**METTLER-TOLEDO INTERNATIONAL INC.
NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS
AT MARCH 31, 2008 Unaudited**

(In thousands, except share data, unless otherwise stated)

1. BASIS OF PRESENTATION

Mettler-Toledo International Inc. (Mettler-Toledo or the Company) is a leading global supplier of precision instruments and services. The Company manufactures weighing instruments for use in laboratory, industrial, packaging, logistics and food retailing applications. The Company also manufactures several related analytical instruments and provides automated chemistry solutions used in drug and chemical compound discovery and development. In addition, the Company manufactures metal detection and other end-of-line inspection systems used in production and packaging and provides solutions for use in certain process analytics applications. The Company's primary manufacturing facilities are located in China, Germany, Switzerland, the United Kingdom and the United States. The Company's principal executive offices are located in Greifensee, Switzerland and Columbus, Ohio.

The accompanying interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) and include all entities in which the Company has control, which are its majority owned subsidiaries. The interim consolidated financial statements have been prepared without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to such rules and regulations. The interim consolidated financial statements should be read in conjunction with the consolidated financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

The accompanying interim consolidated financial statements reflect all adjustments which, in the opinion of management, are necessary for a fair statement of the results of the interim periods presented. Operating results for the three months ended March 31, 2008 are not necessarily indicative of the results to be expected for the full year ending December 31, 2008.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results may differ from those estimates. A discussion of the Company's critical accounting policies is included in Management's Discussion and Analysis of Financial Condition and Results of Operations included in the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

All intercompany transactions and balances have been eliminated.

Certain reclassifications have been made to prior year amounts to conform to the current year presentation.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS
AT MARCH 31, 2008 Unaudited (Continued)

(In thousands, except share data, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES*Trade Accounts Receivable*

Trade accounts receivable are recorded at the invoiced amount and do not bear interest. The allowance for doubtful accounts represents the Company's best estimate of probable credit losses in its existing trade accounts receivable. The Company determines the allowance based upon a review of both specific accounts for collection and the age of the accounts receivable portfolio.

Inventory

Inventory is valued at the lower of cost or net realizable value. Cost, which includes direct materials, labor and overhead, is generally determined using the first in, first out (FIFO) method. The estimated net realizable value is based on assumptions for future demand and related pricing. Adjustments to the cost basis of our inventory are made for excess and obsolete items based on forecasted usage, orders and technological obsolescence. If actual market conditions are less favorable than those projected by management, reductions in the value of inventory may be required.

Inventory consisted of the following:

	March 31, 2008	December 31, 2007
Raw materials and parts	\$ 93,698	\$ 90,778
Work-in-progress	27,722	21,067
Finished goods	78,452	61,880
	\$ 199,872	\$ 173,725

Other Intangible Assets

Other intangible assets include indefinite lived assets and definite lived assets which are subject to amortization. Where applicable, amortization is charged on a straight-line basis over the expected period to be benefited. The straight-line method of amortization reflects an appropriate allocation of the cost of the intangible assets to earnings in proportion to the amount of economic benefits obtained by the Company in each reporting period. The Company assesses the initial acquisition of intangible assets and the continued accounting for previously recognized intangible assets and goodwill in accordance with SFAS No. 142 Goodwill and Other Intangible Assets and SFAS No. 144 Accounting for the Impairment or Disposal of Long-Lived Assets.

Table of Contents

METTLER-TOLEDO INTERNATIONAL INC.
NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS
AT MARCH 31, 2008 Unaudited (Continued)

(In thousands, except share data, unless otherwise stated)

Other intangible assets consist of the following:

	March 31, 2008		December 31, 2007	
	Gross Amount	Accumulated Amortization	Gross Amount	Accumulated Amortization
Customer relationships	\$ 74,020	\$ (12,005)	\$ 73,946	\$ (11,363)
Proven technology and patents	33,150	(18,920)	32,079	(18,077)
Tradename (finite life)	1,803	(680)	1,655	(654)
Tradename (indefinite life)	22,434		22,434	
	\$ 131,407	\$ (31,605)	\$ 130,114	\$ (30,094)

The annual aggregate amortization expense based on the current balance of other intangible assets is estimated at \$4.6 million for 2008, \$4.7 million for 2009 and 2010, \$4.5 million for 2011 and \$4.1 million for 2012. The Company had amortization expense associated with the above intangible assets of \$1.2 million and \$1.1 million for the three months ended March 31, 2008 and 2007, respectively.

In addition to the above amortization, the Company had amortization expense associated with capitalized software of \$1.2 million and \$1.8 million for the three months ended March 31, 2008 and 2007, respectively.

Warranty

The Company generally offers one-year warranties on most of its products. Product warranties are recorded at the time revenue is recognized for certain product shipments. While the Company engages in extensive product quality programs and processes, its warranty obligation is affected by product failure rates, material usage and service costs incurred in correcting a product failure.

The Company's accrual for product warranties is included in accrued and other liabilities in the consolidated balance sheets. Changes to the Company's accrual for product warranties are as follows:

	March 31, 2008	March 31, 2007
Balance at beginning of period	\$ 12,949	\$ 10,977
Accruals for warranties	4,161	3,187
Foreign currency translation	364	221
Payments / utilizations	(3,769)	(3,323)
Balance at end of period	\$ 13,705	\$ 11,062

Table of Contents

**METTLER-TOLEDO INTERNATIONAL INC.
NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS
AT MARCH 31, 2008 Unaudited (Continued)**

(In thousands, except share data, unless otherwise stated)

Share-Based Compensation

The Company applies the modified prospective method under SFAS 123R and Staff Accounting Bulletin (SAB) 107, Share-Based Payments. The Company recognizes compensation expense in selling, general and administrative expense in the consolidated statement of operations with a corresponding offset to additional paid-in capital in the consolidated balance sheet. The Company had \$2.5 million and \$2.1 million of share-based compensation expense for the three months ended March 31, 2008 and 2007, respectively.

During the three months ended March 31, 2008, the Company granted 213,850 performance-based options with a grant-date fair value of \$32.20. Compensation expense will be recognized over the five year vesting provisions based upon the probability of the performance condition being met.

Research and Development

Research and development costs primarily consist of salaries, consulting and other costs. The Company expenses these costs as incurred.

Fair Value Measurements

On January 1, 2008, the Company adopted the provisions of FASB Statement No. 157, *Fair Value Measurements*, (SFAS 157) except as it relates to nonfinancial assets pursuant to FSP 157-b as described below. SFAS 157 clarifies how companies are required to use a fair value measure for recognition and disclosure by establishing a common definition of fair value, a framework for measuring fair value, and expanding disclosures about fair value measurements. The adoption of SFAS 157 did not have a material impact on the Company s consolidated results of operations or financial position.

As of March 31, 2008, the Company has derivative assets totaling \$1.6 million and derivative liabilities totaling \$0.1 million. These derivative assets and liabilities consist of foreign currency forward exchange contracts and an interest rate swap agreement. The forward exchange contracts economically hedge short-term intercompany balances with the Company s foreign businesses. The interest rate swap agreement changes the Company s fixed interest obligation associated with \$30 million of Senior Notes into a floating rate, and is accounted for as a fair value hedge. Changes in the fair values of these derivative assets and liabilities were insignificant to the Company s consolidated results of operations and financial position for the three month period ended March 31, 2008.

The fair values of these instruments are estimated based upon current valuation information obtained from dealer quotes, and priced with observable market assumptions and appropriate valuation adjustments for credit risk. The Company has evaluated the valuation methodologies used to develop the fair values by dealers in order to determine whether such valuations are representative of an exit price in the Company s principal market. The Company has also considered both its own credit risk and counterparty credit risk in determining fair value and determined these adjustments were insignificant for the three month period ended March 31, 2008.

Table of Contents

METTLER-TOLEDO INTERNATIONAL INC.
NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS
AT MARCH 31, 2008 Unaudited (Continued)

(In thousands, except share data, unless otherwise stated)

The Company has not yet applied the provisions of SFAS 157 to its nonfinancial assets such as goodwill and other intangible assets, in accordance with FSP 157-b, *Effective Date of FASB Statement No. 157*, which will be adopted on January 1, 2009. The Company does not believe that the adoption of FSP 157-b will have a material impact on its consolidated results of operations or financial position.

3. INCOME TAXES

The provision for taxes is based upon the Company's projected annual effective tax rate of 26% for the three months ended March 31, 2008. During the first quarter of 2008, the Company recorded a discrete tax benefit of \$2.5 million related to a favorable withholding tax law change in China. The net impact of this item decreased the effective tax rate to 21% for the three months ended March 31, 2008.

4. DEBT

Our short-term borrowings and long-term debt consisted of the following at March 31, 2008:

	U.S. dollar	March 31, 2008 Other principal trading currencies	Total
\$150m Senior notes (net of unamortized discount)	\$ 151,201	\$	\$ 151,201
Credit facility	234,850	72,585	307,435
Other local arrangements (long-term)		13,219	13,219
Total long-term debt	386,051	85,804	471,855
Other local arrangements (short-term)		19,694	19,694
Total debt	\$ 386,051	\$ 105,498	\$ 491,549

As of March 31, 2008, we had \$133.2 million of availability remaining under our credit facility.

5. SHARE REPURCHASE PROGRAM AND TREASURY STOCK

The Company has a share repurchase program. Under the program, the Company has been authorized to buy back up to \$1.5 billion of equity shares. As of March 31, 2008, there were \$545.5 million of remaining equity shares authorized to be repurchased under the plan by December 31, 2010. The share repurchases are expected to be funded from cash balances, borrowings and cash generated from operating activities. Repurchases will be made through open market transactions, and the timing will depend on the level of acquisition activity, business and market conditions, the stock price, trading restrictions and other factors. The Company has purchased 13.9 million shares since the inception of the program through March 31, 2008.

During the three months ended March 31, 2008 and 2007, the Company spent \$95.6 million and \$71.5 million on the repurchase of 954,188 shares and 838,000 shares at an average price of \$100.17 and \$85.29, respectively. An additional \$5.2 million and \$5.4 million were cash settled during the three month period ended March 31, 2008 and March 31, 2007, respectively, related to the settlement of a liability for shares repurchased as of December 31, 2007 and December 31, 2006, respectively. The Company reissued 32,760 shares and 180,751 shares held in treasury for the exercise of stock options and restricted stock units for the three months ended March 31, 2008 and 2007, respectively. The company also reissued 16,760 shares held in treasury pursuant to its 2007 Share Plan which extends certain eligible employees the option to receive a percentage of their annual bonus in shares of the Company's stock.

6. EARNINGS PER COMMON SHARE

In accordance with the treasury stock method, the Company has included the following common equivalent shares in the calculation of diluted weighted average number of common shares outstanding for the three month periods ended March 31, relating to outstanding stock options and restricted stock units.

	2008	2007
Three months ended	874,428	866,198

Outstanding options and restricted stock units to purchase 450,150 and 352,700 shares of common stock for the three month periods ended March 31, 2008 and 2007, respectively, have been excluded from the calculation of diluted weighted average number of common shares on the grounds that such options and restricted stock units would be anti-dilutive.

7. NET PERIODIC BENEFIT COST

Net periodic cost for the Company's defined benefit pension plans and U.S. post-retirement medical plan includes the following components for the three months ended March 31:

	U.S. Pension Benefits		Non-U.S. Pension Benefits		Other U.S. Post-retirement benefits	
	2008	2007	2008	2007	2008	2007
Service cost, net	\$ 183	\$ 170	\$ 4,263	\$ 3,922	\$ 109	\$ 101
Interest cost on projected benefit obligations	1,634	1,590	6,024	4,610	323	331
Expected return on plan assets	(2,233)	(2,072)	(8,151)	(6,639)		
Net amortization and deferral Recognition of actuarial losses	198	515	81	210	(239)	(239)
Net periodic pension cost	\$ (218)	\$ 203	\$ 2,217	\$ 2,103	\$ 193	\$ 193

As previously disclosed in the Company's annual report on Form 10-K for the year ended December 31, 2007, the Company expects to make normal employer contributions of approximately \$15.6 million to its non-U.S. pension plans and \$2.2 million to its U.S. post-retirement medical plan during the year ended December 31, 2008.

8. OTHER CHARGES (INCOME), NET

Other charges (income), net consists primarily of interest income, (gains) losses from foreign currency transactions and other items.

9. SEGMENT REPORTING

As disclosed in Note 15 to the Company's consolidated financial statements for the year ending December 31, 2007, operating segments are the individual reporting units within the Company. These units are managed separately and it is at this level where the determination of resource allocation is made. The units have been aggregated based on operating segments in geographic regions that have similar economic characteristics and meet the aggregation criteria of SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information (SFAS 131). The Company has determined there are five reportable segments: U.S. Operations, Swiss Operations, Western European Operations, Chinese Operations and Other.

The Company evaluates segment performance based on Segment Profit (gross profit less research and development, selling, general and administrative expenses and restructuring charges, before amortization, interest expense and other charges (income), net and taxes).

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the Unaudited Interim Consolidated Financial Statements included herein.

General

Our interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America on a basis which reflects the interim consolidated financial statements of Mettler-Toledo International Inc. Operating results for the three months ended March 31, 2008 are not necessarily indicative of the results to be expected for the full year ending December 31, 2008.

Results of Operations Consolidated

The following tables set forth certain items from our interim consolidated statements of operations for the three month periods ended March 31, 2008 and 2007 (amounts in thousands).

	Three months ended March 31,			
	2008	%	2007	%
	(unaudited)		(unaudited)	
Net sales	\$ 438,955	100.0	\$ 387,764	100.0
Cost of sales	217,803	49.6	196,285	50.6
Gross profit	221,152	50.4	191,479	49.4
Research and development	24,254	5.5	21,336	5.5
Selling, general and administrative	138,602	31.6	121,436	31.3
Amortization	2,405	0.6	2,925	0.8
Interest expense	5,849	1.3	4,460	1.2
Other charges (income), net	1,675	0.4	(362)	(0.1)
Earnings before taxes	48,367	11.0	41,684	10.7
Provision for taxes (a)	10,088	2.3	11,254	2.9
Net earnings	\$ 38,279	8.7	\$ 30,430	7.8

Note:

- (a) Includes \$2.5 million of a discrete tax benefit for the three months ended March 31, 2008. The discrete item relates to a favorable withholding tax law change in China.

Table of Contents

Net sales

Net sales were \$439.0 million for the three months ended March 31, 2008, compared to \$387.8 million for the corresponding period in 2007. This represents an increase in U.S. dollars of 13% for the three months ended March 31, 2008. Excluding the effect of currency exchange rate fluctuations, or in local currencies, net sales increased 5% for the three months ended March 31, 2008.

During the three months ended March 31, 2008, our net sales by geographic destination in local currencies were flat in the Americas, and increased 4% in Europe and by 18% in Asia/Rest of World. A discussion of sales by operating segment is included below. As further described in our discussion regarding our U.S. operations segment, the flat sales performance in the Americas included sales growth in laboratory-related, core industrial and product inspection products offset by significant declines in retail and transportation and logistics sales. These declines primarily result from less project activity for the three months ended March 31, 2008 as compared to the prior year comparable period. Sales in the Americas were also reduced by 1% during 2008 due to product line exits during the second half of 2007.

As described in Note 15 to our consolidated financial statements for the year ending December 31, 2007, our net sales comprise product sales of precision instruments and related services. Service revenues are primarily derived from regulatory compliance qualification, calibration, certification and repair services, much of which are provided under separately priced contracts, as well as sales of spare parts.

Net sales of products increased by 14% in U.S. dollars during the three months ended March 31, 2008 compared to the corresponding period and by 6% in local currencies. Service revenue (including spare parts) increased by 10% in U.S. dollars during the three months ended March 31, 2008 compared to the corresponding period in 2007 and by 2% in local currencies.

Net sales for our laboratory-related products increased 9% in local currencies during the three months ended March 31, 2008, principally driven by strong growth across most product categories, especially process analytics, analytical instruments and laboratory balances. Our laboratory-related product sales were also reduced by 1% during 2008 due to product line exits.

Net sales of our industrial-related products increased 7% in local currencies for the three months ended March 31, 2008. We experienced strong sales growth in our core industrial products throughout most geographies, particularly China, as well as solid sales growth in our product inspection products. These results were offset in part by reduced sales in transportation and logistics products related to significant project activity in the prior year comparable period.

In our food retailing markets, net sales decreased 11% in local currencies during the three months ended March 31, 2008 primarily due to decreased sales in the U.S., as well as a modest decline in Europe. Decreased sales in the U.S. primarily relate to difficult comparisons resulting from strong project activity and benefits associated with products announced for phase-out in the prior year.

Gross profit

Gross profit as a percentage of net sales was 50.4% for the three months ended March 31, 2008, compared to 49.4% for the corresponding period in 2007.

Table of Contents

Gross profit as a percentage of net sales for products was 55.0% for the three months ended March 31, 2008, compared to 54.2% for the corresponding period in 2007.

Gross profit as a percentage of net sales for services (including spare parts) was 35.3% for the three months ended March 31, 2008, compared to 34.2% for the corresponding period in 2007.

The increase in gross profit reflects benefits from our sales volume leveraging our fixed production costs and favorable product mix, partially offset by increased material costs, most notably steel prices and a dilution in the gross profit margin from the weakening U.S. dollar. However, it should be noted that the weakening U.S. dollar did not have a material impact on our earnings before taxes.

Research and development and selling, general and administrative expenses

Research and development expenses as a percentage of net sales were 5.5% for the three months ended March 31, 2008 and for the corresponding period in 2007. Research and development expenses increased 4%, in local currencies, during the three months ended March 31, 2008, compared to the corresponding period in 2007.

Selling, general and administrative expenses as a percentage of net sales were 31.6% for the three months ended March 31, 2008, compared to 31.3% for the corresponding period in 2007. Selling, general and administrative expenses increased 6%, in local currencies, during the three months ended March 31, 2008, compared to the corresponding periods in 2007. This is primarily due to continued sales and marketing investments, especially in China and other emerging market countries, as well as costs associated with upcoming product launches and severance expense related to our cost-reduction activities, partially offset by a gain associated with an asset sale.

Interest expense, other income, net, taxes

Interest expense was \$5.8 million for the three months ended March 31, 2008 compared to \$4.5 million for the corresponding period in 2007. The increase is due to increased borrowings versus the comparable period in 2007 as well as higher average borrowing rates in 2008.

Other charges (income), net consists primarily of interest income, as well as (gains) losses from foreign currency transactions, and other items. The decrease in other charges (income), net of \$2.0 million compared to the prior year is primarily due to reduced interest income associated with lower cash balances as well as unfavorable foreign currency fluctuations.

The provision for taxes is based upon our projected annual effective tax rate of 26% and 27% for the three months ended March 31, 2008 and 2007, respectively. The Company recorded a discrete tax benefit of \$2.5 million related to a favorable withholding tax law change in China during the first quarter of 2008. The impact of this item decreased the effective tax rate to 21% for the three months ended March 31, 2008.

Results of Operations by Operating Segment

The following is a discussion of the financial results of our operating segments. We currently have five reportable segments: U.S. Operations, Swiss Operations, Western European Operations, Chinese Operations and Other. A more detailed description of these segments is outlined in Note 15 to our consolidated financial statements for the year ending December 31, 2007.

Table of Contents*U.S. Operations (amounts in thousands)*

	Three months ended March 31		
	2008	2007	% ¹⁾
Total net sales	\$ 151,920	\$ 151,671	0%
Net sales to external customers	\$ 139,613	\$ 140,681	-1%
Segment profit	\$ 20,424	\$ 17,029	20%

1) Represents U.S. dollar growth (decline) for net sales and segment profit.

Total net sales and net sales to external customers for the three months ended March 31, 2008 were consistent with the corresponding period in 2007 reflecting solid growth in our laboratory-related, core industrial and product inspection products, offset by significantly reduced sales in retail and transportation and logistics, which were both related to strong project activity during the previous year. Our U.S. retail business also benefited during the prior year period from sales of products announced for phase-out. Net sales to external customers were also reduced during 2008 by 1% due to product line exits.

Segment profit increased \$3.4 million for the three months ended March 31, 2008 compared to the corresponding period in 2007. The increase in segment profit was primarily due to improved variable contribution margins, in part due to favorable product mix.

Swiss Operations (amounts in thousands)

	Three months ended March 31		
	2008	2007	% ¹⁾
Total net sales	\$ 108,794	\$ 86,289	26%
Net sales to external customers	\$ 31,221	\$ 23,117	35%
Segment profit	\$ 23,271	\$ 18,341	27%

1) Represents U.S. dollar growth (decline) for net sales and segment profit.

Total net sales increased by 9% in local currency for the three month period ended March 31, 2008. Net sales in local currency to external customers increased 17% for the three month period compared to the corresponding period in 2007. The increase in sales to external customers related primarily to strong growth in our laboratory-related products. We also continued to experience strong export sales growth to emerging markets.

Segment profit increased \$4.9 million for the three months ended March 31, 2008 compared to the corresponding period in 2007. The increase in segment profit in 2008 is primarily due to increased sales volume leveraging our fixed production costs, partially offset by unfavorable currency translation fluctuations, increased research and development activities and sales and marketing investments, relating in part to upcoming product launches.

Western European Operations (amounts in thousands)

	Three months ended March 31		
	2008	2007	% ¹⁾
Total net sales	\$ 177,847	\$ 154,328	15%
Net sales to external customers	\$ 157,457	\$ 134,234	17%

Segment profit	\$ 9,700	\$ 12,459	-22%
----------------	----------	-----------	------

1) Represents U.S. dollar growth (decline) for net sales and segment profit.

Table of Contents

Total net sales increased 2% in local currency for the three months ended March 31, 2008. Net sales in local currency to external customers increased 4% for the three month period compared to the corresponding period in 2007. The increase is primarily due to sales growth in our laboratory-related products, offset by a modest decline in retail sales.

Segment profit decreased \$2.8 million for the three months ended March 31, 2008 compared to the corresponding period in 2007. The decrease in segment profit is principally a result of increased marketing and selling investments and severance charges of \$2.4 million associated with our cost reduction initiatives partially offset by favorable currency translation fluctuations.

Chinese Operations (amounts in thousands)

	Three months ended March 31		
	2008	2007	% ¹⁾
Total net sales	\$64,277	\$51,004	26%
Net sales to external customers	\$42,105	\$31,222	35%
Segment profit	\$12,941	\$10,529	23%

1) Represents U.S. dollar growth (decline) for net sales and segment profit.

Total net sales increased 16% in local currency for the three months ended March 31, 2008. Net sales in local currency to external customers increased 25% for the three month period compared to the corresponding period in 2007. These increases were due to continued sales growth for most product lines, particularly industrial products.

Segment profit increased \$2.4 million for the three months ended March 31, 2008 compared to the corresponding period in 2007. The increase in segment profit is primarily due to increased sales volume, partially offset by continued investments in both sales and marketing initiatives and research and development activities.

Other (amounts in thousands)

	Three months ended March 31		
	2008	2007	% ¹⁾
Total net sales	\$69,384	\$59,144	17%
Net sales to external customers	\$68,559	\$58,610	17%
Segment profit	\$ 4,509	\$ 4,855	-7%

1) Represents U.S. dollar growth (decline) for net sales and segment profit.

Total net sales increased 7% in local currency for the three months ended March 31, 2008. Net sales in local currency to external customers increased 6% for the three month period compared to the corresponding period in 2007. This performance reflects increased sales in our Other North American and Other Asian Pacific markets.

Segment profit decreased \$0.3 million for the three months ended March 31, 2008 compared to the corresponding period in 2007. Segment profit decreased during the three months ended March 31, 2008 primarily due to reduced profitability in our Canadian operations, partially offset by increased profitability in Other Asian Pacific markets.

Table of Contents**Liquidity and Capital Resources**

Liquidity is our ability to generate sufficient cash flows from operating activities to meet our obligations and commitments. In addition, liquidity includes the ability to obtain appropriate financing. Currently, our liquidity needs arise primarily from working capital requirements, capital expenditures, share repurchases and acquisitions.

Cash provided by operating activities totaled \$8.2 million in the three months ended March 31, 2008, compared to \$32.3 million in the corresponding period in 2007. The decrease in 2008 resulted principally from higher payments of approximately \$11.5 million related to 2007 performance-related compensation incentives (bonus payments), reduced accounts payable balances of \$20.1 million and the timing of tax disbursements of \$8.1 million.

Cash flows from investing activities during the three months ended March 31, 2008 included \$12.5 million of proceeds from the sale of a Swiss property.

Capital expenditures are made primarily for investments in information systems and technology, machinery, equipment and the purchase and expansion of facilities. Our capital expenditures totaled \$7.4 million for the three months ended March 31, 2008 compared to \$7.9 million in the corresponding period in 2007. We expect capital expenditures to increase as our business grows, and to fluctuate as currency exchange rates change.

Senior Notes and Credit Facility Agreement

Our short-term borrowings and long-term debt consisted of the following at March 31, 2008:

	U.S. dollar	March 31, 2008 Other principal trading currencies	Total
\$150m Senior notes (net of unamortized discount)	\$ 151,201	\$	\$ 151,201
Credit facility	234,850	72,585	307,435
Other local arrangements (long-term)		13,219	13,219
Total long-term debt	386,051	85,804	471,855
Other local arrangements (short-term)		19,694	19,694
Total debt	\$ 386,051	\$ 105,498	\$ 491,549

As of March 31, 2008, we had \$133.2 million of availability remaining under our credit facility. Changes in exchange rates between the currencies in which we generate cash flows and the currencies in which our borrowings are denominated affect our liquidity. In addition, because we borrow in a variety of currencies, our debt balances fluctuate due to changes in exchange rates.

We currently believe that cash flow from operating activities, together with liquidity available under our Amended Credit Agreement and local working capital facilities, will be sufficient to fund currently anticipated working capital needs and capital spending requirements.

We continue to explore potential acquisitions. In connection with any acquisition, we may incur additional indebtedness.

Table of Contents*Share repurchase program*

We have a share repurchase program. Under the program, we are authorized to buy back up to \$1.5 billion of equity shares. As of March 31, 2008, there were \$545.5 million of remaining equity shares authorized to be repurchased under the plan by December 31, 2010. The share repurchases are expected to be funded from cash balances, borrowings and cash generated from operating activities. Repurchases will be made through open market transactions, and the timing will depend on the level of acquisition activity, business and market conditions, the stock price, trading restrictions and other factors. We have purchased 13.9 million shares since the inception of the program through March 31, 2008.

We spent \$95.6 million and \$71.5 million on the repurchase of 954,188 shares and 838,000 shares at an average price of \$100.17 and \$85.29 during the three months ended March 31, 2008 and 2007, respectively, as well as an additional \$5.2 million and \$5.4 million during the three month periods ended March 31, 2008 and March 31, 2007, respectively, relating to the settlement of shares repurchased as of December 31, 2007 and December 31, 2006, respectively. See Part II Item 2 regarding details of the share repurchase program for the three months ended March 31, 2008. The Company reissued 32,760 shares and 180,751 shares held in treasury for the exercise of stock options and restricted stock units for the three months ended March 31, 2008 and 2007, respectively. The company also reissued 16,760 shares held in treasury pursuant to its 2007 share plan which extends certain eligible employees the option to receive a percentage of their annual bonus in shares of the Company's stock.

Effect of Currency on Results of Operations

Because we conduct operations in many countries, our operating income can be significantly affected by fluctuations in currency exchange rates. Swiss franc-denominated expenses represent a much greater percentage of our operating expenses than Swiss franc-denominated sales represent of our net sales. In part, this is because most of our manufacturing costs in Switzerland relate to products that are sold outside Switzerland. Moreover, a substantial percentage of our research and development expenses and general and administrative expenses are incurred in Switzerland. Therefore, if the Swiss franc strengthens against all or most of our major trading currencies (e.g., the U.S. dollar, the Euro, other major European currencies and the Japanese yen), our operating profit is reduced. We also have significantly more sales in European currencies (other than the Swiss franc) than we have expenses in those currencies. Therefore, when European currencies weaken against the U.S. dollar and the Swiss franc, it also decreases our operating profits. Accordingly, the Swiss franc exchange rate to the Euro is an important cross-rate monitored by the Company. We estimate that a 1% strengthening of the Swiss franc against the Euro would result in a decrease in our earnings before tax of approximately \$1.1 to \$1.3 million on an annual basis. In addition to the effects of exchange rate movements on operating profits, our debt levels can fluctuate due to changes in exchange rates, particularly between the U.S. dollar and the Swiss franc. Based on our outstanding debt at March 31, 2008, we estimate that a 10% weakening of the U.S. dollar against the currencies in which our debt is denominated would result in an increase of approximately \$11.7 million in the reported U.S. dollar value of the debt.

Forward-Looking Statements and Associated Risks

Some of the statements in this quarterly report constitute forward-looking statements within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934. These statements relate to future events or our future financial performance, including, but not limited to, strategic plans, annual amortization expense, outcome of litigation, effect of potential loss of licensed rights, potential growth opportunities in both developed markets and emerging markets, planned research and development efforts, product introductions and innovation, manufacturing capacity, expected customer demand, meeting customer expectations, planned operational changes and productivity improvements, research and development expenditures, competitors product development, expected capital expenditures, source of funding, method and timing of share repurchases, timing and effect of potential exercises of options, future cash sources and requirements, liquidity, impact of taxes, impact of changes in tax laws, expected compliance with laws, impact of environmental costs and environmental proceedings, expected pension contribution, expected cost savings and benefits of completed or future acquisitions, which involve known and unknown risks, impact of currency fluctuations, uncertainties and other factors that may cause our or our businesses actual results, levels of activity, performance or achievements to be materially different from those expressed or implied by any forward-looking statements.

In some cases, you can identify forward-looking statements by terminology such as may, will, could, would, should, expect, plan, anticipate, intend, believe, estimate, predict, potential or continue or the negative or other comparable terminology. These statements are only predictions. Actual events or results may differ materially because of market conditions in our industries or other factors. Moreover, we do not, nor does any other person, assume responsibility for the accuracy and completeness of those statements. Unless otherwise required by applicable laws, we disclaim any intention or obligation to publicly update or revise any of the forward-looking statements after the date of this quarterly report to conform them to actual results, whether as a result of new information, future events, or otherwise. All of the forward-looking statements are qualified in their entirety by reference to the factors discussed under the caption, Factors affecting our future operating results in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2007, which describes risks and factors that could cause results to differ materially from those projected in those forward-looking statements.

We caution the reader that the above list of risks and factors that may affect results addressed in the forward-looking statements may not be exhaustive. Other sections of this quarterly report and other documents incorporated by reference may describe additional risks or factors that could adversely impact our business and financial performance. We operate in a continually changing business environment, and new risk factors emerge from time to time. Management cannot predict these new risk factors, nor can it assess the impact, if any, of these new risk factors on our businesses or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those projected in any forward-looking statements. Accordingly, forward-looking statements should not be relied upon as a prediction of actual results.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As of March 31, 2008, there was no material change in the information provided under Item 7A in the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

Item 4. Controls and Procedures

Our management carried out an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this quarterly report under the supervision and with the participation of our disclosure committee, our CFO and CEO. Based upon that evaluation, our CFO and CEO concluded that our disclosure controls and procedures are effective in permitting us to comply with our disclosure obligations and ensure that the material information required to be disclosed is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC. There were no changes in our internal controls over financial reporting during the three months ended March 31, 2008 that have materially affected, or are reasonably likely to materially affect, our controls over financial reporting.
