trusts issued Ps. 12.4 million nominal value subordinated CPs, Ps. 23.8 million 12% fixed-rate interest TDFs and Ps. 20.0 million 18% fixed-rate interest TDFs, and

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

Ps. 6.9 million variable rate interest TDFs. Tarshop acquired all the CPs at an amount equal to their nominal value while the TDFs were sold to other investors through a public offering in Argentina. As a credit protection for investors, Tarshop has established cash reserves for losses amounting to Ps. 0.7 million.

Upon the Company's total fulfillment of its obligations to GSEM, the trustee must return the shares to IRSA under the terms and conditions of the trust agreed with the Trustee.
- f) GSEM is empowered to collect all the distributions that Palermo Invest S.A. may resolve, provided the Company has not settled all the obligations generated in favor of GSEM, as provided in point d) above.
- g) Finally, the Company and GSEM/AP Holdings L.P. acknowledge that:
 - i) all the amounts received in cash by GSEM from Palermo Invest S.A. on account of IRSA Dividend Right, must be considered as a reduction in the amount owed by IRSA under the GSEM Credit, and
 - ii) all the amounts received in cash by GSEM on account of the GSEM Credit will oblige GSEM to return to IRSA the equivalent portion of IRSA Dividend Right, but if IRSA pays the total amount plus all accrued interest and reasonable costs to GSEM, IRSA may then recover its rights regarding the IRSA Dividend Right .

NOTE 20: DERIVATIVE INSTRUMENTS

The Company uses various financial derivatives, mainly term exchange

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

purchase-sale contracts, to hedge its net investment in foreign operations and as a complement to reduce its global financial costs.

The counterparties to these instruments generally are major financial institutions. The Company does not hold or issue derivative instruments for trading purposes. In entering into these contracts, the Company has assumed the risk that might arise from the possible inability of counterparties to meet the terms of their contracts. The Company does not expect any losses as a result of counterparty defaults.

(i) Foreign currency forward-exchange contracts

The Company uses foreign currency forward-exchange contracts as a supplement to reduce its overall financing costs. Premiums on foreign currency forward-exchange contracts are amortized over the life of the respective contract. The market value of the foreign currency forward contracts has not been recognized in the accompanying financial statements. As of September 30, 2002 and 2001, the Company did not have any foreign currency forward contracts in force.

(ii) Interest rate swap

In order to minimize its financing costs and to manage interest rate exposure, the Company entered into an interest rate swap agreement to effectively convert a portion of its peso-denominated fixed-rate debt to peso-denominated floating rate debt.

As of March 31, 2001, the Company had an interest rate swap agreement outstanding with an aggregate notional amount of Ps. 85.0 million with maturities through March 2005. This swap agreement initially allowed the Company to reduce the net cost of its debt. However, subsequent to June 30, 2001, the Company modified the swap agreement due to an increase in interest rates as a result of the economic situation. Under the terms of the revised agreement, the Company converted its peso-denominated fixed rate debt to U.S. dollar-denominated floating rate debt for a notional amount of US\$ 69.1 million with maturities through March 2005. As collateral for the agreement, the Company was required to make a deposit of US\$ 50.0 million with the counterparty. Any differential to be paid or received under this agreement is accrued and is recognized as an adjustment to interest expense in the statement of operations. The related accrued receivable or payable is included as an adjustment to interest payable. The fair value of the swap agreement is not recognized in the consolidated financial statements. During the period ended September 30, 2002 and 2001, the Company recognized net losses of Ps. 0.82 million and 4.13 million, respectively.

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS

For the three-months periods beginning on

July 1, 2002 and 2001

and ended September 30, 2002 and 2001

In thousands of pesos

NOTE 1: BASIS FOR THE PRESENTATION

a) Disclosure criteria

In compliance with the provisions of Resolution No. 368/01 and 372/01 of the Argentine Securities Commission, these financial statements are stated in thousands of Argentine pesos and have been prepared in line with the valuation and disclosure criteria contained in Technical Resolutions No. 4, 5, 6, 8, 9, 10, 12 and 13 of the Argentine Federation of Professional Councils of Economic Sciences (the "FACPCE"), and according to the provisions of the aforementioned Resolutions.

These financial statements include the effect of the Company's merger with a) Home Financing S.A. effective July 1, 2001 and b) Sociedad del Dique S.A. and Santa Maria del Plata S.A. effective July 1, 2000.

The present financial statements must be readen condiderating the circumstances mentioned in note 1 to the consolidated financial statements.

b) Recognition of the effects of inflation

The financial statements have been prepared in constant currency, reflecting the overall effects of inflation through August 31, 1995. As from that date, in accordance with professional accounting standards and the requirements of the control authorities, restatement of the financial statements was discontinued until December 31, 2001. As from January 1, 2002, in accordance with Resolution No. 3/2002 of the Professional Council in Economic Sciences of the Autonomous City of Buenos Aires and Resolution No. 415 of the National Securities Commission, the effects of inflation are being recognized in the financial statements. To this end, the restatement method established by Technical Pronouncement No. 6 of the F.A.C.P.C.E. has been followed.

As a consequence of the above, the Company's financial statements are presented in constant currency of September 30, 2002, having considered that the accounting measurements restated by the change in the purchasing power of the currency until August 31, 1995 and those arising between that date and December 31, 2001 are stated in currency of the latter date.

The above restatement was made applying the coefficients prepared based on the domestic wholesale price index.

For purposes of comparison, the figures corresponding to the three-month period ended September 30, 2001 have been restated as of September 30, 2002.

NOTE 1: (Continued)

c) Issuance of new technical pronouncements

The Professional Council in Economic Sciences of the Autonomous City of Buenos Aires approved Technical Pronouncements No. 16 "Conceptual framework for professional accounting standards" ; No. 17: "Professional accounting standards: development of some general application issues", No. 18 : "Professional accounting standards: development of some particular application issues" and No. 19 "Amendments to Technical Pronouncements Nos. 4, 5, 6, 8, 9, 11 and 14", through Resolutions C 238/01, C 243/01, C 261/01 and C 262/01, respectively; establishing that those Technical Pronouncements and amendments to them will come into force for fiscal years commencing as from July 1, 2002.

At the date of issue of these financial statements, the National Securities Commission had not adopted those Technical pronouncements and, consequently, as mentioned in Note 1.a), the Company has prepared these financial statements applying the pronouncements issued by that body, which do not contemplate these changes and differ from the provisions of applicable accounting standards.

The main amendments to the new Technical Pronouncements, which would mean significant adjustments being made to the Company's financial statements, are related to the recognition of income tax according to the deferred tax method and of the interest rate swap contract at the subsidiary Alto Palermo S.A.

However, we cannot provide assurance that the National Securities Commission will adopt the above-mentioned Technical Pronouncements without adding any amendment or limitation to their application and, therefore, the effects on the financial statements of the Company could differ from those previously indicated.

NOTE 2: (Continued)

h. Asset tax

During the period ended September 30, 1999, Law 25,063 set out the asset tax for four fiscal periods. This tax supplements the income tax, because while the latter is levied on the taxable income for the period, the asset tax is levied on the potential yield of certain assets at a 1% rate, and the Company's tax liability is the higher of both taxes.

Law 25,360 modified law 25,063 by extending the term of application to ten fiscal periods.

Any excess of the asset tax over and above the income tax in a given fiscal period may be considered as a payment on account of the income tax to be generated in the next four periods (in excess of the asset tax).

As of September 30, 2002 the Company has estimated the applicable asset tax and has reflected the portion it estimates it will be able to offset in future periods in line with the rules in force under other (current and non-current) receivables, charging the remaining portion to income currently.

i. Customer advances

Customer advances represent payments received in advance in connection with the sale and rent of properties.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

j. Provisions for allowances and contingencies

The Company provides for losses relating to mortgage, lease and other accounts receivable. The allowance for losses is recognized when, based on current information and events, it is probable that the Company will be unable to collect all amounts due according to the terms of the agreements. The allowance is determined on a one-by-one basis considering the present value of expected future cash flow or the fair value of collateral if the loan is collateral dependent, when applicable. While management uses the information available to make evaluations, future adjustments to the allowance may be necessary if future economic conditions differ substantially from the assumptions used in making the evaluations. Management has considered all events and/or transactions that are subject to reasonable and normal methods of estimations, and the consolidated financial statements reflect that consideration.

49

IRSA INVERSIONES Y REPRESENTACIONES SOCIEDAD ANONIMA

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS (CONTINUED)

NOTE 2: (Continued)

The Company has certain contingent liabilities with respect to existing or potential claims, lawsuits and other proceedings, including those involving labor and other matters. The Company accrues liabilities when it is probable that future costs will be incurred and such costs can be reasonably estimated. Such accruals are based on developments to date, the Company's estimates of the outcomes of these matters and the Company's lawyers' experience in contesting, litigating and settling other matters. As the scope of the liabilities becomes better defined, there may be changes in the estimates of future costs, which could have a material effect on the Company's future results of operations and financial condition or liquidity.

k. Advertising expenses

The Company generally charges the advertising and publicity expenses to results when they are incurred, except for the advertising and publicity expenses related to the sale of real estate projects. Advertising and promotion expenses were approximately Ps. 47 and Ps. 577 million for the period ended September 30, 2002 and 2001, respectively.

l. Pension information

The Company does not maintain any pension plans. Argentine laws provide for pension benefits to be paid to retired employees from government pension plans and/or privately managed funds plan to which employees may elect to contribute.

m. Impairment of long-lived assets

The Company regularly evaluates its non-current assets for recoverability. The Company considers that impairment losses arise when the recoverable value is lower than book value. Impairment losses must be appropriated to the result for the period. The recoverable value is mainly determined using independent estimates or projections of future cash flows. At the end of the previous fiscal year, due to the progressive deterioration of the Argentine economy and the impact on the Company's revenue of the measures adopted by the National Government mentioned in Note 1 to the unaudited consolidated financial statements, the Company has reevaluated the recoverable value of its non-current assets, recording an impairment loss as the valuation of certain assets has exceeded the estimated recoverable value.

n. Financial derivatives

The Company uses various financial derivatives to hedge its net investment in foreign operations and as a complement to reduce its global financial costs.

50

IRSA INVERSIONES Y REPRESENTACIONES SOCIEDAD ANONIMA

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS (CONTINUED)

NOTE 2: (Continued)

The Company does not engage in trading or other speculative use of these financial instruments. Additionally, the Company has not used financial instruments to hedge transactions foreseen or firm commitments. To be eligible for hedging, the Company must be exposed to currency or interest rate risk, and the financial instrument must reduce the exposure and be designated as such. In addition, for hedging purposes, the significant characteristics and expected terms of the planned transaction must be identified and the expected transaction must be probable. Financial instruments that can be recorded as hedging instruments must maintain a high correlation between the hedging instrument and the item being hedged at the beginning and during the entire hedging period.

The Company formally documents all the relationships between hedging instruments and hedged items, as well as its risk management objective and strategy before embarking on hedging transactions. This process includes detailing all the derivatives designated for hedging of specific assets and liabilities in the balance sheet or specific firm commitments or planned transactions. The Company also evaluates both at the beginning of the hedging transaction and on an ongoing basis whether the derivatives used in hedging transactions are very effective to offset fluctuations in the market values or cash flows of the items hedged. If it is determined that a derivative is not very

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

effective for hedging or that it has stopped being an effective cover, the Company would discontinue the recording of such hedging instrument in the future.

- Foreign currency forward-exchange contracts

In accordance with the Company's risk management policies, it uses long-term foreign currency purchase and sale contracts as a supplement to reduce its overall financial costs as well as to administer its exposure regarding net investments in financial transactions.

Foreign currency forward-exchange contracts entered into by the Company generally mature within one period. Premiums on foreign currency forward-exchange contracts are amortized over the life of the respective contracts.

- Interest rate swaps

Interest rate swaps are used to hedge interest rate exposure. Interest rate swaps are recognized on an accrual basis, recording the net amount receivable or payable as an adjustment to the interest rate expense. The accrued amount receivable or payable is included as an adjustment to the interest expense. Upon expiry or termination of a swap, the net income or loss realized or pending realization is recognized over the remaining original term if the hedged item remains unpaid, or immediately if the underlying hedged item is not unpaid. If the swap has not expired, or if it expires before maturity, but the underlying hedged item is no longer unpaid, the unrealized income or loss on the interest swap is immediately recognized.

- Income/(loss) from investments in controlled and affiliated companies was calculated under the equity method, by applying the percentage of the Company's equity interest to the income/(loss) of such companies.

q. Estimations

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses for the period. Estimates are used when accounting for the depreciation, amortization, impairment of long-lived assets, income taxes and contingencies. Future actual results could differ from the estimates and assumptions prepared at the date of these financial statements.

- o the Company's receivable is not subject to future subordination; and
- o the Company has transferred the property to the buyer.

IRSA INVERSIONES Y REPRESENTACIONES SOCIEDAD ANONIMA

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS (CONTINUED)

NOTE 2: (Continued)

The Company uses the percentage-of-completion method of accounting with respect to sales of development properties under construction effected under fixed-price contracts. Under this method, revenue is recognized based on the ratio of costs incurred to total estimated costs applied to the total contract price. The Company does not commence revenue and cost recognition until such time as the decision to

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

proceed with the project is made and construction activities have begun. The percentage-of-completion method of accounting requires the Company's management to prepare budgeted costs in connection with sales of properties/units. All changes to estimated costs of completion are incorporated into revised estimates during the contract period.

r.2. Leases

Revenues from leases are recognized over the life of the related lease contracts. All revenues are presented net of taxes levied on sales.

s. Cash and cash equivalents

The Company considers all highly liquid investments with original maturities of three months or less, consisting primarily of time deposits, to be cash equivalents.

t. Result from operations and holding of real estate

The results from operations and holding of real estate assets include the results provided by the valuation and sale of shares in real estate investment companies and the results due to impairment of real estate assets.

At September 30, 2002, the interest rate accrued on the loan was 7,11%.

As from December 2001 the Company initiated a loan renegotiation process. The contract terms require that the Company maintain certain ratios and financial conditions, certain rates and indebtedness levels and sets restrictions on certain investments, payments, obtaining of new loans and sales of certain assets and capital investments.

At September 30, 2002, as a result of the current economic situation, the Company has been unable to comply with certain financial ratios established by the loan agreement. See footnote 3.
- On December 21, 2000, the Board of Directors approved the issue of Class 02 negotiable obligations for US\$ 43,500 thousand, in denominations of US\$ 10,000 and multiples of US\$ 1,000. the net proceeds from the negotiable obligations were appropriated to the settlement of the loan from Banca Nazionale del Lavoro amounting to US\$ 21,763 thousand, HSBC for US\$ 14,838 thousand and Banco Sudameris for US\$ 6,449 thousand.

The notes would be fully settled within 365 days from issue, i.e. on December 20, 2001, accruing interest at a floating rate payable quarterly in arrears.

As from December 2001, the Company has initiated a negotiable obligation renegotiation process, as a result of which the due date has been postponed to November 13, 2002.

d. Noncontributory Management Stock Ownership Plan

On October 30, 1997, the shareholders authorized the Company to enter into a Noncontributory Management Stock Ownership Plan ("NMSOP") with eight executive officers of the Company (the "Beneficiaries"), pursuant to which the Beneficiaries were granted the right to purchase up to 24 million shares of common stock (the "Participation Shares"), at a purchase price equal to Ps. 1.0 per share, subject to the implementation of an Equity Participation Agreement ("EPA"). In addition, the Company was not allowed to grant any loans or otherwise assist the Beneficiaries in financing the purchase of the Participation Shares.

On April 7, 1998, the Company's shareholders, at an extraordinary shareholders' meeting, approved a capital increase of 24 million shares to permit the Beneficiaries to purchase all of the

General

In the case of insurance covering fire and explosion with additional coverage, the amounts insured are stated at replacement and/or reconstruction to an "as new" condition value, not including land and foundations, due to the apportionment rules.

Insured amounts correspond to units belonging to the company that are being sold, and/or units sold under mortgages not having individual policies with assigned rights.

Notes:

- (1) Insured amounts correspond to the total for the building. The amount insured for each co-owner is obtained by applying the percentage of co-ownership to the total insurance. (2) Insured amounts correspond solely to jointly held areas.
- (3) Insurance purchased by tenants with provisions for the assignment of rights.
- (4) Insured amounts correspond to units not yet having a bill of sale.
- (5) Insured amounts correspond to common areas and partially to individual areas.

In our opinion, the above-described policies adequately cover current risks.

I. OFFICES AND OTHER RENTAL PROPERTIES

During the three-month period ended September 30, 2002, revenues from the Company's rental portfolio reached Ps.5.5 million, as compared to Ps.13.4 million in the same period for fiscal year 2002. The average occupancy rate registered a fall from 72% as of June 30, 2002, to 69% as of September 30, 2002. This reduction is a result of the deep economic recession that forced many firms to reduce costs and to resize their facilities or move to lower-priced areas, leaving unoccupied buildings such as the one located in Reconquista 823.

During the ended period, the Company sold some of its rental properties that were considered to be non-strategic.

II. SHOPPING CENTERS - ALTO PALERMO S.A ("APSA")

As a result of the subscription of the negotiable obligations convertible for ordinary shares in APSA, since the beginning of this fiscal year the Company has discontinued the application of the proportional consolidation method in the preparation of the income statements because currently this method does not properly reflect the results of its operations and has adopted the consolidation of its businesses under the guidelines of Technical Pronouncement No. 4 of the F.A.C.P.C.E

During the three-month period ended September 30, 2002, the revenues from the shopping center segment were of Ps.23.3 million, as compared to Ps. 61.9 in the same period for fiscal year 2002.

A symptom of improvement that was reflected in this segment of business was the increase in the sales of APSA's lessees. After two years of constant decreases in sales, they amounted Ps. 217.3 million during the first quarter of fiscal year 2003, exhibiting a rise of 18.3% if compared to sales not restated during the first three months of fiscal year 2002.

Moreover, the improvement in lessees' sales allowed for a decline in APSA's allowances for doubtful accounts which, not including the ones originated by Tarshop's operations, decreased a 96.1%.

In view of APSA's lessees' revenues recovery, during this quarter APSA began to apply the Referential Stabilization Coefficient ("CER") upon "pesified" agreements and reinstated the key money charge upon execution or renewal of lease agreements in its shopping centers.

Over the last 12 months, APSA's shopping centers have received approximately 63.4 million visitors.

As of September 30, 2002, the average occupancy rate of APSA's shopping centers was of approximately 92%. The increase in this indicator during the last few

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

months evidences both the increasing interest of potential lessees in leasing properties in APSA's shopping centers and the attractiveness of APSA's business at present.

TARJETA SHOPPING.

During this quarter, Tarshop S.A., the credit card company in which APSA holds an 80% interest, experienced a decrease of 22.7% in its credit card portfolio (including its securitized receivables), from Ps. 71.2 million as of September 30, 2001 to Ps. 55.0 million as of September 30, 2002. In addition, the number of card holders decreased by 1,786 during this period, amounting 150,372.

The deep Argentine political, economic and social crisis impacted over the evolution of the credit card business, affecting the main variables of this segment. Tarjeta Shopping revenues experienced a 76.7% drop, from Ps.15.2 million as of September 30, 2001, to Ps.3.5 million as of September 30, 2002; further, the net loss for the three-month period ended September 30, 2002, was of Ps.3.4 million, contrasting with the positive result generated during the same period of the previous year.

Tarjeta Shopping's share in credit card sales at Alto Palermo, Alto Avellaneda and Abasto de Buenos Aires as of September 30, 2002, increased was 5.1%, 32.6% and 14.6%, respectively. The credit card activation rate is of approximately 61%.

The following chart presents information on the Company's shopping centers as of September 30, 2002.

III. SALES AND DEVELOPMENTS

Revenues from this segment were Ps.14.3 million during the three-month period ended September 30, 2002, as compared to Ps.12.0 million recorded during the same period of fiscal year 2002. This increase mainly results from the Company's sale of non-core properties.

SALE OF CONSTITUCION 1111 store - On September 27, 2002, our Company sold a commercial store located in Constitucion 1111 for US\$ 547,945.

ABRIL, HUDSON, PROVINCIA DE BUENOS AIRES- During the three-month period ended September 30, 2002, 18 lots of Abril were sold. 19 of the 20 neighborhoods projected for all the development were being marketed, with 87% of the lots in such neighborhoods sold. There were 110 houses under construction, 427 finished houses and 50 new projects has been submitted.

TORRES JARDIN - The project was initially made up of four 23-story towers, however, we decided not to build Torres Jardin IV. The three first building towers have been finished and include 490 apartments. As of September 30, 2002, 100%, 98% and 100% of Towers Jardin I, II and III respectively, had been sold.

TORRES DE ABASTO - The residential complex includes 4 apartment towers with a total of 545 units. Our company has successfully completed the marketing of the last 39 units available for sale during fiscal year 2002. The final sale of 100% of Torres de Abasto units represented the end of one of the most successful real estate projects in the country. We are proud to have succeeded in the sale of the last units under a context where the sale of new real estate properties suffered a serious setback.

IV. HOTELS

Even though this business segment has been considered to be non-core over the last few years, the devaluation of the Argentine Peso have resulted in a significant tourist inflow into the country that turned the hotel segment into a promising alternative. Moreover, the fact that this segment is the only one that

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

may generate income in hard currency is another reason for considering a possible strategy change with respect to this branch of business. It is so, that during this quarter we have acquired a new five-star hotel located in one of the most important ski resorts in Argentina.

ACQUISITION OF PISCIS HOTEL - In September 2002, our Company acquired the Piscis hotel, located in Valle de Las Lenas, one of the most modern of the big ski resorts of Argentina. The property was purchased for a total of US\$1.4 million from Banco Rio and ICI Argentina. Piscis is a five-star hotel with 90 bedrooms and 8 suites, 2 restaurants and 2 bars, a casino, fitness facilities that include two swimming pools and ski gear storage facilities. The hotel is by managed Badino S.A.

Total revenues from the hotel segment amounted Ps.7.4 million over the three-month period ended September 30, 2002, against Ps.11.0 million recorded over the same period in fiscal year 2002.

Llao Llao's occupancy level had a significant rise because of the increase in tourism and the average rate per room measured in Pesos, was accompanied by the exchange rate fluctuations due to its close correlation with the dollar value. We estimate that the current exchange rate will have a positive impact on the business, promoting regional tourism's growth.

The chart below shows information regarding our Company's hotels estimated for the three-month period ended September 30, 2002.

V. FINANCIAL TRANSACTIONS AND OTHERS

IMPACT OF EXCHANGE RATE FLUCTUATIONS AND INFLATION ON THE COMPANY'S FINANCIAL POSITION - Inflation and the appreciation of the Peso during this quarter generated a positive result for our Company. The exposure of our dollar-denominated assets and liabilities to these economic indicators, that in the previous fiscal year resulted in a loss of approximately Ps. 308 million, contrasts with a gain of Ps.64.9 million generated during this quarter . This result is registered under "Financial Results" and considerably explains the gain for this period.

EXTENSION OF MATURITY OF THE US\$ 43.5 MILLION NOTE - After a number of extensions agreed upon between our Company and the holders of the US\$ 43.5 million Notes, November 14, 2002, was established as final date of maturity of the principal amount. In addition, we agreed with our holders the capitalization of interest due on October 31, 2002. At present, progress has been made in the negotiations with the holders for the refinancing of our debt for a longer period and at lower rates.

RESTRUCTURING OF OUTSTANDING DEBT - We are currently drafting the final documents for the restructuring of the US\$ 80 million syndicated credit facility and the US\$ 43.5 million floating rate notes. On November 7, 2002, the six intervening banks signed an engagement letter in which they signify their intention to refinance our debt, extending maturity up to seven years and at a lower interest rate of LIBOR plus 200 basis points. The consummation of the refinancing transaction is subject to certain conditions specified in the engagement letter.

LOAN TO HOTELES ARGENTINOS - Due to the current economic situation, our subsidiary Hoteles Argentinos S.A., owner of 100% of Sheraton Libertador hotel, did not pay the principal and interest installments at maturity under the Ps. 42.8 million loan granted by Bank Boston N.A. Hoteles Argentinos' management is currently renegotiating the payment of this debt with its creditors.

ISSUE OF BONDS CONVERTIBLE INTO ORDINARY SHARES OF OUR COMPANY - On October 15, 2002, started the preemptive rights offering of the notes convertible into ordinary shares of our Company for an amount of up to US\$ 100 million, as approved by the Ordinary and Extraordinary Shareholders Meetings of IRSA, held on March 8, 2002. The convertible notes are accompanied by non-detachable warrants that enable the purchase of additional shares of our common stock. The subscription price is 100% of the face value of the convertible notes, which bear an 8% interest per year, paid semiannually and mature in November 2007. The conversion price is of US\$ 0.5571 per ordinary share, what means each note is convertible in 1.7949 ordinary shares. The net proceeds from the offering will be primarily used to facilitate the renegotiation or payment of our indebtedness outstanding to this date, as working capital and to acquire APSA's second branch of convertible notes, if offered .

ISSUE OF BONDS CONVERTIBLE INTO ORDINARY SHARES OF APSA - On July 19, 2002, APSA issued the first branch of notes convertible into ordinary shares of the company for up to US\$ 50

million, as approved by the Ordinary and Extraordinary Shareholders Meeting of APSA held on December 4, 2001. The issue conditions include a conversion price of US\$ 0.0324, which means that every convertible note is potentially convertible for 30.864 shares of Ps. 0.10 face value each, the accrual of a 10%

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

annual interest rate payable semi-annually and a subscription price of 100% of the principal amount of the convertible note. Maturities were fixed for July 19, 2006. On August 23, 2002, APSA successfully ended the placement of Series I for US\$ 50 million, of which our Company has subscribed a total amount of US\$ 27.2 million.

The funds obtained have allowed APSA to precancel a significant amount of its debt and therefore considerably improve its financial structure and maturity schedule. The funds obtained have been allocated to the full repayment of short-term bank debt which, as of March 31, 2002, came up to a face value of approximately Ps. 39.0 million, and the amount of Ps. 64.9 million (plus the accrued CER adjustment) of the senior secured notes. Regarding the loans APSA had with its shareholders, these were used for the subscription of the convertible notes. In the case of the secured senior notes repurchase and short-term bank debt repayments, APSA obtained discounts for up to 25%.

VII. BRIEF COMMENTS ON PROSPECTS FOR THE ONCOMING QUARTER

The economy seems to have reached bottom; the economic crisis has somehow been coped with and social violence has been checked. The exchange rate has stabilized and inflation is under control. The first signs of reactivation have started to come to light.

We expect that the new government to result from the presidential elections scheduled for March 2003 will be able to start solving the substantive issues that could not be dealt with by the current President Duhalde, as due to the economic, political and social crisis that required measures aimed at addressing short-term problems, the necessary structural and institutional reforms are still pending.

The future of Argentina largely depends on the decisions and policies to be adopted by the next government and its capacity to solve issues such as the restructuring of the financial system and a tax reform that enables to reach a sustainable fiscal solvency position, among others.

In addition, the political and economic actions to be taken by the new Brazilian government led by President Luis Inacio da Silva will have a material impact on Argentina and rest of the countries of the region.

Our Company continues to trust in the country and renews its commitment by the issue of bonds convertible into ordinary shares of the Company for up to US\$ 100 million.

During the last weeks we have concluded the commercial agreement with our bank creditors to refinance 88% of our Company's financial debt, fact concluded with the signing of the engagement letter. We are actually abbcated in the task of ultimating details that will permit us the signing of the final documentation.

Together with the issue of the convertible bonds, these facts will allow us to be one of the few Argentine companies without financial problems and imminent maturities, and with enough cash to take advantage of the opportunities arising in the market.

The extremely complicated economic context prevailing in Argentina gives our Company the opportunity of benefiting from the low prices of real estate assets. Since the devaluation of the peso in January 2002, real estate prices have fallen from 30% to 60% in dollar terms, depending on the quality and location of the properties. The proceeds of the convertible bonds offering will allow our

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

Company to restructure its liabilities and have sufficient liquidity so as to take advantage of these opportunities.

As concerns development projects, after 3 years of inactivity, the Company might consider restarting some of its projects in the light of the favourable building costs.

We are proud of having gone through the worst of the crisis and to be one of the few groups in the country that has not fallen in default. The debt refinancing is about to be closed and our confidence in Argentina makes us have strong expectations for the coming future. Deep crises are followed by great opportunities in the market, which we will be able to profit from thanks to our available cash funds.
