REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Administrative Committee of  
Delta Air Lines, Inc. and the participants of the Delta Family-Care Savings  
Plan:

We have audited the accompanying statements of net assets available for benefits of Delta Family-Care Savings Plan as of December 31, 2003 and 2002, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's Management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2003 and 2002, and the changes in its net assets available for benefits for the years ended December 31, 2003 and 2002 in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental Schedule of

Edgar Filing: DELTA AIR LINES INC /DE/ - Form 11-K

Assets (Held at End of Year) as of December 31, 2003 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan's Management. Such schedule has been subjected to the auditing procedures applied in the audit of the basic 2003 financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

## DELTA FAMILY-CARE SAVINGS PLAN

### NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2003 AND DECEMBER 31, 2002

#### 1. DESCRIPTION OF PLAN

The following description of the Delta Family-Care Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a complete description of the Plan's provisions.

The Plan is a defined contribution plan established by Delta Air Lines, Inc. ("Delta"). Substantially all Delta, Delta Technology, Inc. ("Delta Technology"), and Song Airways, LLC ("Song") personnel who are paid on the United States domestic payroll or employed in the Commonwealth of Puerto Rico are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 as amended ("ERISA"), and is intended to qualify under Section 404(c) of ERISA.

#### CONTRIBUTIONS

Employee contributions may be made, at the option of the employee, as pre-tax contributions or after-tax contributions or as a combination of both pre-tax and after-tax contributions.

Eligible U.S.-based nonpilot participants, including Song and Delta Technology participants, who are not highly compensated employees, may contribute up to 35% of eligible earnings to the Plan. Prior to September 1, 2002 the limit was 23% for Delta employees and 18% for Delta Technology employees. Eligible nonpilot participants who are highly compensated may contribute up to 13% of eligible earnings to the Plan. Puerto Rico-based employees may contribute up to 10% of eligible earnings. Eligible pilot participants who are not highly compensated employees and eligible pilot participants who are highly compensated employees may contribute up to 18% and 13%, respectively, of eligible earnings to the Plan. Pilots who exceed the Internal Revenue Code (the "Code") Section 401(a) (17) limit in the prior Plan year are subject to further restriction of the percentage of eligible earnings which may be deferred into the Plan. For both calendar year 2003 and 2002, the limit is 12%. Pre-tax contributions are subject to the limits under Section 402(g) of the Code.

Delta and Delta Technology nonpilot participants who have completed 12 months of service, receive a monthly employer matching contribution of \$.50 for every \$1 contributed by the participant, up to 2% of the participant's eligible earnings for that month, as defined in the plan document. Prior to October 2002, matching contributions were made on a quarterly basis.

Delta pilots receive an employer contribution on a monthly basis equal to 3% of eligible earnings. Pilots are eligible for the contribution as of their hire date.

Effective April 1, 2003, Song participants who were employed on April 1, 2003 or who have completed 12 months of service, receive a matching contribution each payroll period of \$1 for every \$1 contributed by the participant, up to 3% of the participant's eligible earnings for such payroll period, plus \$.50 for every \$1 contributed by the participant above 3% (not to exceed 6%) of the participant's eligible earnings for such

## Edgar Filing: DELTA AIR LINES INC /DE/ - Form 11-K

payroll period, with the total matching contribution no greater than 4.5% of the participant's eligible earnings for such payroll period, as defined in the Plan document. Employer contributions to Song participants are allocated among investment options chosen by the participant (Note 2) in the same proportion as the participant directs for his/her own contributions to these options.

For Delta and Delta Technology participants, the first \$1,700 (\$1,650 for the year ended December 31, 2002 and increased by \$50 per Plan year) of these employer contributions (the "Annual Cap") to a participant's account is invested in the Delta ESOP Stock Fund, which consists of both Delta Series B ESOP Convertible Preferred Stock ("Preferred Stock") and Delta Common Stock ("Common Stock"). The remainder, if any, of the employer's contributions to a participant's account during a Plan year will be allocated among investment options chosen by the participant (Note 2) in the same proportion as the participant directs for his/her own contributions to these options. However, employer contributions in excess of the Annual Cap shall be made in Common Stock for non-collectively bargained, highly compensated employees, as determined under the Code, as amended.

Non-highly compensated Delta Technology participants may receive an additional annual profit-sharing employer contribution equal to 5% of their Delta Technology earnings, as defined in the Plan.

Song participants, who are Founders, as defined in the Plan document, may receive an additional annual employer contribution known as the Founders contribution which is equal to 3% of their earnings (as defined in the Plan) for the year, while a Song employee.

### ADMINISTRATIVE EXPENSES

Certain administrative functions of the Plan are performed by officers or employees of Delta. No such officer or employee receives compensation from the Plan. All other administrative expenses of the Plan are paid by the Plan as provided in the Plan document.

### VESTING

Delta participants are immediately vested in all contributions to their accounts plus actual earnings thereon. Delta Technology participants are immediately vested in contributions to their accounts with the exception of the additional annual profit-sharing contribution they receive, which vests ratably over a three-year period. Song participants, who are Founders, are immediately vested in all contributions to their accounts. Song participants, who are not Founders, become 100% vested after three years of service. At December 31, 2003 and 2002, forfeitures totaled approximately \$58,000 and \$34,000, respectively. Forfeitures from the Delta Technology participants' accounts were used to offset the 2003 Delta Technology profit-sharing employer contribution to the Plan.

### PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution and allocations of the employer contributions and plan earnings (losses) in the manner described in the plan document, as well as any withdrawals made. Participant's accounts are also charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

### ACCOUNT DISTRIBUTIONS

## Edgar Filing: DELTA AIR LINES INC /DE/ - Form 11-K

Upon retirement or eligibility for long-term disability, a participant's non-Employee Stock Ownership Plan ("ESOP") account balance may be distributed in the form of a single-sum cash payment, cash payments in monthly installments for a definite period not to exceed life expectancy, monthly installments to be paid over the life expectancy of the participant and the participant's spouse, or the participant may defer distribution to a later date.

Upon termination of employment for reasons other than retirement or long-term disability, a participant's non-ESOP account balance may be distributed as a lump-sum cash payment or the participant may elect to defer distribution.

A participant's ESOP account balance may be distributed as a lump-sum cash payment or, at the participant's election, in Common Stock when distribution of the non-ESOP portion of the account begins.

While employed, a participant may elect to withdraw all after-tax contributions and Delta Technology rollover contributions, pre-1989 matching contributions, and the earnings thereon. Under certain hardship circumstances, a participant may also make an in-service withdrawal of pre-tax contributions, catch-up contributions and certain rollover and elective transfer contributions.

### LOANS TO PARTICIPANTS

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of (1) \$50,000, reduced by the highest outstanding balance of loans for that participant during the previous one year period, or (2) 50% of their account value not to exceed the total value of their non-ESOP account. The loans are repaid, generally through regular payroll deductions, over a period not to exceed four years. The principal amounts of the loans are assets of the Plan and earn interest, which represents income to the borrowing participant, at a fixed rate equal to the average of the secured loan interest rate and the unsecured loan interest rate of the Delta Employees' Credit Union at the initiation of the loan. The rates are reset quarterly and ranged from 9% to 11% for the year ended December 31, 2003 and were 10% for the year ended December 31, 2002.

### FINANCIAL CONDITION OF DELTA AIR LINES, INC.

Delta reported a net loss of \$773 million for the year ended December 31, 2003, and an unaudited net loss of \$383 million for the March 2004 quarter. In its Quarterly Report on Form 10-Q for the Quarter Ended March 31, 2004, Delta said that continued losses of the magnitude experienced in 2003 and the March 2004 quarter are unsustainable over the long term, and that Delta has significant obligations due in 2005 and thereafter. Delta further said that, if it cannot achieve a competitive cost structure, regain sustained profitability and access the capital markets on acceptable terms, it will need to pursue alternative courses of action intended to make it viable for the long-term, including the possibility of seeking to restructure its costs under Chapter 11 of the U.S. Bankruptcy Code.

## 2. INVESTMENT OPTIONS

## Edgar Filing: DELTA AIR LINES INC /DE/ - Form 11-K

The investment options available to participants consist of numerous mutual funds and several actively managed portfolios, including the Delta Common Stock Fund which invests primarily in Common Stock and a brokerage window. The brokerage window provides access to mutual funds available through the Fidelity Funds Network(R).

All available investment options are participant-directed except the Delta ESOP Stock Fund, which consists of employer contributions (both Preferred Stock and Common Stock) only. Participants who are age 55 and have completed ten years of participation in the Plan may diversify their account out of Delta stock held in their ESOP account annually over a six year period.

Accounts are limited to 30 investment options at any time (excluding individual mutual funds purchased through the brokerage window), and new contributions are required to be allocated in increments no smaller than 5% (to no more than 20 investment options at a time). Participants are not permitted to allocate more than 50% of their contributions to the Delta Common Stock Fund.

### 3. SUMMARY OF ACCOUNTING POLICIES

#### BASIS OF ACCOUNTING

The accompanying financial statements have been prepared in accordance with the accounting principles generally accepted in the United States of America.

#### USE OF ESTIMATES

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to use estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from these estimates. The Plan utilizes various investment vehicles, including mutual funds, investment contracts, common stock, preferred stock, and collective trust funds. Investment securities, in general, are exposed to various risks, including interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, including Delta's Common Stock and Preferred Stock, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

#### INVESTMENT VALUATION AND INCOME RECOGNITION

Investments, except for investment contracts and loans, are stated at fair value. Participant loans are valued at the outstanding loan balances. The Preferred Stock is stated at fair value, which is determined based on the greater of (a) the market price of the Delta Common Stock into which each preferred share is convertible (Note 7) or (b) \$72 per share, plus accrued dividends.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan's investment contracts are fully benefit-responsive and,

## Edgar Filing: DELTA AIR LINES INC /DE/ - Form 11-K

therefore, are presented at contract value (cost plus accrued income). The fair value of the investment contracts held by the Plan at December 31, 2003 and December 31, 2002 was approximately \$657,917,000 and \$673,955,000, respectively. The average yield rates for the investment contracts for the years ended December 31, 2003 and December 31, 2002 were 4.65% and 5.46%, respectively. The weighted average crediting rates for the investment contracts for the years ended December 31, 2003 and December 31, 2002 were 4.72% and 5.17%, respectively. Certain guaranteed investment contracts ("GICs") held by the Plan are synthetic; that is, the Plan owns certain fixed income marketable securities, and a third party provides a "wrapper" that guarantees a minimum rate of return and provides benefit responsiveness. At December 31, 2003, the fair value of the assets underlying the synthetic GICs and the value of the related wrapper contracts was \$611,763,000 and \$(17,284,000), respectively. At December 31, 2002, the fair value of the underlying assets of the synthetic GICs and the value of the related wrapper contracts was \$598,508,000 and \$(26,721,000), respectively. Interest rates on the synthetic GICs are generally reset quarterly by the issuer and are guaranteed to be set at a rate not less than 0%.

### PAYMENT OF BENEFITS

Benefits are recorded when paid.

### 4. INVESTMENTS

The fair values of individual investments that represent 5% or more of the Plan's total net assets as of December 31, 2003 and 2002 are separately identified as follows (in thousands, except for share amounts):

#### December 31, 2003:

	-----	-----
	\$552,313	\$529,342
	=====	=====

5. TAX STATUS

The Plan received a letter of determination dated May 29, 2003 from the Internal Revenue Service, which states that the Plan, as amended through February 25, 2002, is tax-qualified under the appropriate sections of the Code, and therefore the trust established under the Plan is tax-exempt. The Plan also received a favorable determination letter applicable to the amendment executed November 12, 2003. As a result of certain plan administration and operational concerns, Delta has

sought relief under Revenue Procedure 2001-17. This relief was granted in early 2004. Delta and the plan administrator believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. PLAN TERMINATION

Although it has not expressed any intent to do so at this time, Delta has

## Edgar Filing: DELTA AIR LINES INC /DE/ - Form 11-K

the right under the Plan to discontinue its contributions at any time and to amend or terminate the Plan. In the event of plan termination, participants will become 100% vested in their accounts.

### 7. EMPLOYEE STOCK OWNERSHIP PLAN

The Plan includes a leveraged ESOP. In connection with the establishment of the ESOP in 1989, Delta sold 6,944,450 shares of Preferred Stock to the ESOP trustee for \$72 per share, or approximately \$500 million. The ESOP trustee initially financed this purchase by borrowing \$493 million from Delta and approximately \$7 million from a bank.

In 1990, the Plan issued \$481.4 million principal amount of its Guaranteed Serial ESOP notes ("ESOP Notes") and repaid the outstanding principal balances of the original loans. The ESOP Notes and certain related tax indemnities are guaranteed by Delta (Note 8). Therefore, Delta is obligated to make annual contributions sufficient to fund principal and interest payments on the ESOP Notes. At December 31, 2003 and 2002, respectively, Delta held \$210.2 million and \$168.8 million of the principal amount of the ESOP Notes, and acquired the remaining \$18.1 million of the principal amount of the ESOP Notes during the first quarter of 2004.

Each share of Preferred Stock has a stated value of \$72; bears an annual cumulative cash dividend of 6.00% or \$4.32; is convertible into 1.7155 shares of Common Stock, subject to adjustment in certain circumstances; and has a liquidation preference of \$72 plus any accrued and unpaid dividends. Generally, the Preferred Stock shareholders vote together as a single class with the Common Stock shareholders on matters upon which the Common Stock shareholders are entitled to vote. The Preferred Stock has two votes per share, subject to adjustment in certain circumstances.

The number of shares of Preferred Stock released from the unallocated account for a plan year will generally be the number of shares of Preferred Stock held in the unallocated account multiplied by the ratio that the amount of principal and interest paid on the ESOP Notes, with respect to such plan year, bears to the total amount of principal and interest remaining to be paid (including payments with respect to such plan year). Once shares are released from the unallocated account, they are available to be allocated to participants' accounts as company contributions and dividends on Preferred Stock.

The number of shares of Preferred Stock allocated to participant accounts will be based on a value equal to the higher of \$72 per share or the market value of the shares of Preferred Stock, as defined in the Plan. If, during the plan year, the value of the Preferred Stock released from the unallocated account as a result of the repayment of the ESOP Notes is less than Delta's matching or non-elective contributions made in preferred stock to the Plan for that year, this difference will be made up by Delta through (a) prepaying the ESOP Notes to release additional shares of Preferred Stock, (b) contributing cash to the Plan so the Plan's trustee can purchase Common Stock, or (c) contributing shares of Common Stock to the Plan, in each case for allocation to participants' accounts. However, if at the end of the plan year the value of the Preferred Stock released from the unallocated account as a result of the scheduled repayment of the ESOP Notes during that plan year is greater than Delta's matching or non-elective contributions made in preferred stock to the Plan for that plan year then the excess will be allocated as of the end of the plan year among all participants, other than Song employees, making contributions to the Plan at that time.

## Edgar Filing: DELTA AIR LINES INC /DE/ - Form 11-K

The ESOP Notes will be repaid primarily from the Delta's contributions and dividends on the Preferred Stock. If dividends on allocated shares are used to repay the ESOP Notes, additional shares of Preferred Stock and Common Stock equal in value to such dividends will be allocated to the accounts of participants who otherwise would have received such dividends.

In July 2003, Delta's Board of Directors discontinued the payment of quarterly cash dividends on Common Stock. Effective December 2003, Delta's Board of Directors suspended indefinitely the payment of dividends on the Preferred Stock to comply with Delaware law. Dividends on Preferred Stock continue to accrue, and the Preferred Stock value reflected in the statement of net assets includes accrued but unpaid dividends.

As of December 31, 2003, 3,793,686 shares of Preferred Stock with a market value, as defined, of approximately \$281,530,000 had been allocated to participants' accounts, and 2,046,022 shares of Preferred Stock with a market value, as defined, of approximately \$151,835,000 were held in the unallocated account.

### 8. LONG-TERM DEBT

At December 31, 2003, the Plan's long-term debt, including current maturities of \$36,449,000, consisted of \$228,333,000 aggregate principal amount of ESOP Notes with final maturity dates ranging from July 1, 2004 to January 1, 2009 and an interest rate of 8.10%. The interest rates on the ESOP Notes are subject to adjustment in the event of certain changes in the federal income tax laws. Subject to certain restrictions, the ESOP Notes may be prepaid at the option of the Plan at any time in whole or in part.

At December 31, 2003, the annual maturities of the ESOP Notes for the next five years and thereafter are as follows (in thousands):

Years ending December 31:	
2004	36,449
2005	40,621
2006	45,209
2007	50,254
2008	37,240
After 2008	18,560
	-----
Total	\$ 228,333
	=====

### 9. RELATED-PARTY TRANSACTIONS

Certain of the Plan's investments are shares of mutual funds, collective trusts, or interests in cash reserve accounts managed by Fidelity Management Trust Company (the "Trustee") or affiliates of the Trustee. Transactions related to such investments qualify as permissible party-in-interest transactions under ERISA. Fees paid by the Plan to an affiliate of the Trustee for record keeping services totaled approximately \$433,000 and \$454,000 for the years ended December 31, 2003 and December 31, 2002, respectively. Fees paid by the Plan for investment management vary by fund and are generally reflected as a reduction in fund earnings.
