CONSTELLATION BRANDS, INC. AND SUBSIDIARIES  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
MAY 31, 2008

**1) MANAGEMENT'S REPRESENTATIONS:**

The consolidated financial statements included herein have been prepared by Constellation Brands, Inc. and its subsidiaries (the Company), without audit, pursuant to the rules and regulations of the Securities and Exchange Commission applicable to quarterly reporting on Form 10-Q and reflect, in the opinion of the Company, all adjustments necessary to present fairly the financial information for the Company. All such adjustments are of a normal recurring nature. Certain information and footnote disclosures normally included in financial statements, prepared in accordance with generally accepted accounting principles, have been condensed or omitted as permitted by such rules and regulations. These consolidated financial statements and related notes should be read in conjunction with the consolidated financial statements and related notes included in the Company's Annual Report on Form 10-K for the fiscal year ended February 29, 2008. Results of operations for interim periods are not necessarily indicative of annual results.

**2) RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS:**

Effective March 1, 2008, the Company adopted Statement of Financial Accounting Standards No. 159 (SFAS No. 159), The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115. SFAS No. 159 permits companies to choose to measure many financial instruments and certain other items at fair value. Most of the provisions in SFAS No. 159 are elective; however, the amendment to Statement of Financial Accounting Standards No. 115, Accounting for Certain Investments in Debt and Equity Securities, applies to all entities with available-for-sale and trading securities. The fair value option established by SFAS No. 159 allows companies to choose to measure eligible items at fair value at specified election dates. In addition, the fair value option: (i) may be applied instrument by instrument, with a few exceptions, such as investments otherwise accounted for by the equity method; (ii) is irrevocable (unless a new election date occurs); and (iii) is applied only to entire instruments and not to portions of instruments. The adoption of SFAS No. 159 did not have a material impact on the Company's consolidated financial statements.

**3) ACQUISITIONS:**

*Acquisition of BWE*

On December 17, 2007, the Company acquired all of the issued and outstanding capital stock of Beam Wine Estates, Inc. (BWE), an indirect wholly-owned subsidiary of Fortune Brands, Inc., together with BWE's subsidiaries: Atlas Peak Vineyards, Inc., Buena Vista Winery, Inc., Clos du Bois, Inc., Gary Farrell Wines, Inc. and Peak Wines International, Inc. (the BWE Acquisition). As a result of the BWE Acquisition, the Company has acquired the U.S. wine portfolio of Fortune Brands, Inc., including certain wineries, vineyards or interests therein in the State of California, as well as various super-premium and fine California wine brands including Clos du Bois and Wild Horse. The BWE Acquisition supports the Company's strategy of strengthening its portfolio with fast-growing super-premium and above wines. The BWE Acquisition strengthens the Company's position as the largest wine company in the world and the largest premium wine company in the U.S. Subsequent to May 31, 2008, the Company sold certain businesses consisting of several California wineries and wine brands acquired in the BWE Acquisition, as well as certain wineries and wine brands from the states of Washington and Idaho (collectively, the Pacific Northwest Business) (see Note 20).

**Table of Contents**

Total consideration paid in cash was \$877.3 million. In addition, the Company expects to incur direct acquisition costs of approximately \$1.4 million. The purchase price was financed with the net proceeds from the Company's December 2007 Senior Notes and revolver borrowings under the Company's 2006 Credit Agreement (as defined in Note 9). In accordance with the purchase method of accounting, the acquired net assets are recorded at fair value at the date of acquisition. The purchase price was based primarily on the estimated future operating results of the BWE business, including the factors described above.

The results of operations of the BWE business are reported in the Constellation Wines segment and are included in the consolidated results of operations of the Company from the date of acquisition.

The following table summarizes the Company's estimated fair values of the assets acquired and liabilities assumed in the BWE Acquisition at the date of acquisition. The allocation of the purchase price is preliminary and subject to change. Estimated fair values at December 17, 2007, are as follows:

On March 19, 2007, the Company acquired the SVEDKA Vodka brand ( Svedka ) in connection with the acquisition of Spirits Marque One LLC and related business (the Svedka Acquisition ). Svedka is a premium Swedish vodka. The Svedka Acquisition supports the Company's strategy of expanding the Company's premium spirits business. The acquisition provides a foundation from which the Company looks to leverage its existing and future premium spirits portfolio for growth. In addition, Svedka complements the Company's existing portfolio of super-premium and value vodka brands by adding a premium vodka brand.

Total consideration paid in cash for the Svedka Acquisition was \$385.8 million. In addition, the Company incurred direct acquisition costs of \$1.3 million. The purchase price was based primarily on the estimated future operating results of the Svedka business, including the factors described above.

The results of operations of the Svedka business are reported in the Constellation Spirits segment and are included in the consolidated results of operations of the Company from the date of acquisition.

**4) INVENTORIES:**

Inventories are stated at the lower of cost (computed in accordance with the first-in, first-out method) or market. Elements of cost include materials, labor and overhead and consist of the following:

<i>(in millions)</i>	May 31, 2008	February 29, 2008
Raw materials and supplies	\$ 102.4	\$ 115.2
In-process inventories	1,415.9	1,392.0
Finished case goods	752.4	672.3
	\$ 2,270.7	\$ 2,179.5

**5) FAIR VALUE MEASUREMENTS:**

In September 2006, the Financial Accounting Standards Board ( FASB ) issued Statement of Financial Accounting Standards No. 157 ( SFAS No. 157 ), Fair Value Measurements. SFAS No. 157 defines fair value, establishes a framework for measuring fair value under generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS No. 157 emphasizes that fair value is a market-based measurement, not an entity-specific measurement, and states that a fair value measurement should be determined based on assumptions that market participants would use in pricing an asset or liability. In February 2008, the FASB issued FASB Staff Position No. FAS 157-2 ( FSP No. 157-2 ), Effective Date of FASB Statement No. 157. FSP No. 157-2 amended SFAS No. 157 to defer the effective date of SFAS No. 157 for nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis, at least annually, including goodwill and trademarks. On March 1, 2008, the Company adopted the provisions of SFAS No. 157 that were not deferred by FSP No. 157-2. The adoption of these provisions of SFAS No. 157 did not have a material impact on the

Company's consolidated financial statements. In accordance with FSP No. 157-2, the Company is required to adopt the remaining provisions of SFAS No. 157 on March 1, 2009. The Company does not expect the adoption of the remaining provisions of SFAS No. 157 in connection with its nonfinancial assets and nonfinancial liabilities to have a material impact on the Company's consolidated financial statements.

**Table of Contents**

SFAS No. 157 establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. The hierarchy is broken down into three levels: Level 1 inputs are quoted prices in active markets for identical assets or liabilities; Level 2 inputs include data points that are observable such as quoted prices for similar assets or liabilities in active markets, quoted prices for identical assets or similar assets or liabilities in markets that are not active, and inputs (other than quoted prices) such as interest rates and yield curves that are observable for the asset and liability, either directly or indirectly; Level 3 inputs are unobservable data points for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability.

The following table presents the fair value hierarchy for the Company's financial assets and liabilities measured at fair value on a recurring basis as of May 31, 2008:

	Fair Value Measurements as of May 31, 2008			Total
	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
<i>(in millions)</i>				
<u>Recurring Fair Value Measures</u>				
Assets:				
Foreign currency contracts	\$	\$ 92.3	\$	\$ 92.3
Liabilities:				
Foreign currency contracts	\$	\$ 73.0	\$	\$ 73.0
Interest rate swap contracts		39.3		39.3
Total	\$	\$ 112.3	\$	\$ 112.3

The Company's foreign currency contracts consist of foreign exchange forward and option contracts which are valued using market-based inputs, obtained from independent pricing services, into valuation models. These valuation models require various inputs, including contractual terms, market foreign exchange prices, interest-rate yield curves and currency volatilities. Interest rate swap fair values are based on quotes from respective counterparties. Quotes are corroborated by the Company using discounted cash flow calculations based upon forward interest-rate yield curves, which are obtained from independent pricing services.

## 6) GOODWILL:

The changes in the carrying amount of goodwill for the three months ended May 31, 2008, are as follows:

	Constellation Wines	Constellation Spirits	Crown Imports	Consolidations and Eliminations	Consolidated
<i>(in millions)</i>					
Balance, February 29, 2008	\$ 2,614.1	\$ 509.8	\$ 13.0	\$ (13.0)	\$ 3,123.9

Balance, May 31, 2008	\$ 2,618.1	\$ 509.7	\$ 13.0	\$ (13.0)	\$ 3,127.8

**Table of Contents**

The Constellation Wines segment's purchase accounting allocations totaling \$23.1 million consist primarily of purchase accounting allocations associated with the BWE Acquisition of \$14.5 million and purchase accounting allocations associated with the purchase of an immaterial business of \$8.6 million. The Constellation Wines segment's disposal of business consists of the impairment of goodwill on an asset group held for sale in connection with the June 2008 sale of the Pacific Northwest Business.

**7) INTANGIBLE ASSETS:**

The major components of intangible assets are as follows:

<i>(in millions)</i>	May 31, 2008		February 29, 2008	
	Gross Carrying Amount	Net Carrying Amount	Gross Carrying Amount	Net Carrying Amount
Amortizable intangible assets:				
Customer relationships	\$ 67.2	\$ 60.8	\$ 67.3	\$ 62.0
Other	13.0	6.4	12.7	6.5
Total	\$ 80.2	67.2	\$ 80.0	68.5
Nonamortizable intangible assets:				
Trademarks		1,094.6		1,117.3
Other		9.7		4.2
Total		1,104.3		1,121.5
Total intangible assets		\$ 1,171.5		\$ 1,190.0

The difference between the gross carrying amount and net carrying amount for each item presented is attributable to accumulated amortization. Amortization expense for intangible assets was \$1.4 million and \$1.1 million for the three months ended May 31, 2008, and May 31, 2007, respectively. Estimated amortization expense for the remaining nine months of fiscal 2009 and for each of the five succeeding fiscal years and thereafter is as follows:

<i>(in millions)</i>	
2009	\$ 4.0
2010	\$ 5.4
2011	\$ 5.2
2012	\$ 4.4

2014	\$ 4.3
Thereafter	\$39.6

**9) BORROWINGS:***Senior credit facility*

On June 5, 2006, the Company and certain of its U.S. subsidiaries, JPMorgan Chase Bank, N.A. as a lender and administrative agent, and certain other agents, lenders, and financial institutions entered into a new credit agreement (the "June 2006 Credit Agreement"). On February 23, 2007, and on November 19, 2007, the June 2006 Credit Agreement was amended (collectively, the "2007 Amendments"). The June 2006 Credit Agreement together with the 2007 Amendments is referred to as the "2006 Credit Agreement". The 2006 Credit Agreement provides for aggregate credit facilities of \$3.9 billion, consisting of a \$1.2 billion tranche A term loan facility due in June 2011, a \$1.8 billion tranche B term loan facility due in June 2013, and a \$900 million revolving credit facility (including a sub-facility for letters of credit of up to \$200 million) which terminates in June 2011. Proceeds of the June 2006 Credit Agreement were used to pay off the Company's obligations under its prior senior credit facility, to fund the June 5, 2006, acquisition of all of the issued and outstanding common shares of Vincor International Inc. ("Vincor") (the "Vincor Acquisition"), and to repay certain indebtedness of Vincor. The Company uses its revolving credit facility under the 2006 Credit Agreement for general corporate purposes.

**Table of Contents**

As of May 31, 2008, the required principal repayments of the tranche A term loan and the tranche B term loan for the remaining nine months of fiscal 2009 and for each of the five succeeding fiscal years are as follows:

<i>(in millions)</i>	Tranche A Term Loan	Tranche B Term Loan	Total
2009	\$ 165.0	\$ 2.0	\$ 167.0
2010	270.0	4.0	274.0
2011	300.0	4.0	304.0
2012	150.0	4.0	154.0
2013		714.0	714.0
2014		712.0	712.0
	\$ 885.0	\$ 1,440.0	\$ 2,325.0

The rate of interest on borrowings under the 2006 Credit Agreement is a function of LIBOR plus a margin, the federal funds rate plus a margin, or the prime rate plus a margin. The margin is fixed with respect to the tranche B term loan facility and is adjustable based upon the Company's debt ratio (as defined in the 2006 Credit Agreement) with respect to the tranche A term loan facility and the revolving credit facility. As of May 31, 2008, the LIBOR margin for the revolving credit facility and the tranche A term loan facility is 1.25%, while the LIBOR margin on the tranche B term loan facility is 1.50%.

The February 23, 2007, amendment amended the June 2006 Credit Agreement to, among other things, (i) increase the revolving credit facility from \$500.0 million to \$900.0 million, which increased the aggregate credit facilities from \$3.5 billion to \$3.9 billion; (ii) increase the aggregate amount of cash payments the Company is permitted to make in respect or on account of its capital stock; (iii) remove certain limitations on the incurrence of senior unsecured indebtedness and the application of proceeds thereof; (iv) increase the maximum permitted total Debt Ratio and decrease the required minimum Interest Coverage Ratio; and (v) eliminate the Senior Debt Ratio covenant and the Fixed Charges Ratio covenant. The November 19, 2007, amendment clarified certain provisions governing the incurrence of senior unsecured indebtedness and the application of proceeds thereof under the June 2006 Credit Agreement, as previously amended.

The Company's obligations are guaranteed by certain of its U.S. subsidiaries. These obligations are also secured by a pledge of (i) 100% of the ownership interests in certain of the Company's U.S. subsidiaries and (ii) 65% of the voting capital stock of certain of the Company's foreign subsidiaries.

The Company and its subsidiaries are also subject to covenants that are contained in the 2006 Credit Agreement, including those restricting the incurrence of additional indebtedness (including guarantees of indebtedness), additional liens, mergers and consolidations, disposition or acquisition of property, the payment of dividends, transactions with affiliates and the making of certain investments, in each case subject to numerous conditions, exceptions and thresholds. The financial covenants are limited to maximum total debt coverage ratios and minimum interest coverage ratios.

As of May 31, 2008, under the 2006 Credit Agreement, the Company had outstanding tranche A term loans of \$885.0 million bearing an interest rate of 4.9%, tranche B term loans of \$1,440.0 million bearing an interest rate of 4.9%, revolving loans of \$283.5 million bearing an interest rate of 3.6%, outstanding letters of credit of \$36.8 million, and \$579.7 million in revolving loans available to be drawn.

**10) INCOME TAXES:**

The Company's effective tax rate for the three months ended May 31, 2008, and May 31, 2007, was 41.5% and 53.7%, respectively. The decrease in the Company's effective tax rate for the three months ended May 31, 2008, is primarily due to the recognition for the three months ended May 31, 2007, of a nondeductible pretax loss of \$6.1 million in connection with the Company's April 2007 contribution of its U.K. wholesale business to the Matthew Clark joint venture and an additional U.S. tax provision of \$7.2 million related to the future repatriation of unremitted earnings. The Company's effective tax rate for the three months ended May 31, 2008, includes the tax effect of the write-off of nondeductible goodwill related to the sale of certain U.S. wine assets as well as the recognition of a valuation allowance against net operating losses in Australia for the three months ended May 31, 2008.

**Table of Contents****12) EARNINGS PER COMMON SHARE:**

The Company has two classes of outstanding common stock: Class A Common Stock and Class B Convertible Common Stock. Basic earnings per common share excludes the effect of common stock equivalents and is computed using the two-class computation method. Diluted earnings per common share for Class A Common Stock reflects the potential dilution that could result if securities to issue common stock were exercised or converted into common stock. Diluted earnings per common share for Class A Common Stock assumes the exercise of stock options using the treasury stock method and the conversion of Class B Convertible Common Stock using the more dilutive if-converted method. Diluted earnings per common share for Class B Convertible Common Stock is presented without assuming conversion into Class A Common Stock and is computed using the two-class computation method.

The computation of basic and diluted earnings per common share is as follows:

		For the Three Months Ended May 31,

<i>(in millions, except per share data)</i>

Earnings per common share	diluted:

Class B Convertible Common Stock		\$ 0.19	\$ 0.12

Stock options which could result in the issuance of 26.5 million and 10.1 million shares of Class A Common Stock at a weighted average price per share of \$22.20 and \$25.91 were outstanding during the three months ended May 31, 2008, and May 31, 2007, respectively, but were not included in the computation of the diluted earnings per common share because the stock options' exercise price was greater than the average market price of the Class A Common Stock for the period.

The Company recorded \$10.8 million and \$9.4 million of stock-based compensation cost in its Consolidated Statements of Operations for the three months ended May 31, 2008, and May 31, 2007, respectively. Of the

The remainder is related primarily to the amortization of employee and nonemployee director stock options granted during the years ended February 29, 2008, and February 28, 2007.

**18) BUSINESS SEGMENT INFORMATION:**

The Company's internal management financial reporting consists of three business divisions: Constellation Wines, Constellation Spirits and Crown Imports. Consequently, the Company reports its operating results in four segments: Constellation Wines (branded wine, and wholesale and other), Constellation Spirits (distilled spirits), Corporate Operations and Other and Crown Imports (imported beer). Amounts included in the Corporate Operations and Other segment consist of general corporate administration and finance expenses. These amounts include costs of executive management, corporate development, corporate finance, human resources, internal audit, investor relations, legal, public relations, global information technology and global strategic sourcing. Any costs incurred at the corporate office that are applicable to the segments are allocated to the appropriate segment. The amounts included in the Corporate Operations and Other segment are general costs that are applicable to the consolidated group and are therefore not allocated to the other reportable segments. All costs reported within the Corporate Operations and Other segment are not included in the chief operating decision maker's evaluation of the operating income performance of the other operating segments.

The business segments reflect how the Company's operations are managed, how operating performance within the Company is evaluated by senior management and the structure of its internal financial reporting.

In addition, the Company excludes acquisition-related integration costs, restructuring charges and unusual items that affect comparability from its definition of operating income for segment purposes as these items are not reflective of normal continuing operations of the segments. The Company excludes these items as segment operating performance and segment management compensation is evaluated based upon a normalized segment operating income. As such, the performance measures for incentive compensation purposes for segment management do not include the impact of these items.

For the three months ended May 31, 2008, acquisition-related integration costs, restructuring charges and unusual costs included in operating income consist primarily of a loss of \$23.4 million, primarily on asset impairments related to an asset group held for sale, in connection with the June 2008 sale of the Pacific Northwest Business; the flow through of inventory step-up of \$6.3 million associated primarily with the BWE Acquisition; and acquisition-related integration costs, accelerated depreciation, other costs and restructuring charges of \$4.3 million, \$4.0 million, \$1.9 million, and \$0.5 million, respectively, associated primarily with the Fiscal 2008 Plan and the Fiscal 2007 Wine Plan. For the three months ended May 31, 2007, acquisition-related integration costs, restructuring charges and unusual costs included in operating income consist primarily of the loss of \$6.1 million on the contribution of the U.K. wholesale business; the flow through of inventory step-up of \$2.9 million associated primarily with the Company's acquisition of Vincor; accelerated depreciation of \$2.1 million associated with the Fiscal 2007 Wine Plan and Fiscal 2006 Plan; acquisition-related integration costs of \$2.0 million associated primarily with the Vincor Plan; and other costs and restructuring charges of \$0.5 million and \$0.4 million, respectively, associated primarily with the Fiscal 2006 Plan and Fiscal 2007 Wine Plan. For the three months ended May 31, 2007, acquisition-related integration costs, restructuring charges and unusual costs included in equity in earnings of equity method investees consist of the flow through of inventory step-up of \$0.2 million associated with the Opus One investment.

The Company evaluates performance based on operating income of the respective business units. The accounting policies of the segments are the same as those described for the Company in the Summary of Significant Accounting Policies in Note 1 to the Company's consolidated financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended February 29, 2008, and include the recently adopted accounting pronouncements described in Note 2 herein. Transactions between segments consist mainly of sales of products and are accounted for at cost plus an applicable margin.

**19) ACCOUNTING PRONOUNCEMENTS NOT YET ADOPTED:**

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 158 ( SFAS No. 158 ), *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*—an amendment of FASB Statements No. 87, 88, 106, and 132(R). SFAS No. 158 requires companies to recognize the overfunded or underfunded status of a defined benefit postretirement plan (other than a multiemployer plan) as an asset or liability in its balance sheet and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. The Company adopted this provision of SFAS No. 158 and provided the required disclosures as of February 28, 2007. SFAS No. 158 also requires companies to measure the funded status of a plan as of the date of the company's fiscal year-end (with limited exceptions), which provision the Company is required to adopt as of February 28, 2009. The Company uses a December 31 measurement date for its defined benefit pension and other post-retirement plans and has elected to transition to a fiscal year-end measurement date utilizing the second alternative prescribed by SFAS No. 158. Accordingly, on March 1, 2008, the Company recognized adjustments to its opening retained earnings, accumulated other comprehensive income, net of income tax effect, and pension and other post-retirement plan assets or liabilities. These adjustments did not have a material impact on the Company's consolidated financial statements.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141 (revised 2007) ( SFAS No. 141(R) ), *Business Combinations*. SFAS No. 141(R), among other things, establishes principles and requirements for how the acquirer in a business combination (i) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquired business, (ii) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase, and (iii) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. The Company is required to adopt SFAS No. 141(R) for all business combinations for which the acquisition date is on or after March 1, 2009. Earlier adoption is prohibited.

**Table of Contents**

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160 ( SFAS No. 160 ), Noncontrolling Interests in Consolidated Financial Statements – An Amendment of ARB No. 51. SFAS No. 160 amends Accounting Research Bulletin No. 51 ( ARB No. 51 ), Consolidated Financial Statements, to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. This statement also amends certain of ARB No. 51's consolidation procedures for consistency with the requirements of SFAS No. 141(R). In addition, SFAS No. 160 also includes expanded disclosure requirements regarding the interests of the parent and its noncontrolling interest. The Company is required to adopt SFAS No. 160 for fiscal years beginning March 1, 2009. Earlier adoption is prohibited. The Company is currently assessing the financial impact of SFAS No. 160 on its consolidated financial statements.

In March 2008, the FASB issued Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities – An Amendment of FASB Statement No. 133 ( SFAS No. 161 ). SFAS No. 161 requires enhanced disclosures about an entity's derivative and hedging activities to enable investors to better understand their effects on an entity's financial position, financial performance, and cash flows. The Company is required to adopt SFAS No. 161 for its interim period beginning December 1, 2008, with earlier application encouraged. The Company is currently assessing the financial impact of SFAS No. 161 on its consolidated financial statements.

**20) SUBSEQUENT EVENT:**

In June 2008, the Company sold the Pacific Northwest Business for cash proceeds of \$208.8 million. In addition, if certain objectives are achieved by the buyer, the Company could receive up to an additional \$25.0 million in cash payments. In connection with the classification of this business as an asset group held for sale as of May 31, 2008, the Company's Constellation Wines segment recorded a loss of \$23.4 million for the three months ended May 31, 2008, which includes asset impairments of \$16.0 million and losses on contractual obligations of \$7.4 million. This loss is included in selling, general and administrative expenses on the Company's Consolidated Statements of Operations.

As a result of their joint venture transactions, the Company and Modelo, through their affiliates, each have equal interests in Crown Imports and have appointed an equal number of directors to the Board of Directors of Crown Imports. Crown Imports commenced operations on January 2, 2007. The Company has the largest wine business in the world and is the largest multi-category (wine, spirits and imported beer) supplier of beverage alcohol in the U.S.; a leading producer and exporter of wine from Australia and New Zealand; the largest producer and marketer of wine in Canada; and both a major supplier of beverage alcohol and, through its investment in Matthew Clark (see Equity Method Investment in Fiscal 2008 below), a major independent drinks wholesaler in the United Kingdom ( U.K. ).

## **Table of Contents**

The Company's internal management financial reporting consists of three business divisions: Constellation Wines, Constellation Spirits and Crown Imports. Consequently, the Company reports its operating results in four segments: Constellation Wines (branded wine, and wholesale and other), Constellation Spirits (distilled spirits), Corporate Operations and Other and Crown Imports (imported beer). Amounts included in the Corporate Operations and Other segment consist of general corporate administration and finance expenses. These amounts include costs of executive management, corporate development, corporate finance, human resources, internal audit, investor relations, legal, public relations, global information technology and global strategic sourcing. Any costs incurred at the corporate office that are applicable to the segments are allocated to the appropriate segment. The amounts included in the Corporate Operations and Other segment are general costs that are applicable to the consolidated group and are therefore not allocated to the other reportable segments. All costs reported within the Corporate Operations and Other segment are not included in the chief operating decision maker's evaluation of the operating income performance of the other operating segments. The business segments reflect how the Company's operations are managed, how operating performance within the Company is evaluated by senior management and the structure of its internal financial reporting.

In addition, the Company excludes acquisition-related integration costs, restructuring charges and unusual items that affect comparability from its definition of operating income for segment purposes as these items are not reflective of normal continuing operations of the segments. The Company excludes these items as segment operating performance and segment management compensation is evaluated based upon a normalized segment operating income. As such, the performance measures for incentive compensation purposes for segment management do not include the impact of these items.

The Company's business strategy is to remain focused across the beverage alcohol category by offering a broad range of products in the wine, spirits and imported beer categories. The Company intends to continue to invest in fast growing premium product categories and geographic markets and expects to capitalize on its size and scale in the marketplace to profitably grow the business. The Company remains committed to its long-term financial model of growing sales (both organically and through acquisitions), expanding margins and increasing cash flow to achieve earnings per share growth and improve return on invested capital.

Marketing, sales and distribution of the Company's products, particularly the Constellation Wines segment's products, are managed on a geographic basis in order to fully leverage leading market positions within each core market. Market dynamics and consumer trends vary significantly across the Company's five core markets (U.S., Canada, U.K., Australia and New Zealand) within the Company's three geographic regions (North America, Europe and Australia/New Zealand). Within North America, the Company offers a wide range of beverage alcohol products across the branded wine and spirits and, through Crown Imports, imported beer categories in the U.S. and is the largest producer and marketer of branded wines in Canada. In Europe, the Company leverages its position as the largest wine supplier in the U.K. In addition, the Company leverages its investment in Matthew Clark both as a strategic route-to-market for its imported wine portfolio and as a key supplier of a full range of beverage alcohol products primarily to the on-premise business. Within Australia/New Zealand, where consumer trends favor domestic wine products, the Company leverages its position as one of the largest producers and marketers of wine in Australia and New Zealand.

The environment for the Company's products is competitive in each of the Company's core markets, due, in part, to industry and retail consolidation. In particular, the U.K. and Australian markets are highly competitive, as further described below. Competition in the U.S. beer and spirits markets is normally intense, with domestic and imported beer producers increasing brand spending in an effort to gain market share.

**Table of Contents**

The U.K. wine market is primarily an import market with Australian wines comprising approximately one-quarter of all wine sales in the U.K. off-premise business. The Australian wine market is primarily a domestic market. The Company has leading share positions in the Australian wine category in both the U.K. and Australian markets.

Due to competitive conditions in the U.K. and Australia, it has been difficult for the Company in recent fiscal periods to recover certain cost increases, in particular, the duty increases in the U.K. which have been imposed annually for the past several years. In the U.K., significant consolidation at the retail level has resulted in a limited number of large retailers controlling a significant portion of the off-premise wine business. The past surplus of Australian wine made very low cost bulk wine available to these U.K. retailers which allowed certain of these large retailers to create and build private label brands in the Australian wine category. However, the Australian bulk wine supply is now declining. In January 2008, the Company implemented a price increase in the U.K. to cover certain cost increases. In March 2008, the U.K. announced a significant increase in duty as well as the expectation for future annual increases to approximate two percentage points above the rate of inflation. The Company immediately implemented an additional price increase in an effort to offset the impact of this March 2008 duty increase. In addition, the Company also implemented a price increase in Australia during the first quarter of calendar 2008 to improve profitability.

The calendar years 2004, 2005 and 2006 were years of record Australian grape harvests that contributed to a surplus of Australian bulk wine. However, the calendar 2007 Australian grape harvest was significantly lower than the calendar 2006 Australian grape harvest as a result of an ongoing drought and late spring frosts in several regions. In addition, the calendar 2008 Australian grape harvest, although higher than the calendar 2007 Australian grape harvest, is expected to be lower than the average Australian grape harvests for the calendar years 2004 through 2006. Furthermore, as a result of drought conditions in calendar 2007 and 2008, many growers paid for additional water supply during the growing season leading up to the 2008 harvest, which has contributed to an increase in pricing for Australian grapes. As a result of these factors, it is unlikely that the Company will see an abundance of lower priced bulk wine availability and the Company expects the supply of wine to continue to move toward balance with demand; however, the highly competitive conditions in the U.K. and Australian markets are expected to persist. In the U.S., while the calendar 2007 U.S. grape harvest yielded lower levels than the calendar 2006 U.S. grape harvest, the Company expects that the overall supply of wine should remain generally in balance with demand.

For the three months ended May 31, 2008 ( First Quarter 2009 ), the Company's net sales increased 3% over the three months ended May 31, 2007 ( First Quarter 2008 ), primarily due to the Company's Constellation Wines segment's Fiscal 2008 (as defined below) initiative to reduce distributor wine inventory levels in the U.S., which negatively impacted net sales in the first and second quarters of fiscal 2008 as discussed below, combined with net sales of branded wine acquired in the BWE Acquisition (see Acquisitions in Fiscal 2008 below), partially offset by a decrease in net sales due to the Matthew Clark investment (see Equity Method Investment in Fiscal 2008 below). Operating income increased 33% over the comparable prior year period resulting primarily from the increased Constellation Wines segment's net sales discussed above in connection with the Fiscal 2008 distributor wine inventory reduction initiative without a corresponding increase in promotional, advertising, and selling, general and administrative spend within the Constellation Wines segment, and the incremental benefit from the BWE Acquisition. Net income increased 50% over the comparable prior year period primarily due to the factors discussed above combined with a decrease in the provision for income taxes, partially offset by increased interest expense and a decrease in equity in earnings of equity method investees due primarily to Crown Imports.

**Table of Contents**

The Company's Constellation Wines segment implemented a program to reduce distributor wine inventory levels in the U.S. during the first half of fiscal 2008, in response to the consolidation of distributors over the past few years and supply chain technology improvements. As distributors are looking to operate with lower levels of inventory while maintaining appropriate service levels to retailers, the Company has worked closely with its distributors on supply-chain efficiencies, ultimately making the Company's brands more competitive in the marketplace. The Company substantially completed its reduction of distributor wine inventory levels during the second quarter of fiscal 2008. This initiative had a significant impact on the Company's fiscal year ended February 29, 2008 (Fiscal 2008) financial performance, including a reduction of net sales of approximately \$110 million and a reduction in diluted earnings per share of approximately \$0.15 per share.

The following discussion and analysis summarizes the significant factors affecting (i) consolidated results of operations of the Company for First Quarter 2009 compared to First Quarter 2008 and (ii) financial liquidity and capital resources for First Quarter 2009. This discussion and analysis also identifies certain acquisition-related integration costs, restructuring charges and unusual items expected to affect consolidated results of operations of the Company for the fiscal year ending February 28, 2009 (Fiscal 2009). This discussion and analysis should be read in conjunction with the Company's consolidated financial statements and notes thereto included herein and in the Company's Annual Report on Form 10-K for Fiscal 2008. References to base branded wine net sales, base branded wine gross profit and base branded wine business exclude the impact of (i) branded wine acquired in the BWE Acquisition and (ii) branded wine disposed of in the Almaden and Inglenook divestiture (as described below), as appropriate.

**Acquisitions in Fiscal 2008**

***Acquisition of BWE***

On December 17, 2007, the Company acquired all of the issued and outstanding capital stock of Beam Wine Estates, Inc. (BWE), an indirect wholly-owned subsidiary of Fortune Brands, Inc., together with BWE's subsidiaries: Atlas Peak Vineyards, Inc., Buena Vista Winery, Inc., Clos du Bois, Inc., Gary Farrell Wines, Inc. and Peak Wines International, Inc. (the BWE Acquisition). As a result of the BWE Acquisition, the Company acquired the U.S. wine portfolio of Fortune Brands, Inc., including certain wineries, vineyards or interests therein in the State of California, as well as various super-premium and fine California wine brands including Clos du Bois and Wild Horse. Subsequent to May 31, 2008, the Company sold certain assets acquired in the BWE Acquisition (see Divestitures in Fiscal 2009 and Fiscal 2008 below).

The BWE Acquisition supports the Company's strategy of strengthening its portfolio with fast-growing super-premium and above wines. The BWE Acquisition strengthens the Company's position as the largest wine company in the world and the largest premium wine company in the U.S.

Total consideration paid in cash was \$877.3 million. In addition, the Company expects to incur direct acquisition costs of approximately \$1.4 million. The purchase price was financed with the net proceeds from the Company's December 2007 Senior Notes and revolver borrowings under the Company's 2006 Credit Agreement (each as defined below). In accordance with the purchase method of accounting, the acquired net assets are recorded at fair value at the date of acquisition. The purchase price allocation is currently in process.

## **Table of Contents**

The results of operations of the BWE business are reported in the Constellation Wines segment and are included in the consolidated results of operations of the Company from the date of acquisition. The BWE Acquisition has and will continue to have a material impact on the Company's results of operations, financial position and cash flows. In particular, the Company expects its results of operations to be significantly impacted by, among other things, the flow through of anticipated inventory step-up, restructuring, integration and other costs, and interest expense associated with borrowings to finance the purchase price. The restructuring, integration and other costs relate to the Company's January 2008 announcement of its plans to streamline certain of its operations in the U.S., primarily in connection with the restructuring and integration of the operations of BWE (the "U.S. Initiative").

### ***Acquisition of Svedka***

On March 19, 2007, the Company acquired the SVEDKA Vodka brand ("Svedka") in connection with the acquisition of Spirits Marque One LLC and related business (the "Svedka Acquisition"). Svedka is a premium Swedish vodka and is the fastest growing major imported premium vodka in the U.S. At the time of the acquisition, Svedka was the fifth largest imported vodka in the U.S. The Svedka Acquisition supports the Company's strategy of expanding the Company's premium spirits business. The acquisition provides a foundation from which the Company looks to leverage its existing and future premium spirits portfolio for growth. In addition, Svedka complements the Company's existing portfolio of super-premium and value vodka brands by adding a premium vodka brand that has experienced rapid growth.

Total consideration paid in cash for the Svedka Acquisition was \$385.8 million. In addition, the Company incurred direct acquisition costs of \$1.3 million. The purchase price was financed with revolver borrowings under the Company's June 2006 Credit Agreement (as defined below) as amended in February 2007.

The results of operations of the Svedka business are reported in the Constellation Spirits segment and are included in the consolidated results of operations of the Company from the date of acquisition. The Svedka Acquisition had a significant impact on the Company's interest expense associated with the additional revolver borrowings.

## **Equity Method Investment in Fiscal 2008**

### ***Investment in Matthew Clark***

On April 17, 2007, the Company and Punch Taverns plc ("Punch") commenced operations of a joint venture for the U.K. wholesale business ("Matthew Clark"). The U.K. wholesale business was formerly owned entirely by the Company. Under the terms of the arrangement, the Company and Punch, directly or indirectly, each have a 50% voting and economic interest in Matthew Clark. The joint venture reinforces Matthew Clark's position as the U.K.'s largest independent premier drinks wholesaler serving the on-trade drinks industry. The Company received \$185.6 million of cash proceeds from the formation of the joint venture.

Upon formation of the joint venture, the Company discontinued consolidation of the U.K. wholesale business and accounts for the investment in Matthew Clark under the equity method. Accordingly, the results of operations of Matthew Clark are included in the equity in earnings of equity method investees line on the Company's Consolidated Statement of Operations from the date of investment.

**Table of Contents****Divestitures in Fiscal 2009 and Fiscal 2008**

In June 2008, the Company sold certain businesses consisting of several California wineries and wine brands acquired in the BWE Acquisition, as well as certain wineries and wine brands from the states of Washington and Idaho (collectively, the Pacific Northwest Business ) for cash proceeds of \$208.8 million. In addition, if certain objectives are achieved by the buyer, the Company could receive up to an additional \$25.0 million in cash payments. This transaction contributes to the Company's streamlining of its U.S. wine portfolio by eliminating brand duplication and excess production capacity. In connection with the classification of this business as an asset group held for sale as of May 31, 2008, the Company's Constellation Wines segment recorded a loss of \$23.4 million for First Quarter 2009, which includes asset impairments of \$16.0 million and losses on contractual obligations of \$7.4 million. This loss is included in selling, general and administrative expenses on the Company's Consolidated Statements of Operations.

In February 2008, as part of ongoing efforts to increase focus on premium wine offerings in the U.S., the Company sold its lower margin popular-priced wine brands, Almaden and Inglenook, and certain other assets for cash proceeds of \$133.7 million. The Company recorded a loss of \$27.8 million on this sale in the fourth quarter of fiscal 2008.

**Results of Operations****First Quarter 2009 Compared to First Quarter 2008***Net Sales*

The following table sets forth the net sales (in millions of dollars) by operating segment of the Company for First Quarter 2009 and First Quarter 2008.

	First Quarter 2009 Compared to First Quarter 2008		
	Net Sales		% Increase / (Decrease)
	2009	2008	
Constellation Wines:			
Branded wine	\$ 765.7	\$ 619.9	24%
Wholesale and other	60.5	184.4	(67)%
Constellation Wines net sales	826.2	804.3	3%
Constellation Spirits net sales	105.6	96.9	9%
Crown Imports net sales	672.5	658.1	2%
Consolidations and eliminations	(672.5)	(658.1)	2%
Consolidated Net Sales	\$ 931.8	\$ 901.2	3%

Net sales for First Quarter 2009 increased to \$931.8 million from \$901.2 million for First Quarter 2008, an increase of \$30.6 million, or 3%. This increase resulted primarily from the Company's Fiscal 2008 initiative to reduce distributor wine inventory levels in the U.S., which negatively impacted net sales in the first and second quarters of fiscal 2008 as discussed above, combined with net sales of branded wine acquired in the BWE Acquisition of \$47.5 million, partially offset by a decrease in net sales of \$117.1 million due to the Matthew Clark investment, which is accounted for under the equity method of accounting.

**Table of Contents**

*Constellation Wines*

Net sales for Constellation Wines increased to \$826.2 million for First Quarter 2009 from \$804.3 million in First Quarter 2008, an increase of \$21.9 million, or 3%. Branded wine net sales increased \$145.8 million primarily due to the distributor wine inventory reduction initiative discussed above, net sales of branded wine acquired in the BWE Acquisition of \$47.5 million and a favorable foreign currency impact of \$21.7 million, partially offset by a \$24.1 million decrease in net sales associated with the divestiture of the Almaden and Inglenook wine brands discussed above. Wholesale and other net sales decreased \$123.9 million primarily due to the accounting for the Matthew Clark investment under the equity method of accounting.

*Constellation Spirits*

Net sales for Constellation Spirits increased to \$105.6 million for First Quarter 2009 from \$96.9 million for First Quarter 2008, an increase of \$8.7 million, or 9%. This increase resulted primarily from volume growth within the Company's branded spirits portfolio which was driven primarily by Svedka.

*Crown Imports*

As this segment is eliminated in consolidation, see "Equity in Earnings of Equity Method Investments" below for a discussion of Crown Imports net sales, gross profit, selling, general and administrative expenses, and operating income.

***Gross Profit***

The Company's gross profit increased to \$329.0 million for First Quarter 2009 from \$268.2 million for First Quarter 2008, an increase of \$60.8 million, or 23%. The Constellation Wines segment's gross profit increased \$64.4 million primarily due to higher U.S. base branded wine gross profit resulting primarily from the Company's Fiscal 2008 distributor wine inventory reduction initiative and increased gross profit of \$22.8 million due to the BWE Acquisition. The Constellation Spirits segment's gross profit increased slightly as increased gross profit from the increase in branded spirits net sales was partially offset by increasing raw material costs for spirits. In addition, unusual items, which consist of certain costs that are excluded by management in their evaluation of the results of each operating segment, were higher by \$5.3 million in First Quarter 2009 versus First Quarter 2008. This increase resulted primarily from (i) increased flow through of inventory step-up of \$3.4 million associated primarily with the BWE Acquisition, and (ii) increased accelerated depreciation of \$1.9 million associated with the Fiscal 2008 Plan (as defined in "Acquisition-Related Integration Costs" below). Gross profit as a percent of net sales increased to 35.3% for First Quarter 2009 from 29.8% for First Quarter 2008 primarily due to higher margins in the U.S. base branded wine business resulting from the prior year's distributor wine inventory reduction initiative combined with the benefit of reporting the lower margin U.K. wholesale business under the equity method of accounting for First Quarter 2009 and sales of higher-margin wine brands acquired in the BWE Acquisition.

**Table of Contents**

***Selling, General and Administrative Expenses***

Selling, general and administrative expenses increased to \$233.5 million for First Quarter 2009 from \$197.6 million for First Quarter 2008, an increase of \$35.9 million, or 18%. This increase is due to increases of \$6.1 million in the Constellation Wines segment, \$6.7 million in the Constellation Spirits segment, \$4.3 million in the Corporate Operations and Other segment, and an increase in unusual costs which consist of certain items that are excluded by management in their evaluation of the results of each operating segment of \$18.8 million. The increase in the Constellation Wines segment's selling, general and administrative expenses is primarily due to increased general and administrative expenses resulting primarily from losses on foreign currency transactions. The increase in the Constellation Spirits segment's selling, general and administrative expenses is primarily due to an increase in advertising and marketing spend behind the branded spirits portfolio. The Corporate Operations and Other segment's selling, general and administrative expenses were up primarily due to higher consulting service fees associated with the Company's review of its Australian business and other process improvement opportunities, as well as additional costs to support the growth of the Company. The increase in unusual costs was primarily due to the recognition in First Quarter 2009 of the \$23.4 million loss discussed previously in connection with the June 2008 sale of the Pacific Northwest Business.

Selling, general and administrative expenses as a percent of net sales increased to 25.1% for First Quarter 2009 as compared to 21.9% for First Quarter 2008 primarily due to the higher unusual costs, the impact of reporting the lower margin U.K. wholesale business under the equity method of accounting for First Quarter 2009, and increases in the Corporate segment's general and administrative expenses without corresponding increases in the Company's net sales, partially offset by a margin benefit in First Quarter 2009 resulting primarily from the increase in U.S. base branded wine net sales associated with the Fiscal 2008 distributor wine inventory reduction initiative without a corresponding increase in selling, general and administrative expenses.

***Acquisition-Related Integration Costs***

Acquisition-related integration costs increased to \$4.3 million for First Quarter 2009 from \$2.0 million for First Quarter 2008. Acquisition-related integration costs for First Quarter 2009 consisted of costs recorded primarily in connection with the Company's plan to streamline certain of its international operations and costs associated with the consolidation of certain spirits production processes in the U.S., collectively with the U.S. Initiative, the Fiscal 2008 Plan. These costs included \$2.3 million of employee-related costs and \$2.0 million of facilities and other one-time costs. Acquisition-related integration costs for First Quarter 2008 consisted of costs recorded primarily in connection with the Company's plan to restructure and integrate the operations of Vincor International Inc. (Vincor) (the Vincor Plan).

For Fiscal 2009, the Company expects to incur total acquisition-related integration costs of \$11.6 million primarily in connection with the Fiscal 2008 Plan.

**Table of Contents****Restructuring Charges**

The Company recorded \$0.5 million of restructuring charges for First Quarter 2009 associated primarily with the Company's Fiscal 2008 Plan. Restructuring charges included \$0.2 million of employee termination costs and \$0.3 million of facility consolidation/relocation costs. In addition, the Company recorded \$4.0 million of accelerated depreciation costs and \$1.5 million of other costs which were recorded in the cost of product sold line and selling, general and administrative expenses line, respectively, within the Company's Consolidated Statements of Operations for First Quarter 2009 primarily in connection with the Fiscal 2008 Plan and the Company's plan to invest in new distribution and bottling facilities in the U.K. and to streamline certain Australian wine operations (collectively, the

Fiscal 2007 Wine Plan). The Company recorded \$2.3 million of restructuring charges for First Quarter 2008 associated primarily with the Company's plans to reorganize certain worldwide wine operations and to consolidate certain west coast production processes in the U.S. (collectively, the Fiscal 2006 Plan). In addition, in connection with the Company's Fiscal 2007 Wine Plan, the Fiscal 2006 Plan and the Vincor Plan, the Company recorded (i) \$2.1 million of accelerated depreciation costs and \$0.1 million of inventory write-downs and (ii) \$0.5 million of other costs, which were recorded in the cost of product sold line and selling, general and administrative expenses line, respectively, within the Company's Consolidated Statements of Operations for First Quarter 2008.

For Fiscal 2009, the Company expects to incur total restructuring charges of \$15.6 million associated primarily with the Fiscal 2008 Plan and the Fiscal 2006 Plan. In addition, with respect primarily to the Fiscal 2008 Plan and the Fiscal 2007 Wine Plan, the Company expects to incur \$15.3 million and \$7.1 million of charges in selling, general and administrative expenses and cost of product sold, respectively, related primarily to duplicative facility costs in the U.K. and accelerated depreciation, respectively.

**Operating Income**

The following table sets forth the operating income (loss) (in millions of dollars) by operating segment of the Company for First Quarter 2009 and First Quarter 2008.

	First Quarter 2009 Compared to First Quarter 2008		
	Operating Income (Loss)		%
	2009	2008	Increase (Decrease)
Constellation Wines	\$ 144.5	\$ 86.2	68%
Constellation Spirits	10.8	15.8	(32)%
Corporate Operations and Other	(24.0)	(19.7)	22%
Crown Imports	138.6	146.3	(5)%
Consolidations and eliminations	(138.6)	(146.3)	(5)%
Total Reportable Segments	131.3	82.3	60%
Acquisition-Related Integration Costs, Restructuring Charges and Unusual Costs	(40.6)	(14.1)	288%
Consolidated Operating Income	\$ 90.7	\$ 68.2	33%

**Table of Contents**

As a result of the factors discussed above, consolidated operating income increased to \$90.7 million for First Quarter 2009 from \$68.2 million for First Quarter 2008, an increase of \$22.5 million, or 33%. Acquisition-related integration costs, restructuring charges and unusual costs of \$40.6 million for First Quarter 2009 consist of certain costs that are excluded by management in their evaluation of the results of each operating segment. These costs consist primarily of the loss of \$23.4 million, primarily on asset impairments related to an asset group held for sale, in connection with the June 2008 sale of the Pacific Northwest Business; the flow through of inventory step-up of \$6.3 million associated primarily with the BWE Acquisition; and acquisition-related integration costs, accelerated depreciation, other costs and restructuring charges of \$4.3 million, \$4.0 million, \$1.9 million, and \$0.5 million, respectively, associated primarily with the Fiscal 2008 Plan and the Fiscal 2007 Wine Plan. Acquisition-related integration costs, restructuring charges and unusual costs of \$14.1 million for First Quarter 2008 consist primarily of the loss of \$6.1 million on the contribution of the U.K. wholesale business; the flow through of inventory step-up of \$2.9 million associated primarily with the Company's acquisition of Vincor; accelerated depreciation of \$2.1 million associated with the Fiscal 2007 Wine Plan and Fiscal 2006 Plan; acquisition-related integration costs of \$2.0 million associated primarily with the Vincor Plan; and other costs and restructuring charges of \$0.5 million and \$0.4 million, respectively, associated primarily with the Fiscal 2006 Plan and Fiscal 2007 Wine Plan.

***Equity in Earnings of Equity Method Investees***

The Company's equity in earnings of equity method investees decreased to \$72.1 million in First Quarter 2009 from \$75.8 million in First Quarter 2008, a decrease of \$3.7 million, or (5%). This decrease is primarily due to lower equity in earnings of Crown Imports.

Net sales for Crown Imports increased to \$672.5 million for First Quarter 2009 from \$658.1 million for First Quarter 2008, an increase of \$14.4 million, or 2%. This increase resulted primarily from volume growth within the Crown Imports Mexican beer portfolio. Crown Imports gross profit was relatively flat, as increased net sales was offset by a contractual price increase in Mexican beer costs. Selling, general and administrative expenses increased \$7.4 million, primarily due to an increase in advertising expenses resulting from timing of marketing activities. Operating income decreased \$7.7 million, or 5%, primarily due to these factors.

***Interest Expense, Net***

Interest expense, net of interest income of \$1.0 million and \$0.4 million, for First Quarter 2009 and First Quarter 2008, respectively, increased to \$86.6 million for First Quarter 2009 from \$79.7 million for First Quarter 2008, an increase of \$6.9 million, or 9%. The increase resulted primarily from higher average borrowings in First Quarter 2009 as a result of the funding of the BWE Acquisition, partially offset by lower average interest rates.

***Provision for Income Taxes***

The Company's effective tax rate decreased to 41.5% for First Quarter 2009 from 53.7% for First Quarter 2008, a decrease of 12.2 percentage points. The decrease in the Company's effective tax rate for First Quarter 2009 is primarily due to the recognition for the three months ended May 31, 2007, of a nondeductible pretax loss of \$6.1 million in connection with the Company's April 2007 contribution of its U.K. wholesale business to the Matthew Clark joint venture and an additional U.S. tax provision of \$7.2 million related to the future repatriation of unremitted earnings. The Company's effective tax rate for the three months ended May 31, 2008, includes the tax effect of the write-off of nondeductible goodwill related to the sale of certain U.S. wine assets as well as the recognition of a valuation allowance against net operating losses in Australia.

## **Table of Contents**

### ***Net Income***

As a result of the above factors, net income increased to \$44.6 million for First Quarter 2009 from \$29.8 million for First Quarter 2008, an increase of \$14.8 million, or 50%.

## **Financial Liquidity and Capital Resources**

### **General**

The Company's principal use of cash in its operating activities is for purchasing and carrying inventories and carrying seasonal accounts receivable. The Company's primary source of liquidity has historically been cash flow from operations, except during annual grape harvests when the Company has relied on short-term borrowings. In the U.S. and Canada, the annual grape crush normally begins in August and runs through October. In Australia and New Zealand, the annual grape crush normally begins in February and runs through May. The Company generally begins taking delivery of grapes at the beginning of the crush season with payments for such grapes beginning to come due one month later. The Company's short-term borrowings to support such purchases generally reach their highest levels one to two months after the crush season has ended. Historically, the Company has used cash flow from operating activities to repay its short-term borrowings and fund capital expenditures. The Company will continue to use its short-term borrowings to support its working capital requirements. The Company believes that cash provided by operating activities and its financing activities, primarily short-term borrowings, will provide adequate resources to satisfy its working capital, scheduled principal and interest payments on debt, and anticipated capital expenditure requirements for both its short-term and long-term capital needs.

### **First Quarter 2009 Cash Flows**

#### ***Operating Activities***

Net cash used in operating activities for First Quarter 2009 was \$32.7 million, which resulted primarily from \$44.6 million of net income, plus \$51.3 million of net non-cash items charged to the Consolidated Statements of Operations, less \$141.3 million representing the net change in the Company's operating assets and liabilities.

The net non-cash items consisted primarily of depreciation of property, plant and equipment, and the loss on asset impairments related to an asset group held for sale, in connection with the June 2008 sale of the Pacific Northwest Business, partially offset by equity in earnings of equity method investees, net of distributed earnings. The net change in operating assets and liabilities resulted primarily from increases in accounts receivable and inventories of \$53.1 million and \$69.0 million, respectively, and a decrease in other accrued expenses and liabilities of \$58.7 million. The increase in accounts receivable is primarily due to seasonality as January and February are typically the Company's lowest selling months. The increase in inventories is primarily attributable to increases in Australian and New Zealand inventory levels resulting from the 2008 grape harvest. The decrease in other accrued expenses and liabilities is primarily attributable to a reduction in accrued salaries and commissions as a result of the payment of year-end bonus accruals during First Quarter 2009.

#### ***Investing Activities***

Net cash used in investing activities for First Quarter 2009 was \$15.7 million, which resulted primarily from \$22.2 million of capital expenditures.

**Table of Contents*****Financing Activities***

Net cash provided by financing activities for First Quarter 2009 was \$53.1 million resulting primarily from net proceeds from notes payable of \$85.8 million, partially offset by principal payments of long-term debt of \$49.5 million.

***Debt***

Total debt outstanding as of May 31, 2008, amounted to \$5,292.9 million, an increase of \$35.4 million from February 29, 2008. The ratio of total debt to total capitalization decreased to 64.8% as of May 31, 2008, from 65.5% as of February 29, 2008.

***Senior Credit Facility*****2006 Credit Agreement**

On June 5, 2006, the Company and certain of its U.S. subsidiaries, JPMorgan Chase Bank, N.A. as a lender and administrative agent, and certain other agents, lenders, and financial institutions entered into a new credit agreement (the June 2006 Credit Agreement). On February 23, 2007, and on November 19, 2007, the June 2006 Credit Agreement was amended (collectively, the 2007 Amendments). The June 2006 Credit Agreement together with the 2007 Amendments is referred to as the 2006 Credit Agreement. The 2006 Credit Agreement provides for aggregate credit facilities of \$3.9 billion, consisting of a \$1.2 billion tranche A term loan facility due in June 2011, a \$1.8 billion tranche B term loan facility due in June 2013, and a \$900 million revolving credit facility (including a sub-facility for letters of credit of up to \$200 million) which terminates in June 2011. Proceeds of the June 2006 Credit Agreement were used to pay off the Company's obligations under its prior senior credit facility, to fund the June 5, 2006, acquisition of all of the issued and outstanding common shares of Vincor (the Vincor Acquisition), and to repay certain indebtedness of Vincor. The Company uses its revolving credit facility under the 2006 Credit Agreement for general corporate purposes.

As of May 31, 2008, the required principal repayments of the tranche A term loan and the tranche B term loan for the remaining nine months of fiscal 2009 and for each of the five succeeding fiscal years are as follows:

<i>(in millions)</i>	Tranche A	Tranche B	Total
	Term Loan	Term Loan	
2009	\$ 165.0	\$ 2.0	\$ 167.0
2010	270.0	4.0	274.0
2011	300.0	4.0	304.0
2012	150.0	4.0	154.0
2013		714.0	714.0
2014		712.0	712.0
	\$ 885.0	\$ 1,440.0	\$ 2,325.0

**Table of Contents**

The rate of interest on borrowings under the 2006 Credit Agreement is a function of LIBOR plus a margin, the federal funds rate plus a margin, or the prime rate plus a margin. The margin is fixed with respect to the tranche B term loan facility and is adjustable based upon the Company's debt ratio (as defined in the 2006 Credit Agreement) with respect to the tranche A term loan facility and the revolving credit facility. As of May 31, 2008, the LIBOR margin for the revolving credit facility and the tranche A term loan facility is 1.25%, while the LIBOR margin on the tranche B term loan facility is 1.50%.

The February 23, 2007, amendment amended the June 2006 Credit Agreement to, among other things, (i) increase the revolving credit facility from \$500.0 million to \$900.0 million, which increased the aggregate credit facilities from \$3.5 billion to \$3.9 billion; (ii) increase the aggregate amount of cash payments the Company is permitted to make in respect or on account of its capital stock; (iii) remove certain limitations on the incurrence of senior unsecured indebtedness and the application of proceeds thereof; (iv) increase the maximum permitted total Debt Ratio and decrease the required minimum Interest Coverage Ratio; and (v) eliminate the Senior Debt Ratio covenant and the Fixed Charges Ratio covenant. The November 19, 2007, amendment clarified certain provisions governing the incurrence of senior unsecured indebtedness and the application of proceeds thereof under the June 2006 Credit Agreement, as previously amended.

The Company's obligations are guaranteed by certain of its U.S. subsidiaries. These obligations are also secured by a pledge of (i) 100% of the ownership interests in certain of the Company's U.S. subsidiaries and (ii) 65% of the voting capital stock of certain of the Company's foreign subsidiaries.

The Company and its subsidiaries are also subject to covenants that are contained in the 2006 Credit Agreement, including those restricting the incurrence of additional indebtedness (including guarantees of indebtedness), additional liens, mergers and consolidations, disposition or acquisition of property, the payment of dividends, transactions with affiliates and the making of certain investments, in each case subject to numerous conditions, exceptions and thresholds. The financial covenants are limited to maximum total debt coverage ratios and minimum interest coverage ratios.

As of May 31, 2008, under the 2006 Credit Agreement, the Company had outstanding tranche A term loans of \$885.0 million bearing an interest rate of 4.9%, tranche B term loans of \$1,440.0 million bearing an interest rate of 4.9%, revolving loans of \$283.5 million bearing an interest rate of 3.6%, outstanding letters of credit of \$36.8 million, and \$579.7 million in revolving loans available to be drawn.

As of June 30, 2008, under the 2006 Credit Agreement, the Company had outstanding tranche A term loans of \$840.0 million bearing an interest rate of 3.8%, tranche B term loans of \$1,440.0 million bearing an interest rate of 4.1%, revolving loans of \$73.5 million bearing an interest rate of 3.6%, outstanding letters of credit of \$36.6 million, and \$789.9 million in revolving loans available to be drawn.

As of May 31, 2008, the Company had outstanding interest rate swap agreements which fixed LIBOR interest rates on \$1.2 billion of the Company's floating LIBOR rate debt at an average rate of 4.1% through fiscal 2010. For First Quarter 2009 and First Quarter 2008, the Company reclassified \$2.4 million and \$1.8 million, net of income tax effect, respectively, from Accumulated Other Comprehensive Income (AOCI) to the interest expense, net line in the Company's Consolidated Statements of Operations. This non-cash operating activity is included on the other, net line in the Company's Consolidated Statements of Cash Flows.

**Accounting Pronouncements Not Yet Adopted**

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 158 ( SFAS No. 158 ), Employers Accounting for Defined Benefit Pension and Other Postretirement Plans an amendment of FASB Statements No. 87, 88, 106, and 132(R). SFAS No. 158 requires companies to recognize the overfunded or underfunded status of a defined benefit postretirement plan (other than a multiemployer plan) as an asset or liability in its balance sheet and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. The Company adopted this provision of SFAS No. 158 and provided the required disclosures as of February 28, 2007. SFAS No. 158 also requires companies to measure the funded status of a plan as of the date of the company s fiscal year-end (with limited exceptions), which provision the Company is required to adopt as of February 28, 2009. The Company uses a December 31 measurement date for its defined benefit pension and other post-retirement plans and has elected to transition to a fiscal year-end measurement date utilizing the second alternative prescribed by SFAS No. 158. Accordingly, on March 1, 2008, the Company recognized adjustments to its opening retained earnings, accumulated other comprehensive income, net of income tax effect, and pension and other post-retirement plan assets or liabilities. These adjustments did not have a material impact on the Company s consolidated financial statements.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141 (revised 2007) ( SFAS No. 141(R) ), Business Combinations. SFAS No. 141(R), among other things, establishes principles and requirements for how the acquirer in a business combination (i) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquired business, (ii) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase, and (iii) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. The Company is required to adopt SFAS No. 141(R) for all business combinations for which the acquisition date is on or after March 1, 2009. Earlier adoption is prohibited.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160 ( SFAS No. 160 ), Noncontrolling Interests in Consolidated Financial Statements An Amendment of ARB No. 51. SFAS No. 160 amends Accounting Research Bulletin No. 51 ( ARB No. 51 ), Consolidated Financial Statements, to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. This statement also amends certain of ARB No. 51 s consolidation procedures for consistency with the requirements of SFAS No. 141(R). In addition, SFAS No. 160 also includes expanded disclosure requirements regarding the interests of the parent and its noncontrolling interest. The Company is required to adopt SFAS No. 160 for fiscal years beginning March 1, 2009. Earlier adoption is prohibited. The Company is currently assessing the financial impact of SFAS No. 160 on its consolidated financial statements.

In March 2008, the FASB issued Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities An Amendment of FASB Statement No. 133 ( SFAS No. 161 ). SFAS No. 161 requires enhanced disclosures about an entity s derivative and hedging activities to enable investors to better understand their effects on an entity s financial position, financial performance, and cash flows. The Company is required to adopt SFAS No. 161 for its interim period beginning December 1, 2008, with earlier application encouraged. The Company is currently assessing the financial impact of SFAS No. 161 on its consolidated financial statements.

All statements other than statements of historical facts included in this Quarterly Report on Form 10-Q, including without limitation the statements under Part I Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operation regarding (i) the Company's business strategy, future financial position, prospects, plans and objectives of management, (ii) the Company's expected purchase price allocations, restructuring charges, accelerated depreciation, acquisition-related integration costs, and other costs, and (iii) information concerning expected actions of third parties are forward-looking statements. When used in this Quarterly Report on Form 10-Q, the words anticipate, intend, expect, and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain such identifying words. All forward-looking statements speak only as of the date of this Quarterly Report on Form 10-Q. In addition to the risks and uncertainties of ordinary business operations, the forward-looking statements of the Company contained in this Quarterly Report on Form 10-Q are also subject to the risk and uncertainty that the Company's purchase price allocations, restructuring charges, accelerated depreciation, acquisition-related integration costs, and other costs may vary materially from current expectations due to, among other reasons, variations in anticipated headcount reductions, contract terminations, equipment relocation or costs of implementation. For additional information about risks and uncertainties that could adversely affect the Company's forward-looking statements, please refer to Item 1A Risk Factors of the Company's Annual Report on Form 10-K for the fiscal year ended February 29, 2008.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

The Company, as a result of its global operating, acquisition and financing activities, is exposed to market risk associated with changes in foreign currency exchange rates and interest rates. To manage the volatility relating to these risks, the Company periodically purchases and/or sells derivative instruments including foreign currency exchange contracts and interest rate swap agreements. The Company uses derivative instruments solely to reduce the financial impact of these risks and does not use derivative instruments for trading purposes.

Foreign currency derivative contracts are or may be used to hedge existing foreign currency denominated assets and liabilities, forecasted foreign currency denominated sales both to third parties as well as intercompany sales, intercompany principal and interest payments, and in connection with acquisitions or joint venture investments outside the U.S. As of May 31, 2008, the Company had exposures to foreign currency risk primarily related to the Australian dollar, euro, New Zealand dollar, British pound sterling, Canadian dollar and Mexican peso.

As of May 31, 2008, and May 31, 2007, the Company had outstanding foreign exchange derivative instruments with a notional value of \$2,202.1 million and \$2,177.3 million, respectively. Approximately 74.9% of the Company's total exposures were hedged as of May 31, 2008. Using a sensitivity analysis based on estimated fair value of open contracts using forward rates, if the contract base currency had been 10% weaker as of May 31, 2008, and May 31, 2007, the fair value of open foreign exchange contracts would have been decreased by \$160.6 million and \$162.4 million, respectively. Losses or gains from the revaluation or settlement of the related underlying positions would substantially offset such gains or losses on the derivative instruments.

The fair value of fixed rate debt is subject to interest rate risk, credit risk and foreign currency risk. The estimated fair value of the Company's total fixed rate debt, including current maturities, was \$2,545.7 million and \$2,282.4 million as of May 31, 2008, and May 31, 2007, respectively. A hypothetical 1% increase from prevailing interest rates as of May 31, 2008, and May 31, 2007, would have resulted in a decrease in fair value of fixed interest rate long-term debt by \$125.1 million and \$112.7 million, respectively.

As of May 31, 2008, and May 31, 2007, the Company had outstanding interest rate swap agreements to minimize interest rate volatility. The swap agreements fix LIBOR interest rates on \$1,200.0 million of the Company's floating LIBOR rate debt at an average rate of 4.1% through fiscal 2010. A hypothetical 1% increase from prevailing interest rates as of May 31, 2008, and May 31, 2007, would have increased the fair value of the interest rate swaps by \$17.8 million and \$34.0 million, respectively.

In addition to the \$2,545.7 million and \$2,282.4 million estimated fair value of fixed rate debt outstanding as of May 31, 2008, and May 31, 2007, respectively, the Company also had variable rate debt outstanding (primarily LIBOR based) as of May 31, 2008, and May 31, 2007, of \$2,789.9 million and \$2,762.3 million, respectively. Using a sensitivity analysis based on a hypothetical 1% increase in prevailing interest rates over a 12-month period, the approximate increase in cash required for interest as of May 31, 2008, and May 31, 2007, is \$27.9 million and \$27.6 million, respectively.
